## MEMORANDUM

**TO:** *Members of the Controlling Board*

**FROM:** Timothy S. Keen, Director *TK*

**DATE:** August 29, 2012

**RE:** General and Specific List – New Capital Appropriations

House Bills 482 and 487 authorized new capital appropriations for fiscal years 2013 and 2014. This memorandum and the attached list fulfills the reporting requirement contained in section 126.14 of the Ohio Revised Code that directs the Director of Budget and Management to determine what capital appropriations are for general projects and what are for specific projects and to then provide a list of these determinations as well as a brief description and budget for each project to the Controlling Board. The Director of Budget and Management is then authorized to release appropriations for specific projects, while only the Controlling Board may release those appropriations for general projects or for the purchase of real estate.

The attached document contains the required plan, identifying in the column titled Designation - General "G" Specific "S", those appropriations that have been determined to be for specific projects and those that have been determined to be for general projects. An exception to this determination for certain appropriations is authorized in Section 509.60 of House Bill 482, which explicitly authorizes the release of capital appropriations from Funds 7038 and 7040 (Public Works Commission) and 7032 (School Facilities Commission) by the Director of Budget and Management. As a result, the appropriations made from those funds are not designated either General or Specific, but are instead marked with an asterisk.
