Ohio's FUTURE

BUDGET OF THE STATE OF OHIO | FISCAL YEARS 2020 - 2021

Budget Recommendations

The State of Ohio Executive Budget
Fiscal Years **2020-2021**

MIKE DEWINE
GOVERNOR OF OHIO

Office of Budget and Management
Director Kimberly Murnieks

The Blue Book: Book One of Three

**Governor Mike DeWine
State of Ohio, Executive Budget Recommendations
for Fiscal Years 2020-2021**

**Developed by the Ohio Office of Budget and Management
Under Director Kimberly Murnieks**

Presented to the Ohio General Assembly on March 15th, 2019

First Published on Friday March 15th, 2019 at 11:00am.
See the errata sheet for a list of changes since initial publication.

*NOTE: These pages represent the Governor's proposed budget. The budget may be changed by the House and Senate before being signed into law.
For State funding actuals, please see the Main Operating Budget (Final Budget "Green Book") published by the 133rd General Assembly after July 1st, 2019.*

March 15, 2019

Fellow Ohioans and Members of the General Assembly:

As I shared in my State of the State address, the Bible tells us that there is a time and a place for everything. Now is the time for us to invest in Ohio.

We must invest in our children to help our youngest Ohioans get the best start in life.

We must invest in efforts to fight mental health and substance use disorders so our fellow Ohioans can lead fulfilling, healthy lives.

We must invest in Ohio's workers and in innovation and technology that spurs job creation so our families can prosper.

And, we must invest in preserving and protecting Lake Erie and all of Ohio's waterways, so that all Ohioans have access to clean water and our outdoor spaces are preserved for generations to come.

The operating budget I have proposed for Fiscal Years 2020-2021 reflects these priorities. And, as you will see, I am asking that we make investments where the returns will not all be immediate. For example, we won't see right away the productive adults that Ohio's children become because of our investment in their health and wellbeing today, nor will we immediately know the lives that are saved through our efforts to prevent addiction. In many cases, we won't see results from some of our budget investments during the term of this administration or even in our lifetimes --yet, we still must act.

As we introduce this budget, the state is in strong fiscal condition, finishing Fiscal Year 2019 with a surplus, maintaining a significant balance in the Budget Stabilization Fund, and continuing to operate with a budget which is structurally balanced. This strong fiscal position enables us to pay as we go to address important issues facing the citizens of Ohio with this budget that supports our vision for Ohio.

I quoted the words of Robert Louis Stevenson in my State of the State address. He said, "Don't judge each day by the harvest you reap, but [rather] by the seeds that you plant." The FY 2020-2021 budget we have proposed today plants the seeds of hope and possibility that will lead to opportunity for future generations of Ohioans, for our investments today will help our fellow Ohioans live lives of self-sufficiency tomorrow.

Very respectfully yours,

A handwritten signature in blue ink that reads "Mike DeWine". The signature is fluid and cursive, with the first name "Mike" and last name "DeWine" clearly distinguishable.

Mike DeWine
Governor

Ohio's FUTURE

BUDGET OF THE STATE OF OHIO | FISCAL YEARS 2020 - 2021

SECTION A

READER'S GUIDE

Introduction to the Executive Budget

The Reader's Guide is an introductory section of the Executive Budget that contains general information to help readers understand and use the contents of Governor DeWine's budget proposal for fiscal years 2020 and 2021. It contains the following informational sections:

- Demographic information about Ohio;
- State of Ohio organization chart;
- Glossary of key terms;
- Summary of the state's financial accounting method;
- Description of the process used to develop the state budget, including a budget calendar;
- Description and listing of state funds;
- Frequently asked questions about the budget; and

Background

The state's first Constitution was adopted in 1802, and Ohio entered the union in 1803. Ohio's present Constitution was modified by a state Constitutional Convention in 1851 and has since been amended on numerous occasions. The Constitution establishes a state governmental structure similar to the federal model, with three separate branches of government: executive, legislative, and judicial.

The executive branch consists of the Governor and Lieutenant Governor, who are jointly elected, and four additional statewide elected officials: the Attorney General, the Auditor of State, the Secretary of State, and the Treasurer of State. All of these officials are elected to four-year terms. Over 100 departments, agencies, boards, and commissions are part of the executive branch of government and receive appropriations from the legislature, along with three judicial and eight legislative agencies.

The state legislature in Ohio is referred to as the General Assembly and consists of two separate chambers: the Senate, a 33-member body, and the House of Representatives, a 99-member body. Each member of the General Assembly is elected to represent the residents of a geographical district for a specified term. Members of Ohio's General Assembly are subject to term limits: Senators are restricted to serving two four-year terms and Representatives are restricted to serving four two-year terms. Each chamber has a presiding officer to call the chamber to order and direct the calendar of events. The presiding officer in the Senate is the President of the Senate, and the presiding officer in the House of Representatives is the Speaker of the House. A new General Assembly is convened in January of each odd-numbered year. The legislature that convened in January 2019 is the state's 133rd General Assembly.

Along with the establishment of the state governmental structure, the State Constitution requires Ohio to have a balanced budget. Ohio's budget is prepared for a period of two years, a biennium, which begins on July 1 of odd-numbered years and ends 24 months later on June 30. Within a biennium are two separate fiscal years, each beginning on July 1 and ending on June 30. The budget proposed by Governor DeWine in this document is for the two-year period beginning July 1, 2019 and ending June 30, 2021.

Overview

The Executive Budget for fiscal years 2020 and 2021, as submitted to the General Assembly by Governor DeWine, consists of two separate documents. Book One, prepared by the Office of Budget and Management, contains detailed spending and revenue information, required by law, and summary information to help readers understand the policy and financial context of the Governor's proposals. Book Two, a report on the state's tax expenditures, is prepared by the Department of Taxation. This section focuses on the organization of Book One.

Introduction to the Executive Budget

Governor's Message

The first item in the Executive Budget is a letter from Governor DeWine to the people of Ohio and the General Assembly. Governor DeWine's letter provides an overview of his budget recommendations and outlines his goals and priorities for the fiscal year 2020-2021 biennium.

Section A-Reader's Guide

The Reader's Guide section is intended to help the reader understand the Executive Budget document. The Guide provides demographic information about the state, a State of Ohio organization chart, a glossary of key terms, a summary of the state's financial accounting method, a description of the budget process, a listing and description of state funds, answers to frequently asked questions about the budget, and a guide to reading the tables.

Section B-Economic Forecast and Income Estimates

This section contains information on the forecasts for the national and state economies for fiscal years 2020 and 2021. It describes the methods used to estimate future revenues and also contains a summary table of historical and estimated revenues and ending balances.

Section C-Budget Overview

This section summarizes revenue estimates and spending recommendations for fiscal years 2020 and 2021. It contains information describing historical and estimated General Revenue Fund (GRF) balances, information describing the relationship between debt service spending and GRF revenues, and ending fund balances by budget fund group for each year of the biennium. It also contains information on the state's capital budget.

Section D-Agency Budget Recommendations

This section contains historical and recommended spending information as well as narrative descriptions for all state agencies. The agencies appear in alphabetical order by the first key word in an agency's name. The narrative provides an overview of that agency's role, followed by the Governor's funding recommendations for each agency program series for fiscal years 2020 and 2021.

Narratives for certain agencies may also include Appropriation Line Item (ALI) analyses, which could include one or more of the following:

- ALI Analysis is provided to explain significant budget changes such as ALIs that are proposed to end or have substantial increases or decreases in appropriation.
- ALI and Fund Restructuring is provided for agencies that have changed their line item structures to accommodate a more accurate presentation of funding. With a new line item structure, it is difficult for the reader to understand how funding levels have changed over time. In order to illustrate changes in funding for new line items, estimated fiscal year 2019 amounts are converted from the current line item structure into the proposed line item structure. This is then compared to recommended funding levels for fiscal years 2020 and 2021.

Each agency also has four main budget tables that provide historical and recommended spending information. The budget tables are described in more detail in the Guide to Reading the Budget Tables.

The State of Ohio

History

Of Ohio's first inhabitants during the prehistoric era, the Adena (800 B.C. - 100 A.D.) were the first to farm Ohio, and the Hopewell (100 B.C. - 400 A.D.) built Ohio's mounds that can still be seen today. Marietta, established in 1788 by New England Revolutionary War veterans, was the first permanent non-native settlement in the state. Ohio was admitted to the union as the 17th state in 1803, and was the first state created from the Northwest Territory. Chillicothe was designated as the first capital of the new state until 1810, when the capital was moved to Zanesville. The capital was temporarily moved back to Chillicothe in 1812, and Columbus became the state's permanent capital in 1816.

Ohioans have played important roles in our nation's history. There have been eight presidents from Ohio, earning Ohio the nickname "the Mother of Presidents." Ohio is also the birthplace of world-famous inventors, actors, athletes, authors, and astronauts. March 1, 2019, marked the 216th anniversary of statehood for Ohio, a state with many accomplishments, a rich history and culture, and a strong future.

Governance

The state's first Constitution was adopted in 1802, and Ohio entered the union in 1803. Ohio's present Constitution was modified by a state Constitutional Convention in 1851 and has since been amended on numerous occasions. The Constitution establishes a state governmental structure similar to the federal model, with three separate branches of government: executive, legislative, and judicial.

The executive branch consists of the Governor and Lieutenant Governor, who are jointly elected, and four additional statewide elected officials: the Attorney General, the Auditor of State, the Secretary of State, and the Treasurer of State. All of these officials are elected to four-year terms. Over 100 departments, agencies, boards, and commissions are part of the executive branch of government and receive appropriations from the legislature, along with three judicial and five legislative agencies.

The state legislature in Ohio is referred to as the General Assembly and consists of two separate chambers: the Senate, a 33-member body, and the House of Representatives, a 99-member body. Each member of the General Assembly is elected to represent the residents of a geographical district for a specified term. Members of Ohio's General Assembly are subject to term limits: Senators are restricted to serving two four-year terms and Representatives are restricted to serving four two-year terms. Each chamber has a presiding officer to call the chamber to order and direct the calendar of events. The presiding officer in the Senate is the President of the Senate, and the presiding officer in the House of Representatives is the Speaker of the House. A new General Assembly is convened in January of each odd-numbered year. The legislature that convened in January 2019 is the state's 133rd General Assembly.

Along with the establishment of the state governmental structure, the State Constitution requires Ohio to have a balanced budget. Ohio's budget is prepared for a period of two years, a biennium, which begins on July 1 of odd-numbered years and ends 24 months later on June 30. Within a biennium are two separate fiscal years, each beginning on July 1 and ending on June 30. The budget proposed by Governor DeWine in this document is for the two-year period beginning July 1, 2019 and ending June 30, 2021.

Demographics

Ohio's population of approximately 11.7 million is the seventh largest in the nation and accounts for 3.6% of the total U.S. population. During the 1950s, Ohio gained 1.8 million residents and grew by 22%, compared to the national average of 19%. Since then, the rate of growth has increased and from April 1, 2010 to July 1, 2018, Ohio's population estimates grew by 1.3%, while the nation's total population grew by 6%. Over this same time period, Ohio ranked 7th in numeric growth and 37th in percentage change growth.

The geographic location of the majority of the population has been fairly consistent over the last several decades, with four out of five Ohioans living in a metropolitan area. As of 2017 over one third of Ohioans live in the four northeast Ohio metropolitan areas of Akron, Canton, Cleveland, and Youngstown, while approximately one in four live in the southwestern metropolitan areas of Cincinnati and Dayton.

The State of Ohio

In 2017, Ohio's per capita income was \$29,011, while its median household income was \$52,407. Ohio's unemployment rate as of December 2018 was 4.6%, compared with 4.9% one year ago. The national rate for December 2018 was 3.9%. The number of jobs in Ohio is expected to rise approximately 4.4% over the ten-year period from 2016-2026, which is a projected increase of more than 253,000 jobs.

Figure A-1: State of Ohio Demographic Information

State Population		Percent of State Population by Race and Hispanic Origin		Other Demographic Facts	
Female	51.0%	White	82.20%	Population under 5 years	6.00%
Male	49.0%	African-American	12.90%	Population under 18 years	22.30%
Total		Asian	2.30%	Population over 65 years	16.70%
		Native American	0.30%	Homeownership rate	66.10%
		Pacific Islander	0.10%	Foreign born residents	4.30%
		Two or More Races	2.10%	High school graduates	89.80%
		Hispanic (may be of any race)	3.60%	Bachelor's degree or higher	27.20%
		Total Minority*	20.90%	Veterans	6.40%

* "Total Minority" is the total population minus white non-Hispanic or Latino
Source U.S. Census Bureau: State and County Quick Facts, Revised July 1, 2018

Economy

Ohio's gross domestic product was estimated at \$645.7 billion in 2017, which represents an increase of almost 4.0% compared to 2016 revised estimates and an increase of 87.9% compared to 1997. This makes Ohio the 7th largest state economy in the nation in 2017 with 3.4 percent of the national total. Ohio ranks 3rd in the nation in manufacturing gross domestic product, producing \$107.9 billion worth of goods - 4.8 percent of America's manufacturing output in 2017. Because of its diverse population and its location, Ohio has become home to a variety of businesses and industries, including tourism, manufacturing, agriculture, and the service industry. Manufacturing is the largest of Ohio's major sectors, based on gross domestic product. The state's factories are among the nation's leading sources for the production of plastics, rubber, fabricated metals, and electrical equipment and appliances. The state's largest durable goods manufacturing industries are transportation equipment and fabricated metals. These two industries are closely identified with a number of nationally recognized firms with a major presence in Ohio, including General Electric, General Motors, Ford, Chrysler, Honda, AK Steel, ArcelorMittal, Timken, and Whirlpool. In 2017, Ohio was the 9th largest exporting state in the nation with \$50.1 billion in merchandise exports. By comparison, the United States experienced an increase of 6.6 percent in exports since 2016. In 2017, the state's leading export commodities were machinery and motor vehicles. In total, Ohio firms shipped products to 213 countries.

Ohio is the headquarters for 25 members of the 2017 Fortune 500, including Cardinal Health, Kroger, Marathon Petroleum, Procter & Gamble, Nationwide Insurance, Macy's, Goodyear Tire and Rubber, Progressive, American Electric Power, FirstEnergy, Parker-Hannifin, L Brands, Sherwin-Williams, TravelCenters of America, Fifth Third Bancorp, Owens-Illinois, and Dana Holding Corporation. Ohio is home to the Cleveland Clinic, the Ohio State University, Case Western Reserve University, Wright-Patterson Air Force Base, Battelle Memorial Institute, NASA's Lewis Research Center, leading hospitals, and a major operations center for J.P. Morgan Chase.

Ohio's companies are also technology intensive. Battelle has used federal government standards to identify over 28,000 establishments employing 820,000 people as Ohio's technology engine. Overall, Ohio has a 14% higher concentration of technology operations than the nation. In research, Ohio's educational institutions and private research facilities have core strengths in advanced manufacturing, biosciences, instruments and controls, power and propulsion, and information technology. The National Science Foundation identifies \$12.0 billion in R&D contracts in Ohio, ranking the state 11th nationally. Individuals in Ohio received over 3,473 patents ranking the state 13th nationally. The Ohio State University, Case Western Reserve University, and the University of Cincinnati are major research institutions that receive over \$150 million annually in federal research grants. Combined with NASA Glenn, Battelle Institute, and Wright-Patterson Air Force Base, Ohio is a major center of emerging technologies.

Figure A-2: Gross State Product by Sector

State of Ohio Organization Table

Figure A-3: State of Ohio Organization Table

Organization Table as proposed in fiscal years 2020-2021 Executive Budget

Glossary of Key Terms

Agency Priority: A broad goal toward which a state agency strives. Agency priorities tie to the Governor's overall agenda. They also guide the objectives to be accomplished by the executive funding recommendations, as stated for each agency.

Appropriation: An authorization granted by the Ohio General Assembly to make expenditures and incur obligations for specific purposes. An appropriation limits the amount that may be spent for a given purpose in a given period of time. No appropriation may be made for a period longer than two years.

Appropriation Line Item (ALI), or Line Item: An ALI is a six-digit numeric code (in the format xxxyyy) used to identify and account for amounts appropriated for the activities of an agency. The first three digits identify the administering agency, division, or activity responsible for the specific purpose. The last three digits indicate the specific purpose.

Balanced Budget: A budget where expenditures do not exceed the amount of cash and revenue available within each fiscal year.

Biennium: A two-year period. In Ohio, the fiscal biennium begins July 1 and ends 24 months later on June 30.

Budget: A plan for the expenditure of funds to support an agency, program, or project.

Budget Fund Group, or Fund Group: The categories used to group similar state funds for Ohio's budgetary reporting purposes. Funds are categorized according to their revenue sources and the purposes for which they are used.

Budget Stabilization Fund: A reserve balance account that receives transfers from the GRF. The balance in this fund is intended to stabilize budgets against cyclical changes in revenues and expenditures. This fund can carry a balance of up to five percent of prior-year GRF revenues.

Capital Budget: The budget for the acquisition or construction of major capital items including land, buildings, structures, and equipment. The capital biennium covers a two-year period beginning in odd-numbered fiscal years. Moneys for the capital projects are typically appropriated from funds whose revenue comes from bond sales.

Capital Expenditure: Funds spent by state agencies from capital budget appropriations for the acquisition of a long-term asset.

Cash: Actual balance of moneys available to support disbursements and appropriations. All state dedicated purpose funds, federal funds, and bond funds must have an available cash balance to support disbursements. Agencies that receive a GRF appropriation are not required to monitor the GRF cash balance for disbursements as that is a responsibility of the Office of Budget and Management.

Custodial Funds: Some funds (sometimes "account" is used in Revised Code) are held "in the custody of the Treasurer of State" and are not a part of the state treasury. These funds are referred to as custodial funds (or accounts). A custodial fund must have specific language that establishes it outside of the state treasury.

Debt Service: The payment of principal, interest, and associated costs on the state's bonded indebtedness. Debt service appropriations are usually made to the agency on whose behalf the bonds were issued.

Dedicated Purpose (DPF): The Dedicated Purpose Budget Fund Group consists of funds that receive specific revenues for particular activities and limited expenditures under the law.

Encumbrance: Reservation of appropriation authority in the state accounting system, typically representing purchase orders and contracts entered into by state agencies.

Equipment: Expenditures for durable goods such as computers, desks, chairs, or vehicles.

Glossary of Key Terms

Executive Budget: Also known as the "Blue Book," the Executive Budget provides the legislature and the public with the Governor's funding recommendations for the next operating budget biennium. Proposed funding levels, historical spending patterns, and descriptive narratives are presented for each agency. It also includes information about the budget process, revenue sources and estimates, economic forecasts, capital improvements, state funds, and special program areas. The document is the executive's financial plan for state government and is made available via the Office of Budget and Management (OBM) website.

Expenditures: Payments against appropriations that reduce the cash balance after legal requirements have been met. A fiscal year's expenditures are payments actually made in that fiscal year, regardless of the state fiscal year in which the appropriations were reserved or encumbered for such payments.

Expense Account Category: A three-digit code used to categorize expenses as follows:

- **Personal Services (500):** Payroll, including fringe benefits;
- **Purchased Personal Services (510):** Purchased or contracted services (e.g. consultants);
- **Supplies & Maintenance (520):** Expendable goods and supplies such as utilities, gasoline, postage, paper, pens, repairs, and travel;
- **Equipment (530):** Durable goods such as computers, furniture, or vehicles;
- **Subsidies & Shared Revenue (550):** Distributions made to individuals, organizations, school districts, higher education facilities, or other local government units;
- **Goods & Services for Resale (560):** Goods or services purchased by one state agency to be sold or resold to another state agency or to the public;
- **Capital Items (570):** Significant fixed assets such as land and buildings;
- **Judgments, Settlements, & Bonds (590):** Payments on negotiated settlements, judgments rendered, and reparations awarded against the State of Ohio to individuals and companies;
- **Debt Service (591):** The payment of principal, interest, and associated costs on the state's bonded indebtedness; and
- **Transfers & Non-Expense (595):** Cash disbursements and other transactions that reduce cash resources but are not an operating expense, such as transfers between funds and tax refunds.

Federal Budget Fund Group (FED): The category for funds that receive federal grants or awards.

Fiscal Year (FY): A 12-month period used for fiscal planning purposes. The state fiscal year (SFY) begins July 1 and ends the following June 30. The federal fiscal year (FFY) begins October 1 and ends the following September 30.

Full-Time Equivalent (FTE): For budget development purposes, OBM uses this method of calculating personnel levels where one FTE works 2,080 hours per year. Part-time employees have an FTE value that is proportionally less than one.

Fund: An independent fiscal and accounting entity with a self-balancing set of accounts. A fund in the state treasury usually has one or more appropriation items from which expenditures are made. If the fund has only one appropriation line item, the line item name often is the same as the fund name.

Fund Balance: The unencumbered cash remaining in a fund at a specified time.

General Revenue Fund (GRF): The GRF is the primary operating fund of the state. This fund receives the unrestricted revenues of the state, primarily from such revenue sources as the personal income tax, the sales and use tax, the corporate franchise tax, and the public utilities excise tax. The fund also receives significant federal revenues that primarily support human services programs.

Internal Service Activity (ISA): The Internal Service Activity Budget Fund Group consists of funds used for operations serving other funds or departments within the state.

Glossary of Key Terms

Lapse: Appropriations not encumbered or expended prior to their expiration.

Maintenance: Expenditures for expendable goods and supplies such as utilities, gasoline, postage, paper, pens, repairs, telephone service, and travel.

Objective: An aim toward which a state agency directs its effort to accomplish a stated agency priority. Something to be accomplished in specific, often measurable terms and that is achievable within a specific time frame. The Executive Budget highlights an agency's objectives in the Executive Recommendation section in each agency's narrative.

Ohio Administrative Knowledge System (OAKS): The state enterprise resource planning system that integrates the functions of financial accounting, fixed assets, human resources, and budgeting.

Operating Budget: The budget established for the operation of a state agency or program, typically based on legislative appropriation, and completed in a two-year period beginning with even-numbered fiscal years.

Personal Services: Expenditures for payroll including fringe benefits.

Program: A program is a discrete activity within an agency's organization that provides a specific good or service administered by the agency pursuant to law. Often, a program addresses a specifically identified need or problem facing Ohioans within an agency's mission. An example of a program is the Public Defender Commission's Pro Bono Training Program that provides continuing legal education training programs to public defenders and private counsel representing indigent persons in criminal and juvenile matters.

Program Series: A program series groups closely related programs into an overarching category that captures the state's efforts to provide for a public need. A program series corresponds with a major area of focus or goal for a state agency and in most cases is composed of two or more programs. Most agencies are characterized by more than one program series. An example of a program series is the Department of Insurance's Investigation and Licensing Program Series that includes market conduct, licensing, and fraud and enforcement programs. The Executive Budget presents agency spending by program series.

Purchased Personal Services: Services for which state agencies contract such as consultants, physicians, and temporary services.

Reappropriation: Legislative action that provides for the renewal of a prior year appropriation.

State Appropriation Limitation (SAL): A restriction that limits, with certain exceptions, GRF appropriation increases between operating biennia pursuant to section 107.033 of the Revised Code.

Subsidy: A government distribution for designated purposes. Such distributions are made to individuals, organizations on behalf of individuals, school districts, higher education facilities, local governmental units, or other recipients.

Tax Expenditure: A tax provision in the Revised Code, that exempts, either in whole or in part, certain persons, income, goods, services, or property from the effect of taxes levied by the state provided that the provision (1) reduces or has the potential to reduce GRF revenue; (2) the persons, income, goods, services, or property exempted would have been part of a defined tax base and are not subject to an alternate tax; and (3) the provision is subject to modification or repeal by the General Assembly. Tax expenditures represent a loss of tax revenue to state government for the purpose of encouraging certain activities or providing relief to taxpayers in designated circumstances in order to accomplish public policy goals. The section 5703.48 of the Revised Code requires the Department of Taxation to prepare a tax expenditure report as a supplement to the Governor's Executive Budget proposal referred to as Book Two.

Zero-Based Budgeting: A budgeting approach that requires agencies to justify all requested expenditures, instead of only expenditures above the funding level provided in the previous period. Section 126.02 of the Revised Code requires the Director of OBM to determine a method to incorporate the principles of zero-based budgeting in the budget preparation process.

Basis of Budgeting

Introduction

The budget is a plan of financial operations that embodies an estimate of proposed expenditures for each fiscal year of the biennium. The objective of budgetary control is to manage the state's finances within the limitations set forth in the enacted budget. Budgetary control allows the state to keep its expenditures within limitations of available appropriations and available revenues.

The state has designed and continues to upgrade its enterprise resource planning system, the Ohio Administrative Knowledge System (OAKS), to ensure and demonstrate compliance with the budget. The appropriated budget is integrated into the OAKS. This means that OAKS is specifically designed to provide ongoing and timely information on what is still available to be spent within established budget limitations.

The following topics address specifics about the state's budgetary process and related policies, including the level of budgetary control, the basis of budgetary accounting, and the use of encumbrance accounting.

Budgetary Process

The Governor submits the biennial operating and capital budgets to the General Assembly in accordance with Ohio law. Budget bills provide budgetary authority for all proposed expenditures for the state and of estimated revenues for a biennium.

The General Assembly enacts the budget through passage of specific departmental line item appropriations. Line item appropriations are typically established one to a fund except for the General Revenue Fund, from where agencies often have multiple line item appropriations associated with different agency programs. The Governor has the authority to veto any item in an appropriation bill. Such vetoes are subject to legislative override.

It is not uncommon to need adjustments to line item appropriations during the biennium after the budget is enacted. The state's Controlling Board, comprised of six members of the General Assembly and the Director of the Office of Budget and Management (OBM) or a designee, can transfer or increase a line item appropriation within the limitations set under Chapter 127 and Section 131.35 of the Ohio Revised Code.

Budgetary Control

The state maintains its legal level of budgetary control at the departmental line item appropriation level. OAKS controls expenditures at this level. Therefore, at no time can expenditures exceed appropriations in order to comply with the state's financial-related constitutional and statutory requirements.

Basis of Accounting

Ohio prepares its budget using the modified cash basis of accounting. Under this basis of accounting, the state recognizes revenues when cash is received and expenditures when paid. Furthermore, at the close of a fiscal year, the state reserves cash sufficient to cover the payment of outstanding encumbrances and other obligations. For external financial reporting purposes, the state issues the Comprehensive Annual Financial Report (CAFR). This report is prepared in conformity with generally accepted accounting principles (GAAP). Because the state budgets on a modified cash basis of accounting, which differs from GAAP, the required reconciliation of the differences between the state's budgetary financial statements and its GAAP-basis financial statements is presented in the CAFR. This reconciliation identifies the differences in the recognition of accruals, deferred revenues, inter-fund transactions, and loan transactions, as well as the timing differences in the budgetary basis of accounting for encumbrances. On the budgetary financial statements, the state recognizes encumbrances as expenditures in the year encumbered, while on the GAAP-basis financial statements, the state recognizes expenditures when goods or services are received regardless of the year encumbered.

Basis of Budgeting

Encumbrance Accounting

Encumbrance accounting, under which purchase orders, contracts, and other commitments for expenditures are recorded as a reserve of the applicable appropriations, is employed as an extension of formal budgetary integration in OAKS. Outstanding encumbrances at the end of the fiscal year are recorded as reservations of fund balance for expenditure in subsequent years. As authorized by law, prior year legal operating encumbrances are generally cancelled five months after the end of the fiscal year while capital encumbrances are generally cancelled two years after the biennial period for which they are appropriated. Unencumbered operating appropriations lapse at the end of each fiscal year.

For external reporting in its non-GAAP budgetary financial statements, the state also reports encumbrances as expenditures in the year when related purchase commitments are made.

Budget Calendar

The following calendar is used for preparation of the Executive Budget through enactment of the appropriation bills in non-gubernatorial transition budget cycles. The budget calendar for the fiscal years 2020 and 2021 Executive Budget differs because Governor DeWine was elected in November 2018 and took office in January 2019. Section 107.03 of the Ohio Revised Code moves the introduction of the state operating budget from four weeks after the organization of the General Assembly to not later than the fifteenth day of March for years when a new governor takes office. Differences in the timeline are noted in the calendar below.

June 2018	The Office of Budget and Management (OBM) distributes guidelines to state agencies for preparation of the Executive Budget for fiscal years 2020 and 2021.
September – November 2018	All agencies' budget requests, prepared in the program series and program format, are due to OBM.
September – December 2018	OBM completes its review and analysis of agency requests. Agencies may be asked to provide additional information to assist in the development of recommendations. In gubernatorial transition years, this process extends through March.
October 2018 – January 2019	OBM prepares revenue estimates internally for the upcoming biennium. In gubernatorial transition years, this process extends through March.
November 2018 – January 2019	OBM evaluates agencies' budgets and makes recommendations on funding priorities to the Governor within established revenue projections. In gubernatorial transition years, this process extends through March.
February 2019	The first of the budget bills for the Department of Transportation, the Department of Public Safety, the Bureau of Workers' Compensation, and the Industrial Commission is introduced in the House of Representatives.
February 2019	The main operating budget bill is introduced in the House of Representatives. In gubernatorial transition years, this occurs in March.
February – June 2019	The House and Senate hold hearings and vote on the budget bills.
June 2019	The Conference Committee works out differences between the versions of the budget bill passed by the House and Senate. The House and Senate vote on the Conference Committee report. The Governor signs the appropriations bill, which takes effect July 1, 2019. If the budget bill is not signed by June 30, 2019, an interim budget must be enacted.

Budget Process

Introduction

Every two years, the Governor is required by section 107.03 of the Revised Code to propose a budget for the operation of state government. This operating budget proposal must be submitted to the General Assembly not later than four weeks after its organization and is usually submitted to the legislature in early February of each odd-numbered year. In years when a new Governor is inaugurated, however, submission of the proposal is not required until March 15. The Governor's budget proposal represents a statement of the administration's priorities and sets strategic policy direction for state government programs. In addition to the Executive Budget book, or Blue Book, the budget proposal is presented as legislation to the General Assembly, who then makes legislative changes and enacts the final operating budget through a series of appropriation bills. To effectively understand and advocate for resolutions to state government financial issues, a detailed budget preparation process is necessary to generate information that will help the Governor and the General Assembly reach consensus regarding the priorities of the state and the most effective use of state resources. The process can be divided into the following steps:

- Development of the Governor's Executive Budget;
- Enactment by the legislature; and
- Gubernatorial approval and vetoes.

Development of the Governor's Executive Budget

The Office of Budget and Management (OBM) is the executive agency charged with preparing the Governor's budget recommendations. In July 2018, OBM issued the Operating Budget Guidance for Fiscal Years 2020 and 2021 to all agencies. The guidance document specifies the format, content, and due dates for agency budget requests.

Agency budget submissions were subject to established limitations and were due on September 12, 2018 for professional regulatory boards and commissions and other smaller agencies, October 15, 2018 for Cabinet and all remaining executive agencies, and November 1, 2016 for legislative and judicial agencies and constitutional office holders. Once budget requests were received, OBM worked closely with agency representatives to gain a full understanding of the budget submission, agency circumstances, and needs.

In addition to reviewing the agency budget requests during the budget development process, OBM evaluates and estimates the availability of revenue to support the proposed state expenditures within the Governor's budget recommendations. OBM and the Department of Taxation work together to produce revenue estimates in consultation with economists at IHS Markit and Moody's. As part of this process, cabinet agencies reconsidered their priorities and budgetary needs in a manner consistent with Governor DeWine's policy agenda.

Enactment by the Legislature

Although the Governor is required to make budget recommendations, the authority to appropriate money rests with the legislature. The Governor's spending plan, along with any statutory amendments and uncodified law necessary to make it operational, is drafted into a bill. Separate budget bills are prepared for the Bureau of Workers' Compensation, the Industrial Commission, and most of the non-General Revenue Fund portions of the budgets for the Departments of Transportation and Public Safety, the Public Works Commission, and roadwork development funding for the Development Services Agency.

Traditionally, budget bills are introduced in the House of Representatives under the sponsorship of the chair of the House Finance Committee. Once introduced, the bill is referred to the House Finance Committee. The committee and its various subcommittees conduct extensive hearings, which review all aspects of agency budgets and law changes. The full committee concludes its work when it reports, with any approved amendments, a bill with a favorable vote by a majority of the committee members. The bill is then considered before the full House of Representatives, where further amending may take place, until the bill is passed by a majority of the members. Once passed by the House, the bill is sent to the Senate for consideration. It is referred to the Senate Finance Committee where additional hearings are held and the bill is reported with any amendments to the full Senate for further amending and passage.

Budget Process

Typically, differences exist between the House and Senate versions of the budget bill, thus requiring the appointment of a Conference Committee. The Conference Committee is comprised of three members of each chamber and is responsible for resolving the differences between the House and Senate versions of the bill. Once all differences are resolved, the committee prepares a report that it recommends to both chambers for final approval. Majority affirmative votes in each chamber are required to accept the report of the Conference Committee and enact the budget bill.

Gubernatorial Approval and Vetoes

In Ohio, the Governor is empowered to veto all or any item of an appropriations bill. Upon receipt of the bill passed by the legislature, the Governor conducts a thorough review of its contents and determines whether any items should be disapproved. Disapproved items are noted in the bill and are signed by the Governor. The bill, along with the written objections, is returned to the House where it originated. The legislature is empowered by a three-fifths majority vote of each chamber to override any vetoed item. The Governor then files the budget bill with the Secretary of State at which point the act generally takes effect.

Capital Budgeting Process

Apart from the operating budget process, Ohio also must budget for capital expenditures, such as the construction or rehabilitation of structures and the purchase of permanently affixed equipment. The capital bill is generally submitted every even-numbered year, while the operating bill is submitted in each odd-numbered year. The last capital budget, HB 529 of the 132nd General Assembly, was enacted March 7, 2018 and became effective June 29, 2018 for the fiscal years 2019 and 2020 biennium.

Guide to the Interactive Budget

Ohio Interactive Budget

In the spring of 2016, the Office of Budget and Management launched Ohio's Interactive Budget (<http://interactivebudget.ohio.gov/>), a comprehensive 'open checkbook' that enables visitors to see not only how state money is spent, but also how state revenue is generated and allocated via the state operating and capital budgets. The interactive budget website is a powerful extension of the state accounting system, providing Ohio's citizens and anyone accessing the website with the ability to search, review, and analyze the financial and transactional data maintained in the state's accounting system.

Ohio's Interactive Budget organizes and displays the information from the state accounting system in an easy-to-use, searchable format that lets the user select among multiple visual display options such as tree maps, bubbles, tables, or lists. OBM encourages all citizens to use this innovative website to enhance their understanding of the functions and services of state government, and as a resource to quickly locate state budget information.

The website's "Budgets" presentation shows a breakdown of the state budget by functional category (e.g., Medicaid, K-12 education, higher education, human services, justice and public protection, etc.) and the associated agency appropriation line items (ALIs). Users of the "Budgets" presentation can choose between operating and capital budgets and can select information for a specific fund, for groups of related funds, or for all funds of the state. In addition to presenting budget and expenditure data for prior fiscal years, the Interactive Budget also shows the amount of funding appropriated to each agency in the current fiscal year and details what each agency has spent in the fiscal year-to-date. Exploring an agency ALI will display its current appropriation and identify the source of the original appropriation and any subsequent authorizations that have adjusted that original appropriation.

Ohio's Interactive Budget also displays expenditure data by agency, ALI, type, and functional expenditure category. Revenue detail is provided for both tax and non-tax sources. Both expenses and revenues can be explored at the transactional level. Popular searches include information on school foundation funding, highest paid companies, Medicaid payments, debt service, employee salaries, and the balance of the state's Budget Stabilization Fund, commonly known as the rainy-day fund.

Interactive Budget Website

Funds of the State

The state's funds are organized into budget fund groups by categories used to group similar funds for budgetary reporting purposes. The funds are categorized according to their revenue sources and spending authority. The budget fund group (BFG) concept is used in the Executive Budget to summarize history and recommendations for each agency. The list below contains descriptions of all budget fund groups.

Table A-1: The State's Budget Fund Groups

Budget Fund Group	Abbreviation
Bond Research & Development	BRD
Budget Stabilization	BSF
Capital Projects	CPF
Debt Service	DSF
Dedicated Purpose	DPF
Facilities Establishment	FCE
Federal	FED
Fiduciary	FID
General Revenue	GRF
Highway Operating	HOF
Highway Safety	HSF
Holding Account	HLD
Internal Services Activity	ISA
Revenue Distribution	RDF
State Lottery	SLF

The budget fund groups are described below:

Bond Research and Development (BRD): The Bond Research and Development Budget Fund Group consists of funds that receive state bond proceeds to fund research and development activities, pilot or demonstration projects, and related commercialization projects. Expenditures from this fund group consist of grants and loans for eligible projects undertaken by non-profit organizations, higher education institutions, political subdivisions, and private for-profit entities.

Budget Stabilization (BSF): The Budget Stabilization Budget Fund Group consists of the Budget Stabilization Fund that receives transfers from the General Revenue Fund or other funds as provided in law. The purpose of the Budget Stabilization Fund is to provide reserve funds for unexpected economic or other budgetary circumstances.

Capital Projects (CPF): The Capital Projects Budget Fund Group consists of funds that receive proceeds from general obligation and special obligation debt issuances, and the sale of revenue bonds. Expenditures are for capital improvements.

Debt Service (DSF): The Debt Service Budget Fund Group consists of several debt service funds that receive taxes, interest revenue, and transfers from authorized funds including the General Revenue Fund. Expenditures from these funds provide for payment of general long-term debt including principal, interest, and associated costs.

Dedicated Purpose (DPF): The Dedicated Purpose Budget Fund Group consists of funds that receive specific revenues for activities conducted in accordance with the law.

Facilities Establishment (FCE): The Facilities Establishment Budget Fund Group consists of funds that receive proceeds from the sale of revenue bonds that are used for loans and loan guarantees to assist businesses in building or expanding Ohio-based facilities. Funds that loan moneys also receive repayments of those loans.

Federal (FED): The Federal Budget Fund Group consists of funds that receive federal grants or awards. Expenditures from these funds are made in accordance with state and federal laws.

Funds of the State

Fiduciary (FID): The Fiduciary Budget Fund Group consists of funds used to account for cash receipts held by the state as custodian or agent. Ultimately, this cash is distributed from these funds to individuals, corporations, private organizations, other state funds, or local governmental entities. This fund group also contains funds that receive direct payroll charges and interest that are expended on payments to state employees for accrued vacation, sick, and personal leave time as well as disability benefits.

General Revenue (GRF): The General Revenue Budget Fund Group consists only of the General Revenue Fund (GRF). Pursuant to section 113.09 of the Ohio Revised Code, the GRF receives all state revenue except when required to be credited to another fund by law. Primary sources of revenue include personal income tax, the sales and use tax, commercial activity tax, and the public utilities tax as well as reimbursements from the federal government (which are not specifically directed to another fund) that primarily support human service programs. The law allows for broad discretion in the purposes for which the General Revenue Fund is used. For example, expenditures support education, health and human services, general government, and property tax relief.

Highway Operating (HOF): The Highway Operating Budget Fund Group consists of transportation-related funds that receive both federal and state motor fuel taxes, highway use taxes, and other related federal grants. Expenditures support primarily the construction and maintenance of the highway system.

Highway Safety (HSF): The Highway Safety Budget Fund Group consists of highway safety-related funds that receive federal grants, fees and fines related to motor vehicles, and various reimbursements, rentals, and revenues from sales. Expenditures support motor vehicle safety and law enforcement programs.

Holding Account (HLD): The Holding Account Budget Fund Group consists of funds used to collect moneys for which the fund most appropriate for deposit is unknown or the moneys are not yet determined to be earned by the state. A holding fund will retain moneys until the appropriate external party or other state fund is identified. In instances when moneys on deposit in these funds are determined not to be earned by the state, a refund disbursement is recorded.

Internal Service Activity (ISA): The Internal Service Activity Budget Fund Group consists of funds used for operations serving other funds or departments within the state or within a state agency.

Revenue Distribution (RDF): The Revenue Distribution Budget Fund Group consists of funds that receive tax and fees for distribution by law to other state funds or local governmental entities.

State Lottery (SLF): The State Lottery Budget Fund Group consists of the funds used to operate the Ohio Lottery Commission and funds that receive lottery profits for the support of elementary, secondary, vocational, and special education programs. Primary sources of revenue are lottery ticket sales and license fees. Major expenditures consist of operating costs, the payment of certain lottery prizes, and support of educational programs through the use of the net proceeds.

Frequently Asked Questions

What is the state budget?

In Ohio, the state budget is a biennial spending plan for state government. It represents a statement of priorities for a two-year period. In common use, the state budget generally refers to the operating budget, not the capital budget. The capital budget directs the expenditure of funds for infrastructure and maintenance needs, such as buildings, parks, and historical sites.

What is a biennial budget?

Ohio prepares a biennial budget, which is a spending plan for a two-year period. Operating appropriations are made separately for the two fiscal years in a biennium. The state's fiscal year begins on July 1 and ends the following June 30. The Executive Budget presented in this document shows recommended spending levels for fiscal year 2020 (July 1, 2019 to June 30, 2020) and fiscal year 2021 (July 1, 2020 to June 30, 2021).

Where does the money for the budget come from?

Revenue, or "money", to support governmental operations comes from a variety of sources. The largest portion of this revenue is derived from the general unrestricted taxes for state use authorized by law. Ohio also receives money through special fees, the sale of goods and services, and from the federal government. More information as well as graphical depictions of the major sources of state revenues can be found in Section C under "Revenue Summaries."

How does the state know how much money it can spend?

The Office of Budget and Management, working with the Department of Taxation, prepares projections for state revenues (referred to as a "revenue forecast"). Projections are usually prepared in November preceding the issuance of the Executive Budget, and revenues are forecast for more than a 30-month period. Revenue estimates are updated throughout the process of enacting the budget as the state has more experience with actual receipts from different revenue sources. The Legislative Service Commission prepares independent revenue estimates, which are compared to the administration's forecast. Consensus between the legislature and the executive must be built around the revenue assumptions that support the final version of the budget. Ultimately, no method of forecasting is 100 percent accurate so forecasts will always deviate from the actual performance of state revenue sources. This deviation is typically small and manageable.

What is the GRF?

The GRF is the General Revenue Fund. It is the largest fund of the state and receives the majority of the state's tax receipts. Since there are few restrictions on how GRF dollars can be used, much of the focus of the budget process is on development of a spending plan for GRF resources. Federal dollars that reimburse the state for certain human services-related expenditures are also deposited into the GRF.

How big is the budget?

Many people think of the "size" of the budget in terms of the level of recommended spending from the GRF. Recommended spending from the GRF is \$33.7 billion in fiscal year 2020 and \$35.3 billion in fiscal year 2021. However, the true size of the budget is the amount appropriated from all funds. Appropriations from all operating funds total \$74.3 billion in fiscal year 2020 and \$76.1 billion in fiscal year 2021.

How much is the budget growing?

When compared to fiscal year 2019 estimated expenditures, GRF spending increases by 3.6 percent in fiscal year 2020 and then grows by 4.8 percent in fiscal year 2021, and the total budget for all funds grows by 4.6 percent in fiscal year 2020 and 2.5 percent in fiscal year 2021.

Which agencies have the largest budgets?

The agency with the largest budget in fiscal years 2020 and 2021 is the Department of Medicaid. Total recommended appropriations in fiscal year 2020 are \$28.4 billion, and total recommended appropriations in fiscal year 2021 are \$29.7 billion. Not only does the department have the largest total budget, it also has the largest GRF budget (\$15.2 billion in fiscal year 2020 and \$16.6 billion in fiscal year 2021) and the single largest line item in the GRF—line item 651525, Medicaid/Health Care Services (\$13.8 billion in fiscal year 2020 and \$15.1 billion in fiscal year 2021).

Frequently Asked Questions

Based on total funding, the agencies with the next largest budgets are as follows:

- Department of Education, with total appropriations of \$11.7 billion in fiscal year 2020 and \$11.8 billion in fiscal year 2021. GRF appropriations total \$8.4 billion in fiscal year 2020 and \$8.4 billion in fiscal year 2021.
- Department of Transportation, which is primarily funded with state and federal motor fuel tax revenues and has total appropriations of \$3.7 billion in fiscal year 2020 and \$3.7 billion in fiscal year 2021.
- Department of Job and Family Services, with total funding of \$3.4 billion in fiscal year 2020 and \$3.4 billion in fiscal year 2021. Of this amount, \$783.0 million in fiscal year 2020 and \$783.1 million in fiscal year 2021 is from the GRF.
- Department of Developmental Disabilities, which is recommended to receive total funding of \$3.3 billion in fiscal year 2020 and \$3.4 billion in fiscal year 2021. The GRF provides \$717.4 million in fiscal year 2020 and \$719.1 million in fiscal year 2021.
- Department of Higher Education, primarily funded from the GRF, with total appropriations of \$2.7 billion in fiscal year 2020 and \$2.8 billion in fiscal year 2021.
- Department of Rehabilitation and Correction, with total funding of \$1.9 billion in fiscal year 2020 and \$2.0 billion in fiscal year 2021. Of this amount, \$1.8 billion in fiscal year 2020 and \$1.9 billion in fiscal year 2021 is from the GRF.

How big is the budget deficit?

Ohio has no budget deficit. This question is usually asked by those who confuse the state budget with the federal budget. The Ohio Constitution prohibits the state from borrowing money to fund operating expenses. Therefore, the budget must be balanced.

How big is the budget surplus?

The concept of a "surplus" is not one that is specifically defined. It is generally understood, however, to be funds that remain above and beyond any planned uses (including planned reserves and planned carryover balances). Typically, a surplus is an unexpected result of higher-than-anticipated revenues or lower-than-anticipated spending. Amounts typically excluded from consideration as part of the surplus include one-half of one percent of GRF revenues (considered to be a necessary amount for a beginning carryover fund balance), amounts in the Budget Stabilization Fund up to 8.5% percent of GRF revenues, and funds needed to support appropriations made by the General Assembly. Based on statute, state budget surpluses cannot accumulate because the law requires that any "surplus" at the end of each fiscal year be deposited into the Income Tax Reduction Fund and returned to Ohio taxpayers.

What is the Blue Book?

Many years ago, the Executive Budget document was printed with a blue cover and, as a result, people began to call the document the "Blue Book." Over the years, each Executive Budget has been presented with a blue cover (or variation), and it is now considered a tradition. Beginning with the Executive Budget for fiscal years 2004 and 2005, the Executive Budget was no longer published in hardcopy but was made available electronically. Beginning with the Executive Budget for fiscal years 2006 and 2007 and continuing today, the Executive Budget is only available on the OBM website: <http://www.obm.ohio.gov/>.

What is a program series and program?

A program series groups closely related programs into an overarching category that captures the state's efforts to provide for a public need. A program series corresponds with a major area of focus or goal for a state agency and in most cases, is composed of two or more programs. Most agencies are characterized by more than one program series. An example of a program series is the Department of Insurance's Investigation and Licensing Program Series that includes market conduct, licensing, and fraud and enforcement programs. The Executive Budget presents agency spending by program series.

A program is a discrete activity within an agency's organization that is intended to provide a specific good or service in response to an identified social or individual need or problem. A varying number of programs can be grouped under each program series. An example of a program is the Public Defender Commission's Pro Bono Training Program that provides continuing legal education training programs to public defenders and private counsel who provide representation to indigent persons in criminal and juvenile matters.

Guide to Reading the Budget Tables

The purpose of this section is to help the reader understand the tables included in the Executive Budget for each agency. Each agency has budget tables that contain the Governor's detailed spending plan for the fiscal years 2020-2021 biennium.

What are Budget Tables?

Agencies have three types of budget tables: summaries of budget history and recommendations by budget fund group and expense account category, line item summaries for each program series, and a line item summary by budget fund group for the entire agency. The summary of budget history and recommendations table and the agency line item summary table by budget fund group show spending history for fiscal years 2016, 2017, and 2018; estimated spending for fiscal year 2019 (since this fiscal year will not end until June 30, 2019); and the Governor's recommended spending for fiscal years 2020 and 2021. The line item summary tables for each program series show estimated spending for fiscal year 2019 and the Governor's recommended spending for fiscal years 2020 and 2021.

Where are the Tables?

In Section D, the Executive Budget contains Governor DeWine's funding recommendations including the Budget Tables for each agency. The agencies appear in alphabetical order and each agency has its own section that begins with an overview narrative followed by the agency's summary of budget history and recommendations tables. Following the tables are narratives for each agency program series with the line item summary table for each. Finally, the agency line item summary table by budget fund group is at the end of each agency section.

Summary of Budget History and Recommendations Tables

The two summaries of budget history and recommendations tables can be found following an agency's executive recommendation bullets. These summaries show actual agency spending in fiscal years 2016, 2017, and 2018; estimated spending in fiscal year 2019; and the Governor's recommended appropriations for fiscal years 2020 and 2021—first by budget fund group and then by expense account category. A diagram of these two tables appears on pages A-22 and A-23.

Line Item Summary Tables

Agencies also have two types of line item summary tables: one for each program series with each program series narrative and the other for the entire agency showing expenses and Executive recommendations by fund and line item at the end of the agency section. The program series type shows, by line item, estimated spending in fiscal year 2019 and the Governor's recommended appropriations for fiscal years 2020 and 2021. The budget fund group type shows, by line item, actual spending for fiscal years 2016, 2017, and 2018; estimated spending in fiscal year 2019; and the Governor's recommended appropriations for fiscal years 2020 and 2021. The line items listed on the agency-wide table are grouped and subtitled by budget fund group. Totals for the program series and the agency tables appear at the bottom of each. Diagrams of these two tables appear on pages A-24 and A-26.

Line Item Restructuring Analysis

Some agencies budget for significant changes in how ongoing programs will continue to be funded in the next biennium, which can cause multiple appropriation line items to have large spending changes compared to the current year. In these cases, agencies will have the line item restructuring analysis table that follows the program series descriptions. For only the funds and appropriation line items affected, this table shows current year estimated costs as if the changes budgeted for in the upcoming biennium were already in place. This gives a clearer picture of the continuity of program funding aside from the shifting among line items. A diagram of this table appears on page A-25.

Guide to Reading the Budget Tables

The two summaries of budget history and recommendations tables immediately follow each agency's executive recommendation bullets. These tables show summary budget information for the agency by budget fund group and expense account category. The diagrams below use the Office of Budget and Management's summary of budget history and recommendations tables as an example.

Budget Fund Group Information

The first summary of budget history and recommendations table summarizes information by budget fund group.

The "Recommended" columns show the Governor's recommendation for fiscal years 2020 and 2021.

(in Thousands)	Actual			Estimated	% Change	Recommended			
Budget Fund Group	FY 2016	FY 2017	FY 2018	FY 2019	FY 18-19	FY 2020	% Change	FY 2021	% Change
General Revenue	3,773	4,336	4,240	5,093	20.1%	4,614	-9.4%	4,439	-3.8%
Internal Service Activity	19,161	19,545	20,567	23,736	15.4%	23,851	0.5%	23,539	-1.3%

Guide to Reading the Budget Tables

Following each program series narrative is a line item summary for the program series. Within each agency, funding is designated to programs within a program series. A program series groups closely related programs into an overarching category that captures the state's efforts to provide for a public need. A program series corresponds with a major area of focus or goal for a state agency and in most cases is composed of two or more programs. A program is a discrete activity within an agency's organization that is intended to provide a specific good or service in response to an identified social or individual need or problem. The diagram below uses two of the Office of Budget and Management's program series line item summary tables as an example.

Guide to Reading the Budget Tables

Agencies with significant changes in how ongoing programs will continue to be funded among line items have the ALI Restructuring table. This table shows current-year estimated costs by fund and appropriation line item as if the budgeted changes were already in place. The diagram below uses the Department of Administrative Services' line item restructuring analysis table as an example.

Line Item Restructuring

Fund	ALI	ALI Name	Estimated	Recommended			
			FY 2019	FY 2020	% Change	FY 2021	% Change
2290	100640	Consolidated IT Purchases	\$7,248,000	\$69,348,000	-48.8%	\$7,248,000	7.2%
4N60	100617	Major IT Purchases	-	\$3,288,990	0.0%	\$5,736,219	74.4%

Estimated spending for fiscal year 2019 is shown as if the restructuring already existed. This allows a direct, meaningful comparison with fiscal years 2020 and 2021.

Recommended funding for fiscal years 2020 and 2021 is when the restructuring will actually occur.

Guide to Reading the Budget Tables

Each agency section ends with a line item summary by budget fund group that summarizes historical spending and recommended spending information for the entire agency by appropriation line item. The spending and recommendations are presented by fund and subtotaled by budget fund group. The diagram below uses the Office of Budget and Management's line item summary table by budget fund group as an example.

The two "% Change" columns show the percent change between:
 (1) the FY 2019 estimate and FY 2020 recommended columns and
 (2) the FY 2020 and FY 2021 recommended columns.

Expenses and Executive Recommendations Summary

Fund	ALI	ALI Name	Actual			Estimated	FY 2020	Recommended		
			FY 2016	FY 2017	FY 2018	FY 2019		% Change	FY 2021	% Change
GRF	042321	Budget Development and Implementation	2,550,274	2,816,140	3,042,782	3,170,070	3,328,574	5.0%	3,389,364	1.8%

Ohio's FUTURE

BUDGET OF THE STATE OF OHIO | FISCAL YEARS 2020 - 2021

SECTION B

ECONOMIC FORECAST & INCOME ESTIMATES

Economic Overview and Forecast

Overview

The economic expansion that began in the second quarter of 2009 is almost certain to extend at least through the end of fiscal year 2019. If it lasts through July 2019, it will match the longest expansion on record, which endured for 120 months during the 1990s. Despite the sound condition of the economy, a few excesses have begun to develop, and a number of risks exist.

Since the Great Recession of 2007 to 2009, U.S. real gross domestic product (GDP) has grown for 35 of the 38 quarters through the fourth quarter of 2018, but at an average rate of only 2.3 percent. The slowdown from the earlier post-war period represents both slower growth in the labor force and in productivity. More specifically, annual growth both in the labor force and in total productivity during this decade have slowed to well under one percent annually (see graph below).

Figure B-1: Labor Force and Productivity Growth by Decade

Throughout the recovery, the relatively slow growth rate has generated concern about both the pace and durability of the recovery and expansion. Growth picked up decidedly during the middle two quarters of 2018, but leading indicators point to the likelihood of a decline in the rate of growth in the next few years and ultimately below the average pace demonstrated earlier in the expansion.

Labor Market Improvement and Recent Economic Performance

Labor demand took much longer to recover from the recession than did the demand for goods and services. As real GDP had recovered its pre-recession peak in the second quarter of 2011, the U.S. labor market was still millions of jobs below its pre-recession peak, and the U.S. unemployment rate was just above 9.0 percent.

Economic Overview and Forecast

The labor market picture today has greatly improved, both in the U.S. and in Ohio. The U.S. unemployment rate for the February 2019 was down to 3.8 percent - well below the level of approximately 5.75 percent recently viewed by many analysts as being consistent with full employment, and also below more recent, lower estimates of the long-run rate of unemployment, such as those shown in the graph below from the Federal Reserve Open Market Committee (FOMC). Similarly, the Ohio unemployment rate has decreased to 4.7 percent as of January 2019. The declines in the unemployment rate nationally and in Ohio resulted from employment gains sufficiently large to compensate for growth in the labor force.

**Figure B-2: As U.S. Unemployment Falls Below Long-Run Rate,
Compensation Growth Accelerates**

(all numbers are percentages)

After slowing during 2015-2017, job growth across the country picked up in 2018, rising from a monthly average increase of 179,400 jobs in 2017 to 222,800 jobs in 2018. Nonfarm payroll employment increased to a new all-time high of 150.6 million in January 2019, lifting the 12-month average gain to 233,900 jobs. In a sign of the strength in labor markets, the number of unfilled jobs increased to 7.335 million at the end of December 2018, the highest both in levels and as a percent of total employment since data collection began in 2000.

Ohio employment has followed a somewhat different pattern. After growing by an average of 75,000 jobs annually for 2010-2015, employment growth slowed to 0.8% for the 2016-2018 period. Ohio's experience has been different from the nation's, and is expected to continue to be different, in part due to demographics. Ohio's population growth is slower than the nation's, which limits the amount of growth in service employment. Ohio's population also skews older than the nation's, which means that it has experienced a larger decline in prime-age population and employment, and it is more affected by the wave of Baby Boomer retirements than the nation as a whole. Despite these challenges, Ohio income growth has remained steady, as faster increases in wages per worker have offset slower gains in jobs.

Spurred by ongoing economic growth and tightening labor markets, U.S. wages accelerated during 2018 to 3.2 percent year-over-year from 2.7 percent in 2016 and 2017 and only about 2 percent during the first half of the decade. While still below the pace of nearly 4 percent for periods in the 1990s and early 2000s, the increase in wages during 2018 is starting to make a difference in paychecks and is also attract the attention of policymakers. By an alternative measure that tracks the pay of individuals observed 12 months apart, wages have accelerated from less than 2 percent early in the expansion to 3.7 percent in January 2019. With inflation running below 2 percent, nominal wage gains are translating into real increases in consumer spending power.

Economic Overview and Forecast

In addition to continuing expansion in real GDP and growth in employment and wages, several other measures point to a healthy economy. Consumer confidence rose to new long-time highs in 2018 before retreating a bit in the Fall, probably in response to the decline in the stock market, particularly in December. Supporting the improved mood were the strengthening in labor markets, decline in gasoline prices, and new record highs in stock prices prior to the Fall correction. Exceptions to the cumulation of positive economic news are the weakness in industries affected adversely by rising tariffs and uncertainty about future trade developments and slower growth of overseas markets.

Near Term Outlook

The Executive Budget reflects an economic forecast of continued growth for the nation and for Ohio. From the end of the last recession in the second quarter of 2009 through the fourth quarter of 2018, the compound annual rate of growth in real GDP was 2.3 percent. The economy grew at an annual pace of 3.7 percent in the middle two quarters of 2018 but in the fourth quarter it is estimated to have slowed to 2.6%, near the average for the expansion.

IHS Markit projects that real GDP growth will slow from an estimated 2.9 percent in 2018 to 2.4 percent in 2019 and 2.0 percent in 2020. Key reasons include slowing growth in overseas markets, the recent strengthening in the dollar, fading fiscal stimulus, a tighter monetary policy, lower stock prices, the effects of new tariffs and uncertainty over the future of trade, and the proximity of the economy to capacity constraints.

Real consumer spending is projected to reinforce the GDP trend, growing by 2.6 percent in 2019 and 2.4 percent in 2020 after an estimated 2.7 percent in 2018. Current expectations for nonresidential fixed investment spending reflect a slowdown from an estimated 6.8 percent in 2018 to 3.6 percent in 2019 and 2.8 percent in 2020. Residential fixed investment (housing) is expected to edge down by 0.8 percent in 2019 from an estimated 0.2 percent decrease in 2018 but then to rise by 4.1 percent in 2020.

U.S. employment is projected to slow from growth of 1.8% in CY 2018 to 1.4% in CY 2019 and then to 0.6% in CY 2020. Meanwhile, estimated Ohio employment growth is slower than for the nation. Prior to the recent Bureau of Labor Statistics downward revisions to Ohio employment growth, Ohio employment was forecasted to grow 1.2 percent in 2019 and 0.5 percent in 2020. Those growth rates will be revised downward now that it is known that Ohio employment growth in CY 2018 was only 0.8%. The national unemployment rate is projected to decrease modestly from an average of 3.9 percent in 2018 to a low during this economic cycle amounting to 3.6 percent in 2019 and 2020. As with employment growth rates, the Ohio unemployment rate forecast will likely be revised following the BLS revisions that show the January 2019 rate was 4.7%.

Both U.S. and Ohio personal income levels are forecast to continue growing but less rapidly. Projected U.S. personal income assumes slight deceleration from an estimated 4.4 percent in 2018 to 4.3 percent in 2019 and 2020. Ohio personal income is projected to pick up from an estimated 3.7 percent in 2018 to 4.4 percent during 2019 and 4.1% in 2020. Wage and salary disbursements are forecast to remain relatively steady at the national level at 4.4 percent in 2018 and 2019 and 4.6 percent in 2020. In Ohio, the forecast assumes an increase from an estimated 3.7 percent in Ohio in 2018 to 4.0 percent in 2019, and then a taper to 3.8 percent in 2020.

Risks to the Forecast

Two years ago, at the time of the fiscal years 2018-2019 Executive Budget, uncertainty about the economic outlook centered on the new administration in Washington. Considerable uncertainty remains despite some landmark policy accomplishments. The Affordable Care Act largely remains in place, the stalemate over immigration policy continues, and an infrastructure program has remained on the back burner. Although major changes have been made to regulations and the tax code, trade agreements and patterns are undergoing deep alterations.

Ongoing trade negotiations with China remain a key risk to the outlook. While the overall effect on the economy from back-and-forth tariff increases and threats appears to have been small thus far, many industries, businesses, and people have been negatively affected. A speedy resolution to disagreements with China could be a positive influence on the economy, whereas a broadening and escalation in tariffs would likely undermine economic growth. Given the pronounced role of manufacturing and agriculture in Ohio's economy, this state could experience outsized negative impacts from serious and sustained trade tensions and retaliatory actions; conversely, it could greatly benefit from the resolution of trade tensions and the imposition of long-term trade reforms.

Secondly, overseas economic growth has weakened recently, reducing foreign demand for U.S.-made goods and services. The economy of China slowed to 6.6% growth in 2018 - the slowest since 1990 - as U.S. tariffs had an impact and as policymakers made

Economic Overview and Forecast

efforts to deal with high debt levels. Similarly, the European Commission reduced its growth forecast for the Eurozone in 2019 from 1.9% to 1.3%, while the timing and nature of Brexit hangs over the region.

Third, monetary policy in the U.S. tightened appreciably during 2018. The Federal Reserve raised the range for its policy rate by a full percentage point, to between 2.25 percent and 2.50 percent. It continues to slowly reverse Quantitative Easing by not replacing all of the bonds that mature in its portfolio. Federal Reserve officials have indicated that they do not expect to make additional policy changes in the near-term and ultimately will make adjustments in response to developments in the economy. For the time being, inflation is low and stable and economic growth appears to be moderating, suggesting that no major policy changes are likely soon.

Finally, there is risk from flat or declining asset prices reducing consumer spending growth. Wealthier households are feeling uneasy about the possibility of the long bull market in stocks ending. Stock prices peaked last fall and have effectively been roughly flat over the past year. In a rising market, the stock wealth effect on consumption is estimated to be about 1.5 cents-the increase in consumer spending from a \$1 increase in stock wealth. Homeowners are likely also closely watching the recent slowing in house price growth. The run-up in mortgage rates last year was combined with high house prices in many markets, undermining affordability and demand. House prices have since suffered. Tax code changes that scaled back the value of the mortgage interest and property tax deductions are also hurting house prices in parts of the country where households relied on these tax preferences, including the Northeast, parts of Florida, and along the West Coast. When house prices are rising, the housing wealth effect is estimated to be near 3 cents per dollar of appreciation.

When the tailwind to spending from rising stock prices and housing values was at its peak in calendar year 2018, it probably added about 0.5 percentage points to consumer spending growth. This tailwind appears to have been lost and will become a headwind if asset prices decline. The stock and housing wealth effects are substantially larger when prices are falling, a combined 12 cents per dollar of depreciation in value as opposed to the 4.5 cents per dollar of appreciation cited above. This is in part due to the fact that Baby Boomers, who are retired or approaching retirement, are quick to reduce spending if their retirement savings are reduced. As alluded to earlier, lenders have remained disciplined in extending credit since the financial crisis. Debt owed by households is increasing but still lags the growth in household income. Households that are tempted to increase their borrowing to finance more spending will find it difficult to do so.

Revenue Estimates and Methodology

Overview

Based on models that use differences in bond yields of different maturities (yield spreads) and other indicators to forecast the probability of recession, the economic expansion that began in the second quarter of 2009 is highly likely to extend at least through the end of fiscal year (FY) 2019. If it lasts through October 2019, it will match the longest expansion on record, which ran for 120 months during the 1990s. Economic research generally supports the proposition that economic expansions don't die of old age: that is, there is no particular limit on how long the expansion might last, and the probability of it ending is not a function of how long it has lasted. Still, history demonstrates that over time, imbalances or excesses are likely to develop in certain sectors of the economy, and those can threaten continued expansion. Despite the overall sound condition of the economy today, a few excesses have begun to develop, and a number of downside risks exist.

That said, the sound fundamental conditions of the current national economy - as evidenced by such indicators as low unemployment rates and high employment levels, continuing low inflation, real wage growth, solid (if currently slowing) levels of manufactured goods shipments and orders, and increasing personal consumption expenditures - provide a solid platform for continued economic growth. Despite some ongoing concerns and risks, experts and observers of the national economy currently appear gravitated toward expectations of moderating economic growth over the two-year time horizon. Ohio should benefit from forecasted national economic growth, as it has over the last several years. Accordingly, state tax revenues should continue to grow throughout the fiscal year 2020-2021 biennium, even as growth rates are likely to slow, reverting to long-term trend.

Figure B-3: GRF Tax Revenues, Baseline and After Proposed Law Changes

(dollars in millions)

Fiscal year 2019 revenue growth is expected to be modestly better than forecasts developed at the beginning of the fiscal year, although it is recognized that some of that enhanced strength could emanate from short-term effects. Under current law - that is, before any of the proposed tax policy changes in the fiscal year 2020-2021 Executive Budget - General Revenue Fund (GRF) tax receipts are estimated to increase by \$670 million (3.0 percent) in fiscal year 2019, \$922 million (4.0 percent) in fiscal year 2020, and \$439 million (1.8 percent) in fiscal year 2021. (Expected growth in fiscal year 2021 would be \$653 million, or 2.7 percent, if not for the scheduled implementation in that year of the federally-enacted repeal of the imposition of state and local sales taxes on internet access services; Ohio is one of seven "grandfathered" states that had been permitted to levy its sales tax on internet access services well after other states had lost such authority, but this authority even for the grandfathered states expires in fiscal year 2021.) The fiscal year 2019-2021 estimates, which are based on current tax laws (including those that have been enacted but not

Revenue Estimates and Methodology

scheduled to take effect until the upcoming biennium, such as the sales tax optical aids exemption), will be referred to throughout this analysis as the "baseline."

Several statistical methods were employed in estimating GRF receipts. For the major tax sources, such as the sales and use tax, the personal income tax, and the commercial activity tax, regression forecasting equations were employed, although "outside the model" adjustments are also made in order to derive the final forecast. With the use of regression equations, the underlying assumption is that recent historical relationships between tax revenues and the independent variables that affect them, such as income, demographic variables, gross business revenues, etc., will remain in effect for future periods. For other revenue sources, trend analysis was the primary forecasting method used, along with analysis of expected developments in the particular industries or markets related to those taxes. Trend analysis assumes that historical growth rates and patterns will generally continue in the future, although changes in markets, industries and other factors pertinent to the tax are considered as well.

In developing the baseline estimates for fiscal years 2019 through 2021, the Office of Budget and Management (OBM), in collaboration with the Department of Taxation, relied primarily on the baseline (highest probability) national and state economic forecasts produced by IHS Markit and Moody's Analytics, two prominent national economic forecasting firms. OBM focused on key Ohio variables such as employment and income, and, following past practice, constructed an income forecast that was somewhat more conservative than the firms' baseline forecasts, particularly for fiscal year 2021. To be more specific, beginning with the first quarter of calendar year 2020, the forecasted growth in Ohio wage and salary income was constrained to equal the IHS baseline forecasted growth rate in nominal Ohio GDP, rather than be allowed to exceed it. The rationale behind this slower growth assumption, beyond a simple desire to be somewhat conservative in forecasting revenues, is that the long term trend in the U.S. economy is for labor's share of total income to decrease (although it has increased for short periods). Wage and salary income growth faster than GDP growth would imply, all else being equal, an increasing labor share of income. Although this might be possible for short periods, it goes against the trend of the last two decades (in fact, the trend generally demonstrated over the last six decades) and so OBM chose not to incorporate that part of the IHS forecast.

By definition, the baseline GRF tax revenue forecast does not include law changes proposed in the fiscal years 2020-2021 Executive Budget. However, the baseline forecasts do include the estimated impacts of recent policy changes that were enacted by the General Assembly (or, in one case mentioned below, by Congress) and that are scheduled to take effect in the fiscal years 2020-2021 biennium. Recent changes include:

- (i) Conformity with federal tax law changes that impact the state personal income tax, including expansion of the allowable purposes of the Ohio "529" program personal income tax deduction to include primary and secondary school expenses;
- (ii) The 3.3 percent reduction in the personal income tax rates used for employer withholding (only impacting fiscal year 2019);
- (iii) Enactment of a permanent sales tax "holiday" for purchases of qualified items during the first weekend of each August;
- (iv) A new sales tax exemption for purchases of prescription eyeglasses and contact lenses (effective in fiscal year 2020); and
- (v) Implementation of the federally-mandated repeal of the sales tax on internet access services (effective in fiscal year 2021).

Table B-1 lists the proposed tax law changes in the Executive Budget that directly impact GRF tax revenues and the estimated revenue impact of each change. To reiterate, these changes are not included in the GRF tax revenue baseline. The tax sections contained in this document provide a brief explanation of the proposed tax law changes.

Revenue Estimates and Methodology

**Table B-1: Estimated GRF Tax Revenue Impacts of Proposed Law Changes
in the Fiscal Year 2020-2021 Executive Budget**
(dollars in millions)

Proposal	Estimate	
	FY 2020	FY 2021
Personal Income Tax		
Credit for investments in qualified funds operating in Ohio Qualified Opportunity Zones	\$0.0	(\$30.0)
Credit for lead abatement expenses	(\$5.0)	(\$5.0)
Sales and Use Tax		
Increase minimum purchase age for cigarettes and cigarette papers, other tobacco products, and alternative nicotine products (showing impact on sales and use tax revenue)	(\$2.7)	(\$4.0)
Cigarette Tax and OTP Tax		
Increase minimum purchase age for cigarettes and cigarette papers, other tobacco products, and alternative nicotine products (showing impact on cigarette and OTP tax revenue)	(\$14.3)	(\$18.7)
Total GRF Impact of Changes Affecting Tax Collections	(\$22.0)	(\$57.7)
Additional GRF Tax Revenue Provision		
Public Library Fund funded at 1.68 percent of GRF tax revenues (an increase from statutory 1.66 percent percentage but no change from Fiscal Years 18-19 funding percentage)	(\$5.0)	(\$5.1)

As Table B-2 shows, the forecasted GRF baseline tax revenue growth rates for fiscal years 2020-2021 are not exuberant but fiscal year 2020 is still expected to demonstrate higher growth than all other years in the table. The indicated fiscal year 2020 outcome is partly inflated by a one-time reduction in revenue during fiscal year 2019 caused by the employer withholding tax cut (discussed further in the Personal Income Tax section). fiscal year 2021 displays more modest growth of 1.9 percent, although this outcome partly reflects the beginning of the federally-enacted repeal of the sales tax on internet access services (discussed further in the Sales and Use Tax section).

Table B-2: GRF Tax Revenue Growth Fiscal Years 2016-2021, Baseline and After Law Changes
(Annual percentage change)

Proposal	Actual			Estimate		Forecast
	FY 2016	FY 2017	FY 2018	FY 2019	FY 2020	FY 2021
Measure of GRF Tax Revenue						
GRF Tax Revenue Baseline					4.0%	1.8%
GRF Tax Revenue After Tax Policy Changes	1.9%	0.3%	2.5%	3.0%	3.9%	1.7%

Revenue Estimates and Methodology

Tax Sources

Sales and Use Tax

Ohio's sales and use tax has experienced what appear to be several discrete stages since the 2007-2009 recession. Following the pronounced durative effects of the recession, sales tax collections experienced fairly strong growth as the economic recovery found its footing in fiscal year 2011; this growth constitutes the first stage. However, the tax entered a second stage as growth began to slow in the second half of fiscal year 2016 and then weakened even further, both in Ohio and across the nation, in fiscal year 2017. As OBM anticipated in its fiscal years 2018-2019 revenue forecasts, the tax has since emerged from this sluggish period. The tax appears to have entered a third stage, as growth in both jobs and wages accelerated during fiscal year 2018 and stronger growth in the consumption of goods and services has continued into fiscal year 2019 with a broadly beneficial impact on sales taxes.

The forecast for the remainder of fiscal year 2019 and for fiscal years 2020-2021 calls for continued growth in revenue yet at maturing growth rates. Wage growth is expected to continue, and retail demand impacting non-auto sales tax is expected to continue growing through the upcoming biennium. For the auto sales tax, new unit sales are expected to level out at about current levels. The composition of sales is expected to continue to move toward higher-priced vehicles, namely light-trucks and SUVs, thus increasing average vehicle prices and boosting tax collections.

For revenue projection purposes, the sales and use tax is separated into two components: auto and non-auto sales tax revenue. The auto component consists of the tax collected from the sale of automobiles and trucks. The non-auto component includes all other sales and use tax collections, including the sales and use tax on motor vehicle leases.

The forecasting methodology for each series is discussed in more detail in subsequent sections. Figure B-4 illustrates both the baseline estimate for fiscal year 2019 and the forecasted revenue, absent any tax policy changes included in the Executive Budget, for fiscal years 2020-2021. Sales tax revenues for fiscal year 2019 are expected to increase by 4.0 percent over fiscal year 2018. Growth in combined auto and non-auto sales tax revenue is expected to be lower in fiscal years 2020 and 2021, at 3.0 percent and 0.9 percent, although these rates are impacted by previously-enacted policy changes scheduled to take effect in both years.

Figure B-4: Baseline Sales and Use Tax GRF Revenues

(dollars in millions)

Under current law, the state sales and use tax on retail sales and selected services is levied at a rate of 5.75 percent. From 1981 through 2003 the sales and use tax was levied at a rate of 5.0 percent. In fiscal years 2004 and 2005, the sales and use tax rate was temporarily increased from 5.0 percent to 6.0, before it was lowered to a rate of 5.5 percent beginning in fiscal year 2006.

Revenue Estimates and Methodology

Beginning in January 2008, deposits into the Local Government Fund and the Public Library Fund (PLF) were based on a designated percentage of total GRF tax receipts. The accounting mechanism for crediting funds to the PLF is to take half of the total calculated PLF deposits as a subtraction from non-auto sales tax collections, while the other half is subtracted from kilowatt hour tax collections. Thus, GRF non-auto sales tax revenues are slightly less than total collections, since part of non-auto collections are credited to the PLF.

The current biennium saw the cessation of collection on sales tax on Medicaid Health Insuring Corporations (MHICs), also referred to as Medicaid managed care organizations. Under Ohio law, beginning in fiscal year 2010 monthly payments to managed care plans for Medicaid coverage were subject to the sales tax. The expansion of Medicaid eligibility led to many more persons in Medicaid managed care, and thus to higher sales tax receipts. However, this practice was altered to comply with federal regulations on matching federal Medicaid funds and sales tax is no longer levied on these transactions. The final payment into the GRF was made in July of fiscal year 2018, amounting to \$71.7 million. MHIC sales tax revenues in years prior to fiscal year 2018 are worth considering when comparing overall sales tax revenue numbers across years.

Table B-3 shows the impact of Medicaid managed care changes on sales tax growth rates. By simply removing MHIC revenues from each year, a clearer picture of true baseline growth is obtained. Even so, as discussed below there are two enacted provisions first taking effect during the fiscal years 2020-2021 biennium that shall reduce sales tax revenue during these years, thereby dampening the apparent revenue growth rate in the first year of those changes.

**Table B-3: GRF Baseline Auto and Non-Auto Sales Tax Revenues,
Before and After Removal of MHIC Revenues**
(dollars in millions)

	Actual			Estimate	Forecast	
	FY 2016	FY 2017	FY 2018	FY 2019	FY 2020	FY 2021
Auto-GRF	\$1,346.3	\$1,394.0	\$1,440.5	\$1,501.4	\$1,555.0	\$1,601.8
Non-Auto GRF	\$9,001.7	\$9,220.6	\$8,707.6	\$9,050.0	\$9,322.2	\$9,370.7
Total GRF Sales Tax	\$10,614.6	\$10,148.2	\$10,148.2	\$10,551.4	\$10,877.2	\$10,972.5
Annual Growth Rate (total)	3.9%	2.6%	-4.4%	4.0%	3.1%	0.9%
Non-auto GRF with MHIC collections removed	\$8,225.4	\$8,405.1	\$8,636.5	\$9,050.0	\$9,322.2	\$9,370.7
Total Sales Tax Revenue with MHICs removed	\$9,571.7	\$9,799.1	\$10,077.0	\$10,551.4	\$10,877.2	\$10,972.5
Annual Growth Rate (after MHIC removal)	4.4%	2.4%	2.8%	4.7%	3.1%	0.9%

Policy Changes: Previously Enacted Changes and Fiscal Years 2020-2021 Executive Budget Proposals

Two proposals in the Executive Budget for fiscal years 2020-2021 along with several expected changes during the biennium will bring a reduction in the tax base and affect revenues for the non-auto sales tax. The first proposed change is a health policy initiative that would raise the legal age to purchase cigarettes from 18 years old to 21. This change would have more potential impact on the excise tax on tobacco products, but will still cause an estimated reduction of \$2.8 million in state GRF sales tax revenues. The second proposal extends a current policy enacted on a temporary basis of providing the Public Library Fund with 1.68 percent of non-auto sales tax revenues, up from the permanent law 1.66 percent.

A policy change enacted during the 132nd General Assembly but not effective until the beginning of fiscal year 2020 is the exemption of prescription eyewear from the sales tax. The estimated state GRF tax revenue loss during fiscal year 2020 is \$43.0 million (reflecting 11 months of fiscal impact due to the one-month lag between sales and tax payment) and \$49.0 million during fiscal year 2021. This loss is expected to grow incrementally in the following years.

Revenue Estimates and Methodology

The final and most impactful policy change for the non-auto sales tax comes from the federal government. The Internet Tax Freedom Act of 1998 was enacted with the expressed intent to protect nascent internet providers by prohibiting state and local governments from levying a sales tax on amounts paid for internet access. Ohio is one of seven states that was allowed to continue levying sales tax on internet access at the time of enactment due to the fact Ohio imposed a tax on these activities prior to the adoption of federal legislation. The "grandfather clause" permitting Ohio to continue to tax internet access will expire at the end of fiscal year 2020, and the loss of these revenues will be realized during fiscal year 2021. The estimated foregone sales tax revenue from this exclusion is \$187.5 million in fiscal year 2021.

Table B-4: Non-Auto Sales Tax GRF Revenues, Baseline and After Policy Changes

(dollars in millions)

	Actual			Estimate	Forecast	
	FY 2016	FY 2017	FY 2018	FY 2019	FY 2020	FY 2021
Actual/Estimated Baseline Revenue	\$9,001.7	\$9,220.6	\$8,707.6	\$9,050.0	\$9,322.2	\$9,370.7
Baseline Annual Growth Rate	4.1%	2.4%	-5.6%	3.9%	3.0%	0.5%
Tax Policy Proposals						
Increase Nicotine Product Purchase Age					(\$2.7)	(\$4.0)
PLF funding at 1.68% (increase from 1.66%)					(\$2.5)	(\$2.5)
Total Policy Changes					(\$5.2)	(\$6.5)
GRF Forecast Revenue after Policy Changes						\$9,317.0
Annual Growth Rate after Policy Changes						2.9%

Non-Auto Sales and Use Tax

The non-auto sales and use tax forecast is the result of the output of an econometric model of the sales tax base, with a number of "post-model" adjustments made to derive the final forecast.

Each biennium, OBM and the Department of Taxation estimate a number of possible models for the non-auto sales tax, before generally settling on either one or two. If two are selected, generally the results are averaged to get a final model result. For the fiscal years 2020-2021 biennium, one regression equation was chosen. This equation was selected both for generating estimated values that fit more closely with actual historical data, and for relying heavily on wage and salary income, historically a key variable in forecasting non-auto sales tax revenues. The other main variable in the equation chosen is the Ohio employment to population ratio, which is meant to capture Ohio employment dynamics outside of wage income alone. Other equations examined included housing variables (housing starts, housing permits) and share of state population over 65 as independent variables. These models also fit the historical data well, but not quite as well as the equation ultimately selected.

IHS Markit and Moody's are two primary providers of the data for variables used in preparing forecasts. As has been the case for the last few biennia, the IHS baseline forecast was chosen as the primary source of independent variable forecasts. Rather than accepting this forecast wholesale, OBM and the Department of Taxation reduced the growth rates for the second half of fiscal year 2020 and fiscal year 2021, both in the interest of being conservative and in order to hold income growth to no faster than growth in gross state product.

Another key variable used in previous econometric models of the non-auto sales tax, but not the model for this biennium, is retail prices, measured via a specially constructed retail price deflator. During the last several years, retail price data OBM had been monitoring was trending negative, depressing sales tax revenues. In calendar year 2018, retail demand and prices began to rebound leading to renewed growth in non-auto sales tax revenues. According to surveys of retailers by the Cleveland Federal Reserve, the expectation within the industry is that retail demand will remain strong in the near term presumably yielding positive sales tax revenues. Part of the explanation for this resurgent growth during 2018 may have been due to income tax withholding reductions at the federal level providing consumers with extra income to spend.

Revenue Estimates and Methodology

OBM has also calculated growth rates in tax collections by out-of-state sellers and found that, since the U.S. Supreme Court *Wayfair* vs. South Dakota decision in June 2018, such revenue has been growing by over 10 percent from the same month the year before. Although Ohio has not changed its law to enact an "economic nexus" sales tax standard for collecting sales tax, it has still seen substantial revenue growth from out-of-state sellers. Perhaps some of the large volume retailers selling in a number of states have started voluntarily collecting Ohio sales tax. This could have generated some additional boost to non-auto tax growth rates for fiscal year 2019.

One of the important adjustments made to the non-auto tax outside the regression model is to subtract an estimate of motor vehicle leasing revenue from the dependent variable, run the regression model, and then add that estimated revenue back in to the regression output. In this way, the regression model estimates true non-auto revenue, based on variables thought to drive non-auto purchasing decisions, and is not affected by auto dealer incentives that drive lease or purchase decisions in different directions in different years.

Figure B-5 displays GRF non-auto sales tax revenues over the fiscal years 2016-2021 period, before and after the proposed Executive Budget changes.

**Figure B-5: GRF Non-Auto Sales Tax Revenues,
Before and After Proposed Policy Changes**
(dollars in millions)

Revenue Estimates and Methodology

Auto Sales Tax

The auto sales tax forecast is based on an econometric model which performs a conditional least squares regression of the auto sales tax base against two variables: Ohio wage data used as a measurement of disposable income (albeit with the state's gross domestic product used as a growth limitation), and a variable pertaining to leased cars in order to remove such transactions data (these transactions are included in non-auto sales tax). The Department of Taxation and OBM have used a regression equation with these two variables for estimating the auto sales tax for several consecutive biennia.

New vehicle sales are down outright on a seasonally adjusted annualized basis at the time of this publication. From a high of 17.5 million units seen during the last calendar year, the current rate of sales has new autos selling at around 16.6 million units. However, from a revenue perspective it is becoming more clear that price growth has been increasing auto sales tax revenues. This is likely due in large part to the increasing shift towards light-truck and SUV purchases. These vehicles carry a higher sticker price, and if the shift in sales composition continues to favor these more expensive vehicles and away from passenger automobiles, then auto sales tax revenues will continue their ascent.

Figure B-6: GRF Auto Sales Tax Revenues

(dollars in millions)

Personal Income Tax

The Ohio income tax on individuals and estates took effect in 1972, with an income tax on trusts enacted in 2002. There are currently seven income brackets with progressive tax rates ranging from 1.980 percent to 4.997 percent. Ohio taxable income is federal adjusted gross income (federal taxable income for estates and trusts), with certain adjustments as well as an exemption for filers and their dependents. Graduated tax rates are applied to this income base to arrive at tax liability before credits. Ohio law provides a variety of nonrefundable tax credits and several refundable tax credits; the taxpayer subtracts appropriate tax credits to derive final tax liability. Individual taxpayers whose taxable income is less than or equal to \$10,850 (this is the amount for 2018; it increases annually through an inflation adjustment) are effectively exempt from the tax since they receive a full credit against the tax otherwise due.

Effective in taxable year 2013, a deduction against business income became available to taxpayers. In taxable years 2013 and 2014, the deduction equaled 50 percent of taxable business income, not to exceed \$125,000. In taxable year 2015, the deduction was increased to 75 percent of taxable income, not to exceed \$250,000. Finally, in taxable year 2016 the deduction became the lesser of taxable business income or \$250,000.

Revenue Estimates and Methodology

Following the implementation of the new deduction for business income, beginning in taxable year 2015 Ohio's individual income tax comprises two different sets of tax rates, with one set of tax rates applied to taxable non-business income and another tax rate structure applied to taxable business income. The seven-bracket Ohio tax rate structure referred to above applies to non-business income. Since taxable year 2016, taxable business income is taxed at a flat rate of 3.0 percent.

Table B-5 provides the total personal income tax liability on business and nonbusiness income, followed by total tax credits and tax liability after such credits. These tables emanate from tax return data for taxable year 2016 compiled and reported by the Department of Taxation.

**Table B-5: Reported Business and Nonbusiness Personal Income Tax Liability,
Tax Credits, and Liability After Tax Credits**

Taxable Year 2016 (dollars in millions)

	Tax on Nonbusiness Income	Tax on Business Income	Total
Tax Before Credits	\$10,573	\$1,604	\$12,177
Resident/Nonresident Tax Credits (a)			-\$4,332
All Other Nonrefundable Tax Credits			-\$731
Total Nonrefundable Tax Credits (b)			-\$5,063
Tax After Nonrefundable Tax Credits			\$7,358
Refundable Tax Credits (c)			-\$175
Tax After All Tax Credits			\$7,183

Table does not include trust or estate income tax returns and does not include tax remitted by qualifying pass-through entities.

- (a) States may only tax such portion of income that is earned or received in the state. Because the starting point for the computation of Ohio taxable income is federal adjusted gross income (i.e., income earned everywhere before special deductions and exemptions, as defined by the U.S. Internal Revenue Code), Ohio uses resident and nonresident tax credits (as appropriate) as the means of ensuring that income not earned or received in this state is not taxed by this state. Accordingly, the "Tax Before Credits" tables provided in this table are essentially theoretical and could not be realized since they would not be constitutionally compliant.
- (b) Credit amounts are as claimed on each individual tax return before application to liability. For some taxpayers, the amount of earned credits exceeds their pre-credit tax liability. Therefore, the total shown here exceeds the amount necessary to reduce each taxpayer's tax liability exactly to zero.
- (c) Includes historic preservation, job creation, motion picture production, financial institutions and venture capital refundable tax credits. Although they may be fully or partially refunded once annual tax liability is computed, the various forms of tax payment made prior to the filing of the annual tax return - i.e., withholding, estimated payments and prior-year overpayment carryforwards - are not considered "refundable tax credits" for purposes of this table.

The baseline personal income tax revenue estimates were derived by dividing this tax source into two different components: employer withholding and taxes derived from non-wage income. The collections for employer withholding in fiscal years 2019 through 2021 were estimated employing regression analysis, using Ohio wage and salary income as the main independent variable. However, as discussed on page two of this document, beginning in the second quarter of calendar year 2020 a growth limitation was applied to the Ohio wage and salary income forecast variable under the theory that wages and salaries are not likely to grow faster than the expected increase in Ohio gross domestic product during the same time frame. The employer withholding regression equation also uses a proxy variable for pension income against which there is personal income tax withheld.

The estimates for the non-wage components reflect historical IRS data for Ohio residents for various non-wage income amounts (capital gains, dividends, rents and royalties, interest, etc.) projected forward using forecasts of those income amounts or proxies for those income amounts from IHS Markit and other sources.

Revenue Estimates and Methodology

The fiscal years 2020-2021 Executive Budget does not propose extensive changes to the personal income tax but does propose several tax credits to address important public policy goals. The Executive Budget proposes a nonrefundable personal income tax credit equal to 10 percent of capital gains reinvested by individuals into qualified Opportunity Funds operating within Opportunity Zones located in Ohio. The proposal uses the recently-enacted federal Qualified Opportunity Zone tax incentive as a tool to leverage additional investment into areas of Ohio that have experienced economic challenges. This program, enacted by the Tax Cuts and Jobs Act of 2017, provides a substantial federal tax benefit to individuals making long-term investments in qualified funds operating in Opportunity Zones, which exist in thousands of eligible designated areas across the nation (i.e., the zones are Census tracts meeting designated economic distress criteria). Because the federal tax incentive is deferred (after the investment has been held for a required minimum number of years), an early stage Ohio investment credit is expected to provide an important inducement to steer investments to Ohio zones that may have otherwise gone to other purposes or to non-Ohio zones, and thereby spur new business activity in those Ohio communities in which the more than 300 Ohio zones are located.

The fiscal years 2020-2021 Executive Budget also proposes a personal income tax credit to defray expenses incurred by individuals for the assessment and abatement of lead existing within the painted surfaces of their homes. Credit-eligible dwellings must have been placed into service before 1960 and must be occupied by a child under the age of six or other qualifying occupants. Amounts not otherwise reimbursed that are paid to a licensed lead abatement specialist for an assessment of the presence of lead in the dwelling and for lead abatement measures undertaken at the dwelling, qualify for the tax credit. The maximum allowable credit for any project would be \$10,000 and there would be a maximum household income amount used in the determination of applicant eligibility. Credit application would be made with the Ohio Department of Health, which would administer the tax credit in conjunction with the Ohio Department of Taxation. The tax credit is nonrefundable, and the total amount of annually-issued credits is not to exceed \$5 million.

Table B-6 shows the history and forecasts of GRF income tax collections, both baseline and after policy changes.

Table B-6: Personal Income Tax GRF Revenues, Baseline and After Policy Changes

(dollars in millions)

	Actual			Estimate	Forecast	
	FY 2016	FY 2017	FY 2018	FY 2019	FY 2020	FY 2021
Actual/Estimated Baseline Revenue	\$7,799.3	\$7,606.5	\$8,411.0	\$8,600.0	\$9,184.0	\$9,507.0
Baseline Annual Growth Rate	-8.3%	-2.5%	10.6%	2.2%	6.8%	3.5%
Tax Policy Proposals						
Credit for Investments in Ohio Qualified Opportunity Zones					(\$0.0)	(\$30.0)
Credit for Qualifying Lead Abatement Expenses					(\$5.0)	(\$5.0)
Total Tax Policy Changes					(\$5.0)	(\$35.0)
GRF Forecast Revenue after Policy Changes					\$9,179.0	\$9,472.0
Annual Growth Rate after Policy Changes					6.8%	3.2%

After a series of income tax reductions during the fiscal years 2014-2015 and fiscal years 2016-2017 biennia, income tax revenue patterns since fiscal year 2016 have not been as affected by personal income tax policy changes as they were in the preceding years. Two notable exceptions are the expansion of the business income deduction in tax year 2016 (first fully impacting fiscal year 2017) and a 3.3 percent reduction in employer withholding tax rates that took effect in taxable year 2019. As both Table B-6 and Figure B-7 show, over the fiscal years 2016-2019 period, GRF income tax revenues have grown from \$7.61 billion in fiscal year 2017 to an estimated \$8.60 billion in fiscal year 2019. The \$1 billion in growth over two years reflects strong mutually reinforcing dynamics, i.e., vibrant total wage and non-wage growth, impacting the personal income tax. In fact, fiscal year 2019 would have grown by an additional \$148.5 million if not for the withholding tax rate change and would have yielded a 4.0 percent growth rate in that year instead of the 2.2 percent rate OBM actually projects. OBM forecasts 6.8 percent baseline GRF revenue growth in fiscal year 2020, and 3.5 percent growth in fiscal year 2021. The proposed policy changes do not cause a discernible change in the fiscal year 2020 revenue growth rate, and yield 3.2 percent forecasted growth for fiscal year 2021.

Revenue Estimates and Methodology

**Figure B-7: Personal Income Tax All Funds and GRF Revenues,
Before Proposed Executive Budget Policy Changes**
(dollars in millions)

Commercial Activity Tax (CAT)

The commercial activity tax (CAT), a tax imposed for the privilege of doing business in Ohio, is levied upon taxable gross receipts sourced to Ohio from most business activities. The tax was enacted in House Bill 66 of the 126th General Assembly and was phased in over five years beginning in July 2005. The CAT applies to businesses with at least \$150,000 in annual taxable gross receipts. Those companies subject to the CAT are taxed at \$150 on their first \$1.0 million in annual taxable gross receipts plus the CAT rate multiplied by their remaining taxable gross receipts above \$1.0 million. Since fiscal year 2010, when the commercial activity tax was fully implemented, a tax rate of 0.26 percent has applied to all businesses subject to the tax on annual receipts in excess of \$1.0 million.

Beginning in fiscal year 2014, a change was made to the \$150 minimum tax. The \$1 million exclusion provides a significant tax benefit to companies with gross receipts in excess of \$1 million: if all of the first \$1 million in gross receipts were taxed at 0.26 percent, the tax owed would be \$2,600, or \$2,450 more than \$150. Recognizing this, beginning in fiscal year 2014 the General Assembly changed the minimum tax to phase out the benefit of the exclusion as taxable gross receipts increased. For taxpayers with gross receipts above \$1 million, the minimum tax was increased as follows:

- \$800 for filers with more than \$1 million but less than or equal to \$2 million taxable gross receipts in the previous calendar year;
- \$2,100 for filers with more than \$2 million but less than or equal to \$4 million taxable gross receipts in the previous calendar year; and
- \$2,600 for filers with more than \$4 million taxable gross receipts in the previous calendar year.

As the CAT was phased in, the law enacted in H.B. 66 phased out the tangible personal property tax. The tax on general business and railroad property was phased-out over four tax years (2006-2009), and the tax on telephone and telecommunications property was phased out over five tax years (2007-2011). To provide transitional relief for the local tax losses caused by the phase-out of the tangible personal property tax, from fiscal years 2007 through 2011, the GRF received no CAT revenue and the revenue was instead deposited into two separate tangible personal property tax replacement funds to provide guaranteed payments to school districts and local governments.

Revenue Estimates and Methodology

The disposition of CAT revenues has been changed three times since fiscal year 2011, as shown in Table B-7, with the result that under current law the GRF receives 85 percent of CAT revenues (after an earmarked 0.85 percent that goes to the Department of Taxation for administrative expenses), the school district replacement fund receives 13 percent of CAT revenues, and the local government replacement fund receives 2 percent of CAT revenues. The replacement payment obligations to schools and local governments have declined over time as school districts and local governments have received gradually decreasing payments based on formulae that reduce their payments in annual increments based on their budgetary reliance on those payments. This decline in payments to schools and local governments is the reason that the law has been changed to reduce the percentage shares provided to the replacement funds, while increasing the share going to the GRF.

**Table B-7: Allocation of CAT revenues after Dept of Taxation administrative expenses,
Fiscal Years 2012-2018**
(dollars in millions)

	HB 153				HB 64		HB 49
	FY 2012	FY 2013	FY 2014	FY 2015	FY 2016	FY 2017	FY 2018 and thereafter
GRF	25%	50%	50%	50%	75%	75%	85%
School district replacement fund	52.5%	35%	35%	35%	20%	20%	13%
Local govt replacement fund	22.5%	15%	15%	15%	5%	5%	2%

The baseline CAT forecast is a multi-stage process that begins with forecasting taxable gross receipts (TGR). TGR is forecasted based on the historical correlation between TGR and gross output by industry, with forecasts of gross output (the main independent variable in the regression equation) supplied by IHS Markit. Rather than just using the total U.S. gross output, OBM uses gross output only from certain industries, because the CAT tax base excludes large amounts of particular industry groups such as finance and utilities, since those industry groups are subject to alternative taxes. In addition, the Department of Taxation has calculated an adjusted TGR (the dependent variable) by taking out historical amounts for taxpayers who were made subject to the petroleum activity tax instead of the CAT in fiscal year 2015.

Once TGR has been estimated, there are several additional steps required to derive a CAT forecast. These are as follows:

- (i) Estimate the exclusion amount to derive taxable gross receipts after exclusion;
- (ii) Multiply by the 0.26 percent tax rate to derive tax before credits, other than the minimum tax;
- (iii) Estimate the minimum tax using trend analysis;
- (iv) Add the estimates of steps (ii) and (iii) to derive a total estimated tax before credits;
- (v) Estimate the tax credits and subtract them from the results of step (iv) to derive total CAT revenues;
- (vi) Multiply the result of (v) by 0.85 percent to estimate Taxation's share of revenue for administrative expenses;
- (vii) Subtract the results of step (vi) from step (v) to estimate the amounts to be distributed to the GRF and the two property tax replacement funds.
- (viii) Multiply the result of (vii) by the appropriate percentages to obtain estimated GRF revenue and the revenue to the school district property tax replacement fund and the local government property tax replacement fund.

Revenue Estimates and Methodology

As shown in Figure B-8, All Funds CAT revenue amounted to \$1.69 billion in fiscal year 2016 and is estimated to reach an estimated \$1.85 billion in fiscal year 2019. This represents an increase of 9.8 percent over these years. However, the rate of growth for GRF tax revenue during the same time frame is much larger, at 24.6 percent. The increase in the GRF share of CAT revenue, from 75 percent to 85 percent, beginning in fiscal year 2018 explains the outsized GRF growth rate. Growth during the fiscal years 2018-2021 period will be the same for GRF and All Funds because the GRF share will be constant. OBM estimates 2.7 percent growth in CAT revenue for fiscal year 2019, and projects 2.8 percent baseline growth for fiscal year 2020 and 1.9 percent baseline growth for fiscal year 2021.

Table B-8: CAT GRF Revenues

(dollars in millions)

	Actual			Estimate	Forecast	
	FY 2016	FY 2017	FY 2018	FY 2019	FY 2020	FY 2021
GRF Actual/Estimated Baseline Revenue	\$1,255.3	\$1,301.5	\$1,522.8	\$1,564.6	\$1,608.4	\$1,639.6

Figure B-8: CAT All Funds and GRF Revenues

(dollars in millions)

Cigarette and Other Tobacco Products Tax

A tax is levied upon the sale, use, consumption, or storage for consumption of cigarettes in Ohio and on the receipt or import of other tobacco products for resale in Ohio. The excise tax on cigarettes has been levied since 1931. The excise tax on other tobacco products (OTP) was enacted effective February 1993 and applies to cigars, chewing tobacco, snuff, smoking tobacco, and other defined tobacco products. Other tobacco products are currently taxed at 17 percent of their wholesale price, with the exception of "little cigars," which beginning in fiscal year 2018 are taxed at a higher rate.

The baseline estimates for the cigarette and OTP tax were forecasted separately, using recent performance and observed trend as the primary factors. For cigarette tax revenue, OBM estimates a decline of 2.0 percent in fiscal year 2019 and forecasts an annual decline of 2.5 percent for the fiscal year 2020 and fiscal year 2021 period. OBM assumes OTP tax (a much smaller portion of the total tax source than cigarettes) will experience a 7.8 percent increase in fiscal year 2019, followed by 4.7 percent annual growth in fiscal year 2020 and fiscal year 2021.

Revenue Estimates and Methodology

The fiscal years 2020-2021 Executive Budget proposes an important change to the cigarette and OTP taxes. The Budget would change Ohio law by increasing the minimum legal age - from age 18 to age 21 - for purchasing cigarettes, other tobacco products, alternative nicotine products, and cigarette papers. Although the proposed age increase does not constitute a change in how these products are taxed, it would reduce the quantity of purchased items because of the age change and therefore result in a modest decline in cigarette and OTP tax revenue.

Table B-9 shows the baseline forecast, the estimated impact of the proposed law change, and the revenue forecast after adding together the baseline and the proposed policy changes. The historical growth rate is notably large in fiscal year 2016 (24.7 percent) due to the tax rate on cigarettes increasing from \$1.25 per pack to \$1.60 per pack. For the baseline, OBM forecasts a modest ongoing decline for this revenue source during the fiscal year 2019 through fiscal year 2021 period. The proposed policy changes results in modest reduction in revenue during fiscal year 2020 and fiscal year 2021.

Revenue Estimates and Methodology

Kilowatt-Hour Tax

The kilowatt-hour tax was enacted in 2001 as part of a broader policy change to deregulate electric utilities. Effective May 2001, this tax replaced the public utility excise tax on electric and rural electric companies. The kilowatt-hour tax is levied on electric distribution companies with end-users in Ohio; collection is based on the end-user's consumption of electricity, as measured in kilowatt-hours (kWh). A three-tiered marginal tax rate structure is used based on kWh consumption. For certain large consumers of electricity (called "self-assessors"), prior to January 1, 2011, the tax was based partially on consumption (volume) and partially on sales (dollar amount). Beginning in 2011, self-assessors pay 0.257 cents per kWh on the first 500 million kWh of annual consumption and 0.1832 cents per kWh on all consumption above 500 million kWh.

Between January 2008 and June 2011, the GRF was credited with 63 percent of tax receipts for this source, whereas the school district and local government property tax replacement funds received a combined 37 percent to compensate for local tax revenue losses due to the reduced tangible personal property tax assessment rates for electric companies. In 2012, House Bill 153 of the 129th General Assembly changed the distribution of kilowatt-hour tax receipts, reducing to 12 percent the combined amount reserved for school districts (9 percent) and local governments (3 percent), with the remainder being deposited into the GRF. Finally, House Bill 64 of the 131st General Assembly changed the allocation again so that beginning in fiscal year 2016 all kilowatt hour receipts go to the GRF and the Public Library Fund (PLF) and the property tax replacement payments to school districts and local governments are made only from commercial activity tax collections.

Table B-10 shows the all-funds and GRF history and forecast for fiscal years 2016 through 2021 for kilowatt-hour tax revenue. Beginning with fiscal year 2016, the only difference between all funds and GRF kilowatt-hour tax revenues is that one-half of the distribution owed to the PLF is subtracted from kilowatt-hour tax receipts.

Table B-10: Kilowatt-Hour Tax All Funds and GRF-Only Revenues

(dollars in millions)

	Actual			Estimate	Forecast	
	FY 2016	FY 2017	FY 2018	FY 2019	FY 2020	FY 2021
All Funds Actual/Estimated Revenue	\$527.3	\$539.2	\$537.2	\$552.5	\$546.4	\$543.6
Public Library Fund Distribution	(\$189.3)	(\$191.8)	(\$194.8)	(\$199.5)	(\$208.7)	(\$212.5)
GRF Actual/Estimated Revenue	\$338.0	\$347.4	\$342.3	\$353.0	\$337.7	\$331.1
Annual GRF Growth Rate	15.6%	2.8%	-1.5%	3.1%	-4.3%	-2.0%

Revenue Estimates and Methodology

Total (all funds) kilowatt-hour tax collections dipped by 2.3 percent in fiscal year 2016, while GRF revenue for this source grew 15.6 percent. As explained above, the high GRF revenue growth in fiscal year 2016 was attributable to the changes in fund allocations, with revenue from this source no longer credited to the electric utility personal property tax replacement funds. Revenue growth in fiscal year 2019 through December has been a relatively strong 5.8 percent, on par with growth experienced during the first six months of fiscal year 2017. This explains the relatively strong estimated 3.1 percent GRF tax revenue growth rate for fiscal year 2019. In fiscal year 2020 and fiscal year 2021, however, the forecast reflects mild year-over-year declines with revenues returning to levels closer to - yet still larger than - the amounts realized during the last two biennia under the assumption that the level realized in fiscal year 2019 is not sustainable.

Figure B-10: Kilowatt-Hour Tax GRF Revenues

(dollars in millions)

Revenue Estimates and Methodology

Insurance Taxes

Under Ohio law, insurance companies fall into two categories: domestic and foreign. Domestic insurance companies are organized under Ohio law while foreign insurance companies are not. Ohio has two separate insurance taxes: one levied against domestic insurers and one levied against foreign insurers. Premiums are taxed at a rate of 1.4 percent, with the exception of health insurance premiums, which are taxed at a rate of 1.0 percent. Additionally, foreign insurance companies are subject to a retaliatory tax, which is explained in more detail below. House Bill 1 of the 128th General Assembly also authorized the inclusion of the Medicaid managed care plans in the Health Insuring Corporation (HIC) tax base effective October 1, 2009.

Figure B-11 shows actual and estimated revenues from the foreign and domestic insurance taxes credited to the GRF for fiscal years 2016 through 2021. OBM has not been able to develop a satisfactory model with predictive variables to forecast these revenue sources. Accordingly, this budget again uses a basic forecasting method. That said, the reversal of the relative revenue performance of the two insurance taxes is an outcome of these forecasts and is displayed in the chart.

For the foreign insurance tax, the forecast assumes that fiscal year 2019 revenue will nearly equal the level achieved in fiscal year 2018. OBM forecasts this revenue source to remain at \$277 million in fiscal year 2020 and in fiscal year 2021. This cautious forecast stems from expected modest underlying changes in pre-credit tax liability of foreign insurance companies and the sustained use of tax credits near recent levels.

For the domestic insurance tax, additional Medicaid managed care caseloads and total premiums resulted in strong revenue growth during the fiscal year 2014-2015 biennium, but the growth has lately been about \$10 million per year. Revenue grew by 3.7 percent in fiscal year 2018 and OBM estimates it will grow by 4.0 percent in fiscal year 2019. The forecast assumes continued 4.0 percent annual growth during both fiscal year 2020 and fiscal year 2021.

Figure B-11: Insurance Tax GRF Revenues

(dollars in millions)

Revenue Estimates and Methodology

Foreign Insurance Tax

The foreign insurance tax applies to insurance companies that are not organized under Ohio law, but sell insurance policies in Ohio. The tax is based on the gross amount of premiums written for Ohio risks during the preceding calendar year, less specified deductions. Additionally, if the state in which the insurance company is organized imposes a higher tax on premiums than Ohio imposes (that is, the other state imposes on Ohio-organized insurance companies a higher tax than Ohio's tax structure would impose on insurance firms organized in that state), the company must also pay an Ohio retaliatory tax equal to the difference between total tax under Ohio law and total tax under law in its state of origin. (Ohio is not unique in levying a retaliatory tax: every state with an insurance premiums tax has such a provision.) An increase in tax credits explains much of the recent decline in revenue. Credit volume is not likely to recede over the next several years, and OBM deems it appropriate to expect little movement in overall foreign insurance tax revenue through the next biennium. The estimates for fiscal years 2019 through 2021, as well as recent history, are presented in Figure B-12.

Figure B-12: Foreign Insurance Tax GRF Revenues

(dollars in millions)

State of Ohio

Revenue Estimates and Methodology

Domestic Insurance Tax

The domestic insurance tax applies to insurance companies that are organized under Ohio law. The tax applies to the gross amount of premiums written to cover risks in Ohio, less specific deductions. Figure B-13 presents recent revenue history and estimated revenue for fiscal years 2019-2021.

Figure B-13: Domestic Insurance Tax GRF Revenues
(dollars in millions)

Revenue Estimates and Methodology

Financial Institutions Tax

Beginning in fiscal year 2014, the financial institutions tax (FIT) replaced the previously existing taxes on financial institutions (corporation franchise tax and dealers in intangibles tax) with a new business privilege tax on financial institutions. The GRF receives all revenue collected from this tax.

The financial institutions tax is levied on the "total Ohio equity capital" of financial institutions, which is the portion of the financial institution's total equity capital that is apportioned to Ohio. Apportionment reflects the proportion of the taxpayer's gross receipts that can be assigned to activity emanating from Ohio. Three marginal tax rates are applied: 0.8 percent on the first \$200 million of total equity capital, 0.4 percent on the amount of total equity capital greater than \$200 million but less than or equal to \$1.3 billion, and 0.25 percent on the amount of total Ohio equity capital in excess of \$1.3 billion. If the taxpayer's liability does not exceed \$1,000, a minimum tax of \$1,000 is applied.

Ohio law allows a variety of credits to be claimed against the tax, including the job creation credit, job retention credit, venture capital loan loss credit, historic building rehabilitation credit, new markets credit, motion picture promotion credit, and the research and development credit. These credits reduce the amount of revenues paid into the GRF.

Figure B-14 provides the historical performance of the tax for fiscal years 2016-2018 as well as projections of GRF receipts from the financial institutions tax for fiscal years 2019 through 2021.

Forecasting the FIT poses a challenge because there is only an abbreviated history of the tax and because the tax credits that reduce collections are volatile and hard to predict. Credits taken against the FIT amounted to \$36.0 million in fiscal year 2015 (credit data is not available for fiscal year 2014), dropped to \$22.8 million in fiscal year 2016, but then increased to \$40.1 million in fiscal year 2017 and \$52.6 million in fiscal year 2018.

The fiscal year 2019 estimate assumes a 4.9 percent increase relative to fiscal year 2018. However, given the somewhat volatile pattern of FIT collections and expectations of continued tax credit growth, the forecasts for fiscal years 2020-2021 reflect the somewhat modest assumption that revenues will hold at \$200 million per year.

Figure B-14: Financial Institutions Tax GRF Revenues

(dollars in millions)

Revenue Estimates and Methodology

Public Utility Excise Tax

The public utility excise tax has been levied on most public utility companies since 1894. The tax is based on the gross receipts of public utility companies. The several classes of utilities subject to the tax are those that had not been subject to the now-repealed corporation franchise tax. In addition, services provided by public excise taxpayers are excluded from the sales and use tax, and tangible personal property purchased by public utilities and used for qualifying purposes is exempt from sales and use tax. The majority of the public utility excise tax is collected from natural gas utilities (but not from natural gas marketers, whose customers pay the sales tax). Smaller contributors to this tax are pipeline, heating, waterworks, and water transportation companies.

There have been two major changes to this tax since 2001. Amended Substitute Senate Bill 3 of the 123rd General Assembly replaced the excise tax on electric and rural electric companies with the kilowatt-hour tax, which became effective May 1, 2001. Amended Substitute House Bill 95 of the 125th General Assembly removed the telephone companies from the public utility excise tax and instead subjected their receipts to the sales and use tax, beginning in tax year 2005.

In the past, OBM estimated the revenue from this tax source based on regression analysis related to natural gas, with adjustments for such variables as the percentage of customers using budget payment plans. However, beginning with the fiscal years 2014-2015 budget, OBM has moved to using trend analysis for the forecast, based on the fact that natural gas prices continue to be volatile and hard to predict. In addition, collections for the public utility excise tax are still affected by the expansion of the natural gas choice program, where gas consumers are able to buy natural gas from competitive suppliers who are subject to the sales and use tax. The excise tax receipts from pipeline, heating, waterworks, and water transportation companies are relatively small and have been historically stable, although pipeline company tax receipts have recently begun to grow.

Since January 2008, all receipts from this tax source are credited to the GRF. Figure B-15 provides history and projections of GRF receipts from the public utility excise tax for fiscal years 2016 through 2021. Over the last several years, excise tax revenues have demonstrated successive growth rather than the usual up and down fluctuations driven by changes in demand and price. Based on strong results to-date, OBM estimates that fiscal year 2019 revenue will grow by 15.7 percent, reaching \$138 million. However, given the great uncertainty of sustained growth, OBM projects that excise tax revenues will be \$135.0 million in fiscal year 2020 (representing a 2.2 percent decline) and then hold steady at that amount in fiscal year 2021.

Figure B-15: Public Utility Excise Tax GRF Revenues

(dollars in millions)

Revenue Estimates and Methodology

Natural Gas Distribution Tax (MCF Tax)

The natural gas distribution tax is levied on natural gas distribution companies based on volumes of end users' consumption, as measured in million cubic feet (MCF). Three marginal tax rates are applied: \$0.1593 per MCF for the first 100 MCF consumed in a month; \$0.0877 per MCF for usage between 101 and 2,000 MCF consumed in a month; and \$0.0411 for all consumption over 2,000 MCF in a month. Like the kilowatt-hour tax, the MCF tax is a product of energy sector deregulation, coming into existence in 2001 as part of a set of tax changes involving natural gas. Revenue from the tax was originally earmarked to replace the revenue lost by school districts and local governments when the assessment rate on the personal property of natural gas distribution companies was reduced from 88 percent to 25 percent.

Prior to fiscal year 2012, no MCF tax revenues went to the GRF: instead, 68.7 percent had been credited to the School District Property Tax Replacement Fund, and 31.3 percent had been credited to the Local Government Property Tax Replacement Fund. For fiscal year 2012 and thereafter, all revenue from the natural gas distribution tax is credited to the GRF.

MCF tax revenues can be volatile. A recitation of recent history illustrates its dynamic nature. For fiscal years 2012-2013, revenue averaged \$59.0 million per year. Revenues then spiked up to \$76.1 million in fiscal year 2014 and \$74.7 million in fiscal year 2015, spurred by heavy usage during cold winters. Revenues fell back to \$60.7 million in fiscal year 2016 and were \$61.8 million in fiscal year 2017 before once again rising upward in fiscal year 2018, reaching \$69.6 million. Since winter weather and usage are very difficult to predict, OBM has assumed that for fiscal years 2019-2021 revenues will remain at \$69.5 million per year. Figure B-16 provides the history and projections of GRF receipts from the natural gas consumption tax for fiscal years 2016 through 2021.

Figure B-16: Natural Gas Distribution Tax GRF Revenues

(dollars in millions)

Revenue Estimates and Methodology

Alcoholic Beverage Taxes

The alcoholic beverage tax applies to sales of beer and malt beverages, wine, and mixed alcoholic beverages. The tax is based on a per-container rate depending on the type of beverage sold. All of the receipts are deposited into the GRF with the exception of 5.0 cents per gallon of wine sold, which is deposited in the Ohio Grape Industries Special Revenue Fund, and 1.0 percent of the tax, which is deposited in the Beverage Tax Administration Fund. Figure B-17 illustrates estimated receipts to the GRF from the alcoholic beverage tax for fiscal years 2016-2021. Average annual revenues from the tax for fiscal years 2016-2018 were \$55.0 million. The OBM baseline forecast for fiscal years 2019-2021 is set at or just above that level, at \$55 million in fiscal year 2019 and at \$56 million in both fiscal year 2020 and fiscal year 2021.

Figure B-17: Alcoholic Beverage Tax GRF Revenues

(dollars in millions)

Revenue Estimates and Methodology

Liquor Gallonage Tax

The liquor gallonage tax is currently levied at the rate of \$3.38 per gallon of spirituous liquor sold by the private company JobsOhio Beverage System. All tax revenues are deposited into the GRF. The dollar value of liquor sales has continued to rise over the last several years, a trend expected to continue in the future. Even though gains in liquor sales do not necessarily translate into gains for the liquor gallonage tax (due to the tax being volume based, not dollar sales based) OBM expects modest growth through the fiscal years 2020-2021 biennium. As detailed in Figure B-18, the baseline estimate assumes 1.8 percent growth in fiscal year 2019 and 2.0 percent annual growth in fiscal years 2020 and 2021.

Figure B-18: Liquor Gallonage Tax GRF Revenues

(dollars in millions)

Revenue Estimates and Methodology

Petroleum Activity Tax

The Petroleum Activity Tax (PAT) is an offshoot of the Commercial Activity Tax (CAT). During the CAT's first two fiscal years, fiscal years 2006-2007, petroleum products were generally exempt from the tax. The CAT began to be applied to motor fuel in fiscal year 2008. In December 2012, the Ohio Supreme Court ruled in the Beaver Excavating decision that allocating CAT revenues to the GRF and to property tax replacement funds violated Article XII, Section 5a of the Ohio Constitution which requires that taxes on motor fuel be dedicated to road and bridge expenditures. The initial response to this decision resulted in the CAT still being applied to motor fuel, but the receipts from motor fuel being segregated and placed in a different fund. Beginning in fiscal year 2015, gross receipts from motor fuel were excluded from the CAT, and suppliers of motor fuel began to pay the motor fuel receipts tax, later named the PAT.

The PAT is levied at a rate of 0.65 percent on "calculated gross receipts" from motor fuel, which are defined as taxable gallons sold multiplied by a statewide wholesale price per gallon. The 0.65 percent rate was deliberately chosen to be 2.5 times the 0.26 percent CAT rate.

Most PAT revenue - specifically the share used for propelling vehicles on public highways or waterways - is deposited into a special fund, to be used for highway-related purposes. A small share of the revenue that comes from motor fuel sold for off-road purposes goes to the GRF.

The PAT has only four years of revenue history, fiscal years 2015-2018, during which time GRF revenues from the PAT grew from \$5.5 million to \$7.8 million. Since wholesale prices of gasoline and diesel have been low for some time now, OBM conservatively estimates PAT GRF revenues at \$8.0 million each year for fiscal years 2019-2021.

Figure B-19: Petroleum Activity Tax GRF Revenues

(dollars in millions)

Revenue Estimates and Methodology

Non-Tax Sources

This section addresses the history and estimates of the numerous categories of non-tax receipts that are deposited into the GRF. These non-tax receipts are estimated and discussed in this document by source in the same order that they are included in the Monthly Financial Report. Categories of non-tax sources are: federal grants and aid, earnings on investments, licenses and fees, other income, intrastate transfer vouchers (ISTV), and transfers in.

Federal Grants and Aid

Historically, federal receipts deposited into the GRF have been largely limited to federal reimbursements for programs administered by the Departments of Medicaid. These reimbursements are mainly for Medicaid services, but also include reimbursement to the state for Medicaid administration and interest costs on Build America Bonds issued by the state. Figure B-20 lists total federal grants and aid to the GRF for fiscal years 2016 through 2021.

Figure B-20: Federal Grants and Aid GRF Revenues

(dollars in millions)

Medicaid Reimbursement

The federal reimbursement percentage for Medicaid is determined by the federal government prior to each federal fiscal year and is called the Federal Medical Assistance Percentage (FMAP). FMAP is the federal government's share of a state's Medicaid expenditures. In general, each state's FMAP rate is based on the ratio of the state's per capita income to the U.S. per capita income. The FMAP rate varies by service and ranges from 50.0 percent to 90.0 percent (for Medicaid expansion to persons at or below 138.0 percent of poverty under the Affordable Care Act). Ohio's weighted average FMAP rate is projected to be 63.04 percent in both fiscal years 2020 and 2021. In fiscal years 2020 and 2021, federal revenue estimates assume that 99.75 percent of all potential reimbursements will be received.

To provide some context, it is important to note that not all federal reimbursement for Medicaid is drawn into the GRF. The federal Medicaid reimbursement that is deposited to the GRF is related only to the GRF Medicaid spending from the Ohio Department of Medicaid line items. Other reimbursements include:

- Reimbursements for other state agencies that administer portions of the Medicaid program (such as the Department of Developmental Disabilities) which are drawn through a federal special revenue fund in the state treasury and used to fund additional Medicaid services through discrete agency-specific funds rather than through the GRF.

Revenue Estimates and Methodology

- Federal reimbursement for Medicaid and Jobs and Family Services spending from non-GRF rotary accounts is reimbursed through a federal special revenue fund rather than through the GRF. As an example, when Medicaid receives rebates from drug manufacturers, those resources are deposited into a dedicated purpose fund and ultimately matched with federal reimbursement that is drawn into a federal special revenue account. Spending estimates for all aspects of the Medicaid program are determined by caseload projections, utilization levels, and rates for services. Any changes in state spending on Medicaid or reimbursable operating expenditures will change receipts from federal grants.

For fiscal years 2019-2021, total federal grants and aid deposited into the GRF are estimated to be \$9,615.8 million, \$9,679.5 million, and \$10,437.5 million in the respective fiscal years.

Earnings on Investments

Earnings on investments are determined by the amount of cash in the state's investment portfolio and the level of interest rates at which the funds are invested. The GRF's share of total earnings on investments is determined by the average daily cash balance in the GRF and all the non-interest-earning funds. The Treasurer of State is responsible for managing the state's portfolio and investing state funds. State funds are invested in a diversified portfolio concentrated in short term to medium term securities issued by the Federal government and its agencies.

The baseline estimate of investment earnings is the product of the estimated cash balance and interest rates. OBM forecasts that cash balances will remain relatively consistent over the fiscal year 2020 and 2021 biennium, while interest rates will continue the recent trend of growth throughout fiscal year 2020 before stabilizing in fiscal year 2021. OBM estimates that earnings on investment deposited into the GRF will increase from \$100.0 million in fiscal year 2019 to \$110.0 million in fiscal year 2020 and \$130.0 million in fiscal year 2021. The Executive Budget proposes continuing to distribute interest earnings from certain non-GRF resources into the GRF. The non-GRF resources that are excluded from this provision are mostly debt related funds or funds that are constitutionally restricted. The GRF estimates of receipts from earnings on investments are displayed in Figure B-21.

Figure B-21: Investment Earnings Deposited into the GRF
(dollars in millions)

Revenue Estimates and Methodology

Licenses and Fees

This source includes receipts deposited into the GRF from licenses and fees collected from businesses, occupations, and motor vehicle owners. The licenses and fees category also includes insurance agent fees, factory building fees, and fees from occupations and businesses not elsewhere classified. License and fee receipts deposited in the GRF are estimated to remain constant at \$58.3 million in fiscal year 2020 and increase slightly to \$58.8 million in fiscal year 2021.

Other Income

Other income consists of miscellaneous revenues from refunds, fines and forfeitures, sales of goods and services, receipts from local governments, and other revenue not elsewhere classified. In addition, these revenues include repayments of various loans made from the GRF, canceled warrants, and refunds of prior-year expenditures. The other income category is projected to increase slightly from \$74.7 million in fiscal year 2019 to \$77.7 million in fiscal year 2020 and \$78.3 million in fiscal year 2021. These revenues include payments by JobsOhio related to estimated liquor profits, which are expected to grow from \$36.8 million in fiscal year 2019 to \$40.5 million in fiscal year 2020 and \$44.5 million in fiscal year 2021. Also included in these estimates are \$19.2 million each fiscal year from racetrack relocation payments.

Intrastate Transfer Vouchers (ISTV)

Intrastate transfer vouchers consist mainly of appropriation reimbursements from other funds for services rendered by state agencies that receive GRF appropriations. It is estimated that \$13.2 million in ISTV will be deposited into the GRF in fiscal year 2020 and \$9.0 million in 2021.

Transfers In

Transfers-in to the GRF are estimated to decrease from \$309.6 million in fiscal year 2019 to \$250.9 million in fiscal year 2020 and increase to \$291.7 million in 2021.

The decrease in fiscal year 2020 is due largely to the anticipated timing of petroleum activity tax transfers that are attributable to gross receipts generated from the sale of motor fuel. These transfers are reimbursements to the GRF for debt service attributable to bonds issued to fund local highway and transportation projects. Typically, one transfer of approximately \$60.0 million occurs in June of each fiscal year, and that is what is assumed for fiscal years 2020 and 2021. Two transfers are now projected for fiscal year 2019, which drives the decrease in total transfers in fiscal year 2020.

The increase in fiscal year 2021 is largely attributable to an estimated increase in excess CAT receipt transfers, which are expected to grow from \$96.4 million in fiscal year 2019 to \$135.9 million in fiscal year 2020 and \$169.5 million in fiscal year 2021. The third and final large source of estimated transfers in to the GRF is \$50.0 million per fiscal year from various non-GRF funds in the state treasury that are not constitutionally protected.

Actual and Estimated Revenues

The tables on the following pages show revenue history by budget fund group for fiscal years 2016, 2017, and 2018 and revenue estimates for fiscal years 2019, 2020 and 2021. The first page of the table presents total revenue for all funds and, beginning on the table's second page are revenue amounts for each budget fund group. The revenues are presented by income source and the amounts displayed are in millions of dollars.

Ohio's FUTURE

BUDGET OF THE STATE OF OHIO

FISCAL YEARS 2020 - 2021

SECTION C

BUDGET OVERVIEW

Revenue Summaries

This section summarizes the revenue that is estimated to be received by the state in fiscal years 2020 and 2021. It is important to note that because all revenue that the state anticipates receiving in fiscal years 2020 and 2021 is summarized in this section, the revenue summaries include anticipated revenue that is not proposed for spending in this Executive Budget.

Detailed information on the economic forecast that drives the state's revenue estimates and the methods used to prepare the estimates are provided in Section B - Economic Forecast.

This section contains three pie charts that show summaries of the state's revenue estimates. Each is listed and described below.

Figure C-1, Total GRF Revenues Pie Chart: This pie chart shows the total estimated General Revenue Fund (GRF) revenue by major revenue source. All revenue from major state taxes (personal income tax, sales and use tax, business taxes, etc.) is deposited into the GRF along with revenue received from the federal government as reimbursement to the state for certain GRF expenditures made by the Department of Medicaid.

Figure C-2, State-Only GRF Revenue Pie Chart: The federal revenue deposited in the GRF is substantial and is expected to equal over \$20.0 billion during the fiscal year 2020-2021 biennium. The inclusion of this federal revenue in the GRF somewhat distorts the role that state tax revenue plays in financing state programs. State tax revenues, not federal reimbursements for human services programs, provide the majority of GRF revenues. To make this clear, this pie chart (labeled "State-Only GRF"), shows GRF revenue by major revenue source excluding the federal reimbursements for GRF spending that the state deposits into the GRF. Approximately 98.9 percent of the state's non-federal GRF revenue is from tax receipts.

Figure C-3, All Funds Revenue: The "all funds" pie chart illustrates how all operating budget revenue is split among the different types of state funds. The GRF provides about 45.5 percent of revenue used for all purposes. The state's 15 budget fund groups are used to create this pie chart.

Table C-1: The State's Budget Fund Groups

Budget Fund Group	Code
Bond Research & Development	BRD

Revenue Summaries

Figure C-1: Total GRF – Estimated Revenues for Fiscal Years 2020 and 2021

Estimated GRF Revenues
(dollars in millions)

Revenue Source	FY 2020	FY 2021	Total
Individual Income Taxes	\$9,179.0	\$9,472.0	\$18,651.0
Sales and Use Taxes	\$10,872.0	\$10,966.0	\$21,838.0
Federal Grants & Reimbursement	\$9,679.5	\$10,437.5	\$20,117.0
Commercial Activity Taxes	\$1,608.4	\$1,639.6	\$3,248.0
Public Utility/Kw-Hour Taxes	\$472.7	\$466.1	\$938.8
Other Taxes	\$1,856.8	\$1,848.1	\$3,704.9
Other Revenue	\$510.1	\$567.8	\$1,077.9
Total	\$34,178.5	\$35,397.1	\$69,575.6

Note: Numbers may not add to total due to rounding.
Source: Ohio Office of Budget and Management, March 2019

What This Chart Shows

This pie chart shows the proportional contribution that each revenue source makes toward the state's General Revenue Fund. All revenue coming into the State Treasury that is not specifically authorized by law to be placed in another fund is deposited in the GRF.

State of Ohio

Revenue Summaries

Figure C-2: State-Only GRF – Estimated Revenues for Fiscal Years 2020 and 2021

Estimated State-Only GRF Revenues

(dollars in millions)

Revenue Source	FY 2020	FY 2021	Total
Individual Income Taxes	\$9,179.0	\$9,472.0	\$18,651.0
Sales and Use Taxes	\$10,872.0	\$10,966.0	\$21,838.0

Other Taxes	\$1,856.8	\$1,848.1	\$3,704.9
Other Revenue	\$510.1	\$567.8	\$1,077.9
Total	\$24,498.9	\$24,959.6	\$49,458.6

Note: Numbers may not add to total due to rounding.

Source: Ohio Office of Budget and Management, March 2019

Note: These figures do not include \$20,117.0 million of estimated federal revenue (\$9,679.5 million in fiscal year 2020 and \$10,437.5 million in fiscal year 2021) in the GRF.

What This Chart Shows

This pie chart shows the proportional contribution that each revenue source, except federal reimbursements, makes toward the state's GRF. Approximately 97.8 percent of the revenue represented in this chart comes from state tax receipts, which are paid by individuals and companies living, working, and doing business in Ohio.

State of Ohio

Revenue Summaries

Figure C-3: All Funds – Estimated Revenues for Fiscal Years 2020 and 2021

All Funds Estimated Revenues

(dollars in millions)

Revenue Source	FY 2020	FY 2021	Total
General Funds	\$35,287.2	\$36,526.8	\$71,814.1
Enterprise Funds	\$2,617.9	\$2,663.5	\$5,281.4
Special Revenue Funds	\$26,651.6	\$26,192.3	\$52,844.0
Agency Funds	\$10,850.2	\$11,130.1	\$21,980.2
Debt Service Funds	\$1,293.4	\$1,345.7	\$2,639.1
Capital	\$1,384.8	\$1,718.2	\$3,103.0
Total	\$78,085.2	\$79,576.6	\$157,661.8

Note: Numbers may not add to total due to rounding.
Source: Ohio Office of Budget and Management, March 2019

What This Chart Shows

This pie chart shows the different types of state funds into which all the state's estimated revenue is deposited. General Funds account for revenue that is traditionally associated with government that is not required to be accounted for in other funds. Enterprise Funds account for operations financed and operated in a manner similar to a private business. Special Revenue Funds account for revenue that is legally restricted to specific purposes. Agency Funds include moneys received, held and disbursed by the state as a custodian or agent. Debt Service Funds account for revenue used to pay the principal and interest on general long-term debt. Capital Projects Funds account for the acquisition of fixed assets and construction and repair of capital facilities other than those financed by enterprise service funds.

Spending Summaries

The charts and tables in this section summarize the spending recommended by Governor DeWine for the fiscal year 2020-2021 biennium. The charts and tables are listed below with a brief description of what each one shows.

Figure C-4, Total GRF Appropriations Pie Chart: This pie chart shows the Governor's recommended appropriations for the total General Revenue Fund (GRF) by major spending category. All revenue from major state taxes (income tax, sales tax, business taxes, etc.) is deposited into and appropriated from the GRF along with revenue received from the federal government as reimbursement to the state for certain GRF expenditures made by the Department of Medicaid.

Figure C-5, State-Only GRF Appropriations Pie Chart: While tax revenue makes up the great majority of the GRF, the GRF also includes revenue that the state receives from the federal government as reimbursement for certain GRF expenditures. This "federal share" of GRF spending for these programs is substantial. It is estimated to be \$20.2 billion during the fiscal years 2020-2021 biennium. The federal share of GRF spending somewhat distorts the role that state tax revenue plays in financing state programs because state taxes, not federal reimbursements for human services programs, finance the majority of GRF spending. To make this clear, Figure C-5 shows recommended GRF appropriations by major spending category without the federal share of the GRF.

Figure C-6, All Funds Appropriations Pie Chart: The third chart that summarizes recommended appropriations is Figure C-6. The "all funds" chart shows how all recommended operating budget appropriations for the fiscal year 2020-2021 biennium are split among the major spending categories.

Table C-2, Expense by Object Summary: This table shows actual (fiscal years 2016, 2017 and 2018) and estimated (fiscal year 2019) spending and recommended appropriations (fiscal years 2020 and 2021) by major object of expense. This information is shown for the GRF and for all funds.

What This Chart Shows

This pie chart shows the share of the tax revenue portion of the General Revenue Fund (GRF) that is used for each major function of state government. The federal share of the proposed GRF appropriations for the Department of Medicaid is not shown in order to give a truer picture of how state tax dollars are spent.

Fund Balance Summaries

Fund Balance Summaries Overview

The purpose of this section is to summarize the state's estimated ending fund balances for fiscal years 2020 and 2021. For the state's General Revenue Fund (GRF) and Budget Stabilization Fund (BSF), the planned fund balances for these two funds are shown, in Table C-3 and Figure C-7, in the context of a nine-year history of ending balances. Fund balance calculations for fiscal years 2020 and 2021 are shown in Figure C-7 for the state's GRF and for other major budget fund groups. Some small or minor budget fund groups are combined for the purposes of these fund balance calculations.

Fund Balance Calculations by Fund Type and Budget Fund Group

The state has over 1,400 funds that are active in the Ohio Administrative Knowledge System as of March 2019. The state's six fund types are as follows: General Funds, Enterprise Funds, Special Revenue Funds, Agency Funds, Debt Service Funds, and Capital Projects Funds. The fund types and budget fund groups for which fund balance calculations are shown in Figure C-7 are described below.

Fund Type: General Funds: Fund balance calculations are shown for the GRF (which is the only fund in the General Revenue Budget Fund Group) and the Internal Services Budget Fund Group. A fund balance calculation is also shown for the Budget Stabilization Fund.

Fund Type: Enterprise Funds: Fund balance calculations are shown for the one enterprise fund group: State Lottery.

Fund Type: Special Revenue Funds: Fund balance calculations are shown for these special revenue fund groups: Dedicated Purpose, Federal, Highway Operating, and Highway Safety. A calculation is also shown for All Other Special Revenue Fund Groups.

Fund Type: Agency Funds: Fund balance calculations are shown for the Agency Fund Groups: Revenue Distribution Funds and Fiduciary. A calculation is also shown for All Other Agency Fund Groups.

Fund Type: Debt Service Funds: A fund balance calculation is shown for the Debt Service Fund Group.

Fund Type: Capital Projects Funds: A fund balance calculation is shown for the Capital Projects Fund Group.

Fund Balances for the General Revenue Fund and the Budget Stabilization Fund

The GRF balance at the end of a fiscal year is one measure used by state officials and independent financial analysts to assess a state's financial management practices and its financial condition. In addition, the Ohio Constitution requires the state to maintain a balanced budget. The budget proposed by the Governor for fiscal years 2020 and 2021 will provide an ending fund balance of 0.5 percent of the previous year's annual GRF revenue, as required by law, as Table C-3 and Figure C-7 show.

Another measure of the financial health of a state is whether the state has a budget stabilization fund and, if it does, what balances are being maintained in the fund. Since 1981, Ohio has had a budget stabilization fund. And, as seen in Table C-3 and Figure C-7, the fiscal year ending balances in the fund have varied greatly during the nine fiscal years that are shown.

State Appropriation Limitation

State Appropriation Limitation

This narrative provides an explanation of the State Appropriations Limitation (SAL) and satisfies the executive obligation under ORC 107.033 which requires the following:

"As part of the state budget the governor submits to the general assembly under section 107.03 of the Revised Code, the governor shall include the state appropriation limitations the general assembly shall not exceed when making aggregate general revenue fund appropriations for each respective fiscal year of the biennium covered by that budget."

The SAL was enacted in the spring of 2006 with the intent of limiting growth in General Revenue Fund (GRF) spending by imposing the following restrictions:

- Limits the growth of most GRF appropriations to the greater of 3.5 percent or the sum of the inflation rate plus rate of population change (Combination Rate).
- "Permits exceptions to the limitation only in response to specifically eligible emergencies declared by the Governor."
- "Requires the approval of at least three-fifths of the General Assembly to exceed the limitation in any year."
- "Recasts the limitation every fourth year to prevent the build-up of unused appropriation capacity that could otherwise result in large appropriation increases in certain years."

The intent of this narrative is to provide a general overview of the provisions of the SAL and then to explain the calculation of the limitation for the fiscal year 2020-2021 biennial budget.

What the SAL Covers

While most GRF appropriations are governed under the restrictions imposed by the SAL, there are three specific categories exempted from the limitation-appropriation of moneys received as gifts, appropriations of moneys received from the federal government, and appropriations made for tax relief and tax refunds, or refunds of other overpayments. While one of these exempted categories (appropriation of moneys received as gifts) is insignificant in terms of the amount of money involved, the other two categories (appropriations of moneys received from the federal government and appropriations made for tax relief and tax refunds or refunds of other overpayments) represent a significant portion of GRF appropriations and have been growing more rapidly than the GRF as a whole in recent years. In fiscal year 2019 these categories are estimated to be \$12,117.8 million, which is equal to 36.3 percent of all GRF appropriations for the year.

After accounting for the exempted categories identified above, the GRF appropriations to which the SAL applies are defined in statute as "aggregate General Revenue Fund appropriations." In order to prevent certain GRF appropriations from becoming exempt from the limitation in future years by shifting them from the GRF to another funding source, any item identified as comprising part of the aggregate GRF appropriations either at the setting of the SAL in fiscal year 2007 or at any point in the future, will always be considered as counting toward the SAL. This inclusion in the aggregate GRF appropriations will apply even if the item is eventually moved to a non-GRF fund. Similarly, a provision was added in fiscal year 2014 that provides for the reverse situation. Under this provision, in the event appropriations are moved into the GRF from another fund, the State Appropriation Limitation may be increased by the amount appropriated for that appropriation line item in the year preceding the year in which the appropriation is moved. Based on the recommendations contained in the Executive Budget proposal, no appropriation items are being moved to the GRF and therefore the fiscal year 2020 limitation is not impacted.

The Role of the Governor and the Office of Budget and Management

As part of the responsibility of submitting the Executive Budget recommendations to the General Assembly, the statutes governing the SAL require the Governor to identify and set the limitation for each year of the biennium. Once the limitation is set, the General Assembly is generally prohibited from exceeding it in the appropriations it makes during the course of the biennium.

State Appropriation Limitation

SAL Calculation for Fiscal Years 2020 - 2021 Biennial Budget

The SAL for fiscal year 2019 was set at \$24,091.3 million as a result of four years of 3.5 percent increases from fiscal year 2015 aggregate GRF appropriation levels. Rather than using the fiscal year 2019 SAL as the base for calculating the fiscal year 2020 and 2021 limitation, OBM instead must "recast" the SAL by using estimated fiscal year 2019 aggregate GRF appropriations as the base. Unlike during previous SAL recasts, there is a significant gap between the fiscal year 2019 SAL (\$24,091.3 million) and estimated fiscal year 2019 aggregate GRF appropriations (\$22,809.2 million). This variance was caused by aggregate GRF appropriation growth averaging only 2.2 percent during the previous four-year period, compared to the SAL's 3.5 percent annual growth. The impact of this variance is significant. Applying the applicable 3.5 percent growth rate to estimated fiscal year 2019 aggregate appropriations, the SAL for fiscal year 2020 is \$23,607.5 million, a drop of \$483.8 million relative to the fiscal year 2019 SAL. Furthermore, applying the same growth rate to the fiscal year 2020 SAL yields a fiscal year 2021 SAL amounting to \$24,433.8 million. Despite the constraint caused by the "recast," as discussed in more detail below, the Executive Budget recommends appropriations within the statutorily required limits.

Total GRF appropriations proposed in the Executive Budget equal \$33,681.3 million in 2020 and \$35,302.7 million in 2021. Subtracted from this total are appropriations for tax relief and appropriations associated with federal moneys. These categories equal \$11,541.1 million in 2020 and \$12,319.6 million in 2021. Added to the GRF total are appropriations moved from the GRF to other funding sources since the inception of the SAL. These amount to \$1,464.0 million in 2020 and \$1,449.5 million in 2021, and include the significant migration of Medicaid appropriations to non-GRF sources as well as other non-GRF appropriations for Public Defender, Public Safety, Commerce, and the Controlling Board. After subtracting items exempt from the limitation and adding back appropriations moved to non-GRF sources, aggregate GRF appropriations are calculated at \$23,604.2 million in 2020 and \$24,433.8 million in 2021, which are \$3.3 million and \$1.2 million below the State Appropriation Limitation in fiscal years 2020 and 2021.

Table C-5: State Appropriations Limitation vs Appropriations Fiscal Years 2020 – 2021

(dollars in millions)

Funds	Estimated		
	FY 2019	FY 2020	FY 2021

Capital Improvements and Debt Financing

Capital Budgeting Process

In even-numbered years, the state engages in a separate budgeting process for its capital program – the construction or improvement and equipping and furnishing of buildings and other structures and the acquisition of real estate (or interests therein). The purpose of Ohio's capital planning and budgeting process is to facilitate decisions regarding the allocation of dollars available for capital improvements for use by state agencies, colleges and universities, K-12 schools and local government infrastructure. As is the case with virtually all budget processes, the demand for resources exceeds their availability.

Most capital appropriations are supported by long-term debt issued by the state, with principal and interest payments on that debt funded primarily by GRF appropriations made in future operating budgets. As a result, capital bill appropriations directly impact operating budget expenditures. The capital budgeting process attempts to balance the needs of state agencies and local communities in producing a two-year budget that is affordable within projected available resources.

The process for developing the capital budget involves the affected state agencies, the Office of Budget and Management (OBM), the Governor, and the General Assembly. Every two years, state agencies submit to OBM, pursuant to Section 126.03 of the Ohio Revised Code, a six-year capital improvements plan and a detailed two-year capital budget request. OBM issues guidelines to agencies describing the format and content for agency capital budget requests.

Concurrent with the receipt of agency capital requests, OBM projects the affordable level of capital appropriations based on a number of factors including the availability of cash (non-debt) funded capital, projected state revenues, and competing noncapital uses for those revenues. OBM projects the affordable amount of debt-supported capital appropriations by considering the amount of state debt previously issued that remains outstanding, the amount of debt previously authorized but not yet issued, the projected level of the state revenue(s) pledged to repay debt, and projected market interest rates. Determinations regarding the amount of GRF debt-supported appropriations that may be authorized in the capital budget are subject to a 1999 constitutional amendment (the '5% debt service limitation') providing that state debt obligations payable from the GRF or net state lottery proceeds (subject to limited exceptions) may not be issued if future fiscal year debt service on those new obligations, when combined with the debt service on already-issued outstanding obligations would exceed five percent of the total estimated GRF revenues plus net state lottery proceeds during the fiscal year of issuance). The director of OBM is authorized by the Governor to make those determinations.

OBM works with the Governor to develop a capital spending plan that fits within the available resources, reflects the Governor's priorities, and meets the needs of state agencies and local entities. The capital plan is then drafted into a bill and submitted to the General Assembly for the same review and process described in the discussion of the operating budget bill.

Fiscal Years 2019 and 2020 Capital Appropriations

The 2019-2020 capital bill (H.B. 529, 132nd General Assembly) was moderate in size and included as priority the maintenance and upkeep of the state's core capital responsibilities. H.B. 529 contained \$2.63 billion in new capital appropriations for the 2019-20 capital biennium. The General Assembly made additional 2019-20 capital appropriations totaling \$68 million, bringing new capital appropriations for the biennium to a total of \$2.69 billion. Of that amount, \$2.29 billion is to be funded by the issuance of bonds, the debt service on which is to be paid from GRF appropriations. The remaining \$401 million was funded by various non-GRF cash sources (\$291 million), non-GRF backed bonds (\$60 million), and available revenue within the State's lottery profits education fund (\$50 million).

The 2019-20 capital appropriations provided significant state support to assist local communities and higher education institutions to preserve and improve their infrastructure as a tool for economic growth. The largest portion of capital appropriations for the 2019-20 capital biennium (\$603.5 million) was provided to the Ohio Facilities Construction Commission to cover the state's share of the cost of construction of K-12 school facilities. A total of \$488 million was appropriated to the Department of Higher Education and higher education institutions to address the capital needs of Ohio's colleges and universities. The higher education allocation again reflected a collaborative process undertaken by the state's higher education institutions to develop a prioritized capital funding plan. The Public Works Commission received appropriations totaling \$514 million to provide grants and loans to local government for infrastructure projects. The Department of Mental Health and Addiction Services received \$169 million which included \$112 million in funding for a new behavioral health facility to be constructed on the Twin Valley Behavioral Healthcare

Capital Improvements and Debt Financing

campus in Columbus. New capital appropriations were also provided to state agencies with a focus on preserving and extending the useful life of their existing assets. The Department of Rehabilitation and Corrections received \$220 million to support ongoing major facility renovations and general improvements at the 27 state-owned adult correctional institutions and the Department of Natural Resources received \$260 million, including \$82 million to be invested in state parks, \$52 million for dam rehabilitation and \$32 million for improvements at wildlife areas across the state.

Table C-6: Fiscal Years 2019 and 2020 Capital Appropriations

(dollars in thousands)

Agency	GRF Debt Funds	Other Funds	Total
Adjutant General	\$9,671	\$22,055	\$31,727
Administrative Services	\$68,250	\$39,425	\$107,675

Youth Services	\$22,498		\$22,498
Total	\$2,292,558	\$401,639	\$2,694,197

Capital Improvements and Debt Financing

Capital Budget's Impact on the Operating Budget

The capital budget's most obvious relationship to the operating budget is the debt service requirements it generates. Debt service is the payment of principal and interest to retire the debt obligations issued to fund capital appropriations. The section below titled "Overview of Capital Financing" provides detailed information on the state's capital financing program, including the cost of debt service in the current biennium. The capital budget also relates to the operating budget in other ways. Projects that lead to an expansion of space and service levels generally require additional employees to provide services and maintain that space. As a result, state agencies that receive capital appropriations may experience increases in their operating budgets once a new capital project has been completed. Conversely, some projects may lead to a decrease in operational spending due to efficiencies gained through consolidation or modernization. For example, the Department of Administrative Services' renovation of the State of Ohio Computer Center resulted in the consolidation of information technology services for several state agencies.

Bond Financing of Capital Projects

Ohio began major capital construction programs for highway and non-highway projects pursuant to a series of constitutional amendments passed by the voters beginning in 1953. These constitutional amendments authorized the issuance of bonds to finance those capital programs and have resulted in the construction and improvement of highways, public school buildings, higher education facilities, parks and recreation facilities, mental health and correctional facilities, airports, pollution control facilities, and local government infrastructure. Bond financing allows payments of the capital costs to be spread over a period of time that approaches but does not exceed the useful life of the bond-financed projects or facilities.

Several types of bonds have been authorized and utilized by the State to fund its capital projects, including general obligation bonds, special obligation (lease-rental and revenue) bonds, economic development bonds, and certificates of participation.

General Obligation Bonds

Since 1953, many capital improvements have been financed through the issuance of general obligation bonds backed by the state's full faith and credit. General obligation bonds are issued by the Ohio Public Facilities Commission and, for highway purposes, by the Treasurer of State. Unless expressly exempted, state revenues from tax and non-tax sources are pledged to the repayment of these general obligations. Exceptions are highway user receipts, which may only be used for financing highway projects, and state lottery profits, which may only be used for financing primary and secondary education facilities. Such general obligation debt must be authorized by a constitutional amendment approved by the voters.

Ohio Public Facilities Commission. The Ohio Public Facilities Commission issues general obligation bonds for primary and secondary education, higher education, natural resources, coal research and development, conservation projects, local infrastructure improvements, third frontier research and development, job-ready site development, and veterans' compensation. Each of these currently authorized programs is described below, with the General Assembly determining the amount of bonds authorized to be issued (within the indicated constitutional limitations) in each capital biennium.

Infrastructure Improvements. A 2014 constitutional amendment authorized \$1.875 billion of general obligation debt as a 10-year extension of this program to finance public infrastructure capital improvements of cities, counties, townships, and other local governments, with an annual issuance limit of \$175 million in the first five fiscal years increasing to \$200 million thereafter. This authorization followed a prior 10-year extension passed in 2005 which authorized \$1.35 billion in debt. Two prior debt authorizations for this purpose (passed in 1985 and 1995) each authorized \$1.2 billion in debt. The full faith and credit, revenue (excluding net state lottery proceeds and highway user receipts) and taxing power of the state are pledged to retire this debt.

Third Frontier Research and Development. Constitutional amendments passed in 2010 and 2005 authorize the issuance of \$1.2 billion of general obligation debt in support of Ohio industry, commerce, and business. No more than \$450 million total may be issued in state fiscal years 2006 through 2011, no more than \$225 million in fiscal year 2012, and no more than \$175 million in any fiscal year thereafter. The full faith and credit, revenue (excluding net state lottery proceeds and highway user receipts) and taxing power of the state are pledged to retire this debt.

Veterans Compensation. A 2009 constitutional amendment authorizes the issuance of state general obligation debt to provide compensation to persons who have served in active duty in the United States armed forces at any time during the Persian Gulf, Afghanistan, and Iraq conflicts. Not more than \$200 million may be issued and no obligations may be issued later than December 31, 2013. The full faith and credit, revenue (excluding net state lottery proceeds and highway user receipts) and taxing power of the state are pledged to retire this debt.

Capital Improvements and Debt Financing

Conservation. Constitutional amendments in 2008 and 2000 authorize \$400 million of general obligation debt to be issued to finance preservation of green space, development of recreational trails, and protection of farmland, all through partnerships with local governments. Not more than \$50 million may be issued in any fiscal year. Additional debt may be issued as outstanding debt is retired, provided that not more than \$400 million is outstanding at any time. The full faith and credit, revenue (excluding net state lottery proceeds and highway user receipts) and taxing power of the state are pledged to retire this debt.

Site Development. A 2005 constitutional amendment authorizes the issuance of \$150 million of general obligation debt for the development of sites for industry, commerce, distribution, and research and development. Not more than \$30 million was permitted to be issued in each of the first three fiscal years and not more than \$15 million in any other fiscal year. All \$150 million of the authorized site development debt has been issued. The full faith and credit, revenue (excluding net state lottery proceeds and highway user receipts) and taxing power of the state are pledged to retire this debt.

Primary and Secondary Education. A 1999 constitutional amendment authorizes general obligation debt to be issued to pay the costs of capital facilities for a system of common public schools throughout the state. There is no constitutional limit on the amount of debt that can be outstanding at any time. The full faith and credit, revenue (including net state lottery proceeds, but excluding highway user receipts) and taxing power of the state are pledged to retire this debt.

Higher Education. That same 1999 constitutional amendment authorizes general obligation debt to be issued to pay the cost of capital facilities for state-supported and state-assisted institutions of higher education. There is no constitutional limit on the amount of debt that can be outstanding at any time. The full faith and credit, revenue (excluding net state lottery proceeds and highway user receipts) and taxing power of the state are pledged to retire this debt.

Natural Resources. A 1993 constitutional amendment authorizes \$200 million of general obligation debt to be issued to finance capital facilities for parks and natural resources improvements. Additional debt may be issued as outstanding debt is retired, provided that no more than \$200 million is outstanding at any time. Not more than \$50 million may be issued in any fiscal year. The full faith and credit, revenue (excluding net state lottery proceeds and highway user receipts) and taxing power of the state are pledged to retire this debt.

Coal Research and Development. A 1985 constitutional amendment authorizes \$100 million of general obligation debt to be issued to finance grants, loans, or loan guarantees for research and development of coal technology that will encourage the use of Ohio coal. Funding is available to any association, corporation, or educational or scientific institution doing business or located in the state. Additional debt may be issued as outstanding debt is retired, provided that not more than \$100 million is outstanding at any time. The full faith and credit, revenue (excluding net state lottery proceeds and highway user receipts) and taxing power of the state are pledged to retire this debt.

Treasurer of State. The Treasurer of State issues general obligation bonds for highway construction, as summarized below:

Highway Capital Improvements. A 1995 constitutional amendment authorizes the issuance of general obligation debt for highway construction. The amendment provides that as this debt is retired additional debt may be issued so long as no more than \$1.2 billion is outstanding at any time. No more than \$220 million may be issued in any fiscal year. Though secured by the state's full faith and credit, debt service on these general obligations has always been paid from highway user receipts, including motor vehicle fuel tax receipts.

Capital Improvements and Debt Financing

Table C-7: General Obligation Bonds

(dollars in thousands)

Purpose	Years Issued	Amount Issued ^(a)	Maturing through Year	Outstanding Balance ^(a)
Coal Research and Development	1986-18	\$246,000	2028	39,005
Infrastructure Improvements	1988-18	\$3,924,986	2038	\$1,774,130
Natural Resources	1995-18	\$453,130	2033	140,955
Highway Capital Improvements	1997-18	\$3,125,830	2034	939,350
Higher Education Facilities	2000-18	\$3,830,000	2038	2,344,925
Common School Facilities	2000-18	\$5,070,000	2038	2,855,940
Conservation Projects	2002-18	\$500,000	2032	272,175
Third Frontier R&D	2006-18	\$851,000	2027	393,460
Site Development	2006-13	\$150,000	2022	46,495
Veterans Compensation	2010-13	\$83,910	2026	32,430
Total		\$18,234,856		\$8,838,865

Notes:

^(a) Excludes bonds issued solely to refund prior bonds. Issuance and outstanding balance as of 6/30/18.

Lease-Rental Bonds

Prior to fiscal year 2000, most state's capital projects were funded through the issuance of lease-rental bonds. Debt service is payable from lease-rental payments subject to biennial appropriations enacted in various operating budgets. Lease-rental bonds do not carry the state's full faith and credit, and bondholders have no right to have taxes or excises levied by the General Assembly for the payment of debt service.

The Treasurer of State issues lease-rental bonds for parks and recreation and mental health facilities, and for facilities to house branches and agencies of state government and their functions, including: state office buildings and facilities for the Departments of Administrative Services, Transportation, Public Safety and the Bureau of Workers' Compensation; juvenile detention facilities for the Department of Youth Services; prisons for the Department of Rehabilitation and Corrections, and various cultural and sports facilities. Debt service is paid from GRF lease-rental appropriations, except for (i) transportation and public safety facilities, which are paid from the Highway User Receipts, and (ii) workers' compensation facilities, which were paid from the Bureau of Workers' Compensation Administrative Fund.

Capital Improvements and Debt Financing

Notes:^(a) Excludes bonds issued solely to refund prior bonds. Issuance and outstanding balance as of 6/30/18.^(b) Debt service paid from non-GRF sources.**Certificates of Participation**

Certain state agencies, with the approval of Director of Budget and Management and pursuant to authorization of the General Assembly, have entered into lease-purchase agreements supporting the issuance of certificates of participation (COPs) to finance state agency information technology systems, equipment, and to a lesser extent state agency office renovations. The lease payments are subject to biennial appropriations and are included in the operating budget of the benefitting agency. Holders or owners of the COPs have no right to have taxes or excises levied to make those lease payments.

Table C-9: Certificates of Participation

(dollars in thousands)

Purpose	Years Issued	Amount Issued ^(a)	Maturing through Year	Outstanding Balance

Notes:^(a) Excludes bonds issued solely to refund prior bonds. Issuance and outstanding balance as of 6/30/18.

Capital Improvements and Debt Financing

Bonds Paid from Other State Funds

Economic Development. These bonds were issued by the Treasurer of State for the Development Services Agency's Direct Loan, Innovation Ohio, Research and Development, and Logistics and Distribution programs, and for the Air Quality Development Authority's Advanced Energy Program, all under Chapter 166 of the Revised Code. The bonds provided financing for loans to businesses within the state for economic development projects that create or retain jobs in the state. As part of a 25-year lease of the state's liquor enterprise to Jobs Ohio completed in February 2013, these bonds have been legally defeased and, thus, no longer carry an outstanding balance.

Clean Ohio Revitalization Program. Constitutional amendments in 2008 and 2000 authorized \$400 million of bonds to provide financing for grants and loans to projects that provide for the environmentally safe and productive development and use or reuse of publicly- and privately-owned lands within the state. Not more than \$50 million was to be issued in any fiscal year and not more than \$400 million was to be outstanding at any one time. As part of a 25-year lease of the state's liquor enterprise to Jobs Ohio completed in February 2013, these bonds have been legally defeased and, thus, no longer carry an outstanding balance.

Table C-10: Economic Development and Clean Ohio Revitalization Bonds

(dollars in thousands)

Purpose	Years Issued	Amount Issued ^(a)	Maturing through Year	Outstanding Balance
Net Liquor Profit Bonds				
Economic Development	1996-12	629,740	2013	0
Revitalization	2002-12	315,000	2013	0
Total		\$944,740		\$0

Notes:

^(a) As part of a 25-year lease of the state's liquor enterprise to Jobs Ohio completed in February 2013, these bonds have been legally defeased and, thus, no longer carry an outstanding balance.

Highway State Infrastructure Bank (GARVEE). The Treasurer of State issues bonds for the Ohio Department of Transportation for selected highway construction projects that have been approved by the U.S. Department of Transportation. The debt service on these bonds is secured by and payable from pledged Federal Title 23 Highway Funds received and to be received by the state for highway projects.

Table C-11: GARVEE Bonds

(dollars in thousands)

Purpose	Years Issued	Amount Issued ^(a)	Maturing through Year	Outstanding Balance
Major New State Infrastructure	1998-18	\$2,575,710.00	2029	\$991,015.00

Notes:

^(a) Excludes bonds issued solely to refund prior bonds. Issuance and outstanding balance as of 6/30/18.

Capital Improvements and Debt Financing

Revenue Bonds

Revenue bonds are used by the state to finance a specific project or category of projects. Various state authorities and commissions have been created by the legislature and authorized to issue bonds payable from project revenues or other special revenues. These include the Buckeye Tobacco Settlement Financing Authority, the Ohio Turnpike and Infrastructure Commission, the Ohio Higher Educational Facility Commission, the Ohio Housing Finance Agency, the Ohio Water Development Authority, and the Petroleum Underground Storage Tank Release Compensation Board. The funds borrowed by these authorities and the sources of debt service payments on these obligations are outside the state treasury and are not subject to General Assembly appropriation. The Ohio Water Development Authority and the Ohio Air Quality Development Authority have also issued industrial development or pollution control revenue bonds, the debt service on which is paid solely by the benefited business or project (not from state revenues).

Debt and Interest Rate Risk Management Policy

The Office of Budget and Management (OBM) in collaboration with the two issuers of debt backed by state revenues – the Ohio Public Facilities Commission and the Treasurer of State – developed and maintains a Debt and Interest Rate Risk Management Policy. This policy is intended to ensure debt financings backed by state revenues satisfy established standards that protect the state's financial position and resources to ensure the State's ability to meet its long-term capital financing needs. The policy largely formalized pre-existing practices and procedures for issuing debt and managing a debt portfolio based upon the state's overall capital improvement needs. The policy highlights the following as its primary objectives: i) achieving the lowest cost of capital, ii) ensuring high credit quality, iii) assuring access to the capital credit markets, iv) preserving financial flexibility, and v) managing interest rate risk exposure.

Debt Service and Outstanding Debt

Table C-12 shows historical outstanding debt and debt burden information. These tables include all outstanding obligations of the state for which debt service is paid from the GRF (including obligations for purposes such as third frontier research and development, site development, and veterans' compensation that are excluded from the state's 5% debt service limitation). Highway obligations and obligations issued by the Treasurer of State for the Departments of Transportation and Public Safety and the Bureau of Workers' Compensation are not included since they are paid from non-GRF sources.

Table C-12: Outstanding GRF Debt and GRF Debt Service Spending

Year	Principal Amount Outstanding (as of July 1)	Outstanding Debt Per Capita	Outstanding Debt as % of Annual Personal Income
1990	\$3,707,055,058	\$342	1.83%
1995	5,049,962,637	453	1.99
2000	6,308,680,025	556	1.94
2005	8,476,432,135	740	2.27
2010	8,586,655,636	744	2.03

Capital Improvements and Debt Financing

Five Percent Debt Service Limit / Capital Affordability Analysis

Section 17 of Article VIII of the Ohio Constitution establishes an annual debt service “cap” applicable to most debt issuances payable from the GRF or net state lottery proceeds. Section 17 prohibits the issuance of debt payable from those sources if debt service in any future fiscal year on those new and the then outstanding bonds would exceed five percent of the total of estimated GRF revenues plus net state lottery proceeds for the fiscal year of issuance.

Debt obligations payable from the GRF include general obligation and special obligation bonds but exclude (i) general obligation debt issued for Third Frontier research and development, site development, and veterans compensation purposes and (ii) general obligation debt payable from non-GRF funds (for example, highway bonds that are paid from highway user receipts). Application of the five percent limitation may be waived in a particular instance by a three-fifths vote of each house of the General Assembly.

Debt obligations are typically issued as needed to ensure uninterrupted funding of the capital appropriations enacted by the General Assembly from bond proceeds. To determine the affordable amount of new capital appropriations under the five percent limit, OBM utilizes a model that takes into account i) existing GRF debt service, ii) estimated GRF debt service from bond authorizations passed by the General Assembly for which bonds will be issued in the near-term, iii) projected GRF debt service from alternative amounts of new capital appropriations, and iv) projections of total GRF revenue plus net state lottery proceeds. The forecasts of GRF revenue for future fiscal years exclude any one-time federal stimulus funds. The model also reflects conservative assumptions with respect to the timing, amount, and applicable interest rates for projected future bond sales.

The fiscal year 2008-2009 biennial operating budget bill (H.B. 119 of the 127th General Assembly) created the Buckeye Tobacco Settlement Financing Authority to securitize tobacco settlement receipts payable to the state under the 1998 National Tobacco Master Settlement Agreement. In October 2007, the Authority issued \$5.53 billion in Tobacco Settlement Asset-Backed Bonds to fund capital expenditures for primary and secondary (K-12) and higher education school facilities in lieu of the state issuing GRF-backed general obligation bonds for those purposes. As a result, the state reduced its reliance on GRF-backed debt and lowered its position relative to the five percent limitation. Debt service on the tobacco bonds is paid solely from tobacco settlement receipts with no recourse to any funds of the state. The tobacco bond proceeds were fully expended in Fiscal Year 2012 prompting the state to return to general obligation bond funding of capital appropriations for both common schools (K-12) and higher education school facilities.

Table C-16: GRF-Backed Capital Appropriations and the Five Percent Debt Service Limit

Capital Biennium	Capital Appropriations Backed by GRF Debt Subject to the 5% Limit (a)	Debt Service Subject to the 5% Limit as a Percent of GRF Revenue and Net State Lottery Proceeds (a)
FY 2007-08 act.	\$2,381,167,100	4.45%
FY 2009-10 act. ^(b)	1,537,457,200	2.84 ^(b)
FY 2011-12 act. ^(b)	847,900,000	2.30 ^(b)
FY 2013-14 act.	1,484,291,100	3.81
FY 2015-16 act.	2,106,730,800	3.46
FY 2017-18 act.	2,210,505,100	3.66
FY 2019-20 est.	2,292,558,200	3.80

Notes:

- ^(a) Reflects capital appropriations for and debt service related to debt obligations funded from the GRF or net state lottery proceeds that are subject to the five percent limitation.
- ^(b) Reflects sizable reductions in GRF debt service as a result of restructuring of GRF debt resulting in net savings of \$416.8 million, \$336.9 million, and \$449.3 million in Fiscal Years 2010 through 2012, respectively.

Summary of State of Ohio Personnel

Table C-17: Summary of State of Ohio Personnel

Fiscal Years 2018 - 2019 Actuals

FY 2018 (July 2017)	FY 2019 (July 2018)	% Change
53,289	52,812	-0.9%

Table C-17 summarizes state agency employment figures for full-time and part-time employees in the following employment types:

- **Established Term:** These employees are established by agency-specific and collective bargaining agreements and have a limited duration of work dependent upon the needs of the department.
- **Fixed Term:** These employees have been appointed or elected to serve for a period fixed by law. Fixed-term salaried employees receive a fixed salary set by law. Fixed-term per diem employees receive compensation on a daily basis for attending meetings and/or conducting official business on behalf of the agency.
- **Interim:** These employees work for an indefinite period of time that is fixed by the length of absence of an employee due to sickness, disability, or approved leave of absence.
- **Intermittent:** These employees work an irregular and unpredictable schedule, which is determined by the fluctuating demands of the work. Typically, these employees work fewer than 1,000 hours per year.
- **Permanent:** These employees hold a position that requires a regular schedule of 26 consecutive biweekly pay periods, or any other regular schedule of comparable consecutive pay periods that is not limited to a specific season or duration.
- **Project Employees:** These employees are hired in connection with a special project having a limited-term funding source, such as a federal grant.
- **Seasonal:** These employees work a certain regular season or period of each year performing some work or activity limited to that time frame.
- **Temporary:** These employees hold their positions for a limited period of time, which is fixed by the appointing authority for a period not to exceed six months.

Data for fiscal years 2018 and 2019 are from the first month of each fiscal year - July 2017 and July 2018, respectively. The Department of Administrative Services' Human Resources Division produces the data for its Monthly Report - Number of State Employees (also known as the "Trend Report").

Table C-17 above shows that state employment decreased 0.9 percent between the start of fiscal year 2018 and the start of fiscal year 2019. In fiscal years 2020 and 2021, the number of state employees is expected to hold relatively steady.

Note that these figures represent a point in time during each fiscal year and do not necessarily represent either the minimum or maximum staffing levels for the period. Certain position types, particularly certain non-permanent position types, may or may not be captured in these data simply because of the points in time represented.

Table C-18 below shows more detailed state agency employment figures for the fiscal year 2018-2019 biennium for all employment types described above.

Table C-19: Summary of State of Ohio Personnel-Related Expenditures

Fiscal Years 2018-2019
(dollars in millions)

Funds	Actual	Estimated	
	FY 2018	FY 2019	% Change
GRF	2,069.7	2,165.3	4.6%
All Funds	4,717.9	4,884.0	3.5%

Table C-19 summarizes all personnel-related expenses captured within the personal services expense account category. Amounts include basic wages, overtime compensation, paid leave and leave cash-outs, employer paid benefit expenses, and payroll surcharges for central services (e.g. payroll processing).

State personnel costs in fiscal year 2018 totaled \$4.7 billion, with GRF expenses comprising \$2.1 billion (43.9 percent) of that amount. Extrapolating fiscal year 2019 payroll expenses to date to the rest of the year shows that GRF state payroll is estimated to be \$2.2 billion, increasing 4.6 percent compared to the prior year. Total state payroll for all funds in this fiscal year is estimated to be \$4.9 billion, or 3.5 percent more than the prior year.

I N V E S T I N G I N

Ohio's FUTURE

BUDGET OF THE STATE OF OHIO

FISCAL YEARS 2020 - 2021

SECTION D

AGENCY BUDGET RECOMMENDATIONS

Accountancy Board of Ohio

Role and Overview

The Accountancy Board of Ohio (ACC) is the regulatory and licensing agency for certified public accountants (CPAs). The agency's mission is to protect the public interest by requiring that all persons who desire to become CPAs meet specific qualifications for entry into the profession, and that CPAs maintain competence after they are licensed. The Board oversees the administration of the computer-based CPA examination and issues CPA licenses to those individuals who qualify. The Board requires mandatory continuing education for renewal of the CPA license and selects a sample of licensees each year to verify the continuing education claimed at the time of license renewal. The Board requires mandatory firm registration of Ohio public accounting and mandatory peer review for CPA firms that perform audits or issue financial reports. The Board investigates, prosecutes, and disciplines licensees for violations of the accountancy law and Board rules. The Board is in the process of updating all licensing rules, information, and procedures to coincide with the new eLicense system's specifications. The Board also administers a financial needs-based scholarship program for students in their fifth year of college who wish to become CPAs. The Board consists of nine board members that are appointed by the Governor, each serving a seven year term, and nine full-time staff.

More information regarding the Accountancy Board of Ohio is available at <http://www.acc.ohio.gov>.

Agency Priorities

- Administer the certified public accountants (CPAs) examination, license new and current CPAs and public accountants (PAs), and register public accounting firms.
- Assure the services received by Ohio's citizens and businesses are from CPAs and public accounting firms licensed by the Board and ensure they always perform in an ethical and professional manner, and strictly and fairly enforce Ohio's statutes and rules.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$1.8 million (or a 0.0% increase from fiscal year 2019). Funding for fiscal year 2021 is \$1.8 million (or a 3.1% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Support the licensing and regulation of approximately 35,000 licensed CPAs and over 4,000 tax and peer review firms as well as the licensing of over 2,000 newly licensed CPAs per year.
- Maintain funding for the e-Licensing system, which allows applicants and licensees to conduct online transactions related to their licensure issues.
- Finance board enforcement activities, such as hearings and complaints.

Adjutant General's Department

Role and Overview

The Adjutant General (ADJ) provides administration, management, and command-control of the Ohio organized militia, which is principally comprised of the Ohio Army and Air National Guard. The Army and Air National Guard provide a military force that is administered, trained, and equipped to Department of Defense standards, and serves under the Governor as the Commander-in-Chief. This force is configured to be ready to respond as an operational reserve force of the Army and Air Force, side by side with the nation's standing active component military in roles such as war-fighting, peacekeeping, humanitarian support, and nation-building in furtherance of national security objectives. Since September 11, 2001, the Ohio National Guard has mobilized more than 25,800 soldiers and airmen in support of war time commitments. Because the National Guard is an operational reserve and a full equal partner with the active duty force, the Ohio National Guard will have thousands of soldiers and airmen deployed on a nearly continuous basis. In addition to the requirements imposed by the National Command Authority, the Ohio National Guard must maintain readiness to respond to our state mission during public disturbances, natural disasters, or homeland defense incidents. Additionally, the Ohio National Guard is ready to respond to missions in support of other states as provided in the Emergency Management Assistance Compact (EMAC) if approved by the Governor. The Adjutant General is appointed by the Governor and is a member of the Governor's cabinet. During the fiscal year 2020-2021 biennium, the Department is projecting 288 state employees.

More information regarding the Adjutant General's Department is available at <https://ong.ohio.gov/>.

Agency Priorities

- Maintain the Ohio Air and Army National Guard's infrastructure in order to meet the training requirements of the force. This includes supporting personnel and facilities operations and maintenance.
- Maintain the highest level of readiness of the Ohio Army and Air National Guard. The key to high readiness is recruiting and retaining sufficient personnel who possess or can develop the skills necessary to provide a ready response capability to meet national defense and state mission requirements.
- Attract and sustain a military force structure within Ohio that is ready, relevant, and responsive to the national command authority and the Governor.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$11.0 million (or a 27.4% increase from fiscal year 2019). Funding for fiscal year 2021 is \$11.0 million (or a 0.1% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$56.0 million (or a 6.9% increase from fiscal year 2019). Funding for fiscal year 2021 is \$56.0 million (or a 0.0% decrease from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Support cyber range initiatives in cooperation with the Ohio Cyber Collaboration Committee. The cyber range is a secure test and training environment for the current and future cybersecurity workforce facilitating the evaluation and testing of innovative technologies and processes.
- Ensure the readiness of the Ohio Army and Air National Guard by providing administration, management, and command-control which includes general administrative functions, purchasing and contracting operations, tuition grant scholarship coordination, and facility support services.
- Maintain the Ohio Air National Guard's 1.5 million square feet of facilities and infrastructure including four air wing bases located at Rickenbacker, Toledo, Mansfield, and Springfield and three geographically separated units located at Port Clinton, Blue Ash, and Zanesville.
- Maintain the Ohio Army National Guard's 2.1 million square feet of facilities and infrastructure including 48 readiness centers and three training centers, which contain classrooms, fully equipped commercial grade kitchens, assembly halls, and equipment storage areas.

Adjutant General's Department

- Provide fire and rescue services for civilian and military aircraft operations, and upon request, community mutual aid assistance at three Ohio Air National Guard flying wing locations.
- Support the Camp Perry Joint Training Center, which provides training and weapons qualifications for the Ohio National Guard, other Department of Defense organizations, and local, state, and federal law enforcement agencies and provides support during the National Rifle and Pistol Matches event.

Program Series 1: Ohio Army National Guard (2200A)

The Ohio Army National Guard Support Program (2200B) provides an organized, trained, and equipped Army National Guard force ready and able to respond to the vital security interests of the communities, state, and nation. The Ohio Army National Guard participates in and promotes activities that add value to Ohio's communities; protects life and property; and preserves peace, order, and public safety. The Army National Guard program provides staff and facilities for essential readiness centers and training facilities required to develop and sustain ready military units. Support is provided for over 11,400 Army National Guard soldiers who train at 48 readiness centers statewide.

Program Series 2: Ohio Air National Guard (2225A)

This program series provides an organized, equipped, and trained Air National Guard force ready and able to respond to the vital security interests of the communities, state, and nation. The Ohio Air National Guard participates in and promotes activities that add value to Ohio's communities; protects life and property; and preserves peace, order, and public safety. The Air National Guard Support Program (2225B) provides operations and maintenance support for four Ohio Air National Guard wings and three separate operating locations serving more than 4,850 members. The Firefighters Program (2230B) provides fire protection services to three Ohio Air National Guard wings as authorized and funded by federal cooperative agreements.

Program Series 3: Services and Training (2250A)

This program series provides various services, mainly overnight accommodations and event rentals for use by the military and general public. The Camp Perry Clubhouse Program (2260B) maintains billeting facilities and a convention center at the Camp Perry Joint Training Site for overnight accommodations and training activities of military personnel as well as facilities access for the general public. The Camp Perry Operations Program (2270B) provides infrastructure support to the Camp Perry Joint Training Site complex, which consists of on-site firing ranges for military qualification training and national event match competitions for the general public. This training site incorporates federal training ranges, training areas, barracks, dining facilities, and other support and billeting facilities for use by the military, as well as state-operated rental facilities. When ordered by the Governor, the Militia Program (2280B), comprised of an all-volunteer force of the Ohio Military Reserve (OHMR) and Ohio Naval Militia (ONM), are capable of augmenting the Ohio National Guard primarily to assist and maintain public peace in case of a disaster or emergency.

Department of Administrative Services

Role and Overview

The Department of Administrative Services (DAS) was established in 1974 by consolidating specialized support services required to operate state government into a single agency. The department provides services to state agencies through the recruitment, selection, and retention of state employees; administration and design of state-owned buildings; procurement of goods and services; management of state property; coordination and promotion of equal access to state employment and contracting opportunities; negotiation and interpretation of the state's collective bargaining contracts; and provision of statewide oversight, leadership, and direction for all activities related to information technology (IT). The DAS plays an integral role in lowering the cost of running state government by providing enterprise-wide business services. The agency manages more than 40 program areas that serve its Ohio government customers, which in turn directly serve the interests of Ohio citizens. To provide these services, DAS is organized into five operating divisions: Equal Opportunity, General Services, Human Resources, Collective Bargaining, and the Office of Information Technology (OIT). Another division provides administrative support to the agency. The DAS has 808 employees.

More information regarding the Department of Administrative Services is available at <http://das.ohio.gov/>.

Agency Priorities

- Cultivate a high-performance culture that improves the quality of work life for all employees and empowers everyone to improve service to customers.
- Provide common administrative functions statewide that allow agencies to focus first and foremost on their core missions.
- Make government services more efficient, effective, economic, and expeditious.
- Reduce the cost of state government to taxpayers.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$150.5 million (or a 2.4% decrease from fiscal year 2019). Funding for fiscal year 2021 is \$161.9 million (or a 7.5% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$828.6 million (or a 0.9% increase from fiscal year 2019). Funding for fiscal year 2021 is \$856.6 million (or a 3.4% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Implement redesigned procurement processes and innovative eProcurement capabilities to better manage procurement practices across state government, higher education, municipalities, counties, and government entities throughout Ohio.
- Provide leadership in information technology management through the support of the CyberOhio program, the Office of InnovateOhio, and ongoing implementation of IT Optimization, which fosters the growth of central IT solutions to produce savings for the state and redirect those savings into improved services and programs that benefit Ohio citizens and businesses.
- Provide resources for the operation and development of the Ohio Administrative Knowledge System (OAKS), which includes state financial and human resources functions, and related new systems for procurement, learning management, and customer relationship management, and the Ohio Digital Experience (ODX), the state of Ohio's enterprise digital channel for identity and user experience solutions.
- Provide state agencies with comprehensive, centralized property management services for DAS buildings that cost-effectively provide a quality work environment and promote maximized employee productivity.
- Provide centralized procurement services for goods and services, including IT purchases, for state agencies; maintain more than 1,200 contracts; and enable state and local government entities to purchase from state government contracts.

Department of Administrative Services

- Support enterprise technology and services like the Ohio Business Gateway, state portal, an online application and renewal system for licensing boards (eLicense), an integrated eligibility system for Medicaid and other federally funded programs, the Multi-Agency Radio Communication System (MARCS), disaster recovery, mainframe and open-system platforms, and data storage and services, as well as provide strategic planning and oversight.
- Improve human resources by continuing to offer the most comprehensive benefits plans available to create a total compensation package that can compete for top-performing talent, increase the consultative role to agencies to maximize statewide investments in people, and help agencies achieve operational efficiencies by leading process improvement projects based on Lean-Six Sigma principles.
- Support back-office business operations for state agencies by operating five print production facilities, administering the state fleet program, and providing risk management services through property and casualty insurance and vehicle and general liability programs.
- Increase the number and use of certified MBE and EDGE businesses, ensure that all state contractors are complying with equal employment opportunity construction compliance regulations, and ensure that all state agencies are adhering to the state's affirmative action mandates for contracting and employment.
- Provide centralized administration and negotiation of labor contracts for the state and assist state agencies through training and issue resolution on various labor relations topics.

Department of Administrative Services

Program Series 1: General Services Programs (3420A)

The General Services Program Series consists of seven programs providing various services to agencies and a division management program. Procurement Services (3450B) procures goods and services on behalf of state agencies, provides asset management services, and supports the OAKS financials modules for which the General Services Division is the business owner. Printing and Document Management Services (3470B) provides printing and mail fulfillment, mail metering, and interoffice mail delivery services. Fleet Management Services (3490B) handles the purchase, leasing, maintenance, and inventory of state vehicles. Risk Management (3520B) coordinates insurance coverage for vehicle, property, and casualty losses. Properties and Facilities Management (3530B) manages state buildings and provides minor construction and building security services. Real Estate and Planning (3532B) leases private space for state agencies; appraises, sells, and purchases real estate; provides office space planning; and handles eminent domain appeals. State and Federal Surplus (3540B) disposes of surplus state and federal property. General Services Program Management (3550B) provides division management services for the Division's programs.

Program Series 2: Human Resources (3570A)

The Human Resources Program Series is designed to meet the comprehensive human resources needs of state government. The State Personnel Program (3570B) provides personnel services in the areas of policy development, payroll administration, classification and compensation, workforce planning, drug testing, central recruiting, training and development, and records maintenance. The program also provides process improvement services through Lean and Six Sigma. The Benefits Administration Program (3580B) manages the various benefits provided to state employees. The Exempt Employee Educational Program (3620B) pays learning and professional development costs for employees who are exempt from collective bargaining, and the Non-Exempt Employee Educational Program (3640B) pays these costs for bargaining unit employees not represented by the Ohio Civil Service Employees Association (OCSEA). The Human Resources Program Management Program (3650B) houses the deputy director's office to provide division management.

Department of Administrative Services

Program Series 3: Collective Bargaining (3660A)

The Collective Bargaining Program Series supports the collective bargaining process with union-represented state employees on behalf of the Governor. The Collective Bargaining Program (3660B) is responsible for collective bargaining agreements with five unions representing 14 bargaining units. The five unions are OCSEA, Service Employees International Union (SEIU)/District 1199, State Council of Professional Educators (SCOPE), Fraternal Order of Police (FOP), and Ohio State Troopers Association (OSTA). More than 33,000 state employees are covered by these agreements. Other services provided include human resources state policy development and state agency business continuity planning.

Program Series 4: Equal Opportunity Programs (3670A)

The Equal Opportunity Program Series consists of four programs that assist state agencies with the promotion of equal access to state employment and contracting opportunities and a division management program. The Affirmative Action/Equal Employment Opportunity Compliance Program (3670B) ensures fairness in state recruitment and employment and administers the state employee discrimination complaint process. The Martin Luther King Jr. Commission Program (3671B) coordinates the statewide annual celebration and commemoration of Dr. King's birthday. The Construction Compliance Program (3672B) ensures construction contractors working on state projects adhere to state and federal laws and regulations regarding equal employment opportunity. The Equal Opportunity Certification Program (3676B) helps minority and economically disadvantaged vendors gain access to and obtain contracts with the state. The Equal Opportunity Program Management Program (3680B) houses the deputy director's office to provide division management.

Program Series 5: Information Technology (3700A)

The Information Technology Program Series includes the functions of OIT. Enterprise IT Leadership (3700B) is home to the senior leadership and strategic direction-setting body for the state of Ohio on IT issues, and includes support for the CyberOhio program and the Office of InnovateOhio. Enterprise IT Governance (3702B) includes an enterprise-wide structure for managing policy, planning, and project management to promote cost-effective IT usage by agencies, boards, and commissions. Enterprise IT Security (3704B) includes the state's IT security management operations. Through Enterprise Data Center Services (3705B), DAS provides a variety of services including mainframe and data storage, servers, and network infrastructure. Enterprise Shared Solutions (3800B) includes the operation and development of OAKS, the state of Ohio's enterprise resource planning system, and other related systems; implementation, operation, and continued development of the eligibility system for a number of state programs; the Ohio Business Gateway; MARCS; and other technology-related services to agencies, boards and commissions, and the Governor's Office. The Enterprise IT Program Management Program (3850B) provides OIT shared services for OIT's programs.

Program Series 6: State Support Services (3900A)

The State Support Services Program Series consists of programs that provide centralized support to various entities. The Central Service Agency Program (3900B) provides fiscal and human resources services to state boards and commissions. The State Subsidies and Debt Service Program (3920B) includes payment of debt service for all administrative building fund capital projects; debt service due on Certificates of Participation issued to fund the development of OAKS, MARCS, the State Taxation Accounting and Revenue System (STARS), and Enterprise Data Center Solutions (EDCS); and various DAS building expenses that cannot be recovered from tenants.

Program Series 7: DAS Program Management (3950A)

The DAS Program Management Program Series provides centralized shared services, guidance, oversight, and financial services to DAS's operating divisions. The DAS Program Management Program (3950B) provides services through the Director's Office and the following specialized support offices: Chief Legal Counsel, Finance, Employee Services, and Communications.

DAS ALI Analysis

100415, OAKS Lease Rental Payments: Fiscal years 2020 and 2021 appropriations decline relative to fiscal year 2019 as the obligations issued for the initial implementation of OAKS were repaid in fiscal year 2019.

100459, Ohio Business Gateway: Increased appropriations in fiscal years 2020 and 2021 are due to the upgraded Ohio Business Gateway system for business tax and other filings, which has higher operating costs than the previous system.

100635, OAKS Support Organization: Increased appropriations in fiscal years 2020 and 2021 support operating costs of ODX, data analytics, and other information technology system implementations.

100665, Enterprise Applications: Increased appropriations in fiscal years 2020 and 2021 support additional operating costs of the integrated eligibility system as well as the enterprise document management service and other information technology systems used by multiple agencies.

DAS Line Item Restructuring

Upon reviewing its information technology spending, DAS will re-categorize its spending for integrated eligibility system development costs from line item 100617 – Major IT Purchases to line item 100640 – Consolidated IT Purchases, which is for multi-agency information technology purchases. Line item 100617 – Major IT Purchases will return to its original purpose for significant, periodic information technology expenses like equipment replacement.

To illustrate changes in funding levels due to restructuring and consolidating, the estimated fiscal year 2019 spending table is converted from the previous line-item structure to the current line-item structure.

Joint Committee on Agency Rule Review

Role and Overview

The Joint Committee on Agency Rule Review (JCARR) reviews proposed new, amended, and rescinded rules to ensure that the rules do not exceed the scope of the rule-making authority of that agency; the rules do not conflict with a rule of that agency or another rule-making agency; the rules do not conflict with the intent of the legislature; and the rule-making agency has prepared a complete and accurate rule summary and fiscal analysis. The committee consists of five state representatives and five state senators. In odd-numbered years, the chairperson is a House member and in even-numbered years, the chairperson is a Senate member. Pursuant to Section 107.03(B) of the Ohio Revised Code, the Governor may not alter the funding requests of agencies of the legislative branch of government. The Joint Committee on Agency Rule Review provides the Office of Budget and Management with its budget request for inclusion in the Executive Budget proposal and not for consideration or approval. JCARR has four employees.

More information regarding the Joint Committee on Agency Rule Review is available at <http://www.jcarr.state.oh.us/home>.

Agency Priorities

- Review proposed new, amended, and rescinded rules to ensure that the rules do not exceed the scope of the rule-making authority of that agency; the rules do not conflict with a rule of that agency or another rule-making agency; and that the rules do not conflict with the intent of the legislature.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$570.0 thousand (or a 1.2% decrease from fiscal year 2019). Funding for fiscal year 2021 is \$570.0 thousand (or a 0.0% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$570.0 thousand (or a 1.2% decrease from fiscal year 2019). Funding for fiscal year 2021 is \$570.0 thousand (or a 0.0% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Fund the operations of the Joint Committee on Agency Rule Review.

Department of Aging

Role and Overview

The Department of Aging (AGE) is working to position Ohio to be responsive to the growing and changing aging population, driven by our core values of promoting independence, empowering communities, challenging ageism, advocating for excellence, and engaging in innovation. Through strategic planning and partnerships, the Department is positioning Ohio to marshal the economic potential created by an aging population while also preparing to meet their needs when care and support are required. The U.S. Administration for Community Living has designated the Department as the State Unit on Aging responsible for administering programs funded by the Older Americans Act and related state programs. The Department administers two Medicaid waiver programs and the Program of All Inclusive Care for the Elderly (PACE); and works closely with the Ohio Department of Medicaid and a robust regional network to make systemic changes that modernize Medicaid and balance long-term services and supports. The Department designates 12 Area Agencies on Aging to administer programs for older and disabled adult Ohioans at the local level, and works to foster a statewide infrastructure for evidence-based healthy lifestyle and prevention programs. The Department engages partners to train community-based facilitators in diabetes and chronic disease self-management programs, chronic pain self-management programs, fall prevention programs and other initiatives to help Ohioans stay healthier longer. The Department houses the Office of the State Long-Term Care Ombudsman Program to advocate for long-term care consumers and to assist consumers and professionals in selecting long-term care. The Ombudsman also provides technical assistance and resources for improving quality, person-centered care in nursing facilities. The Department also houses the Board of Executives of Long-term Services and Supports, which licenses nursing home administrators as required by federal regulations. There currently are 80 full-time permanent employees.

More information regarding the Department of Aging is available at <https://aging.ohio.gov/>.

Agency Priorities

- Promote elders as a resource for the state and our communities.
- Empower elders to take ownership of their health and wellness.
- Develop policy and refine infrastructure to address the increasing prevalence of dementia.
- Provide resources and assistance to informal caregivers.
- Foster a statewide culture of person-directed care.
- Prepare and build a responsive statewide infrastructure for Ohio's aging population.
- Lead the effort of Ohio's communities, including businesses, to implement solutions that address the issues, opportunities and impact of an aging population.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$19.3 million (or a 29.4% increase from fiscal year 2019). Funding for fiscal year 2021 is \$20.8 million (or a 7.6% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$97.7 million (or a 6.8% increase from fiscal year 2019). Funding for fiscal year 2021 is \$99.3 million (or a 1.6% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Support initiatives that promote health, wellness and prevention through evidence-based practices and policies, while encouraging Ohioans to age with the highest level of well-being possible.
- Explore and promote innovative and proven strategies and partnerships to support Ohio's estimated 1.7 million people who are caregivers for family members who are aging, and/or living with dementia or disabling conditions.
- Provide Medicaid-funded long-term services and supports through PASSPORT, Assisted Living, and PACE to 24,700 consumers per month in fiscal year 2020 and 25,870 consumers per month in fiscal year 2021.
- Address the triple impact of opioid abuse on older adults: experiencing misuse of prescribed medication; becoming a target for criminals to obtain prescribed medication; or the kinship responsibilities taken on as a result of families affected by opioid abuse.

Department of Aging

- Provide congregate and home-delivered meals and supportive services to approximately 250,000 older Ohioans annually.
- Conduct surveys of customer satisfaction in over 2,000 nursing and other facilities. The Long-Term Care Consumer Guide connects users to the Area Agencies on Aging for long-term care consultation which includes a spectrum of home and community-based service options and to the Ohio.
- Promote ongoing and new volunteer, lifelong learning and employment initiatives to capitalize on the resources that our elders offer communities.
- Raise the profile of and increase funding for the Office of the State Long-Term Care Ombudsman as an advocate and resource for long-term services and supports and managed care wherever consumers choose to live.
- Support research and data collection to identify what matters most to elders, so that the department may respond in a timely and cost-effective manner.
- Implement the 2019-2022 State Plan on Aging and support Area Agencies on Aging to carry out their area plans.

Department of Aging

Program Series 1: Senior Independence Services (2300A)

This program series contains programs and services designed to help aging Ohioans live with dignity, maximize independence, have access to legal assistance and facilitate choice by providing the services and supports to enhance their quality of life; support family and informal caregivers; and help aging Ohioans better manage their chronic conditions, increase activity levels and reduce their risk of falling. The Home, Community, and Caregiver Support Program (2300B) helps older adults live independently and supports family caregivers' efforts. The Long-Term Care Services Program (2321B) supports policy direction and program operation to provide a balanced system of person-centered long-term services and supports as an alternative to nursing home care. The Board of Executives of Long-Term Services and Supports (2381B) establishes criteria for licensure and professional standards for nursing home administrators.

Department of Aging

Program Series 3: Healthy and Productive Aging (2420A)

This program series promotes senior civic engagement and healthy aging by promoting and supporting employment, volunteerism, and life-long learning. The Senior Community Services Employment Program (2430B) focuses on employment, training, and community service. The National Senior Service Corps Program (2440B) helps connect senior volunteers with organizations that need them the most.

Department of Agriculture

Role and Overview

The Ohio Department of Agriculture (ODA) safeguards the health of Ohio's food supply to protect consumers, promotes environmental stewardship, and maintains the health of the state's animals and plants. The Department also promotes Ohio's agricultural products by creating economic opportunities for Ohio's farmers, food processors, and agribusinesses. The Department currently has 459 full-time, permanent employees.

More information regarding the Department of Agriculture is available at <https://agri.ohio.gov/>.

Agency Priorities

- Ensure that Ohio food businesses are growing, raising, processing, transporting, storing, and selling food that is safe and wholesome, and ensure consumer confidence and equity in the marketplace.
- Promote and protect the health of animals and plant life in the state through disease and pest management and the enforcement of standards of care.
- Promote and protect the health of the state's waterways and Lake Erie through nutrient stewardship education, resource conservation, and regulation of livestock facilities.
- Promote the creation and maintenance of jobs in the state's largest industry, food and agriculture, and improve regulatory customer service through modernization of inspection and licensure methods and systems.
- Expand health and wellness opportunities for Ohio's children through existing or new programs that connect the food and agriculture industry with schools and child-care centers.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$54.5 million (or a 14.4% increase from fiscal year 2019). Funding for fiscal year 2021 is \$54.0 million (or a 0.9% decrease from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$144.0 million (or a 35.5% increase from fiscal year 2019). Funding for fiscal year 2021 is \$114.2 million (or a 20.7% decrease from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Support the regulation of food processing plants, wholesale food storage and distribution sites, and retail facilities that produce, process, label, store, distribute, and sell food products.
- Provide for the inspection and testing of animal feed, seed, fertilizer, lime, and pesticides as well as the inspection of pesticide manufacturing facilities and the collection of sample products for analysis of label claims.
- Provide for the eradication of harmful new plant infestations; the performance of plant pest containment and post-entry quarantine inspections; the licensure and certification of all commercial pesticide dealers, applicators, and products; and the licensure and monitoring of grain warehouse companies.
- Provide for the inspection and regulatory oversight of livestock farms; nutrient stewardship education; and the certification of farmers and fertilizer applicators.
- Provide services that enable farmers and other Ohioans to conserve, protect, and enhance soil, water, and other land resources.
- Provide for the administration and enforcement of all laws pertaining to true and uniform weights and measures standards.
- Fund the enforcement, inspection, and monitoring of livestock dealers, auction markets, dangerous wild animal owners, commercial dog breeders, captive whitetail deer, concentration yards, weighers, renderers, collectors, and garbage feeders.

Department of Agriculture

- Continue testing of exhibition livestock at county and independent agricultural fairs and the inspections of amusement rides in the state.
- Provide for the inspection and testing of dairy and meat products.
- Fund services through the Farm to School Program to provide local nutrition for preschool and elementary aged children.

Budget Fund Group Information

- Increases in GRF expenditures from fiscal year 2018 to fiscal year 2019 are due to the allocation of additional funds to the Division of Soil and Water to assist in reducing total phosphorus and dissolved reactive phosphorus in the Western Lake Erie Basin.
- Increases in Dedicated Purpose Funds (DPF) expenditures from fiscal year 2019 to fiscal year 2020 are due to the allocation of funds for the H2Ohio program which supports best management practices in the Western Basin of Lake Erie and may also be used to fund improvements to, and the protection of, all waterways of the state.

Department of Agriculture

Program Series 1: General Agriculture (2650A)

This program series includes four programs: the County Agricultural Society Program (2650B), the Ohio Farm Loan Program (2655B), the Farmland Preservation Program (2660B), and the Utility Radiological Safety Board (URSB) and Agricultural Terrorism Program (2665B). The County Agriculture Society Program provides funding to reimburse the 94 county and independent agricultural societies throughout Ohio for their junior fair activities. The Ohio Farm Loan Program provides one-time matching funds for projects that will generate economic activity in low-income segments of rural communities and promote educational and marketing opportunities to support innovative rural agricultural enterprises. The Farmland Preservation Program administers the Clean Ohio Fund's Agricultural Easement Purchase Program, which works in partnership with local governments and non-profit organizations to purchase easements on farm land from willing sellers. The program monitors and enforces over 54,000 acres of easements in 55 counties. The URSB and Agricultural Terrorism Program coordinates and provides recommendations to the Department and local, state, and federal agencies, and industry partners concerning homeland security, emergency management, food supply defense, bio-security, agro-terrorism, infrastructure protection, and natural and radiological events.

Fund	ALI	ALI Name	Estimated	Recommended

Total for General Agriculture			1,811,747	1,836,091	1.3%	1,875,489	2.1%

Program Series 2: Amusement Ride Safety (2670A)

This program series includes the Amusement Ride Safety Program (2670B), which licenses and inspects amusement rides to protect those who visit amusement parks, fairs, and carnivals. Amusement Ride Safety inspects amusement rides including permanent park rides, mobile carnival rides, inflatable bounce structures, water park rides, go carts, and go cart tracks. This program is responsible for inspecting over 3,000 permanent and portable amusement rides annually. It also licenses and regulates games and sideshows at the state, county, and independent fairs and investigates ride accidents.

Fund	ALI	ALI Name	Estimated	Recommended			
			FY 2019	FY 2020	% Change	FY 2021	% Change
5780	700620	Ride Inspection	1,434,936	1,827,551	27.4%	1,944,585	6.4%
Total for Amusement Ride Safety			1,434,936	1,827,551	27.4%	1,944,585	6.4%

Program Series 3: Dairy Inspection (2675A)

This program series includes the Dairy Inspection Program (2675B), which protects consumers by ensuring that milk and other dairy products are produced, transported, and processed according to established sanitary standards and safety conditions. The Dairy Division also has responsibility for frozen dessert manufacturers and wholesalers. This program licenses and inspects over 3,100 milk producers, 600 tank trucks and other transporters, and 120 processors. These inspections and sampling tasks ensure both public health and wholesome dairy products. The Grade A program of the Dairy Division is a Food and Drug Administration (FDA) cooperative program. Milk and dairy products may only move across state lines if the FDA's cooperative program is satisfied.

Fund	ALI	ALI Name	Estimated	Recommended			
			FY 2019	FY 2020	% Change	FY 2021	% Change

Total for Dairy Inspection			3,045,944	3,008,313	-1.2%	3,031,409	0.8%

Department of Agriculture

Program Series 4: Food Safety (2680A)

This program series includes the Food and Drug Inspection Program (2680B), which ensures that consumers are provided foods, over-the-counter drugs, dietary supplements, and cosmetics that are safe, unadulterated, properly labeled, and honestly presented through regulatory inspections. The program also evaluates and approves local health departments' retail establishments food safety inspection programs. The program provides surveillance testing and responds to food-borne illness outbreak investigations. The program is responsible for informing Ohio consumers of contaminated products by way of media alerts and product recalls.

Fund	ALI	ALI Name	Estimated	Recommended			
			FY 2019	FY 2020	% Change	FY 2021	% Change
GRF	700407	Food Safety	1,340,046	1,385,046	3.4%	1,340,046	-3.2%

Program Series 5: Agriculture Market Development (2685A)

These programs work to market Ohio-grown and processed agricultural and food products worldwide with the goal of creating and retaining employment opportunities for Ohio citizens. International and Domestic Marketing (2685B) provides marketing services to Ohio's food and agricultural industry to promote and provide a competitive advantage for Ohio-based products that are marketed worldwide. Commodity Marketing (2690B) oversees six commodity marketing programs: apples, beef, corn, eggs, small fruits and vegetables, and sheep and wool. Producers pay assessment amounts that are established by each commodity group, which are then deposited into the Commodity Marketing Program Fund. Ohio Proud Marketing (2695B) markets Ohio food and agriculture products to increase sales for growers and producers, and create jobs in food processing and manufacturing. Grape Industries Research and Marketing (2700B) seeks to expand Ohio's wine and grape-growing industry through research, marketing, and promotion in order to create a strong agribusiness. Currently, there are 250 licensed and bonded wineries in Ohio. Past research has focused on disease management, pest control, and the development of grapevines that can thrive in the state's cool climate. Revenue to support the program is generated from taxes collected on the sale of wine in Ohio.

Fund	ALI	ALI Name	Estimated	Recommended			
			FY 2019	FY 2020	% Change	FY 2021	% Change

Program Series 6: Plant Health (2710A)

This program series enforces regulations and requirements pertaining to animal livestock feed that are related to human health through the food supply chain, protects farmers' grain purchases, and certifies plants and plant products to move in interstate, intrastate, and global commerce. The Plant Pest Control Program (2710B) inspects, certifies, and licenses nursery stock producers and dealers to ship products interstate, intrastate, and globally. Also included are other plant products such as logs, lumber, grain, and other material that could harbor pests. The Invasive Species Program (2715B) protects Ohio's forest resources, environment, and food supply by performing exotic invasive pest surveys to detect and eliminate any new infestations. The Pesticide Inspection Program (2730B) helps ensure that only U.S. EPA registered pesticides are used in Ohio by trained applicators and per label directions. The Fertilizer and Lime Inspection Program (2720B) licenses pesticide applicators, registers fertilizer distributors, and samples products to help ensure accurate label claims. The lime section licenses lime distributors in Ohio and samples products to help ensure accurate label claims. The Grain, Feed, and Seed Program (2725B) licenses agricultural commodity handlers that purchase grain from Ohio's farmers to prevent loss of grain proceeds. This section monitors financial solvency by conducting unannounced examinations and reviewing financial statements.

Fund	ALI	ALI Name	Estimated	Recommended			
			FY 2019	FY 2020	% Change	FY 2021	% Change

Program Series 7: Weights And Measures (2735A)

This program series includes the Weights and Measures Program (2735B), which protects Ohio businesses and consumers through the administration and enforcement of weights and measures laws of Ohio. The program provides training for county and city weights and measures officials to test devices ranging from fuel meters and retail store scanners to vehicle and livestock scales for consistent measuring standards. The Metrology Lab houses standards of mass, length, and volume for the state and is the only U.S. Department of Commerce-authorized metrology lab in Ohio. The metrology laboratory performs calibration services for over 370 Ohio companies and other Ohio government agencies annually. The program's major responsibility is to inspect, test, and seal each commercial weighing and measuring device used in commerce to ensure that measuring tools for pounds, kilograms, gallons, liters, feet, and meters, and other tools provide accurate measurements. Ohio also administers one of only four National Type Evaluation Program (NTEP) laboratories in the nation, which tests and evaluates new scale designs and technology.

Fund	ALI	ALI Name	Estimated	Recommended

Department of Agriculture

Program Series 8: Animal Health (2740A)

These programs work to protect and promote the health of Ohio's livestock and poultry industries. Animal Disease Control (2740B) strives to maintain a disease-free status for Ohio's poultry flocks and livestock herds. It protects livestock and poultry from emerging, foreign, and re-emerging animal diseases; protects consumers from diseases originating in tissue and milk residues; protects livestock and poultry interests; and provides high-caliber animal disease diagnostic laboratory services. The Animal Disease Diagnostic Laboratory (ADDL) is part of the National Animal Health Laboratory Network and is authorized by the U.S. Department of Agriculture to provide testing for emergency and foreign animal diseases and has bio-safety level 3 labs registered with the CDC's Select Agent program. ADDL is accredited by the American Association of Veterinary Laboratory Directors. This program also enforces, inspects, and monitors livestock dealers, auction markets, concentration yards, weighers, renderers, collectors, and garbage feeders. Poultry Inspection (2745B) develops testing methods and disease control initiatives to monitor Ohio's poultry industry. The Livestock Testing and Inspection Program (2750B) supports the testing of exhibition livestock at the state, county, and independent fairs, as well as at other exhibitions.

Program Series 9: Meat Inspection (2755A)

This program series includes the Meat Inspection Program (2755B), which is a public health regulatory program that protects the consumer by ensuring meat and poultry products are safe, wholesome, and truthfully labeled. Meat Inspection receives matching funds from the federal government. The primary goal is to protect public health and safety by providing ante-mortem and post-mortem inspections of animals and birds slaughtered and processed for commerce. Inspections of individual items ensure the prevention of animal diseases that are transmissible from animals to humans and that harmful chemical residues are not present. Meat product labels are reviewed and approved for correctness, and program inspectors ensure the proper use of those approved labels. In addition, each slaughter facility must register for a license to operate each year. The state and federally adopted Hazard Analysis Critical Control Points Inspection Program is designed to eliminate biological, chemical, and physical contaminants that may contaminate meat and poultry in a slaughter and processing facility environment. Additionally, to ensure that sanitary conditions are maintained, inspectors evaluate a facility's compliance with the national food processing facility protocol.

Department of Agriculture

Program Series 10: Consumer Protection Laboratory (2760A)

This program series includes the Food and Product Testing Program (2670B), which helps ensure consumer food and agricultural products are safe and accurately labeled and prevents the occurrence of unsafe environmental conditions resulting from the improper use of pesticides and fertilizers. This program provides chemical analysis and microbiological surveillance testing for food, livestock and poultry feed, and fertilizer to ensure safe products. This program also verifies the accuracy of product labeling of feed and fertilizer to protect consumers and agricultural users. Over 23,000 samples are processed each year including meat, poultry, processed foods, dairy products, livestock feed, fertilizer, and pesticides. The Analytical Toxicology Laboratory performs equine testing on samples collected by the Ohio Racing Commission at seven pari-mutuel commercial racetracks and 94 county and independent fairs. Forensic toxicological analyses are performed to detect the presence of performance enhancing drugs and chemicals in equine and livestock samples.

Program Series 11: Large Livestock Regulation (2765A)

This program series includes the Large Livestock Regulation Program (2765B), which monitors large livestock operations. With the rural environment in close proximity to urban residents, it is increasingly important to provide acceptable environmental standards for large livestock producers. The goal is to eliminate water quality hazards and to establish acceptable standards to maintain surface and ground water quality in areas of large livestock operations. This program regulates operating and management practices for the handling of manure, including insect and rodent control, and monitors the guidelines for environmental compliance. The program issues permits to install and operate large livestock facilities, establishes building standards for new facilities, inspects and enforces surface and ground water quality, and issues certificates to livestock managers. This program benefits both livestock producers as well as the rural and urban neighbors of these facilities.

Program Series 12: Auctioneers Licensing (2770A)

This program series includes the Auctioneer Licensing Program (2770B), which regulates auctions conducted in the State of Ohio. The program oversees the licensing of auctioneers, auction firms, and auction corporations/partnerships. The program investigates complaints against licensees, administers examinations, and works with the Ohio Auction Commission to set auction school criteria and curriculum requirements.

Department of Agriculture

Program Series 13: Agriculture Program Management (2775A)

This program series includes Program Management (2775B), which is responsible for administrative/management activities conducted by the director's office, fiscal services, legal services, communications, information technology, human resources management, and maintenance of all grounds as well as specialized functions including enforcement of the agency's laws and rules and management of a variety of small general agricultural programs. This program also contains the management and support costs related to the Ohio Department of Health and Ohio Environmental Protection Agency laboratory facilities, which reside on the Department of Agriculture's campus.

Program Series 14: Soil and Water (2790A)

This program series includes the Soil and Water Program (2790B), which provides programs and services to enable Ohioans to conserve, protect, and enhance soil, water, and land resources. This program provides administrative guidance, technical training, and financial assistance through state matching funds to Ohio's 88 Soil and Water Conservation Districts, which consist of 440 elected board members and over 400 employees. The program implements statewide agricultural and non-point source water pollution control programs, such as the Grand Lake St. Mary's Watershed in Distress rules and the Western Lake Erie Basin manure application restrictions. The program supports the local development of watershed management and protection action plans. The program also implements a comprehensive statewide soil information program by assisting the private and public sectors in using web-based soil information. The program supports staffing for the Division of Soil and Water Conservation, provides state match funds for Ohio's Soil and Water Conservation Districts, and receives funding from federal agencies and other conservation partners to subsidize conservation practices and cost sharing programs.

AGR ALI Analysis

700629, Ohio Grape Industries: The appropriation increase in this line supports additional Enology Consultants and promotional marketing covering more wineries.

700620, Ride Inspection: The appropriation increase in this line supports additional staff training and resources for more ride inspections.

700404, Ohio Proud: The appropriation increase in this line supports additional promotional marketing of Ohio made and grown agriculture products.

700499, Meat Inspection Program: The appropriation increase in this line supports the hiring of additional meat inspectors and more inspections of licensed establishments that slaughter and process meat.

700670, H2Ohio: This new line item supports best management practices in the Western Basin of Lake Erie. These practices include equipment purchases and assistance for soil testing. This line item may also be used to fund improvements to, and for the protection of, all waterways of the state.

Air Quality Development Authority

Role and Overview

The Ohio Air Quality Development Authority (OAQDA) helps conserve air as a natural resource, prevents or abates air pollution, and assists in the financing of air quality facilities for industry, commerce, and research to create jobs and protect the environment. The Authority is governed by a seven-member board. Five are public members appointed by the Governor while the other two members are the Directors of the Ohio Department of Health and the Ohio Environmental Protection Agency. The Authority assists businesses in meeting environmental mandates by financing the purchase, construction, or installation of air quality improvement facilities. These activities are funded through administrative fees charged to the beneficiaries of its bond issues. The authority operates the Ohio Clean Air Ombudsman for the Small Business Program, which is funded by revenue generated by permit fees collected pursuant to Title V of the federal Clean Air Act Amendments of 1990. The Authority has five full-time, permanent employees that perform day-to-day functions.

More information regarding the Air Quality Development Authority is available at <http://ohioairquality.org>.

Agency Priorities

- Provide oversight and administration of the state's primary air quality financing assistance program that serves Ohio businesses and public sector entities.
- Assist small businesses in complying with the federal Clean Air Act.
- Administer Small Business Assistance grants to lower the cost of equipment financing for companies that have fewer than 100 employees.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$1.2 million (or a 14.5% increase from fiscal year 2019). Funding for fiscal year 2021 is \$1.2 million (or a 1.5% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Provide support for the administration and management of \$3.2 billion in outstanding debt and assist in the development of eligible projects for future assistance.
- Support the issuance of project revenue bonds to deploy air quality enhancing equipment for businesses in Ohio.
- Provide technical and financing assistance for Ohio small businesses as they develop solutions to their environmental challenges.

Air Quality Development Authority

Program Series 1: Air Quality Development Authority (104A0)

This program series includes the Project Development and Finance (104B1) and Clean Air Resource Center (104B2) programs. Through the issuance of bonds, the Project Development and Finance program assists public and private entities in financing capital improvements related to air quality improvement. It oversees administration of bonds and educates various constituencies on air quality issues and regulations. The Clean Air Resource Center program fulfills the federal requirement to provide specific assistance to small businesses that must comply with the Clean Air Act. It provides technical and financing assistance and fills the role of the Small Business Ombudsman for Clean Air.

Architects Board and Ohio Board of Landscape Architect Examiners

Role and Overview

The Ohio Architects Board and Ohio Landscape Architects Board (ARC) are two boards with five board members, one budget, and four employees. The purpose of the Boards is to protect the health, safety, and welfare of the public by licensing, regulating, and enforcing the laws and rules governing the practices of architecture and landscape architecture. The populations served are the licensees (both individuals and businesses), candidates for licensure, students at Ohio's four accredited schools of architecture (University of Cincinnati, Kent State University, Miami University, and Ohio State University), one candidate school (Bowling Green State University), and the public at large. The Boards guide candidates for licensure through the training program and the examinations, enforce the rules and laws governing the profession, and educate the licensees and students through presentations regarding the licensing process, ethics, training, education, and experience requirements. Approximately 8,725 professionals, candidates, and firms are active customers.

More information regarding the Architects Board and Ohio Board of Landscape Architect Examiners is available at <http://www.arc.ohio.gov>.

Agency Priorities

- Ensure the health, safety, and general welfare of the citizens of the state through the regulation of the architect and landscape architect professions.
- Provide enhanced customer service options through online renewals, applications, and payments.
- Ensure the Boards' policies and procedures are business-friendly.
- Inform students in Ohio's college degree programs about the Board's programs and increase the number of highly educated graduates that remain in Ohio.
- Provide effective communication to stakeholders, which include licensees, legislators and their staff, and members of the public.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$638.6 thousand (or a 4.8% increase from fiscal year 2019). Funding for fiscal year 2021 is \$646.3 thousand (or a 1.2% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Provide superior customer service by responding promptly to stakeholder inquiries and approving applications without delay, which makes it easier to do business in the State of Ohio.
- Ensure statutes and rules are current and recognize the business needs of the profession.
- Ensure that violations of the laws and rules regulating the profession are objectively and timely investigated, and appropriate sanctions are issued.
- Inform and educate stakeholders through participation in conferences, speaking engagements, and providing liaison services.
- Ensure that the knowledge, skills, and abilities of practitioners are maintained through completion of the continuing education requirement.

Ohio Arts Council

Role and Overview

The Ohio Arts Council (ART) funds and supports quality arts experiences to strengthen Ohio communities culturally, educationally, and economically. ART administers grant programs in the areas of operating support, project support, arts learning, and individual artists that provide support to nonprofit arts organizations and artists. ART also offers services and resources that enhance the growth of the arts in Ohio, manages the Riffe Gallery at the Vern Riffe Center for Government and the Arts in Columbus, and administers the Percent for Art Program. The Board consists of 15 voting members appointed by the Governor and four non-voting legislative members. ART's staff of 17 full-time employees reports to the executive director, who is appointed by and reports to the Board. In the fiscal year 2018-2019 biennium, ART awarded more than 1,800 grant awards in each of Ohio's 88 counties totaling approximately \$26 million. Also in the fiscal year 2018-2019 biennium, ART completed the rollout of a state-of-the-art online grants management system, streamlined grant guidelines, and a new website. ART also conducted special events with partners, including the Governor's Awards, Poetry Out Loud high school recitation contests, and the Arts Impact Ohio conference; administered 14 new Percent for Art designations; and presented exhibitions at the Riffe Gallery and Governor's Residence which featured the work of diverse Ohio artists.

More information regarding the Ohio Arts Council is available at <http://oac.ohio.gov>.

Agency Priorities

- Operate the Ohio Arts Council with a high level of integrity, transparency, and efficiency.
- Invest in arts, education, and cultural organizations and build on the arts as an economic engine through grant awards.
- Cultivate creativity and innovation through revamped arts learning programs for everyone from school-aged children to seniors.
- Emphasize accountability, equity, evaluation, and assessment through all grant programs, services, and professional development resources.
- Secure greater cost savings through planning, partnerships, and efficiencies.
- Administer the Percent for Art Program for state-funded capital projects.
- Manage and maintain the Ohio Art Council's Riffe Gallery at the Vern Riffe Center for Government and the Arts.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$14.7 million (or a 0.0% increase from fiscal year 2019). Funding for fiscal year 2021 is \$14.8 million (or a 0.7% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$16.5 million (or a 0.3% increase from fiscal year 2019). Funding for fiscal year 2021 is \$16.6 million (or a 0.6% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Review and adjudicate approximately 2,800 grant applications in the fiscal year 2020-2021 biennium.
- Invest approximately \$27.5 million through more than 1,800 grants in arts and cultural organizations, community organizations, schools, colleges and universities, and artists, resulting in more than 50 million arts experiences for Ohioans.
- Use grant programs to foster economic development and excellence in education, and strengthen Ohio's arts, education, and cultural institutions.
- Support at least 400,000 young people and seniors through school-based arts education.
- Create a positive impact on communities and the state as a whole by improving the state's quality of life, creating a sense of place and making Ohio communities vibrant, interesting places to live, work, and raise a family.
- Support arts education in schools and communities, including policy research, strategic planning, online artists registry and directories, and regional cooperative efforts.

Ohio Arts Council

- Use ART's website and social media presence to efficiently communicate information to citizens and constituents about the agency's programs, services, and resources.
- Support administrative costs in the Percent for Art Program associated with the acquisition, commissioning, and installation of artwork in public buildings; and administer the Percent for Art Program for public agencies or universities with eligible capital projects, including 20 new projects.
- Provide at least four exhibitions per year at the agency's Riffe Gallery and three lobby exhibitions in the lobby of the Vern Riffe Center for Government and the Arts for the general public, including educational activities for children and families; and maintain an online archive of Riffe Gallery exhibitions.

Ohio Arts Council

Program Series 1: Arts Programming (2900A)

The Arts Programming series supports quality arts experiences through Arts Programs (2900B), Arts Services (2901B), and the Riffe Gallery (2902B). Arts Programs strengthens Ohio communities culturally, educationally, and economically through grant awards that fund artists, arts organizations, schools, and entities involved in cultural programming to ensure that the arts are available to communities across Ohio. Funding categories include operating support grants for Sustainability and Arts Access; project support grants through ArtSTART, ArtsNEXT, Building Cultural Diversity, and Artists with Disabilities Access Program; arts learning grants for Arts Partnership, TeachArtsOhio, and the Big Yellow School Bus; and individual artist grants for Individual Excellence Awards and Traditional Arts Apprenticeships. Grants are awarded through an application and open panel review process. Arts Services offers resources to the arts sector, Ohioans, and tourists and supports ART's core functions of grantmaking, communications, executive oversight, and fiscal management. It also includes supporting the Ohio Arts Directory, the Ohio Online Visual Artist Registry, ArtsinOhio.com, the Ohio Arts Festivals and Competitions Directory, policy research, and various special events. The Riffe Gallery presents the arts in Ohio through exhibitions and educational programs, supports the development of professional artists and curators, and fosters arts awareness.

Athletic Commission

Role and Overview

The Athletic Commission (ATH) was established to regulate boxing, mixed martial arts, professional wrestling, kickboxing, karate, tough person contests, and athlete agents. The Commission monitors almost 2,100 licensees statewide to ensure compliance with the laws and rules of the state. The Commission currently has three full-time employees, five voting commissioners, and two non-voting commissioners appointed by the legislature.

More information regarding the Athletic Commission is available at <http://www.aco.ohio.gov>.

Agency Priorities

- Ensure that all contestants are properly licensed and have met all physical health standards to compete in the sports regulated by the commission.
- Provide inspectors at all events to assure that all rules and regulations are followed; that contestants compete in the same weight class; that there is a physician and medical personnel at ringside prior to the start of any bout; that all officials are paid; and the event fee is collected.
- Consistently work to improve the Administrative Code rules that affect the safety and well being of the contestants participating in the sports regulated by the commission.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$331.2 thousand (or a 1.9% increase from fiscal year 2019). Funding for fiscal year 2021 is \$331.8 thousand (or a 0.2% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Regulate and enforce the rules for boxing, kickboxing, karate, tough person, and mixed martial arts sporting events.
- Support licensing application and renewal of almost 2,100 licensees
- Renew approximately 120 athlete agent licenses over the biennium.
- Continue to improve rules and regulations to make for a safer and more competitive environment for participating contestants.

State of Ohio

Athletic Commission

Program Series 1: Regulation (107A0)

This program series, through the Athletic License, Regulation, Renewal, and Enforcement program (107B1), contributes to ensuring the health, safety, and general welfare of residents of the state through oversight of the regulated sports and includes all operations of the Ohio Athletic Commission.

Attorney General

Role and Overview

The Attorney General's Office (AGO) serves as the state's legal advisor, providing legal representation for the Governor, statewide elected officials, the legislature, and all state departments, agencies, boards, commissions, and state universities and colleges. The Attorney General is a constitutional officer elected to a four-year term. As the state's chief law officer, the Attorney General is dedicated to protecting Ohio's families by: providing assistance to local and federal law enforcement agencies; taking action in court to protect consumers, charitable causes, and our environment; and protecting taxpayers through collecting debts owed to government agencies. A significant portion of office operations supports the work of law enforcement by providing training, investigative, and technical assistance to local law enforcement agencies through the Bureau of Criminal Investigation (BCI), the Ohio Peace Officer Training Academy (OPOTA), and the Ohio Organized Crime Investigations Commission. The Attorney General's lawyers also provide legal counsel and representation, either directly or through the appointment of special counsel, to all state agencies and officers, both defending them in court or filing litigation to protect state assets, recover fraud, and enforce state civil laws. The Attorney General's Office has approximately 1,500 employees (includes 30 part-time employees).

More information regarding the Attorney General is available at <https://www.ohioattorneygeneral.gov/>.

Agency Priorities

- Ensure that the Bureau of Criminal Investigations (BCI) is the leading criminal investigation and analysis agency in the country.
- To provide funding stability to preserve BCI. Without stabilized funding for BCI- significant staff reductions would be needed which would severely reduce BCI capacity and handicap local government law enforcement who rely on BCI support.
- Maintain current staffing levels to enable office to maintain current service levels.
- Protect Ohio's children, families, and the elderly and provide support to victims of crime.
- Defend states' rights and citizens' constitutional rights from statutes and court actions that may limit such fundamental rights.
- Make the Ohio Peace Officer Training Academy (OPOTA) the premier teaching institution for Ohio law enforcement personnel.
- Provide first rate professional legal services to state agencies, boards, commissions, and state-supported colleges and universities to strengthen the institutions supporting our citizens.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$80.4 million (or a 32.2% increase from fiscal year 2019). Funding for fiscal year 2021 is \$82.7 million (or a 2.9% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$385.4 million (or a 8.6% increase from fiscal year 2019). Funding for fiscal year 2021 is \$390.1 million (or a 1.2% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Protect Ohio's families through multiple efforts, including dedicating employees and resources to help local law enforcement and prosecutors fight and address the opiate crisis.
- Continue to improve BCI operations so that evidence is returned to police and processed quickly. DNA turnaround times by BCI have dropped significantly since late 2010, from an average of 125.5 days in December 2010 to an average of 18.62 days as of August 2018.
- Replace the criminal history and fingerprint systems at the BCI to ensure quick and accurate processing of background checks.

- Build a better and more secure atmosphere for online activity in Ohio through the CyberOhio Initiative. Bring together businesses and government to set up guidelines for helping businesses and individuals operate in a safe manner and protect online information.
- Provide new scenario-based training curriculum for law enforcement, using the latest technology for virtual reality training, in combination with action and movement through buildings.
- Complete the upgrade and replacement of information technology systems vital to support local law enforcement, state debt collections efforts, and legal operations, improving the efficiency of operations.
- Support Ohioans and their government in the areas of debt collection, contract review, and revenue protection via the legal process.

Budget Fund Group Information

- The overall budget is increasing in order to preserve the Bureau of Criminal Investigation, maintain operations, and support narcotics task forces

Program Series 1: Criminal Justice (2600A)

This program series contains the Law Enforcement (2600B) and Victims Services (2601B) programs. The Law Enforcement Program encompasses all functions of the office charged with providing training, investigatory, and technical assistance services to the law enforcement community across the state, as well as those sections providing enforcement-related activities. The Victims Services Program encompasses all functions charged with assisting victims of crime and with protecting children.

Program Series 2: Legal Services (2610A)

This program series contains the Citizen Protection (2610B) and State Agencies (2611B) programs. Citizen Protection focuses on protecting the rights of citizens and businesses across the state in the areas of consumer protection, environmental enforcement, charitable law, and antitrust law. The State Agencies Program provides legal representation to state officials and state agencies. This includes, but is not limited to, legal advice, contract review, litigation support, and debt collection.

AGO ALI Analysis

055321, Operating Expenses: Increased appropriations are due to additional General Revenue funding to preserve the Bureau of Criminal Investigation (BCI) and maintain operations. A total of \$500,000 each year is scheduled to support narcotics task forces in the Department of Public Safety, and build upon the successes of existing task forces as well as establishing new ones.

Auditor of State

Role and Overview

The Auditor of State (AUD), an elected constitutional officer, is responsible for auditing all public offices in Ohio including cities, villages, townships, school districts, universities, state agencies, boards, and commissions. As an independent guardian of the public trust, the office's primary responsibility is to ensure that public funds are spent legally and appropriately by Ohio governments and affiliated entities. This is achieved through financial audits consisting of a review of the methods, accuracy, and legality of an entity's accounts and financial statements, as well as internal controls. In addition to financial audits and agreed upon procedures, the Auditor of State conducts performance audits, which lead to efficient and effective governments by identifying how to maximize program or service results by reducing waste and duplication of services and implementing best practices. Other types of audits conducted by the Auditor include Medicaid provider audits to identify noncompliance with federal and state regulations, and special audits when there is suspected fraud, waste, and abuse of public funds. The Auditor of State is also responsible for financial supervision of schools and local governments placed in fiscal watch and emergency. In addition, the Auditor of State provides assistance to local governments through accounting services, use of financial management software (the Uniform Accounting Network), and training for local public officers. The Auditor of State employs 800 people.

More information regarding the Auditor of State is available at <http://ohioauditor.gov>.

Agency Priorities

- Avoid increasing audit service charges for local governments and school districts through the creation of the Local Government Audit Support appropriation line item.
- Increase opportunities for local governments and school districts to take advantage of Performance Audit services through support from the Local Government Audit Support appropriation line item.
- Identify savings for Ohio's taxpayers through additional Performance Audits of state agencies, colleges, and universities.
- Provide required oversight and accountability of public offices through financial and performance audits. Work to identify audit process efficiencies and improvements to save time, contain costs, and improve customer service.
- Implement a public records accountability standard for all audited entities to ensure Ohioans have timely access to the records rightfully belonging to them.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$40.3 million (or a 33.0% increase from fiscal year 2019). Funding for fiscal year 2021 is \$40.3 million (or a 0.0% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$90.9 million (or a 8.1% increase from fiscal year 2019). Funding for fiscal year 2021 is \$91.9 million (or a 1.1% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Ensure the appropriate and effective use of public funds by issuing approximately 4,500 audit reports each fiscal year.
- Identify fraud, waste, and abuse associated with the misuse of public funding which results in the recovery of state resources. Increased emphasis on review of unsupported Medicaid payments and credit card abuse.
- Conduct comprehensive field based audits to identify operational efficiencies through performance audits.
- Provide financial supervision to school districts and local governments in fiscal watch and fiscal emergency status with the emphasis on helping distressed entities regain their financial footing.
- Provide a financial management computer system to approximately 2,000 local governments so public officials can easily apply accounting standards to financial record keeping.

Program Series 1: Financial Audit Services (2920A)

This program series includes the Financial Audits Program (2920B), which performs financial audits of over 6,000 public entities in Ohio at least once every two fiscal years (or every year for those entities that fall within Federal Schedule guidelines for Single Audits). Generally, these audits entail a review of the methods, accuracy, and legality of accounts and financial reports, and ascertains an entity's compliance with the laws, rules, ordinances, and orders.

Program Series 2: Fraud and Investigative Audit (2940A)

This program series includes the Healthcare Contract Audits (2940B) and Special Audits (2941B) programs. The Healthcare Audits Program provides audit services that identify and report instances of noncompliance with federal and state rules and regulations. Medicaid Contract Audit (MCA) is dedicated to ensuring Ohio's Medicaid dollars are not abused or wasted. MCA also performs work under interagency agreements with other state agencies. Special Audits investigates allegations of fraud, theft, and misappropriation of public funds by public and private entities that receive public funds.

Program Series 3: Performance Audit Services (2950A)

The Performance Audit Program (2950B) conducts operational audits, which entails a comprehensive review of any program or area of operation in which the Auditor of State believes that greater operational efficiencies or enhanced program results can be achieved. Typically, performance audits identify and help correct inefficient managerial operations and waste of taxpayer dollars, in addition to providing general oversight and advice to ensure efficient operation of public offices. The Ohio Performance Team (OPT) conducts at least four performance audits of state agencies each biennium. Performance audits may also be conducted for school districts or local government entities (counties, townships, villages, etc.) that have been designated as being in a state of fiscal caution, watch or emergency. The Audit Team for Qualitative Projects (ATQP) (2951B) is a group who review and evaluate qualitative processes at various state agencies and local governments.

Program Series 4: Local Government Services (2960A)

The Local Government Services (LGS) Program (2960B) serves as a consulting and fiscal advisory group to all governmental agencies and subdivisions. LGS provides an array of services including financial forecasts, GAAP conversion assistance, financial reporting, record reconstruction and reconciliation, fiscal watch and emergency assistance, merger and dissolution assistance, and financial management training for elected officials. The Uniform Accounting Network (UAN) Program (2961B) is a financial management system designed specifically for Ohio local governments. The program is administered by the Auditor of State and provides approximately 2,000 local governments, including townships, villages, libraries, and special districts, with a complete computer system (hardware and software), along with training and support. The office provides UAN system training to fiscal officers in person, online and on-demand.

Broadcast Educational Media Commission

Role and Overview

The Broadcast Educational Media Commission (ETC) is a service organization that provides content distribution services to Ohio's eight public TV stations and provides video conferencing bridging services to K-12 schools, colleges and universities, and various state and local government agencies. ETC also provides financial assistance to the Statehouse News Bureau, Ohio Governmental Telecommunications, Ohio's public TV and radio stations, and several radio reading services for the visually impaired across the state. The eight public television stations collaborate with the Ohio Department of Education to create a series of multimedia videos and programs to highlight specific educational topics important to Ohio's schools, teachers, parents and students including projects aligned with the Department of Education's Strategic Plan and Career Connections, among others. At the beginning of fiscal year 2018, ETC completed critical modernization of public broadcasting and is now the central Joint Master Control for public broadcasting in Ohio. In addition, the agency is building a logging system to monitor broadcasting feeds to provide service to television affiliates and has completed the Hub & Spoke project that connects all public television stations in a media sharing platform.

More information regarding the Broadcast Educational Media Commission is available at <http://www.broadcast.ohio.gov>.

Agency Priorities

- Serve as a "connector" by providing infrastructure and content support to Ohio's broadcasting and distance learning organizations.
- Set a strategic direction among our affiliates and customers through funding activities and leadership initiatives.
- Create efficiencies for affiliates and customers and the State of Ohio through enhanced service and innovation.
- Commitment towards modernization and needed expansion in key mission areas - video conferencing and broadcast master control.
- Enhance program analytics, articulate ETC values, align tools and activities with the needs of affiliates and customers, and communicate with policymakers.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$9.3 million (or a 0.0% increase from fiscal year 2019). Funding for fiscal year 2021 is \$9.3 million (or a 0.0% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$9.4 million (or a 0.2% increase from fiscal year 2019). Funding for fiscal year 2021 is \$9.4 million (or a 0.0% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Modernize current broadcast and network systems and enhance services provided to Ohio's public broadcasters.
- Expand and upgrade video conferencing bridging technology and software to meet growing demand for distance learning opportunities across Ohio.
- Constantly improve basic technological and electrical infrastructure at ETC's North Star Network Operations Center and improve overall building maintenance.
- Provide financial assistance to Ohio's eight public TV and 15 public radio stations, Ohio's seven non-profit radio reading services, Statehouse News Bureau, and Ohio Government Television.
- Create and maintain a well-informed and engaged governing body by providing transparent and professional information about ETC's programs and operations.
- Administer and oversee an effective multimedia grant program for Ohio's public television stations to provide needed career education and awareness materials for Ohio's poorest school districts.

Program Series 1: Operations (7360A)

This program series provides financial resources to the operating costs of ETC's North Star Network Operations Center. Included are funds for building lease and maintenance, office supplies, utility costs, telecommunications support, administrative/management staff salaries, and fiscal and human resources administrative support from Department of Administrative Services' Central Services Agency. Includes funds for General Operations in program series 7341B.

Fund	ALI	ALI Name	Estimated	Recommended

Program Series 2: Educational Resources (7350A)

This program series contains financial resources that permit ETC to provide operating assistance for the Statehouse News Bureau, Ohio Government Telecommunications (The Ohio Channel), Ohio's eight public television stations, Ohio's 15 public radio stations, and various radio reading services for the visually impaired. These funds also support ETC's multimedia grant program that provides funding to public television stations to produce high quality, interactive education curricula in coordination with the Ohio Department of Education. It also includes funding for Content Development/Acquisition/Development program 7276B and Statehouse News Bureau and Ohio Government Television Services program 7271B, as well as spending authority for Ohio Government Telecommunications.

Program Series 3: Technology Operations (7291A)

This program series funds the broadcast and technical operations for the broadcast of all eight public broadcasting stations in Ohio and the 42 channels run by those stations through the North Star Operations Center. The funds support broadcast master control and traffic staff (with coverage 24 hours a day, 365 days a year), all internet connectivity to connect stations across the state with the North Star Operations Center (including being one of OARnet's largest customers), the maintenance of servers, software and other equipment necessary for broadcast operations, the electrical needs of our operations in the broadcast center, and costs associated with the modernization of our broadcast operations. It also includes funds for the Affiliate Services spending authority in program 7290B and all Technology Operations in program 7290B.

Program Series 4: Educational Technology (7250A)

This program series supports the basic Information Technology (IT) functions of ETC. The program series funds the agency's website, LAN services, email and desktop support, file storage, and Office 365 expenses. The series contains funding for ETC's video conference bridging services for K-12 schools (provided free of charge), higher education institutions, and various state and local government agencies. Bridging services make possible expanded educational opportunities for Ohio's students in a wide range of educational subject matters and support the distance learning infrastructure. It also includes funds for the Information Technology services in program 7251B and Media Services spending authority in 7251B.

Office of Budget and Management

Role and Overview

The Office of Budget and Management (OBM) ensures the financial operations of state government are conducted in a manner consistent with state laws and policies. The OBM Director is appointed by the Governor and is the chief financial officer of the state. OBM develops budgets; administers the state's accounting system; processes, monitors, and reports on financial transactions; and reviews and coordinates the financial policies and activities of state agencies. OBM provides financial management services and financial information to the Governor, state agencies, the legislature, municipalities, school districts, and other interested parties. Towards the benefit all state agencies, OBM evaluates processes across agencies to determine if there are common business activities that can be more efficiently provided centrally by Ohio Shared Services. This allows Ohio to streamline and redirect common business transactions to Ohio Shared Services, thus enabling state agencies to focus on their core missions and higher priority needs. OBM continues to develop sound financial management processes by working with state cabinet agencies to improve their fiscal integrity and financial discipline with proactive internal controls and process improvement support and oversight. The Office of Internal Audit provides needed information technology system audits, reviews, and expertise to maintain the security and integrity of the state's financial information databases. OBM currently employs 214 people working in the areas of accounting, financial reporting, budgeting, shared services, debt management, internal auditing, and administering the activities of the State Controlling Board.

More information regarding the Office of Budget and Management is available at <http://obm.ohio.gov>.

Agency Priorities

- Ensure the Governor's strategic priorities are met by developing, implementing, and monitoring Ohio's operating and capital budgets.
- Promote transparency and understanding of the functions and services of state government by providing direct public access to information in the state accounting system through the Ohio Interactive Budget web site.
- Reengineer business processes and use technology to increase efficiency and effectiveness of services.
- Explore, promote, and support shared services initiatives to standardize and consolidate enterprise services for reduced costs and greater efficiencies.
- Improve financial integrity and fiscal discipline throughout the state of Ohio by ensuring that all state fiscal resources are administered, monitored, and spent appropriately and legally.
- Compile, analyze and report the financial transactions of the state, including publishing the Comprehensive Annual Financial Report and the Schedule of Federal Awards in accordance with Generally Accepted Accounting Principles
- Conduct internal audits of executive agency financial management processes and information technology systems to ensure state fiscal resources and information systems are managed in a properly controlled environment that protects the fiscal and data integrity of the state.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$4.6 million (or a 9.4% decrease from fiscal year 2019). Funding for fiscal year 2021 is \$4.4 million (or a 3.8% decrease from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$28.5 million (or a 2.7% decrease from fiscal year 2019). Funding for fiscal year 2021 is \$28.0 million (or a 1.7% decrease from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Fund the evaluation, implementation, and monitoring of state agencies' operating and capital budgets.
- Fund all necessary state accounting functions including appropriations management, expenditure control, supplier procure-to-pay integration, electronic data interchange, account reconciliations, and financial reporting.
- Fund the preparation of economic forecasts and revenue estimates and the analysis and reporting of economic trends and General Revenue Fund revenues and spending.

Office of Budget and Management

- Fund centralized, shared back-office services for accounts payable, accounts receivable, travel and expense reimbursements, customer contact center, and supplier management.
- Fund a coordinated and comprehensive internal audit program to analyze risk management, internal controls, and governance processes of 27 cabinet-level agencies.
- Fund a coordinated, multi-program approach to enhance and improve the fiscal discipline of the State of Ohio through sound financial management, planning, oversight, policy analysis, and training.
- Fund the continual improvement of business processes and use technology to increase the efficiency and effectiveness of services within the agency and the enterprise.
- Fund continued improvement to Ohio's interactive budget to increase the transparency and visibility of the state's accounting and budget reporting systems.

Capitol Square Review and Advisory Board

Role and Overview

The Capitol Square Review and Advisory Board (CSRAB) was created in 1988 to renovate, maintain, and operate the historic Capitol Square complex including the Ohio Statehouse, Senate Building, Atrium, Statehouse Underground Parking Garage, and ten acres of grounds while providing for the health, safety, and convenience of those who work in and visit the complex. The Board consists of 12 board members with the authority to employ, fix the compensation of, and prescribe the duties of the executive director of the Board and other employees the Board considers necessary for the performance of its powers and duties. Including the executive director, there are 62 full-time employees of CSRAB. Pursuant to Section 107.03(B) of the Ohio Revised Code, the Governor may not alter the funding requests of agencies of the legislative branch of the government.

More information regarding the Capitol Square Review and Advisory Board is available at <http://ohiostatehouse.org>.

Agency Priorities

- Maintain the quality of the historically significant buildings and grounds of the Capitol Square Complex.
- Keep the Capitol Square Complex open and accessible while providing a safe and healthy workplace for Ohio state government and those who visit the State Capitol.
- Provide a cost competitive, clean, convenient, and safe environment to park in the downtown area in the Statehouse Underground Parking Garage.
- Provide free educational programming and services, including the Museum Education Center and guided tours.
- Provide services to government officials and non-profit organizations using the Statehouse for events, entertainment, and press conferences through the Special Events Program.
- Offer tenants and visitors a unique and visually pleasing shopping experience in the Statehouse Museum Shop, which offers a variety of Ohio-themed gifts and souvenirs.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$5.2 million (or a 33.7% increase from fiscal year 2019). Funding for fiscal year 2021 is \$5.2 million (or a 0.3% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$10.2 million (or a 14.6% increase from fiscal year 2019). Funding for fiscal year 2021 is \$10.2 million (or a 0.2% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Provide maintenance and operating costs for the Ohio Statehouse, Atrium, Ohio Senate Building, ten acre public square, Underground Parking Garage, Capitol Cafe, Museum Education Center, and the Statehouse Museum Shop.
- Support the free educational programming and services offered to the hundreds of thousands of visitors to the Capitol Square Complex each year.

State Board of Career Colleges and Schools

Role and Overview

The State Board of Career Colleges and Schools (SCR) monitors and regulates Ohio's career colleges and schools to ensure compliance with standards set by state law. The board provides certificates of registration and program authorization to private, for-profit schools and their agents that meet the standards to operate in Ohio. There are over 240 schools offering more than 1,400 programs currently registered in Ohio. The board also investigates and resolves student and consumer complaints regarding registered career colleges and schools. The board's budget is fully funded by various registration fees assessed to schools and colleges. The board consists of eight members: the Superintendent of Public Instruction and the Chancellor of the Department of Higher Education, or their designee, and six members appointed by the Governor. Three employees, including an executive director, oversee daily operations and report directly to the board.

More information regarding the State Board of Career Colleges and Schools is available at <http://scr.ohio.gov>.

Agency Priorities

- Assuring the quality of registered schools through oversight of their programs and curricula along with their business practices, including advertising and recruiting.
- Protecting the citizens of Ohio from fraudulent and unscrupulous school operators and their representatives.
- Protecting the investment of students who have paid for educational and training services.
- Protecting reputable schools from unfair competitive practices of unscrupulous school operators and their representatives.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$540.3 thousand (or a 0.0% increase from fiscal year 2019). Funding for fiscal year 2021 is \$540.3 thousand (or a 0.0% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Regulate and oversee career colleges and schools.
- Effectively resolve consumer complaints and other school compliance inquiries.
- Review schools and academic programs and conduct site visits as part of the licensure and renewal process.
- Continue to develop systems to evaluate schools and programs and survey students on school and program quality.

State Board of Career Colleges and Schools

Program Series 1: Regulation (166A0)

This program series is designed to monitor and regulate career colleges and schools in accordance with Ohio Revised Code Chapter 3332. The Licensing, Regulation, Renewal, and Enforcement Program (166B1) supports the establishment of standards for the registration and operation of career colleges and schools, including standards to ensure school financial stability. Other activities supported by this program include the investigation and resolution of consumer complaints.

Casino Control Commission

Role and Overview

The Ohio Casino Control Commission is a bipartisan regulatory body made up of seven Commissioners, an Executive Director and supporting staff that provides oversight of the casino gaming industry in Ohio. The role of the Commission is to ensure the integrity of casino gaming by licensing, regulating, investigating, and penalizing casino operators, management companies, holding companies, key employees, casino gaming employees, and gaming-related vendors. The Commission also has jurisdiction over all persons participating in casino gaming authorized by Section 6(C) of Article XV, Ohio Constitution, and Chapter 3772 of the Ohio Revised Code. The Commission is also responsible for the oversight of skill-based gaming and the regulation of fantasy sports contests. Administrative rules and resolutions adopted by the Commission establish the standards and procedures for casino, skilled game and fantasy contest operators, vendors, and licensed employees. As a law enforcement agency, the Commission continues to work with local law enforcement agencies and prosecutors to conduct numerous illegal casino investigations. The Commission has 125 employees.

More information regarding the Casino Control Commission is available at <http://casinocontrol.ohio.gov>.

Agency Priorities

- Ensure the integrity of gaming, including skill-based amusement machines in Ohio.
- License and regulate casino gaming in Ohio.
- Audit and investigate casino facilities and staff.
- Establish a regulatory scheme for fantasy sports contests and hire staff to enforce these regulations.
- Maintain Ohio's Voluntary Exclusion Program.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$13.4 million (or a 2.7% decrease from fiscal year 2019). Funding for fiscal year 2021 is \$13.9 million (or a 3.7% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Locate law enforcement and compliance staff at each casino to ensure the integrity of casino gaming.
- Conduct thorough investigations of all applicants related to casino gaming, skilled games, and fantasy sports contests.
- Hire and train staff to regulate fantasy contests.
- Support seven commissioners and all commission employees.

Casino Control Commission

Program Series 1: Casino Commission (9300A)

The Licensing, Renewal, Regulation, and Enforcement Program (9300B) within this program series provides for the enforcement of the law, rules, and regulations under which casino gaming, skill-based amusement games, and fantasy contests are conducted in Ohio. The Commission investigates, licenses, and monitors casino gaming and the operations of skill-based amusement games and will regulate fantasy sports contests.

Chemical Dependency Professionals Board

Role and Overview

The Ohio Chemical Dependency Professionals (CDP) Board was established December 23, 2002 to provide licensing and certification to those seeking to work in alcohol and other drug treatment and prevention services. CDP ensures high standards of alcohol and other drug treatment and prevention for all citizens through the assurance of a competent, well-trained and ethical workforce. With 12 board members and five full-time staff members, CDP currently regulates approximately 11,279 chemical dependency professionals. It endorses over 350 individual trainings per year and awards, annually, approximately 25 to 30 educational provider status designations. The Board's recent accomplishments include: participation in a strengths and weakness analysis of the board's operations and identifying and eliminating processing duplication which resulted in a 27% increase of licensees from fiscal year 2017 to fiscal year 2018; the launch of new strengthened supervision requirements for credential holders in March 2018; introduction of new scope of practice guidance for prevention professionals in June 2018; establishment of a new partnership with Ohio colleges and universities through the curriculum endorsement of a Behavioral Science Master's Degree and Associate's Degree program in April 2017, and implementation of new eLicense functionality to improve customer service in May 2018. The following budget recommendation includes appropriation to support the current priorities and objectives of the Chemical Dependency Professionals Board for the biennium FY 2020-2021.

More information regarding the Chemical Dependency Professionals Board is available at <http://ocdp.ohio.gov/>.

Agency Priorities

- Regulate the practice of chemical dependency counseling and prevention in the State of Ohio through the licensing of qualified individuals.
- Strengthen collaboration with other state agencies, related systems, and stakeholders.
- Ensure that the credentialing review process is completed in a timely manner.
- Protect the public by investigating all ethics violations.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$651.2 thousand (or a 14.8% increase from fiscal year 2019). Funding for fiscal year 2021 is \$664.2 thousand (or a 2.0% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Enable basic renewal and new application processing for the approximately 11,279 chemical dependency professionals currently regulated.
- Enforce ethical standards by responding to and investigating the approximately 150 ethical complaints the Board receives annually.
- Enable the endorsement of 350 or more individual trainings per year and the awarding of approximately 25 to 30 educational provider status designations annually.
- Increase efficiency in the renewal and new application processing for chemical dependency professionals, as well as providers and sponsors of chemical dependency related education and training.
- Support continuing workforce development and education efforts.

Ohio State Chiropractic Board

Role and Overview

The mission of the State Chiropractic Board (CHR) is to proactively protect the health and welfare of Ohio's residents, and to regulate the chiropractic profession with vision by setting high standards for licensure and by fairly and consistently enforcing those standards through examination of new doctors, biennial license renewal, and timely investigation and disciplinary action when indicated. To meet its mission, the Board licenses chiropractic physicians and issues acupuncture certificates to qualified chiropractic physicians, processes biennial chiropractic and acupuncture license renewals, issues temporary licenses, and investigates complaints of misconduct. The Board performs numerous other activities and services such as developing and maintaining a jurisprudence examination, license verification, clarifying/interpreting its laws and rules, administrative rules filings, filling public records requests, legislative activities, and administrative functions such as fiscal, human resources, payroll processing, records retention, inventory management, and website maintenance. The Board is comprised of five board members appointed by the Governor (four chiropractic physicians and one public member) and four full-time staff members.

More information regarding the Ohio State Chiropractic Board is available at <http://chirobd.ohio.gov>.

Agency Priorities

- Protect the health, safety, and welfare of Ohio's residents through effective regulation.
- Issue and renew licenses promptly, efficiently, and accurately.
- Conduct thorough investigations and impose appropriate discipline, when warranted, in a timely manner.
- Review rules, policies, and procedures regularly to identify ways to improve program delivery and operational effectiveness and efficiency.
- Enhance and develop new compliance initiatives.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$605.3 thousand (or a 1.2% increase from fiscal year 2019). Funding for fiscal year 2021 is \$622.0 thousand (or a 2.8% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Issue 180 new chiropractic licenses, 10 acupuncture certificates, and 30 temporary licenses, and reinstate 30 licenses.
- Renew 2,560 chiropractic licenses and 175 acupuncture certificates, and audit a minimum of 10 percent of those applications.
- Conduct 180 investigations and impose appropriate disciplinary action, when warranted.
- Provide good customer service to customers.

Civil Rights Commission

Role and Overview

The Ohio Civil Rights Commission (OCRC) was established in 1959 by the Ohio legislature. The powers, duties, jurisdiction, practices, and procedures of the Commission are specified in the Ohio Revised Code, Chapter 4112. The primary function of the Ohio Civil Rights Commission is to enforce state laws against discrimination. The OCRC receives and investigates charges of discrimination in employment, places of public accommodation, housing, credit, and disability in higher education on the bases of race, color, religion, sex, national origin, disability, age, ancestry, military status, or familial status. The Commission has statutory authority to initiate investigations of discriminatory practices, formulate policies to effectuate the purposes of Chapter 4112 of the Ohio Revised Code, and make recommendations to agencies and offices of the state or local subdivisions of government to effectuate such policies; make periodic surveys of the existence and effect of discrimination because of race, color, religion, sex, national origin, disability, age, ancestry, military status, or familial status on the enjoyment of civil rights by persons within the state; receive progress reports from agencies, institutions, boards, commissions, and other entities of this state or any of its political subdivisions and their agencies, institutions, boards, commissions, and other entities regarding affirmative action programs for the employment of persons against whom discrimination is prohibited. The Commission consists of a five-member board of commissioners and approximately 75 employees.

More information regarding the Civil Rights Commission is available at <http://crc.ohio.gov>.

Agency Priorities

- Enforce Ohio's anti-discrimination laws, Ohio Revised Code, Chapter 4112. Receive, investigate, and issue determinations regarding charges alleging unlawful discrimination.
- Educate the public, specific employers, housing providers, and places of public accommodation about Ohio's anti-discrimination laws.
- Offer alternative dispute resolution and mediation services to parties who have filed charges with the commission.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$5.9 million (or a 3.5% increase from fiscal year 2019). Funding for fiscal year 2021 is \$5.9 million (or a 0.0% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$9.4 million (or a 10.5% increase from fiscal year 2019). Funding for fiscal year 2021 is \$9.8 million (or a 3.7% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Assist the citizens of Ohio in understanding their civil rights and the process in place to enforce the law.
- Investigate allegations of illegal discrimination and make a determination on the merits of each case. Provide mediation services to bring opposing parties to a mutual resolution in lieu of possible litigation.
- Provide education regarding civil rights laws to the commission's core constituents, businesses, and the citizens of Ohio through web-based material and formal training.
- Provide specific training and guidance to employers, housing providers, and places of public accommodation and other governmental agencies on civil rights issues related to employment, housing, and public accommodation.
- Provide assistance and information to legislators relevant to the development of civil rights laws and policy and coordinate activities with government agencies and private organizations in the advancement of civil rights in Ohio.
- Recognize Ohio citizens who have contributed to the realm of civil rights in Ohio by their inclusion in the Ohio Civil Rights Hall of Fame.
- Work with Ohio school systems to advance knowledge and appreciation for civil rights and the law by providing a curriculum for the schools regarding civil rights and by recognizing students in grades 4-12 who have demonstrated writing and artistic talent through their participation in the MLK award celebration.

Court of Claims

Role and Overview

The Ohio Court of Claims (CLA) is part of the judicial branch of state government. It was created to hear claims against the state for money damages and to hear appeals from Attorney General decisions regarding claims filed under the Ohio Crime Victims Compensation Program. This mandate gives the Court jurisdiction that includes the General Assembly, Supreme Court, offices of all elected state officers (Governor, Attorney General, Auditor of the State, Secretary of State and Treasurer of State), all state departments, boards, offices, commissions, agencies, institutions, and state colleges and universities. Cases filed at the Court typically involve contract disputes, property damage, personal injury, immunity of state officers and employees, discrimination and wrongful imprisonment. Cases are assigned to a judge or, in rare instances, a panel of three judges based upon complexity. Civil complaints filed for \$10,000 or less, however, are decided administratively by the Clerk of the Court or a deputy clerk. Appeals from these decisions may be taken to a judge of the court upon motion for court review, but the court's judgment cannot be the subject of further appeal. In September 2016, Ohio Revised Code section 2743.75 became effective, creating a new procedure in the Court of Claims to hear complaints regarding denials of access to public records. The purpose of the new Court of Claims procedure was to provide greater access to the public for resolving public records disputes, as well as to provide for a faster and more economical alternative to a mandamus action in a common pleas or appellate court. The Court of Claims sits in Franklin County and consists of judges who are assigned by the Chief Justice of the Supreme Court of Ohio. The Clerk of the Court is the chief executive officer and is appointed by the justices of the Supreme Court. The Court of Claims employs 24 full-time, permanent employees.

More information regarding the Court of Claims is available at <https://ohiocourtclaims.gov/>.

Agency Priorities

- Provide resources to hear and determine civil actions filed against the State of Ohio, complaints concerning denials of access to public records, and appeals from decisions made by the Attorney General on claims allowed under the Victims of Crime Act.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$3.5 million (or a 11.3% increase from fiscal year 2019). Funding for fiscal year 2021 is \$3.6 million (or a 0.8% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$4.1 million (or a 11.4% increase from fiscal year 2019). Funding for fiscal year 2021 is \$4.1 million (or a 0.8% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Support hearings and determinations for all civil actions filed against the state of Ohio and state agencies, complaints concerning denials of access to public records, and appeals from decisions made by the Attorney General on claims allowed under the Victims of Crime Act.

Department of Commerce

Role and Overview

The Department of Commerce (COM) is a multi-functional regulatory agency that performs a wide array of regulatory duties. The Department is organized into eight operating divisions that (1) regulate state-chartered financial institutions; (2) provide plan review, construction site, and regulatory services to ensure the safety of systems such as elevators and boilers, and enforce Ohio's wage and hour laws; (3) control the manufacture, distribution, and sale of all alcoholic beverages in the state, and license medical marijuana cultivators, processors, and laboratories that test medical marijuana; (4) license individuals in the real estate industry and register foreign real estate property; (5) investigate the cause and origin of fires and explosions, analyze fire-related criminal evidence, train firefighters, and enforce the Ohio Fire Code; (6) supervise the Ohio securities market; (7) oversee the safekeeping and return of unclaimed funds; and (8) provide leadership, direction, and support to the operating divisions. The department operates with no General Revenue Fund moneys. Most programs are funded by fees and charges on the industries that are regulated by the Department. COM is anticipated to have approximately 874 full-time employees during the fiscal year 2020-2021 biennium.

More information regarding the Department of Commerce is available at <http://com.state.oh.us>.

Agency Priorities

- Continue to ensure Ohioans are safe, sound and secure by creating a regulatory environment that is conducive to business and educating the public about ways they can protect what is most important to them, which may include, their families, their homes, and their finances.
- Implement new technology and upgrade the current technology infrastructure to better serve Ohioans, the licensees, and the regulated entities that do business with the Department.
- Move the Medical Marijuana Control Program from the start-up phase to ongoing operations. Continue to focus on our goals of transparency and a patient-centered program.
- Ensure the Department's financial stability by instituting appropriate fee structures and by creating flexibility to allow the Department to more easily adjust fee structures.
- Educate financial advisors on ways to help addicts and their loved ones navigate the financial challenges posed by opiate addiction, partnering with RecoveryOhio to spotlight resources that facilitate earlier detection and treatment.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$238.8 million (or a 7.7% increase from fiscal year 2019). Funding for fiscal year 2021 is \$238.8 million (or a 0.0% decrease from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Respond to the urgent needs of businesses by developing expedited review processes for many services offered by the Department.
- Support Ohio business owners by replacing the platform that supports the issuance of liquor licenses and permits in the Division of Liquor Control with a modern, web-based system that will enable users to seek new and renewal permits online.
- Reunite more Ohioans with their missing money by developing a new system to process unclaimed funds claims from citizens, businesses, and local governments.
- Help Ohio's registered, non-profit cemeteries offset some of the maintenance and training costs associated with operating cemeteries by implementing the Cemetery Grant Program.
- Ensure Ohio's fire service is well-trained and well-equipped to protect Ohioans by continuing the State Fire Marshal's grant and loan programs.
- Increase opportunities for businesses and meet consumer's needs by expanding the number of contract liquor agencies in underserved areas with significant market opportunity.

Program Series 1: Financial Institutions (3275A)

This program series provides oversight of state-chartered banks and savings institutions (3275B), credit unions (3278B), money transmitter organizations (3279B) and various consumer finance organizations (3276B and 3277B) through the Division of Financial Institutions (3281B). These programs ensure the overall safety and soundness of these institutions and individuals, and provide education regarding financial literacy and home mortgage lending practices to reduce the number of consumers falling victim to abusive practices.

Program Series 5: State Fire Marshal (3320A)

This program series provides protection to the citizens of Ohio from the dangers of fire and explosions and protects the environment from releases of petroleum from underground storage tanks. The State Fire Marshal analyzes fire-related criminal evidence (3324B), enforces the Ohio Fire Code (3321B), investigates the cause and origin of fires and explosions (3322B), regulates underground storage tanks (3325B), trains firefighters (3320B), and provides fire safety education to businesses, industry, and the public (3323B). The State Fire Marshal also awards grants and loans to local entities to support their ability to deliver services to their residents (3326B). All of these efforts are coordinated and administered through the Administration Bureau of the State Fire Marshal (3327B and 3328B).

Department of Commerce

Program Series 6: Securities (3330A)

The Securities Program (3330B) seeks to enhance capital formation while protecting investors. The program enforces the Ohio Securities Act, which requires the licensing of those who sell securities or give advice about investing in securities, and provides for the registration or exemption of securities sold. The Securities Investor Education Program (3331B) supports the division's investor outreach and education programs.

Office of the Consumers' Counsel

Role and Overview

The Office of the Ohio Consumers' Counsel (OCC) represents consumers in Ohio's 4.5 million households regarding their electric, natural gas, telephone, and water services from investor-owned utilities. OCC's mission is to advocate for Ohio's residential utility consumers through representation and education in a variety of forums. To fulfill this mission, the OCC represents consumers in cases before state and federal regulatory agencies and courts including the Public Utilities Commission of Ohio (PUCO), the Federal Energy Regulatory Commission (FERC), and the Supreme Court of Ohio, among others. The Consumers' Counsel's federal efforts include involvement with the Regional Transmission Organization (RTO) - PJM Interconnection - where Ohioans' electric bills are impacted by decisions regarding competitive electric markets and by the cost of electricity transmission. OCC's accomplishments in cases (including when working with others) have resulted in significant financial savings for residential consumers and at times for all utility customers, including business customers. The OCC also educates consumers about utility issues that affect them. This education is accomplished through OCC's website, social media, in-person outreach efforts, and publications for organizations and consumers throughout Ohio. The Ohio Attorney General appoints the nine members of the Consumers' Counsel Governing Board. The members serve three-year terms and represent three constituencies: residential consumers, family farmers, and labor. The Board is responsible for appointing the Consumers' Counsel and Deputy Consumers' Counsel who manage the agency. The OCC employs approximately 50 employees.

More information regarding the Office of the Consumers' Counsel is available at <http://OCC.Ohio.gov>.

Agency Priorities

- Serve as the statutory representative for Ohio's residential utility consumers regarding their electric, gas, telephone, and water utility services.
- Advocate for residential consumers in legal proceedings at the state and federal levels for outcomes that promote the affordability of utility services with adequate service quality.
- Participate in legislative processes to assist with facilitating outcomes for affordable and quality utility services for residential consumers in Ohio and assist legislators with constituent issues involving utility services.
- Educate consumers about important utility issues, including options in the competitive market, that will help them make wise choices and save money on their utility bills.
- Recruit and retain a staff with suitable knowledge and expertise for fulfilling the agency's mission, vision, and core values regarding Ohio consumers, policymakers, and other stakeholders.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$5.5 million (or a 0.0% increase from fiscal year 2019). Funding for fiscal year 2021 is \$5.5 million (or a 0.0% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Save Ohioans money on their utility bills through consumer advocacy. In this regard, there are approximately 4.5 million consumer households that could collectively save hundreds of millions of dollars or more.
- Provide legal services on behalf of Ohio's residential utility consumers for litigation or settlement in cases where the affordability and quality of utility services are at issue.
- Participate in legislative processes to provide decision-makers and others with relevant information, analysis, and recommendations regarding legislation affecting Ohio utility consumers, and assist legislators with constituent issues involving utility services.
- Provide education and outreach to empower Ohio consumers in their use of utility services through in-person speeches, publications, online information (including web site and social media), and other efforts.
- Recruit and retain employees with suitable knowledge and expertise in this highly technical field to be effective on behalf of Ohio consumers at lowering or moderating increases in their utility bills.

Controlling Board

Role and Overview

The Controlling Board (CEB) provides legislative oversight of various activities of the executive branch and carries out responsibilities delegated to it by the legislature. For administrative purposes, the Controlling Board is housed within the Office of Budget and Management. It has a staff of two, including the president of the board. The board consists of seven members: the director of Budget and Management, or the director's designee, who serves as president of the board; the chair or vice-chairperson of the Finance and Appropriations Committee of the House of Representatives; the chair or vice-chairperson of the Finance Committee of the Senate; two members of the House appointed by the Speaker of the House, one from the majority party and one from the minority party; and two members of the Senate appointed by the President of the Senate, one from the majority party and one from the minority party. The board usually meets every two weeks to consider and vote on requests for action that are submitted by state agencies. The board has a number of powers that are delegated by the legislature, including making adjustments to the appropriations of state agencies, waiving competitive selection purchasing requirements, releasing capital appropriations, and approving certain loans and grants made by the Development Services Agency. The board does not disburse moneys appropriated to it, but transfers appropriations from the board to other agencies for expenditure. This is the reason the budget tables for the Controlling Board show zero in the "Actual" columns. The record of actual disbursements of appropriations that were made to the board appears in the spending totals of the agencies to which the funds were transferred.

More information regarding the Controlling Board is available at <http://ecb.ohio.gov>.

Agency Priorities

- Provide legislative oversight over certain capital and operating expenditures by state agencies.
- Provide emergency or contingency dollars to assist with unexpected and unbudgeted situations, such as natural disasters, judgments, and wrongful imprisonments.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$7.5 million (or a 0.0% increase from fiscal year 2019). Funding for fiscal year 2021 is \$7.5 million (or a 0.0% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Provide appropriation and spending oversight for state agencies.
- Provide emergency dollars to assist with natural disasters or emergencies.

Budget Fund Group Information

Cosmetology and Barber Board

Role and Overview

The State Cosmetology and Barber Board (COS) is a multi-service agency responsible for the effective licensing, regulation, and enforcement of persons and businesses engaged in performing cosmetology and branches of cosmetology services, barbering, and tanning facilities. The Ohio State Barber Board and Ohio State Board of Cosmetology merged on January 21, 2018. This merger added barber licensing, regulation, and enforcement to the workload of the new agency. COS administers an average of 40 web-based, nationally validated examinations daily to test skills and knowledge in barbering, cosmetology and each branch of cosmetology. In fiscal year 2018, COS administered 5,936 theory-based examinations and 4,616 practical examinations and 759 advanced practice examinations. Additionally, approximately 593 barber examinations were administered in fiscal year 2018. COS issued 5,060 new practicing, advanced, and instructing licenses in cosmetology or branches of cosmetology, 2,017 new Independent Contractor licenses, 1,293 new salon licenses, and 149 new tanning facility licenses. 348 new barber licenses and 154 new barbershop licenses were issued in fiscal year 2018. The agency also issues licenses to barber and cosmetology schools and branches of cosmetology schools. After license issuance, salons, barbershops, schools, tanning facilities, and individuals are regularly inspected to assure each is compliant with Ohio safety and infection control standards. COS approves school curricula and routinely inspects schools for compliance with Ohio laws and rules. Persons, salons, or tanning facilities found to be in violation of Ohio's standards may face disciplinary action. COS currently has 44 staff members and 11 board members.

More information regarding the Cosmetology and Barber Board is available at <http://cos.ohio.gov>.

Agency Priorities

- Maintaining current service levels to meet the minimum mandates of the Board created under Ohio Revised Code Chapters 4709 and 4713.
- Protect the health and safety of the public by validating minimum competency, enforcing established regulations, and educating barbers, cosmetologists, special branches of cosmetology, and tanning services on licensing and sanitation standards..
- Harmonize and consolidate the laws and rules regulating the practices of cosmetology under Ohio Revised Code Chapter 4713 and barbering under Ohio Revised Code Chapter 4709 to improve compliance and administrative efficiency.
- Continue to develop electronic licensure processes and systems to reduce agency costs, improve efficiency, and reduce non-essential processes and procedures to improve compliance and ease of obtaining/renewing licenses.
- Expand nationally recognized theory examinations to include barber testing to consolidate and harmonize agency processes and increase reciprocal licensing recognition from state-to-state.
- Increase communication and education efforts to the licensed constituency on laws and rule changes impacting business or public safety.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$5.4 million (or a 1.4% increase from fiscal year 2019). Funding for fiscal year 2021 is \$5.7 million (or a 5.4% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Regulate and oversee approximately 137,000 individuals and business in the fields of barbering, cosmetology and tanning, which includes the active examination and licensing of individual providers, and inspections of barbershops, salons, tanning facilities, and schools.
- Provide a comprehensive examination for barbering, cosmetology and each branch of cosmetology to ensure a minimum competency and licensure reciprocity with other states.
- Integrate and consolidate technology-based systems to improve agency efficiency and reduce costs, including licensing, testing, continuing education, and inspection systems.
- Develop administer, and maintain up-to-date educational curricula for barbering, cosmetology, and branches of cosmetology educational programs.

Cosmetology and Barber Board

Budget Fund Group Information

- The increase in funding between fiscal year 2018 and fiscal year 2019 is due to the merger of the Ohio State Barber Board and the Ohio State Board of Cosmetology on January 21, 2018

Counselor, Social Worker, and Marriage and Family Therapist Board

Role and Overview

The Counselor and Social Worker, and Marriage and Family Therapist Board (CSW) was created in 1984 and is charged with protecting the residents of Ohio through the licensure of counselors, social workers, and marriage and family therapists. The Board establishes and implements licensure and practice standards for the professional practice of counseling, social work, and marriage and family therapy. The Board consists of 15 members appointed by the Governor, with each practice represented by at least four members. The three professions each have a professional standards committee made up of four professionals and a public member. The Board is responsible for licensing professionals, processing renewals, reviewing and approving continuing education, and investigating complaints. The board is supported by a 13 member staff.

More information regarding the Counselor, Social Worker, and Marriage and Family Therapist Board is available at <http://cswmft.ohio.gov/>.

Agency Priorities

- Serve the residents of Ohio by effectively and efficiently regulating the practice of counseling, social work, and marriage and family therapy in Ohio through the licensing of qualified practitioners, establishment of standards for counselors, social workers, and marriage and family therapists, providing educational programs, and enforcing the laws and rules governing the practice.
- Process new and renewal applications for licensure as counselors, social workers, or marriage and family therapists.
- Protect the public through promulgation of the standards of conduct; investigate all complaints against licensees that indicate a possible violation of these standards of conduct.
- Conduct continuing education audits of licensees and continuing education providers to ensure compliance with the laws and rules of the Board.
- Implement the strategic plan of the Board, which includes a review of supervision requirements and development of a new Board member orientation.
- Improve Board communication with the public, licensees, and other stakeholders to ensure those parties are aware of their rights and responsibilities as well as the Board's role in regulating the practice of Social Work, Counseling, and Marriage and Family Therapy.
- Continue to implement technology such as eLicense and a partner continuing education application, to create efficiencies for licensees and Board staff.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$1.7 million (or a 7.0% increase from fiscal year 2019). Funding for fiscal year 2021 is \$1.9 million (or a 6.6% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Licensing of social workers, counselors, and marriage and family therapists efficiently and effectively.
- Ensure timely and appropriate licensure renewal through the eLicense system.
- Timely review and approval of continuing education programs and providers to ensure licensees have access to quality continuing education.
- Conduct investigations to ensure licensed professionals remain in compliance with the applicable rules and regulations.
- Provide resources using the web site and other tools to ensure the public and licensees are informed about the public protection issue related to Social Work, Counseling, and Marriage and Family Therapy.

State Dental Board

Role and Overview

The Ohio State Dental Board (DEN) is responsible for enforcement of the Dental Practice Act. The Board is entrusted to promote service excellence in dentistry and to protect the public through licensure, education, and enforcement of standards with fairness and integrity. The Board ensures those seeking dental licensure meet minimum education and training criteria to safely practice dentistry and monitors licensees to ensure compliance with the state Dental Practice Act. The Board investigates complaints against licensees who allegedly violate the law and rules governing the profession of dentistry while taking administrative disciplinary action when warranted. The Board consists of 13 members and is supported by 14 employees.

More information regarding the State Dental Board is available at <http://www.dental.ohio.gov/>.

Agency Priorities

- Ensure qualified and competent applicants receive licenses to practice their chosen profession.
- Protect public health, welfare, and safety through education and regulation while promoting the highest standards for the profession.
- Investigate complaints received from the public and the profession in a fair and efficient manner while taking administrative action when warranted.
- Maintain, regulate, and enforce the laws, rules, standards, and guidelines governing the practice of dentistry, dental hygiene, dental assistant radiography, and expanded function dental assisting.
- Ensure overall licensure process efficiency for both new applicants and those renewing existing credentials.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$2.0 million (or a 9.3% increase from fiscal year 2019). Funding for fiscal year 2021 is \$2.1 million (or a 6.2% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Support the continued operation and functionality of the board.
- Issue approximately 36,000 licenses a year.
- Investigate and resolve 600-800 complaints per year.
- Educate all licensees on the laws and rules that govern the profession via the State Dental Board website, speaking engagements, and communication with professional associations.
- Work collaboratively with other state and federal agencies and the legislature to achieve common goals that benefit the profession of dentistry while protecting the public.

Board of Deposit

Role and Overview

The State of Ohio Board of Deposit (BDP) designates the depositories of the public money of the state and implements the Uniform Depository Act as it applies to the state. The Board of Deposit is made up of three elected officials: the State Treasurer, the State Auditor, and the Attorney General, or their designees. The Treasurer of State serves as the board's chairperson, while the Cashier of the State Treasury serves as the board's secretary. The board's funding is used to pay for expenses related to the operation of the state's regular bank account, two auxiliary accounts (the Consolidated Check Clearing Account and the Treasurer's Custodial Contingency Account), and certain other state accounts.

More information regarding the Board of Deposit is available at <http://tos.ohio.gov/boardofdeposit>.

Agency Priorities

- Designate the depositories of public moneys of the state.
- Implement the Uniform Depository Act.
- Pay banking fees and charges for the state's regular bank account and certain other state accounts.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$1.9 million (or a 0.0% increase from fiscal year 2019). Funding for fiscal year 2021 is \$1.9 million (or a 0.0% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Pay banking and trust service fees for the state's bank accounts, including all the state's electronic tax payments, electronic receipt of federal revenue received by the state, and trust service fees for the state's regular portfolio, as well as the Deferred Prizes Trust Fund for the Ohio Lottery.
- Award active moneys to and among eligible state depositories.

Budget Fund Group Information

- Appropriations in ALI 974601 are set slightly higher than historical actuals due to relatively high year-to-year variance in actual costs. Revenues in the Board of Deposit Expense Fund are limited to cash transfers from the Investment Earnings Redistribution Fund only in the amounts necessary to pay for actual expenses of the Board of Deposit as certified by the Treasurer of State.

Development Services Agency

Role and Overview

The Development Services Agency (DEV), formerly the Ohio Department of Development, was established pursuant to Am. Sub. S.B. 314, effective September 28, 2012, to provide oversight and coordination of economic development in Ohio. The statutory change established the agency's goals of serving customers more efficiently, improving access to capital, promoting the State of Ohio, and providing support to the mission of JobsOhio. JobsOhio is the private, nonprofit organization designed to drive job creation and new capital investment in Ohio through business attraction, retention, and expansion efforts in conjunction with regional partners around the state. The Development Services Agency works with JobsOhio to evaluate the return on investment of publicly funded incentives. The Development Services Agency provides support to entrepreneurs, small businesses, and minority-owned business in Ohio; supports communities in growing their economies, with special attention to the needs of Ohio's Appalachian region; and supports tourism industries through TourismOhio by promoting Ohio as a destination for visitors or people looking for quality of life and a place to establish a business.

More information regarding the Development Services Agency is available at <https://development.ohio.gov/>.

Agency Priorities

- Grow jobs by providing support to JobsOhio, Ohio Third Frontier, TourismOhio, and Ohio businesses and communities.
- Reduce bureaucracy through ongoing evaluation of processes and reporting for greater accountability.
- Review all paper processes and convert as many as possible to digital.
- Increase customer service to businesses and communities by improving access to economic development programs through outreach and clarity about our programs.
- Increase customer service to the citizens of Ohio through transparency in processing, awarding, and monitoring public incentives.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$144.5 million (or a 5.8% increase from fiscal year 2019). Funding for fiscal year 2021 is \$141.7 million (or a 2.0% decrease from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$1.2 billion (or a 1.0% increase from fiscal year 2019). Funding for fiscal year 2021 is \$1.2 billion (or a 0.2% decrease from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Support JobsOhio in its efforts to recruit, retain, and encourage expansion of Ohio-based businesses for job creation and capital investment in the state through return on investment evaluation to get the greatest value for publicly funded incentives.
- Support regional industry sector partnerships to coordinate regional job training efforts and workforce solutions.
- Evaluate and improve processes to remove unnecessary steps and reduce paperwork and bureaucracy while increasing customer service and holding companies accountable for their commitments.
- Foster and support entrepreneurship with technical assistance and access to capital through the regional network of Small Business Development Centers, Minority Business Assistance Centers, Procurement and Export Assistance Centers, and Manufacturing and Business Innovation Assistance.
- Identify minority-owned and women-owned businesses and assist them with certification and in securing state contracts so all Ohioans have opportunities to share in our state's growing economic strength. Continue to help the state meet or exceed the 15 percent Minority Business Enterprise requirement mandate.
- Assist Ohio communities in building infrastructure as a foundation for economic development as well as provide assistance in mitigating abandoned industrial and residential properties within these communities.

Development Services Agency

- Provide home heating assistance and energy efficiency programs to income-eligible Ohioans and coordinate benefits for low-income customers by centralizing the process.
- Assist Ohio communities by providing supportive housing for critical populations of substance use disorders and incentivize embedded workforce pathways through local and private partnerships.
- Assist innovative technology companies in identifying available capital and leveraging state investment in research and development, technology innovation, and commercialization.
- Promote technology diversity and inclusion within high schools by funding an internship program that will expose high school students to the technology profession.
- Promote investment in opportunity zones by providing tax credits based on investments.
- Promote Ohio's travel experiences through TourismOhio to position Ohio as a premiere travel destination, which drives economic prosperity in tourism-related industries and provides a high quality of life to the people of the state.

Development Services Agency

Budget Fund Group Information

- Increases in Dedicated Purposes Fund (DPF) and Federal Fund (FED) expenditures from fiscal year 2018 to fiscal year 2019 are due to increases in grants and loans to businesses and for community assistance and development.

Development Services Agency

Program Series 1: Business Services (4000A)

The Business Services Division (4000A) administers public incentives to companies that have committed to create jobs and make capital investments in Ohio. The Office of Strategic Business Investments (4011B) oversees the three main incentive types that the agency provides to large employers: tax credits, loans, and grants. The Office of Small Business and Entrepreneurship (4012B) supports a network of Small Business Development Centers and Procurement Technical Assistance Centers, and provides businesses with export assistance. The Office of Technology Investments (4030B) is the home of Ohio Third Frontier, which provides funding for technology innovation companies at every stage of their development and encourages a robust innovation economy in Ohio. This Division has a Quality Assurance Team, which drives annual reporting, oversight, and compliance monitoring for business incentives. TourismOhio (4070B) promotes Ohio's travel experiences to position it as a premiere travel destination, which drives economic prosperity in tourism-related industries.

Development Services Agency

Program Series 2: COMMUNITY SERVICES (4020A)

The Community Services Division (4020A) provides support to local communities and low-income Ohioans through three offices. The Office of Community Development (4050B) administers federal and state funds to build infrastructure, the Governor's Office of Appalachia works to improve the quality of life for Ohioans in the 32-county region through infrastructure improvements and economic and community development initiatives, which can encourage economic development particularly in low- and moderate-income communities and underserved areas. The Office of Community Assistance (4040B) provides federal funding to Community Action Agencies across Ohio to directly assist low-income Ohioans and provides energy efficiency programs.

Program Series 3: Minority Business (4010A)

This Minority Business Development Division (4010A) identifies minority-owned businesses in Ohio, helps them become certified and provides technical support and access to capital and bonding so they can grow their capacity. The Minority Business Development Program (4090B), in concert with the Department of Administrative Services, works to match certified minority businesses with state agencies, boards, and commissions with the goal of giving minority business enterprises access to state contracts as outlined in Ohio law.

DEV ALI Analysis

195415, Business Development Services: The appropriation decrease in this line is due to the shift of personal services spending from this line to other dedicated purpose fund lines.

195455, Appalachia Assistance: The appropriation increase in this line supports \$4 million in funding for the GRIT Project and full funding of the Governor's Office of Appalachia.

195555, Short-Term Certificates/Tech Credential Grants: This new line item supports students who are enrolled in a post-secondary education or training provider program that may be completed in less than one year and for which college credit, a certificate, or an industry-recognized credential is awarded.

195659, Low Income Energy Assistance (USE): The appropriation decrease in this line is due to right-sizing the line item based on historic experience and anticipated demand.

195403, Appalachian Workforce Assistance: The appropriation decrease in this line reflects the use of GRF for this program as opposed to Dedicated Purpose Funds (DPF).

DEV ALI Restructuring

DEV is separating the match funding associated with the Manufacturing Extension Partnership (MEP) and the Procurement Technical Assistance Center (PTAC) programs from the Technology Programs and Grants line 195453. Beginning in fiscal year 2020, funding previously appropriated in this line item 195453 – Technology Programs for the MEP and PTAC programs is appropriated in line item 195499 - BSD Federal Program Match.

To illustrate changes in funding levels due to restructuring and separation, the estimated fiscal year 2019 spending table is converted from the previous line-item structure to the current line-item structure.

Department of Developmental Disabilities

Role and Overview

The Department of Developmental Disabilities (DODD) seeks to improve the quality of life for Ohio's citizens with developmental disabilities and their families by ensuring the availability of programs, services, and support, and by promoting their health and welfare. The director of the department is appointed by the Governor and oversees approximately 1,600 full-time and 700 part-time permanent employees. The department provides funding for waiver programs that enable people to live and receive services in community residential settings. The department provides residential support services, 24-hour care, behavioral supports, therapy, and medical services for individuals living in state developmental centers. The department provides funding for intermediate care facilities, which provide comprehensive and individualized health care and habilitation services to individuals to promote their functional status and independence in a residential setting. The department distributes funds to Ohio's county boards of developmental disabilities to assist the boards with the cost of providing supports for families caring for an individual with a developmental disability at home.

More information regarding the Department of Developmental Disabilities is available at <http://dodd.ohio.gov>.

Agency Priorities

- Develop fair and logical payment systems that allow for seamless service delivery.
- Achieve quality outcomes through a combination of people and processes.
- Design service delivery models, in alliance with community supports, which respond to choices made by the people served.
- Continue to work with system stakeholders to refine and improve the service delivery system, including expansion of the use of technological supports.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$717.4 million (or a 5.5% increase from fiscal year 2019). Funding for fiscal year 2021 is \$719.1 million (or a 0.2% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$3.3 billion (or a 11.7% increase from fiscal year 2019). Funding for fiscal year 2021 is \$3.4 billion (or a 5.4% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Increase the number of total waivers over the biennium while ensuring access to quality care.
- Provide funding for residential support services, 24-hour care, behavioral supports, crisis intervention and stabilization, therapy, and medical services for individuals living in state developmental centers.
- Provide funding for the Intermediate Care Facilities for individuals with Intellectual Disabilities (ICF/IID) program, serving approximately 4,900 individuals.
- Expand Ohio's Early Intervention program to ensure access. Expand program eligibility to include lead exposure and neonatal abstinence syndrome.
- Partner with Ohio's counties and the boards of developmental disabilities to increase wages for direct service providers.
- Provide funding to expand employment opportunities for Ohioans with developmental disabilities.
- Expand the use of technology, where possible, to increase independence and improve quality of life.

Department of Developmental Disabilities

Program Series 1: Community Services (4300A)

This program series contains programs that are designed to provide community-based support that will enable individuals with developmental disabilities to reside in the community. The Community Medicaid Services Program (4300B) provides home and community-based services and support to individuals with developmental disabilities that are cost effective; allow individuals to live in community-based settings; increase an individual's skills, competencies, and self-reliance; ensure an individual's health and safety; and maximize an individual's overall quality of life to the greatest extent possible. The ICF/IID Program (4310B) is a Medicaid benefit that provides comprehensive and individualized health care and rehabilitation services to individuals to promote their functional status and independence in a privately owned or county board operated residential setting. The Community Subsidies Program (4320B) contains the Family Support Services state subsidy provided by DODD to county boards of developmental disabilities. This subsidy assists the boards with the cost of providing supports for families caring for an individual with DD at home. Within the Grants Program (4370B), DODD administers state and federal grant programs that support individuals with developmental disabilities and the system within which they receive services.

Department of Developmental Disabilities

Program Series 3: Program Management (4430A)

This program series contains the non-program specific activities supported by DODD's central office. The Program Support Program (4430B) provides the department with the necessary support to successfully carry out its mission. The intended outcome is to perform this function through an economical use of resources, financial controls, process improvement, and compliance with state and federal laws. The Provider Support Program (4435B) assures the health and safety of individuals with developmental disabilities by supporting those who provide services to these individuals.

DODD ALI Analysis

653407 – Medicaid Services: County board subsidy and case management support previously disbursed to the county boards of developmental disability from line items 322501 – County Board Subsidies and 322507 – County Board Case Management has been combined into line item 653407 – Medicaid Services. This is net neutral to the agency's GRF appropriation. Additionally, 653407 – Medicaid Services is increasing in both fiscal years due to baseline service cost growth and a direct service provider rate increase. The rate increase will be funded by the GRF and non-GRF resources and will be matched by the counties beginning in fiscal year 2021 (653624 – fund 5Z10).

653606 – ICF/IID and Waiver Match: Increased appropriations in both fiscal year 2020 and 2021 are primarily attributable to a direct service provider rate increase. The rate increase will be funded by the GRF and non-GRF resources and will be matched by the counties beginning in fiscal year 2021.

653624 – County Board Waiver Match: Increased appropriations in fiscal year 2021 are primarily attributable to a direct service provider rate increase. This rate increase will match the state's increase that begins in fiscal year 2020.

322421 – Part C Early Intervention: Increased appropriations in both fiscal years will be used to support a general expansion of the program to ensure access to more Ohioans. Additionally, the program will expand eligibility to include lead exposure and neonatal abstinence syndrome.

Department of Developmental Disabilities

DODD ALI Restructuring

DODD, in cooperation with the county boards of developmental disabilities, is consolidating GRF Medicaid service-related line items. Beginning in fiscal year 2020, funding previously appropriated in line item 322501 – County Board Subsidies, which provided funding to county boards to assist with the cost of services and administration and funding in line item 322507 – County Board Case Management, which provided funding to county boards for case management services, is appropriated in line item 653407 – Medicaid services. This is net neutral to DODD's GRF appropriation.

To illustrate changes in funding levels due to restructuring and consolidating, the estimated fiscal year 2019 spending table is converted from the previous line-item structure to the current line-item structure.

Department of Education

Role and Overview

The Department of Education's (EDU) goal is for every student to be prepared for success in their choice of pursuing a career or attending college without the need for remediation. The Department seeks to ensure higher achievement for all students, regardless of race, ethnicity, income level, language background, disability status, or gender. The Department is building upon education reforms already underway by making changes throughout the education system, to prepare students before they enter kindergarten, and to create a system that promotes student success after they leave high school. The Department oversees an education system comprised of 612 public school districts, 49 joint vocational school districts, 52 educational service centers, and 327 community schools as of June 2018. Each public school district is governed by a locally elected school board that exercises taxing authority subject to voter approval. The Department also oversees the chartering of nonpublic schools. The Department is governed by a 19-member State Board of Education. Eleven of the board members are elected by the citizens, one from each of 11 districts composed of three contiguous Ohio Senate districts. Eight board members are appointed by the Governor. Day-to-day administration of the Department is the responsibility of the Superintendent of Public Instruction, who is hired by the State Board of Education. The Department has approximately 585 full-time employees.

More information regarding the Department of Education is available at <http://www.education.ohio.gov>.

Agency Priorities

- Provide the basic education funding necessary to support student success and achievement.
- Offer early learning programs to promote school readiness.
- Promote and support quality school choice options for all students.
- Implement academic standards, which are the cornerstone of a strong educational system, and set the expectation for what all students should know and be able to do.
- Align student assessments with the academic content standards to determine that students are meeting expectations.
- Provide focused, high quality professional development for educators.
- Hold educators and students accountable for performance and provide data that are used to inform educational decisions.
- Initiate school improvement programs that improve the school learning environment and engage parents in the learning process and support student intervention programs that offer those students who are performing below expectations a chance to succeed.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$8.4 billion (or a 3.9% increase from fiscal year 2019). Funding for fiscal year 2021 is \$8.4 billion (or a 0.1% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$11.7 billion (or a 3.2% increase from fiscal year 2019). Funding for fiscal year 2021 is \$11.8 billion (or a 0.7% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Provide foundation funding for traditional, joint vocational, and community schools. Maintain funding for chartered nonpublic schools to support the purchase of secular services and materials as well as to reimburse nonpublic schools for mandated administrative and clerical costs.
- Provide new, targeted funding to traditional, joint vocational, and community schools to support student wellness and success. Supporting services including mental health counseling, mentoring, wraparound supports, and after school programs.
- Provide funding for early childhood education and opportunities for economically disadvantaged students to enroll in high quality preschools. Fund early literacy activities to support schools and ensure teachers and students are prepared for the Third Grade Reading Guarantee.

Department of Education

- Support school improvement activities focusing on the state's lowest-achieving schools. Support includes assistance with improvement planning, creation of an improvement culture in schools, support for building principal and teacher development, and resources to promote effective practices.
- Continue funding adult education programs to help Ohioans earn a high school diploma, a high school equivalency program, and industry recognized credentials.
- Increase funding for educator professional development to allow for additional educators to teach computer science and College Credit Plus courses. Provide funding to train educators and school personnel in the model and tenants of prevention.
- Provide additional funding for quality community schools and continue facilities funding for community schools and STEM schools. Continue funding for the EdChoice Expansion Program, allowing economically disadvantaged pupils in kindergarten through seventh grade access to additional school choice options.
- Fund professional development and outreach efforts related to the implementation of Ohio's rigorous academic content standards and model curricula. Continue Ohio's assessment system and maintain the state's accountability system and measure student success through local report cards. Continue funding for the Education Management Information System to support development, internal and external processing, and data quality.
- Provide assistance to districts in fiscal distress, including funding advances to school districts in fiscal emergency and grants to school districts that suffer unforeseen catastrophic events. Support planning, coordination, funding simulation, and analysis for all districts.
- Provide oversight necessary to issue educator permits and licenses annually, support teacher and principal evaluations, manage educator licensure investigation and revocation process, and support the Resident Educator Summative Assessment.

Department of Education

Program Series 1: Curricula, Assessment, and Accountability (6000A)

This program series includes Curriculum and Assessments (6000B) and Education Accountability (6085B) programs. This program series is the cornerstone of a strong educational system and promotes higher achievement for all students by setting high expectations through rigorous academic content standards, assessing students on those standards, and measuring and reporting the results. The assessment system serves to determine whether or not students meet the expectations embodied in the standards and if high school students are ready to enter college or the workforce upon graduation. Ohio's accountability system measures and reports the results of the assessments to students, parents, educators, administrators and policymakers through the Ohio School Report Card. This program series also includes the Education Management Information System (6100B), which is the Department of Education's primary system for collecting student, staff, course, program, and financial data from Ohio's public schools.

Program Series 2: Educator Quality (6120A)

This program series includes programs related to Educator Preparation (6120B), training, recruitment, retention, and evaluation. It prepares caring, competent, and qualified educators for Ohio's schools. The State Board of Education is responsible for establishing standards for the preparation of beginning teachers, licensing the graduates of approved programs, and administering the teacher disciplinary process.

Program Series 3: Academic Improvement (6220A)

This program series incorporates federal school improvement and student intervention programs. It provides assistance to districts, buildings, and students most in need of Academic Improvement (6220B). These programs and services include strategies to target districts and buildings identified as needing technical assistance for academic improvement, redesigning high schools, improving the school environment for learning, and engaging parents in the learning process.

Program Series 4: School Choice (6300A)

This program series includes community school and school choice administration funding, funding for community school facilities, the Cleveland Scholarship and Tutoring Program and the Educational Choice Scholarship Expansion Program. Other scholarship programs, including the Autism Scholarship Program, the Jon Peterson Special Needs Scholarship Program, and the ongoing scholarships for the Educational Choice Scholarship Program, are included as part of foundation funding within the General State Support Program Series. The department provides oversight, monitoring and technical assistance for these programs. The purpose of the School Choice Program (6310B) is to meet the diverse educational needs of Ohio students by promoting and supporting educational options and choices.

State of Ohio

Department of Education

Program Series 5: General State Support (6325A)

This program series incorporates State Support (6325B) for schools. This is the major source of funding for the general operation of school districts and community schools and includes all of the additional support for special education, career-technical education, English learners, gifted, economically disadvantaged, and K-3 students. It also includes new funding for student wellness and success to support services such as mental health counseling, mentoring, and wraparound supports. This program also provides funding for chartered nonpublic schools. Nonpublic schools receive administrative cost reimbursements and support for auxiliary services such as the purchase of secular textbooks, health and diagnostic services, guidance, and social work counseling.

Program Series 7: Special Education (6500A)

This program series incorporates various funding streams and programs for special needs students. Special Education Funding (6500B) provides special education and related services, aides, and supports in the regular classroom when appropriate, and builds the capacity of school districts to meet the academic and behavioral needs of students with disabilities and other at-risk learners.

Program Series 8: Early Childhood Education (6570A)

This program series includes support for Early Learning Programs (6570B), Child Care Licensing, and Preschool Special Education. Appropriate and effective early learning experiences are increasingly important as a prerequisite for school readiness, particularly for at-risk children. This program provides the basic element of quality pre-kindergarten programs by aligning early learning standards to an assessment system, qualified and competent teachers, program standards, job-embedded educator training, parental support, and linkages to health and developmental services, and is an essential component to improving student achievement.

Program Series 9: Career-Technical Education (6600A)

This program series includes funding for Career-Technical Education (6640B) and college-based programs in school districts, joint vocational school districts, community schools, and institutions. Ohio's career-technical education system offers sequences of career-technical courses that support the academic and technical knowledge and skills needed to prepare students for further education and careers in current and emerging employment sectors. Career-technical education also includes programs and services designed to help Ohio's students develop career plans, identify initial educational and career goals, and develop the skills necessary to make informed career and educational choices throughout life. Additional funding is provided to support a statewide effort to improve the effectiveness of career counseling for students.

Program Series 10: Students At Risk (6700A)

This program series helps districts and schools improve the teaching and learning of children who are failing, or most At Risk (6700B) of failing, to meet state academic standards and to be successful in their education. The largest sources of funds include the economically disadvantaged component of the school foundation program and the federal Title I program for low-income students. Other federal grants included are for migrant and homeless families and students in local institutions for neglected and delinquent children.

Program Series 12: Adult Education (6800A)

This program series provides assistance to close the diploma gap through Adult Education (6800B). More than 1 million adults in Ohio do not have high school diplomas. The Department works to serve this population through three distinct programs, each designed to meet the different goals adult learners have in continuing their education. The three programs annually serve more than 7,000 adults who can advance their education and secure better jobs with more opportunities to provide for themselves and their families.

EDU ALI Analysis

200478, Industry-Recognized Credentials High School Students: The new appropriations will be used to establish a financial assistance program to support students who are enrolled in a post-secondary education or training provider program that may be completed in less than one year and for which college credit, a certificate, or an industry-recognized credential is awarded.

200550, Foundation Funding, and 200612 Foundation Funding: The additional appropriation of \$250 million in fiscal year 2020 and \$300 million in fiscal year 2021 will support student wellness and success in schools. Schools will receive additional funding for mental health counseling, wraparound supports, mentoring, and after school programs. Schools will be encouraged to partner with local organizations including Alcohol, Drug, and Mental Health Boards; Educational Service Centers; County Boards of Developmental Disabilities; community-based mental health treatment providers; health departments; local Department of Job and Family Services; and non-profits with experience serving children. By addressing barriers to success, all students can have the opportunity for a brighter future. Funding will be distributed to schools on a per pupil basis determined by census poverty data. The per pupil dollar amounts will range on a sliding scale from \$20 to \$250 in fiscal year 2020 and \$25 to \$300 in fiscal year 2021 with no traditional school district, joint vocational school district, or community school receiving less than \$25,000 in fiscal year 2020 and \$30,000 in fiscal year 2021.

200573, EdChoice Expansion: The appropriation increase in this line item will be used to provide additional income-based scholarships for students to attend private school as the program expands to sixth and seventh grades.

200631, Quality Community Schools Support: The new appropriations in fiscal years 2020 and 2021 will be used to provide additional per pupil funding to community schools designated as a community school of quality.

200617, Federal School Lunch: The appropriation increase will support increased demand from local educating agencies to participate in the Federal School Lunch Program.

200680, Individuals with Disabilities Education Act: The appropriation increase is due to an expected increase in federal funding to allow school districts to meet demands for special education services.

Ohio Elections Commission

Role and Overview

The Ohio Elections Commission (ELC) oversees political party spending, campaign finance laws, and corporate political activity to enforce provisions of Chapters 3517 and 3599 of the Ohio Revised Code. The Commission consists of six members appointed by the Governor, three Republicans and three Democrats, and one Independent member appointed by the six partisan members. The Commission investigates campaign finance-related complaints filed by individuals, local boards of election, or the Secretary of State. The Commission holds regular meetings to hear complaints and to determine whether a violation has occurred. If a violation has occurred, the ELC can impose fines, refer complaints to the appropriate county prosecutor, or issue a letter of reprimand. The Commission also issues advisory opinions concerning the areas of Ohio Elections Laws within the Commission's jurisdiction. The day-to-day operations of the Commission are supported by a staff of three.

More information regarding the Ohio Elections Commission is available at <http://elc.ohio.gov>.

Agency Priorities

- Enforce Ohio's campaign finance laws.
- Respond to inquiries concerning all of Ohio's elections laws, even those not within the Commission specific jurisdiction, as a means of supporting the Commission's customer service operational objectives.
- Work with the 88 county boards of elections, the Secretary of State, and the citizens of Ohio on campaign finance laws and campaign finance issues.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$435.2 thousand (or a 0.0% increase from fiscal year 2019). Funding for fiscal year 2021 is \$435.2 thousand (or a 0.0% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$634.7 thousand (or a 0.2% increase from fiscal year 2019). Funding for fiscal year 2021 is \$634.7 thousand (or a 0.0% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Enforcement of Ohio's campaign finance and fair campaign practices laws.
- Issue advisory opinions concerning Ohio's campaign finance and fair campaign practice laws as requested.
- Consult with the residents of Ohio and any other person who contacts the office of the Commission concerning Ohio's campaign finance laws, the voting process, and other questions concerning Ohio's elections.
- Advise the Commission members on all legal matters on a day-to-day basis.

State Board of Embalmers and Funeral Directors

Role and Overview

The State of Ohio Board of Embalmers and Funeral Directors protects the consumer through regulation of Ohio's "death care" or funeral service industry. The board's main duties include licensing, regulation, enforcement, and outreach to the consumer and licensee. The board qualifies competent embalmers, funeral directors, crematory operators, funeral homes, embalming facilities, and crematory facilities in compliance with Chapter 4717. of the Revised Code, Section 4717. of the Ohio Administrative Code, local and state codes, OSHA, and EPA requirements. The board consists of seven members, two public members and five members who are licensees. Currently, the board staff consists of six full-time employees. The board collaborates with the Ohio Cemetery Dispute Resolution Commission through the Ohio Department of Commerce, Ohio Department of Health, Vital Statistics, to support the Electronic Death Registration System, the Ohio Department of Insurance, and professional funeral associations both locally and nationally. The board experienced a great deal of success during the biennium. A new website was created to effectively communicate and educate the public and licensees with events and regulations impacting practice. The board successfully implemented the Preneed Recovery Fund, a consumer protection fund designed to reimburse a consumer who suffers financial loss as a result of licensee misconduct or misappropriation. To administer the Preneed Recovery Fund, the board created the Automated Reporting and Preneed Payment System (ARPPS), the web-based system that collects payments into the fund and records all preneed funeral contracts sold within the state. The licensees experienced increased efficiency with the disciplinary "cite and settle" process, email communication, and the implementation of eLicense. Nationally, the board was recognized nationally as being a leader in consumer protection through its regulations and programming.

More information regarding the State Board of Embalmers and Funeral Directors is available at <http://www.funeral.ohio.gov>.

Agency Priorities

- Protect the consumer.
- Adequately regulate the profession and guarantee quality standards for licensed embalmers, funeral directors, crematory operators, reliable crematory facilities, embalming facilities, and funeral homes.
- Conduct regular inspections of all licensed facilities to ensure compliance with the Ohio Revised Code, Ohio Administrative Code, and local codes and ordinances.
- Provide monitoring and oversight of the increasing number of preneed funeral contracts sold each year through the Preneed Recovery Fund and the Automated Reporting and Preneed Payment System.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$949.7 thousand (or a 26.8% decrease from fiscal year 2019). Funding for fiscal year 2021 is \$1.0 million (or a 8.8% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Regulate and license funeral directors, embalmers, crematory operators, funeral homes, crematory facilities, and embalming facilities. Ensure compliance with regulations through annual inspections of crematory facilities, embalming facilities, and funeral homes.
- Provide for disciplinary activities including investigations and administrative hearings.
- Administer and monitor the Preneed Recovery Fund through the Automated Reporting and Preneed Payment System. Investigate claims for reimbursement, award reimbursement to successful claimants, and pursue subrogation claims where appropriate.

State Board of Embalmers and Funeral Directors

Budget Fund Group Information

- The increase in funding in fiscal year 2019 is due to the hire of two new inspectors to meet the Board's responsibilities related to preneed funeral contracts and the costs associated with an ongoing lawsuit.

Employee Benefits Funds

Role and Overview

Employee Benefits Funds (PAY) is a budget presentation convention that deals with eight separate funds that account for various transactions related to state employee benefits. The eight PAY funds are appropriated to and administered by the Department of Administrative Services (DAS). The funds are shown here rather than in the DAS budget to highlight the role they play in the centralized payment and accounting of these benefits. The funds receive revenue from agency payroll accounts or from participating employees when payrolls process. The amounts received are based on payroll charges and payroll deductions. Disbursements are made from the health and life insurance funds to service providers, insurance providers, third-party administrators, and consultants such as auditors and actuaries. Disbursements from the leave funds and health and dependent care spending accounts are made primarily to participating employees. Disbursements from the Disability Leave Fund include benefits to recipients and payments to actuarial and medical consultants who review disability claims. Disbursements from the Payroll Deduction Fund include payments for retirement contributions, religious exemptions, and rewrites, which include garnishments and other miscellaneous obligations paid to various jurisdictions.

More information regarding the Employee Benefits Funds is available at <http://das.ohio.gov/>.

Agency Priorities

- Responsibly administer all employee benefits funds, including funds for health care, disability, accrued leave, life insurance, dependent care, parental leave, health care spending accounts, and payroll withholding.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$1.9 billion (or a 4.2% increase from fiscal year 2019). Funding for fiscal year 2021 is \$2.0 billion (or a 3.2% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Administer health insurance benefits by ensuring revenue collection; paying medical claims, prescriptions, administrative costs, and mental health services for health plan enrollees; and paying dental and vision insurance for employees not covered by the OCSEA benefits trust.
- Provide life insurance coverage for exempt employees by ensuring adequate revenue collection via charges to agencies and employees, making payments to vendors on a timely basis, and paying the premium for the state's group life insurance benefit program.
- Provide for accrued, disability, and parental leave benefits payments by ensuring adequate revenue collection via charges to agencies, ensuring timely payments to vendors and employees, and making payments for accrued leave cash-outs and disability and parental leave benefits.
- Provide for pre-tax deductions and repayment for health and dependent care expenses for participating employees by ensuring proper revenue collection and timely payments to vendors and employees.
- Provide a centralized method for collecting and disbursing agency and employee payroll deductions by administering the pass-through fund and ensuring revenue collection and timely payments to vendors, employees, and retirement programs.

Employee Benefits Funds

Program Series 1: Health Insurance Benefits (8600A)

The Health Insurance Benefits Program Series consists of eight programs that provide medical, mental health, prescription, dental, and vision coverage for current and, for a period of time, former state employees. The Medical Mutual - Self-Insured PPO Program (8600B), Aetna - Self-Insured PPO Program (8601B) and Anthem - Self-Insured PPO Program (8602B) pay expenses under the state's Preferred Provider Organization (PPO) plans. The state contracts separately for mental health and prescription drug coverage across all plans and pays these costs through the Mental Health/Substance Abuse Program (8640B) and the Prescription Benefits Program (8660B). The Dental Insurance Program (8620B) and the Vision Insurance Program (8630B) pay dental and vision claim costs for exempt employees. The Population Health Management Program (8645B) pays the costs of wellness benefits. Claims costs for all programs in this series are paid from the State Employee Health Benefit Fund.

			Estimated	Recommended			
Fund	ALI	ALI Name	FY 2019	FY 2020	% Change	FY 2021	% Change

Program Series 3: Paid Leave Funds/Programs (8680A)

The Paid Leave Funds/Programs Program Series consists of three programs that provide for accrued, disability, and parental leave payments for eligible State of Ohio employees. The Accrued Leave Payments Program (8680B) provides payment of accrued vacation, sick, and personal leave to employees leaving state employment, as well as to existing employees for the annual sick, vacation, and personal leave conversion opportunity. The Disability Leave Payments Program (8690B) pays 67 percent of the base rate of pay for up to one year to employees who are off work on disability. The Parental Leave Payments Program (8700B) pays 70 percent of the regular rate of pay for employees off work due to the birth or adoption of a child.

State Employment Relations Board

Role and Overview

The State Employment Relations Board (SERB) administers Chapter 4117 of the Ohio Revised Code, which governs collective bargaining relationships between all Ohio public employers and employees including the state, counties, cities, schools, universities, and political subdivisions. The SERB acts as a neutral, quasi-judicial body in conducting representation elections, certifying exclusive bargaining representatives, monitoring and enforcing statutory dispute resolution procedures, appointing mediators to resolve labor/management disputes, resolving unfair labor practice charges, determining unauthorized strike claims, and providing collective bargaining data to assist parties in resolving negotiation issues. In June 2009, the State Personnel Board of Review (SPBR) was consolidated within the organizational structure of SERB. Although staff support, office space, and administrative functions were consolidated under SERB to achieve administrative cost savings, SPBR's three-member Board continues to exist as a separate entity that administers Chapters 124 and 119 of the Ohio Revised Code. The SPBR hears appeals from exempt, civil service employees relative to specific actions taken by a public employer and monitors and assists Ohio's approximately 225 municipal civil service commissions and personnel boards. The three-member Boards of both SERB and SPBR are appointed by the Governor for staggered six-year terms. Presently, 23 full-time permanent employees support both boards.

More information regarding the State Employment Relations Board is available at <http://serb.ohio.gov>.

Agency Priorities

- Promote orderly and constructive relationships between public employers and employees engaged in the collective bargaining process.
- Emphasize mediation processes and training in order to foster collaborative employer-employee relationships, thereby mitigating potential work stoppages and other friction.
- Promote efficiency and public information availability by continuing comprehensive information technology initiatives and building on the current, high level of accessibility that includes access to clearinghouse data and distribution of the Annual Report and the Report on the Cost of Health Insurance in Ohio's Public Sector.
- Administer and enforce the provisions governing collective bargaining in public employment.
- Oversee and assure the integrity and efficiency of union representation elections.
- Ensure that the citizens of Ohio are provided with an efficient and high quality civil service system as contemplated by Article XV, Section 10 of the Ohio Constitution.
- Provide all parties appearing before SPBR with a fair, comprehensive, and impartial review of their respective claims consistent with the provisions of Chapter 124 of the Ohio Revised Code.
- Monitor and assist Ohio's approximately 225 municipal civil service commissions and personnel boards to ensure the uniform application of Ohio's civil service laws at the municipal level, consistent with the provisions of Chapter 119 of the Ohio Revised Code.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$4.0 million (or a 1.5% increase from fiscal year 2019). Funding for fiscal year 2021 is \$4.1 million (or a 3.5% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$4.2 million (or a 3.8% increase from fiscal year 2019). Funding for fiscal year 2021 is \$4.4 million (or a 3.3% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Present cases to SERB board members for action within 150 days of filing with the Investigations Section. In fiscal year 2018, 247 Unfair Labor Practices were filed representing both employer violations and employee/employee organization violations.
- Place representation cases on the SERB Board meeting agenda within 180 days of filing. In fiscal year 2018, SERB conducted 55 Representation Elections with a voter turnout of 1,703.

State Employment Relations Board

- Fund SERB mediation efforts to intervene in contract negotiations to avert costly, lengthy negotiations and strikes as required by statute. In fiscal year 2018, 1,305 Notices to Negotiate were filed, resulting in appointments of SERB mediators in 911 cases, 226 fact finder appointments, and 41 conciliator appointments.
- Facilitate operational functions to allow SPBR to timely process the approximately 190 appeals filed each year under the provisions of Chapter 124 of the Ohio Revised Code.
- Facilitate operational functions to allow SPBR to assist the more than 225 municipal civil service commissions and personnel boards to ensure the uniform application of Ohio's civil service laws at the municipal level. The estimated number of constituents served is 77,115.
- Continue to provide training programs and seminars for activities related to both SERB and SPBR's statutory functions. The number of constituents served annually is approximately 750 attendees.
- Annually process contract data summary sheets for information on employment terms within collective bargaining agreements. The estimated number of contracts filed annually is 3,416.

Program Series 1: Collective Bargaining Act Administration (127A0)

This program series administers the Ohio Public Employees' Collective Bargaining Act in Chapter 4117 of the Ohio Revised Code. Through the Labor Disputes Program (127B1) and the Research and Training Program (127B2), SERB and SPBR perform their functions of investigation, adjudication, education, mediation, and dispute resolution. This program series also includes SPBR's statutory duties to hear civil service appeals and monitor and assist municipal civil service commissions and personnel boards.

State Board of Engineers and Surveyors

Role and Overview

The State Board of Registration for Professional Engineers and Surveyors (ENG) is a state regulatory board that regulates the professions of engineering and surveying in the State of Ohio. The Board is tasked with protecting the health, safety and welfare of the citizens of Ohio by providing effective licensure and regulation of professional engineers, professional surveyors, and firms whom offer engineering and surveying services to the public. These licensees are the professionals creating and building Ohio's roads, bridges, buildings, water systems, electrical systems, and helping lead the way in advancing the state's technology. This task is completed by requiring minimum educational standards, passing two national licensure exams, and completing experience requirements prior to licensure. The Board consists of five Board members whom are licensed engineering and/or surveying professionals appointed by the Governor for five-year terms, nine full-time employees who handle the day-to-day operations of the Board, and several professional, contracted consultants. The Board's staff assists the Board to effectively regulate licensees, evaluate credentials and applications for registration, and investigate complaints. In fiscal year 2018, the Board had 27,908 individual registrants and 2,791 companies licensed. The Board also evaluated applications and licensed an additional 1,098 individuals through both examination and reciprocity and 195 companies for new licenses to offer and provide engineering and/or surveying services in the State of Ohio. In addition to the licensing process, the Board also investigated 120 complaints involving alleged violations of the Ohio Revised Code and the Ohio Administrative Code, as well as issues involving illegal practice by unqualified and unlicensed individuals and firms and completed two continued education audits.

More information regarding the State Board of Engineers and Surveyors is available at <http://www.peps.ohio.gov>.

Agency Priorities

- Ensure only qualified individuals are licensed to practice engineering and surveying by requiring minimum educational standards, passing two national licensure exams, completing qualified experience prior to licensure, and maintaining continued professional development after licensure.
- Investigate complaints alleging violation of the practice act as well as complaints involving illegal practice by unqualified and unlicensed individuals and firms.
- Educate the public and licensees on the examination process, requirements for professional licensure, enforcement related topics, the code of ethics, and continued professional development.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$1.3 million (or a 2.0% increase from fiscal year 2019). Funding for fiscal year 2021 is \$1.3 million (or a 3.9% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Process and evaluate examination applications, education, references, and experience of 1,460 individuals annually to ensure they are qualified to sit for the engineering and surveying exams required for progressive examination.
- License individuals that pass the examination. In fiscal year 2018, the Board received the exam results of and issued licenses to 355 examinees who met all of the licensing requirements through examination.
- License individuals through reciprocity. In fiscal year 2018, the Board received, processed and evaluated 790 applications for applicants seeking professional licensure from other states through the reciprocity process.
- Review applications and issue licenses to new companies wanting to offer and provide engineering and/or surveying services in Ohio. In FY2018, the board processed and reviewed applications for nearly 400 companies wanting to provide engineering and/or surveying services in Ohio.
- Send out notifications, receive, and process the renewals for nearly 28,000 individuals and 2,800 companies. The Board ensures licensees are still in compliance with the licensing requirements and issues new certificates.

State Board of Engineers and Surveyors

- Perform biennial continued education audits to ensure that individuals are complying with the Ohio Revised Code and Ohio Administrative Code by taking 30 hours of meaningful continued education over the biennium.
- Investigate between 80-120 complaints a year. These complaints are investigated and then may go to hearing or closed for compliance, closed with warning letters, closed for being out of the board's jurisdiction, or closed because no violation was found.

State Board of Engineers and Surveyors

Program Series 1: Regulation (126A0)

The State Board of Registration for Professional Engineers and Surveyors has one program; Regulation (126B1) regulates the professions of engineering and surveying practice. This program encompasses the Board's main objectives and allows the Board to fulfill its mission of protecting the health, safety, and welfare of citizens of Ohio by ensuring only qualified individuals and firms are licensed to practice engineering and surveying. The program covers the operational cost of daily business, which includes review and approval of applications for examination and licensure, registering firms to provide engineering and/or surveying services in the State of Ohio, and investigating complaints alleging violations of the law. The program collects fees for examination applications, comity applications, registration fees, individual renewal fees, company renewal fees, verification fees, new company application fees, and fines/late fees.

Environmental Protection Agency

Role and Overview

The Ohio Environmental Protection Agency (EPA) protects human health and the environment by restoring contaminated land and water resources, and implementing standards for air quality, drinking and stream water quality, wastewater treatment, and solid, infectious, and hazardous waste treatment and disposal. The EPA issues permits governing installation and operation of pollution sources; provides oversight through inspections and air, water, and ground sampling; monitors and reports on environmental quality; provides compliance assistance and environmental education to industry and the general public; helps businesses prevent pollution; takes enforcement actions against violators; and responds to spills and other emergencies. The agency provides \$45 million per year in funding to local governments and organizations through grants for air pollution control, environmental education, diesel school bus retrofits, watershed restoration, and acquires land and conservation easements to protect and improve water quality. The EPA also supports economic development by awarding \$600 million per year in federal and state funded low-interest loans to local communities for wastewater and drinking water infrastructure projects. The director is appointed by the Governor and oversees approximately 1,150 full-time and 100 seasonal employees in Columbus, Reynoldsburg, Groveport, Twinsburg, Bowling Green, Logan, and Dayton.

More information regarding the Environmental Protection Agency is available at <http://epa.ohio.gov>.

Agency Priorities

- Assist public water systems in developing effective asset management programs to improve their technical, managerial and financial capability, which will assist them in reducing lead levels in drinking water. Develop and implement a response strategy for Perfluorinated Alkyl Acids (PFAAs) compounds, to identify potential sources, prevent contamination of drinking water and minimize exposures, and provide assistance on monitoring and treatment.
- Develop in-house laboratory capacity to analyze for PFAAs for drinking water, ground water, and surface water matrices.
- Develop air pollution reduction programs to meet tighter federal standards for ozone, fine particulates, lead, nitrogen dioxide, and sulfur dioxide; prepare plan to meet limits for carbon dioxide for power plants; and prepare re-designation requests for areas attaining the revised air quality standards.
- Review and appropriately implement federal Clean Water Act requirements in a manner that minimizes economic impacts. Compliance with goals protecting aquatic life in Ohio's large rivers improved from 63 percent in 2002 to nearly 90 percent in 2018. Challenges include nutrient pollution, toxic algae, and storm water runoff.
- Award approximately \$600 million each year in water pollution control and water supply loan financing for infrastructure projects benefiting public health and water quality. EPA has two state revolving funds, which offer financing for over 150 projects, many in economically-challenged communities.
- Provide confidential technical and permitting assistance to Ohio's businesses. Administer \$36 million annually in state and federal grants to reduce diesel exhaust, waste and littering, improve recycling, and encourage environmental education.
- Oversee and fund contaminated site cleanups, including sites posing a health threat, and oversee restoration of the land to economically viable use. Regulate generation, transportation, treatment, storage, or dispose of hazardous wastes.
- Manage solid waste landfills by controlling gas emissions, odors, and fires; manage oil and gas industry waste; improve oversight of construction and demolition debris processing facilities; implement general permits for beneficial use of solid wastes and closure projects at abandoned landfills; promote recycling of solid waste, composting of organic materials, and activities minimizing mosquito-borne disease potential; and remediate illegal scrap tire piles.

Environmental Protection Agency

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$11.2 million (or a 25.4% increase from fiscal year 2019). Funding for fiscal year 2021 is \$11.0 million (or a 1.3% decrease from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$219.7 million (or a 8.7% increase from fiscal year 2019). Funding for fiscal year 2021 is \$220.6 million (or a 0.4% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Regulate more than 76,000 sources of air pollution at 16,500 facilities and issue close to 2,500 final permits each year to protect air quality and support new and expanding businesses that provide jobs.
- Respond to more than 1,000 emergency spills and 60 orphan drum sites each year. Annually review and oversee 40 Voluntary Action cleanups, 620 remedial cleanup projects, and 300 hazardous waste cleanup projects within the Resource Conservation and Recovery Act (RCRA) Program. Regulate 44 hazardous waste facilities and over 19,500 hazardous waste generators.
- Oversee 54 solid waste landfills, 63 transfer facilities, 433 composting facilities; over 4,000 infectious waste generators and 89 infectious waste treatment facilities; 44 construction and demolition debris landfills; 75 scrap tire transporters and 18 scrap tire collection, storage, recovery, and disposal facilities.
- Ensure Ohio's 4,500 public water systems are properly protected, constructed, maintained, and operated to provide safe drinking water. Prevent waste-handling facilities from impacting ground water.
- Improve public water system technical, managerial and financial capabilities through the implementation of the asset management requirements. These water systems address compliance with lead, harmful algal blooms, and other public health requirements.
- Restore and maintain the integrity of Ohio's lakes and streams for drinking water, recreational, and industrial use. Regulate 10,000 water pollution sources and issue over 1,200 construction activity permits each year. Award \$7.5 million in grants supporting surface water restoration and protection
- Provide \$31 million annually to replace aging diesel school and transit buses, heavy duty trucks, and cargo handling equipment, and repower diesel engines in tug boats and locomotives, to eliminate 400 tons of air pollutants. Provide \$5 million annually for electric vehicle charging infrastructure, and \$1 million for environmental education programs.
- Assist 5,000 businesses and other organizations each year with environmental regulations, permit applications, waste reduction, and recycling. Provide a toll-free hotline, 200 annual on-site compliance and pollution prevention assessments, and training and straightforward publications.
- Award approximately \$600 million each year in water pollution control and water supply loan financing for infrastructure projects benefiting public health and water quality.
- Receive, review, and investigate where appropriate approximately 250 allegations of criminal violations of state and/or federal environmental laws each year including: illegal burying, burning or abandonment of hazardous wastes; bypassing of wastewater treatment systems; and falsification of documents. Maintain training and capability for terrorist incident response.
- Provide 250,000 laboratory tests on 10,250 air, water, sediment, and tissue samples for EPA's regulatory and cleanup programs. Coordinate United States Environmental Protection Agency's (USEPA) proficiency testing program for 350 wastewater laboratories and certify approximately 350 commercial and public water system laboratories for drinking water analysis. Serve as the drinking water primacy lab for Ohio as designated by the USEPA.

Environmental Protection Agency

Program Series 1: Air Pollution Control (7000A)

Air Emission Authorization and Evaluation (7001B) monitors air quality through the operation of 250 ambient air monitors; regulates 16,500 facilities and issues permits to ensure that sources of air pollution are properly designed, constructed, operated and maintained; monitors compliance; and develops new programs to meet national air quality standards established by the USEPA. Mobile Sources Control (7004B) provides for the operation and oversight of the vehicle emission testing program. Right to Know (7002B) supports the work of the State Emergency Response Commission, manages chemical inventories from more than 8,000 reporting facilities, and supports local emergency planning efforts. These three programs work toward attaining the air quality standards and preparing for chemical emergencies resulting in healthier places to live and supporting Ohio business.

Program Series 2: Environmental Response and Revitalization (7020A)

Voluntary Action (7021B) provides standards and certifies 100 professionals and 20 laboratories for voluntary cleanups. The Clean Ohio Program (7022B) provides technical assistance, application and cleanup reviews for the brownfields project and the Clean Ohio Fund. The Remedial Response Program (7023B) assesses and requires cleanup of 620 pre-regulation contaminated sites, as well as 150 Resource Conservation and Recovery Act (RCRA) driven sites that managed hazardous waste. The Federal Facilities Oversight Program (7024B) monitors cleanup of contaminated federal sites. The Brownfields and Site Assessment Program (7025B) facilitates cleanup and redevelopment of contaminated industrial sites by conducting about 16 brownfield assessments and 10 -15 superfund site assessments each year. The Hazardous Waste Program (7026B) oversees 300 hazardous waste cleanup projects and regulates 44 hazardous waste facilities and over 19,500 hazardous waste generators.

Program Series 3: Materials & Waste Management (7060A)

The Non-Hazardous Waste Program (7060B) regulates: 54 solid waste landfills; 63 transfer facilities; 433 composting facilities; over 4,000 infectious waste generators and 89 treatment facilities; 44 construction and demolition debris landfills; 75 scrap tire transporters and 18 scrap tire collection, storage, recovery, and disposal facilities. This program also remediates abandoned disposal sites and contracts for cleanup of scrap tire dumps.

Program Series 4: Drinking And Ground Waters (7080A)

The Public Water Supply Supervision Program (7080B) ensures Ohio's 4,491 public water systems are properly designed, constructed, operated, and maintained to provide sustainable supplies of safe drinking water to Ohio communities. The program conducts approximately 1,060 annual inspections of drinking water treatment facilities and reviews nearly 200,000 water quality sample results and other operational data each year. Other activities include assessing and preventing contamination of sources of drinking water, certifying 10,400 water and wastewater operators, responding to emergencies, reviewing 1000 sets of water treatment engineering plans annually and providing low-interest loans for drinking water infrastructure. Following a restructure in 2018, the program now includes the agency's Ground Water Characterization and Protection activities to assess ground water quality including annual sampling of approximately 190 ambient network wells, work to characterize and prevent contamination of ground water, and regulation of wells used to inject fluids underground.

Environmental Protection Agency

Program Series 5: Surface Water Protection (7100A)

The Water Quality Program (7100B) monitors Ohio's streams and lakes each year, plans restorations, writes water quality standards, provides \$7.5 million each year to local organizations for restoration work, and protects and restores areas in and around Lake Erie. The program regulates more than 10,000 water pollution sources and issues more than 1,200 construction activity permits annually. The National Pollution Discharge Elimination System (NPDES) establishes discharge limits for wastewater facilities, regulates storm water discharged into streams, and issues permits for wastewater construction and modifications through the surface water permitting program. Wetlands permitting certifies construction sites to ensure stream and wetland alterations are accomplished with minimal degradation to water quality.

Program Series 6: Environmental Education (7150A)

The Ohio Environmental Education Program (7150B) educates regulated entities, students, teachers, businesses, and the public about regulatory requirements and technical aspects of environmental issues. Grants totaling \$1 million per year will be awarded for environmental education including projects that promote storm water management and encourage reductions in air emissions and nutrient loadings in streams that contribute to harmful algal blooms. The Diesel Emission Reduction Grant Program (7151B), administered jointly with the Ohio Department of Transportation, makes \$8 million available in grants each year for the purpose of reducing diesel emissions from transit buses and other sources. The Diesel Mitigation Trust Program (7152B) provides \$20 million annually in funds from a federal enforcement court settlement, for grants to reduce diesel emissions from school and transit buses, heavy duty trucks, tugboats, locomotives, and cargo handling equipment. The program also provides \$5 million annually to install charging and fueling infrastructure for zero emission vehicles.

Environmental Protection Agency

Program Series 7: Environmental and Financial Assistance (7160A)

The Environmental and Financial Assistance program (7163B) delivers technical, administrative and financial assistance to help Ohio communities build and improve wastewater and drinking water infrastructure. It provides low-interest loans for wastewater and drinking water treatment system improvements and for nonpoint source pollution control projects, including home sewage treatment system upgrades, agricultural runoff controls, and stream and wetland protection. During 2017, Ohio EPA awarded Water Supply Revolving Loan Account (WSRLA) loans totaling close to \$67 million to help communities address drinking water infrastructure needs. Small, disadvantaged communities received about \$15 million in principal forgiveness funding. During that same period, Ohio EPA awarded more than \$883 million in loans from the Water Pollution Control Loan Fund (WPCLF) to Ohio communities. Approximately \$13 million in principal forgiveness funding helped communities address failing home sewage treatment systems (HSTs). In addition, close to \$17 million in principal forgiveness provided collection capacity in unsewered areas and addressed other infrastructure priorities, particularly in economically disadvantaged and small communities. The Office of Compliance Assistance and Pollution Prevention (OCAPP) provides free, confidential assistance each year to over 5,000 businesses and other external customers annually to help them comply with environmental regulations and reduce pollution through source reduction and recycling. Recycling and Litter Prevention grants provide nearly \$4 million to establish and implement statewide waste reduction, recycling, market development and litter prevention programs.

Program Series 8: Office of Special Investigations (7180A)

The Emergency Response Program (7186B) responds 24/7 to 1,000 hazardous material spills each year. The Office of Special Investigations (OSI), (7191B) conducts complex investigations into alleged environmental violations potentially involving criminal activities. Each year, members of OSI have received, reviewed, and investigated where appropriate approximately 250 allegations of violations of state and/or federal environmental laws. In the last two years, OSI has obtained 61 criminal convictions. Members of OSI serve on Ohio EPA's Counter-Terrorism Response Team and are trained to work as first responders in hazardous environments (chemical, biological, and radiological).

Environmental Protection Agency

Program Series 9: Environmental Lab Services (7200A)

The Analytical Laboratory Services Program (7200B) provides analytical services to Ohio EPA divisions and governmental entities. The program supports Ohio EPA and other governmental entities as the primary source of scientific data by analyzing 10,250 environmental samples for toxic pollutants each year. This data is used to evaluate regulatory compliance and to support the decision making process. The Laboratory analyzes samples of surface water, drinking water, ground water, wastewater influents and effluents, sediment, soil, sludge, manure, air filters, air canisters, plant and fish tissue. The Division maintains and develops new analytical methods, provides training and technical assistance to EPA divisions and other commercial and public laboratories. The Division also coordinates a federal testing program for wastewater laboratories. The federal Safe Drinking Water Act requires each state to designate a laboratory as the primary drinking water laboratory; the Division of Environmental Services' laboratory fulfills this requirement.

Environmental Review Appeals Commission

Role and Overview

The Environmental Review Appeals Commission (EBR) hears and resolves appeals resulting from various technical and legal final actions taken by the Ohio Environmental Protection Agency, the Ohio Department of Agriculture, county and local boards of health, the State Fire Marshal's Office, and the State Emergency Response Commission. The Commission functions as a quasi-judicial appellate review board and was created specifically for the purpose of resolving environmental disputes involving the aforementioned agencies. The Commission has statewide jurisdiction and is the highest level of administrative appeal from final actions of the agencies. Decisions of the Commission may be appealed to the Franklin County Court of Appeals or, if the appeal arises from an alleged violation of a law or regulation, to the court of appeals for the district in which the violation allegedly occurred. The Commission consists of five full-time employees. The three commission members are appointed by the Governor for staggered six-year terms, and each must have extensive experience in pollution control and abatement technology, ecology, public health, environmental law, and economics of natural resource development or related fields. The remaining two employees are an executive director, who performs the day-to-day functions of the Commission, and a program administrator/staff attorney to assist the commissioners.

More information regarding the Environmental Review Appeals Commission is available at <https://erac.ohio.gov/>.

Agency Priorities

- Continue to administer quasi-judicial appellate review of final actions in a non-partisan forum to efficiently resolve the issues within its jurisdiction.
- Resolve all appeals filed with the commission in a timely manner.
- Implement and revise policies and procedures to assure an efficient and timely appeal process.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$634.0 thousand (or a 3.4% increase from fiscal year 2019). Funding for fiscal year 2021 is \$651.0 thousand (or a 2.7% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$634.0 thousand (or a 3.4% increase from fiscal year 2019). Funding for fiscal year 2021 is \$651.0 thousand (or a 2.7% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Provide quasi-judicial appellate review of appeals from certain final actions of the Ohio Environmental Protection Agency, the Ohio Department of Agriculture, county and local boards of health, the State Fire Marshal's Office, and the State Emergency Response Commission.
- Deliver impartial, professional oversight of certain final actions made by regulatory agencies over which the commission has jurisdiction.
- Provide a consistent body of environmental case law in Ohio.
- Supply those coming before the Commission with an online system to file matters online, view dockets of pending matters, and view final decisions issued by the Commission.

Ohio Ethics Commission

Role and Overview

The Ohio Ethics Commission (ETH) is required by law to administer, advise upon, educate, and enforce ethical conduct in government under state general law, the Ohio Ethics Law, and related sections of the Ohio Revised Code. The mission of the Commission is to promote and enforce ethical conduct throughout state and local government through impartial and responsive advice, education, investigation, and financial disclosure processes. To fulfill its mission, the Commission has focused upon educating and informing public servants to create a practical understanding of ethics law, and where necessary, seek accountability. The Ethics Commission is an independent, bi-partisan body that consists of six members, appointed by the Governor, and subject to confirmation by the Senate. Day-to-day operations are headed by an executive director. The Commission consists of five primary service divisions: Advice, Education, Financial Disclosure, Investigation, and Office Administration. Public officials and employees at every level of government within the State of Ohio, an estimated population of over 590,000 public officials and employees, are under the governance of the commission, except judges and members of the Ohio Legislature, and their respective employees. The Commission employs 21 full-time employees. In the past few years, significant state-wide investigations conducted by the Ethics Commission have resulted in criminal referrals, pending cases, and convictions. The Commission now provides for online filing of financial disclosure statements, and has also secured a 99 percent compliance rate in financial disclosure statement filing compliance. In the past biennium, the Commission eliminated its backlog of pending advisory requests and rendered significant advice on issues facing state and local officials. Additionally, the Commission continues its outreach efforts to educate those in the public and private sector on the Ohio Ethics Law.

More information regarding the Ohio Ethics Commission is available at <http://ethics.ohio.gov>.

Agency Priorities

- Administer and enforce the financial disclosure statement requirements of the Ohio Revised Code. Elected officeholders, candidates, administrative appointees, and employees are required to annually file financial disclosure statements to identify potential conflicts of interest.
- Provide ethics advice to allow government entities and the Commission to avoid costs related to unethical behavior, including the investigation and resulting penalties to the public agency.
- Meet the statutory mandate that the Commission provide continuing ethics education and materials concerning the provisions of the ethics law, conflicts of interest, and financial disclosure.
- Promote and enforce ethical conduct in public service to strengthen the public's confidence that state and local government business is conducted with impartiality and integrity.
- Implement the statutory requirement upon the Commission to confidentially investigate allegations or complaints of ethics violations against public officials and employees and those with whom they conduct business.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$1.8 million (or a 4.3% increase from fiscal year 2019). Funding for fiscal year 2021 is \$2.1 million (or a 13.6% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$2.5 million (or a 6.8% increase from fiscal year 2019). Funding for fiscal year 2021 is \$2.6 million (or a 5.3% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Meet service demand increases across the Commission's four functions with sufficient staffing levels.
- Provide timely advice by issuing approximately 150 advisory opinions within 15 days of their receipt, provide guidance to approximately 3,000 callers, and respond to over 1,500 requests via email seeking interpretation and guidance related to the Ethics law, conflicts of interest, and financial disclosure.
- Administer an effective ethics education and public outreach and communication program to increase understanding of Ohio's Ethics Law, reduce ethics violations, and encourage seeking advice. Outreach efforts include scheduling and conducting 205 educational sessions each year, which reach over 17,000 attendees.

Ohio Ethics Commission

- Disseminate and record approximately 11,500 Financial Disclosure Statements (FDS) per year from over 1,300 agencies and individually review more than 2,500 of these for specific potential conflicts of interest.
- Continue to secure a nearly 100% compliance rate for FDS compliance and make these statements available in response to public records requests, which increase transparency.
- Provide timely information to the members of 87 state boards who are not paid for their duties and who file confidential FDS to assist in the recognition of potential conflicts of interest as independently identified by the Commission.
- Assign special investigators to review, investigate, and when necessary, assist in required prosecution of those who violate the law at all levels of state and local government.
- Manage an average caseload of 175 active cases using the Commission's settlement authority as appropriate and by providing litigation support to local prosecutors.
- Reduce timelines to factually review allegations and complete investigations.
- Disprove unwarranted assertions, pursue and secure criminal investigations where serious evidence supports criminal unethical misconduct, and assist prosecutors as such cases proceed through the justice system.
- Provide funding for shared operating costs such as office space, telecommunications, and supplies for all Commission program areas.

Ohio Ethics Commission

Program Series 1: Ethics Oversight (128A0)

This program series contains five programs. The Advisory Opinions and Guidance Program (128B1) provides guidance to those who face practical ethical conflicts, shares ethics law information with the public and media, and renders legal advice regarding ethics, conflicts of interest, and financial disclosure. The Education and Communication Program (128B2) conducts education sessions and creates informational materials regarding the ethics law. The Financial Disclosure Program (128B3) administers and enforces financial disclosure statement (FDS) requirements to identify potential conflicts of interest. The Investigations and Enforcement Program (128B4) implements the statutory requirement upon the Commission to confidentially investigate allegations of ethical misconduct involving public officials and employees at all state and local levels, and private parties who interact with them. The Program Direction and Support Program (128B5) provides shared operating resources and administrative support needed to sustain all other program areas within the Commission.

Ohio Expositions Commission

Role and Overview

The Ohio Expositions Commission (EXP) operates the Ohio Expo Center, a year-round, multipurpose convention and meeting facility. The Ohio Expo Center hosts six of Columbus' top 10 conventions and more than 185 annual events. An economic impact study published in 2011 showed that these events covered approximately 355 days and attracted an estimated 2.7 million visitors. The Expo Center creates a substantial economic impact for the City of Columbus, Franklin County, and the State of Ohio. The total direct and indirect expenditure impact is estimated at more than \$478 million. These expenditures support nearly 4,600 full and part-time jobs and generate approximately \$14 million in local, county, and state tax revenues. On July 25, 2018, the commission's premier event, the Ohio State Fair, opened its gates for the 165th time. Over the past several years, extra efforts with grounds beautification, cleanliness, customer service, free entertainment, and comfort areas have enhanced both the public and media perceptions of the fair. As a result, the Ohio State Fair attracts more than 900,000 visitors during its 12-day run and enjoys strong support from local and statewide organizations, sponsors, and media. The Commission's mission is to professionally operate and maintain for public benefit a year-round, service-oriented event facility and produce the annual Ohio State Fair. The Commission's vision is to be recognized as a unique, dynamic, and profitable facility committed to creating a nationally recognized event venue and producing the highest quality agricultural state fair. The Commission has 59 full-time, permanent employees.

More information regarding the Ohio Expositions Commission is available at <http://ohioexpocenter.com/>.

Agency Priorities

- Provide a facility that is safe, clean, versatile, comfortable, appealing, user-friendly and accessible.
- Use assets efficiently to build a strong financial position.
- Produce a diverse, entertaining, well attended and family-oriented annual Ohio State Fair.
- Maintain a profitable schedule of Ohio Expo Center events, providing quality customer service, in order to excel within the industry.
- Promote efficient management and effective administration of the Ohio Expo Center within legislative mandates.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$363.8 thousand (or a 0.0% increase from fiscal year 2019). Funding for fiscal year 2021 is \$363.8 thousand (or a 0.0% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$16.1 million (or a 1.0% increase from fiscal year 2019). Funding for fiscal year 2021 is \$16.4 million (or a 1.6% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Produce the Ohio State Fair and support other events hosted by the Ohio Expo Center
- Increase customer and visitor satisfaction with our facilities, which leads to increased return business for rental partners and increased facility usage.
- Implement the next phase of infrastructure upgrades and improvements.

Program Series 1: State Fair Facilities (129A0)

The State Fair Facilities program series produces an annual state fair and promotes economic development for agriculture. The State Fair Program (129B1) produces the annual Ohio State Fair in a financially self-sufficient manner. The Non-Fair program (129B2) operates and maintains for public benefit a year-round, service-oriented, nationally-recognized event facility.

Facilities Construction Commission

Role and Overview

The Ohio Facilities Construction Commission (OFCC) provides funding to public school districts as authorized by the General Assembly and oversees the construction and renovation of state agency, university, school, and cultural facilities. The Commission consists of three members: The Director of Budget and Management, the Director of Administrative Services, and a member appointed by the Governor. The state's construction authority and resources are aligned within a single entity that guides capital projects for state agencies, higher education, most of Ohio's public K-12 schools, and state funded cultural facilities. The Commission sets uniform rules, procedures, and standardized documents for vertical construction. It is responsible for construction delivery methods, construction documents, process, and procedures. The OFCC has 100 full-time employees.

More information regarding the Facilities Construction Commission is available at <http://ofcc.ohio.gov/>.

Agency Priorities

- Administer and oversee the construction and renovation of school, state agency, higher education, and cultural facilities as funded in the capital budget, and provide efficient operations and maintenance of these entities.
- Build quality facilities.
- Facilitate projects that are well-planned, on time, and on budget.
- Embrace innovation and encourage continuous growth.
- Provide sustainability through efficient energy design, construction, and operation.
- Cultivate partnerships for success.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$451.8 million (or a 2.1% increase from fiscal year 2019). Funding for fiscal year 2021 is \$462.1 million (or a 2.3% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$468.0 million (or a 2.9% increase from fiscal year 2019). Funding for fiscal year 2021 is \$478.4 million (or a 2.2% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Support 100 full-time employees to provide the management and oversight required to ensure accountability for the various capital improvement projects for the K-12 public school construction services, the state agency and higher education construction services, the statewide construction services, the community construction grant programs, and energy efficiency support services.
- Initiate a maintenance review program for state-funded K-12 buildings to ensure full realization of expected asset life span and protection of state investment.
- Continue to use and improve OFCC's core construction management system OAKS CI, including integration with OAKS FIN, associated outreach and training, and enhanced internal control mechanisms.
- Selectively maintain purchased personal services at an appropriate level.
- Replace computer equipment for aging technology systems and maintain and upgrade equipment as necessary to support both ongoing and future construction projects.
- Pay interest and principal for bonds issued to finance the K-12 school construction and cultural facility grant projects.

Facilities Construction Commission

Program Series 1: Statewide Construction Project Services (8950A)

This program series is comprised of four programs K-12 Projects (8950B), K-12 Construction Project Services (8980B), State Agency and Higher Education Construction Project Services (8990B), and Statewide Construction Services (8995B). K-12 Projects provides debt service payments for the K-12 construction program. K-12 Construction Project Services provides school facilities construction assistance to public school districts, joint vocational school districts, qualifying community schools, STEM schools, and college preparatory boarding schools for at-risk students throughout the State of Ohio. State Agency and Higher Education Project Services provides for the proper management of capital facility development for a large portion of the state's capital projects. This program effectively and efficiently manages the design and construction of state-funded facilities, establishes more and better service to stakeholders through online resources, and provides relevant education and training programs to improve service to customers. Statewide Construction Services provides for the proper management of capital facility development for a large portion of the state's capital projects. This program oversees the OAKS CI application for agency, university, and K-12 projects, produces and maintains master contract documents for the state's design and construction projects, and produces and maintains master documents for the necessary contract and legislated requirements, such as the EDGE and Drug-Free Work Place programs.

Office of the Governor

Role and Overview

The Office of the Governor (GOV) executes the duties of the chief executive officer of the state as outlined in the Ohio Constitution and the Ohio Revised Code. The budget for the Governor also includes funding for the Office of the Lieutenant Governor, whose role is to assist the Governor in the performance of executive duties and to assume the Office of the Governor if it becomes vacant. The Governor is a constitutional officer elected for a four-year term. Duties of the Governor include: the formulation and implementation of administrative policy for executive departments; the appointments of board and commission members and judges; and the power to pardon criminal offenders, to commute sentences, and to extradite fugitives from other states. The Governor also is responsible for reporting to the legislature on the state of the state, recommending legislation, proposing operating and capital budgets, proposing revenue sources to meet the needs of the state, and considering and acting upon legislation passed by the legislature. The Governor is the commander-in-chief of the militia. The Lieutenant Governor is a constitutional officer elected jointly with the Governor every four years. The Lieutenant Governor is a member of the Governor's cabinet and may be appointed by the Governor to lead a cabinet agency or be given any special assignment the Governor considers necessary.

More information regarding the Office of the Governor is available at <https://governor.ohio.gov/>.

Agency Priorities

- Invest in Ohio's children by providing the supports and services needed to prepare them for success throughout life.
- Develop the programs and supports necessary to overcome addiction problems currently prevalent in the state.
- Create an economic environment encouraging job creation, retention, investment, and long-term prosperity.
- Innovate and improve state government and services to operate in the most efficient and effective manner and benefit Ohio's customers and citizens.
- Improve the state's infrastructure and partner with local governments to ensure the safety and security of all Ohioans.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$2.9 million (or a 5.0% increase from fiscal year 2019). Funding for fiscal year 2021 is \$3.0 million (or a 2.0% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$3.5 million (or a 14.2% increase from fiscal year 2019). Funding for fiscal year 2021 is \$3.6 million (or a 1.8% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Support the activities of the Governor's Office to manage and represent the interests of the citizens of Ohio.
- Strengthen advocacy for Ohio with the federal government and other government entities through the creation of an office in Washington D.C.

Department of Health

Role and Overview

The Ohio Department of Health's (ODH) mission is to protect and improve the health of all Ohioans by preventing disease, promoting good health, and assuring access to quality care. The Ohio Public Health Advisory Board makes recommendations to the ODH Director on proposed agency rules and initiatives to improve public health. The ODH fulfills its mission through collaborative relationships in the public and private sectors, including with Ohio's 113 local health jurisdictions, each of which is governed by a health commissioner and a locally-appointed board of health. ODH's strategic agenda is informed by a State Health Assessment and a State Health Improvement Plan to address key health issues identified in the assessment. As a leader in public health, ODH became one of the first state health departments in the country to achieve national accreditation through the Public Health Accreditation Board (PHAB). The national accreditation program sets standards toward which the nation's public health departments can continuously work to improve the quality of their services and performance. To reduce infant mortality and address disparities in birth outcomes, ODH has done the following this biennium: provided technical assistance and financial support to local teams addressing infant mortality and racial disparities in nine counties/metropolitan areas that account for the majority of Ohio's infant deaths and especially black infant deaths; expanded use of evidence-based home visiting services for pregnant women who are at risk for a poor birth outcome; funded community-based pilot programs to promote initiatives proven to reduce infant mortality; began a deeper analysis of state data to help address infant mortality; relaunched a public awareness campaign promoting the ABCs of infant safe sleep (place babies Alone, on their Back in a Crib); and engaged Ohio's faith community to help address infant mortality, especially black infant mortality. To combat the substance use epidemic, ODH has expanded local prescription drug overdose prevention programs in high-risk counties; increased access to naloxone through new or expanded Project DAWN (Deaths Avoided With Naloxone) community naloxone education and distribution programs; provided state funding to Ohio coroners for toxicology screenings during drug overdose investigations; and launched a "Take Charge Ohio" campaign to empower opioid prescribers and their patients to manage pain safely and prevent pain medication abuse. The ODH has 1,036 full-time, permanent employees.

More information regarding the Department of Health is available at <http://odh.ohio.gov>.

Agency Priorities

- Continue to focus on the agency's core programs for public health: Infectious Disease; Public Health Preparedness; Health Improvement and Wellness; Health Equity and Access; Environmental Health; and Regulatory Compliance.
- Reduce infant mortality, promote child development and school readiness under Governor DeWine's Families and Children Initiative, by expanding the number of families receiving services from the Help Me Grow - Home Visiting Program.
- Improve health outcomes, promote wellness, prevent chronic conditions, and reduce health care cost by decreasing tobacco use through the continuation of prevention, cessation, enforcement initiatives, and policy changes aimed at decreasing youth initiation.
- Combat child lead poisoning by abating contaminated properties, demolishing lead-blighted properties, strengthening ODH's authority to enforce lead hazard control orders, establishing a monetary penalty structure to incentivize regulatory compliance, and creating a Lead Worker/Contractor Licensure Repayment Program to reimburse individuals for the cost of becoming licensed in lead abatement.
- Support Governor DeWine's RecoveryOhio Plan by creating a Substance Use Disorder Professional Loan Repayment Program to expand the drug treatment workforce through the development of a student loan forgiveness program.
- Expand ODH's current work in predictive analytics to use data to tackle intractable public health issues such as infant mortality.
- Protect children with special health care needs by strengthening the Children with Medical Handicaps Program.
- Improve safety at nursing homes and other health care facilities by improving the frequency and quality of nursing home recertification surveys and complaint and other inspections/surveys.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$100.1 million (or a 32.1% increase from fiscal year 2019). Funding for fiscal year 2021 is \$109.1 million (or a 9.0% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$674.6 million (or a 7.9% increase from fiscal year 2019). Funding for fiscal year 2021 is \$686.7 million (or a 1.8% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Work with partners to prevent the spread of disease, alert responders, and help the public take action. Provide expertise and resources in the areas of emergency response planning, hospital preparedness, emergency response exercises, and real-world emergency responses.
- Provide breast and cervical cancer screenings to serve up to 7,500 women annually.
- Promote healthy and safe schools, workplaces, and communities, and increase access to healthy foods and opportunities for physical activity to reduce the risk factors for chronic disease.
- Provide approximately 209,000 eligible individuals, which include low-income pregnant, breastfeeding, and non-breastfeeding postpartum women, as well as infants and children up to age five who are found to be at nutritional risk, with supplemental foods, health care referrals, and nutrition education through the Women, Infants, and Children (WIC) Program.
- Test approximately 169,000 samples annually at ODH's Public Health Laboratory. Provide reference microbiology services, newborn screening, radiological chemistry testing, food borne disease testing, HIV confirmations, outbreak testing, serotyping of infectious disease specimens, and tuberculosis testing.
- License and inspect 728 facilities that use radioactive material. Provide for the inspection of 6,830 x-ray machines at 2,814 facilities and 42 equipment assemblers and maintainers. License approximately 8,300 x-ray equipment operators and nuclear medicine technologists.
- Protect Ohio residents who receive services and care from health care providers and suppliers. Support the licensing, certification, and enforcement of 970 nursing facilities, 734 residential care facilities, and 451 intermediate care facilities. Investigate complaints that allege serious and immediate threat or harm to residents including abuse, neglect, and misappropriation of property.
- Provide antibiotics to 132 contracted clinics that serve Ohio populations at highest risk for sexually transmitted infections (STIs). Respond to approximately 400 infectious disease outbreaks.
- Implement state minimum standards to promote environmental health. Enforce revised code requirements for the installation of 6,850 and alteration of 1,000 sewage treatment systems annually. Review, approve, and monitor engineering plans for 570 swimming pools/spas and 25 campgrounds.
- Increase community access to naloxone by minimally funding nearly all 88 counties to expand or create Project DAWN programs.
- Demolish approximately 50 lead-blighted properties, control lead hazards in about 175 homes for low and middle-income families, and create a lead worker / contractor licensure repayment program.

State of Ohio
Department of Health

Budget Fund Group Information

- The GRF increase is due to service expansion in targeting substance use disorder, lead abatement, and home visiting services. Ohio's health data dashboard is also being expanded to allow collaboration and comprehensive planning across agencies to enhance public health awareness and education.
- The DPF increase is due largely to expanding services to medically handicapped children, the screening of newborns for potentially life-threatening heart defects, and serving more people with HIV/AIDS.

Department of Health

Program Series 1: Public Health Services (4650A)

This program series prevents disease or the spread of disease, works to eliminate health disparities, improves access to health services and provides funding to establish and maintain a basic public health infrastructure. The Infectious Disease Control and Prevention Program (4650B) prevents and controls the spread of infectious diseases. The Public Health Laboratory Program (4665B) provides high-quality and rapid public health testing services to customers throughout the state. The Alcohol Testing and Permit Program (4675B) oversees law enforcement breath alcohol testing programs. The Maternal and Child Health Program (4705B) protects and improves the health of Ohio's women, children, and families. The Health Policy Program (4725B) encompasses health access and equity and performance improvement through programs, projects, and initiatives involving primary care and rural health. The Vital Statistics Program (4800B) is responsible for the administration and maintenance of the statewide system of registration of births, deaths, and other vital statistics. The All Hazards Preparedness Program (4805B) ensures that Ohio's public health infrastructure has the capacity to respond to disease outbreaks, bioterrorism threats, food-borne illness outbreaks, and other public health threats. The Local Health Departments Program (4810B) provides funding to establish and maintain a basic public health infrastructure at the local and state level. The Public Health Informatics Program (4820B) is responsible for systematically applying information, computer science, and technology to public health practice, research, and learning to improve data collection, analysis, and interpretation across the department.

Program Series 2: Health Improvement and Wellness (4700A)

This program series provides access to, and increases the availability of, health care services for families, children, and individuals. The Health Promotion Program (4655B) improves health through the promotion of healthier lifestyles, the prevention of chronic disease, and the provision of breast and cervical cancer screenings. The HIV/AIDS, STD, and Hepatitis Program (4695B) prevents HIV, STD, and viral hepatitis B and C infections, and improves the health and well-being of Ohioans currently living with these conditions. The CMH and Injury Prevention / Drug Overdose Program (4700B) encompasses the Children with Medical Handicaps Program, which assures, through the development of high-quality, coordinated systems, that children with special health care needs and their families obtain comprehensive care and services; the Violence and Injury Prevention Program, which is a comprehensive state-level program that focuses on prevention of violence and injury by promoting the use of evidence-based interventions; and the Second Chance Program, which educates Ohioans about the need for organ, eye, and tissue donation. The Nutrition Program (Women, Infants, and Children) (4715B) helps income-eligible pregnant women, breastfeeding women, and children up to five years of age who are at health risk due to inadequate nutrition. The Health Improvement and Wellness Chief (4740B) provides management and administration for all the programs within this program series.

Program Series 3: Health Assurance and Licensing (4750A)

This program series protects the health and safety of Ohio's residents through licensure, certification and regulation of health care providers, suppliers, and environmental professionals. The Environmental Health Program (4660B) works to assess and control environmental factors that can have a deleterious impact on human health. The Radiation Protection Program (4670B) controls the use, storage, and disposal of radiation sources. The Long Term Care and Quality Program (4750B) and Non-Long Term Care and Quality Program (4765B) inspect nursing homes and federally certified non-long term care providers and suppliers. The Regulatory Compliance Program (4755B) administers enforcement actions against both licensed and certified health care facilities and enforcement actions of the Ohio Smoke Free Workplace Law. The Licensure Operations Program (4770B) provides licensure, consultation, and support to nursing homes and health care facilities. Quality Assurance Program Support (4775B) provides management, leadership, policy development, and administration for programs related to health care quality assurance.

Program Series 4: Program Support (4875A)

This program series provides administrative and operational support for the Ohio Department of Health. Program Support (4875B) funds the central administrative areas, which includes the Director's Office, General Counsel, Government Affairs, Communications, Performance Improvement, Financial Affairs (including administration of the Medicaid Administrative Claiming Program), Human Resources (including facilities management), and Management Information Systems (IT).

DOH ALI Analysis

440413, Local Health Departments; 440431, Free Clinic Safety Net Services; 440465, FOHC Primary Care Workforce Initiative; 440481, Lupus Awareness; and 440527, Lead Abatement: These lines were reduced to redirect funding to higher priority initiatives/programs, which includes services to medically handicapped children.

440454, Environmental Health/Radiation Protection: Increased appropriations in fiscal years 2020 and 2021 will be used to abate approximately 150 properties owned by low-income families and 25 homes of middle-class families up to 400% of federal poverty level, to demolish 50 lead-blighted properties, and to reimburse individuals for the cost of becoming licensed in lead abatement.

440459, Help Me Grow: Increased appropriations in fiscal years 2020 (\$20.3 million) and 2021 (\$29.3 million) will be used to increase home visiting services for at-risk, expectant mothers to reduce infant mortality and to promote child development and school readiness.

440482, Chronic Disease/Health Promotion: Appropriations are increased by \$3.75 million in fiscal years 2020 and 2021 to purchase naloxone and to provide related overdose prevention and intervention care, expand Ohio's health data dashboard to allow for consolidated and comprehensive planning across agencies, and to create a public health foundation to expand public health awareness and education through media and education campaigns.

DOH ALI Restructuring

DOH provides enhanced subsidies to support local health departments that have received national accreditation through the Public Health Accreditation Board to implement public health programs, and for performance evaluation and reporting. Beginning in fiscal year 2020, funding previously appropriated in line item 440413 – Local Health Departments, is appropriated in line item 440647 – Fee Supported Programs.

To illustrate changes in funding levels due to restructuring, the estimated fiscal year 2019 spending table is converted from the previous line-item structure to the current line-item structure.

Department Of Higher Education

Role and Overview

The Ohio Department of Higher Education (DHE) coordinates all higher education in Ohio, allocates funds to higher education institutions, initiates and oversees the implementation of workforce development and adult education programs, assures the seamless credit transfer process between all public institutions, increases the economic competitiveness of the state, and works to increase enrollment in Ohio institutions by promoting the University System of Ohio throughout the world. The Chancellor manages a total of 100 full-time, permanent employees; 70 employees comprise the Department of Higher Education division and 30 employees comprise the Ohio Tuition Trust Authority division. The majority of the agency's budget is distributed as subsidy to colleges and universities throughout the state. The largest source of state support for public higher education institutions is the State Share of Instruction (SSI), which provides general operating support to state-assisted colleges and universities. In addition, the agency oversees the implementation of financial aid programs designed to defray the cost of obtaining a college education for students on the basis of need, academic ability, or field of study. The agency also oversees a number of other subsidies that promote research, public service, medical education, and specific initiatives at various campuses.

More information regarding the Department Of Higher Education is available at <https://www.Ohiohighered.org>.

Agency Priorities

- Increase Ohio's educated workforce to meet the current and future staffing needs of Ohio businesses.
- Increase degree and certificate attainment by focusing on multiple pathways and enhanced career advising; and by expanding financial assistance for students utilizing such pathways.
- Continue the implementation of Ohio's performance-based funding formula to incentivize successful completion of degrees and certificates at Ohio's public colleges and universities.
- Provide Ohioans with continued access to higher education opportunities through limits on undergraduate tuition and fees that are achieved through operational efficiencies and implementation of tuition guarantee programs at all of Ohio's state universities.
- Promote operational efficiencies and innovation at all colleges and universities through shared service initiatives and productivity improvements.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$2.7 billion (or a 3.5% increase from fiscal year 2019). Funding for fiscal year 2021 is \$2.8 billion (or a 3.2% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$2.7 billion (or a 3.3% increase from fiscal year 2019). Funding for fiscal year 2021 is \$2.8 billion (or a 3.2% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Provide access to a college education for our neediest students through increased financial aid awarded through the Ohio College Opportunity Grant that will increase student awards at public and private higher education institutions by about \$400 and \$500 for fiscal years 2020 and 2021, respectively.
- Increase the number of students studying in critical Science, Technology, Engineering, Mathematics, and Medicine (STEMM) fields through enhanced support of the Choose Ohio First Scholarship to provide approximately 2,500 additional scholarships.
- Continue to support Ohio's performance-based funding formula based on clearly defined outcomes for student success.
- Increase scholarship award amounts to children of deceased or disabled U.S. Armed Forces veterans through enhanced support of the War Orphans Scholarship Program.
- Maximize student opportunities for prior learning and credit transfer through continued support of the Ohio Articulation and Transfer Network.

Department Of Higher Education

- Promote a robust and well-prepared National Guard through increased support of the Ohio National Guard Scholarship Program.
- Continue to increase the number of customers who are aware of Ohio's CollegeAdvantage 529 Savings Plan and choose to participate in the college investment program.
- Provide important funding to Ohio's medical schools for medical education, clinical teaching, primary care residencies, and long-term care research to ensure Ohio's supply of well-trained medical professionals into the future.
- Advance collaborative research at our colleges and universities to address key issues that are facing all Ohioans while also positioning our state to take full advantage of emerging industries that have the potential to define Ohio's future.

Program Series 1: College and University Instructional Operations (3000A)

This program series supports Ohio's primary investment in public higher education and is comprised of one program, the State Share of Instruction (3000B), which represents the state's share of the instructional and related costs associated with the education of college students attending Ohio's public colleges and universities.

Fund	ALI	ALI Name	Estimated	Recommended			
			FY 2019	FY 2020	% Change	FY 2021	% Change

Program Series 2: Facilities and Debt Service (3010A)

This program series supports the state's capital investments in physical infrastructure for Ohio's public higher education system. Funds are used to support general obligation debt service (3010B) as well as campus capital projects including new construction and routine maintenance. The Capital Component Program (3011B) provides capital funds to campuses who request less than their formula-determined capital allocation. Finally, the Higher Educational Facility Commission Administration Program (3012B) allows the Department of Higher Education to defray the costs of staff support for the Ohio Higher Educational Facility Commission (HEFC).

Program Series 3: Pre-K To 16 Prep and Access (3020A)

This program series is comprised of a variety of externally funded initiatives (primarily federally funded) that facilitate access to college through improved readiness and through initiatives that focus on developing the capacity of the pre-K-16 educational system in order to prepare students for success in college and in professional careers (GEAR UP). It also includes the newly established OhioCorps Pilot Program to support high school students impacted by the opioid crisis prepare for college. This program series recognizes the need and value of collaboration among the primary, secondary, and higher education communities to ensure student success, both academically and in the workforce following graduation. The College Readiness and Access Program includes Adult Basic and Literacy Education (ABLE) (3020B).

Department Of Higher Education

Program Series 4: Student Access (3030A)

This program series supports efforts to increase college access and participation in higher education through scholarships and grants for eligible students and institutions. The goal is primarily to help improve the affordability of higher education through programs that support direct student aid as well as institutional subsidies that help certain campuses maintain lower, more affordable tuition rates. The Ohio College Opportunity Grant Program (3030B) provides need-based financial aid to eligible students attending public main campus universities and private, not-for-profit institutions. Additional state operating support is provided to Central State University and Shawnee State University through the Supplements Program (3033B) that maintains lower tuition and provides student scholarship funds that are intended to increase access to higher education for targeted student populations. The War Orphans Scholarship Program (3034B) acknowledges and honors the sacrifices made by the United States military by ensuring that children of deceased and severely disabled Ohio veterans receive a scholarship that increases their access to post-secondary education. The State Grants and Scholarship Program (3035B) funds are used to ensure that Ohio's student financial aid programs are administered in a timely and effective manner. The Choose Ohio First Program (3040B) provides student scholarships and fellowships for Ohio students majoring in the fields of Science, Technology, Engineering, Mathematics, STEM Education, and Medicine. The Student Debt Reduction program (3032B) proposes to reduce debt and financial burdens on students attending Ohio public institutions of higher education.

Program Series 5: Basic and Applied Research (3060A)

This program series supports research funding and other resources which are accessible to universities and Ohio industry, performance funding to maximize the leveraging of federal and industrial research grants, and direct support for specific technology commercialization and academic research programs. The Ohio Agricultural Research and Development Center Program (3060B) provides funding that supports Ohio farmers, food processors, landfill managers, environmentalists, researchers, and consumers as served by the OARDC. The Economic Growth Challenge Program (3061B) supports business attraction and expansion projects for the state via the Division of Economic Advancement at the Ohio Department of Higher Education. The Ohio Supercomputer Center Program (3062B) supports the statewide resource at The Ohio State University that provides advanced modeling, simulation and analysis (MSA) resources and expertise to Ohio's academic and industrial researchers. Funding for the Air Force Institute of Technology (AFIT) Program (3064B) will support the Defense Associated Graduate Student Innovators (DAGSI), under the direction of AFIT, to increase and improve the quantity and quality of graduate educational and research opportunities, and create an environment conducive to economic development in Ohio. Beginning in fiscal year 2010, the operating budget bill provided for a transfer of Third Frontier Grants, through Fund 7011, to support research and development projects at Ohio's research universities through the Director's administration of the Research Incentive program.

Program Series 6: Workforce and Regional Economic Development (3070A)

This program series is intended to improve Ohio's competitiveness through services, activities, and partnerships that support worker skill-development and the competitive success of Ohio's business and industry. The Cooperative Extension Service Program (3070B) distributes funds to The Ohio State University in support of educational services available in each Ohio county. The Appalachian New Economy Program (3073B) supports initiatives that enhance the regional growth and competitiveness in the Appalachian Ohio economy. The Carl D. Perkins Program (3076B) develops the academic and career and technical skills of students who elect to enroll in career and technical education programs; specifically preparing students for high-skill, high-wage, or high-demand occupations. The Sea Grant Program (3074B) funding addresses critical issues like harmful algal blooms, toxin production, providing safe drinking water, sediment loading, aquatic invasive species and the dead zone in Lake Erie through research and education. The Ohio Means Jobs Program (3079B) supports ODHE's efforts to assist the Treasurer of State with the OhioMeansJobs Workforce Development Revolving Loan Program which is designed to assist students with loans for in-demand workforce programs.

Department Of Higher Education

Program Series 7: Higher Education Collaboration (3090A)

This program series supports efforts to better serve the educational needs of Ohio's citizens through enhanced collaborations among institutions of higher education. These programs focus on maximizing the state's capacity to deliver services to higher education consumers and to the broader community through distance education and statewide articulation and transfer policies. The OhioLINK Program (3090B) supports a library system that provides easy access to information and rapid delivery of materials throughout the state. The Ohio Learning Network (3091B) supports shared infrastructure service to ODHE and eStudent Services to Ohio's college students. The Regional Library Depositories Program (3092B) supports the efficient storage of, and access to, older or lesser used books and materials in Ohio's university library collections. Funding for the Ohio Academic Resources Network Program (3093B) helps support the statewide fiber optic network services for higher education and K-12 institutions across the state. The Ohio Articulation and Transfer Program (3094B) supports the seamless transfer of course credits earned by students at one institution so that they are applicable and transferable to public institutions across Ohio. The Midwest Compact Program (3095B) supports the annual fees for a consortium that is charged with promoting interstate cooperation and resource sharing in higher education through three core functions: cost savings programs, reduced tuition and policy research.

Program Series 8: Public Safety (3120A)

This program series consists of programs and activities that are designed to support and improve the safety of the general public. The programs range from enhancing campus safety to supporting students serving in the National Guard. The Campus Safety and Training Program (3120B) supports the development and implementation of best practices for preventing and responding to sexual assault on the campuses of public and private institutions of higher education in Ohio. The Ohio National Guard Tuition Grant Program (3122B) will support scholarships for Ohio National Guard members that cover full tuition at Ohio's public colleges and universities and a portion of these charges at private, independent and proprietary institutions.

Department Of Higher Education

Program Series 9: Medical Support (3130A)

This program series supports a wide array of medical educational activities at Ohio's universities. The program largely supports funding for healthcare-related education and activities that target specific fields of practice that are of special interest to the state. The Long-Term Care Research Program (3130B) funds are directed to Miami University in support of research into cost-effective healthcare practices that can be disseminated across the state. The Nurse Education Assistance Loan Program (3132B) funds provide financial assistance to Ohio students enrolled in at least half-time study in approved nursing or nurse education programs. The Human Services Project Program (3134B) provides appropriation authority to expend federal funds that enable Ohio's universities to conduct applied health services research. The Primary Care and Family Practice Program (3135B) funds are used to increase the quality and number of primary care and family physicians in medical practice in Ohio. Funding for The Ohio State University Clinic Support Program (3136B) provides funding for the clinical aspects of the institution's dentistry and veterinary medicine programs. The Case Western Reserve University School of Medicine Program (3137B) supports important medical training and creates an incentive for this private medical college to enroll more Ohioans in their medical program. The Clinical Teaching Program (3138B) funds support the clinical education of medical students attending the six public medical schools in Ohio. The Area Health Education Centers Program (3139B) provides funding for Ohio's medical schools for the purpose of providing healthcare in areas of the state experiencing a shortage. The Geriatric Medicine Program (3140B) funds ensure that all Ohio medical students receive specific education and training in the care of older adults as required under Ohio Revised Code Section 3333.111.

Program Series 10: Planning and Coordination (3160A)

This program series encompasses the primary administrative duties of the Department of Higher Education. Virtually all facets of agency operations fall under this program series. Program Management (3160B) funding is used to equip the Department of Higher Education with the staff and resources necessary to help the agency fulfill its mission and statutory obligation of providing higher education policy and budget advice to the Governor and General Assembly. The Program Approval and Reauthorization Program (3162B) provides appropriation authority to expend fees collected to ensure that degree programs offered in the state by Ohio's independent colleges and schools and by out-of-state institutions are of high quality.

Program Series 11: Ohio Tuition Trust Authority (3170A)

This program series supports the goal of increasing access to higher education by providing a variety of college savings and investment options. The Guaranteed Savings Plan Program (3170B) supports the administration of the Guaranteed Savings Plan, which has nearly 22,000 participants and over \$269 million in assets. The Variable Savings Plan Program (3171B) supports the maintenance and operation of the CollegeAdvantage 529 Savings Plan, which has nearly 620,000 investors and over \$11 billion in assets.

DHE ALI Analysis

235438, Choose Ohio First Scholarship: Additional funding will provide approximately 2,500 more scholarships that target under-represented student populations and significantly strengthen Ohio's competitiveness within STEM disciplines and STEM education. Choose Ohio First funds higher education and business collaborations that will have the most impact on Ohio's position in world markets such as aerospace, medicine, computer technology and alternative energy.

235563, Ohio College Opportunity Grant: The increase in funding will enable per student award amounts to raise by \$400 in fiscal year 2020 and an additional \$500 in fiscal year 2021 and provide \$3 million to eligible Ohio College Opportunity Grant community college students to help purchase textbooks and instructional materials. Increasing the Ohio College Opportunity Grant program to this level helps support lower-income Ohioans in their pursuit to obtain a degree.

Higher Educational Facility Commission

Role and Overview

The Ohio Educational Facility Commission (HEF) was created for the purpose of assisting independent, not-for-profit institutions of higher education to finance the construction, renovation, or rehabilitation of educational facilities through tax-exempt bonds.

More information regarding the Higher Educational Facility Commission is available at <https://ohefc.ohiohighered.org/>.

Agency Priorities

- Continue offering independent, not-for-profit institutions of higher education the ability to issue tax-exempt bonds at no cost to the State of Ohio.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$12.5 thousand (or a 0.0% increase from fiscal year 2019). Funding for fiscal year 2021 is \$12.5 thousand (or a 0.0% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Provide reimbursement to commission members for necessary travel expenses.
- Fund occasional professional services or consultation, on an as-needed basis, for special issues.
- Maintain membership of the commission in the National Association of Health and Educational Facilities Finance Authorities, which provides professional development and periodic state and national policy and advisory information.

Higher Educational Facility Commission

Program Series 1: Higher Education (132A0)

This program series provides assistance to Ohio's independent colleges and universities for the construction of capital facilities at a lower interest cost than would otherwise be available. The commission finances the construction of facilities for independent colleges and universities through the sale of tax-exempt bonds. In turn, the commission enters into agreements whereby a college or university leases the facility from the commission and pays rent to the commission in the amount needed to retire the bonds. Program Management (132B1) funds facilitate this process and provide reimbursement to the Department of Higher Education for the provision of professional staff support to the commission.

Commission on Hispanic/Latino Affairs

Role and Overview

The Ohio Commission on Hispanic-Latino Affairs (OCHLA) provides leadership in addressing issues concerning Hispanic-Latino Ohioans. OCHLA serves as a liaison between state government and the Hispanic-Latino community, and advocates for the development and implementation of policies and programs to address their needs. Its three key mandates are to advise the governor and legislators on issues affecting the Latino community, to connect the Latino and Latino-serving organizations across the state, and to build the capacity of Latinos and organizations in Ohio. OCHLA works with community councils and organizations to strengthen direct contact and communication of state government with Latino leadership and communities. It has established relationships with 18 Latino networking groups and hosts the Ohio Latino Network (OLAnet) with over 400 Latino serving organizations, with the result of an increase of the quantity and quality of information disseminated for and about Hispanic-Latino Ohioans. OCHLA works with state agencies and commissions to support their efforts to reach, serve, educate and inform the growing Latino community, through consultation on outreach strategy, cultural appropriateness, translations and direct outreach/campaign deliveries. It is governed by an 11-member board appointed by the Governor. The Board is supported by a staff of three full-time and one part-time people, who focus resources on programs and activities in the areas of education, employment, health, equity and inclusion. The Commission has four employees.

More information regarding the Commission on Hispanic/Latino Affairs is available at <http://www.ochla.ohio.gov/>.

Agency Priorities

- Gather and disseminate information about and for the Hispanic Latino community.
- Advise policy makers, and state and local governments on issues facing the Hispanic-Latino community.
- Build the capacity of Hispanic-Latino serving organizations by identifying state, federal and private sector resources, applying for and administering grants, and hosting training and capacity building events in partnership with other state agencies and partners.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$464.9 thousand (or a 0.2% increase from fiscal year 2019). Funding for fiscal year 2021 is \$464.0 thousand (or a 0.2% decrease from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$489.4 thousand (or a 0.2% increase from fiscal year 2019). Funding for fiscal year 2021 is \$488.6 thousand (or a 0.2% decrease from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Maintain a directory of over 400 Latino serving organizations; update six resource listings, including a directory of bilingual government services. Assist ten Latino networking councils, ten state agencies/commissions, the legislature and local governments. Promote over 5,000 events per year. Increase use of website and social media to connect Latinos to state services. Host the Distinguished Hispanic Ohioan Awards Recognition, and promote campaigns on emergency preparedness and fire safety.
- Produce annually ten policy briefs, three issue briefs, five legislative briefs, and additional research as requested by the legislature. Maintain the OLAnet reports database and catalog of state agency Latino outreach initiatives. Organize and host the Latino Legislative Day, Latino Education Summit and Latino Health Summit.
- Build the capacity of non-profit, private sector community organizations through Agenda Latina, social entrepreneurship workshops/webinars and board trainings. Identify and promote federal/state/private funding sources. Apply for and secure at least three grants. Build three Latino collaboratives and a leadership training program in northeastern Ohio, build coalitions and associations of local agencies.

Ohio History Connection

Role and Overview

The Ohio History Connection (OHS) has a longstanding relationship with the State of Ohio that dates back to the organization's founding in 1885. As the state's nonprofit history partner, the Ohio History Connection carries out numerous public responsibilities, listed primarily in sections 149.30 and 149.31 of the Ohio Revised Code, in exchange for state operating support. These responsibilities include: maintaining and operating the state's nearly 60 historical sites and museums; preserving and ensuring public access to the state archives; providing expertise related to historic preservation; creating educational materials for Ohio school children; promoting the development of county and local historical societies; and collecting and preserving artifacts related to Ohio history. The Ohio History Connection serves as the steward of many of the state's most important historical items such as priceless prehistoric objects, the state's original constitutions, and historic sites. OHS maintains effective management agreements with local organizations that help operate most of the Ohio History Connection's historic sites and museums. OHS and several of its historic sites and museums are among the less than 5 percent of museums in the country that have earned accreditation through the American Alliance of Museums. More than 400,000 people visit the Ohio History Connection's historic sites and museums each year and many more use the organization's services for educational purposes, economic development, genealogy research, accessing online research tools and images, and much more. The Ohio History Connection's 21-member Board of Trustees, which includes nine members appointed by the Governor, oversees the strategic direction of the organization.

More information regarding the Ohio History Connection is available at <http://www.ohiohistory.org>.

Agency Priorities

- Preserve and promote the state's nearly 60 historic sites and museums, as well as access to documents and artifacts that record the history of Ohio through the state archives, collections services, and the research library.
- Engage as many people as possible in Ohio history through educational outreach and by supporting economic development, primarily through heritage tourism and facilitating the rehabilitation of historic buildings.
- Provide school-aged children with the highest quality informal history learning experiences that serve as companion elements to formal education programs, ensuring educational excellence.
- Continue to improve upon the services and programs offered to the public.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$13.3 million (or a 12.7% increase from fiscal year 2019). Funding for fiscal year 2021 is \$13.3 million (or a 0.3% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$13.5 million (or a 13.1% increase from fiscal year 2019). Funding for fiscal year 2021 is \$13.5 million (or a 0.3% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Strengthen the visitor experiences and increase attendance at the more than 50 historic sites and museums administered by the Ohio History Connection and to ensure their long-term preservation.
- Provide access to existing government records, including State Archives and physical history-related collections to more than 13,000 individuals who use the resources of the OHS archives/research library and the thousands of others who access OHS resources online only.
- Provide education programs to 20,000 students and deliver distance learning programs to more than 5,000 students and teachers annually.
- Review 275-300 federal and state tax credit applications, assess approximately 6,200 federally or state assisted projects for impact on historic resources, and list an additional 40-45 properties on the National Register of Historic Places.
- Operate and maintain the National Afro-American Museum, including tours and programs relating to the history of African-Americans, especially in Ohio.
- Operate and maintain the Hayes Presidential Center, which serves approximately 40,000 visitors annually.

State of Ohio

Ohio History Connection

Program Series 1: Ohio History Connection (150A0)

This program series includes all operations of the organization as prescribed in the Ohio Revised Code, as well as the specific mandate of maintaining the State Archives. The functions include the Historic Sites and Museum Operations Program (150B6) for maintaining the facilities and operating historic sites, the Education and Historical Collection Program (150B5) which manages collections and the Archive and responds to inquiries from researchers, and the Outreach and Statewide Partnerships program, which provides services to local entities throughout the state. The Historic Preservation Office (150B8) reviews federal tax credit applications and identifies sites for the National Register. The National Afro-American Museum (150B9), the Hayes Presidential Center (150C1), Ohio History Tax Check-off (150C3), and the Ohio History License Plate Contribution (150C4) are also supported by this program series.

Ohio Housing Finance Agency

Role and Overview

The Ohio Housing Finance Agency (OHFA) makes affordable housing opportunities available to low- to moderate-income Ohioans, including first-time homebuyers, renters, senior citizens, and other populations with special needs. Payroll is the only portion of OHFA's budget appropriated through the state legislative process and included in the Executive Budget. Although OHFA's programmatic activities are not financed using state revenues, the agency is subject to personnel ceilings. OHFA is governed by an 11-member board. Nine of the board members represent various sectors of the affordable housing community and the public, and are appointed by the Governor. The other two board members are the directors of the Ohio Department of Commerce and the Ohio Development Services Agency or their designees. Since its inception in 1983, OHFA has issued over \$11 billion in tax-exempt mortgage revenue bonds and over \$700 million in multifamily mortgage revenue bonds. These have empowered more than 142,000 households in all of Ohio's 88 counties to secure housing. As the allocating agency for the federal housing credit program, more than 100,000 rental housing units have been created or rehabilitated since 1987. OHFA continues to respond to the diverse housing needs of Ohioans by providing programs and resources that make sustainable, quality housing available for low- to moderate-income households. OHFA's mission, "We Open the Doors to an Affordable Place to Call Home", guides all agency programs and policies. OHFA believes every Ohioan should have access to quality affordable housing, which is a key component for building a strong future in Ohio. The agency has 126 permanent employees.

More information regarding the Ohio Housing Finance Agency is available at <http://ohiohome.org/>.

Agency Priorities

- Expand and preserve affordable housing opportunities through the continued development and administration of OHFA's core programs.
- Focus efforts on customer-driven, sustainable multi-sector solutions to promote public health, welfare and prosperity of the people of the state through the production and preservation of affordable housing.
- Promote awareness of affordable housing programs in Ohio to external stakeholders and citizens.
- Strengthen OHFA's workforce culture to encourage personal and professional growth, innovation, and collaboration among all staff to advance OHFA's mission.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$12.3 million (or a 3.0% increase from fiscal year 2019). Funding for fiscal year 2021 is \$12.8 million (or a 4.5% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Recruit and retain experienced employees who have affordable housing expertise, knowledge, and training. With key staffing departures during the fiscal year 2018-2019 biennium, the agency will focus on building and maintaining its internal capacity to provide low-interest capital for affordable homebuyer programs.
- Provide staffing to continue administering the First-Time Homebuyer Program. The agency's homebuyer loan volume continues to increase year over year. During fiscal years 2015 through 2017, an average of 3,489 loans were issued to low-and-moderate income households. OHFA will provide staffing to perform loan closing duties which lenders currently perform on our behalf. This will improve customer service and enable OHFA to efficiently process loan applications.
- As the Save the Dream Ohio Project winds down, the agency needs to maintain support staffing to continue services in key areas by developing a wellness center for borrowers participating in OHFA's homebuyer programs and developing a foreclosure referral call center.
- Support staffing to administer the agency's Ohio 811 Project Rental Assistance. The Ohio 811 Project Rental Assistance Program is a \$12 million project-based rental subsidy program funded by the U.S. Department of Housing and Urban Development (HUD).

Ohio Housing Finance Agency

- Provide staffing for the Housing Tax Credit Program. The number and age of properties in the agency's rental housing portfolio and changes to the federal HOME Program have made the monitoring process for these properties more complex and expensive to implement.
- Support staffing needed to monitor compliance at over 92,000 Housing Credit and Housing Development Assistance Program rental units, over 16,000 Housing Credit and Housing Development Assistance Program buildings, and 3,500 multifamily bond-financed units, as well as administer the Housing Development Assistance, Community Housing Development Organization Operating Grant, and Multifamily Lending Programs.
- Support staffing needed to collaborate with the Ohio Department of Medicaid in the Subsidy Demonstration Program, to collaborate with the Ohio Department of Health to reduce the incidence of lead poisoning in the state and to reduce infant mortality, to support efforts to address Ohio's opioid and addiction crises and to spearhead the Ohio Human Services Data Warehouse.
- Support the oversight of all agency activities, including centralized information technology and human resources along with financial, marketing, internal audit, and legal services.

State of Ohio

Ohio Housing Finance Agency

Program Series 1: Affordable Housing (133A0)

This program series allows the Ohio Housing Finance Agency to provide affordable housing opportunities to low- to moderate-income Ohioans, including families with children, senior citizens, and persons with special needs. The agency provides capital for affordable loans to first-time homebuyers; finances rental housing through housing tax credits, loans, and grants; and administers federal and state grant programs that address significant housing needs of the state. The agency primarily uses tax-exempt bonds and its own reserves to provide and maintain affordable places for Ohioans to call home. The program series houses four programs: Homeownership (133B1), Planning, Preservation, and Development (133B2), Program Compliance (133B3), and Program Management (133B4).

Ohio Industrial Commission

Role and Overview

The Ohio Industrial Commission (OIC) serves as the adjudicative branch of the workers' compensation system where disputed issues are resolved on an impartial basis. The agency hears a volume of 112,000 claims annually in 12 regional offices. The hearing process begins when the Commission assumes jurisdiction of an issue after an appeal of a Bureau of Workers' Compensation order. The hearings, which are quasi-judicial in nature, are conducted at three levels within the Commission. The first level is the district hearing level. If the district level decision is appealed, a mandatory staff hearing is held. If this decision is appealed, a hearing may be held before the three-member Commission. This hearing is discretionary and is based on criteria set forth in an OIC resolution. Any further appeals are handled through the Ohio court system where the Attorney General's Office represents the Commission. Hearing policy and process is governed by the three-member Commission appointed by the Governor, with the advice and consent of the Senate. Each member is required to have six or more years of recognized expertise in the field of workers' compensation and at least one member is required to be a licensed attorney. The Chairman of the Commission, as chief executive officer, and the executive director administer daily operations conducted by a workforce that includes approximately 340 employees. The Commission has recently achieved significant savings in labor costs by investing in technology, specifically for the internal hearings process. Further, recent updates to the OIC's ICON public website allow stakeholders to submit and receive documentation electronically thereby expediting the process while reducing "hands-on" processing time. The OIC remains committed to maintaining an impartial and expeditious adjudication process.

More information regarding the Ohio Industrial Commission is available at <http://www.ic.ohio.gov/>.

Agency Priorities

- Provide fair and impartial resolutions to disputes in workers' compensation claims through an easily accessible hearing process completed within the time frames mandated by law and at the least possible cost to Ohio employers.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$54.6 million (or a 13.3% increase from fiscal year 2019). Funding for fiscal year 2021 is \$54.8 million (or a 0.3% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Provide claims adjudication for over 112,500 contested claims per year affecting nearly 53,000 claimants across 12 regional offices located throughout Ohio.
- Fund rent and any improvement needs for William Green Building in Columbus.
- Fund the Ohio Attorney General (OAG) to represent the commission in approximately 6,000 case filings heard in the Ohio courts system each year.

Office of Inspector General

Role and Overview

The Inspector General's Office (IGO) examines, investigates, and makes recommendations concerning alleged wrongful acts and omissions within the executive branch of state government. The jurisdiction of this office extends to the Governor and his staff, state agencies, departments, boards, commissions, state colleges and universities, and any other entities subject to the authority of the Governor. Unless specifically authorized by the legislature, the IGO is prohibited from examining, investigating, and making recommendations concerning the Ohio legislature, Supreme Court, Secretary of State, Auditor of State, Treasurer of State, or Attorney General. Complaints received by the Office are reviewed and evaluated to determine whether there is reasonable cause to believe the underlying allegations, if true, would constitute a wrongful act or omission on the part of a state agency, officer, or employee. Should the IGO determine there is reasonable cause warranting further review, the IGO conducts a thorough and objective investigation of the alleged wrongdoings and issues a report detailing the investigation's findings. The IGO provides a report of the investigation to the Governor and the agency subject to investigation. Recommendations for the agency may be included in the report of investigation to prevent the recurrence of similar fraud, waste, abuse, or corruption. Reports of the investigation identifying actions involving possible civil or criminal violations of law may also be referred to federal, state, or local regulatory or prosecutorial authorities for further consideration. The agency is comprised of 17 full-time employees who are assigned to one of four areas of operation: office management, administrative/investigative support, legal counsel, and investigations. During calendar years 2016 and 2017, the agency received and reviewed 766 complaints, conducted and closed 105 investigations, and identified over \$9,000,000 lost to the State of Ohio.

More information regarding the Office of Inspector General is available at <http://watchdog.ohio.gov/>.

Agency Priorities

- Review and evaluate all complaints of alleged wrongdoing received by the IGO in a timely and impartial manner.
- Conduct thorough, objective, and accurate investigations of alleged wrongdoing; issue a report detailing the investigation's findings; and, When necessary, issue recommendations to the subject agency to improve its operations and integrity.
- Initiate and conduct special investigations to determine whether wrongdoing has been committed or is being committed by a State of Ohio agency, officer, or employee within IGO's authority.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$1.5 million (or a 7.9% increase from fiscal year 2019). Funding for fiscal year 2021 is \$1.5 million (or a 0.2% decrease from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$2.3 million (or a 6.4% increase from fiscal year 2019). Funding for fiscal year 2021 is \$2.3 million (or a 0.1% decrease from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Support expenditures related to conducting investigations that are completed by deputy inspectors general (DIG) including the DIGs assigned to the Ohio Bureau of Workers' Compensation (BWC) and the Ohio Department of Transportation (DOT). These expenditures include expenses related to conducting research, forensic software applications, IT improvements, and facilities and supplies.
- Support expenditures related to personal service contracts with subject matter experts whose expertise is required to comprehensively complete an investigation.

Department of Insurance

Role and Overview

The Department of Insurance (INS) provides consumer protection through education and fair, but vigilant, regulation while promoting a stable and competitive insurance marketplace. The Department is charged under the Ohio Revised Code with the responsibility of regulating the activities of more than 1,650 insurance companies, including nearly 270 domestic companies that write more than \$84 billion in insurance premiums, and pay approximately \$596.3 million each year in premium taxes to the General Revenue Fund. Ohio is the sixth largest insurance state by premium volume in the United States and the 17th largest insurance market in the world. The industry is one of Ohio's largest employers, employing more than 100,000 people, not including agents. In addition, the Department issues licenses, monitors the conduct of more than 220,000 insurance agents, and oversees 17,900 insurance agencies doing business in Ohio. The Department monitors the financial health of insurance companies and investigates consumer complaints and insurance fraud. The Department also determines if services and benefits offered by insurance companies are consistent with policy provisions and Ohio law, reviews company filings for life, accident, health, managed care, property and casualty policies, and reviews and approves forms and rates. The Department carries out all of these duties with funding provided solely by Ohio's insurance industry. Companies, agents and other entities pay fees providing 100 percent of the Department's necessary funding. The director, appointed by the Governor, leads the Department, which has 245 full-time permanent employees.

More information regarding the Department of Insurance is available at <http://insurance.ohio.gov/>.

Agency Priorities

- Empower consumers to make informed insurance purchasing decisions by providing educational information, training and consultation. The Department will conduct outreach on an ongoing basis and work collaboratively with stakeholders to better serve Ohio consumers.
- Enhance Ohio's ability to attract and retain insurance businesses and jobs for Ohioans through regulatory reform while ensuring a stable insurance market for consumers. The Department will review existing rules and regulations to promote flexibility, balance, transparency and consistency.
- Investigate persons or entities who commit insurance fraud or are suspected of violating Ohio's insurance laws, including those laws regarding unfair or deceptive practices. The Department will provide a regulatory response that is reasonable, appropriate and proportional.
- Provide a regulatory environment that supports a competitive and stable insurance market for consumers. The Department will assess solvency and review statutory filings of Ohio-based companies, as well as rate and policy form filings from all companies licensed in Ohio.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$42.1 million (or a 11.5% increase from fiscal year 2019). Funding for fiscal year 2021 is \$43.5 million (or a 3.1% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Provide consumers with education and resources to help them better understand insurance matters and coverage options, including expanded outreach and education regarding consumers' coverage for mental health and addiction services.
- Provide consumers with assistance regarding insurance coverage and claims-related concerns.
- Protect Ohio's senior population from predatory sales practices by strengthening regulatory measures, educating seniors, and continuing partnerships with organizations that serve senior citizens.
- Continue working collaboratively with stakeholders to identify ways the Department can better serve Ohio consumers.
- Work with Ohio insurers to implement regulatory reforms that spur innovation and the development of technology that will better serve consumers while increasing competition.

Department of Insurance

- Monitor the financial solvency of insurance companies and health insuring corporations operating in Ohio and assure that companies operating in Ohio are stable and sound.
- Monitor insurance sales, claims handling activities, and insurance company interactions with policyholders to ensure they are fair and comply with Ohio law.
- Investigate fraud and misconduct in a thorough and professional manner.
- Provide staff educational and training opportunities to enhance their insurance knowledge in order to effectively monitor a complex and ever-changing insurance industry.
- Continue efforts in overseeing the licensure and education of insurance agents.
- Maintain a leadership role in the National Association of Insurance Commissioners, the US standard-setting and regulatory support organization created by the chief insurance regulators from the 50 states, the District of Columbia and five U.S. territories.
- Continue implementation of an enterprise system that will facilitate e-commerce with business constituents and allow Ohio to comply with the reporting requirements of the National Association of Insurance Commissioners.

Department of Insurance

Program Series 1: Investigative and Licensing (7500A)

This program series ensures compliance with Ohio's insurance laws and regulations by both individual agents and business entities. The Market Conduct Program (7500B) monitors insurers' compliance with Ohio insurance laws and regulations by examining insurance entities' business practices, such as underwriting, marketing, and claims handling. The Licensing Program (7505B) determines if an individual or business entity has met the minimum qualifications needed to be issued an insurance license from the state. The program also determines if the licensed individuals and business entities have met the minimum requirements to renew and maintain the license; monitors the continuing education hours for individual insurance agents; processes insurance company appointments of authorized agents; and proposes regulatory action against licensees that are not in compliance with the education requirements. The Fraud Investigation and Enforcement Program (7510B) investigates alleged misconduct or fraud committed by licensed individual entities, consumers, third parties, and medical providers. Agents who engage in such acts may lose their licenses or face other sanctions. This program frequently refers cases to local, state, and federal prosecutors, and provides evidence and testimony regarding investigations conducted.

Program Series 2: Risk Assessment (7520A)

This program series contains the Risk Assessment Program (7520B), which regulates the financial solvency of all domestic (Ohio-based) insurance companies, and also monitors and coordinates regulatory oversight of the financial conditions of out-of-state, surplus lines, captive insurance companies, and international insurers. The program reviews financial statements of every company licensed in Ohio and oversees complex transactions that can include billions of dollars in assets to ensure that insurance companies have enough money to pay claims filed by consumers. The program also calculates and certifies to the Treasurer of State the domestic and foreign insurance premium tax owed to the state. In addition, the program monitors insurers' statutory and solvency compliance on an ongoing basis and conducts on-site field examinations.

Fund	ALI	ALI Name	Estimated	Recommended

Total for Risk Assessment			8,601,437	9,588,161	11.5%	9,829,766	2.5%

Program Series 3: Product Regulation (7530A)

This program series contains the Product Regulation Program (7535B), which reviews policy forms, endorsements, and rules for products marketed to Ohio consumers by Ohio licensed property and casualty companies as well as life and health companies. The program also reviews title insurance, risk purchasing and risk retention group registrations, and surplus lines reports. Policy language is also reviewed for clarity and compliance with statutes and rules. The program also monitors the annual open enrollments of the individual health insurance market. Program staff members analyze the valuation of reserve liabilities for domestic life insurance companies, monitor the reserve valuations of domestic health insurers, and review the actuarial opinions, memoranda, and summaries for all domestic insurers. Program staff members participate in all risk assessment examinations to evaluate reserving, pricing, underwriting and liquidity risks, among others.

Department of Insurance

Program Series 4: Consumer Services (7540A)

This program series contains the Consumer Services Program (7540B), which assists Ohio insurance consumers through telephone, internet and written communications, one-on-one meetings, and community outreach activities. The program representatives respond to inquiries regarding a wide variety of insurance matters and investigate insurance consumer complaints. In addition, they identify violations of Ohio's insurance laws, counsel victims at disaster assistance sites, meet with insurance industry professionals, and conduct insurance fairs across the state. This program series also contains the Ohio Senior Insurance Information Partnership Program (7545B), which is funded by both state funds and by a grant from the Centers for Medicare and Medicaid Services (CMS). It was established in 1992 to provide Ohio's 2.2 million Medicare beneficiaries with free, objective health insurance information and one-on-one counseling.

Program Series 5: Program Management (7560A)

This program series contains the Program Management Program (7560B), which consists of management and support functions including executive, legal, general services, and information technology. The executive staff members oversee the operations of the Department, develop policies on all insurance matters, and represent the Department in the legislature. The legal staff members handle regulatory transactions, administer public hearings on agent and company license and enforcement issues, and provide legal assistance to other divisions of the Department. The Office of General Services provides operational support including human resources, fiscal, budgeting, and facility management. Information technology assists the Department's regulatory oversight responsibilities through application of technology.

Department of Job and Family Services

Role and Overview

The Ohio Department of Job and Family Services (JFS) is responsible for developing and overseeing Ohio's public assistance, workforce development, unemployment insurance, child and adult protective services, adoption, child care, and child support programs. Many JFS programs are supervised by the state and administered by county or local agencies, including 88 county departments of job and family services, separate public children services agencies, separate child support enforcement agencies, and workforce development boards. JFS provides state and federal funding to county and local agencies to develop programs to respond to local needs. JFS provides technical assistance and support to ensure compliance with federal and state regulations. Most programs the Department supervises are federally mandated and funded. For example, the Temporary Assistance for Needy Families (TANF) block grant funds financial assistance for families. The federal Workforce Innovation and Opportunity Act (WIOA) funds job training and job placement services for workers and employers. Title III of the Social Security Act sets forth federal standards for the administration of the unemployment insurance program and authorizes federal administrative funding. The administration and funding of these programs represent a cooperative partnership between federal, state, and local governments. The JFS director currently manages approximately 2,300 employees.

More information regarding the Department of Job and Family Services is available at <http://jfs.ohio.gov/>.

Agency Priorities

- Expand access to high-quality early care and education for Ohio's children by expanding the Step Up To Quality child care rating system and increasing the initial income eligibility for publicly funded child care from 130 to 150 percent of the federal poverty guidelines.
- Support the transformation of Ohio's child welfare system, which has been strained by the opioid epidemic. Continue supporting kinship caregivers through the Kinship Permanency Incentive Program and the Kinship Child Care Program, and fully fund the Bridges program for former foster youth who age out of foster care.
- Expand wrap-around service models, such as the Ohio Sobriety Treatment, Abuse, and Reducing Trauma (Ohio START) program. Ohio START provides specialized victim services to children who have been abused or neglected because of parental drug use, and provides drug treatment to for those parents.
- Support funding for our approximately 150 county partner agencies, which are the front door of most of our services to Ohioans. Nearly all county subsidies are eligible to draw additional federal reimbursement. Also, fully support and permit the federal draw for Medicaid state hearings and county IT support. Although Medicaid separated from JFS several years ago, JFS continues to support these crucial administrative activities.
- Connect more people seeking work, including individuals with disabilities, with businesses that are hiring by enhancing OhioMeansJobs.com to improve both the functionality and user experience.
- Fully fund Ohio Benefits (benefits.ohio.gov), the integrated eligibility system that Ohioans can now use to apply not only for Medicaid, but also cash and food assistance. By moving to a single eligibility system, and taking advantage of 21st century technology, the benefit determination process has been greatly simplified, and residents can apply for benefits directly, wherever they have a web connection.
- Continue right-sizing our Office of Unemployment Insurance Operations while developing staffing plans that can be implemented quickly based on future needs.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$872.9 million (or a 11.5% increase from fiscal year 2019). Funding for fiscal year 2021 is \$873.0 million (or a 0.0% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$3.7 billion (or a 6.0% increase from fiscal year 2019). Funding for fiscal year 2021 is \$3.7 billion (or a 1.5% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Ensure 100 percent of publicly funded child care providers are rated in the Step Up to Quality program by the end of fiscal year 2020, and 60 percent of centers and large child care homes are highly rated by the end of fiscal year 2021 to meet statutory requirements.
- Ensure approximately 27,712 children in foster care are served at some point each fiscal year; provide partial federal reimbursement for placement costs incurred by approximately 20,360 children in foster care each year. This includes the H.B. 50 inclusion of foster children through 21 years of age.
- Provide subsidized child care to approximately 123,000 children per month in fiscal year 2020 and 125,000 children per month in fiscal year 2021.
- Provide independent living services for more than 4,800 youth and young adults who transition out of the foster care system each year, and process more than 16,058 Kinship Permanency Incentive program applications each year.
- Provide approximately 2,135 training days annually for county child welfare workers and annually ensure 116,609 training hours for approximately 17,118 foster participants.
- Provide Ohio Works First (OWF) cash assistance to approximately 50,000 assistance groups, on average, per month in fiscal year 2020 and 50,000 assistance groups, on average, per month in fiscal year 2021.
- Support Ohioans in need of food assistance, including 1.4 million enrolled in the Supplemental Nutrition Assistance Program.
- Support more than one million child support cases to collect, process, and disburse nearly \$2 billion in child support payments each fiscal year.
- Offer employment assistance to approximately 1.4 million job-seeking individuals through the Wagner-Peyser program, process 140,438 Work Opportunity Tax Credit applications, and serve approximately 3,500 employment-seeking veterans in each fiscal year.
- Support call and processing centers statewide that handle more than 940,000 calls from unemployment claimants and disburse over \$896 million in benefits each year.
- Ensure administrative IT support for all agency programs: OhioMeansJobs, food assistance, foster care/adoption, child care, child support, workforce development, and unemployment assistance by providing information technology solutions and service delivery for more than 18,000 state, county and partner delivery agents.

Budget Fund Group Information

- The increase in Federal funds is largely due to increased revenues from the Child Care Development Fund, and the Workforce Innovation and Opportunity Act Programs.

Department of Job and Family Services

Program Series 1: Workforce (7600A)

This program series accelerates the employment success of Ohio's adult, youth, dislocated workers, and targeted job seekers. The Workforce Innovation and Opportunity Act Program (7600B) helps unemployed and underemployed adults and laid off workers upgrade their skills and find and keep jobs, and assists disadvantaged youth in pursuing their higher education goals and finding jobs. The Employment Services Program (7601B) provides labor exchange services to employers and job seekers. The Veterans Program (7602B) provides Ohio's veterans with employment and training assistance. The Trade Program (7603B) provides additional benefits and reemployment services to workers who are unemployed as a result of increased imports from or shifts in work to foreign countries. The Labor Market Information Program (7604B) collects and analyzes industry, occupational, and employment information to provide current statistics on economic and workforce indicators for Ohio. The program series supports OhioMeansJobs (OMJ), the state's premier resume and job bank.

Department of Job and Family Services

Program Series 2: Family Stability (7625A)

This program series provides services to help Ohioans remove barriers to employment and attain self-sufficiency. The Ohio Works First (OWF) Cash Assistance Program (7625B) provides time-limited cash assistance benefits to eligible families. The Non-Cash Family Support Program (7626B) provides support services such as transportation, youth workforce development, before- and after-school programs, and local administration. The Disability Financial Assistance Program (7627B) ended on December 31, 2017 which provided a monthly cash benefit to eligible individuals who were awaiting approval of Social Security. The Food Program (7628B) provides supplemental food and nutrition benefits to eligible low-income Ohioans. The Child Care Program (7629B) provides financial assistance to eligible parents to assist with child care costs while they engage in work and training efforts. The Refugee Services Program (7630B) assists federally designated refugees and selected others to resettle in Ohio.

Program Series 3: Child Support (7650A)

This program series provides financial and medical support services to children. The Child Support Program (7650B) provides child support services, such as locating noncustodial parents, establishing legal paternity, establishing child support or medical support orders, and enforcing such orders. The Child Support Program supports the statewide Child Support Enforcement Tracking System (SETS) and Child Support Payment Central (CSPC) systems.

State of Ohio

Department of Job and Family Services

Program Series 4: Family And Children (7675A)

This program series funds child abuse and neglect prevention, adult protective services, adoption, and foster care programs. The Child Prevention and Protective Services Program (7675B) provides services to abused and neglected children and their families. The Social Services Program (7676B) captures Title XX activities that serve vulnerable children and adults. The Adoption Services Program (7677B) identifies and recruits permanent families who can meet each child's needs and provides support to families to ensure the stability and well-being of the children in their care. The Foster Care Program (7678B) strives to reunify children with their families or find other permanent living arrangements for children who cannot safely return home. The program series funds Ohio's Statewide Automated Child Welfare Information System (SACWIS), which allows county caseworkers to track children throughout Ohio and across county lines.

Program Series 5: Health Care (7700A)

This program series funds Medicaid and health-care related program management activities. The Health Care Program Management Program (7705B) captures county administrative funding as well as support for non-emergency transportation services for the local delivery of the Medicaid Program. The program also includes Medicaid-related administrative expenses within the department.

Program Series 6: Unemployment Insurance Operations (7725A)

This program series primarily pays unemployment benefits to eligible workers covered by state unemployment insurance laws who lose their jobs through no fault of their own. The Unemployment Insurance Operations Program Management Program (7725B) is responsible for the collection of employer taxes to support the timely payment of unemployment benefits to individuals. The Unemployment Insurance Operations Program is responsible for the delivery of these benefits by registering unemployment claimants and/or taking applications via telephone. Additionally, program call centers are responsible for initiating the work registration progress for claimants who are required to seek employment as a condition of receiving unemployment benefits. This program also provides human resources, fiscal, and training supports for the successful implementation of Ohio's unemployment insurance program.

Program Series 7: Program Management (7775A)

This program series captures general operating expenses needed to fulfill the department's mission to improve the well-being of Ohio's workforce and families by promoting self-sufficiency and ensuring the safety of Ohio's most vulnerable citizens. The Program Management Program (7775B) provides administrative services and support at the state and county levels for all programs. The Program Management Information Technology Program (7776B) captures general operating expenses for the Office of Information Services, which works closely with all offices on technology projects and initiatives. The Office of Information Services also supports the operation of the information systems that support all of the department's program delivery.

Department of Job and Family Services

JFS ALI Analysis

600523, Family and Children Services: The increase funding in fiscal year 2020 supports the Governor's initiatives to recruit more foster and kinship caregivers, provide additional support to the county public children services agencies, and provided services to young adults who are transitioning out of foster care.

600617, Child Care Federal: The increase in fiscal year 2020 is due to an increase in the receipt of the federal Child Care Development Fund grant award. The additional funds will expand access to high-quality early care and education for Ohio's children.

600675, Fatherhood Commission: The federal grant award that supported the Fatherhood Commission program ended.

600698, Human Services Projects: The increase in fiscal year 2020 is largely due to increased funding for the state share of the child Support Enforcement Tracking System (SETS). The system upgrades will allow additional case management functionality needed for improved program implementation.

JFS ALI Restructuring

JFS is consolidating six existing GRF appropriation line items used for program operations: 600321 - Program Support, 600416 - Information Technology Projects, 600420 - Child Support Programs, 600421 - Family Assistance Programs, 600423 - Family and Children Services, and 600445 - Unemployment Insurance Administration. This consolidation will begin on July 1 of fiscal year 2020.

Joint Education Oversight Committee

Role and Overview

The Joint Education Oversight Committee (JEO) was created by House Bill 64 of the 131st General Assembly. The committee consists of five State Senators and five State Representatives. The committee may authorize a plan of work, which will include research, review, study and analysis of current or emerging education policy issues important to the state, as well as the available policy options to address such issues and the available data and research to support such analysis and options. The committee may also select for review and evaluation education programs in school districts, other public schools, and state institutions of higher education that receive state financial assistance in any form. These reviews and evaluations may include: assessment of the uses these entities make of state money they receive, determination of whether an education program meets its intended goals, examination of pilot programs developed and initiated in these entities to determine whether the programs suggest innovative, effective ways to deal with problems that may exist in similar entities. Additionally, the committee may prepare a report of its review. Pursuant to Section 107.03(B) of the Ohio Revised Code, the Governor may not alter the funding requests of agencies of the legislative branch of government. The Joint Education Oversight Committee provides the Office of Budget and Management with its budget request for inclusion in the Executive Budget proposal and not for consideration or approval.

More information regarding the Joint Education Oversight Committee is available at <http://jeoc.ohio.gov/>.

Agency Priorities

- Review and evaluate education programs that receive state financial assistance.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$376.7 thousand (or a 5.4% decrease from fiscal year 2019). Funding for fiscal year 2021 is \$378.7 thousand (or a 0.5% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$376.7 thousand (or a 5.4% decrease from fiscal year 2019). Funding for fiscal year 2021 is \$378.7 thousand (or a 0.5% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Research, review, study, and analyze current or emerging education policy issues important to the state.

Joint Legislative Ethics Committee

Role and Overview

The Joint Legislative Ethics Committee (JLE) establishes a code of ethics consistent with law to govern all members and employees of the state legislature and all candidates seeking election to the legislature. The committee consists of 12 members of the legislature. The Speaker of the House and the President of the Senate appoint six members each, with not more than three being from the same political party. The Speaker and the President annually alternate appointing the chairman and vice chairman of the committee. The committee employs an executive director and five full-time employees to assist in the exercise of its duties within the Office of the Legislative Inspector General. Employees also administer legislative, executive agency, and retirement system lobbyist registrations and filings and post-employment disclosure filings. All lobbying and financial disclosure documents filed with JLE and the searchable database of lobbyists and lobbyist employers are posted to the office website. Pursuant to Section 107.03(B) of the Ohio Revised Code, the Governor may not alter the funding requests of agencies of the legislative branch of government.

More information regarding the Joint Legislative Ethics Committee is available at <http://www.jlec-olig.state.oh.us/>.

Agency Priorities

- Establish a code of ethics consistent with law to govern all members and employees of the state legislature and all candidates seeking election to the legislature.
- Act as an advisory body on questions relating to ethics, conflicts of interest, and financial disclosure.
- Administer Ohio's lobbying disclosure law.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$550.0 thousand (or a 14.7% decrease from fiscal year 2019). Funding for fiscal year 2021 is \$550.0 thousand (or a 0.0% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$710.0 thousand (or a 11.7% decrease from fiscal year 2019). Funding for fiscal year 2021 is \$710.0 thousand (or a 0.0% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Continue the administration of public disclosure by lobbyists and their employers.

Joint Medicaid Oversight Committee

Role and Overview

The Joint Medicaid Oversight Committee (JMOC) was created by Senate Bill 206 of the 130th General Assembly. The committee consists of five state Senators and five state Representatives. The primary function of the JMOC is to provide continuing oversight of all facets of the state's Medicaid program. The committee oversees Medicaid compliance with legislative intent, evaluates legislation for long-term impact on Medicaid, and assists in limiting the rate of spending growth, while improving quality of care and health outcomes for individuals enrolled in the state's Medicaid program. The JMOC has two full-time employees to assist in carrying out the work of the committee. The JMOC also employs a contracted actuary to help establish the growth rate for the Medicaid Program. Pursuant to Section 107.03(B) of the Ohio Revised Code, the Governor may not alter the funding request of agencies of the legislative branch of government.

More information regarding the Joint Medicaid Oversight Committee is available at <http://www.jmoc.state.oh.us>.

Agency Priorities

- Oversight of current and future policy as it relates to long-term cost trend and financial sustainability of the Medicaid program.
- Limiting the rate of growth of the state's Medicaid program, at an aggregate monthly cost per recipient, to at least the medical inflation rate, while improving quality of care and health outcomes for Medicaid recipients.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$361.4 thousand (or a 38.6% decrease from fiscal year 2019). Funding for fiscal year 2021 is \$528.7 thousand (or a 46.3% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$361.4 thousand (or a 38.6% decrease from fiscal year 2019). Funding for fiscal year 2021 is \$528.7 thousand (or a 46.3% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Provide state funding for JMOC to employ professional, technical, and clerical employees as are necessary for JMOC to successfully and efficiently perform its duties.

Joint Medicaid Oversight Committee

Judicial Conference of Ohio

Role and Overview

The Judicial Conference (JCO), as an integral part of the judicial system of the state, continually studies the coordination of the work of the several courts of Ohio, encourages uniformity in the application of the law, rules and practice, promotes an exchange of experience within the judiciary, and generally considers the business and problems pertaining to the administration of justice throughout the state and makes recommendations for its improvement. Most of the work of the conference is performed by its Executive Committee and 20 standing and ad hoc committees of judges who volunteer their time to provide expertise, practical insight, and guidance to conference staff members. The conference provides information and collaboration to the other branches of Ohio government, reviews and comments on proposed legislation, and provides information to the public. All 722 Ohio judges are members of the Judicial Conference. Policy decisions are made by the Executive Committee comprised of approximately 50 members, including the Chief Justice of the Supreme Court of Ohio as honorary chair, the officers elected by the members, representatives of the various judicial associations, and the administrative executives of the Supreme Court and the Judicial Conference. The conference's seven staff members support the judicial committees and coordinate more than 80 meetings per year in person or via conference call. The staff also provide professional support to the six judicial associations as necessary. During the last biennium, the conference's legislative staff reviewed every bill introduced during the biennium for a judicial impact, prepared judicial impact statements and legislative letters, had judges testify before legislative committees, distributed a bi-weekly legislative newsletter, published Billboard listing bills the Conference monitors, conducted a Judicial-Legislative Exchange Program, and prepared and distributed Enactment News articles providing impact and practical implementation advice to judges.

More information regarding the Judicial Conference of Ohio is available at <http://www.ohiojudges.org>.

Agency Priorities

- Promote understanding and cooperation among the branches of government and provide information and services to other branches.
- Ensure uniformity in the application of the law and practice throughout the state by improving the administration of justice through sensible and practical legislation and collaboration at the state level.
- Provide leadership to the judiciary by speaking on behalf of judges, providing information and services to judges and by coordinating activities of the judicial associations.
- Promote public confidence in the judiciary by encouraging uniformity in the application of the law, rules, and practice and by enhancing the public's understanding of the judicial system.
- Expand innovation and efficiency in Ohio courts and encourage uniformity by serving as an easily accessible central resource of information and leadership.
- Provide resources to Ohio courts and judges to assist with budget, funding challenges, and conflicts with funding authorities
- Maintain current technology and internet access to available judicial resources.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$963.5 thousand (or a 34.7% increase from fiscal year 2019). Funding for fiscal year 2021 is \$911.3 thousand (or a 5.4% decrease from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$1.4 million (or a 26.0% increase from fiscal year 2019). Funding for fiscal year 2021 is \$1.4 million (or a 3.7% decrease from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Promote understanding of the law by having staff review every bill introduced during the biennium for judicial impact, analyze proposed changes to the Ohio Rules of Court, conduct research surveys, write letters to legislators, draft Judicial Impact Statements, arrange for testimony on legislation, publish Billboard and a bi-weekly legislative newsletter, and organize a Judicial-Legislative Exchange.

Judicial Conference of Ohio

- Encourage uniformity in application of the law by having staff analyze the impact of new laws and court decisions and prepare and distribute bench aids, update bench books, and draft forms, rules, and Enactment News to assist in standardized implementation throughout the state.
- Promote the exchange of experience within the judiciary by having staff support the over 20 standing and ad hoc judicial committees (which hold more than 80 meetings per year). Staff will also provide professional support to Ohio's six judicial associations as necessary.
- Make recommendations to improve the administration of justice in Ohio by having staff, In consultation with the Judicial Conference's committees, produce a legislative platform of recommended changes to the Ohio Revised Code and a Rules Platform of recommended changes to the Ohio Rules of Court. Staff will also monitor changes to the Ohio Revised Code and Ohio Supreme Court decisions in order to assist with implementation.
- Prepare and publish comprehensive Ohio Jury Instructions for use by Ohio judges. The committee will provide updates as needed but at least three times per year.
- Promote public confidence by assisting Judges with community outreach programs including copies of eight popular citizen guide brochures distributed throughout Ohio at no state expense. Judges will be encouraged to consider the role of the judge in the community and make recommendations for improvement of their offices.

Judicial Conference of Ohio

Program Series 1: Judicial System Review (135A0)

The Judicial Conference is an independent agency and an integral part of the judicial branch. The conference has one program series, the Judicial System Review, which contains one program (135B1) of the same name. This program studies the work of the several courts of Ohio, encourages uniformity in the application of the law, promotes an exchange of experience within the judiciary, reviews the system of justice throughout the state and recommends improvements in the State's administration of justice. Its committees of judges provide expertise, practical insight, and jury instructions as well as offering information to the other government branches, reviewing and commenting on proposed legislation, and providing information to the public.

Judiciary / Supreme Court

Role and Overview

The Supreme Court (JSC) is established by Article IV, Section 1 of the Ohio Constitution. Article IV, Section 2 of the Constitution sets the size of the Court and outlines its jurisdiction. Article IV, Section 5 of the Constitution grants rule making and other authority to the court. The Constitution also gives the Supreme Court authority to prescribe rules governing practice and procedure in all courts of the state and to exercise general superintendence over all state courts. The Constitution grants the Supreme Court exclusive authority to regulate admission to the practice of law, the discipline of attorneys admitted to practice, and all other matters relating to the practice of law. This third branch of government pays all or a substantial portion of the salaries for the judges of the state as established by the General Assembly and funds other expenses of the state's judicial system such as salaries for the support staff of the 12 Courts of Appeals, salaries for the justices of the Supreme Court and its staff, operation and maintenance of the Ohio Judicial Center, and providing programs for the benefit of the trial and appellate courts throughout the state. Special purpose appropriations are included for the Ohio Center for Law Related Education and the Ohio Courts Technology Initiative. The Ohio Courts Technology Initiative supports projects to facilitate the exchange of information between and among Ohio courts and their justice system partners such as through the creation of an Ohio Courts Network and the delivery of technology services to courts throughout the state. It includes the development and implementation of educational and training programs for judges and court personnel, and the creation and operation of the Commission on Technology and the courts for the promulgation of statewide rules, policies, and uniform standards, and to aid in the orderly adoption and comprehensive use of technology in Ohio courts.

More information regarding the Judiciary / Supreme Court is available at <http://www.supremecourt.ohio.gov/>.

Agency Priorities

- Preside over cases in the trial courts, intermediate appellate courts, and Supreme Court. Qualified attorneys will be admitted to practice law and register to continue practicing law, and the fees they pay will support programs and grievance/disciplinary matters involving attorneys.
- Support programs involving case management, mental health and drug courts, mediation, family and children, judicial education, and technology modernization to continue to help the justice system run more effectively.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$187.9 million (or a 8.5% increase from fiscal year 2019). Funding for fiscal year 2021 is \$191.3 million (or a 1.8% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$200.6 million (or a 7.7% increase from fiscal year 2019). Funding for fiscal year 2021 is \$203.7 million (or a 1.5% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Support the judicial process for all citizens in the state of Ohio.
- Assist the judicial system to run more effectively for the benefit of all citizens in the State of Ohio.

State of Ohio

Judiciary / Supreme Court

Program Series 1: Judiciary/Supreme Court (138A0)

The Supreme Court has one program series containing one program (138B1), named Judiciary/Supreme Court, which is established by Article IV, Section 1, of the Ohio Constitution. Article IV, Section 2, of the Constitution sets the size of the court and outlines its jurisdiction. Article IV, Section 5, of the Constitution grants rule making authority and other authority to the court. The Supreme Court is the court of last resort in Ohio, and most of its cases are appeals from the 12 district courts of appeals.

Lake Erie Commission

Role and Overview

The Lake Erie Commission (LEC) was established to preserve Lake Erie's natural resources, protect the quality of its waters and ecosystem, and promote economic development. Members of the LEC include the directors of the Ohio Environmental Protection Agency, the Departments of Transportation, Health, Development Services, Agriculture, and Natural Resources, plus five additional members appointed by the Governor. The Commission is re-focusing its mission and role in addressing the issues of Lake Erie. The Commission will play a coordinating role with local, state, and federal partners on programs and policies related to Lake Erie and the Lake Erie watershed. Over the past several years considerable attention and resources have been directed at Lake Erie, especially the western basin. As part of the update to the Great Lakes Water Quality Agreement between the United States and Canada, there is a need for the states to develop specific action plans to address the nutrient management and algae issues impacting the lake. Ohio has developed the Western Basin of Lake Erie Collaborative to address this issue. The Commission will play a more prevalent role in coordinating state and federal programs and funding as proposed in the Collaborative. In addition, the Commission has completed the Lake Erie Protection and Restoration Strategy (LEPRS), which identifies twelve priority areas on which attention is desired. The Commission will coordinate with the appropriate state and federal agencies to establish action steps and benchmarks to evaluate progress toward achieving the goals of the priority areas.

More information regarding the Lake Erie Commission is available at <https://lakeerie.ohio.gov/>.

Agency Priorities

- Continuing formal quarterly meetings of the Commission for updates from state agencies, local and federal partners on programs and activities concerning Lake Erie, and providing a forum for Ohio citizens and organizations to voice their views to senior officials of state government.
- Updating and coordination of the Lake Erie Protection and Restoration Strategy (LEPRS) and periodic LEPRS progress reports.
- Updating and coordinating the implementation of Ohio's Lake Erie Domestic Action Plan to achieve the goal of a 40% reduction in nutrients entering Lake Erie.
- Awarding and managing grants for research and demonstration projects through the Lake Erie Protection fund which will help in meeting the goals of the LEPRS.
- Developing and implementing a marketing strategy designed to increase sales of the Lake Erie license plate program and encouraging individual direct contributions to the Lake Erie Protection Fund.
- Serving as a clearinghouse for information pertaining to Lake Erie in coordination with state, federal, and local partners. Increasing awareness of the Commission and Lake Erie issues and opportunities through a more effective website, use of social media, and public speaking and participation at public events.
- Continuing coordination with the Ohio Sea Grant program at Stone Lab to maximize funding and avoid duplication of research pertaining to Lake Erie.
- Representing the State of Ohio on boards and commissions of regional and international Great Lakes focus.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$744.0 thousand (or a 82.8% decrease from fiscal year 2019). Funding for fiscal year 2021 is \$749.0 thousand (or a 0.7% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Ensure the coordination and implementation of federal, state, and local policies, issues and programs pertaining to Lake Erie with a priority on areas identified through the Lake Erie Protection and Restoration Strategy.
- Review, and make recommendations concerning the development and implementation of policies, programs, and issues that are consistent with the Great Lakes Water Quality Agreement and other international, federal, and state compacts and agreements.

Lake Erie Commission

- Serve as a clearinghouse and repository for information and data related to Lake Erie as determined by the Commission.
- Provide representation on the interests of Ohio in state, regional, national, and international forums pertaining to Lake Erie and the Lake Erie basin.
- Develop, implement, and coordinate an education, public information, and community relations program concerning the Commission's programs, policies, issues, and the resources of Lake Erie.
- Develop and implement a marketing program promoting the sale of the Lake Erie license plates and other public and private funds to carry out the programs of the Commission.

Budget Fund Group Information

- The Lake Erie Commission received an appropriation increase in fiscal year 2019 for one-time federal grants from the United States Environmental Protection Agency (USEPA). USEPA grant funds supported nutrient reduction and stream restoration work.

Legislative Service Commission

Role and Overview

The Legislative Service Commission (LSC) is a nonpartisan agency providing drafting, fiscal, research, training, and other services to the Ohio General Assembly. The governing authority of the LSC consists of 14 legislators, including the Speaker of the House and the President of the Senate. The Speaker and President each appoint six additional members; no more than four from each chamber may belong to the same political party. The day-to-day operation of the LSC is the responsibility of the director, who is appointed by the 14-member commission. LSC's Office of Research and Drafting (ORD) consists of attorneys and research associates and its Legislative Budget Office (LBO) consists of budget analysts and economists. LSC employs additional staff for other services. Two other legislative staffing agencies are funded from appropriations made to the LSC. The Legislative Information Systems Office (LIS) provides information technology, network development, and other support services to the Ohio General Assembly. The Correctional Institution Inspection Committee (CIIC) inspects and evaluates Ohio prisons. Currently, LSC, LIS, and CIIC employ a total of 215 full-time employees. Pursuant to Section 107.03(B) of the Ohio Revised Code, the Governor may not alter the funding requests of agencies of the legislative branch of government.

More information regarding the Legislative Service Commission is available at <https://www.lsc.ohio.gov/>.

Agency Priorities

- Provide drafting, fiscal, research, training, and other technical and legislative services to the Ohio General Assembly.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$31.2 million (or a 6.6% decrease from fiscal year 2019). Funding for fiscal year 2021 is \$32.0 million (or a 2.7% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$31.2 million (or a 6.6% decrease from fiscal year 2019). Funding for fiscal year 2021 is \$32.0 million (or a 2.7% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Draft and provide fiscal, research, training, and other services to the Ohio General Assembly. Also, LIS will continue its legislative information technology services and the CIIC will continue its legislative oversight of Ohio's prisons.

State Library Board

Role and Overview

The State Library Board (LIB) develops, maintains, provides, and disseminates information, library materials, and services to Ohio's libraries, state government, and residents. The State Library fulfills this role through research, information, training, and consulting services to state government. The State Library also assists all types of local libraries to provide enhanced levels of service and products. Three main components allow the State Library to implement its mission: the State Library Board, the State Library itself, and the Ohio Public Library Information Network (OPLIN). The State Library of Ohio, established in 1817, is governed by the State Library Board. The five board members are appointed by the Ohio Board of Education and serve five-year terms. The State Library is a reference library established to provide research and information services to state agencies. It is also a depository for Ohio state agency documents and a regional depository for federal documents. The OPLIN Board is appointed by the State Library Board to govern OPLIN as it delivers a statewide network for Ohio's public libraries. This network provides telecommunication connectivity, internet access, and a selection of research databases. OPLIN strengthens the services it provides by collaborating with the State Library Board, INFOhio, and OhioLINK. The day-to-day administration of the State Library Board is the responsibility of the State Librarian who serves at the pleasure of the Library Board. In the prior biennium, the Ohioana Library Association (OLA) was merged into the State Library. The State Library has 60 employees.

More information regarding the State Library Board is available at <http://library.ohio.gov>.

Agency Priorities

- Provide information to and about Ohio's state government.
- Lead innovation and development efforts for libraries to ensure ongoing relevance to their communities and offer enhanced library services to all Ohioans.
- Expand access to resources in cost-efficient ways through electronic channels and shared services, including a core set of electronic resources and the availability of e-content through the Ohio Digital Library, enabling life-long learning and ensuring Ohio residents have equal access to material in Ohio's libraries.
- Lead and partner with libraries to expand digitization efforts to widen access to the State Library's collection, increase resource sharing throughout the state, and provide broader access to many of Ohio's digital collections through the Ohio Digital Network, Ohio's service hub for the Digital Public Library of America (DPLA). The DPLA is an online portal that brings together the riches of America's libraries, archives, and museums, and makes them freely available to the world.
- Ensure equity of access to information for all Ohio residents through the OPLIN.
- Serve as the intermediary between state government and libraries for effective coordination of resources at the local level, with a focus on workforce development efforts in partnership with relevant state and local agencies.
- Support the role of public libraries as providers of early literacy experiences and education in their communities through resources, training, and other tools provided by the Ohio Ready to Read initiative to ensure every child enters kindergarten ready to read and better equipped to learn.
- Ensure equitable access to library materials for Ohio residents who are print-impaired due to visual or physical disabilities through the Talking Book Program.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$5.3 million (or a 0.0% increase from fiscal year 2019). Funding for fiscal year 2021 is \$5.3 million (or a 0.0% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$21.9 million (or a 0.0% increase from fiscal year 2019). Funding for fiscal year 2021 is \$21.9 million (or a 0.0% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Provide access to more than two million library materials on site, more than 100 research databases, and nearly fifty million copies held by OhioLINK, serve as a depository for Ohio state agency documents, and serve as Ohio's only full regional depository for federal documents.
- Provide facilities (an electronic classroom, and two large, and three small meeting rooms) and services for use by state agencies and the library community. In fiscal years 2017 and 2018, state agencies conducted 1,973 meetings utilizing these facilities, resulting in savings of nearly \$700,000 to the State of Ohio.
- Administer a shared catalog system with over 13 million items that circulates nearly 15 million library materials to approximately 2 million borrowers annually. This system of 93 libraries, plus the Serving Every Ohioan Library Center, is served through 227 locations in 47 Ohio counties. The savings to participating libraries in software licensing is \$1.7 million annually, with an additional \$139 million in savings through the Interlibrary Loan service.
- Operate a resource-sharing consortium of 93 multi-type libraries allowing library materials to be requested and delivered statewide. This consortium has saved Ohio libraries and taxpayers approximately \$23 million over the past 5 years, or \$4.6 million annually.
- Administer consortia for content that contain 383,469 copies of 162,028 unique titles. More than 175 primarily small and medium-sized public libraries have access to the more than \$8.5 million worth of eContent through the combined collections of the Ohio Digital Library.
- Provide network access to Ohio's 251 public libraries to ensure equity of access to the Internet and enable access to subscription databases and Ohio government services as well as electronic information through OPLIN.
- Provide reference services to state government. A staff of professional librarians is available to assist state employees and Ohio residents with answering questions and searching for information. Assistance is provided in-person, over the phone, or via e-mail. Plus, make a core set of electronic resources and services available to all Ohio residents at a cost savings of at least \$17.9 million each year for libraries and taxpayers.
- Enable the Ohio Library for the Blind and Physically Disabled, at the Cleveland Public Library, and the Talking Book Program's Machine Lending Agency, at the State Library, to deliver library materials and equipment across all 88 counties to physically handicapped Ohioans.

Liquor Control Commission

Role and Overview

The Liquor Control Commission is an adjudication and rule-making agency that oversees Ohio's alcoholic beverage industry. The Commission's mission is to provide fair and impartial hearings for the protection of the public and liquor permit holders and to ensure compliance with Ohio's liquor laws and rules. As a neutral, quasi-judicial body, the Commission hears and determines administrative cases against liquor permit holders for alleged violations of Ohio's liquor laws and rules, and appeal cases from actions or decisions of the Division of Liquor Control at the Department of Commerce concerning permit applications or renewals. The Commission also adjudicates complaints for the revocation or suspension of liquor permits, including complaints for alleged violations concerning the failure to pay taxes and fees owed to the state. The Commission typically handles over 2,500 cases annually. The Commission's rules govern the manufacture, distribution, and sale of alcoholic beverages in Ohio, as well as the procedures for suspension, revocation, and cancellation of liquor permits by the Division of Liquor Control at the Department of Commerce. The Commission's rules also govern the conduct of liquor retail businesses in order to maintain public decency, sobriety, and good order in liquor permit locations. The Commission consists of three members appointed by the Governor for six-year, staggered terms and is supported by five staff members. The Commission has a total of eight full-time, permanent employees.

More information regarding the Liquor Control Commission is available at <http://lcc.ohio.gov>.

Agency Priorities

- Carry out its mission with fairness and integrity while continuing to improve processes and contain costs.
- Ensure compliance with Ohio's liquor laws and rules.
- Meet all statutory duties and obligations as an adjudication body under ORC Chapter 119.
- Issue timely and accurate administrative orders.
- Properly adopt and promulgate rules that regulate Ohio's alcoholic beverage industry.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$873.6 thousand (or a 2.6% increase from fiscal year 2019). Funding for fiscal year 2021 is \$905.9 thousand (or a 3.7% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Provide fair and impartial hearings for the protection of the public and liquor permit holders, typically handling over 2,500 cases annually.
- Ensure a fair and transparent administrative rule-making process for Ohio's alcoholic beverage industry, with dollar sales of spirituous liquor reaching \$1.2 billion in fiscal year 2018.
- Collect financial forfeitures issued against liquor permit holders for violations of Ohio's liquor laws and rules, with over \$2.3 million in financial forfeitures deposited into the General Revenue Fund in fiscal years 2017 and 2018.
- Introduce innovative strategies to address organizational priorities and improve operational efficiencies while leveraging existing resources.

Liquor Control Commission

Program Series 1: State Liquor Law Hearings (139A0)

The Liquor Control Hearings program (139B1) provides fair and impartial hearings for the protection of the public and ensures compliance with the Ohio Revised Code and Ohio Administrative Code. This program also provides an open and fair process for the consideration, adoption, and promulgation of rules, standards, and requirements relating to alcohol which are established to carry out Chapters 4301 and 4303 of the Ohio Revised Code.

Lottery Commission

Role and Overview

The Ohio Lottery Commission's (LOT) purpose is to generate profits through the sale of lottery games in support of public primary, secondary, vocational, and special education. It has contributed over \$24 billion to public education in Ohio over its 44-year history. A nine-member commission, appointed by the Governor and confirmed by the Ohio Senate, governs the Lottery. The day-to-day operations are the responsibility of an executive director. The Commission employs approximately 380 people, including staff at video lottery facilities. It is a self-sufficient enterprise that requires no General Revenue Fund dollars. In the past decade, the Commission has grown its annual profit transfer from \$702 million in FY 2009 to \$1.087 billion in FY 2018. This was achieved by offering a diverse portfolio of draw, video lottery, and instant ticket games at nearly 10,000 Ohio retailers. The commission also regulates video lottery terminal games installed in seven Ohio racetracks in coordination with the Ohio State Racing Commission. The Ohio Lottery Commission encourages responsible gambling by providing funding to the Ohio Department of Mental Health and Addiction Services for the administration of treatment programs and provides support and funding for the Ohio for Responsible Gaming (ORG) programs that promote education, awareness, and prevention.

More information regarding the Lottery Commission is available at <https://www.ohiolottery.com/>.

Agency Priorities

- Meet or exceed profit commitments for the biennium.
- Protect the integrity of the Lottery with its employees, sales retailers, and its players.
- Innovate and modernize the agency to maximize operational efficiencies, adapt to consumer behavior, and serve as a model to other lotteries and Ohio agencies.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$374.2 million (or a 1.7% increase from fiscal year 2019). Funding for fiscal year 2021 is \$379.7 million (or a 1.5% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Develop, produce, distribute, and provide marketing and field support for lottery games at nearly 10,000 retail locations.
- Fund data processing, auditing and other controls to ensure the integrity of lottery games, drawings, and operations.
- Respond to consumer shifts by enhancing digital experiences.

Lottery Commission

Program Series 1: Traditional Lottery and VLT Operations (7900A)

This program series includes four programs that support the Lottery's mission of maximizing sales to generate profit for the Lottery Profits Education Fund. These programs include Traditional Lottery Sales (7900B), Marketing (7910B), Program Management (7915B), and Video Lottery Operations (7920B). These programs provide for costs associated with operating the gaming system, the production and distribution of tickets, personnel, creation and placement of specialized marketing programs, other administrative costs necessary to operate traditional lottery programs, video lottery support, and prizes.

Program Series 2: Problem Gambling (7925A)

This program series includes funding for Problem and Responsible Gambling Initiatives. The goals of this program are to support regional outpatient gambling treatment programs, train problem gambling counselors, increase identification and referral of problem gamblers to appropriate programs and services, establish a multi-agency Voluntary Exclusion Program, increase awareness of available services for problem gamblers and their families, train all Lottery retailers and Lottery employees on how to address problem gambling issues experienced by our customers, and to present media campaigns that promote methods of practicing responsible gambling and highlight prevention of problem gambling.

Department of Medicaid

Role and Overview

The Ohio Department of Medicaid (ODM) is the single state agency responsible for the administration of Ohio's Medicaid program. With a network of over 135,000 providers, Ohio's Medicaid program delivers health care access and related community support services to nearly three million Ohioans, including low-income parents, children, pregnant women, seniors, and individuals with disabilities. Over a third of those served by Ohio's Medicaid program are children. All eligible individuals are guaranteed health care coverage under the program, and it is operated and financed under two federal provisions - Medicaid and the Children's Health Insurance Program (CHIP). ODM collaborates with several other agencies that are also responsible for administering aspects of the program. Additionally, a variety of local entities assist with parts of the program, including 88 county departments of job and family services, county boards of developmental disabilities and community behavioral health boards, and area agencies on aging. Working in partnership with these agencies and community leaders across Ohio will be the cornerstone of the DeWine Administration. ODM maintains oversight and administrative responsibility for the Medicaid program and assures the federal Centers for Medicare and Medicaid Services (CMS) that federally required standards and requirements are maintained and met. The Department of Medicaid has 612 employees.

More information regarding the Department of Medicaid is available at <http://medicaid.ohio.gov>.

Agency Priorities

- ODM will ensure that children in Ohio have the tools to lead successful lives by contributing to state efforts to increase home visiting, decrease Ohio's infant mortality rate and its racial disparities, establish a wellness program for children, increase access to mental and physical health services in every school, and reform the foster care system in Ohio.
- To ensure that Ohio taxpayers are getting the best deal, ODM will increase withholds to the managed care plans tied to enhanced performance standards for quality and improving outcomes, review the managed care strategy and engage individuals, advocates, and partners as we procure innovative new managed care contracts. Additionally, managed care plans to improve pharmacy transparency using a transparent pass-through pricing model.
- ODM will be a critical partner with state and local leaders to improve behavioral health services across Ohio, especially in increasing substance use treatment capacity. ODM is working to stabilize the recently restructured behavioral health benefit package of services, and will build on these efforts with the goal of maintaining a comprehensive and coordinated system of care for children and adults. Relatedly, ODM will work with CMS to develop a waiver for substance use disorder services.
- ODM is excited to embrace technological advances and foster innovative approaches to improve population health, reduce health disparities, and increase transparency. We will work towards an integrated data environment to enhance data sharing, analytics and collaboration among state agencies and stakeholders. ODM will also pursue the use of Electronic Health Records, implement a best-in-class Ohio Medicaid Enterprise System (OMES), and improve access to care through expanded telehealth services.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$14.5 billion (or a 2.2% increase from fiscal year 2019). Funding for fiscal year 2021 is \$15.8 billion (or a 9.4% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$24.9 billion (or a 2.9% increase from fiscal year 2019). Funding for fiscal year 2021 is \$26.0 billion (or a 4.5% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Provide Medicaid services to nearly three million low-income individuals, children, pregnant women, older adults, and individuals with disabilities.
- Administer and manage the Medicaid program that contracts with more than 135,000 active providers and six managed care plans.
- Work with the federal Centers for Medicare and Medicaid Services (CMS) to ensure that federal standards and requirements are maintained and met.
- Support innovative strategies that will modernize the Medicaid program to improve health outcomes and the quality of services provided to Ohio residents.
- Increase access to home visits for new families, increase access to mental and physical health services in every school, and direct resources to target pregnant women diagnosed with substance use disorder and their infants.

Department of Medicaid

Program Series 1: Medicaid/Health Care Services (9400A)

This program series houses four programs: The Health Care/Medicaid Program (9400B) provides publicly funded health insurance for approximately three million low-income Ohioans, making it the largest health insurer in the state. Medicaid provides managed care, hospital stays, home- and community-based services, and nursing facility services. It is a joint federal-state program, administered by the states and funded with federal, state, and sometimes, local revenues. Medicaid services are an entitlement for those who meet eligibility requirements. The Medicare Part D Program (9401B) provides prescription drugs to individuals eligible for Medicare. In addition, through the Health Care Program Support Program (9402B), Ohio Medicaid engages in a number of administrative activities as one of the largest public health care purchasers in the United States, including provider network management, quality assurance and improvement, coordination of benefits, benefit design and pricing, information services, and contract monitoring. Through its information technology projects, the Health Care Information Technology Program (9403B) maintains compliance with state and federal regulations, improves customer services, and enhances cost efficiencies. It includes the Medicaid Information Technology System (MITS), which processes about 64 million health care claims each calendar year for Ohio's Medicaid providers and recipients.

Department of Medicaid

ALI Analysis:

651680, Health Care Grants-Federal: This line item is supported with federal discretionary grants for various federal health care initiatives, and from federal bonus funds issued under the Children's Health Insurance Program. The reduction in fiscal years 2020 and 2021 reflect the expected availability of these federal funds.

651638, Medicaid Services-Payment Withholding: This line item is for the release of withheld payments to nursing facilities after the final resolution of a change of ownership. Medicaid payments are withheld to nursing facilities, pursuant to the Ohio Revised Code, when ownership is in the process of changing. Fiscal year 2019 was a usually high year for these payments.

651656, Medicaid Services-Hospital Upper Payment Limit: The increase in this line item in fiscal years 2020 and 2021 reflect the additional revenue to be generated by the proposed increase in the hospital franchise fee rate.

651649, Medicaid Services-Hospital Care Assurance Program (HCAP): This line item is supported with an assessment paid by all hospitals. These funds are then redistributed to those hospital that provide a disproportional share of uncompensated care. The reduction in fiscal year 2021 reflects caps that are placed on the program pursuant to federal code.

651689, Medicaid Health and Human Services and 651684, Medicaid Services-HIC Fee: In fiscal years 2018 and 2019, pursuant to section 333.33 of Am. Sub. H.B. 49, of the 132nd General Assembly, cash was transferred from the Health Insuring Corporation Class Franchise Fee Fund (5TN0) to the Health and Human Services Fund (5SA4); and appropriations were approved by the Controlling Board in line item 651689, Medicaid Health and Human Services, within fund 5SA4. In fiscal years 2020 and 2021 there will not be any transfer of cash to the Health and Human Services Fund, and so there will be no appropriations in line item 651689, Medicaid Health and Human Services. Instead all associated appropriations will be in line item 651684, Medicaid Services-HIC Fee, within fund 5TN0.

MCD Line Item Restructuring:

In September 2020, earned federal revenue under the federal Money Follows the Person program will no longer be available, and so no appropriations are being budgeted in line item 651631, Money Follows the Person, in fiscal years 2020 and 2021. Instead the remaining cash balance in the Money Follows the Person Fund (5AJ0) will be transferred to the Medicaid Support and Recoveries Fund (5DLO) and be used to support home and community waiver services through the Home Choice 2.0 program, in line item 651639, Medicaid Services-Recoveries.

State Medical Board

Role and Overview

The State Medical Board (MED) licenses and oversees the practice of medicine and its branch offices in Ohio. The Board licenses and regulates approximately 86,000 licensees including: physicians (doctors of medicine, osteopathic medicine and podiatric medicine), physician assistants, physician certificates to recommend medical marijuana, acupuncturists, anesthesiologist assistants, cosmetic therapists, dietitians, genetic counselors, massage therapists, oriental medicine practitioners, radiologist assistants and respiratory care professionals. The Board's mission is to protect and enhance the health and safety of the public through effective medical regulation. The Board enforces medical standards of care in the State of Ohio and ensures that its licensees meet sufficient standards of education, training, practice competency, and professional ethics. The Board also investigates complaints, monitors licensees, and takes disciplinary actions against those who violate the statutes and rules the Board enforces. The Medical Board is comprised of 12 members who serve five-year terms and are appointed by the Governor. The Secretary and Supervising Member oversee the investigatory and enforcement processes. The Board appoints an executive director to manage the daily activities of its approximately 84 full-time staff. In fiscal year 2018, the Board issued nearly 5,100 new licenses and 3,270 training certificates; renewed over 44,000 licenses and certificates; completed 1,056 investigations; monitored 300 licensees on probation; imposed 144 disciplinary actions; and conducted 29 administrative hearings. Over the past year the Board: (1) streamlined its licensure process; (2) partnered with other agencies to reduce dangerous prescribing practices; (3) started licensing and regulating dietitians and respiratory care professionals; (4) reduced the initial licensure application fee for physicians; and (5) extended training certificates to be valid for three years reducing the burden on medical residents and Ohio's training programs. The Board is funded entirely through licensure and related fees received from its licensees and applicants and does not receive any general revenue funding.

More information regarding the State Medical Board is available at <http://med.ohio.gov>.

Agency Priorities

- Support the retention and continued growth of Ohio's healthcare workforce.
- Develop funding sources that sustain excellent customer service.
- Increase strategic communications and outreach with the public, medical students, and licensees, and increase inter/intra-agency cooperation.
- Provide results-driven customer service through simplification of board processes and enhancement of the licensee customer experience.
- Continue to simplify and modernize healthcare regulations and board processes.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$10.9 million (or a 5.0% increase from fiscal year 2019). Funding for fiscal year 2021 is \$11.3 million (or a 4.0% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Protect the public through issuance and renewal of licenses/certificates; rapid and effective investigation and resolution of alleged violations of Ohio law and minimal standards of medical care; and probationary monitoring and reporting for licensees.
- Enhance the Board's capability to handle increases in license applicants and growth in overall licensee numbers, while supporting the retention and continued growth of Ohio's healthcare workforce.
- Develop funding sources that sustain excellent customer services.
- Increase strategic communications and outreach with the public, medical students, and licensees, and increase inter/intra-agency cooperation.

State Medical Board

Program Series 1: Licensing, Regulation, and Enforcement (143A0)

This program series (143B1) contributes to ensuring the health, safety, and general welfare of Ohio's citizens through oversight of the regulated medical professions. This program funds the operations of the Medical Board, including licensure and renewal, investigations, enforcement and compliance, as well as other functions that support these endeavors, such as legislative support, education and technology.

Department of Mental Health and Addiction Services

Role and Overview

The Ohio Department of Mental Health and Addiction Services (OhioMHAS) was established on July 1, 2013, with the consolidation of the former Ohio Departments of Alcohol and Drug Addiction Services (ODADAS) and Mental Health (ODMH). The mission of OhioMHAS is to provide statewide leadership of a high-quality mental health and addiction prevention, treatment, and recovery system that is effective and valued by all Ohioans. OhioMHAS is a cabinet state agency which operates six regional psychiatric hospitals, consisting of over 1,000 staffed beds and an admission rate of over 7,000 patients each year. The community behavioral health system consists of 51 Alcohol, Drug Addiction, and Mental Health Boards and approximately 600 provider agencies providing prevention and treatment services for mental health, drug, and other addiction services. The number of full-time permanent employees is 2,500.

More information regarding the Department of Mental Health and Addiction Services is available at <https://mha.ohio.gov/>.

Agency Priorities

- Preserve the regional psychiatric hospital system as required under statute and as directed by the courts for the forensic/criminal population and to assure core inpatient psychiatric services for all citizens of the state of Ohio.
- Work to eliminate behavioral health disparities through promotion of a culturally competent behavioral health system and workforce.
- Promote a collaborative, resiliency- and recovery-oriented culture in the delivery of mental health and addiction services.
- Utilize regional approaches and resource sharing to address gaps in care identified in consultation with boards of mental health and addiction services.
- Avert crisis situations by investing in critical service infrastructure to improve access and strengthen community linkages.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$442.8 million (or a 4.6% increase from fiscal year 2019). Funding for fiscal year 2021 is \$457.4 million (or a 3.3% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$894.1 million (or a 13.3% increase from fiscal year 2019). Funding for fiscal year 2021 is \$825.0 million (or a 7.7% decrease from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Operate the six state regional psychiatric hospitals with 1,081 inpatient beds that provide care to approximately 7,400 individuals admitted per year with a current average daily resident population above 1,000. Priority focus areas include access, safety, and quality management.
- Provide support and funding resources for community behavioral health treatment and recovery services for adults and children. Provide flexible funding to local communities for direct crisis stabilization and prevention supports. Improve the crisis services infrastructure statewide by improving access and strengthening community linkages.
- Partner with the Ohio Department of Education and local communities to ensure access to evidence-based K-12 prevention education statewide.
- Support criminal justice services by providing competency to stand trial, sanity, and second opinion evaluations; support and expand specialty dockets statewide; supporting a tracking/monitoring program for people found not guilty by reason of insanity or incompetent-unrestorable; and supporting individuals transitioning from prison back into the community.

Department of Mental Health and Addiction Services

- Promote mental wellness through a variety of statewide campaigns to educate the public and reduce the stigma surrounding mental illness and substance use disorder.
- Reduce the time frame for licensure and certification of providers and improve the business customer experience.
- Supply medical supplies and pharmaceuticals to numerous state and local entities through the Ohio Pharmacy Services program.

Department of Mental Health and Addiction Services

Budget Fund Group Information

- Federal funding is increasing in fiscal year 2020 due to the timing of grant awards. MHAS is expected to receive and expend the second year of the State Opioid Response grant in fiscal year 2020.
- Dedicated Purpose funding is increasing in fiscal year 2020 due to several one-time funding initiatives designed to develop and expand critical treatment and prevention infrastructure across the state.

MHAS ALI Analysis

336623 – Statewide Treatment and Prevention: Increased appropriations in fiscal year 2020 to support several predominately one-time funding initiatives. These initiatives include the provision of evidence-based K-12 prevention education material and resources to Ohio's schools and expanded statewide media campaigns that will promote mental wellness, educate the public, and reduce the stigma surrounding mental illness and substance use disorder.

336643 – ADAMHS Boards: Increased appropriations in both fiscal years to support increased funding to local Alcohol, Drug, and Mental Health boards to develop and expand existing crisis services infrastructure and to provide flexible funding resources to local communities to invest in direct stabilization and crisis prevention supports.

Commission on Minority Health

Role and Overview

The Ohio Commission on Minority Health (OCMH) was created to address and eliminate health disparities in minority populations through innovative strategies and financial opportunities, public health promotion, legislative action, public policy, and systems change. The Commission accomplishes its core mission by providing state grants to community partners for initiatives such as disease prevention, the promotion of healthy lifestyles, increasing access to local healthcare resources, and increasing awareness of minority health disparities. A 19-member board provides guidance for OCMH. Of this board, nine members are appointed by the Governor, two members are appointed by the Speaker of the House and two members are appointed by the President of the Senate. The other six members include the directors, or directors' designees, of the following departments: Departments of Health, Job and Family Services, Mental Health and Addiction Services, Developmental Disabilities, Medicaid, and the Superintendent of Public Instruction. OCMH currently has five employees.

More information regarding the Commission on Minority Health is available at <http://mih.ohio.gov>.

Agency Priorities

- Increase awareness of the significance of minority health disparities, their impact on the state, and the actions needed to improve health outcomes for racial and ethnic populations.
- Strengthen and broaden state leadership and the policy agenda to address health disparities at all levels.
- Improve healthcare access as well as improve health and healthcare outcomes for racial and ethnic minority populations.
- Improve cultural and linguistic competency and the diversity of the health-related workforce.
- Improve data availability and coordination, utilization, and diffusion of research and evaluation outcomes.
- Improve technological efficiency, expand funding diversification, and monitor costs of health and healthcare disparities.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$2.8 million (or a 6.3% increase from fiscal year 2019). Funding for fiscal year 2021 is \$2.8 million (or a 0.7% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$2.8 million (or a 6.1% increase from fiscal year 2019). Funding for fiscal year 2021 is \$2.8 million (or a 0.7% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Provide demonstration grants to community-based health groups for activities that relate to promoting health and preventing chronic disease among the minority populations, including initiatives to prevent infant mortality and type 2 diabetes. These grant programs will serve up to 1,000 Ohioans.
- Provide grant funding to six Local Offices of Minority Health (LOMH) to monitor the health status of minority populations, inform, educate and empower people, mobilize community partnerships, and to develop policies/plans to support health efforts, reaching approximately 12,000 Ohioans.
- Provide Minority Health Month mini-grants to eligible community-based agencies that participate in a 30-day wellness campaign held in April for activities such as health education, the promotion of healthy lifestyles, and the promotion of disease prevention, serving over 17,000 Ohioans.
- Provide Lupus grant funding to promote awareness and to provide educational materials and resources to individuals with lupus, their caregivers, and health professionals. Grantees provide monthly optimal health groups, referrals and outreach, and participate in Lupus Awareness Month.

Commission on Minority Health

- Provide infant mortality expansion/replication grants for the Certified Pathways Community HUB model to community-based non-profits for activities that relate to the reduction of preterm birth rates and the provision of quality care coordination services, including pathways that connect to resources and reduce social determinants of health. These grant programs will serve up to 1,000 high risk pregnant Ohioans.
- Ensure quality, integrity, and program efficacy through the Research Enhancement and Evaluation Project, a network of academic and community-based researchers who assess projects utilizing a standardized evaluation tool, and by conducting site visits as well as program and fiscal reviews to ensure compliance.
- Fund capacity building initiatives through the Minority Health Conference, to improve minority health outcomes and service delivery.

Commission on Minority Health

Budget Fund Group Information

- The GRF increased to expand the Lupus Awareness Program.

Commission on Minority Health

Program Series 1: Grant Programs (7950A)

The program series promotes health and disease prevention among the Ohio minority population through the distribution of grants to community-based health groups. The purpose of this series is to improve the health status of minority Ohioans through awareness, education, and system/policy changes, support model replication and expansion, and to reduce health disparities. The Demonstration Grants Program (7950B) provides funding to six Local Offices of Minority Health (LOMH). These grants are used to promote behavior change in the priority areas of infant mortality and Type 2 diabetes, the Research Evaluation Enhancement Project, and Minority Health Month grants. The Lupus Program (7955B) provides patient and public education program grants as well as targeted outreach toward minority women. The Minority Health Grant Program (7965B) improves health outcomes among the Ohio minority population and promotes disease prevention through community-based approaches by providing grants to community partners. The Infant Mortality Expansion/ Replication Program (7975B) improves birth outcomes for high risk pregnant women through the provision of care coordination using the Certified Pathways Community Hub Model.

Program Series 2: Capacity Building - Education (7970A)

The program series develops culturally relevant conferences, symposiums, and public awareness events in order to build capacity for service delivery in the minority community. The goal is to increase service and performance of community based agencies, increase skill performance of health providers, encourage system knowledge transfers, and increase public awareness of minority health disparities. The Minority Health Conference Program (7970B) focuses on both disease specific and statewide needs of racial and ethnic populations.

Ohio Motor Vehicle Repair Board

Role and Overview

The Ohio Motor Vehicle Repair Board (CRB) is the state regulatory agency in Ohio responsible for overseeing the auto repair industry. The Board investigates an average of 200 complaints per year and registers approximately 2,000 collision repair facilities, auto glass businesses, airbag repair and replacement companies, window tint installation shops, and mobile auto repair businesses. CRB's primary focus is on consumer protection and the improvement of industry standards as related to auto repair. The Board has five full-time employees that work closely with numerous federal, state, and local entities to bring compliance to auto repair shops.

More information regarding the Ohio Motor Vehicle Repair Board is available at <http://mvrboard.ohio.gov>.

Agency Priorities

- Continue to maintain regulation within the auto repair industry.
- Protect the consumer from fraud and loss caused by unsafe repairs.
- Continue to stress voluntary compliance and prosecute businesses that refuse to recognize licensing.
- Provide an up-to-date website for the public and statewide email system for staff.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$623.9 thousand (or a 2.4% increase from fiscal year 2019). Funding for fiscal year 2021 is \$636.4 thousand (or a 2.0% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Promote industry growth through regulation and enforcement.
- Educate the consumer about their rights as they pertain to auto repairs in Ohio.
- Increase compliance through fair enforcement.
- Work with other entities to maintain high standards within the auto repair industry.

Department of Natural Resources

Role and Overview

The Ohio Department of Natural Resources (DNR) strives to ensure a balance between the protection and the wise use of Ohio's natural resources. The Department administers educational, regulatory, planning, and research programs focusing on a wide spectrum of issue management and cooperative strategy. Department responsibilities include management of state parks and watercraft, overseeing fish and wildlife resources, oil and gas industry regulation, water resource conservation, coastal management, geological survey and mineral resources stewardship. Additionally, DNR has jurisdiction over more than 120,000 acres of inland waters, 7,000 miles of streams, 14 state scenic rivers, portions of Lake Erie and the Ohio River and owns nearly 200 dams statewide. The agency employs approximately 1,500 full-time and 1,000 part-time and seasonal staff members.

More information regarding the Department of Natural Resources is available at <http://ohiodnr.gov/>.

Agency Priorities

- Protect and improve the water quality of Lake Erie, the Ohio River, and all streams, rivers and lakes throughout the state.
- Continue to modernize and rehabilitate Ohio's state park infrastructure, including dams, lodges, cabins, and campground sites.
- Ensure public safety and natural resource protection through comprehensive regulation of the oil and gas industry.
- Improve dam safety inspection, outreach, and enforcement to protect both property and human lives.
- Provide exemplary law enforcement coverage at state parks, wildlife areas, and waterways using more than 250 commissioned officers.
- Work to clean up adverse effects of past mining practices while protecting water quality. Ensure the health and safety of the public and Ohio's mining workforce by emphasizing safety programs and regulation.
- Preserve Ohio's natural areas with programs to control invasive species, and protect fragile ecosystems, plants, and waters.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$127.7 million (or a 16.0% increase from fiscal year 2019). Funding for fiscal year 2021 is \$134.6 million (or a 5.4% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$495.9 million (or a 32.5% increase from fiscal year 2019). Funding for fiscal year 2021 is \$414.4 million (or a 16.4% decrease from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Ensuring public safety and natural resource protection through comprehensive oil and gas industry regulation covering over 66,000 active oil and gas wells in Ohio.
- Modernizing and rehabilitating Ohio's state park infrastructure, which includes nine lodges, 294 cabins, and 9,085 campground sites.
- Ongoing investment in Ohio's 177 state-owned dams to protect Ohio communities.
- Ensuring protection of more than 600 plant and 350 animal populations through responsible land, water, and resource management within more than 760,000 land acres and 2.25 million water acres.
- Completing capital construction projects on time and within budget utilizing new construction contracting options.
- Promoting proper forest management of more than 200,000 forest acres while training local fire departments in wildfire management and supporting wildfire prevention efforts across the nation.

Budget Fund Group Information

- General Revenue funding is increasing due to staffing and planned improvements in state parks.
- Expenses in the Dedicated Purpose Funds are increasing in fiscal year 2020 due to planned infrastructure improvements in state parks, continued expansion of the Oil and Gas Regulatory Program, and new funding for the protection of Lake Erie and improvements in water quality across Ohio.

Department of Natural Resources

Program Series 1: Forestry (4450A)

This program series facilitates the sustainable management and protection of Ohio's forest resources. State Forest Management (4455B) provides multiple uses and benefits to the citizens of Ohio on 200,000 acres of forest land, contributing to Ohio's \$17 billion outdoor recreation industry. State forest lands annually generate more than \$3 million in timber stumpage revenue, the majority of which is distributed to local schools and other government entities. Wildfire preparedness efforts protect citizens and provide assistance to 375 rural fire departments. The Forestry Assistance Program (4450B) provides information and technical guidance to family landowners who own 72% of Ohio's 8.1 million acres of woodlands with the goal of encouraging long-term stewardship of productive private forests. Forestry Program Support (4460B) provides administrative assistance to the series.

Program Series 2: Geological Survey (4465A)

The mission of the Geological Investigations and Mapping Program (4465B) falls into two broad categories. Survey research helps map Ohio's geology to support industry, commerce, environment, public safety, and education. The program is also the archive and public access point for geological data. Industry, government, and citizens use the geological data and samples to research mineral deposits for resource exploration, environmental protection, geohazard evaluation, and land use planning.

Program Series 3: Parks and Watercraft (4475A)

The Division of Parks and Watercraft is comprised of the Parks and Recreation Program (4475B), the Preserves Program (4476B), Watercraft Operations (4560B), and Scenic Rivers (4466B). The Parks and Recreation Program creates, supervises, protects, and operates a system of state parks and promotes their use by the public. The program is dedicated to providing safe, clean, fun, and friendly places where visitors can gather and enjoy a variety of outdoor recreation activities including camping, boating, hunting, fishing, swimming, hiking, golf, bird watching, and others. The Preserves Program protects Ohio's rich biodiversity by managing, protecting, and preserving lands with significant natural features. The Watercraft Operations Program administers boat registration and titling statutes and enforces laws regulating and requiring identification, numbering, titling, use, and operation of watercraft on Ohio's waterways. The program also provides boating safety education programs, emergency response services for natural disasters and watercraft accidents, waterways improvements, and boating access facilities. The Scenic Rivers Program manages, acquires, and protects Ohio's most pristine waterways and provides recreational and educational opportunities for current and future generations of Ohioans.

Program Series 4: Coastal Management (4480A)

The Coastal Management Program (4480B) provides education, coordination, and assistance on a broad range of issues concerning Lake Erie coastal resources. The program provides for identifying coastal erosion, floor hazards, protection of shipwrecks, and underwater cultural resources. Assistance is provided to local agencies and nonprofit organizations in the Lake Erie coastal area through grants.

Program Series 5: Water Resources (4500A)

The Watersheds and Water Resources Program (4510B) covers several areas: the Ohio Dam Safety Program that regulates 1,500 Class 1, 2, and 3 dams in Ohio; the Ohio Floodplain Management Program, which coordinates the National Flood Insurance Program; management of the Ohio Water Well Observation Network; conducting groundwater supply investigations; and providing oversight of the Great Lakes-St. Lawrence River Base Water Resources Compact. The new fund and line item, H2Ohio, is for improvements to water quality across Ohio, with an emphasis on protecting Lake Erie, coastal areas, and all rivers, lakes and streams.

Program Series 6: Real Estate (4525A)

The Real Estate Services Program (4525B) provides real estate, environmental review and grant funding for DNR divisions and units of local government. This includes real estate sales, acquisitions, leasing, licensing, easements, articles of dedication, title services, appraisal services, and survey services. The program coordinates environmental review services for DNR and local government grant recipients as well as sponsors of public and private projects seeking compliance with state and federal environmental regulations. The program also administers state and federal recreational grants for DNR and local governments, and performs comprehensive outdoor recreation planning.

Department of Natural Resources

Program Series 7: Wildlife (4570A)

The Division of Wildlife holds title to Ohio's fish and wildlife and is responsible for management of these natural resources to ensure their sustainable use, appreciation, and benefits to all citizens. Fish and wildlife conservation provides sustainable opportunities for public recreation including fishing, hunting, trapping, and wildlife watching while promoting stewardship of public trust resources. Program goals are accomplished through the Fish Management and Research (4570B) and Wildlife Management and Research (4575B) Programs. Wildlife Program Support (4580B) is comprised of law enforcement, information and education, and administration and operations.

Program Series 8: Mineral Resources Management (4605A)

The Division of Mineral Resources Management provides for the safe and environmentally-sound development and restoration of mineral and fossil fuel extraction sites and ensures the safety of Ohio's mining workforce through the remediation of past adverse mining practices. Diverse and comprehensive programs (Coal, 4606B, Industrial Minerals, 4608B, and Mine Safety, 4610B) address the environmental and safety aspects of coal and mineral mining while maintaining high standards of regulatory effectiveness. The division also restores abandoned mine land, enforces mining safety laws, and ensures protection of freshwater resources through the Abandoned Mine Lands Program (4615B).

Program Series 9: Program Management (4625A)

Natural Resources Program Support (4625B) comprises the director's office, legislative affairs, communications, graphic design, GIS support, legal, human resources, fiscal, and business management. The Engineering Program (4630B) completes design and construction of capital improvement projects at DNR facilities, including technical support for construction and maintenance projects. The Law Enforcement Program (4635B) oversees the radio communications center, which maintains daily communications and emergency dispatching of over 350 law enforcement officers, and provides security for the DNR complex at Fountain Square. General Services (4633B) provides landscaping, maintenance, housekeeping, fleet management, and record retention services.

DNR ALI Analysis

725605, State Park Operations: Appropriations are increasing due to planned infrastructure improvements such as cabin renovations, lodge upgrades, and wildlife dams and shoreline protection in order to enhance the overall customer experience.

725676, Hocking Hills State Park Lodge: This line item is for the reconstruction of the Hocking Hills Lodge.

725681, H2Ohio: This new line item provides funding for new and continuing work to create coastal and upland wetlands in the Western Basin of Lake Erie. Funds may be used for targeted land acquisitions as well as grants to other organizations to create wetlands. This line item may also be used to fund improvements to, and for the protection of, all waterways of the state. Several bodies of water across Ohio have experienced serious problems in recent areas, including Lake Erie around Toledo and numerous lakes and rivers due to agriculture-related runoff.

Board of Nursing

Role and Overview

The Ohio Board of Nursing (NUR) has a thirteen member Board that administers and regulates the practice of nursing for the safety of the public. The mission of the Board is to actively safeguard the health of the public through the effective regulation of nursing care. The Board's top priorities are to efficiently license the nursing workforce and remove dangerous practitioners from practice in a timely manner to protect Ohio patients. The Board regulates over 290,000 licenses and certificates, an increase from 223,000 in 2009. The Board is the sixth largest nursing board in the United States. The public expects that regulations are in place and effectively enforced to assure nurses have been appropriately educated, meet stringent criteria to practice, and provide safe care. The public also expects that immediate action is taken regarding unsafe nurses. The Board issues nursing licenses to qualified individuals, thereby increasing Ohio's workforce, and takes disciplinary action when nurses present a risk to the public or when education programs are not meeting minimum standards to educate competent practitioners. The Board regulates registered and practical nurses, certified nurse practitioners, clinical nurse specialists, certified nurse midwives, certified registered nurse anesthetists, dialysis technicians, community health workers, medication aides, and nursing education, and training programs. Board initiatives, collaborative government efforts, and public and private partnerships reflect Ohio's goal to achieve a lean and efficient government with common sense approaches to meeting regulatory challenges.

More information regarding the Board of Nursing is available at <http://www.nursing.ohio.gov>.

Agency Priorities

- Collaborate with the administration, legislators, law enforcement, drug task forces, and other state boards and agencies in the ongoing effort to combat prescription drug abuse. The Board's ability to maintain investigators, staff attorneys and paralegal staff to investigate and process discipline cases is critical.
- Prioritize licensure for veterans, service members, and spouses and make the licensing processes timely, efficient and effective, so that nurses enter the workforce quickly and remain in the workforce. The Board must have a fully functioning Ohio eLicense system and sufficient staff to respond to inquiries and assist licensees for efficient and effective licensing and renewal processes.
- Approve pre-licensure nursing education programs, and remove dangerous licensees from practice in a timely manner in order to assure nurses enter the job market prepared to provide safe patient care and that they provide safe nursing care during their career.
- Fund the Nurse Education Grant Program (NEGP) and the Nurse Education Assistance Loan Program (NEALP) to support job creation and growth.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$11.4 million (or a 4.9% increase from fiscal year 2019). Funding for fiscal year 2021 is \$11.8 million (or a 3.9% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Regulate approximately 300,000 licensees and certificate holders.
- Investigate over 18,000 complaints.
- Investigate and process 4,400 license applicants with criminal histories.
- Process disciplinary action on over 6,000 licensees and certificate holders.
- Monitor 12,000 licensees who have been disciplined.
- Regulate over 18,000 advanced practice registered nurses.
- Regulate certificates for approximately 4,000 dialysis technician, 1,400 community health worker, and 400 medication aides.

Board of Nursing

- Oversee about 250 nursing education programs, dialysis training programs, medication aide training programs, and community health worker training programs.
- Sanction 35 nursing education programs that do not meet basic educational requirements.
- Respond to an average of 350 practice questions each month.
- Regulate 10 Board Approvers of Continuing Education.

Program Series 1: Regulation (145A0)

The program series actively safeguards public health through effective nursing care regulation. The License, Regulate, Renew, and Enforce Program (145B1) issues and renews licenses and certificates; establishes and interprets scopes of practice; establishes regulatory requirements and practice standards; licenses nurses, advanced practice registered nurses, dialysis technicians, dialysis technician interns, community health workers, and medication aides; approves pre-licensure nursing education programs; approves training programs for dialysis technicians, community health workers, and medication aids; and imposes disciplinary sanctions on licensees for violations of the Nurse Practice Act or the administrative rules.

Ohio Occupational Therapy, Physical Therapy and Athletic Trainers Board

Role and Overview

The Ohio Occupational Therapy, Physical Therapy, and Athletic Trainers Board (OTPTAT) was established to regulate the practice of occupational therapy, physical therapy, athletic training, orthotics, prosthetics, and pedorthics in Ohio. The regulation of these professions includes issuing and renewing the licenses of properly qualified individuals; investigating complaints against license holders; monitoring compliance with mandatory continuing education requirements; and educating license holders and the consumers of services on the laws and rules that govern the practice of occupational therapy, physical therapy, athletic training, orthotics, prosthetics, and pedorthics in Ohio and the Board's role to promote and protect the health of the citizens of Ohio through effective regulation of these professions. The Board monitors license holders to ensure compliance with the laws and rules established in the Ohio Revised Code and the Ohio Administrative Code. As of September 2018, OTPTAT licensed 33,223 individuals. The Board consists of 20 members appointed by the Governor and 9.5 full-time equivalent employees who carry out the operations of the Board. In the current biennium, the Board has hired a new executive director and has taken on the administration of four new license types due to the consolidation of the State Board of Orthotics, Prosthetics, and Pedorthics Board. The new license types are licensed orthotist, licensed prosthetist, licensed orthotist-prosthetist, and licensed pedorthist. The Board is working to align the administrative processes of issuing these license types to find efficiencies and ease the process for the license applicant. The Board is also working on updates to rules and statutes and seeking to use the Ohio eLicense system to simplify processes for license holders while increasing transparency for the public. The Board is also looking to establish metrics to measure performance over the next biennium.

More information regarding the Ohio Occupational Therapy, Physical Therapy and Athletic Trainers Board is available at <http://otptat.ohio.gov/>.

Agency Priorities

- Protect the public and users of occupational therapy, physical therapy, athletic training, orthotics, prosthetics, and pedorthics services in Ohio through the effective regulation of the professions.
- Establish performance goals and measureable statistics to ensure that the Board and employees are accountable to license holders and the public.
- Update the laws and rules governing the Board so that the requirements to obtain licensure and the expectations of practitioners are as clear as possible for both license holders and the public.
- Revise licensure processes to promote efficiency and align processes across all license types.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$1.1 million (or a 7.4% increase from fiscal year 2019). Funding for fiscal year 2021 is \$1.2 million (or a 2.7% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Support the regulation of approximately 11,000 occupational therapy practitioners, 18,600 physical therapy practitioners, 3,100 athletic trainers, and 350 orthotics, prosthetics, and pedorthics practitioners, including the renewal of about 30,000 licenses and the issuance of approximately 2,000 initial licenses every two years.
- Finance board enforcement activities, including investigating approximately 85 complaints per year.
- Provide funding support for the continued operation of eLicense Ohio and fund system changes to increase functionality for license holders and the public.

Opportunities for Ohioans with Disabilities Agency

Role and Overview

The Opportunities for Ohioans with Disabilities Agency (OOD) serves Ohioans with disabilities so that they may achieve quality employment, independence, and disability determination outcomes. Led by an executive director who is appointed by the Governor, OOD is comprised of three branches. Both the Bureau of Vocational Rehabilitation (BVR) and Bureau of Services for the Visually Impaired (BSVI) help individuals with disabilities live independently and obtain or retain a job. The Division of Disability Determination (DDD) determines eligibility for Social Security Disability Insurance or Supplemental Security Income for those unable to work. OOD has approximately 1,127 full-time, permanent employees who assist Ohioans with disabilities in leading independent and self-sufficient lives, contribute to their communities, and enrich the state's workforce.

More information regarding the Opportunities for Ohioans with Disabilities Agency is available at <http://ood.ohio.gov>.

Agency Priorities

- Ensure individuals with disabilities achieve quality employment and independence through integrated services, partnerships, and innovation.
- Engage business partners and assist them in the employment of OOD consumers.
- Base decisions on sound data, performance measurements, and return on investments.
- Ensure excellence and accountability of OOD's services and partnerships.
- Invest in vocational rehabilitation resources for transitional youth, or those 14-22 years of age that are transitioning from school to work, for better outcomes and a positive impact on quality of life.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$17.4 million (or a 8.6% increase from fiscal year 2019). Funding for fiscal year 2021 is \$18.9 million (or a 8.1% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$267.6 million (or a 14.0% increase from fiscal year 2019). Funding for fiscal year 2021 is \$279.5 million (or a 4.4% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Provide funding to support vocational rehabilitation services to more than 30,000 Ohioans with disabilities annually and aid individuals with disabilities to become competitively employed and to live independent and self-sufficient lives.
- Provide business enterprise opportunities and support to 90 blind licensees managing 97 food vending facilities, and to maintain jobs for 179 Ohioans working in these facilities.
- Provide for modernization and improvements to blind and visually impaired Business Enterprise licensees' food service operations located in state and federal offices as well as rest stops across the state.
- Provide mobility and orientation training to more than 1,400 individuals annually who are age 55 years and older and have severe visual impairments to allow these Ohioans to maintain independent living and avoid the costly alternative of institutionally-based care.
- Provide funding for eight Centers for Independent Living (CILs) and support the State Independent Living Council's effort to coordinate and increase the impact of independent living services.
- Provide financial resources to approximately 230 consumers with severe disabilities to hire and pay personal care attendants of their choice, enabling them to obtain jobs and/or live independently.
- Issue funding to eight Community Centers for the Deaf annually to provide over 17,500 hours of support service and education. Additionally, provide over 100,000 hours of communication support (interpreting and other types of communication assistance) to deaf and deaf-blind Ohioans and their families.

Opportunities for Ohioans with Disabilities Agency

- Provide funding to The Ohio State University to support outreach efforts, training, and technical assistance to survivors of traumatic brain injury and their family members, as well as to community providers.
- Maintain compliance with the U.S. Department of Education Rehabilitation Services Administration standards and indicators for the Vocational Rehabilitation Program.
- Maintain one of the highest productivity levels per work year and the second lowest cost-per-case ratio in the six-state Chicago Region by the Division of Disability Determination.
- Conduct annual eligibility determination for Social Security benefits for approximately 160,000 Ohioans (both adults and children) who apply for Social Security disability benefits. Those deemed eligible receive benefits paid directly by the Social Security Administration.

Opportunities for Ohioans with Disabilities Agency

Budget Fund Group Information

- Increase in GRF to support the RecoveryOhio Initiative, expand services to individuals with disabilities, and modeling Ohio as a Disability Inclusion State will leverage over \$12 million in additional federal funds.

Opportunities for Ohioans with Disabilities Agency

Program Series 1: Vocational Rehabilitation (8850A)

The program series assists eligible individuals with disabilities attain or maintain competitive community employment. Under the Vocational Rehabilitation (VR) Program (8850B), each person receives individualized services based on an identified vocational goal established in partnership between the individual and the VR counselor. VR services are designed to increase independence and self-sufficiency through employment, self-employment, and supported employment outcomes. The Business Enterprise Program (8855B) provides entrepreneurship opportunities for individuals who are blind or visually impaired. The Brain Injury Program (8860B) increases awareness of services related to traumatic brain injury. The Independent Living/ Older Blind Program (8865B) provides training to assist eligible seniors with severe visual impairments to remain independent. The Personal Care Assistance Program (8870B) provides services enabling individuals with severe disabilities to work and live independently. The Community Centers for the Deaf Program (8875B) provides services to the deaf, hard of hearing, and deaf-blind individuals.

Opportunities for Ohioans with Disabilities Agency

Program Series 3: Independent Living (8910A)

The program series supports the full inclusion and integration of people with disabilities into the community. The Independent Living Program (8910B) provides funding to Ohio's eight community-based nonprofit centers for independent living that provide core services to Ohioans with disabilities. These core services focus on independent living, peer support, housing, transportation, access surveys, assistive devices, youth, voting, and general information efforts.

Pension Subsidies

Role and Overview

Pension Subsidy (PEN) is an agency only for purposes of the state budget that contains the appropriation of moneys to be distributed to support certain Ohio Police and Fire Retirement System funds. Although these funds are administered by the Office of the Treasurer, they are not spent by the Treasurer's Office on agency operations, and so are presented separately here. Under Ohio Revised Code (ORC) chapter 742, the State of Ohio is responsible for providing subsidy payments to support certain Ohio Police and Fire Retirement System funds. The Fire and Disability Pension Fund provides supplemental retirement benefits to members of the Police and Firemen's Disability and Pension Fund (PFDPF) system who were retired and eligible to receive pension benefits prior to July 1, 1968. Members who were receiving a pension benefit prior to July 1, 1968 were eligible for an additional monthly payment of \$2.00 for each year between their effective date of retirement and December 31, 1971. The Police and Fire Ad Hoc Cost of Living Fund funds a 5 percent benefit increase for retirees who belonged to the Police and Firemen's Disability and Pension Fund (PFDPF) system. Members who were receiving an age and service or disability pension prior to January 1, 1974 were eligible for a supplemental payment of 5 percent of the first \$5,000 of their annual pension. The Police and Fire Survivor Benefits Fund funds payments to all persons who first received survivors' benefits from the Police and Firemen's Disability and Pension Fund prior to July 1, 1981. The Police and Fire Death Benefits Fund provides benefits to the surviving spouses and children of law enforcement officers, firefighters, correction officers, drug agents, special agents and investigators of the Bureau of Criminal Identification and Investigation (BCII), gaming agents employed by the Casino Control Commission, and Department of Taxation investigators who die in the line of duty or who die from injuries sustained in the line of duty.

More information regarding the Pension Subsidies is available at <http://www.tos.ohio.gov>.

Agency Priorities

- Meet the states obligation in providing subsidy funding to certain Police and Fire Pension funds.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$33.8 million (or a 30.5% increase from fiscal year 2019). Funding for fiscal year 2021 is \$34.1 million (or a 0.7% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$33.8 million (or a 30.5% increase from fiscal year 2019). Funding for fiscal year 2021 is \$34.1 million (or a 0.7% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Provide funding to support necessary refunds and to continue subsidy payments to support certain Ohio Police and Fire Retirement System disbursements.

Pension Subsidies

Petroleum Underground Storage Tank Release Compensation Board

Role and Overview

The Petroleum Underground Storage Tank Release Compensation Board (UST) administers Ohio's Financial Assurance Fund (FAF). The FAF provides coverage for clean-up costs and compensation for third-party bodily injury and property damages associated with accidental releases of petroleum from underground storage tanks. The FAF consists of fees and charges paid by owners of petroleum underground storage tanks, interest earned on the moneys in the FAF, and proceeds from revenue bonds authorized by the Board, if any. As of August 31, 2018, there is approximately \$26.8 million in unobligated funds and an additional obligated amount of \$7.5 million for anticipated fiscal year 2019 claim reimbursement payments. Payroll expenses of the board are the only funds that are appropriated. The board consists of nine members appointed by the Governor and three ex-officio members: the Treasurer of State and the directors of the Department of Commerce and the Ohio Environmental Protection Agency. The board has a staff of 16 employees that perform the daily operations.

More information regarding the Petroleum Underground Storage Tank Release Compensation Board is available at <http://petroboard.org>.

Agency Priorities

- Preserve and protect the public health, safety, convenience, and welfare of Ohioans by providing financial assistance to remediate contamination caused by releases from petroleum underground storage tanks, thereby contributing to the preservation and protection of water resources, and improving damaged property.
- Provide an affordable mechanism that enables Ohio's petroleum underground storage tank owners to comply with U.S. Environmental Protection Agency and state mandated financial responsibility requirements.
- Preserve the solvency of the Financial Assurance Fund through the efficient use of funds and innovative cost control measures.
- Issue claim reimbursement payments for remediating damages caused by leaking petroleum underground storage tanks within a reasonable amount of time.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$1.4 million (or a 2.7% increase from fiscal year 2019). Funding for fiscal year 2021 is \$1.5 million (or a 4.1% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Administer the Financial Assurance Fund, which provides coverage for clean-up costs, third-party property damage, and bodily injury coverage associated with accidental releases of petroleum from underground storage tanks.
- Provide for the issuance of Certificates of Coverage for \$1 million of financial responsibility coverage, less a deductible, to 3,200 owners of 19,600 petroleum underground storage tanks in Ohio.
- Assist in the development of an innovative way to reduce clean-up costs and provide owners with valuable information regarding proposed corrective action activities and costs through the evaluation of 150 corrective action cost pre-approval applications per year.
- Collect and apply approximately \$8.4 million in annual fees and coordinate the collection of delinquent fees with the Attorney General's Office in accordance with the law.
- Evaluate 750 reimbursement applications per year within a reasonable amount of time.
- Provide the resources to remediate contamination through the reimbursement of approximately \$18 million during the biennium for corrective action costs at over 600 active petroleum release sites.
- Provide timely financial information to assist in maintaining the Financial Assurance Fund's solvency by performing an annual actuarial study of the FAF's long-term claim liability and coordinating an annual audit with an independent accounting firm and the State Auditor's Office.

Petroleum Underground Storage Tank Release Compensation Board

Program Series 1: Financial Assurance (174A0)

This program series includes two programs: Reporting and Compliance (174B1) and Eligibility and Reimbursement Determination (174B2). These programs provide Ohio's petroleum underground storage tank owners with \$1 million of assurance coverage, less a deductible, for taking corrective action and compensating third parties for bodily injury and property damage caused by accidental releases from petroleum underground storage tanks. These programs also satisfy the federal Environmental Protection Agency regulations requiring all U.S. petroleum underground storage tank owners to demonstrate \$1 million of financial responsibility.

State Board of Pharmacy

Role and Overview

The Ohio State Board of Pharmacy (PRX) licenses and regulates more than 65,000 pharmacists, pharmacy interns, pharmacy technicians, and sites where dangerous drugs are purchased and stored prior to delivery to patients. The sites licensed by the Board include retail pharmacies, hospitals, drug wholesalers, prescriber offices, drug manufacturers, veterinary clinics, nursing homes, prisons and jails, emergency medical service organizations, and home medical equipment providers. The Board also regulates medical marijuana dispensaries, patients, and caregivers as part of Ohio's Medical Marijuana Control Program. The Board of Pharmacy is charged with preventing, detecting and investigating the diversion of dangerous drugs including controlled substances. The Board investigates and presents evidence of violations of federal or state drug laws by any person and refers them for prosecution and/or for administrative action. The Board operates Ohio's prescription drug monitoring program, known as the Ohio Automated Rx Reporting System (OARRS), which collects information on all prescriptions for controlled substances that are dispensed by pharmacies and personally furnished by licensed prescribers in Ohio. Over the past two years, the Board has worked to integrate OARRS directly into electronic medical records and pharmacy dispensing systems across the state, allowing instant access for 20,000 prescribers and pharmacists and resulting in an average 500,000 patient queries per weekday. Upgrades to the OARRS platform have allowed for advanced analytics and tools to promote patient safety and assist in clinical decision-making. This investment is the first of its kind in the country and makes Ohio a leader in using its prescription monitoring program to combat prescription drug abuse. The Board consists of 9 members, including 8 pharmacists, who are appointed by the Governor to 4-year terms. The Board currently has a staff of 92 employees who carry out day-to-day operations.

More information regarding the State Board of Pharmacy is available at <https://www.pharmacy.ohio.gov/>.

Agency Priorities

- Expand investigation and inspection efforts to reduce diversion and abuse of prescription drugs.
- Continue to enhance OARRS and facilitate integration with electronic health record and pharmacy dispensing systems to increase usage and allow prescribers and pharmacists to devote more time to patient care, and expand data analysis to identify aberrant prescribers and dispensers.
- Operate the Medical Marijuana Control Program to ensure the safety of the public and access to safe products for registered patients and caregivers.
- Continue to streamline the licensing process and improve the licensee experience.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$17.3 million (or a 9.3% increase from fiscal year 2019). Funding for fiscal year 2021 is \$17.1 million (or a 1.2% decrease from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Improve the efficiency of inspections and investigations conducted by the Board and build on the innovative strategies to use OARRS data to identify aberrant prescribers for investigation and at-risk patients for early intervention.
- Promote and increase the use of OARRS, including efforts to integrate the system into electronic health records and pharmacy dispensing systems, to increase usage and allow prescribers and pharmacists to devote more time to patients.
- Operate the Ohio Medical Marijuana Control Program, including the licensing of dispensaries and employees, operation of a toll-free hotline, and the registration of patients and caregivers.
- Issue licenses promptly to individuals and businesses licensed by the Board.

Budget Fund Group Information

- The increase in Dedicated Purpose funds is the result of increased expenditures on the Medical Marijuana Control Program and responses to the opioid crisis.

State Board of Pharmacy

Program Series 1: Regulation (156A0)

This program series contains the Regulation and Prescription Monitoring (156B1) and Medical Marijuana (156B3) programs. The Regulation and Prescription Monitoring program administers and enforces laws governing the legal distribution of drugs. This includes the licensure and regulation of pharmacists, pharmacy interns, and sites where dangerous drugs are purchased and stored prior to delivery to a patient. The Board is also charged with preventing, detecting and investigating the diversion of dangerous drugs, including controlled substances. It investigates and presents evidence of violations of federal or state drug laws by any person and refers them for criminal prosecution and/or for administrative action and maintains the OARRS database, which collects information on all prescriptions for controlled substances that are dispensed by pharmacies and personally furnished by licensed prescribers in Ohio. The Medical Marijuana program administers and enforces laws related to the operation of the Ohio Medical Marijuana Control Program. The Board licenses and regulates medical marijuana dispensaries, registers medical marijuana patients/caregivers, and operates the Ohio Medical Marijuana Advisory Committee.

State Board of Psychology

Role and Overview

The State Board of Psychology (PSY) was established in 1972, and is responsible for licensing psychologists and school psychologists under Ohio Revised Code, Chapter 4732 for restrictive private practice outside of school settings. School psychologists who practice only in school-based settings are regulated by the Department of Education. The board is also responsible for regulating certified Ohio behavior analysts under Ohio Revised Code Chapter, 4783. The board establishes standards of practice, education, pre-licensure training, and examination for psychologists, school psychologists, and behavior analysts. The board also investigates complaints, holds administrative hearings, determines appropriate disciplinary actions, and monitors continuing education compliance among licensees. More than 4,000 licenses and certificates issued by the board are currently active. The board's governing authority consists of nine members appointed by the Governor, including six psychologists and three patient advocates who are either parents or relatives of a recipient of mental health services or representatives of organizations that represent recipients of mental health services. Members are appointed for five-year terms and may serve two full terms. The board's daily operations are the responsibility of an executive director appointed by the board. Including the Executive Director, the board has five full-time staff members.

More information regarding the State Board of Psychology is available at <http://psychology.ohio.gov>.

Agency Priorities

- Conduct and resolve timely investigations of alleged violations of the law and rules governing psychologists, school psychologists, and certified Ohio behavior analysts.
- Ensure that education, training, and certification requirements are met prior to admission to examinations for licensure or certification.
- Identify and stop the unlicensed practice of psychology and applied behavior analysis.
- Leverage technology to foster more efficient information exchange between the board, license holders, and members of the general public.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$665.4 thousand (or a 0.0% increase from fiscal year 2019). Funding for fiscal year 2021 is \$696.6 thousand (or a 4.7% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Ensure compliance with academic and training requirements, administer examinations, and issue licenses and certificates to applicants passing the requisite examinations.
- Open, investigate, and close investigations of alleged misconduct in a timely manner and provide public protections through the issuance of appropriate disciplinary actions.
- Receive and document complaints and concerns from citizens.
- Complete the administration of oral jurisprudence pre-licensure examinations.
- Promote an accurate and broad understanding of telepsychology rules for license holders who use that technique.
- Explore and determine recommendations for educational activities for the public and Ohio's professional psychology community.

Office of the Public Defender

Role and Overview

The Public Defender Commission (PUB), also known as the Office of the Public Defender, is responsible for providing, supervising, and coordinating legal representation for indigent persons who are charged with a crime and for indigent prisoners who are appealing their convictions, who are seeking post-conviction relief, or who are charged with a violation of parole. The Commission also sets rules and regulations governing the provision of indigent defense services, administers state reimbursement to counties for indigent defense expenditures, and passes funding to the Ohio Legal Assistance Foundation. The Office of the Ohio Public Defender currently employs 140 full-time permanent employees.

More information regarding the Office of the Public Defender is available at <http://opd.ohio.gov>.

Agency Priorities

- Ensure that quality representation is provided to Ohio's indigent residents who are accused of crime.
- Reimburse Ohio's counties for a portion of their indigent defense expenditures at a rate of at least 50 percent.
- Continue development and implementation of the Ohio Public Defender Online (OPD Online), a web based computer information solution that provides for and centralizes Ohio's indigent defense information and data.
- Provide traditional and skills-based Continued Legal Education (CLE) training programs to attorneys who provide representation to indigent persons.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$99.7 million (or a 162.0% increase from fiscal year 2019). Funding for fiscal year 2021 is \$100.1 million (or a 0.4% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$167.4 million (or a 65.8% increase from fiscal year 2019). Funding for fiscal year 2021 is \$168.0 million (or a 0.3% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Reimburse Ohio's counties at a rate of at least 50% for approximately 145,000 individual appointed counsel billings per year, and make monthly subsidy payments to 32 counties that operate county public defender systems.
- Provide a structurally balanced, solvent funding plan for continued operation of existing programs at the Ohio Public Defender office to provide representation in approximately 5,300 indigent defense cases per year.
- Continue development and implementation of the OPD Online system to be used by approximately 3,500 attorneys and court and county fiscal staff throughout Ohio's 88 counties.

Budget Fund Group Information

- The increase in General Revenue Fund (GRF) appropriations in fiscal year 2020 is due to increased funding for indigent defense reimbursements to counties.

Office of the Public Defender

Program Series 1: State Legal Defense Services (8750A)

Appeals and Post-Conviction (8750B) provides direct representation to indigent persons in state and federal level appellate and post-conviction cases. Death Penalty Representation (8755B) provides legal representation to indigent persons under a sentence of death. Intake (8760B) and Prison Legal Services (8764B) provide intake services and legal assistance to inmates in Ohio's prisons. Juvenile Legal Assistance (8765B) provides representation to youths in juvenile proceedings. The Legal Resource Center (8770B) maintains a law library with a collection of print and computerized materials. Trial Services (8775B) provides trial-level representation in select cases upon request by a local court or county public defender. Investigation Services (8780B) provides criminal and mitigation investigation services to PUB staff attorneys and county public defenders.

Program Series 2: County Level Indigent Defense (8790A)

Under the Indigent Defense Reimbursement (8790B) program, the agency reimburses counties for up to 50 percent of their costs for indigent defense, pursuant to Chapter 120 of the Ohio Revised Code. The program includes the administrative costs of processing the reimbursement payments to the counties, and providing counties assistance in assessing, reviewing, or changing their indigent defense systems. Branch Offices (8795B) includes the operation of systems in counties that contract with the State Public Defender as an alternative to direct reimbursement. Pro Bono Training (8800B) provides training to county public defenders and private attorneys who practice criminal defense law.

Office of the Public Defender

Program Series 4: Program Management (8820A)

Within the Program Management Division, each section has a specific set of responsibilities and associated goals, along with criteria for measuring success. Administration (8820B) provides overhead support to the agency and includes the activities of the director, administrative staff, and agency legal counsel. Goals include providing all necessary support services, proper strategic planning and leadership for the organization, and satisfying all legal requirements and responsibilities. Wrongful Conviction (8785B) provides representation in cases that involve a claim of actual innocence. Policy and Outreach (8830B) provides technical and support services to county offices, maintaining positive relations with the media and legislature, and providing for all public information requests. It also performs quality assessments of county run systems.

Department of Public Safety

Role and Overview

Through safety, service, and protection, the Ohio Department of Public Safety (DPS) is dedicated to the mission of saving lives, reducing injury and economic loss, administering Ohio's motor vehicle laws, and regulating driver licensing and registration. The public's most frequent interaction with the department is through its two largest divisions: the Ohio State Highway Patrol (OSHP) and the Bureau of Motor Vehicles (BMV). Together, these divisions enforce the various state laws governing the registration and operation of motor vehicles and travel on public highways. Additionally, DPS has five other unique offices and units, which together with the department's leadership, create a cohesive and systemic approach to public safety. These offices and units (1) coordinate the state's homeland security strategy; (2) investigate crimes; (3) provide criminal justice planning for state and local agencies; (4) coordinate the state's emergency management activities; and (5) establish and enforce certification requirements for emergency medical technicians and fire personnel. Finally, a vital part of the department's success is the strong partnerships it has formed with other state agencies, federal and local government entities, private industry, and local communities. During the fiscal year 2020-2021 biennium, DPS will have approximately 4,050 employees.

More information regarding the Department of Public Safety is available at <http://publicsafety.ohio.gov/>.

Agency Priorities

- Provide homeland security efforts through increasing patrols, facilitating state and national security strategies and efforts, enhancing information and intelligence sharing, protecting critical infrastructure and key resources, and monitoring state property as a component of the Safer Ohio Initiative.
- Provide statewide traffic services to keep Ohio's roadways safe, provide statewide emergency response, investigate criminal activity on state-owned and leased property throughout Ohio, provide security for the Governor and other dignitaries, and maintain a 24/7 critical communications center.
- Deliver rapid disaster response, recovery, and mitigation services to citizens and businesses.
- License motor vehicles and their operators, provide administrative control over the issuance of certificates of title, and maintain all vehicle registration/title records, operator and identification records for the State of Ohio.
- Enforce liquor laws relating to trafficking of food stamps and the sale of tobacco products to underage individuals and work with liquor permit establishments to provide educational programs to patrons, permit holders, and their employees regarding human trafficking.
- Participate in statewide human trafficking response efforts through a dedicated human trafficking coordinator who will support local initiatives, raise awareness, and direct statewide efforts.
- Approve and accredit training programs to certify emergency medical technicians and firefighters to assure quality emergency medical care and fire service delivery systems.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$34.6 million (or a 24.7% increase from fiscal year 2019). Funding for fiscal year 2021 is \$35.4 million (or a 2.1% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$786.5 million (or a 2.9% increase from fiscal year 2019). Funding for fiscal year 2021 is \$795.0 million (or a 1.1% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Empower local law enforcement by increasing the number of law enforcement drug task forces and creating a new, highly-specialized Narcotics Intelligence Center that will provide enhanced intelligence and high-tech analytical capabilities.
- Increase the safety of vulnerable populations by mandating that all EMS and dual EMS/fire providers be enrolled in the retained applicant fingerprint database.
- Support efforts to increase safety in schools through the use of the Ohio Homeland Security Safer Schools Tipline, school safety assessments, and analytic tools to proactively alert school officials to school security threats.

Department of Public Safety

- Provide assistance to local law enforcement for investigations related to sexual assault kit testing results.
- Enforce highway traffic laws, investigate crashes, conduct criminal investigations including human trafficking violations, and operate a 24/7 critical communication center.
- Provide off-highway investigations, security for elected officials and state property, and maintain the Law Enforcement Automated Data System (LEADS) which provides information to the criminal justice community.
- Regulate motor vehicle registration, issue driver licenses, conduct driver license exams, regulate driver training schools, process driving suspensions, maintain deputy registrars, issue certificates of title, and maintain the Automated Title Processing System.
- Enhance Ohio's preparedness for all hazard events including the use of the State Emergency Operations Center (SEOC) during disasters and training of first responders, and administer disaster recovery and mitigation programs.
- Coordinate the state's homeland security activities including enhancing the security of Ohioans, infrastructure, and key assets, and support efforts to increase safety in schools.
- Enforce Ohio's liquor, gambling, and narcotics laws pertaining to liquor permit premises, and conduct trace-back investigations to determine the source of alcohol when impaired drivers are involved in crashes.
- Provide certification and training to firefighters and other first responders, and provide grants to local Emergency Medical Service organizations.
- Provide criminal justice planning and operating grants to Ohio family violence shelters and substance abuse treatment centers, and provide crime mapping to deter criminal activities.

Budget Fund Group Information

- The increase in Federal Funds from fiscal year 2018 to 2019 is due largely to the federal cost share from the Federal Emergency Management Agency (FEMA) for the Major Disaster Declaration for a flooding event in February 2018, as well as an influx in various other federal grants, including the Motor Carrier Safety Enforcement Program grant.

(in Thousands)	Actual			Estimated	% Change	Recommended

Department of Public Safety

Program Series 1: Traffic Safety And Education (4120A)

The Safety and Protection Program (4120B) funds efforts to reduce injuries and prevent deaths on Ohio's roadways. The Ohio Traffic Safety Office administers federal grant programs that help reduce impaired/distracted driving, increase seat belt usage, and promote motorcycle safety awareness through collaboration among state, county and local partners. This program also funds the Director's office, various support divisions within the Department such as information technology, human resources, purchasing, facilities, asset management, and fiscal and debt service related to bonded capital projects.

Program Series 2: Bureau Of Motor Vehicles (4130A)

The Bureau of Motor Vehicles (BMV) is responsible for licensing drivers and registering and titling motor vehicles. The BMV's goal is to provide prompt, courteous, and efficient service to the public while fulfilling its obligations as set forth in the motor vehicle laws of the State of Ohio. Licensing, Registration and Titling (4130B) provides a credentialing process for driver licenses and state identification cards, including citizenship status, regulates the registration of motor vehicles, and ensures the proper collection and distribution of vehicle licensing revenue for over 2,300 taxing districts and other governmental entities. This program implements and maintains Ohio's centralized motor vehicle titling system, the Automated Title Processing System (ATPS), which is used by Common Pleas Clerks of Courts, and processes titles and state sales tax on vehicles sold by dealers to nonresidents. Additionally, this program funds the Motorcycle Ohio and Driver Training programs. These initiatives provide motorcycle safety courses to the public and improve the quality of instruction at driver training schools.

Department of Public Safety

Program Series 3: Ohio State Highway Patrol (4140A)

The Highway Patrol improves safety for citizens through education, service, and protection. The Patrol investigates crashes, provides homeland security and dignitary protection, interdicts illegal drugs, enforces criminal and traffic laws, regulates commercial vehicles, compiles traffic statistics, maintains a 24/7 critical communication center, and administers the Law Enforcement Automated Data System (LEADS). The goal of the Highway Enforcement program (4140B) is to increase highway safety overall. To accomplish this goal, the Highway Patrol enforces traffic laws on Ohio highways, investigates traffic crashes, assists motorists, interdicts impaired drivers, enforces vehicle size and weight restrictions, and enforces criminal laws. Non-Highway Enforcement (4141B) provides a variety of services including: off-highway investigations, security for the Governor and other officials and dignitaries, security for the Capitol Square and other state property, traffic control and security for the Ohio Expositions Commission, non-highway related duties of the State Highway Patrol at the Ohio State Fair, homeland security operations, and maintaining the Law Enforcement Automated Data System (LEADS).

Program Series 4: Emergency Medical Services (4150A)

This program series funds the Emergency Medical Services (EMS) division and maintains a statewide, systematic response to injury, illness, and fire through the oversight of emergency medical technicians (EMTs) and fire personnel. The goal is to save lives and minimize injury to citizens and visitors. The Fire and Emergency Medical Technicians program (4150B) is responsible for the certification, training, and monitoring of continuing education requirements for EMTs, firefighters, and fire and emergency services instructors. This program oversees required EMS and fire services educational standards and investigates EMS and fire personnel who violate Ohio EMS and fire laws. It also maintains the EMS Incident Reporting Database and the Ohio Trauma Registry.

Program Series 6: Emergency Management Agency (4170A)

This program series includes the Emergency Management Agency (EMA) and is the central point of coordination within the state for response and recovery to disasters. EMA distributes more than \$100 million per biennium in federal funding to state and local governmental entities to support disaster relief, mitigation efforts, and all-hazards preparedness. Emergency Management (4170B) interfaces with county emergency management offices and manages grants for functions including terrorism, all-hazards planning, hazardous materials preparedness, and funds individual and public assistance recovery programs and mitigation against future disasters. The State Emergency Operations Center (SEOC) and emergency communications and warning systems are supported by this program as is nuclear preparedness and the operation of the Ohio Radiological Instrument Maintenance and Calibration Laboratory.

Program Series 7: Homeland Security (4180A)

The program series funds Ohio Homeland Security (OHS) with a mission of prevention and protection across the state. This program also coordinates the statewide efforts of the State Homeland Security Strategy, Critical Infrastructure Protection, and Information Sharing and Analysis. Homeland Security (4180B) operations include oversight of the primary statewide fusion center (the Strategic Analysis and Information Center - SAIC). The SAIC is part of the national network of federally recognized fusion centers. This center supports first responders, private industry, and other partners with information, assessments, and intelligence to enhance their operations, planning, and decision-making. OHS oversees the statewide homeland security strategy. Additionally, Private Investigator and Security Guard Services (PISGS), which oversees the licensing, registration, and enforcement of the private investigator and security guard industry, is also funded within this program.

Program Series 8: Office of Criminal Justice Services (4190A)

This program series includes the Office of Criminal Justice Services (OCJS) and serves as the lead in criminal justice planning for the state. Criminal Justice Services (4190B) includes the administration of state and federal grants that are designed to reduce crime and domestic/family violence, and increase public safety in Ohio. The program also provides electronic tools and databases for crime reporting by law enforcement and incorporates education and training programs to address criminal justice issues such as human trafficking. Additionally, this program funds the OCJS Traffic Safety initiative. This initiative reduces the number of traffic fatalities and serious injuries on Ohio's roadways.

DPS ALI Analysis

761403, Recovery Ohio Law Enforcement: This appropriation line item will be used to allocate resources to respond to the narcotics crisis through the creation of a new, highly specialized Narcotics Intelligence Center and to establish and maintain a unified records management system to provide enhanced intelligence to local law enforcement. This item will also empower local law enforcement by increasing the number of law enforcement drug task forces focusing on cartel trafficking and by supporting existing drug task forces.

DPS ALI Restructuring

DPS is consolidating the appropriations of three existing federal appropriation line items (ALIs) and funds, Fund 3290, ALI 763645, Federal Mitigation Program; Fund 3390, ALI 763647, Emergency Management Assistance and Training; and Fund 3N50, ALI 763644, U.S. Department of Energy Agreement, into one existing fund and appropriation line item, Fund 3370, ALI 763609, Federal Disaster Relief. All four funds and appropriation items are used for federal grants managed by the Emergency Management Agency (EMA) within DPS, and this consolidation will begin on July 1 of fiscal year 2020.

To illustrate the changes more clearly, the line items are isolated below to show the new line item structure and appropriation. The overall total decrease in funding from fiscal year 2019 to 2020 is due to a right-sizing of appropriation in Fund 3370, ALI 763609, Federal Disaster Relief.

Fund	ALI	ALI Name	Estimated	Recommended

Public Utilities Commission of Ohio

Role and Overview

The Public Utilities Commission (PUCO) ensures that all residential, business, and industrial utility consumers have access to adequate, safe, and reliable utility services at a fair price while facilitating an environment that provides competitive choices. The PUCO regulates a wide variety of public utilities including electricity, natural gas, pipelines, heating and cooling, telephone services, waterworks, wastewater, railroads, household goods carriers, towing companies, water transportation, hazardous materials carriers, and commercial transportation carriers. A chairman and four commissioners, who are appointed by the Governor for five-year terms, govern the PUCO. The chairman serves as the agency's director and chairs the Power Siting Board, which reviews all applications for building electric generating and transmission facilities in Ohio. During fiscal years 2020 and 2021, the PUCO is anticipated to have approximately 344 and 353 employees, respectively.

More information regarding the Public Utilities Commission of Ohio is available at <http://www.puco.ohio.gov>.

Agency Priorities

- Mandate the availability of adequate, safe, and reliable utility service to all business, industrial, and residential consumers.
- Ensure financial integrity and service reliability in the Ohio utility industry.
- Promote utility infrastructure investment through appropriate regulatory policies and structures.
- Regulate utility rates and terms of service for monopoly and non-competitive services.
- Monitor and enforce compliance with rules and statutory protections against deceptive, unfair, unsafe, and anti-competitive utility practices.
- Safeguard the security of Ohio's regulated motor carrier and rail operations through concerted inspection, training, monitoring, and education practices and enhance safety at all public highway-railroad grade crossings through education and installation of lights and gates and other safety devices.
- Resolve, through mediation, arbitration, and adjudication, disputes between utilities and residential, commercial, and industrial customers as well as between competing utilities.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$59.1 million (or a 1.4% decrease from fiscal year 2019). Funding for fiscal year 2021 is \$60.0 million (or a 1.5% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Certify energy generating facilities, enforce state energy benchmarks and promote energy efficiencies and economic development initiatives.
- Assist several hundred thousand consumers with utility disputes between utilities and residential, business, and industrial customers, as well as between competing utilities.
- Improve state emergency preparedness plans, ensure quick recovery and restoration of agency services, and assist in facilitating utility service restoration.
- Monitor, register, and certify more than 7,300 intrastate carriers; 2,500 hazardous materials carriers; 5,800 rail grade crossings; and over 1,000 power, utility, and telecommunications companies per year.
- Establish rates and terms for monopoly and non-competitive utility.
- Implement and continue to enhance technology solutions to better serve internal and external stakeholders, including improving online reporting functionalities and reducing reliance on paper processes.

Public Utilities Commission of Ohio

Program Series 1: Utility Regulation (158A0)

This program series includes three major programs. The Safety and Service Quality Oversight program (158B1) monitors and enforces compliance with state and federal safety and service quality regulations in a wide variety of public utilities including: electricity, natural gas, pipelines, heating and cooling, telephone services, waterworks, wastewater, railroads, household goods carriers, tow trucks, water transportation, hazardous materials carriers, and commercial transportation carriers. The Registration and Certification program (158B2) registers and certifies public utilities operating in Ohio. Through the establishment of a fair and reasonable regulatory framework, the PUCO protects the public interest and facilitates competitive choices, while assuring adequate utility infrastructure. The Tariff and Economic Oversight program (158B3) sets rates and terms for monopoly and non-competitive utility services. Utility activities and markets are closely monitored to ensure financial integrity within the industry, safeguards for the consumers, enforcement of regulations, and the enhancement of the state's economy.

Public Works Commission

Role and Overview

The Ohio Public Works Commission (PWC) was created through the authority of Chapter 164 of the Ohio Revised Code to assist in financing local public infrastructure improvements. The Commission primarily operates as a public sector bank by providing grants, loans, and local debt support for various types of infrastructure improvements for local communities. Its mission is the administration and delivery of three financial assistance programs: the State Capital Improvement Program (SCIP), the Local Transportation Improvement Program (LTIP), and the Clean Ohio Conservation Program. The Ohio Public Works Commission is a quasi-legislative body. It is comprised of seven voting and five non-voting ex-officio members. The seven voting members are appointed by the Ohio General Assembly. The Commission maintains a staff of nine full-time employees. Recent accomplishments include implementation of program years 31 and 32 of the State Capital Improvement Program and Local Transportation Improvement Program, implementation of program years 12 and 13 of the Clean Ohio Program, enhancements to the Revolving Loan Program, which included online loan information and loan invoicing, and continued development of web-based, "real-time" information for PWC customers.

More information regarding the Public Works Commission is available at <http://pwc.state.oh.us>.

Agency Priorities

- Implement program years 33 and 34 of the State Capital Improvement Program and Local Transportation Improvement Program.
- Implement program years 13 and 14 of the Clean Ohio Conservation Program.
- Continue to design and develop a new IT system.
- Provide technical assistance to District Integrating Committees and local governments, including improvements to commission materials and information.
- Operate the Ohio Public Works Commission with a high level of transparency and accountability to residents of Ohio.
- Continue fostering smart growth and making "Fix-it-First" a priority for state investments.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$273.6 million (or a 4.8% increase from fiscal year 2019). Funding for fiscal year 2021 is \$276.1 million (or a 0.9% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$338.4 million (or a 2.7% increase from fiscal year 2019). Funding for fiscal year 2021 is \$340.6 million (or a 0.7% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Support the approval of over \$1 billion in total infrastructure investment in Ohio's economy. This will result in over 1,500 capital improvement projects in all 88 of Ohio's counties.
- Provide project administration and technical assistance to local governments and District Integrating Committees.
- Provide for required payments on bonds issued to support the Commission's capital programs.
- Support the approval of over \$75 million in direct financial assistance for local open space acquisition and riparian improvement projects.
- Promote regional cooperation through state-local partnership programs to address local governments' most critical infrastructure needs.
- Improve Ohio's infrastructure to create an environment that fosters job creation and supports local business and industry.

Public Works Commission

Program Series 1: Infrastructure Aid to Local Governments (159A0)

The State Capital Improvement Program (159B1) provides grants and loans to local governments to assist in the financing of local capital improvement needs. The state uses its general revenues as debt support and issues between \$175 and \$200 million in bonds each year. Eligible projects include roads, bridges, water supply systems, wastewater systems, storm water collection systems, and solid waste disposal facilities. Every program year, each district is required to allocate a percentage of their budgets to these loans. These allocations have resulted in the creation of the State Capital Improvement Revolving Loan Program, a sub-component of the State Capital Improvement Program which provides an additional \$30 million in below market rate loans per fiscal year. The Local Transportation Improvement Program (159B2) provides grants to assist in the financing of local public road and bridge improvements. The program is supported by one penny per gallon of the motor fuel tax and provides approximately \$64 million per year in grants to local governments. The Clean Ohio Conservation Program (159B3) provides funding to local governments and non-profit organizations for open space acquisition and related development of those open spaces, and for the protection and enhancement of riparian corridors. This program provides approximately \$37.5 million per year in grants.

State Racing Commission

Role and Overview

The Ohio State Racing Commission (RAC) is dedicated to the protection, preservation, and promotion of horse racing and its related industry components. The Commission regulates pari-mutuel wagering and the licensing of all industry participants in order to insure the protection of the wagering public and the integrity of the sport. Over the last several years, the Racing Commission has overseen the transition of all seven Ohio horse racing tracks into racinos offering video lottery gaming. The Commission consists of five members with a staff of seven full-time employees and seven part-time employees that work in the field.

More information regarding the State Racing Commission is available at www.racingohio.net.

Agency Priorities

- Regulate Ohio pari-mutuel horse racing by testing, officiating, and enforcing the Ohio Horse Racing Act and the rules promulgated thereunder.
- Promote pari-mutuel horse racing, horse breeding, and racing purse enhancement through the use of the Thoroughbred Race Fund and the Standardbred Development Fund to enhance purses at racetracks for Ohio-bred horses and to award Ohio breeders who breed horses that race in Ohio.
- Oversee the licensing of all industry participants to insure the protection of the wagering public and the integrity of the sport.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$30.6 million (or a 0.9% increase from fiscal year 2019). Funding for fiscal year 2021 is \$30.6 million (or a 0.1% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Support human drug testing and horse drug testing conducted by the Ohio Department of Agriculture's Analytical Toxicology Laboratory. In calendar year 2017, the laboratory tested nearly 22,000 horse blood and urine samples.
- Provide presiding judges and stewards and veterinarians at approximately 133 live race dates at over 60 county fairs and approximately 770 live race dates at the seven commercial racetracks.
- Provide funding for seven full-time and seven part-time employees, as well as judges, veterinarians and hearing officer contractors, for the continued enforcement of the Ohio Horse Racing Act and the rules promulgated thereunder, including the licensing of over 20,000 people, and inspection and monitoring of races throughout the race season.
- Navigate appeals and hearings in conjunction with the Attorney General's office to negotiate the return of purses due to positive drug tests. The Commission also doles out fines and penalties for violations.

State of Ohio

State Racing Commission

Program Series 1: Horse Racing Industry Administration (161A0)

This program series enforces Ohio pari-mutuel horse racing rules and regulations. This is achieved through laboratory testing of horses, riders, and drivers; officiating races; issuing licenses; conducting investigations; and general oversight of the racing dates, participants, and facilities. The series also provides additional purse money for horses bred in Ohio and awards for breeders whose Ohio-bred horses win races in Ohio. The Regulation Program (161B1) regulates all persons participating in pari-mutuel horse racing. The Promotion Program (161B2) promotes pari-mutuel horse racing and breeding.

Department of Rehabilitation and Correction

Role and Overview

The Ohio Department of Rehabilitation and Correction's (DRC) mission is to reduce recidivism among those they touch. The DRC protects and supports Ohioans by ensuring that adult felony offenders are effectively supervised in environments that are safe, humane, and appropriately secure. In partnership with communities, DRC promotes citizen safety and victim reparation. The Department seeks to instill in offenders a sense of responsibility and the capacity to become law abiding members of society through rehabilitative and restorative programming. The Department employs 12,153 full-time staff members.

More information regarding the Department of Rehabilitation and Correction is available at <http://www.drc.ohio.gov/>.

Agency Priorities

- Manage the offender population in a manner that reduces instances of violence and provides opportunities for meaningful programming.
- Enhance the delivery of correctional health care, provide greater access to mental health programming, and actively address restrictive housing issues in institutions.
- Invest in community options such as diversion programs, halfway houses, and Community Based Correctional Facilities (CBCFs), which allow qualifying offenders to receive treatment and remain in the community without facing the collateral sanctions of a prison sentence. The Department will continue to target the diversion of non-violent Felony 5 offenses.
- Continue to implement cost savings efficiencies.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$1.8 billion (or a 3.4% increase from fiscal year 2019). Funding for fiscal year 2021 is \$1.9 billion (or a 3.7% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$1.9 billion (or a 2.9% increase from fiscal year 2019). Funding for fiscal year 2021 is \$2.0 billion (or a 3.6% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Employ an integrated Ohio model of unit-managed prisons, adhering to staffing ratios that ensure safe, humane, and secure incarceration, as well as allowing for programming that prepares inmates for reentry into the community.
- Support a hardened perimeter fence system, topped with coils of razor ribbon and equipped with electronic detection systems, with officers in vehicles or on foot patrol to monitor the perimeter for each prison.
- Support and expand a healthcare team of professional clinicians that provide inmate medical and mental health services that match the needs of inmates and facilitate their recovery and rehabilitation.
- Prioritize and expand supervision of offenders under the legal jurisdiction of the Adult Parole Authority to ensure public safety and to assist offenders in the positive reintegration into the community.
- Offer work experience and training in shops located in state correctional institutions for inmates through the Ohio Penal Industries.
- Fund community based correctional facilities, halfway house placements, prison diversion programs, and jail diversion programs, including support for community grants which will fund diversion programs that are anticipated to reduce prison population gradually over time.
- Provide adult basic education, high school equivalency diplomas, and adult high school opportunities.
- Support physical plant operations that include heating, ventilation, plumbing, and electrical service to buildings that house inmates and provide workspace for prison staff.
- Provide transitional control housing for eligible inmates that are serving up to their last 180 days in a strictly monitored, work release environment. This will free up prison beds for more dangerous offenders.

Program Series 1: Institutional Operations (5000A)

This program series includes Institutional Operations (5000B), Medical Services (5100B), Mental Health Services (5180B), and Education Services (5170B). These programs provide housing, security, food, healthcare, and education for adults who are sentenced to the custody of the Department. The Department currently operates 25 prisons and contracts with two private prisons and a separate facility for close-security beds. Research-based programming is delivered to offenders based on need in order to prepare them for re-entry to society. In addition, eligible offenders are offered work experience and training through Ohio Penal Industries.

Program Series 2: Parole and Community Service Operations (5250A)

This program series includes Nonresidential Services (5250B) and Residential Programs (5280B). These programs provide community supervision for felony offenders, parole investigations and hearings, jail inspection services, victim services, and community correction options. Community correction programs provide punishment for lower risk offenders including sanctions such as electronic house arrest, day reporting, intensive supervision through jail and prison diversion programs, and commitment to community-based correctional facilities and halfway houses.

DRC ALI Analysis

501407, Community Nonresidential Programs: The appropriation increase in this line item supports the funding of 100 additional officer positions to allow for prioritization of state parole cases and a reduction in the case load sizes for state parole officers. These changes will allow for increased oversight and monitoring of individuals on parole under the Adult Parole Authority.

505321, Institution Medical Services: The appropriation increase in this line item supports 41 additional staff for the operation of a psychiatric inpatient hospital facility, the treatment and observation of mentally ill inmates among the general population and allowing the department to keep all severely mentally ill inmates out of restrictive housing. These changes will improve outcomes for mentally ill inmates by better managing the symptoms of their illnesses and promoting their recovery and treatment.

501321, Institutional Operations: The appropriation increase in this line item supports 190 additional staff for expanding family visitation at prisons to maintain inmate social connections, increasing monitoring and tracking of inmate data to comply with new reporting requirements and improve oversight, increasing security levels to assist in violence reduction and drug interdiction, increasing focus on release preparation for high security inmates to reduce recidivism among the most difficult offenders and staffing new buildings at the Ohio Reformatory for Women, including a nursery, to address the increasing population of women in the prison system.

House of Representatives

Role and Overview

The Ohio House of Representatives (REP), in conjunction with the Ohio Senate, enacts the laws of the state, subject to the approval of the Governor. The authority to do so is provided in Article II of the Ohio Constitution. The House considers bills that may alter existing laws or create new laws and resolutions, which are formal expressions of the wishes and opinions of the legislature. The House of Representatives and the Senate are the two "houses" that comprise the bicameral Ohio General Assembly. Each member of the House is elected to a two-year term from one of the state's 99 House districts. Each member is assigned to at least one standing committee. A member also may be assigned to a temporary committee of a standing committee; a select committee, which undertakes a specific legislative task; a joint select committee, which consists of members from both the House and Senate; or a conference committee, which seeks to resolve the differences between versions of a bill passed by both houses of the legislature. Members represent the citizens in their districts and serve as liaisons between groups and individuals in their districts and state and federal agencies. Members also respond to questions and concerns of their constituents. In addition, members may be appointed to serve on statutorily created committees such as the state Controlling Board, which provides legislative oversight over certain capital and operating expenditures by state agencies. The 99 members of the House are supported by 152 full-time staff members. Pursuant to Section 107.03(B) of the Ohio Revised Code, the Governor may not alter the funding requests of agencies of the legislative branch of government.

More information regarding the House of Representatives is available at <http://www.ohiohouse.gov/>.

Agency Priorities

- Enact laws of the state in conjunction with the Senate, subject to the approval of the Governor.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$25.9 million (or a 0.0% increase from fiscal year 2019). Funding for fiscal year 2021 is \$25.9 million (or a 0.0% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$27.4 million (or a 0.0% increase from fiscal year 2019). Funding for fiscal year 2021 is \$27.4 million (or a 0.0% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Fund the operations of the Ohio House of Representatives.

State Revenue Distributions

Role and Overview

State Revenue Distributions (RDF) is an agency only for purposes of the state budget. It contains the appropriation of moneys collected and distributed by the state in three general categories: 1) funds for which the state serves a fiduciary role for local governments and school districts; 2) funds from state fees and taxes that previous General Assemblies have decided to provide as subsidies for both general and specified purposes to local governments and school districts; and 3) funds that receive certain moneys for which the final recipient has either not been identified or that will be distributed to other funds in the state treasury. Although each of the 31 funds appropriated in RDF are administered by a state agency, they are not presented in either the Executive Budget or the budget bill as part of the administering agencies' budgets. The reason for this is that these moneys are not spent by state agencies on agency operations, but are instead distributed by the administering agencies as specified in state law. The funds are thus presented together, here, in order to highlight the role they play in this redistribution function of state government. The majority of moneys deposited and distributed through these appropriations are to units of local government, including counties, municipalities, libraries, school districts, and transit authorities.

More information regarding the State Revenue Distributions is available at <http://www.tax.ohio.gov>.

Agency Priorities

- Provide a source of support for local governments and libraries by committing a set amount from revenues deposited into the General Revenue Fund.
- Collect and distribute moneys to local governments and organizations, school districts, libraries, transit authorities, other state funds, and other states.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$1.8 billion (or a 1.7% increase from fiscal year 2019). Funding for fiscal year 2021 is \$1.9 billion (or a 1.0% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$7.7 billion (or a 1.1% decrease from fiscal year 2019). Funding for fiscal year 2021 is \$7.9 billion (or a 1.9% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Provide a source of support for local governments and libraries by committing a set amount from revenues deposited into the General Revenue Fund.
- Collect and distribute moneys to local governments and organizations, school districts, libraries, transit authorities, other state funds, and other states.

State Revenue Distributions

Program Series 1: Revenue Distribution (163A0)

State Revenue Distribution Funds are funds used by the state to collect and distribute moneys to local governments and organizations, school districts, libraries, transit authorities, other state funds, and other states, pursuant to law. This program series is comprised of three separate programs: 1) Fiduciary Collections and Distributions (163B2); 2) State Revenue Subsidy Distributions (163B3); and 3) State Holding Funds and Internal Distribution (163B4). The Fiduciary Collections and Distributions Program is comprised of appropriations of revenues collected and held by the state as a custodian or agent. Ultimately, these moneys are distributed to the units of local government or entities where either the revenues originated or where the disposition is prescribed in statute. The State Tax Revenue Subsidy Distributions Program is comprised of the appropriation of moneys from either state tax revenues or other receipts that are to be distributed to units of local government, school districts, or other organizations. The State Holding and Internal Distributions Program includes appropriations for moneys received in various funds before they are distributed to other funds in Ohio, to other jurisdictions outside of the state of Ohio including other states and provinces, and to the federal government.

Ohio State School for the Blind

Role and Overview

The Ohio State School for the Blind (OSB) provides residential educational services to school-age (K-12) blind and visually-impaired youth and visually-impaired youth with multiple disabilities so that they may become self-sufficient members of society. While attending OSB, students are expected to demonstrate academic proficiency, practical work-related skills, and an awareness of appropriate social behaviors. Enrollment at OSB is approximately 125 full-time students for the 2018-2019 school year and approximately 38.0 percent of the students live on campus. Children ages 3 to 22 are placed in the school by their local school district in cooperation with students' parents or guardians. An individualized educational program is tailored for each student's academic and behavioral skill level and is updated each year. Students also may participate in a wide range of extracurricular activities, including track and field, swimming, debate team, and cheerleading. Students with multiple disabilities return to their local communities and participate in closed workshop programs operated by County Boards of Developmental Disabilities or find specialized competitive employment. Statewide services are also provided to approximately 75 additional students through the summer program, educational clinic, and local district consultations. The State Board of Education and the Ohio Department of Education oversee operations at OSB.

More information regarding the Ohio State School for the Blind is available at <http://www.ossb.oh.gov/>.

Agency Priorities

- Meet the educational needs of the specialized population of blind or visually impaired children, providing services for each student based on specialized need up to 22 years of age.
- Provide residential and support services for students enrolled in the school program. Services include dormitory living with a variety of recreational and after school club options, food services, and health supports with access to 24-hour nursing.
- Provide statewide services to local school districts throughout Ohio to assist in meeting the educational needs of the blind or visually impaired for students who are being served in their home communities.
- Continue to partner with school districts throughout the state serving their blind or visually impaired students and families locally through expansion of OSB's Statewide Services team. This goal is to provide services such as educational assessment, onsite consults, and opportunities for short-term programming at OSB to serve students.
- Support the educational, residential, and statewide service components to serve students across Ohio. Operational areas must continue to establish procedures and reviews to ensure that all safety, regulatory, operational systems and processes, and fiscal procedures are sound and progressive.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$12.4 million (or a 18.4% increase from fiscal year 2019). Funding for fiscal year 2021 is \$12.6 million (or a 1.1% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$14.1 million (or a 13.0% increase from fiscal year 2019). Funding for fiscal year 2021 is \$14.2 million (or a 1.0% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Provide classroom instruction and related services by certified personnel for children ages 3 to 22 who are enrolled in the visually impaired program.
- Support the direct service and support staff who implement the residential program for students that reside at the school, including promoting daily living skills and independent living.
- Provide direct nursing services for the school and the residential programs on a 24-hour basis from Sunday afternoon until Friday when the students leave to go home.
- Provide an educational clinic, which provides assistance to local school districts for the evaluation and assessment of the visually impaired, blind, and deaf/blind students educated in local school districts.

Ohio State School for the Blind

- Provide local school districts with assistance in developing the appropriate educational programming for blind and visually impaired students being educated in their district of residence through limited onsite consultation and educational recommendations based on assessment.
- Provide administrative support for the school and residential program, including business and fiscal operations, buildings and ground maintenance, security, food service, and IT support.
- Promote life-long learning to help students meet the challenges of a culturally diverse, technologically complex society.
- Provide Early Intervention services to children up to age three around the State of Ohio that are blind or visually impaired.

Ohio School for the Deaf

Role and Overview

The Ohio School for the Deaf (OSD), established in 1829, is a state-run public residential school for deaf and hard of hearing children from Ohio. OSD is under the control and supervision of the State Board of Education and the Superintendent of Public Instruction. OSD offers a comprehensive preschool through grade 12 education comparable to other public schools in the state. OSD's educational programs must meet the same state minimum standards that apply to other public schools, including the state Operating Standards for Ohio Schools Serving Children with Disabilities. OSD has also earned full accreditation status from the North Central Association Commission on Accreditation and School Improvement and the Conference of Educational Administrators in Schools and Programs for the Deaf.

More information regarding the Ohio School for the Deaf is available at <http://www.ohioschoolforthe deaf.org/>.

Agency Priorities

- Provide a quality education that is comprehensive to deaf and hard of hearing learners who range in age from birth to 22 years with differing levels of ability, achievement, hearing loss, additional handicapping conditions, and their unique communication needs and capabilities.
- Provide residential after school programs and services for deaf and hard of hearing learners who are away from home and range in age from 5 years to 22 years.
- Assist schools and preschools across the state as they meet the needs of their students with hearing loss through multi-factored assessments, professional development, parent education, material development, and technical assistance.
- Provide early education opportunities and interventions for our preschool deaf and hard of hearing learners.
- Support the educational, residential, and statewide service components by maintaining a clean and safe working environment. Additionally, supporting school operations with fiscal compliance, human resource development, interpreting services, information technology infrastructure, health services, and food services.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$13.1 million (or a 16.5% increase from fiscal year 2019). Funding for fiscal year 2021 is \$13.6 million (or a 3.9% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$13.9 million (or a 12.7% increase from fiscal year 2019). Funding for fiscal year 2021 is \$14.5 million (or a 3.7% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Ensure students will demonstrate continued growth in reading, writing and math as measured by multiple assessment tools on an annual basis.
- Ensure deaf and hard of hearing students will individually demonstrate a successful transition from the school environment to post-secondary education or training, employment, and adult life.
- Support a bi-lingual educational program and philosophy to meet the needs of deaf and hard of hearing students throughout Ohio.
- Implement a quality educational and residential program that is customized to meet the individual needs of Ohio's deaf and hard of hearing learners who range from birth to 22 years.
- Plan and deliver quality outreach programs and services on a limited basis, offering sustained and intensive professional development for classroom management and effective instructional strategies aligned with Ohio's Academic Content Standards for general education teachers, supervisors, and educational interpreters.

Ohio School for the Deaf

Program Series 1: Educational Program Series (8200A)

The OSD provides comprehensive K-12 educational services for Ohio's school-age learners who are deaf or hard of hearing (some with secondary disabilities) so that they may become self-sufficient members of society. Learners are expected to demonstrate proficiency in academics, work skills, and self-advocacy. This program series contains the Standard Hearing Impaired Program (8200B) and the Preschool Program (8205B).

Program Series 3: Outreach Program Series (8250A)

The Statewide Services (formerly known as The Center for Outreach Services) supports local school districts serving deaf and hard of hearing students in preschool and school-age programs. Statewide Services provides on-site, regional, or centralized services, as well as programs offered through interactive video distance learning, online courses, or videoconferencing. It offers student evaluations to help determine students' needs for special services, and Parent Mentor provides education and support to parents of deaf and hard of hearing children. This program series contains the Outreach Program (8250B).

Secretary of State

Role and Overview

The Secretary of State (SOS) is an elected constitutional officeholder. As Ohio's chief elections officer, the SOS appoints members of Ohio's 88 county boards of election; supervises the administration of election laws; reviews statewide initiative/referendum petitions; chairs the Ohio Ballot Board, which approves ballot language for statewide issues; canvasses votes for elective state offices/issues; and works with counties to train election officials. The SOS is a member of the 7-member Ohio Redistricting Commission, which adopts a plan every ten years to redraw boundaries for 99 Ohio House and 33 Ohio Senate districts. As the custodian of business filings, the SOS is the first stop for companies seeking to do business in Ohio, receiving and approving articles of incorporation for Ohio business entities; licenses for out-of-state corporations; filings from limited partnerships and limited liability companies; amendments to filed documents, mergers, consolidations, and dissolutions; as well as trademarks, trade names, service marks, and fictitious names. The SOS maintains a registry of business names, statutory agents, incorporators' names, corporations' charter numbers, dates of incorporation, and the number of authorized shares per corporation. Secured parties file loan financing statements under the Uniform Commercial Code (UCC) to claim an interest in collateral used for a loan and to have it indexed for public notice. All laws passed by the Ohio General Assembly, agency administrative rules, executive orders issued by the Governor, and municipal charters are filed with the SOS. The SOS provides document authentication for use overseas via an apostille or a gold seal certificate; licenses ministers; issues notary public/special police commissions; receives/reviews statewide candidate campaign finance reports; and manages a new Safe at Home program that provides address confidentiality for victims of domestic violence. The agency has about 111 employees.

More information regarding the Secretary of State is available at <http://ohiosecretaryofstate.gov>.

Agency Priorities

- Provide leadership that builds trust and confidence in Ohio's system of elections by ensuring that the voting process in Ohio is uniform, accessible, fair, and secure for all Ohioans.
- Enhance economic growth and job creation in Ohio using technology and customer service practices to save businesses time and money.
- Continue commitment to fiscal responsibility and do more with less by reducing fees and spending.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$12.1 million (or a 21.0% increase from fiscal year 2019). Funding for fiscal year 2021 is \$14.3 million (or a 17.9% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$32.5 million (or a 8.4% decrease from fiscal year 2019). Funding for fiscal year 2021 is \$34.1 million (or a 4.9% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Upgrade Ohio's cyber-defense through technology and create a Chief Information Security Officer position that will work with all 88 counties to improve election security.
- Provide oversight and direction in the administration of Ohio elections by working with the 88 county boards of election to make it easy to vote and hard to cheat, and ensuring all voters vote by the same rules no matter where they live.
- Maintain and improve accuracy of the statewide database of over 7.9 million registered voters through sharing data with other agencies and states. Support the online change of address system, voter lookup, and polling place locator tools, and implement the newly authorized online voter registration system.
- Support county boards of election in the training and recruitment of more than 35,000 precinct election officials needed for Election Day and continue to address the unique challenges in providing voting access for both uniformed and oversees voters and individuals with disabilities.

- Build upon successes in modernizing business filings by reducing the time, ease, and cost to start a business through Ohio Business Central, a new online business filing system. Most filings can now be done online, 24 hours a day, 7 days a week, and online offerings will continue to be expanded.
- Promote transparency in campaign finance filings; efficient operation of the UCC section; administration of ministers' licenses, notary public commissions and authentication of documents for use overseas; maintenance of historical records; and implementation of the address confidentiality program.

Budget Fund Group Information

- The increase in the General Revenue Fund group from fiscal year 2018 to 2019 is due to the passage of Senate Bill 132 of the 132nd General Assembly, which appropriated \$10 million for the one-time reimbursement of counties that had already purchased voting machines. In fiscal years 2020 and 2021 debt service is included for assisting other counties in buying new voting machines.

Expense Account Category Information

- The increase in Subsidies Shared Revenue from fiscal year 2018 to 2019 is due to the passage of Senate Bill 132 of the 132nd General Assembly, which appropriated \$10 million for the one-time reimbursement of counties that had already purchased voting machines. The increase in Debt Service from fiscal year 2019 to 2020 is due to debt service from Certificates of Participation (COPs) for assisting other counties in buying new voting machines.

Program Series 2: Business Services (9050A)

This program series includes Business Services Program Management (9050B), and Corporate / Business Filing Refunds (9060B). The SOS Business Services division handles filings for businesses as well as uniform commercial code (UCC) filings. Many of the filings can now be completed online. Filing fees are paid through credit card, cash, check, money order, or prepayment accounts established by frequent customers. This program series also funds many of the other general operations of the SOS office.

SOS ALI Analysis

050508, Statewide Voting and Tabulation Equipment: The increase in appropriations in fiscal year 2019 is due to the passage of Senate Bill 132 of the 132nd General Assembly, which appropriated \$10 million for the one-time reimbursement of counties that had already purchased voting machines.

050509, County Voting Systems Lease Rental Payments: New appropriations in fiscal years 2020 and 2021 support payment of the debt service due on Certificates of Participation (COPs) that were issued to assist other counties in buying new voting machines.

Senate

Role and Overview

The Ohio Senate (SEN), in conjunction with the Ohio House of Representatives, enacts the laws of the state. The authority to do so is provided in Article II of the Ohio Constitution. The Senate considers bills that may alter existing laws or create new laws and resolutions, which are formal expressions of the wishes and opinions of the legislature. The Senate also must confirm members of state boards and commissions appointed by the Governor, the Attorney General, the Director of the Bureau of Workers' Compensation, and other certain agency heads whom the Governor is authorized to appoint. The Senate and the House of Representatives are the two "houses" that comprise the bicameral Ohio General Assembly. Each member of the Senate is elected to a four-year term from one of the state's 33 Senate districts. Each Senate district is made up of three House districts. Elections are held for the Senate every two years with half of the Senate members elected each time. Each member is assigned to at least one standing committee. A member also may be assigned to a select committee, which undertakes a specific legislative task; a joint-select committee, which consists of members from both the Senate and the House; or a conference committee, which seeks to resolve the differences between versions of a bill passed by both houses of the legislature. Members represent the citizens in their districts and serve as liaisons between groups and individuals in their districts and state and federal agencies. Members may also be appointed to serve on statutorily created committees such as the state Controlling Board, which provides legislative oversight over certain capital and operating expenditures by state agencies. The Senate is supported by approximately 100 full-time employees. Pursuant to Section 107.03(B) of the Ohio Revised Code, the Governor may not alter the funding requests of agencies of the legislative branch of government.

More information regarding the Senate is available at <http://www.ohiosenate.gov/>.

Agency Priorities

- Enact laws of the state in conjunction with the House of Representatives, subject to the approval of the Governor.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$15.9 million (or a 0.0% increase from fiscal year 2019). Funding for fiscal year 2021 is \$15.9 million (or a 0.0% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$16.4 million (or a 0.0% increase from fiscal year 2019). Funding for fiscal year 2021 is \$16.4 million (or a 0.0% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Fund the operations of the Ohio Senate.

Commission on Service and Volunteerism

Role and Overview

The Ohio Commission on Service and Volunteerism (CSV), established in 1994, operates AmeriCorps in Ohio and promotes volunteerism and service as tools for addressing community needs. Federal law requires, as a condition for receipt of AmeriCorps funding, that a state service commission be maintained to administer the program, ensuring each state the opportunity to coordinate AmeriCorps with its own programmatic priorities. In fiscal year 2019 the commission received \$8.6 million in federal pass-through funding for 25 projects with operating sites all across Ohio. Nearly 900 members have committed to serve as AmeriCorps members this year, and they will provide over one million hours of human capital to solve real problems facing their communities. In addition to AmeriCorps, the commission seeks to promote the overall field of volunteerism and community service through its ServeOhio programming. The commission is governed by a board of 19 members. Four members are representatives of state agencies, 15 are appointed by the Governor. The commission employs eight full-time permanent employees. Funding for commission operations is provided under a one-to-one state-federal cost share pursuant to federal law.

More information regarding the Commission on Service and Volunteerism is available at <http://www.serveohio.org/>.

Agency Priorities

- Maximize AmeriCorps funding and impact through high-quality sub-grant projects that address critical local needs, generate significant local support, and leverage federal competitive funding.
- Serve as a resource for the broader volunteer network in Ohio through the Ohio Conference on Service and Volunteerism, recognition of outstanding volunteer efforts, and provision of National Days of Service mini-grants.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$307.2 thousand (or a 0.5% increase from fiscal year 2019). Funding for fiscal year 2021 is \$306.0 thousand (or a 0.4% decrease from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$10.0 million (or a 1.1% increase from fiscal year 2019). Funding for fiscal year 2021 is \$10.0 million (or a 0.2% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Award, manage, and support 25-30 AmeriCorps sub-grant projects totaling \$8.3 million in federal funding per year. Local match will generate an additional \$5.6 million in annual project support.
- Enable over 950 AmeriCorps members to provide 1.3 million hours of service to their communities per year, while enhancing their post-service job skills. Upon completion of service, members will receive over \$4.3 million per year in federal education awards for college tuition or student loan repayments.
- Maintain our corporate Stewards of Service funding base to support our non-AmeriCorps programming as well as restricted federal funding to develop a framework for increasing capacity in the volunteer arena.

Commission on Service and Volunteerism

Program Series 1: Commission on Service and Volunteerism (1500A)

This program series funds projects that foster volunteerism and service throughout the state. The Operations Program (1500B) provides for commission staffing and operations. The ServeOhio Program (1501B) promotes recognition and training for volunteers and funds special projects on National Days of Service. The AmeriCorps Program (1502B) provides federal pass-through funding to local projects that address community needs relating to education, economic opportunity, healthy futures, and others.

Commissioners of the Sinking Fund

Role and Overview

The Commissioners of the Sinking Fund (CSF) facilitate the payment of debt service on fixed rate, variable rate, and derivative products for state general obligation bonds, including bonds issued for highway, coal research and development, local infrastructure, parks and natural resources, higher education, primary and secondary education, Third Frontier research and development, site development, and conservation purposes. Additional duties include the management and payment of financing costs and administrative expenses associated with the issuance and payment of state general obligation bonds. These costs are paid from the Office of Debt Management appropriation located in the Treasurer of State's budget. Pursuant to Section 11 of Article VIII of the Ohio Constitution and Section 129.22 of the Revised Code, the Sinking Fund also is required to submit to the Governor and the legislature a semi-annual report detailing the status of all general obligation debt of the state.

More information regarding the Commissioners of the Sinking Fund is available at http://www.tos.ohio.gov/Investor/Sinking_Fund.

Agency Priorities

- Facilitate the payment of debt service on state general obligation bonds.
- Pay financing and administrative costs associated with the issuance of general obligation bonds.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$1.3 billion (or a 4.0% increase from fiscal year 2019). Funding for fiscal year 2021 is \$1.3 billion (or a 4.0% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Support debt service payments for general obligation bonds issued for highway, coal research and development, local infrastructure, parks and natural resources, conservation, higher education, primary and secondary education, Third Frontier research and development, and job ready site development purposes.

Southern Ohio Agricultural and Community Development Foundation

Role and Overview

The Southern Ohio Agricultural and Community Development Foundation (SOACDF) mission is to help create and enhance economic opportunities for Ohio's tobacco farm families and rural communities. The goal of the Foundation is to make strategic investments that will improve profitability at the farm level, strengthen local economic development efforts, and provide educational assistance to the 22 counties of southern Ohio where the Foundation operates.

More information regarding the Southern Ohio Agricultural and Community Development Foundation is available at <https://www.soacdf.net/>.

Agency Priorities

- Increase the variety, quantity, and value of agricultural products other than tobacco through offering Agricultural Development and Young Farmer grants. This cost share program provides up to \$25,000 matching funds for capital investments necessary for diversification and development.
- Assist farmers who have suffered the economic impact of reductions in quota through the provision of educational assistance so that farmers and their dependents can acquire the skills necessary to transition to new or supplemental income generating occupations.
- Provide grants for projects that will create, retain or expand job opportunities for residents in Burley tobacco producing counties in southern Ohio. These investments are used for capital improvements and technology infrastructure that foster job creation and retention.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$294.9 thousand (or a 14.3% increase from fiscal year 2019). Funding for fiscal year 2021 is \$300.9 thousand (or a 2.0% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Provide education and training assistance to farm families in rural southern Ohio.
- Make investments in rural communities by adding infrastructure and creating and retaining jobs.
- Increase the variety, quality, and value of agricultural products other than tobacco.

State Speech and Hearing Professionals Board

Role and Overview

The mission of the Ohio Speech and Hearing Professionals Board (SHP) is to regulate the practice of audiology, hearing aid dealing and fitting, and speech-language pathology by establishing, promoting, and enforcing practice standards and professional competency among licensees pursuant to Chapters 4744, 4747, and 4753 of the Ohio Revised and Ohio Administrative Codes. The board licenses approximately 10,500 audiologists, audiology aides, hearing aid dealers, and fitters, conditional speech-language pathologists, speech-language pathologists, speech-language pathology aides, and trainee permits. SHP was created on January 21, 2018. Pursuant to Am. Sub. H.B. 49 both the Ohio Board of Speech-Language Pathology and Audiology and the Ohio Hearing Aid Dealers and Fitters Licensing Board were abolished and combined to create SHP. SHP regulates three professions. Audiologists provide services for individuals or groups of individuals who have or are suspected of having disorders of hearing. Speech-language pathologists provide services for individuals or groups of individuals who have or are suspected of having disorders of communication. Audiologists and speech-language pathologists practice in a variety of work settings, encompassing all age groups from newborn infants to the elderly. Audiologists and speech-language pathologists work in hospitals, acute care facilities, skilled nursing homes, schools, rehabilitation centers, community-based health care facilities, in-home care facilities, private practice, governmental agencies, and corporations. Hearing aid dealers, fitters, and dispensing audiologists are engaged in the "practice of dealing in" or "fitting of" hearing aids, which means the sale of a hearing aid, and the measurement and testing of human hearing for the purpose of selecting, adapting, and selling a hearing aid to any person. There are nine members appointed to the board by the Governor. A staff of four full-time employees is responsible for board operations, licensing, investigations, and enforcement activities. The board's accomplishments since January 21, 2018 include a smooth and efficient transition with the consolidation and collaboration with other state agencies, such as the Ohio Department of Education, Ohio Department of Health, Ohio Department of Medicaid, as well as other professional organizations.

More information regarding the State Speech and Hearing Professionals Board is available at <http://shp.ohio.gov/>.

Agency Priorities

- Ensure consumer protection by reviewing the qualifications of individuals applying for licensure related to the practice of audiology, hearing aid dealing and fitting, and speech-language pathology.
- Ensure consumer protection by investigating complaints alleging violations of Ohio Revised and Administrative Code Chapters 4744, 4747, and 4753.
- Promote practice standards and professional competency among licensees through continuing education.
- Ensure all Ohioans possess maximum communication skills in order to achieve social and vocational independence.
- Monitor compliance with relevant laws and rules and tracking licensure trends that impact consumer access to quality service delivery.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$620.0 thousand (or a 0.7% increase from fiscal year 2019). Funding for fiscal year 2021 is \$636.7 thousand (or a 2.7% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Ensure all qualified individuals are licensed in an efficient manner so that these licensees, who will be practicing in the professions of audiology, hearing aid dealing and fitting, and speech-language pathology, may provide services to consumers in Ohio.
- Ensure that all licensees are competent through compliance with the continuing education requirements.
- Ensure complaints are investigated in a timely and efficient manner to ensure the protection, safety, and welfare of Ohio consumers.

State Speech and Hearing Professionals Board

Program Series 1: Regulation (184A0)

This program series regulates the practice of audiology, hearing aid dealing and fitting, and speech-language pathology. The License/Regulation/Enforcement Program (184B1) licenses approximately 10,500 audiologists, hearing aid dealers and fitters, speech-language pathologists, aides, and trainee permits and investigates all complaints received alleging misconduct by licensees. The program ensures that individuals applying for licensure meet all requirements for qualification. The program also audits continuing education and conducts administrative hearings when proposing to take disciplinary action against a licensee. The program investigates allegations involving unlicensed practice within the professions and initiates appropriate action to protect consumers. The program also ensures consumers have access to adequate speech and hearing health care services provided by qualified licensees.

Board of Tax Appeals

Role and Overview

The Board of Tax Appeals is an independent, quasi-judicial body comprised of three members appointed by the Governor for staggered, six year terms. The Board is a highly specialized tribunal authorized to determine appeals arising under Ohio tax laws. The Board's mission as Ohio's administrative tax court, is to provide taxpayers and taxing authorities with an accessible, fair and efficient process and to resolve tax appeals in a timely and judicious manner by facilitating settlement or by issuing written decisions which are based upon Ohio statutes, case law and Board precedent. The Board issues decisions related to state and local tax disputes, which relieves the state judicial system from having to adjudicate these appeals, and satisfies the constitutional requirements of due process. This process is conducted by an agency unaffiliated with any potential parties to a case. In addition, taxpayers are assured their appeals will be reviewed and considered by Board members and a staff of attorney hearing examiners who focus exclusively on tax issues and have considerable expertise in tax matters. In fiscal year 2018, the Board consolidated the legal department from an antiquated six-tiered department to a two-tiered department and created the positions of Senior Hearing Officer and Hearing Officer. The Board employs an Executive Director, Chief Counsel, four Hearing Officers, and five other staff members.

More information regarding the Board of Tax Appeals is available at <http://bta.ohio.gov>.

Agency Priorities

- Ensure the integrity of the decisions issued by the board, which are based upon Ohio statutes and case law;
- Remain current on all appeals by resolving appeals within the prescribed case management schedules set forth in the board's rules. Timely resolution of appeals removes financial ambiguity for parties to appeals; and
- Use the funding provided by Ohio's taxpayers to operate as efficiently and effectively as possible, and to generate quality resolutions to tax appeals.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$1.8 million (or a 0.7% decrease from fiscal year 2019). Funding for fiscal year 2021 is \$1.9 million (or a 0.7% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$1.8 million (or a 0.7% decrease from fiscal year 2019). Funding for fiscal year 2021 is \$1.9 million (or a 0.7% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Adjudicate approximately 1,500 Real Property Valuation appeals per year, in which taxpayers challenge property values set by county auditors.
- Adjudicate approximately 500 Tax Commissioner, Municipal Boards of Appeal, and County Budget Commission appeals per year.
- Support the continued use of the cloud-based, online case management system that allows parties to actively engage in their appeal via an online portal. The case management system saves parties significant time by granting direct access to case information, filing services, and communications methods.

Board of Tax Appeals

Program Series 1: Resolution Of Tax Appeals (110A0)

This program series supports the resolution of state and local tax disputes. For all appeals, the Board works to establish case management schedules at the time an appeal is docketed in the Board's case management system, to provide real-time updates via electronic communication, and to use the online system to provide access to relevant forms and educational content on the tax appeals process.

Department of Taxation

Role and Overview

The Ohio Department of Taxation (ODT) administers and enforces 30 different state and local taxes and fees, including the state and school district individual income taxes, state and local sales taxes, and an array of business and excise taxes. It also oversees the Ad Valorem appraisals in Ohio's 88 counties and produces farm land values and tax rates for all local property taxes each year. ODT is headquartered in Columbus, and has more than 200 telecommuters located throughout the state. Collections from taxes and fees administered by ODT generate nearly \$30 billion annually to support many functions of state and local government, including education, health care, transportation, and law enforcement. The agency is currently budgeted for 945 full-time employees. Recent accomplishments include: fighting fraud by continuing to improve methods of blocking attempted income tax fraud, while reducing the cost of fighting fraud and minimizing the inconvenience to taxpayers, utilizing technology to objectively identify taxpayers who may not be compliant with their tax obligations, reviewing and redesigning tax forms to make them easier for taxpayers and reduce the number of forms to be processed, reduce travel expenses in half compared to several years ago by performing more audits remotely and finding other ways to cut travel cost, continuing to increase attendance at the Ohio Virtual Tax Academy webinars as we provide topical tax-related information and offer continuing education credits to attorneys and CPA's,

More information regarding the Department of Taxation is available at <https://www.tax.ohio.gov/>.

Agency Priorities

- Personal Income Tax (PIT) Replacement. ODT's existing PIT system, which administers both personal and school district income taxes, is written in COBOL and runs on an IBM mainframe. All other business taxes have been migrated to the State Accounting and Revenue System (STARS). This project will rewrite and modernize the PIT system and add it to STARS so all taxes will be integrated into a single system.
- Data capture upgrade. This project involves upgrading the software to a new version to take advantage of better processing, additional security and better data handling/reporting.
- Use of data analytics for employer withholding to allow ODT to verify data reported by both the taxpayer and the employer.
- Development of a portal to connect the agency with local subdivisions that will facilitate electronic transfer of data in the future. Plans for the portal include exchange of data files for property taxes, local government funds and vendor licenses. By automating and creating an easy to navigate and secure interface, there will be efficiencies and savings at both the local and state level.
- Municipal Income Tax for Electric Light Companies and Local Exchange Telephone Companies (MELT) system upgrade. The technology underlying that system has become obsolete, making the system very costly to update and maintain. During this biennium, the goal is to put this system on a more modern and configurable platform.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$61.4 million (or a 12.1% decrease from fiscal year 2019). Funding for fiscal year 2021 is \$62.5 million (or a 1.8% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$2.3 billion (or a 16.9% increase from fiscal year 2019). Funding for fiscal year 2021 is \$2.3 billion (or a 1.0% decrease from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Process tax returns, payments and refund requests filed by individuals and businesses.
- Conduct audit and compliance programs to ensure the correct amounts have been paid by taxpayers.
- Provide customer service to help taxpayers fulfill their tax filing responsibilities.
- Improve operations and modernize the legacy computer systems by moving forward with various initiatives.
- Identify efficiency gains that will enable ODT to operate in the most economical way possible.
- Improve customer service by leveraging technology.

Program Series 1: Revenue Distribution (9150A)

The Refunds and Distributions Program (9150B) distributes funds to qualified parties from the check-offs made by taxpayers on their state individual income tax returns. The program also issues tax refunds owed to taxpayers, provides reimbursement to counties and municipalities, distributes vendor's license payments to counties, and handles misdirected tax payments.

Fund	ALI	ALI Name	Estimated	Recommended

Program Series 2: Tax Administration (9100A)

This program series encompasses five main programs including Taxpayer Services (9100B), Tax Processing (9110B), Tax Compliance (9120B), Tax Policy, Analysis, and Administration (9130B), and Tax Operations (9140B). These programs are necessary to provide the delivery of service to taxpayers in an effort to increase tax compliance. Tax compliance is achieved through the filing of both paper and electronic returns as well as through investigations. ODT thoroughly monitors legislative activity in the tax area and provides analysis of the revenue impact of these initiatives. In addition, ODT staff members provide the necessary legal services for the management of bankruptcy cases, tax appeals, and overall tax counsel. A large portion of ODT's operating budget is directed towards local government services. Staff members provide information and assistance to local government units and school districts as well as provide for the administration of certain local taxes.

Department of Transportation

Role and Overview

The Ohio Department of Transportation (ODOT) plans, builds, and maintains a safe, efficient, and accessible transportation system that integrates highway, rail, air and water networks. ODOT also helps coordinate and develop Ohio's public transportation and aviation programs which include 61 public transit systems, 18 Mobility Management Program grantees, over 200 specialized transportation program agencies and 157 other public-use airports and heliports. Over 80 percent of ODOT's employees are located in the 12 districts, 88 counties, and 102 outpost facilities throughout the state, the remainder being located in the Columbus central office. The department's funding source is mainly state and federal taxes on motor fuels. The vast majority of ODOT's biennium budget is to be used for the maintenance and construction of highways and bridges, with an emphasis on safety and preserving and upgrading the current network. Most highway maintenance work is completed by ODOT employees, while nearly all construction work is completed by private contractors with ODOT oversight to ensure the quality of work performed. The Director is appointed by the Governor and oversees 5,135 employee positions.

More information regarding the Department of Transportation is available at <http://www.dot.state.oh.us>.

Agency Priorities

- Maintain the department's existing road and bridge infrastructure at a steady and sustainable condition level.
- Maintain the highest levels of snow and ice control to promote safety, reduce congestion, and minimize negative economic impacts of weather events on Ohio's economy.
- Improve highway safety for the drivers on Ohio's highways.
- Develop new and innovative approaches to managing, maintaining, operating and building our infrastructure assets to reduce costs, enhance efficiency, and generate revenue.
- Use the DriveOhio mobile technologies incorporated in multiple smart city and roadway projects throughout the state. Ohio is investing in and testing connected and autonomous vehicles and infrastructure, including upgrading the Smart Mobility Advanced Research and Test (SMART) Center, the development of self-driving shuttles, and researching the use of unmanned aircraft systems to manage traffic, roadway incidents, and roadway conditions.
- Continue to be a reliable partner with local communities and identify ways to promote jobs and commerce in Ohio by aligning transportation investments and strategies with the needs of Ohio's businesses and workers.
- Continue to promote a multimodal approach to transportation including public transit, aviation, and waterways.
- Provide a meaningful and safe work environment as well as promote opportunity and diversity.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$14.4 million (or a 7.4% increase from fiscal year 2019). Funding for fiscal year 2021 is \$14.4 million (or a 0.0% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$3.7 billion (or a 17.2% increase from fiscal year 2019). Funding for fiscal year 2021 is \$3.7 billion (or a 1.6% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Development of a statewide integrated transportation plan.
- Maintain Ohio's highway pavements at an acceptable pavement condition rating. Preserve, replace, and maintain Ohio's over 49,500 lane miles of general, priority, and urban system pavements, and 14,200 state bridge structures.
- Provide a predictable and reliable annual construction program.
- Continue to maintain ODOT's infrastructure and assets at an optimum level and provide snow and ice removal.

Department of Transportation

- Continue reductions in the number of fatalities, serious injuries, and crashes. Ohio will reduce the number of fatalities and serious crashes by one percent per year from the five-year rolling average.
- Continue providing federal funding to counties and municipalities for the replacement and rehabilitation of bridges, highways, and safety projects.
- Continue supporting programs that provide consistent and reliable funding to local transit authorities.

Budget Fund Group Information

- Appropriations are increasing in the Highway Operating Fund due to an anticipated increase in the motor fuel tax (MFT).
- Appropriations in the Capital Projects funds are decreasing due to a planned reduction in the issuance of state highway bonds.

Department of Transportation

Program Series 1: Transportation Planning and Research (4900A)

The Transportation Planning and Research program series supports DOT's strategic initiatives. The majority of the funding is used for transportation planning with the remainder dedicated to highway research (Planning and Research Operating, 4900B, and Planning and Research Contracts, 4901B). The Federal Highway Administration (FHWA) requires that two percent of core federal funding be dedicated to planning and research.

Fund	ALI	ALI Name	Estimated	Recommended

Program Series 2: Highway Transportation (4920A)

Highway Transportation consists of programs which cover design, acquisition of right-of-way, and highway construction, including inspection and engineering (4921B-4925B). This program series also covers the highway portions of the State Infrastructure Bank (SIB), as well as debt service on federal revenue-backed bonds. The Portsmouth Bypass project is included in the series. This program series also contains funding for highway operations and the lands and buildings program (4920B and 4926B).

Department of Transportation

Program Series 3: Public Transportation (4940A)

This program series assists 61 transit systems and allows DOT's Office of Transit to work towards improved ride-sharing in rural and urban regions so that all Ohioans have access to transportation regardless of economic status, location, or physical agility (4940B-4943B).

Fund	ALI	ALI Name	Estimated	Recommended

Program Series 5: Aviation (4980A)

This series includes programs that work with airports to meet national safety standards, improve and maintain infrastructure (4981B), provide air transportation to state officials, and maintain the state's aircraft fleet (4980B). The unmanned aerial program is contained in this program series. The State Infrastructure Bank (SIB) provides funding for aviation projects to public entities (4982B).

DOT ALI Analysis

771412, Planning and Research-Federal: Appropriations are increasing due to a planned increase in federal funding.

772421, Highway Construction-State: Appropriations are increasing due to an anticipated increase in the motor fuel tax (MFT). The new funding will enable the Department to greatly improve and preserve roads and bridges across Ohio. Additional emphasis will be placed on improving safety, along with new and major projects, both scheduled for \$250 million each year.

772425, Highway Construction-Turnpike: No additional appropriations are planned.

772428, Highway Infrastructure Bank-Bonds, and 772723, Highway Construction-Bonds: Appropriations are decreasing due to a planned reduction in the issuance of state highway bonds.

Treasurer of State

Role and Overview

The Treasurer of State (TOS) is a constitutional office holder responsible for protecting, collecting, and investing state funds using sound financial practices. Serving as the state's banker and chief investment officer, the Treasurer's Office manages state revenue, provides for its investment, and serves as the custodian of more than \$200 billion in public assets. In fiscal year 2018, the total amount collected by or deposited into the Ohio Treasury was more than \$66 billion. The Office manages an investment portfolio of more than \$22.6 billion and emphasizes three priorities - safety, liquidity, and yield. The Treasurer's Office also provides debt management, issuance, and administration services as well as providing continuing education for public funds managers through the Center for Public Investment Management (CPIM). The Office provides local governments safe investment alternatives through the State Treasury Asset Reserve of Ohio (STAR Ohio) investment pool and the STAR Plus program. STAR Plus is an aggregated bank deposit program used by more than 700 Ohio schools, cities, counties, and local government entities. Ohio local governments have invested more than \$11.1 billion in STAR Ohio and STAR plus. The Treasurer of State has a staff of approximately 125 employees.

More information regarding the Treasurer of State is available at <http://tos.ohio.gov/>.

Agency Priorities

- Assure integrity, fiscal responsibility, and sound financial practices within the Treasurer's Office.
- Oversee the operations of the STAR Ohio investment pool to ensure that local governments and public entities have high-quality, secure, and diverse investment options.
- Act as custodian and safekeeping agent for assets of the state pension funds and several other state agencies.
- Provide high-quality continuing education for Ohio's public funds managers, as required by statute, while expanding convenient online educational opportunities.
- Manage Ohio STABLE Accounts, which are investment accounts for individuals with disabilities.
- Provide Ohioans with access to state and local government spending through Ohio's online checkbook.
- Administer the Ohio Pooled Collateral System, which provides efficiencies for local governments and financial institutions while ensuring the safety of public dollars.
- Manage linked-deposit programs: Ag-LINK, GrowNOW, ReEnergize Ohio, and ECO-link.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$11.5 million (or a 0.0% decrease from fiscal year 2019). Funding for fiscal year 2021 is \$11.5 million (or a 0.0% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$46.1 million (or a 25.7% decrease from fiscal year 2019). Funding for fiscal year 2021 is \$33.3 million (or a 27.7% decrease from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Provide funding to support the Treasurer of State's role as the state's chief investment officer.
- Provide funding necessary for proper administration and payment of the state's debt.
- Provide funding to support the activities of the Treasurer to provide educational opportunities to public funds managers.
- Provide continued funding to support and continue low administrative fees for STABLE Accounts.
- Provide funding to support the Treasurer of State's role as the sole regulator and monitor of the Ohio Pooled Collateral Program securing Ohio public fund deposits.

Treasurer of State

- Provide personal financial education resources with a focus toward Ohio students, teachers, parents, veterans, and the general public.
- Administer the OhioMeansJobs Workforce Development Revolving Loan program, which provides loans to individuals for workforce training.

TOS ALI Analysis

090635, Tax Refunds: This line item is used to pay tax refunds related to insurance taxes. As the amount of refunds processed each year varies greatly from year to year, the budget bill includes language that allows the OBM Director to increase appropriations in this line item as needed.

090610, OhioMeansJobs Workforce Development: is used to provide loans for workforce training programs under the OhioMeansJobs Workforce Development Revolving Loan Program. Since the amount of loan repayments that will be available for further workforce training loans at the beginning of fiscal year 2021 is currently unknown, the budget bill includes language that appropriates the full cash balance of Fund 5NH0 at the beginning of fiscal year 2021 for the purpose of this program.

Veterans Organizations

Role and Overview

Thirteen veterans' organizations, including the Korean War Veterans, the Jewish War Veterans, the Catholic War Veterans, the Military Order of the Purple Heart, the Vietnam Veterans of America, the American Legion of Ohio, AMVETS, the Disabled American Veterans, the Marine Corps League, the 37th Division Veterans' Association, the Veterans of Foreign Wars, the Army and Navy Union, U.S.A., and the American Ex-Prisoners of War, receive a subsidy from the state to help veterans and their dependents identify and claim benefits to which they are entitled. Each organization provides services to its particular constituency. State funding supplements each organization's other funding raised through membership dues, fundraising efforts, private donations, and federal grants.

More information regarding the Veterans Organizations is available at <http://dvs.ohio.gov/main/veterans-organizations.html>.

Agency Priorities

- Support the needs of veterans.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$1.9 million (or a 1.9% increase from fiscal year 2019). Funding for fiscal year 2021 is \$1.9 million (or a 0.0% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$1.9 million (or a 1.9% increase from fiscal year 2019). Funding for fiscal year 2021 is \$1.9 million (or a 0.0% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Provide support for the needs of veterans.

Department of Veterans Services

Role and Overview

The Ohio Department of Veterans Services (DVS) is a cabinet-level agency created to actively identify veterans and their families in Ohio and provide opportunities and resources that enhance their quality of life, employment opportunities and overall well-being through the Department's advocacy, collaboration, and partnership. Ohio has nearly 800,000 veterans and the Department works closely with our county and federal partners, the U.S. Department of Veterans Affairs (VA) and all 88 County Veteran Service Offices to ensure accurate VA claims maximize Ohio veterans' benefits and compensation. Ohio workforce consultants have also contacted more than 11,000 Ohio employers who are paving the way for veterans through career and job opportunities. Military families also appreciate the supportive community and quality of nursing and independent living care DVS provides for Ohio's wartime veterans in the state-operated veterans' homes in Sandusky and Georgetown. DVS provides several services and programs for veterans, including: maintaining custodianship of over 1.9 million veterans' records and muster logs detailing the war service of nearly 4.3 million Ohioans dating back to the War of 1812; developing a veteran workforce team that helps provide direct services to employers recruiting veterans; working with the Department of Higher Education to develop consistent standards for granting college credit for military personnel; and, operating the State Approving Agency, which approves educational and professional programs to accept veterans and family members utilizing G.I. Bill benefits. DVS also has a Cleveland liaison office that focuses on improving the quality of veterans' claims applications to the VA. These services are especially critical to Ohio's most-in-need veteran populations. The department has over 600 full-time, permanent employees, many of whom are direct care workers in the veterans' homes.

More information regarding the Department of Veterans Services is available at <http://dvs.ohio.gov>.

Agency Priorities

- Partner with state workforce, licensing, and education programs to provide Ohio veterans and their spouses with a fast track to jobs and education.
- Provide quality services to the residents in the Ohio Veterans Homes that meet the current and future requirements of the Centers for Medicare and Medicaid Services, the U.S. Department of Veterans Affairs and the Ohio Department of Health.
- Coordinate the training and certification for Ohio's County Veterans Service Officers and County Veterans Service Commissioners in all 88 counties to maximize return on veterans VA claims for VA benefits and healthcare.
- Provide assistance through a workforce consultant team that serves as liaisons to all public and private employers in Ohio with an interest in hiring and retaining veterans.
- Implement the Ohio Veteran and Military Suicide Prevention and Behavioral Health Collaborative enhancing coordination of capabilities and outreach among federal, state, and community providers to assist in suicide prevention through improved access to culturally competent behavioral health services.
- Monitor federal veterans' education programs through administering the State Approving Agency (SAA).

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$51.0 million (or a 44.4% increase from fiscal year 2019). Funding for fiscal year 2021 is \$55.6 million (or a 9.1% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$104.6 million (or a 15.0% increase from fiscal year 2019). Funding for fiscal year 2021 is \$110.2 million (or a 5.4% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Enhance veterans' quality of life by: providing opportunities and resources for our veteran community through advocacy, collaboration, and partnerships with a focus on connecting veterans and their families to jobs, education, and maximizing their VA benefits.
- Continue to provide guidance to Ohio employers across the state that are interested in hiring and retaining veteran employees.

Department of Veterans Services

- Provide high quality, person-centered care and services for veterans living in our Veterans Homes and to achieve a 5-star rating for the Ohio Veterans Homes.
- Continue to train and certify county veterans service officers and commissioners to ensure accurate VA claims that maximize Ohio veterans' access to their benefits and compensation.
- Continue to monitor federal veterans' education programs through administering the State Approving Agency (SAA).
- Provide outreach to educate veterans and their families on all the services and resources available to them at the local, state, and federal level.
- Administer the Military Injury Relief Program, which provides support to veterans injured in the line of duty.
- Continue receiving and maintaining custody for 1.9 million electronic military discharge records and muster logs detailing nearly 4.3 million Ohioans war service as far back as The War of 1812.

Budget Fund Group Information

- The increase in the General Revenue fund is the result of hiring more employees responsible for the direct-care of veterans in the two Ohio veterans homes.

Program Series 2: Veterans Bonus (8370A)

This Veterans Bonus program series houses the Veterans Bonus Program (8370B), which provides qualifying veterans up to \$1,500 based on length of service, and up to \$5,000 for those killed in action. The Military Injury Relief fund provides a nonrenewable grant of \$500 to individuals with a service connected combat injury.

Program Series 3: Veterans Services (8375A)

The Veterans Services program series provides assistance for veterans through benefit identification and claims assistance/advocacy; support for federally funded education, training, and career transition programs; and, assisting special needs (non-nursing home) veteran populations. The program helps employers connect with veterans, collaborates to prevent veteran suicide, and increase access to culturally competent behavioral health resources, serves as the custodian for veterans records and provides veteran recognition. The Veterans Hall of Fame Program (8375B) recognizes post-military achievements of veterans for their community service. The Veteran Services Program (8380B) assists veterans, currently serving members of the military, and their families in identifying and receiving benefits claims assistance and advocacy. This program also provides training and certification for county veterans service officers, veterans service commissioners, and staff in Ohio's 88 counties to ensure accurate VA claims that maximize Ohio veterans' benefits and compensation. The State Approving Agency Program (8390B) is charged with approving educational, vocational, and professional programs allowing veterans and their eligible family members access to G.I. Bill benefits from the U.S. Department of Veterans Affairs.

Program Series 4: Patient Services (8350A)

The Patient Services program series contains the Nursing Home/Domiciliary Program (8350B), which operates the Ohio Veterans Homes (OVH) located in Sandusky and Georgetown. These homes provide care for the elderly, chronically ill, and disabled veterans in an appropriate living arrangement to help them achieve their highest level of functional ability. OVH provides standard and specialized care (Alzheimer and dementia) to veterans. Both facilities also offer skilled care to recently hospitalized residents. The Domiciliary in Sandusky provides independent living in a homelike environment for residents able to care for themselves. A second level of care, Domiciliary Plus, provides extra assistance to residents who require a degree of care between domiciliary living and nursing home care.

Veterinary Medical Licensing Board

Role and Overview

The Ohio Veterinary Medical Licensing Board (DVM) was established to ensure that the residents of Ohio are served by professional, trustworthy and competent veterinarians and veterinary technicians. The Board is responsible for the licensure requirements of 4,429 veterinarians, 4,289 registered veterinary technicians, 176 limited licensed veterinarians, 78 specialty licenses and 107 business facility licenses. The Board currently employs two full-time and one part-time employee.

More information regarding the Veterinary Medical Licensing Board is available at <http://www.ovmlb.ohio.gov>.

Agency Priorities

- License veterinarians and registered veterinary technicians.
- Investigate written complaints.
- Perform compliance inspections of veterinary facilities.
- Monitor legislation and regulation impacting the practice of veterinary medicine.
- Promote veterinary wellness through education inclusive of efforts to address substance and alcohol abuse.
- Approve continuing education.
- Administer the Veterinary Student Loan Program.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$463.1 thousand (or a 3.9% increase from fiscal year 2019). Funding for fiscal year 2021 is \$465.0 thousand (or a 0.4% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Continue licensing veterinarians and registered veterinary technicians in an expeditious manner with an increased use of technology.
- Continue investigating complaints received expeditiously and efficiently and discipline in accordance with Chapter 4741 of the Ohio Revised Code.
- Increase the number of annual compliance inspections performed.
- Approve continuing education opportunities so that veterinarians and registered veterinary technicians can renew their licenses.
- Monitor legislation and regulations impacting veterinary medicine and work cooperatively with interested parties and associations.
- Continue administering the Veterinary Student Loan Repayment program to encourage veterinary graduates to provide veterinary care in public health or underserved areas.

State Vision Professionals Board

Role and Overview

The Ohio Vision Professionals Board (VPB) is the licensing and regulatory body for approximately 6,920 licensees and 4 primary license types. The Board is comprised of seven members and is composed of four optometrists, two dispensing opticians, and one member of the public. To better align state programs and regulatory functions and achieve administrative efficiencies, the State Board of Optometry (OPT) and the Ohio Optical Dispensers Board (ODB) were consolidated into the newly created Ohio Vision Professionals Board (VPB). This merger was effective January 21, 2018. The Board has completed its transitional activities and is fully operational as a consolidated board and is preparing to reorganize office space for efficiency. There are currently four full-time, permanent employees; an executive director, an investigator, and two administrative professionals.

More information regarding the State Vision Professionals Board is available at <http://vision.ohio.gov>.

Agency Priorities

- Serve the citizens of Ohio by effectively and efficiently regulating the practice of optometry, opticianry, and ocularistry in the State of Ohio through the licensing of qualified individuals.
- Monitor compliance with continuing education requirements and educate licensees on the laws and rules that govern licensees and consumers on services provided by licensees .
- Protect the public through promulgation of the standards of conduct and investigate all complaints against licensees where such standards may have been violated.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$640.8 thousand (or a 1.5% decrease from fiscal year 2019). Funding for fiscal year 2021 is \$654.1 thousand (or a 2.1% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Efficiently and effectively license optometrists, dispensing opticians, and ocularists.
- Ensure timely and appropriate licensure and license renewal.
- Review and approve continuing education programs and providers to ensure relevance to practice in Ohio.
- Conduct investigations to ensure licensed professionals remain in compliance with the applicable rules and regulations.

State Vision Professionals Board

Budget Fund Group Information

- The Board was created on January 21, 2018 from a merger of the State Board of Optometry and the Ohio Optical Dispensers Board. Amounts in fiscal year 2018 are for half a year, while appropriations in the following years are for 12 months.

Bureau of Workers' Compensation

Role and Overview

The Ohio Bureau of Workers' Compensation (BWC) is the exclusive provider of workers' compensation insurance to private and public employers in Ohio that have not been granted the privilege of paying compensation and medical benefits directly. The Ohio workers' compensation system is the largest exclusive state insurance fund in the U.S. The Governor, with the advice and consent of the Senate, appoints the BWC administrator and the 11-member BWC board of directors. The administrator, with the advice and consent of the Board, is responsible for the operations of the workers' compensation system. BWC has 1,751 employees in Columbus and 11 other customer service offices. Better than expected investment returns, falling claims, and prudent fiscal management have allowed for rebates of approximately \$1.0 billion in fiscal year 2018 and \$1.5 billion in fiscal year 2019. A 12 percent premium reduction, effective July 1, 2018, was approved for private employers while a 12 percent premium reduction, effective January 1, 2019, was approved for public taxing district employers. Since 2011, BWC has saved employers \$8 billion through premium reductions, rebates, safety grants, and prospective billing transition credits. Funding for the Safety Intervention Grant Program has expanded from \$15 million to \$20 million in FY 2019. New grants have been established for Firefighter Exposure to Environmental Elements, Employers Working with Persons with Developmental Disabilities, grants to improve safety for the law enforcement community, schools, and state agencies. The number of opioid-dependent injured workers in the Ohio's workers' compensation system fell 19 percent in 2017, the sixth consecutive year the numbers have fallen under BWC's efforts to reduce opioid use and build a model pharmacy program. The International Association of Industrial Accident Boards and Commissions named BWC the winner of its second annual Innovation Award for - Saving Lives - Building a Model Pharmacy Program Amid a Deadly Epidemic.

More information regarding the Bureau of Workers' Compensation is available at <http://www.bwc.ohio.gov>.

Agency Priorities

- Talent management is critical for BWC to continue its progress to becoming a world-class organization. Improved recruitment, retention, and succession planning are critically important for success in this area. Education and training will be used to create an engaged and empowered workforce.
- BWC will elevate communications and outreach activities to support operations, strengthen customer and partner relationships, and to advance the strategic plan framework. To better reflect a world class insurance carrier, BWC will pursue a robust, long-term rebranding strategy.
- BWC will manage the financial and enterprise risks associated with its operations by maintaining an adequate net position. BWC will focus efforts to complete the replacement of MIRA II reserving system with updated systems to calculate individual claim level reserves on all active state fund claims.
- Targeted information technology functions include: robotic process automation, continued enhancements to the web site user experience, functional and technical improvements to our core business system, update of current digital storage and imaging, and rates and payments applications upgrade or replacement.
- BWC will keep Ohio's workers safe, healthy, and productive by expanding BWC's innovative safety and wellness programs while reducing the cost of on-the-job injuries and illnesses. BWC will create a center of workplace safety excellence providing valuable resources to Ohio employers and workers.
- BWC will employ the strategic use of data analytics and other innovative practices to respond to changing customer needs and make meaningful service improvements. As BWC's use of data analytics matures, BWC will move toward predictive modeling to increase operational quality and excellence.

Funding Recommendation for 2020 and 2021

- All Funds: Funding for fiscal year 2020 is \$319.8 million (or a 5.2% increase from fiscal year 2019). Funding for fiscal year 2021 is \$324.8 million (or a 1.5% increase from fiscal year 2020).

Bureau of Workers' Compensation

The Executive Recommendation will fund the following objectives:

- Approximately 85,000 new injury claims will be investigated each year and over 304,000 claims will be managed. Approximately \$1.5 billion in benefits are paid to injured workers for healthcare and lost wages annually.
- Work with 12 managed care organizations to provide medical care to injured workers.
- Over 235,000 private employer, 3,800 public taxing district, and 1,200 self-insured policies will be managed and monitored.
- Prudent management of the \$29 billion investment portfolio to ensure cash will be available to support BWC's long-term obligations to injured workers.
- Process 1,600 fraud allegations to completion annually, referring nearly 170 subjects for criminal prosecution.
- Safety and Hygiene library will provide documents, videos, and books to customers. \$15 million will be provided annually to Ohio employers through the Safety Intervention and Wellness Grant Program. Educational sessions in person and online will be provided to more than 18,000 students. Support will be provided to over 80 Safety Councils.
- Respond to approximately 372,000 customer inquiries via phone, email and web chats annually.
- Collect approximately \$22.0 million annually through the subrogation process, which helps to reduce premiums charged to employers.
- BWC will work with local Alcohol, Drug, and Mental Health (ADAMH) Boards to provide grants to employers to create workplace safety programs focused on substance use recovery.

Bureau of Workers' Compensation

Program Series 1: Injury Management Services (3200A)

The program series is a group of departments and initiatives designed to ensure the appropriate management of workers' compensation claims, availability of appropriate, cost-effective medical care, and development and credentialing of a strong provider network. This series is made up of the following programs: Field Operations (3200B), which focuses on providing injury management and employer management services to Ohio's injured workers and employers by developing, executing and monitoring injury management and employer management products, services, processes, and programs; and Injury Management Services (3201B), which ensures that prompt, quality, and cost-effective healthcare is provided to injured workers to facilitate their early, safe return to work and restored quality of life. This program also administers the Health Partnership Program, which maintains a quality pool of medical, pharmaceutical, and vocational service providers to ensure injured workers have access to quality, cost-effective, timely delivery of care and develops and provides internal and external training on issues impacting medical policy.

Fund	ALI	ALI Name	Estimated	Recommended

Program Series 2: Employer Management (3210A)

The program series provides a link between Ohio's employers and BWC and includes services directed toward large, financially stable employers who retain the financial risk for their companies' workers' compensation claims (self-insured employers). This series also includes the investigation of potential safety violations through the following programs: Employer Services (3210B) provides underwriting and technical support to help employers reduce their workers' compensation costs through accident/illness prevention along with various risk management and premium reduction programs; Self Insured Services (3211B) evaluates the ability of current and prospective self-insured employers, which makes up approximately forty percent of Ohio companies, to self-administer a workers' compensation program, provide auditing services and the assumption of program administration in the event of a default or bankruptcy of a self-insuring employer; and Safety Violations Investigation (3212B), which is responsible for investigating and preparing impartial, fact-finding summary reports for the Industrial Commission regarding grieved industrial and construction deaths, injuries and/or illnesses.

Program Series 3: Fraud Investigations (3220A)

The program series proactively prevents loss through fraud, whether from an operational or resource standpoint, for external and internal customers through the following program: Special Investigations (3220B) proactively prevents financial losses to the workers' compensation system by deterring, detecting, investigating, and prosecuting fraudulent behavior. The goal is to ensure that workers' compensation benefits are paid appropriately.

Program Series 4: Accident Prevention (3230A)

The program series is tasked with helping Ohio workers and employers in the prevention of occupational accidents and injuries at the workplace. The series has a single program, Safety and Hygiene (3230B), which sponsors a wide range of occupational safety and health activities and programs throughout the state. Activities and programs include Safety Intervention Grant Program, Research Grants, Opioid Workplace Safety Program, Workplace Wellness Grant Program, adult continuing education specializing in occupational safety and health courses, Ohio Safety Council program, the Ohio Safety Congress and Expo and the Public Employment Risk Reduction Program (PERRP).

Bureau of Workers' Compensation

Program Series 6: Customer Relations (3250A)

The program series addresses the needs and concerns of Ohio's employers, injured workers, and other interested parties through the following programs: Customer Contact Center (3250B), which handles customer contacts via phone, e-mail, and web chat to educate customers on BWC services, rules, laws and policies. This program also assists new employers in obtaining BWC coverage, issuing certificates of coverage as needed, and helps established employers with policy account information by explaining invoices, payroll data, and related information; Communications (3251B), which develops, reviews, edits and brands all BWC publications and letters distributed to external customers. It manages the external and internal websites, and creates media releases/inquiries/social media; Ombudsman (3252B) which provides ombudsman services to assist injured workers and employers in matters dealing with the Bureau of Workers' Compensation and Industrial Commission. The goal is to ensure customers receive appropriate, timely, and accurate resolution to workers' compensation system issues in a fair and objective manner.

Department of Youth Services

Role and Overview

The Ohio Department of Youth Services (DYS) oversees the juvenile corrections system for the State of Ohio and is statutorily mandated to confine felony offenders, ages 10 to 21, who have been adjudicated and committed by one of Ohio's 88 county juvenile courts. The Department operates three juvenile correctional facilities, provides parole services from two regions, and funds and supports approximately 625 community programs throughout the state, offering about 93,000 youth and families (based on annual program admissions) opportunities and services to affect positive change in their lives. From serving youth in community-based programs, placed in DYS facilities, or being monitored on parole to helping youth reintegrate into their communities, the Department strives to fulfill its mission to improve Ohio's future by empowering and habilitating youth, connecting families, and strengthening communities. In comparison to 2010, DYS youth population has decreased from 1,124 to 537 today, while admissions declined from 1,037 to 435. Similarly, the past decade has seen the number of felony youth decrease from more than 7,000 per year to fewer than 4,200. This decrease has allowed for a reduction from 6 to 3 state-operated facilities and the development of gender-specific alternative placements for girls. Decreasing total costs of state facilities by nearly \$45 million has allowed for a strategic reinvestment of more than \$7.6 million in community programs to prevent youth from being pushed further into the justice system. The Department currently employs 1,020 permanent employees.

More information regarding the Department of Youth Services is available at <http://www.dys.ohio.gov/>.

Agency Priorities

- Serving youth by providing developmentally appropriate, therapeutic, and humane treatment that responds to their individual needs and improves their chances for success. The agency endeavors to fulfill its mission to improve Ohio's future by giving youth the tools they need to be self-sufficient and lead crime-free lives.
- Promoting positive relationships between youth and their families. DYS is strengthening relationships, helping families address ongoing issues in the home and empowering parents and guardians to hold youth accountable. Keeping families engaged increases the chances of habilitation and assists in transitioning youth back into the community.
- Investing in communities and building Ohio's future. The agency will continue to use a comprehensive community-based service delivery system that is designed to provide appropriate services and supports for youth by matching risk level with the least restrictive program setting.

Funding Recommendation for 2020 and 2021

- GRF: Funding for fiscal year 2020 is \$226.5 million (or a 4.9% increase from fiscal year 2019). Funding for fiscal year 2021 is \$235.5 million (or a 4.0% increase from fiscal year 2020).
- All Funds: Funding for fiscal year 2020 is \$238.4 million (or a 3.7% increase from fiscal year 2019). Funding for fiscal year 2021 is \$247.5 million (or a 3.8% increase from fiscal year 2020).

The Executive Recommendation will fund the following objectives:

- Ensure safety and security at the three DYS facilities and 12 juvenile community corrections facilities, including meeting all statutory requirements for accreditation from the American Correctional Association and the Federal Prison Rape Elimination Act.
- Operate facilities that provide behavioral health, substance abuse, and sex offender services and programming for all youth, as well as basic supervision, care, and control of youth, including holding youthful offenders accountable for their behaviors.
- Expand the provision of subsidy and grant funding to Ohio counties for county juvenile court operations and/or for courts to create local prevention and diversion programming.
- Operate an accredited high school within each DYS correctional facility, providing a quality education for all youth working toward high school graduation or GED while remaining in compliance with the Ohio Department of Education charter, including special education programming.
- Provide a continuum of care from admission to the agency to a youth's transition back into their community.

Department of Youth Services

- Operate two parole regions in Ohio for the supervision of juvenile offenders who are released from state correctional facilities, and/or brought in through an Interstate Compact Agreement. Provide funding for local operations of the 12 juvenile community correction facilities in Ohio, including programming for education, medical and mental health treatment, and community services within those facilities.
- Provide federal pass-through grant funding to units of local government and private agencies to provide prevention and intervention programs and services for youth, including the administration of Juvenile Justice and Delinquency Prevention grants.
- Manage administrative operations that oversee all agency functions, and fulfill all debt service obligations on debt issued to fund DYS capital projects.

Budget Fund Group Information

- Agency funding begins to increase starting with fiscal year 2019 as the reductions in prison population caused by the RECLAIM Ohio grant program have reached their peak levels. This causes the number of inmates to resume its regular rate of growth.

Department of Youth Services

Program Series 1: Institutional Operations (5350A)

This program series includes the Juvenile Correction Facilities (5450B) and Private Facility Contracts (5440B) programs, which provide security and unit management 24 hours a day, seven days a week for male and female adjudicated juveniles ages 12 through 21 who are committed to one of the department's three juvenile correctional facilities or placed in a private facility. Facility programming delivers rehabilitative services including recreation, mental and behavioral health treatment, sex offender treatment, and comprehensive medical, clinical, dietary, and social services. The Buckeye United School District provides academic and career technical courses, such as math, language arts, science, social studies, and elective courses. Additionally, this program series supports four private facility contracts. Paint Creek provides services for male youth in a residential treatment facility and The Center for Adolescent Services, Applewood, and Pomegranate are private facility options for female youth with behavioral health needs. These community alternatives provide comprehensive behavioral health treatment, gender-specific care and use evidence-based programming to address the rehabilitative needs of youth in each facility.

Program Series 2: Parole Operations (5500A)

This program series includes the Parole Operations (5500B) program which operates two parole regions serving youth who have been released from a juvenile correctional facility, private facility, or community-based treatment facility. These programs support supervision of these youth in their home communities, as well as contracted services including residential and non-residential treatment services, re-entry focused services such as mental health counseling, substance abuse, transitional living, educational programming, employment services, and family counseling.

State of Ohio

Department of Youth Services

Program Series 3: Juvenile Court Subsidies (5600A)

This program series includes Youth Services Block Grant (5600B), RECLAIM County Subsidy (5610B), and Community Correction Facilities (5620B) programs. These programs provide funding to Ohio's 88 counties to develop and implement community and prison diversion programs for at-risk, unruly, and delinquent youth. The majority of funding through this grant has been used to provide the courts with direct care staff, such as probation officers. This funding allows communities to maintain local operations, which prevents youth from coming to DYS facilities. Lastly, this series also funds 12 juvenile community correctional facilities throughout Ohio to provide local alternatives for adjudicated youth.

Fund	ALI	ALI Name	Estimated	Recommended

Program Series 4: Federal Juvenile Justice Grants (5700A)

This program series includes Juvenile Justice Programs (5700B), Community Programs (5750B), and oversees the administration of federal juvenile justice dollars awarded to the State of Ohio from the U.S. Department of Justice, Office of Juvenile Justice and Delinquency Prevention (OJJDP). These grants include Title II and various juvenile justice grants focused on specific issues. As part of the Community Programs (5750B) program DYS acts as a pass-through, providing grant funding for community initiatives to develop evidence-based approaches that serve youth locally. These grant programs include Targeted RECLAIM and Behavioral Health Juvenile Justice (BHJJ).

Ohio's FUTURE

BUDGET OF THE STATE OF OHIO | FISCAL YEARS 2020 - 2021

ERRATA SHEET

CORRECTIONS MADE AFTER MARCH 15TH RELEASE

Errata Sheet

List of changes made after the initial publication on Friday March 15th, 2019.

As of March 22, 2019.

Revision #7

Updates to Development Services Agency (March 15, 2019 at 1:00pm)

- In the DEV ALI Analysis on page D-152, the new line item 195555 mistakenly listed the old name of “Short-Term Certificates/Tech Credential Grants.” This was updated to “Industry-Recognized Credentials.”

Updates to Revenue Summaries (March 18, 2019 at 12:00pm)

- In Section-C, Revenue Summaries, the table for Figure C-1 Estimated GRF Revenues on page C-3: The table headers had the wrong fiscal years. The column headers originally were FY 2018 and FY 2019. These have been updated to FY 2020 and FY 2021. No data within the table was changed.

Updates to Frequently Asked Questions (March 18, 2019 at 12:45pm)

- In Section-A, Frequently Asked Questions, the question of How big is the budget surplus? on page A-20, the description of the Budget Stabilization Fund’s maximum amount based on GRF revenues was outdated. HB64 (ORC 131.43) changed the BSF’s maximum balance from 5% of GRF revenues, to 8.5% of GRF revenues.

Updates to Department of Health (March 19, 2019 at 9:00am)

- In Section-D, Department of Health pages D-234 through D-241, appropriation for Fund L087, ALI 440669 - Ohio Public Health Priorities Fund for \$2,000,000 in fiscal year 2020, was accidentally left out.
 - Budget Fund Group Information chart and table on page D-234 were updated.
 - Expense Account Category Information chart and table on page D-235 were updated.
 - Program Series 2: Health Improvement and Wellness (4700A) was updated with Fund L087 - ALI 440669 on page D-237.
 - Expenses and Executive Recommendations Summary was updated with Fund L087 - ALI 440669 on page D-241.
- In Section-C, Spending Summaries, Figure C-6: All Funds – Recommended Appropriations for Fiscal Years 2020 and 2021, on page C-9, Health and Human Services for FY 2020 was updated from \$5,854.9 million to \$5,856.9 million.
- In Section-C, Spending Summaries, Table C-2: Expense by Object Summary, Fiscal Years 2016 to 2021, on page C-11, the All Funds section was updated.
- In Section-C, Fund Balance Summaries, Table C-4: Fund Balance Calculations by GAAP Fund Type and Budget Fund Group for Fiscal Years 2020 and 2021, on page C-14, Health & Human Services’ DEDICATED PURPOSE was updated from \$377.08 million to \$379.08 million.
- In Section-C, Fund Balance Summaries, Table C-4: Fund Balance Calculations by GAAP Fund Type and Budget Fund Group for Fiscal Years 2020 and 2021, on page C-15, the totals for DEDICATED PURPOSE were updated to carry through the change to 2020 Health & Human Services from the previous page.

State of Ohio

Errata Sheet

Updates to Department of Developmental Disabilities (March 21, 2019 at 11:00am)

- In Section-D, for the Department of Developmental Disabilities (DDD), in the ALI restructuring section on page D-161, the FY 2020 amount for ALI 653407 has been updated from \$635,894,484 to \$654,394,484.

Updates to Public Works Commission (March 21, 2019 at 1:45pm)

- In Section-D, for the Public Works Commission (PWC), on page D-438, the FY 2020 amount for ALI 150402 has been updated from 366,634 to \$374,938.
 - Program Series 1: Infrastructure Aid to Local Governments (159A0) was updated with Fund 7052 - ALI 150402 for the FY 2020 Column, with updated totals.
 - Expenses and Executive Recommendations Summary was updated with Fund 7052 - ALI 150402 for the FY 2020 Column, with updated totals.

Updates to Health and Human Services Summaries (March 22, 2019 at 9:30pm)

- In Section-C, a calculation error caused wrong numbers to be generated for Health and Human Services in the Spending Summaries and also the Fund Balance Summaries sub-sections.
 - Section-C, Spending Summaries, Figure C-6: All Funds – Recommended Appropriations for Fiscal Years 2020 and 2021 TABLE on page C-9, the Health and Human Services and General Government functions were updated for both fiscal years.
 - Section-C, Spending Summaries, Table C-2: Expense by Object Summary, Fiscal Years 2016 to 2021 on page C-11, the All Funds section was updated for fiscal years 2020 and 2021.
 - Section-C, Fund Balance Summaries, Table C-4: Fund Balance Calculations by GAAP Fund Type and Budget Fund Group for Fiscal Years 2020 and 2021 on page C-14 and C-15:
 - For fiscal year 2020, Health & Human Services column of Federal was updated from \$3,360.50 million to \$3,385.50 million, ending totals were also updated.
 - For fiscal year 2021, Health & Human Services column of Federal was updated from \$3,393.64 million to \$3,418.64 million, starting and ending totals were also updated.

Updates to Department of Insurance (March 22, 2019 at 4:00pm)

- In Section-D, for the Department of Insurance (INS), in the Role and Overview section on page D-279, the following sentence was updated from “20th” to “17th”: *Ohio is the sixth largest insurance state by premium volume in the United States and the 17th largest insurance market in the world.*

RELEASED MARCH 15TH, 2019
