

Rating Action: Moody's assigns Aa1 to Ohio's G.O. Refunding Bonds, Ser. 2020A and 2020B; outlook stable

10 Jun 2020

New York, June 10, 2020 -- Moody's Investors Service has assigned Aa1 ratings to the State of Ohio's \$194.7 million Higher Education General Obligation Refunding Bonds, Series 2020A (Federally Taxable), \$115.3 million Common Schools General Obligation Refunding Bonds, Series 2020A (Federally Taxable), \$141 million Infrastructure Improvement General Obligation Refunding Bonds, Series 2020A (Federally Taxable), \$93 million Higher Education General Obligation Refunding Bonds, Series 2020B (Tax-Exempt), \$111.7 million Common Schools General Obligation Refunding Bonds, Series 2020B (Tax-Exempt), and \$73.1 million Infrastructure Improvement General Obligation Refunding Bonds, Series 2020B (Tax-Exempt). The bonds are expected to price the week of June 17. The outlook on the bonds is stable.

RATINGS RATIONALE

The Aa1 rating is based on the state's strong budgetary and financial management, sound reserve levels, and affordable fixed costs associated with below-average long-term debt, pension and retiree healthcare (OPEB) liabilities. These strengths are offset by below-average economic growth, compounded by weak demographic trends.

We regard the coronavirus outbreak as a social risk under our ESG framework, given the substantial implications for public health and safety. The coronavirus crisis is not a key driver for this rating action. We do not see any material immediate credit risks for the State of Ohio. However, the situation surrounding Coronavirus is rapidly evolving and the longer term impact will depend on both the severity and duration of the crisis. If our view of the credit quality of the State of Ohio changes, we will update the rating and/or outlook at that time.

RATING OUTLOOK

The stable outlook is based on our expectation that the state's proactive financial management, low fixed costs, fully-funded rainy day fund and substantial available liquidity will continue to support satisfactory budget flexibility during the severe economic disruption and revenues declines related to the coronavirus outbreak.

Based on preliminary revenue figures through May, the fiscal 2020 year-to-date revenue gap increased to 4.9% (\$1.05 billion) below budget from 4% in the prior month. May monthly tax collections were 13% below budget and 15.6% below May 2019. The state plans to fully balance the fiscal 2020 budget gap with spending reductions and has a \$2.7 billion rainy day fund available to stabilize the fiscal 2021 budget if necessary.

FACTORS THAT COULD LEAD TO AN UPGRADE OF THE RATINGS

- Improved demographic trends, particularly in working age population growth, net migration, and age distribution, that contribute to stronger economic growth relative to peers
- Maintenance of a budget in structural surplus, together with an increase in pension contributions sufficient to "tread water"
- Development of governance tools such as consensus revenue forecasting or publicly available long-term forecasts that institutionalize current best practices, increase transparency, and ensure consistency across administrations

FACTORS THAT COULD LEAD TO A DOWNGRADE OF THE RATINGS

- Further weakening of employment, personal income or demographic trends
- Financial deterioration, including a return to budgetary structural imbalance and/or materially lower reserve levels
- Unanticipated rise in long-term liabilities and an increase in fixed-costs

LEGAL SECURITY

The general obligation bonds are secured by a pledge of the full faith and credit, revenue and taxing power of the State of Ohio. Highway user receipts (i.e. motor vehicle fees and taxes, and fuel taxes) and net lottery proceeds are specifically excluded from the state's general obligation pledge. Debt service payments on the bonds do not depend on the progress, completion, or operation of the facilities or projects that they finance.

USE OF PROCEEDS

Proceeds of the Series 2020A bonds will refund outstanding general obligation bonds for net present value savings with no extension of final maturity. Proceeds of the Series 2020B bonds will refund debt service due in fiscal 2021 to provide budgetary savings to the state. A small selection of maturities (less than \$60 million) will be extended three years past the current final maturity, however this will have minimal impact on the average maturity of the state's total debt portfolio.

Although a portion of the current refunding is restructuring debt service for budgetary relief rather than for savings, the net impact of the six refundings will result in net present value savings approximate to 10.9% of refunded par.

PROFILE

The state of Ohio has a population of 11.7 million, located in the Midwest region of the US with 312 miles of shoreline along Lake Erie, according to NOAA. The state is the seventh-largest US state by population, and has a large, diverse economy reflected in its GDP of \$676 billion (also seventh among the states).

Moody's Investors Service, Inc., a wholly-owned credit rating agency subsidiary of Moody's Corporation

("MCO"), hereby discloses that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by Moody's Investors Service, Inc. have, prior to assignment of any credit rating, agreed to pay to Moody's Investors Service, Inc. for credit ratings opinions and services rendered by it fees ranging from \$1,000 to approximately \$2,700,000. MCO and Moody's Investors Service also maintain policies and procedures to address the independence of Moody's Investors Service credit ratings and credit rating processes. Information regarding certain affiliations that may exist between directors of MCO and rated entities, and between entities who hold credit ratings from Moody's Investors Service and have also publicly reported to the SEC an ownership interest in MCO of more than 5%, is posted annually at www.moodys.com under the heading "Investor Relations — Corporate Governance — Director and Shareholder Affiliation Policy."

MOODY'S credit rating is an opinion as to the creditworthiness of a debt obligation of the issuer, not on the equity securities of the issuer or any form of security that is available to retail investors.

Additional terms for Japan only: Moody's Japan K.K. ("MJKK") is a wholly-owned credit rating agency subsidiary of Moody's Group Japan G.K., which is wholly-owned by Moody's Overseas Holdings Inc., a wholly-owned subsidiary of MCO. Moody's SF Japan K.K. ("MSFJ") is a wholly-owned credit rating agency subsidiary of MJKK. MSFJ is not a Nationally Recognized Statistical Rating Organization ("NRSRO"). Therefore, credit ratings assigned by MSFJ are Non-NRSRO Credit Ratings. Non-NRSRO Credit Ratings are assigned by an entity that is not a NRSRO and, consequently, the rated obligation will not qualify for certain types of treatment under U.S. laws. MJKK and MSFJ are credit rating agencies registered with the Japan Financial Services Agency and their registration numbers are FSA Commissioner (Ratings) No. 2 and 3 respectively.

MJKK or MSFJ (as applicable) hereby disclose that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by MJKK or MSFJ (as applicable) have, prior to assignment of any credit rating, agreed to pay to MJKK or MSFJ (as applicable) for credit ratings opinions and services rendered by it fees ranging from JPY125,000 to approximately JPY250,000,000.

MJKK and MSFJ also maintain policies and procedures to address Japanese regulatory requirements.
