INTRODUCTORY SECTION

Office of Budget and Management

John R. Kasich
Governor

Timothy S. Keen
Director

January 20, 2012

To the Honorable John R. Kasich, Governor;
Members of the Ohio General Assembly; and
Citizens of Ohio:

It is my privilege to present the State of Ohio's *Comprehensive Annual Financial Report (CAFR)* for the year ended June 30, 2011, prepared in accordance with Generally Accepted Accounting Principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB).

The Office of Budget and Management (OBM) prepared this report pursuant to Section 126.21, Ohio Revised Code. The report includes the basic financial statements, which provide an overview of the State's financial position and the results of financial operations. Responsibility for the accuracy of the data presented, as well as the completeness and fairness of the presentation, including all disclosures, rests with OBM.

To the best of our knowledge and belief, the information presented is accurate in all material respects and reported in a manner designed to present fairly the financial position and results of operations of the State of Ohio. All disclosures necessary for a reasonable understanding of the State's financial activities have been included.

This letter of transmittal is intended to complement management's discussion and analysis (MD&A) and should be read in conjunction with it. The MD&A provides an overview of the State's financial activities, addressing both governmental and business-type activities reported in the government-wide financial statements.

The reporting format for our CAFR is significantly different from the way the State more typically presents its finances on a non-GAAP budgetary basis. The most obvious difference is that the "General Fund" in the CAFR includes more than just the State's General Revenue Fund (GRF). The General Fund also includes other funds, such as the reimbursement-supported funds used for activities administered by state agencies and departments for which special revenue or proprietary fund classifications were considered to be inappropriate.

The State's management is responsible for establishing and maintaining internal control designed to ensure that the State's assets are protected from loss, theft, or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with GAAP. Internal control is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: 1) the cost of a control should not exceed the benefits likely to be derived, and 2) the valuation of costs and benefits requires estimates and judgments by management.

INDEPENDENT AUDIT RESULTS

In compliance with Ohio Revised Code, an annual financial audit has been performed by the Office of the Auditor of State. The audit was conducted in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards* issued by the Comptroller General of the United States. The auditor's unqualified opinion is included in the Financial Section of this report. This opinion indicates there was no limitation on the scope of the auditors' examination and the financial statements were presented fairly, in all material respects, in conformity with GAAP.

Additionally, the State's *Single Audit* report is audited by the Office of the Auditor of State to meet the requirements of the federal Single Audit Act Amendments of 1996 and related Office of Management and Budget (OMB) Circular A-133. The *Single Audit* report will be issued separately from the State's CAFR.

PROFILE OF THE GOVERNMENT

History

Ohio's first constitution was adopted in 1802, and Ohio entered the union in 1803. Ohio's present constitution was modified by a state constitutional

convention in 1851 and has since been amended on numerous occasions. The Constitution establishes a state governmental structure similar to the federal model, with three separate branches of government – executive, legislative, and judicial.

Governmental Structure

The executive branch consists of the Governor and Lieutenant Governor, who are jointly elected, and four additional statewide elected officials: the Attorney General, the Auditor of State, the Secretary of State, and the Treasurer of State. All of these officials are elected to four-year terms. The State Board of Education is also part of the executive branch. Approximately 100 departments, agencies, boards, and commissions are part of the executive branch of government and receive appropriations from the legislature, along with several judicial and legislative agencies. An organizational chart of state government can be found on pages x and xi.

The state legislature in Ohio is referred to as the General Assembly and consists of two separate chambers, the Senate, a 33-member body, and the House of Representatives, a 99-member body. Each member of the General Assembly is elected to represent the residents of a geographical district for a specified term. Members of Ohio's General Assembly are subject to term-limits; senators are restricted to serving two four-year terms, and representatives are restricted to serving four two-year terms. Each chamber has a presiding officer to call the chamber to order and direct the calendar of events. The presiding officer in the Senate is the President of the Senate, and the presiding officer of the House of Representatives is the Speaker of the House. A new General Assembly is convened in January of each odd-numbered year.

Within the judicial system, the Supreme Court is the court of last resort in Ohio. Most of its cases are appeals from the twelve district courts of appeal. The chief justice and six justices are elected to six-year terms on a nonpartisan ballot.

Reporting Entity and Its Services

For financial reporting purposes, the State's reporting entity consists of 1) the primary government, 2) component units for which the primary government is financially accountable (blended component units), and 3) other component units for which the nature and significance of their relationship with the primary government is such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete (discrete component units). The criteria set forth in GASB Statement No. 14, *The Financial Reporting Entity*, are used to determine the organizations for which the State is financially accountable. NOTE 1A to the financial statements explains more fully which financial activities are included in the State's reporting entity.

The State provides a wide range of services and support to its citizenry that are accounted for in the following functions or programs: primary, secondary and other education, higher education support, public assistance and Medicaid, health and human services, justice and public protection, environmental protection and natural resources, transportation, general government, community and economic development, workers' compensation, lottery, unemployment compensation, tuition credits, liquor control, and other business-type activities.

Retirement Systems

Employees of the primary government or its component units may be eligible to participate in the Ohio Public Employees Retirement System, the State Teachers Retirement System of Ohio, the State Highway Patrol Retirement System, or the Alternative Retirement Plan. Further information on the State's participation in the different retirement systems can be found in NOTE 9 to the financial statements.

Risk Management

As discussed in NOTE 1P to the financial statements, the State's primary government is self-insured for claims under the Ohio Med Health, United Healthcare, and Aetna plans, as well as for vehicle liability. Public official fidelity bonding is placed with a private insurer. The State self-funds tort liability and most property losses on a pay-as-you-go basis; however, selected state agencies have acquired private insurance for their property losses. Also, the State's primary government and its component units participate in a public entity risk pool, which is accounted for in the Workers' Compensation Enterprise Fund, for the financing of their workers' compensation liability.

Budgetary Control and Accounting System

Ohio's Constitution requires the State to have a balanced budget. The State's biennium budget begins on July 1 of odd-numbered years and ends 24 months later on June 30. The State maintains budgetary controls to ensure compliance with legal provisions embodied in the appropriated budget approved by the General Assembly. Budgets are entered on the statewide accounting system once the appropriations bill becomes law. Controls are maintained first at the agency level, with additional control at the fund and appropriation level to ensure that expenditures do not exceed authorized limits.

The State's non-GAAP budgetary financial statements are prepared on a modified cash basis of accounting. This means that revenues are recognized when cash is received and expenditures are recognized when cash is paid. Encumbrances, reservations of appropriation authority as of June 30, the end of the State fiscal year, are reflected as expenditures on the budgetary basis of accounting.

Budget-to-actual comparisons can be found in this report for each governmental fund for which an

appropriated annual budget has been adopted. For the General Fund and the Jobs, Family and Other Human Services Special Revenue Fund, these comparisons are presented as part of the basic financial statements. For other budgeted governmental funds with appropriated annual budgets, budget-to-actual comparisons are in the non-major governmental funds section of the CAFR.

Additional discussion of the budgetary and GAAP bases of accounting is provided in NOTE 1 to the financial statements.

The accounting system maintains all non-GAAP budgetary basis transactions and most GAAP basis adjustments. In addition to the information obtained from the accounting system for financial reporting, selected financial information provided by the State's agencies and departments is compiled to complete the GAAP basis financial statements.

Differences between the two bases of accounting (GAAP vs. non-GAAP budgetary) include: 1) entity differences — the GAAP reporting entity may include organizations such as financing authorities and other component units that are not included in the State's budget; 2) basis differences — the GAAP basis results in the reporting of accruals while the non-GAAP budgetary basis results in the reporting of cash transactions; and 3) timing differences — for example, GAAP recognizes expenditures for payables for goods and services received, whereas the non-GAAP budgetary basis considers unliquidated encumbrances as expenditures. A reconciliation between the GAAP basis and non-GAAP budgetary basis fund balances is presented in NOTE 3 to the financial statements.

ECONOMIC OVERVIEW AND OUTLOOK

The economic expansion continued throughout 2011, extending the string of positive quarterly change in real GDP to ten. Real GDP growth averaged less than 1 percent in the first half and picked up to approximately 2.5 percent in the second half, according to the January 2012 *Blue Chip Economic Indicators* consensus. Real GDP finally surpassed the all-time peak established in the second quarter of 2008 in the third quarter of 2011. The 2011 gain followed a 3.0 percent increase in 2010 and a 3.5 percent decrease in 2009.

Despite having clearly turned upward in the past year, economic growth continues to fall well short of that experienced in past recoveries. Real GDP has expanded at an estimated annual rate of 2.4 percent during the first ten quarters of this expansion, compared with the historical average of 5.7 percent. The pace is comparable to the growth rates following the most recent two recessions. Growth in real final sales, however, has been the second weakest on

record, only slightly exceeding the pace following the mild 2001 recession.

The substantial decrease in aggregate demand has suppressed consumer price inflation. After decreasing by 0.3 percent on average in 2009 for the first annual decline since 1955, the Consumer Price Index (CPI) increased only 1.6 percent in 2010 and an estimated 2.1 percent in 2011, according to the Blue Chip consensus. Inflation was last this low for a three-year period in the mid-1950s.

The Federal Reserve responded to continued weak economic growth and lingering financial stresses by retaining the federal funds rate target range at 0 percent to 0.25 percent and by making additional bond purchases to support capital markets. Interest rates remained at long-time lows, and in the case of 30-year fixed rate mortgages decreased to the lowest level on record. Monetary policy makers have indicated ongoing concern with the pace of expansion and expressed the intention of responding to any new shocks to the economy with additional measures.

Fiscal policy continued to add to aggregate demand in 2011. Federal government spending remained elevated and tax revenues remained depressed again in federal fiscal year 2011, resulting in one of the largest budget deficits on record for the third year in a row. Total receipts increased 6.5 percent, but were still 10.3 percent below the 2007 level. Total outlays increased 4.1 percent to a new record high in fiscal year 2011. At nearly 9 percent, the resulting budget deficit was the largest since 1945, other than the deficits in 2009 and 2010.

Extensive slack characterized labor markets throughout 2011, as the number of unemployed and under-employed people remained high. The hiring and layoffs of government census workers distorted the monthly pattern, but private-sector payrolls expanded in each month of the year. Growth in total nonfarm payrolls averaged 160,000 jobs per month in 2011 and the unemployment rate declined from 9.4 percent at the end of 2010 to 8.5 percent in December 2011. Despite the positive trends in labor markets, the pace of hiring has been weak and the severity of unemployment remains extreme by a variety of measures, including the length of time out of work.

Ohio employment also turned upward in 2011, rising by 79,300 jobs for the year through November compared with an increase of 31,000 jobs in all of 2010. Ohio employment fell by 450,300 jobs from its peak in March 2006 to its low point in December 2009. All major sectors of the economy contributed to job growth in 2011 with the exception of government, where employment fell by 8,700 jobs. Growth was concentrated in educational and health services (+22,200), trade, transportation and utilities (+19,200), manufacturing (+17,200) and professional and business services (+15,300).

The strengthening in labor markets translated into faster growth in U.S. personal income in 2011. After decreasing 5.1 percent from the third quarter of 2008 to the third quarter of 2009, personal income increased 4.9 percent in the year ending in the third quarter of 2010 and 4.2 percent in the year ending in the third quarter of 2011.

Ohio personal income followed a similar pattern, swinging from a 3.8 percent decline during the year ending in the third quarter of 2009 to a 4.0 percent increase during the year ending in the third quarter of 2010 and 3.7 percent in the year ending in the third quarter of 2011. Wage and salary disbursements have trailed total personal income in Ohio, falling 5.3 percent in 2009 and rising 3.0 percent and 2.6 percent in 2010 and 2011, respectively.

The economy is likely to continue expanding in 2012. Growth is projected to be about the same or stronger than in 2011 and remain below the pace experienced in previous recoveries. Real GDP is projected by the January *Blue Chip Economic Indicators* consensus to expand by 2.2 percent in 2012. Recent patterns in key economic measures, such as retail sales and industrial production, suggest that growth could be somewhat stronger early in the year. In response, a number of forecasters have raised their projections for 2012.

The Ohio economy is also expected to grow in 2012, as measured by employment, personal income, and real gross state product, according to the December IHS Global Insight forecast.

Ohio employment is projected to increase for the third year in a row in 2012 on a fourth quarter-to-fourth quarter basis. After decreasing for four years in a row and culminating with a 5.3 percent decline in 2009, Ohio employment increased by 0.6 percent in 2010 and by an estimated 1.5 percent in 2011. IHS Global Insight projects gains of 1.4 percent in 2012 and 1.3 percent in 2013.

Driven by rising employment and earnings per worker, Ohio personal income is projected to increase approximately 3 percent in both 2012 and 2013, following a decrease of 3.3 percent in 2009, an increase of 3.0 percent in 2010 and an estimated gain of 4.2 percent in 2010.

Real Ohio gross state product is estimated to have gained 2.4 percent in 2011 after a decrease of 2.4 percent in 2009 and an increase of 2.1 percent in 2010. Growth is projected to continue at a slower pace of 1.5 percent and 1.7 percent in 2012 and 2013, respectively.

Overall economic growth during the next several years is anticipated to fall short of the 3.25 percent rate during 1947-2009 for several reasons:

- The paying down of debt by households and businesses will subtract from growth instead of adding to growth as the accumulation of debt did during the expansion of the 2000s;
- The tremendous decrease in wealth from the decline in financial markets and housing prices will reduce consumption, although this factor has been somewhat offset by recent and substantial increases in prices of financial assets; and
- Housing construction will remain relatively subdued due to the large supply of unoccupied houses and low expectations for price appreciation.

The future economic situation is uncertain. In the near term, U.S. economic growth could be stronger than previously anticipated for a time before ultimately giving way to more moderate growth longer term. The economy could benefit more than is widely anticipated in the near term from the following:

- Extraordinarily accommodative monetary policy, which is pegging short-term interest rates at generational lows and engaging in policies designed to lower longer-term interest rates and support asset prices;
- Rapid growth in corporate profits and strong corporate balance sheets; and
- Improvements in consumer confidence and household balance sheets.

However, risks to the economic outlook include:

- Increases in the price of oil beyond the current level;
- Financial stress among European nations and U.S. state and local governments;
- Another wave of residential mortgage defaults could lead to foreclosures and renewed downward pressure on home prices;
- The extremely large projected federal budget deficits, which could undermine the foreign exchange value of the dollar and push inflation and interest rates up;
- Large direct and indirect costs of new regulations in health care, energy and financial services; and
- Over the longer term, the scheduled expiration of the 2003 federal income tax cuts at the end of 2012 and the imposition of other tax increases and costly regulations.

MAJOR INITIATIVES AND PROJECTS

The “Jobs Budget” for Fiscal Years 2012 and 2013

Upon assuming office in January 2011, Governor John Kasich faced the aftermath of a deep, lingering recession and the prospect of an historic shortfall in the State’s next biennial budget. In response, he introduced a series of bold initiatives to renew fiscal stability, reform outdated government programs and

revive Ohio's economy as an engine for jobs creation and prosperity.

The State's fiscal year 2010-2011 biennial budget, had been based upon an underlying fiscal framework that depended heavily on the use of one-time resources, an approach that presented significant challenges for planning the succeeding State budget. Foremost of these challenges was a projected \$7.7 billion budget shortfall for fiscal years 2012 and 2013, due to the reliance on federal stimulus dollars and other significant one-time resources in fiscal years 2010 and 2011 as well as the projected continued growth in existing state programs such as Medicaid.

On March 15, 2011, Governor Kasich introduced his executive budget and then worked with legislative leaders toward passage of H.B. 153 – the main budget bill for fiscal years 2012-2013. Signed by the governor on June 30, 2011, "The Jobs Budget" erased the projected shortfall and returned the state budget to structural balance. This was accomplished without raising additional taxes and while implementing a \$400 million annual income tax reduction that took effect in January 2011 – the final step of phased-in tax cuts that began in 2006. Total GRF appropriations in H.B. 153 are \$27.1 billion in fiscal year 2012 and \$28.7 billion in fiscal year 2013; appropriations across all funds are \$55.8 in fiscal year 2012 and \$56.4 billion in fiscal year 2013.

H.B. 153 restored structural balance to the operating budget through a number of fundamental changes and reforms, including:

- **Renewing Fiscal Stability and Reining-in Spending:** H.B. 153 closed an historic \$7.7 billion budget gap that had been projected for fiscal years 2012-2013 by asking every state agency to tighten its belt – and asking the same of local governments as well. In the wake of a budget that relied heavily on one-time resources and budgeting strategies that made GRF spending appear artificially lower, the fiscal year 2012-2013 budget virtually eliminates reliance on one-time funds by the second year and returns Ohio to more transparent and standard budgeting practices. The fiscal year 2012-2013 budget reduces non-Medicaid appropriations in the GRF by nearly \$700 million compared to actual spending in the previous biennium. Through this and other cost-reduction strategies in H.B. 153, government spending is restrained and aligned with ongoing resources.
- **Making Ohio Jobs Friendly:** In January 2011, H.B. 1 created JobsOhio, a private, nonprofit corporation designed to lead Ohio's job-creation efforts. Provisions in H.B. 153 authorized a stable revenue stream for JobsOhio, a source of funding not subject to the vagaries of a budget bill. These efforts were further supported in H.B. 153 with

several jobs-friendly initiatives. Through its InvestOhio initiative, the budget bill provides a 10 percent tax credit for long-term investments of up to \$10 million in an Ohio small business. Elimination of Ohio's estate tax provides more than \$300 million in tax relief annually, helping farmers and small-business owners keep enterprises in the family from generation to generation. In addition, the existing refundable Job Retention Tax Credit (JRTC) was expanded by H.B. 153, allowing the State to issue up to \$25 million of new refundable tax credits between 2011 and 2013 and from 2014 to 2028, up to \$25 million per fiscal year. The budget provides \$60 million for incumbent worker training to help prevent layoffs created by a skills deficit and to help ensure that Ohio businesses have the workforce they need to be globally competitive.

- **Transforming State Healthcare Programs to Achieve Cost Savings and Improve Their Operation:** Governor Kasich created the Office of Health Transformation (OHT) in January 2011 in order to immediately address Medicaid spending issues, plan for the long-term, efficient administration of Ohio's Medicaid program and improve overall healthcare system performance in Ohio. H.B. 153 focused on three primary strategies:
 - Improving care coordination will promote better health for Ohioans, while achieving cost savings. H.B. 153 lays the groundwork to create a single point of care coordination, using a new Integrated Care Delivery System (ICDS) that will provide comprehensive, person-centered care that addresses the physical health, behavioral health, long-term care and social needs of seniors and people with disabilities.
 - Integration of behavioral and physical healthcare fosters the treatment of the whole person and their healthcare needs. H.B. 153 also takes several important steps to treat physical health conditions and behavioral health conditions in a comprehensive, coordinated manner. During fiscal years 2012-2013, Ohio will integrate the Medicaid alcohol and drug treatment and mental health carve-out benefits, currently administered by the Department of Mental Health (ODMH) and the Department of Alcohol and Drug Addiction Services (ODADAS), into the overall Medicaid program administered by the Department of Job and Family Services (ODJFS), thereby improving coordination of these services.
 - Rebalancing long-term care enables seniors and people with disabilities to live with dignity in settings they prefer. H.B. 153 creates a unified budget for long-term care services for

seniors and people with physical disabilities, allowing individuals' choices, instead of political decisions, to drive spending decisions. The budget will also consolidate the five home and community based waivers that serve individuals with a nursing-facility-level of care into a single, seamless waiver. These changes will improve access into and within the service delivery system, provide consistent opportunity for individual choice, and achieve greater transparency in price and quality for individuals who need long-term care services.

- **Improving Educational Opportunities for Ohio Students:** H.B. 153 expands education choices by more than doubling the number of EdChoice scholarships (from 14,000 to 30,000 in fiscal year 2012 and to 60,000 in fiscal year 2013) and lifting the cap on the number of charter schools. The budget requires failing schools to implement practices that will turn the school around by replacing staff, hiring an independent organization to run the school or by closing it. A new teacher evaluation system, based on multiple measures, gives students the opportunity to learn from the best, when seniority is no longer the primary focus of teacher employment and compensation. Instead, high-quality educators will receive better recognition and lower-performing teachers will be able to improve or be removed. A 3.5 percent tuition cap enacted in the budget bill helps make higher education affordable. Additionally, the budget works to keep students in Ohio by extending the in-state resident tuition break to ten years if an Ohio high school graduate leaves the state and wants to return.
- **Maximizing the Value of Existing State Assets:** As part of the Kasich Administration's budget-balancing strategy, H.B. 153 authorized the sale or lease of existing state assets in order to maximize their value for Ohio citizens. The budget bill authorized the State to enter into a long-term lease of its liquor enterprise to JobsOhio – the new, private-sector jobs-creation entity – a transaction that, at a minimum, will generate an estimated \$500 million in GRF revenues in fiscal year 2012. This lease of the State's liquor enterprise not only has helped address the projected budget shortfall, but also provides an ongoing source of funding for JobsOhio and its economic development efforts. H.B. 153 also authorized the privatization of a number of the State's adult correctional facilities to private operators, resulting in both an estimated up-front payment of \$75 million in fiscal year 2012 and long-term operational savings as a result of reducing the number of inmates and facilities under the direct control of the Department of Rehabilitation and Correction. In addition, the budget prepares for projected shortfalls in federal

and state highway funding, which threaten the future of Ohio's transportation system as a fundamental generator of jobs and commerce. Possible leveraging of the Ohio Turnpike, authorized in H.B. 153, could provide needed support for new transportation projects and required maintenance that will keep Ohio's job-creating infrastructure moving.

Tax Reform

The State's operating budget for fiscal years 2012 and 2013 contained a number of significant and far-reaching changes in tax policy, as discussed above. In addition, fiscal year 2011 marked implementation of the final phase of an aggressive tax reform package authorized in June 2005 by Amended Substitute House Bill 66 (H.B. 66), the biennial budget bill for fiscal years 2006-2007. As described extensively in prior financial reports, this tax reform was a significant overhaul of Ohio's state and local tax structure. The reforms were initially scheduled to be phased in between fiscal years 2006 and 2010; however, H.B. 318, which was signed into law in December 2009, suspended the final, planned 4.25 percent reduction in state income tax rates that had been scheduled to occur for 2009. The previously delayed income tax rate reduction has now been implemented, taking effect at the beginning of tax year 2011. As a result, the final impact of H.B. 66 included:

- A 21 percent reduction in the income tax from 2005 levels;
- Elimination of the tangible personal property tax for general businesses and for telecommunications companies;
- Elimination of the corporate franchise tax (except for financial institutions and their affiliates); and
- Enactment of a commercial activity tax (CAT).

Improved Financial Systems Management

Ohio has continued deployment and enhancement of a comprehensive enterprise information system throughout state government. The Ohio Administrative Knowledge System, known as OAKS, implemented a new human resource system for state agencies to manage payroll and personnel; an accounting and financial management and reporting system; and enhanced budget decision and management tools. More recent enhancements to OAKS have greatly streamlined security management activities, providing greater control and documentation of the security function. In addition to these tools, the deployment of OAKS has required the State to upgrade skills and invest in human capital development in the workforce across agencies. OAKS continues to increase its value for the state by leveraging an effective Business Intelligence reporting methodology, upgrading and improving its human resource system, and implementing the eBid procurement module, which permits vendors to receive information about the types

of business the State is engaging in and permits them to electronically place bids on posted contracts.

To improve the efficiency of agency fiscal operations, OBM used the foundation of OAKS to launch a shared services organization in October 2009. Ohio Shared Services (OSS) consolidates back-office finance functions for selected agencies into a central service provider using paperless processes and a call center to support vendor management, invoice processing, and all travel and expense transactions for the State. Accounts payable services were provided for eight Cabinet agencies by the end of 2010. OBM completed a reassessment of Ohio Shared Services in early 2011, and decided to move forward with implementation of accounts payable processing for the remaining 17 Cabinet agencies by September 2012.

To enhance collections and revenue management, the Department of Taxation is currently in the process of developing and deploying the State Taxation Accounting and Revenue System (STARS). When implemented, STARS will provide an integrated tax collection and audit system, and replace the State's existing separate tax software and administration systems for the 24 different taxes collected by the State. STARS will make it possible for the Department of Taxation to provide an improved quality of taxpayer service and enhance the compliance activities of the department.

Respectfully submitted,

Timothy S. Keen
Director

AWARDS AND ACKNOWLEDGEMENTS

Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the State of Ohio for its comprehensive annual financial report (CAFR) for the fiscal year ended June 30, 2010. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized CAFR. The report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments

In conclusion, I wish to express my appreciation to the staffs of the various state agencies whose time and dedicated efforts made this report possible. I encourage you to access Ohio's *Comprehensive Annual Financial Report* at <http://www.obm.ohio.gov>.

FINANCIAL SECTION

Dave Yost • Auditor of State

INDEPENDENT ACCOUNTANTS' REPORT

The Honorable John Kasich, Governor
State of Ohio
Columbus, Ohio

We have audited the accompanying financial statements of the governmental activities, business-type activities, aggregate discretely presented component units, each major fund, and aggregate remaining fund information of the State of Ohio (the State) as of and for the year ended June 30, 2011, which collectively comprise the State's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the State's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the following organizations:

Primary Government: Office of the Auditor of State; Ohio Bureau of Workers' Compensation and Industrial Commission of Ohio; Office of Financial Incentives; State Treasury Asset Reserve of Ohio; Treasurer of State Lease Revenue Bonds; and Tuition Trust Authority.

Blended Component Units: Ohio Building Authority and State Highway Patrol Retirement System.

Discretely Presented Component Units: Bowling Green State University; Central State University; Cleveland State University; Kent State University; Miami University; Ohio State University; Ohio University; Shawnee State University; University of Akron; University of Cincinnati; University of Toledo; Wright State University; Youngstown State University; Cincinnati State Community College; Clark State Community College; Columbus State Community College; Edison State Community College; Northwest State Community College; Owens State Community College; Southern State Community College; Terra State Community College; Washington State Community College; Ohio Capital Fund; and Ohio Water Development Authority.

In addition, we did not audit the financial statements of the Public Employees Retirement System, Police and Fire Pension Fund, State Teachers Retirement System, and School Employees Retirement System, whose assets are held by the Treasurer of State and are included as part of the State's Aggregate Remaining Fund Information.

These financial statements reflect the following percentages of total assets and revenues or additions of the indicated opinion units:

Opinion Unit	Percent of Opinion Unit's Total Assets	Percent of Opinion Unit's Total Revenues / Additions
Governmental Activities	2%	1%
Business-Type Activities	93%	38%
Aggregate Discretely Presented Component Units	98%	99%
Aggregate Remaining Fund Information	95%	33%
Workers' Compensation	97%	100%

Those financial statements listed above were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for these independently audited organizations, is based on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit and the reports of the other auditors provide a reasonable basis for our opinions.

In our opinion, based upon our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, aggregate discretely presented component units, each major fund, and aggregate remaining fund information of the State of Ohio, as of June 30, 2011, and the respective changes in financial position and cash flows, where applicable, and respective budgetary comparisons for the General and major special revenue funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 2 of the basic financial statements, the State of Ohio implemented Governmental Accounting Standards Board Statements No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* and No. 59, *Financial Instruments Omnibus*.

In accordance with *Government Auditing Standards*, we are issuing our report dated January 20, 2012 under separate cover with the State of Ohio Single Audit report, on our consideration of the State's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require this presentation to include the *Management's Discussion and Analysis* and the *Required Supplementary Information's Infrastructure Assets Accounted for Using the Modified Approach*, as listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any other assurance.

We conducted our audit to opine on the financial statements that collectively comprise the State's basic financial statements taken as a whole. The introductory section, combining fund statements, individual fund schedules and statistical section provide additional information and are not a required part of the basic financial statements. The financial section's combining statements and individual fund schedules are management's responsibility, and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We and the other auditors subjected the combining fund statements and individual fund schedules to the auditing procedures applied in the audit of the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements, or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, based on our audit and the reports of the other auditors, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole. We did not subject the introductory section and statistical section to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

A handwritten signature in black ink that reads "Dave Yost". The signature is written in a cursive, flowing style.

State of Ohio

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2011 (Unaudited)

Introduction

This section of the State of Ohio's annual financial report presents management's discussion and analysis of the State's financial performance during the fiscal year ended June 30, 2011. The management's discussion and analysis section should be read in conjunction with the preceding transmittal letter and the State's financial statements, which follow.

Financial Highlights

Government-wide Financial Statements

During fiscal year 2011, net assets of the State's primary government increased by \$2.64 billion and ended fiscal year 2011 with a balance of \$22.84 billion. Net assets of the State's component units increased by \$1.38 billion and ended fiscal year 2011 with a balance of \$13.80 billion. Additional discussion of the State's government-wide balances and activities, as of and for the year ended June 30, 2011, can be found beginning on page 9.

Fund Financial Statements

Governmental funds reported combined ending fund balances of \$10.72 billion that was comprised of \$164.9 million in nonspendable, \$8.96 billion restricted for specific purposes, \$1.19 billion committed, \$1.62 billion in assigned and a \$1.21 billion deficit in unassigned. Nonspendable includes inventories, noncurrent portion of loans receivables, prepaids, and advances to local governments. The purposes of the restrictions, commitments, and assigned fund balances are primary, secondary and other education, higher education support, public assistance and Medicaid, health and human services, justice and public protection, environmental protection and natural resources, transportation, general government, community and economic development, capital outlay and debt service. The balances and activities of the State's governmental funds are discussed further beginning on page 13.

As of June 30, 2011, the General Fund's fund balance was approximately \$2.22 billion, including \$65.1 million in nonspendable, \$1.08 billion in restricted fund balance, \$671.2 million in committed, \$1.62 billion in assigned and a \$1.21 billion deficit in unassigned, as detailed in NOTE 17. The General Fund's fund balance increased by \$606.9 million (exclusive of a \$3.8 million increase in inventories) or 37.6 percent during fiscal year 2011. The balances and activities of the General Fund are discussed further beginning on page 14.

Proprietary funds reported net assets of \$4.08 billion, as of June 30, 2011, an increase of \$1.97 billion since June 30, 2010. This increase is largely due to the net increase of \$1.95 billion in the Workers' Compensation Fund. The balances and activities of the proprietary funds are discussed further beginning on page 15.

Capital Assets

The carrying amount of capital assets for the State's primary government increased to \$25.72 billion at June 30, 2011. The majority of the \$389.5 million increase during fiscal year 2011 was the acquisition of land and highway network infrastructure. Further discussion of the State's capital assets can be found beginning on page 16.

Long-Term Debt — Bonds and Notes Payable and Certificates of Participation Obligations

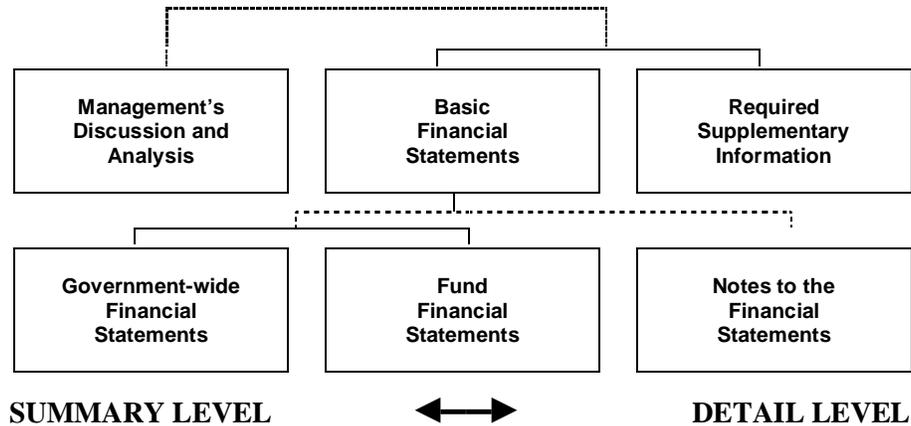

Overall, the carrying amount of total long-term debt for the State's primary government increased \$679.6 million or four percent during fiscal year 2011 and reported an ending balance of \$17.52 billion. During the year, the State issued, at par, \$1.16 billion in general obligation bonds, \$358 million in revenue bonds, and \$356.2 million in special obligation bonds. Of the general obligation bonds and special obligation bonds issued, at par, \$301.6 million and \$243.2 million, respectively, were refunding bonds. Additional discussion of the State's bonds and certificates of participation can be found beginning on page 18.

Overview of the Financial Statements

This annual report consists of management’s discussion and analysis, basic financial statements, including the accompanying notes to the financial statements, required supplementary information, and combining statements for the nonmajor governmental funds, nonmajor proprietary funds, fiduciary funds, and nonmajor discretely presented component unit funds. The basic financial statements are comprised of the government-wide financial statements and fund financial statements.

Figure 1 below illustrates how the required parts of this annual report are arranged and relate to one another. In addition to these required elements, as explained later, this report includes an optional section that contains combining statements that provide details about the State’s nonmajor governmental and proprietary funds and discretely presented component units.

**Figure 1
Required Components of the
State of Ohio’s Annual Financial Report**

The *Government-wide Financial Statements* provide financial information about the State as a whole, including its component units.

The *Fund Financial Statements* focus on the State’s operations in more detail than the government-wide financial statements. The financial statements presented for governmental funds report on the State’s general government services. Proprietary fund statements report on the activities that the State operates like private-sector businesses. Fiduciary fund statements provide information about the financial relationships in which the State acts solely as a trustee or agent for the benefit of others outside of the government, to whom the resources belong.

Following the fund financial statements, the State includes financial statements for its major component units within the basic financial statements section. Nonmajor component units are also presented in aggregation under a single column in the component unit financial statements.

The basic financial statements section includes notes that more fully explain the information in the government-wide and fund financial statements; the notes provide more detailed data that are essential to a full understanding of the data presented in the financial statements. The notes to the financial statements can be found on pages 52 through 145 of this report.

In addition to the basic financial statements and accompanying notes, a section of required supplementary information further discusses the assessed condition and estimated and actual maintenance and preservation costs of the state’s highway and bridge infrastructure assets that are reported using the modified approach. Limited in application to a government’s infrastructure assets, the modified approach provides an alternative to the traditional recognition of depreciation expense. Required supplementary information can be found on pages 147 through 150 of this report.

Figure 2 on the following page summarizes the major features of the State’s financial statements.

**Figure 2
Major Features of the State of Ohio's Government-wide and Fund Financial Statements**

	Fund Statements			
	Government-wide Statements	Governmental Funds	Proprietary Funds	Fiduciary Funds
Scope	Entire State government (except fiduciary funds) and the State's component units	The activities of the State that are not proprietary or fiduciary, such as general government, transportation, justice and public protection, etc.	Activities the State operates similar to private businesses, such as the workers' compensation insurance program, lottery, tuition credit program	Instances in which the State is the trustee or agent for someone else's resources
Required Financial Statements	<ul style="list-style-type: none"> • Statement of Net Assets • Statement of Activities 	<ul style="list-style-type: none"> • Balance Sheet • Statement of Revenues, Expenditures and Changes in Fund Balances 	<ul style="list-style-type: none"> • Statement of Net Assets • Statement of Revenues, Expenses and Changes in Fund Net Assets • Statement of Cash Flows 	<ul style="list-style-type: none"> • Statement of Fiduciary Net Assets • Statement of Changes in Fiduciary Net Assets
Accounting Basis and Measurement Focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
Type of asset/liability information	All assets and liabilities, both financial and capital, and short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included	All assets and liabilities, both financial and capital, and short-term and long-term	All assets and liabilities, both financial and capital, and short-term and long-term
Type of inflow/outflow information	All revenues and expenses during the year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during the year, regardless of when cash is received or paid	All revenues and expenses during the year, regardless of when cash is received or paid

Government-wide Financial Statements

The government-wide financial statements consist of the Statement of Net Assets and the Statement of Activities. For these statements, the State applies accounting methods similar to those used by private-sector companies; that is, the State follows the accrual basis of accounting and the economic resources focus when preparing the government-wide financial statements. The Statement of Net Assets includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the Statement of Activities regardless of the timing of related cash inflows or outflows.

The two government-wide financial statements report the State's net assets and how they have changed. Net assets — the difference between the State's assets/net outflows of resources and liabilities/net inflows of resources — is one way to measure the State's financial health, or position. Over time, increases or decreases in the State's net assets indicate whether its financial health has improved or deteriorated, respectively. However, a reader should consider additional nonfinancial factors, such as changes in the State's economic indicators and the condition of the State's highway system, when assessing the State's overall financial status.

The State's government-wide financial statements, which can be found on pages 22 through 25 of this report, are divided into three categories as follows.

Governmental Activities — Most of the State's basic services are reported under this category, such as primary, secondary and other education, higher education support, public assistance and Medicaid, health and human services, justice and public protection, environmental protection and natural resources, transportation, general government, and community and economic development. Taxes, federal grants, charges for services, including license, permit, and other fee income, fines, and forfeitures, and restricted investment income finance most of these activities.

Business-type Activities — The State charges fees to customers to help cover the costs of certain services it provides. The State reports the following programs and activities as business-type: workers' compensation insurance program, lottery operations, unemployment compensation program, the leasing and maintenance operations of the Ohio Building Authority, guaranteed college tuition credit program, liquor control operations, underground

parking garage operations at the statehouse, and the Auditor of State's governmental auditing and accounting services.

Component Units — The State presents the financial activities of the School Facilities Commission, Cultural Facilities Commission, eTech Ohio Commission, Ohio Water Development Authority, Ohio Air Quality Development Authority, the Ohio Capital Fund, and 22 state-assisted colleges and universities as discretely presented component units under a separate column in the government-wide financial statements. The Buckeye Tobacco Settlement Financing Authority and the Ohio Building Authority are presented as blended component units with their activities blended and included under governmental and business-type activities, respectively. Although legally separate, the State is financially accountable for its component units, as is further explained in NOTE 1A. to the financial statements.

Fund Financial Statements

The fund financial statements provide more detailed information about the State's most significant funds — not the State as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. State law and bond covenants mandate the use of some funds. The Ohio General Assembly establishes other funds to control and manage money for particular purposes or to show that the State is properly using certain taxes and grants. The State employs fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The State has three kinds of funds — governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds — Most of the State's basic services are included in governmental funds, which focus on how cash and other financial assets that can readily be converted to cash flow in and out (i.e., near-term inflows and outflows of spendable resources) and the balances remaining at year-end that are available for spending (i.e., balances of spendable resources). Consequently, the governmental fund financial statements provide a detailed short-term view that helps the financial statement reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the State's programs. The State prepares the governmental fund financial statements applying the modified accrual basis of accounting and a current financial resources focus. Because this information does not encompass the additional long-term focus of the government-wide statements, a reconciliation schedule, which follows each of the governmental fund financial statements, explains the relationship (or differences) between them.

The State's governmental funds include the General Fund and 10 special revenue funds, 25 debt service funds, and 11 capital projects funds. Under separate columns, information is presented in the Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances for the General Fund, the Job, Family and Other Human Services Special Revenue Fund, and the Buckeye Tobacco Settlement Financing Authority Revenue Bonds Debt Service Fund, all of which are considered major funds. Data from the other 44 governmental funds, which are classified as nonmajor funds, are combined into an aggregated presentation under a single column on the basic governmental fund financial statements. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

For budgeted governmental funds, the State also presents budgetary comparison statements and schedules in the basic financial statements and combining statements, respectively, to demonstrate compliance with the appropriated budget. The State's budgetary process is explained further in NOTE 1D. to the financial statements.

The basic governmental fund financial statements can be found on pages 26 through 35 of this report while the combining fund statements and schedules can be found on pages 153 through 214.

Proprietary Funds — Services for which the State charges customers a fee are generally reported in proprietary funds. Financial statements for the proprietary funds, which are classified as enterprise funds, provide both long- and short-term financial information. Like the government-wide financial statements, the State prepares the proprietary fund financial statements for its eight enterprise funds applying the accrual basis of accounting and an economic resources focus.

Under separate columns, information is presented in the Statement of Net Assets, Statement of Revenues, Expenses and Changes in Fund Net Assets, and Statement of Cash Flows for the Workers' Compensation, Lottery Commission, and Unemployment Compensation enterprise funds, all of which are considered to be major funds. Data from the other five enterprise funds, which are classified as nonmajor funds, are combined into an aggregated presentation under a single column on the basic proprietary fund financial statements. Individual fund data for each of these nonmajor proprietary funds is provided in the form of combining statements elsewhere in this report. The enterprise funds are the same as the State's business-type activities reported in the government-wide financial statements, but the proprietary fund financial statements provide more detail and additional information, such as information on cash flows. The basic proprietary fund financial statements can be found on pages 36 through 43 of this report while the combining fund statements can be found on pages 215 through 223.

Fiduciary Funds — The State is the trustee, or fiduciary, for assets that — because of a trust arrangement — can only be used for the trust beneficiaries. The State is responsible for ensuring the assets reported in these funds are used for their intended purposes. All of the State's fiduciary activities are reported in a separate Statement of Fiduciary Net Assets and a Statement of Changes in Fiduciary Net Assets. The State excludes the State Highway Patrol Retirement System Pension Trust Fund, Variable College Savings Plan Private-Purpose Trust Fund, STAR Ohio Investment Trust Fund, and the agency funds from its government-wide financial statements because the State cannot use these assets to finance its operations. The basic fiduciary fund financial statements can be found on pages 44 through 47 of this report.

FINANCIAL ANALYSIS OF THE STATE AS A WHOLE

Net Assets. During fiscal year 2011, as shown in the table below, the combined net assets of the State's primary government increased \$2.64 billion or 13.1 percent. Net assets reported for governmental activities increased \$668.2 million or 3.7 percent and business-type activities increased \$1.97 billion, or 93.8 percent. Condensed financial information derived from the Statement of Net Assets for the primary government follows.

Primary Government Statement of Net Assets As of June 30, 2011 With Comparatives as of June 30, 2010 (dollars in thousands)						
	As of June 30, 2011			As of June 30, 2010		
	Governmental Activities	Business-Type Activities	Total Primary Government	Governmental Activities	Business-Type Activities	Total Primary Government
Assets and Deferred						
Outflows of Resources:						
Current Assets and Other						
Noncurrent Assets	\$ 18,125,869	\$ 27,813,243	\$ 45,939,112	\$ 17,955,313	\$ 25,718,770	\$ 43,674,083
Capital assets	25,559,678	160,302	25,719,980	25,148,054	182,446	25,330,500

Total Net Assets.....	\$ 18,764,368	\$ 4,078,888	\$ 22,843,256	\$ 18,096,169	\$ 2,104,777	\$ 20,200,946

As of June 30, 2011, the primary government's investment in capital assets (i.e., land, buildings, land improvements, machinery and equipment, vehicles, infrastructure, and construction-in-progress), less related outstanding debt, was \$23.21 billion. Restricted net assets were approximately \$9.70 billion, resulting in a \$10.07 billion deficit. Net assets are restricted when constraints on their use are 1) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or 2) legally imposed through constitutional or enabling legislation. Unrestricted net assets consist of net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

The government-wide Statement of Net Assets reflects a \$8.25 billion deficit for unrestricted governmental activities. The State of Ohio, like many other state governments, issues general and special obligation debt, the proceeds of which benefit local governments and component units. The proceeds are used to build facilities for public-assisted colleges and universities and local school districts and finance infrastructure improvements for local governments. The policy of selling general obligation and special obligation bonds for these purposes has been the practice for many years. Of the \$10.13 billion of outstanding general obligation and special obligation debt at June 30, 2011, \$7.15 billion is attributable to debt issued for state assistance to component units (School Facilities Commission, Cultural Facilities Commission, and the colleges and universities) and local governments. The balance sheets of component unit and local government recipients reflect ownership of the related constructed capital assets without the burden of recording the debt. Unspent proceeds related to these bond issuances are included on the Statement of Net Assets as restricted net assets. By issuing such debt, the State is left to reflect significant liabilities without the benefit of recording the capital assets constructed with the proceeds from the debt issuances.

Additionally, as of June 30, 2011, the State's governmental activities have significant unfunded liabilities for compensated absences in the amount of \$464.1 million (see NOTE 14A.) and a \$708.2 million interfund payable due to the workers' compensation component of business-type activities for the State's workers' compensation liability (see NOTE 7A.). These unfunded liabilities also contribute to the reported deficit for governmental activities.

Condensed financial information derived from the Statement of Activities, which reports how the net assets of the State's primary government changed during fiscal years 2011 and 2010, follows.

Governmental Activities

Expenses exceeded revenues during fiscal year 2011 for governmental activities. When combined with transfers from the State's business-type activities, net assets for governmental activities increased from \$18.10 billion, at July 1, 2010, to \$18.76 billion, at June 30, 2011, or \$668.2 million. Revenues for fiscal year 2011 in the amount of \$50.11 billion were 5.8 percent higher than those reported for fiscal year 2010. General taxes (including taxes restricted for transportation purposes) comprised 44.7 percent of fiscal year 2011 total revenues and increased by 8.1 percent compared to fiscal year 2010. Operating grants, contributions and restricted investment income, making up 44 percent of total revenue, increased by 5.8 percent compared to fiscal year 2010. Fiscal year 2011 net transfers of \$945.6 million, decreased by 3.4 percent over fiscal year 2010. Reported expenses of \$50.39 billion represented an increase of 3.3 percent compared to fiscal year 2010.

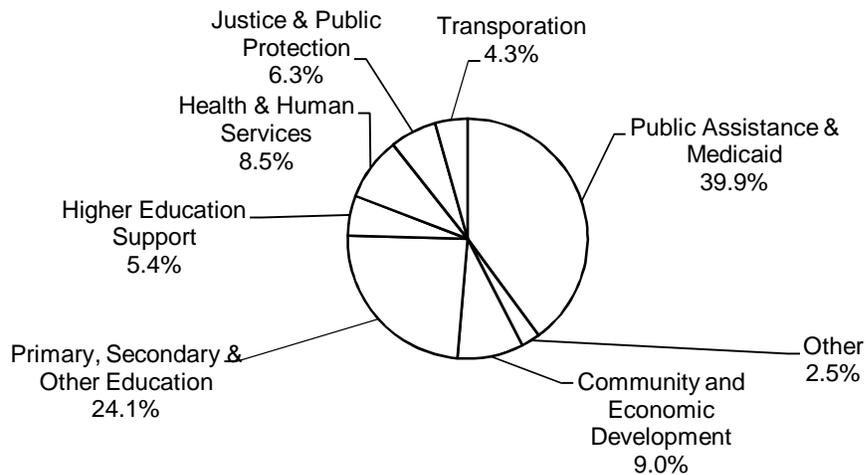

The following charts illustrate revenue by sources and expenses by program of governmental activities as percentages of total revenues and program expenses, respectively, reported for the fiscal year ended June 30, 2011.

**Governmental Activities — Sources of Revenue
Fiscal Year 2011**

Total FY 11 Revenue for Governmental Activities = \$50.11 Billion

**Governmental Activities — Expenses by Program
Fiscal Year 2011**

Total FY 11 Program Expenses for Governmental Activities = \$50.39 Billion

The following tables present the total expenses and net cost of each of the State's governmental programs for the fiscal years ended June 30, 2011 and 2010. The net cost (total program expenses less revenues generated by the program) represents the financial burden that was placed on the State's taxpayers by each of these programs; costs not covered by program revenues are essentially funded with the State's general revenues, which are primarily comprised of taxes, tobacco settlement revenue, escheat property, and unrestricted investment income.

Business-Type Activities

The State's enterprise funds reported net assets of \$4.08 billion, as of June 30, 2011, as compared to \$2.10 billion in net assets, as of June 30, 2010, an increase of 93.8 percent. The primary increase in net assets for the business-type activities was the Workers' Compensation Fund, which reported net assets of \$5.77 billion, as of June 30, 2011, as compared to \$3.83 billion, as of June 30, 2010, a \$1.94 billion increase. The Unemployment Compensation Fund and the Lottery Commission, however, reported decreases in net assets during fiscal year 2011. The Lottery Commission Fund reported net assets of \$150.7 million, as of June 30, 2011, as compared to \$168.6 million, as of June 30, 2010, a \$17.9 million decrease. The net assets in the Unemployment Compensation Fund decreased \$21.3 million from \$(1.91) billion, as of June 30, 2010, to \$(1.93) billion, as of June 30, 2011.

The chart below compares program expenses and program revenues for business-type activities.

**Business-Type Activities — Expenses and Program Revenues
Fiscal Year 2011**

Additional analysis of the Business-Type Activities' revenues and expenses is included with the discussion of the Proprietary Funds beginning on page 15.

FINANCIAL ANALYSIS OF THE STATE'S FUNDS

The State uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

Governmental funds reported the following results, as of and for the fiscal years ended June 30, 2011 and June 30, 2010 (dollars in thousands). During the implementation of GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the State reclassified funds within the governmental funds categories. The fiscal year 2010 amounts in the following table have not been restated for the effects of GASB Statement No. 54.

As of and for the Fiscal Year Ended June 30, 2011

	General Fund	Other Major Funds	Nonmajor Governmental Funds	Total Governmental Funds
Unassigned Fund Balance	\$(1,208,029)	\$0	\$(25)	\$(1,208,054)

Total Revenues	23,948,850	18,907,772	4,444,923	47,301,545
Total Expenditures.....	23,719,349	19,075,097	6,701,049	49,495,495

General Fund

The main operating fund of the State is the General Fund. During fiscal year 2011, General Fund revenue and expenditures increased by \$6.97 billion and \$6.12 billion, respectively. Other sources and uses showed a decline of net uses of \$44.5 million when compared with fiscal year 2010. The fund balance increased by \$606.9 million (exclusive of a \$3.8 million increase in inventories) or 37.6 percent.

As a result of the implementation of GASB Statement No. 54, the General Fund is reporting balances and activities for fiscal year 2011 that were previously reported within the special revenue funds. Fiscal year 2010 amounts have not been restated for the effects of this implementation thus creating the substantial increases to revenue and expenditures in the General Fund.

General Fund Budgetary Highlights

The State ended the second year of its 2010-11 biennial budget on June 30, 2011, with a General Fund budgetary fund balance (i.e., cash less encumbrances) of \$1.81 billion. Total budgetary sources for the General Fund (including \$3.14 billion in transfers from other funds) in the amount of \$36.32 billion were above final estimates by \$351.9 million or just less than one percent during fiscal year 2011. Total tax receipts were above final estimates by \$973.3 million or 4.7 percent.

Total budgetary uses for the General Fund (including \$3.34 billion in transfers to other funds) in the amount of \$36.94 billion were below final estimates by \$2.75 billion or 6.9 percent for fiscal year 2011. There was no budget stabilization designation at June 30, 2010, for use in balancing the final fiscal year 2011 budget.

The appropriations act (Act) for the 2010-11 biennium for the General Revenue Fund (GRF), the largest, non-GAAP, budgetary-basis operating fund included in the State's General Fund, was passed by the General Assembly and signed (with selective vetoes) by the Governor on July 17, 2009. Prior to passage of the Act, three, seven-day interim budgets were in effect. The Act provided for total GRF biennial appropriations of approximately \$50.5 billion (a 3.8 percent decrease from the 2008-09 biennial expenditures) based on GRF biennial estimated revenues of approximately \$51.1 billion (a 4.2 percent decrease from the 2008-09 biennial revenues).

Budget highlights for major program categories compared to 2008-09 actual spending include the following:

- An increase of 3.4 percent for Medicaid (excluding the American Recovery and Reinvestment Act of 2009 referred to below) as well as Medicaid reform and cost containment initiatives.
- A .7 percent increase for corrections and youth services.
- Decreases of 8.3 percent for higher education and 5.15 percent for primary and secondary education.
- A decrease of 13.8 percent for mental health and developmental disabilities.
- Restructuring of \$736 million of fiscal years 2010 and 2011 GRF debt service into fiscal years 2012 through 2025.

Major new sources of revenues reflected in the 2010-11 Act include:

- \$2.42 billion of funding under the American Recovery and Reinvestment Act of 2009, including \$1.46 billion for primary and secondary education, \$628 million for Federal Medical Assistance payments, and \$326 million for other purposes.
- \$933 million in gaming and license revenues from the Ohio Lottery Commission's implementation of video lottery terminals (VLTs) at the seven horse racing tracks in the State. OBM estimated the VLT's would result in an approximate \$851 million net increase in revenues for the biennium (\$285 million in fiscal year 2010 and \$566 million in fiscal year 2011) after taking into account offsetting effects of the VLT's on other Lottery revenues. (In September 2009, the Ohio Supreme Court ruled that the VLT-enabling legislation in the Act was subject to referendum. In March 2010, the Secretary of State notified the committee for the petitioners that a referendum would be placed on the November 2010 ballot but on July 1, 2010, the committee for the petitioners withdrew the referendum from the ballot).
- \$259 million from the Ohio Tobacco Use Prevention and Control Foundation Endowment Fund to be deposited into a special State, non-GRF fund, to be used for various health care initiatives. (On August 11, 2009, a trial court ruled in favor of the plaintiff and ordered that these monies remain in that endowment fund and be used for the purpose of reducing tobacco use. The State appealed the ruling and on December 31, 2009, the court of appeals ruled in favor of the State and reversed the trial court's order. The Ohio Supreme Court affirmed court of appeals decision in favor of the State on December 22, 2010).
- \$1.04 billion of "one-time" revenues or savings (\$640 million in fiscal year 2010 and \$396 million in fiscal year 2011), including \$364 million from the spend-down of carry-forward balances (that required temporary suspension of the one-half of one percent of GRF revenue the State is required to maintain as an ending fund balance for the 2010-11 biennium); \$250 million transferred from Ohio School Facilities Commission funds; \$272 million in savings through a two week unpaid "furlough" for State employees during each year of the biennium; \$84 million from a reduction in State funding to public libraries; and \$65 million from the transfer to the GRF of interest on the proceeds of the State's 2007 tobacco securitization.

- \$530 million from transfers to the GRF of unclaimed funds and from other non-GRF funds.

In September 2010, the federal government awarded the State \$518.6 million of enhanced Federal Medical Assistance Payments funding (eFMAP). Additionally, \$361.2 million was granted to the Ohio school districts for teacher salaries and personnel costs for primary and secondary education (Ed Jobs).

In response to the above referenced September 2009 decision of the Ohio Supreme Court declaring the VLT provisions in the biennial Act subject to referendum, the General Assembly approved, and the Governor signed into law December 2009, legislation keeping personal income tax rates at 2008 levels through tax year 2010. The Ohio Department of Taxation estimated that the measure would result in \$844 million of additional State GRF tax revenues in the current biennium.

The Act for the 2010-11 biennium created a six member (three from each of the House and Senate) Budget Planning and Management Commission (BPMC) to “study and make recommendations that are designed to provide relief to the State during the current difficult fiscal and economic period.” The BPMC released two reports – one from its three Republican members dated November 30, 2010, and one from its three Democratic members dated December 8, 2010. Both reports contained estimates of “non-recurring” revenues reflected in the 2010-11 budget, as enacted, ranging from \$4.89 billion in the GRF to \$8.34 billion for all GRF and non-GRF funds. These estimates included the effect of the postponement of the final installment of the personal income tax reduction.

The State ended fiscal year 2011 with a GRF cash balance of \$844.5 million and a GRF budgetary fund balance of \$430.7 million. In addition to meeting the State’s requirement to maintain an ending fund balance reflecting one-half of one percent of fiscal year 2011 GRF revenues, the State deposited \$246.9 million into the Budget Stabilization Fund in early fiscal year 2012.

Other Major Governmental Funds

The *Job, Family and Other Human Services Fund* had a fund balance of \$420.5 million at June 30, 2011, an increase of \$79.6 million, or 23.4 percent, compared to fiscal year 2010. This increase in fund balance is due to revenues exceeding expenditures by \$48.9 million, with other financing sources and uses totaling \$72.7 million.

Revenue for Licenses, Permits and Fees decreased \$115.2 million, or 11.4 percent, over fiscal year 2010. A reduction to hospital franchise fee rates was made halfway through the biennium due to improving budgets. Federal Government revenue decreased by \$569.2 million, or 6.3 percent, over fiscal year 2010 due to the phase out of ARRA stimulus funding.

Public assistance and Medicaid expenditures decreased \$700.5 million, or 7.5 percent, compared to the previous fiscal year. This decrease in expenditures was due in part to the reduction in hospital supplemental payments resulting from the reduction of hospital franchise fees. Also contributing to the decrease was the final phase of a managed care tax structure change causing deposits to be shifted to the GRF along with related expenditures. The reduction in ARRA funding also played a role in decreased expenditures from the *Job, Family and Other Human Services Fund*.

The decrease in net transfers of \$14.6 million is the result of the unusually large transfer from the State’s Unemployment Compensation Enterprise Fund in fiscal year 2010 that supplemented higher unemployment compensation administrative costs.

The fund balance for the *Buckeye Tobacco Settlement Financing Authority Revenue Bonds Fund*, as of June 30, 2011, totaled approximately \$5.22 billion dollars, a decrease of \$82.6 million or 1.6 percent since June 30, 2010. Tobacco settlement revenue was \$15.1 million less than the amount received for fiscal year 2010. This revenue has been decreasing in recent years due to declining cigarette consumption and due to tobacco companies depositing money into the disputed account, as described in Note 19E. An increase in investment income of \$1.9 million and a decrease of \$6.3 million in Debt Service expenditures, related to changing debt service requirements for the bonds, somewhat offset the revenue decrease. However, as has been the case for several years, the fund balance continues to decline within this fund as a result of the total expenditures being in excess of revenue collected during the fiscal year.

Proprietary Funds

Major Proprietary Funds

The State’s proprietary fund financial statements report the same type of information found in the business-type activities portion of the government-wide financial statements, but in a slightly different format.

For the *Workers’ Compensation Fund*, the \$1.94 billion increase in net assets was primarily due to an increase in investment income and a decrease in benefits and claims expenses. For fiscal year 2011, investment income was \$2.36 billion compared to \$2.05 billion in fiscal year 2010 resulting in a 15.4 percent increase. The investment portfolio earned an unaudited net return of 12.4 percent in fiscal year 2011 compared to 12 percent in fiscal year 2010.

During fiscal year 2011, the benefit and claims expense decreased by \$498 million to \$2.24 billion but still exceeded revenue of \$1.94 billion from premiums and assessments by \$303.8 million. The variance of \$303.8 million is due to a decrease in revenue from premiums and assessments of \$183.2 million and the decrease in benefits and claims expense during fiscal year 2011. The decrease in premium and assessment income is the result of a 3.9 percent reduction to the premium for the majority of Ohio's private employers and a 17 percent reduction for public employer tax districts. In addition, the premium and assessment income was also reduced by \$6.1 million in fiscal year 2011 compared to \$1.1 million in fiscal year 2010 as a result of securing reinsurance to protect assets in the event of catastrophic events. Benefits and claims expenses decreased due to lower estimates for future medical expenses attributable to lower claims frequencies and a decrease in the medical inflation rate.

For fiscal year 2011, the *Lottery Commission Fund* reported \$721.3 million in net income before transfers of \$738.8 million and \$335 thousand to the Education and General funds, respectively. The \$17.6 million or 10.6 percent decrease in the fund's net assets to \$150.7 million, as of June 30, 2011, was predominately due to an adjustment directly related to the investment portfolio. Investment income decreased \$43.7 million or 64.5 percent during fiscal year 2011 due to this change.

Ticket sales increased approximately 4.4 percent from \$2.49 billion in fiscal year 2010 to \$2.6 billion in fiscal year 2011. The Ohio Lottery benefited from a full 12 months of the Kenos/ Booster product resulting in an online sales increase of \$27 million or 2.4 percent. Prizes expenses were \$1.6 billion as of June 30, 2011, compared to \$1.51 billion, as of June 30, 2010, an increase of approximately \$89.3 million or 5.9 percent. This increase was in proportion to ticket sales.

The \$21.3 million decrease in net assets in the *Unemployment Compensation Fund* is due to the declining economic factors in Ohio. Even though there was a decrease in the unemployment rate in Ohio, it averaged 9.3 percent in fiscal year 2011. Due to the decrease in the unemployment rate from an average of 10.5 percent in fiscal year 2010, the State's benefits and claims expense decreased by \$1.51 billion or 27 percent from the previous fiscal year. While the State of Ohio's benefits and claims expense decreased, the State received less money from the federal government. During fiscal year 2011, the State received \$2.52 billion from the federal government compared to \$3.23 billion in fiscal year 2010 resulting in a 21.9 percent decrease in federal funding. In addition, the expenses were also slightly offset by an increase of \$272.1 million in premium and assessment income.

Capital Asset and Debt Administration

Capital Assets

As of June 30, 2011 and June 30, 2010, the State had invested \$25.72 billion and \$25.33 billion, respectively, net of accumulated depreciation of \$3.11 billion and \$2.94 billion, respectively, in a broad range of capital assets, as detailed in the table below.

Capital Assets, Net of Accumulated Depreciation

Total Capital Assets, Net	\$ 25,559,678	\$ 160,302	\$25,719,980	\$ 25,148,054	\$182,446	\$25,330,500

During fiscal year 2011, the State recognized \$346.6 million in annual depreciation expense relative to its governmental capital assets as compared with \$314.2 million in annual depreciation expense recognized in fiscal year 2010. The State also recognized \$32.7 million in annual depreciation expense relative to its business-type capital assets as compared with \$31.3 million in annual depreciation expense recognized in fiscal year 2010.

Additionally, the State completed construction on a variety of projects at various state facilities during fiscal year 2011 totaling approximately \$550.5 million, as compared with \$639.3 million in the previous fiscal year. The total increase in the State's capital assets, net of accumulated depreciation, for the current fiscal year was 1.5 percent (approximately a 1.6 percent increase for governmental activities and a 12.1 percent decrease for business-type activities). As is further detailed in NOTE 19D. of the notes to the financial statements, the State had \$105.8 million in major construction commitments (unrelated to infrastructure), as of June 30, 2011, as compared with the \$140.8 million balance reported for June 30, 2010.

Modified Approach

For reporting its highway and bridge infrastructure assets, the State has adopted the use of the modified approach. The modified approach allows a government *not to report depreciation expense* for eligible infrastructure assets if the government manages the eligible infrastructure assets using an asset management system that possesses certain characteristics and the government can document that the eligible infrastructure assets are being preserved approximately at (or above) a condition level it sets (and discloses). Under the modified approach, the State is required to expense all spending (i.e., preservation and maintenance costs) on infrastructure assets except for additions and improvements. Infrastructure assets accounted for using the modified approach include approximately 42,991 in lane miles of highway (13,059 in lane miles for the priority highway subsystem and 29,932 in lane miles for the general highway subsystem) and approximately 105.7 million square feet of deck area that comprises 14,234 bridges for which the State has the responsibility for ongoing maintenance.

Ohio accounts for its pavement network in two subsystems: *Priority*, which comprises interstate highways, free-ways, and multi-lane portions of the National Highway System, and *General*, which comprises two-lane routes outside of cities. It is the State's goal to allow no more than 25 percent of the total lane-miles reported for each of the priority and general subsystems, respectively, to be classified with a "poor" condition rating. The most recent condition assessment, completed by the Ohio Department of Transportation for calendar year 2010, indicates that only 2.2 percent and 3.9 percent of the priority and general subsystems, respectively, were assigned a "poor" condition rating. For calendar year 2009, only 2 percent and 4.5 percent of the priority and general subsystems, respectively, were assigned a "poor" condition rating.

For the bridge network, it is the State's intention to allow no more than 15 percent of the total number of square feet of deck area to be in "fair" or "poor" condition. The most recent condition assessment, completed by the Ohio Department of Transportation for calendar year 2010, indicates that only 3.8 percent and .04 percent of the number of square feet of bridge deck area were considered to be in "fair" and "poor" conditions, respectively. For calendar year 2009, only 3.3 percent and .6 percent of the number of square feet of bridge deck area were considered to be in "fair" and "poor" conditions, respectively.

For fiscal year 2011, total actual maintenance and preservation costs for the priority and general subsystems were \$420 million and \$342.2 million, respectively, compared to estimated costs of \$406.1 million for the priority system and \$258.4 million for the general system, while total actual maintenance and preservation costs for the bridge network was \$409.7 million compared to estimated costs of \$433.6 million. For the previous fiscal year, total actual maintenance and preservation costs for the priority and general subsystems were \$394 million and \$299.5 million respectively, compared to estimated costs of \$357.4 million for the priority system and \$209.8 million for the general system, while total actual maintenance and preservation costs for the bridge network was \$330.3 million compared to estimated costs of \$330.6 million. Overall, the State's costs for actual maintenance and preservation for highway infrastructure assets have exceeded estimates over the past two years due to steadily increasing underlying costs for the materials and labor associated with infrastructure projects.

More detailed information on the State's capital assets can be found in NOTE 8 to the financial statements and in the Required Supplementary Information section of this report.

Debt — Bonds and Notes Payable and Certificates of Participation Obligations

As of June 30, 2011 and June 30, 2010, the State had total debt of approximately \$17.52 billion and \$16.84 billion, respectively, as shown in the table below.

Bonds and Notes Payable and Certificates of Participation As of June 30, 2011 With Comparatives as of June 30, 2010 (dollars in thousands)

	As of June 30, 2011			As of June 30, 2010		
	Governmental Activities	Business-Type Activities	Total	Governmental Activities	Business-Type Activities	Total
Bonds and Notes Payable:						
General Obligation Bonds	\$ 7,872,276	\$ -	\$ 7,872,276	\$ 7,343,289	\$ -	\$ 7,343,289
Revenue Bonds and Notes	7,156,025	47,889	7,203,914	6,891,331	64,200	6,955,531
Special Obligation Bonds	2,260,853	-	2,260,853	2,338,094	-	2,338,094
Certificates of Participation	179,935	-	179,935	200,428	-	200,428
Total Debt	\$17,469,089	\$47,889	\$17,516,978	\$16,773,142	\$64,200	\$16,837,342

The State's general obligation bonds are backed by its full faith and credit. Revenue bonds issued by the State are secured with revenues pledged for the retirement of debt principal and the payment of interest. Special obligation bonds issued by the State and the Ohio Building Authority (OBA), a blended component unit of the State, are supported with lease payments from tenants of facilities constructed with the proceeds from the bond issuances. Under certificate of participation (COPs) financing arrangements, the State is required to make rental payments (subject to appropriations) that approximate interest and principal payments made by trustees to certificate holders.

During fiscal year 2011, the State issued, at par, \$1.16 billion in general obligation bonds, \$358 million in revenue bonds, and \$356.2 million in special obligation bonds. Of the general obligation bonds and special obligation bonds issued, at par, \$301.6 million and \$243.2 million, respectively, were refunding bonds. The total increase in the State's debt obligations for the current fiscal year, as based on carrying amount, was four percent (a 4.2 percent increase for governmental activities and a 25.4 percent decrease for business-type activities).

Credit Ratings

Ohio's credit ratings for general obligation debt are Aa1 by Moody's Investors Service, Inc. (Moody's) and AA+ by Fitch Inc. (Fitch). Standard & Poor's Ratings Services (S&P) rates the State's general obligation debt as AA+, other than Highway Capital Improvement Obligations, which are rated AAA.

For special obligation bonds, which the Ohio Building Authority and the Treasurer of State issue and General Revenue Fund appropriations secure, Moody's rating is Aa2, Fitch's rating is AA, and S&P's rating is AA.

The State's revenue bonds are rated as follows:

Revenue Bonds	Fitch	Moody's	S&P	Source of State Payment
Governmental Activities:				
Treasurer of State:				
Economic Development	AA-	Aa2	AA	Net Liquor Profits
State Infrastructure Bank	AA-	Aa1	AA	Federal Transportation Grants and Loan Receipts
Revitalization Projects	AA-	Aa3	AA-	Net Liquor Profits
Buckeye Tobacco Settlement Financing Authority (ratings are in a range)	B+ to BBB+	B3 to Aaa	BB- to BBB	Pledged Receipts from the Tobacco Master Settlement Agreement
Business-Type Activities:				
Bureau of Workers' Compensation	AA	Aa3	AA	Workers' Compensation Enterprise Fund

On July 15, 2011, S&P revised its "credit outlook" on the State from "negative" to "stable." A credit outlook is an indication of the pressure on the rating over the near-to-intermediate term and is not a precursor to a rating change.

The ratings and rating outlooks in effect from time to time reflect only the views of the particular rating organization. An explanation of its view of the meaning and significance of its rating or outlook may be obtained from the respective rating agency. Generally, the rating agencies base their rating on submitted information and on their own investigations, studies, and assumptions. There can be no assurance that the ratings or outlooks assigned will continue for any given time. Rating agencies may lower or withdraw a rating at any time, if in its judgment circumstances so warrant.

Limitations on Debt

Section 17 of Article VIII of the Ohio Constitution, approved by Ohio voters in November 1999, establishes an annual debt service "cap" applicable to future issuances of direct obligations payable from the General Revenue Fund (GRF) or net state lottery proceeds. Generally, new obligations may not be issued if debt service for any future fiscal year on those new and the then outstanding bonds of those categories would exceed five percent of the total of estimated GRF revenues plus net state lottery proceeds for the fiscal year of issuance.

Those direct obligations of the State include general obligation and special obligation bonds that are paid from the State's GRF, but exclude general obligation debt for Third Frontier Research and Development, development of sites and facilities, and veterans compensation, and general obligation bonds payable from non-GRF funds (such as highway bonds that are paid from highway user receipts). Pursuant to the implementing legislation, the Governor has designated the Director of the Ohio Office of Budget and Management as the State official responsible for making the five percent determinations and certifications. Application of the five percent cap may be waived in a particular instance by a three-fifths vote of each house of the Ohio General Assembly and may be changed by future constitutional amendments.

More detailed information on the State's long-term debt, including changes during the year, can be found in NOTES 10 through 13 and NOTE 15 of the financial statements.

Conditions Expected to Affect Future Operations

Economic Factors

Through October 2011, leading economic indicators continue to show weak but not recession activity both nationally and in Ohio. Following several months of declines in the State's unemployment rate during fiscal year 2011, the unemployment rate in Ohio has increased to 9.1 percent as of October 2011.

Nationally, real gross domestic product (GDP) accelerated in the third quarter of calendar year 2011, rising 2.5 percent and has temporarily quieted concerns about recession. The national labor market picture brightened further in October 2011, as the level of employment increased by 80 thousand jobs and the August and September 2011 gains were revised upward. The national unemployment rate edged down to 9.0 percent, near its level at the beginning of the calendar year.

The 2012-13 Biennial Budget

The Ohio Constitution prohibits the State from borrowing money to fund operating expenditures in the GRF. Therefore, by law, the GRF's budget must be balanced so that appropriations do not exceed available cash receipts and cash balances for the current fiscal year.

The 2012-13 biennial (beginning July 1, 2011) appropriations bill (the Act) was passed by the General Assembly and signed (with selective vetoes) by the Governor on June 30, 2011. To address the use of non-recurring funding sources in the prior budget biennium including amounts received under ARRA, the Act includes targeted spending cuts across most State Agencies and major new Medicaid reform and cost containment measures. The Act provides for total GRF biennial appropriations of approximately \$55.78 billion, an 11 percent increase from the 2010-11 GRF biennial expenditures, and total GRF revenue of approximately \$56.07 billion, a six percent increase from the 2010-11 GRF biennial revenues.

GRF appropriations for major program categories compared to the 2010-11 biennium actual GRF spending reflect increases of 30 percent for Medicaid and three percent for elementary and secondary education; decreases of nine percent for higher education and eight percent for mental health and developmental disabilities; and flat funding for corrections and youth services. The Act also reflects the restructuring of \$440 million of fiscal year 2012 GRF debt service into fiscal years 2013 through 2025. Approximately three-quarters of this restructuring was accomplished by the July 28, 2011, Ohio Public Facilities Commission's issuance of \$488.8 million in refunding bonds, with the remainder of the restructuring occurring through the September 15, 2011, Ohio Building Authority's issuance of \$149.3 million in refunding bonds.

Major new sources of revenues, expenditure savings, and tax law changes reflected in the Act include:

- Transfer of the State's spirituous liquor system to JobsOhio, a nonprofit corporation created to promote economic development, job creation and retention, job training and recruitment of business to the State. As a result of this transfer, the State anticipates receiving a \$500 million one-time payment from JobsOhio in fiscal year 2012. The State will forgo annual deposits into the GRF from net liquor profits. For fiscal year 2011, those deposits totaled \$153 million. Litigation has been filed that challenges certain aspects of JobsOhio and the law authorizing its creation.
- Sale of six State-owned prison facilities to private operators. These sales were expected to result in a net payment to the GRF of \$75 million. On September 1, 2011, the State announced that it is opting to sell only one of the facilities after considering proposals for the sale of five of the facilities. The sale of this facility will accomplish the desired saving for the 2012-13 biennium. Litigation was filed to challenge the au-

thorization in the Act to sell these facilities. On August 31, 2011, the Court ruled in favor of the State. These rulings may be subject to appeal in the future.

- Reductions to the local government fund allocations. Allocations to local governments will be reduced by \$111 million in fiscal year 2012 and \$340 million in fiscal year 2013. Beginning in fiscal year 2014, allocations will be made by committing a set percent of annual tax revenues deposited into the GRF (beginning with fiscal year 2013 GRF tax revenues).
- Reductions to the public library fund allocations. Allocations to public libraries will be reduced to 95 percent of fiscal year 2011 levels resulting in savings of \$52.3 million in fiscal year 2012 and \$102.8 million in fiscal year 2013. Beginning in fiscal year 2014, allocations will be made by committing a set percent of annual tax revenues deposited into the GRF (beginning with fiscal year 2013 GRF tax revenues).
- Accelerated phase-out of reimbursement payments, in connection with the elimination of the tangible personal property tax, for local governments and school districts. This will result in an increased share of the commercial activity tax being deposited into the GRF, approximately \$293.5 million and \$597.7 million for fiscal years 2012 and 2013, respectively.
- Accelerated phase-out of reimbursement payments, in connection with the electric power generation deregulations and natural gas deregulation, for local governments and school districts. This will result in a larger share of kilowatt-hour tax being reallocated to the GRF, approximately \$141.6 million and \$147.4 million for fiscal years 2012 and 2013, respectively. It will also result in the entire share of natural gas consumption tax being reallocated to the GRF, approximately \$66 million in fiscal year 2012 and again in fiscal year 2013.
- Transfer of \$235 million to the GRF from unclaimed funds and other non-GRF funds and \$12 million to the GRF from a tax amnesty program.
- Implementation of the previously postponed final 4.2 percent annual decrease in State personal income tax rates.
- Elimination of the estate tax beginning January 1, 2013. In fiscal year 2010, estate tax collections totaled \$285.8 million, of which \$230.8 million was distributed to local governments. The remaining \$55 million was deposited into the State's GRF.
- Creation of the InvestOhio income tax credit program under which investors in small businesses based in Ohio who hold their investments for at least two years may receive income tax credits.
- Creation of opportunities for cost savings through changes to the State's construction bidding procedures.

The Act also creates a \$130 million Medicaid reserve fund and a \$104 million Unemployment Compensation Contingency Fund. The Unemployment Compensation Contingency Fund will be used to pay interest on federal advances to the State Unemployment Compensation Fund.

General Revenue Fund

For fiscal year 2012, total fiscal year-to-date GRF receipts through October 2011 are \$12.5 million below estimates but \$196.8 million higher than collections through October of the prior fiscal year. Total fiscal year-to-date GRF disbursements through October 2011 are \$268.9 million below estimates for the first four months of fiscal year 2012 and \$181.6 million above expenditures for the first four months of the prior fiscal year. As of October 2011, receipts are within less than a percent of budget estimates and disbursements are within three percent of budget estimates for fiscal year 2012. Fiscal year 2012 receipts are 2.3 percent ahead of receipts for the first four months of fiscal year 2011. Disbursements for fiscal year 2012 are 1.8 percent above disbursements for the same time period of fiscal year 2011.

Unemployment Compensation Fund

Due to the declining revenues and rising unemployment claims resulting from the challenging economic climate, the State has sought federal assistance in meeting its unemployment benefit costs. In accordance with Title XII of the Social Security Act, the State has drawn repayable advances in the Unemployment Trust Fund of \$2.31 billion from the Federal Unemployment Account to cover the insufficient State funds for benefit claims during fiscal years 2009 and 2010. The State began accruing interest on the repayable advances balances on January 1, 2011, and made its first interest payment in September 2011 for \$70.7 million. Another interest payment is due in October 2012 and is estimated at \$90 million.

Contacting the Ohio Office of Budget and Management

This financial report is designed to provide the State's citizens, taxpayers, customers, investors and creditors with a general overview of the State's finances and to demonstrate the State's accountability for the money it receives. Questions regarding any of the information provided in this report or requests for additional financial information should be addressed to the Ohio Office of Budget and Management, Financial Reporting Section, 30 East Broad Street, 34th Floor, Columbus, Ohio 43215-3457 or by e-mail at obm@obm.state.oh.us.

STATE OF OHIO

RECONCILIATION OF THE GOVERNMENTAL FUNDS
BALANCE SHEET TO THE STATEMENT OF NET ASSETS
JUNE 30, 2011
(dollars in thousands)

Total Fund Balances for Governmental Funds..... **\$ 10,723,182**

Total net assets reported for governmental activities in the Statement of Net Assets is different because:

Capital assets used in governmental activities are not financial resources, and therefore, are not reported in the funds. Those assets consist of:

Land.....	2,082,738
Buildings and Improvements, net of \$1,908,823 accumulated depreciation.....	1,779,018
Land Improvements, net of \$236,027 accumulated depreciation.....	181,204
Machinery and Equipment, net of \$553,624 accumulated depreciation.....	274,472
Vehicles, net of \$172,547 accumulated depreciation.....	125,927
Infrastructure, net of \$15,152 accumulated depreciation.....	19,461,832
Construction-in-Progress.....	1,654,487
	<u>25,559,678</u>

Some of the State's revenues are collected after year-end but are not available soon enough to pay for the current period's (within 60 days of year-end) expenditures, and therefore, are deferred in the funds.

Taxes Receivable.....	186,422
Intergovernmental Receivable.....	278,343
Other Receivables.....	361,606
Other Assets.....	2,990
	<u>829,361</u>

Unamortized bond issue costs are not financial resources, and therefore, are not reported in the funds.

78,013

Deferred outflows of resources are not financial resources, and therefore, are not reported in the funds.

36,708

The following liabilities are not due and payable in the current period, and therefore, are not reported in the funds.

<i>Accrued Liabilities:</i>	
Interest Payable.....	(172,532)
Other	
Refunds and Other Liabilities.....	(167)
<i>Bonds and Notes Payable:</i>	
General Obligation Bonds.....	(7,872,276)
Revenue Bonds.....	(7,156,025)
Special Obligation Bonds.....	(2,260,853)
Certificates of Participation.....	(179,935)
<i>Other Noncurrent Liabilities:</i>	
Compensated Absences.....	(464,077)
Net Pension Obligation.....	(4,299)
Net OPEB Obligation.....	(66,593)
Capital Leases Payable.....	(6,530)
Derivatives.....	(53,119)
Estimated Claims Payable.....	(10,385)
Pollution Remediation, net of liabilities reported as accounts payable in the funds and recoveries reported above as other receivables.....	(4,851)
Liability for Escheat Property.....	(210,932)
	<u>(18,462,574)</u>

Total Net Assets of Governmental Activities..... **\$ 18,764,368**

The notes to the financial statements are an integral part of this statement.

STATE OF OHIO

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2011
(dollars in thousands)

Net Change in Fund Balances -- Total Governmental Funds.....	1,048,145
Change in Inventories.....	126
	<u>1,048,271</u>

The change in net assets reported for governmental activities in the Statement of Activities is different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

Capital Outlay Expenditures.....	622,049
Depreciation Expense.....	<u>(210,425)</u>
Excess of Capital Outlay Over Depreciation Expense.....	<u>411,624</u>

Debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Assets. In the current period, proceeds were received from:

General Obligation Bonds.....	(860,000)
Revenue Bonds.....	(358,000)
Special Obligation Bonds.....	(113,000)
Refunding Bonds, including Bond Premium/Discount, Net.....	(624,662)
Premiums and Discounts, Net:	
General Obligation Bonds.....	(17,895)
Revenue Bonds.....	(21,419)
Special Obligation Bonds.....	(6,031)
Deferred Refunding Loss.....	31,031
Capital Leases.....	(914)
Total Debt Proceeds.....	<u>(1,970,890)</u>

Repayment of long-term debt is reported as an expenditure in governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets. In the current year, these amounts consist of:

<i>Debt Principal Retirement and Defeasements:</i>	
General Obligation Bonds.....	650,582
Revenue Bonds.....	162,565
Special Obligation Bonds.....	444,181
Certificates of Participation.....	19,255
Capital Lease Payments.....	<u>3,008</u>
Total Long-Term Debt Repayment.....	<u>1,279,591</u>

Revenues in the Statement of Activities that do not provide current financial resources are deferred in the governmental funds. Deferred revenues increase by this amount this year.

36,401

The notes to the financial statements are an integral part of this statement.

Some expenses reported in the Statement of Activities are not reported as expenditures in the governmental funds. Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the Statement of Activities, however, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available. In addition, interest on long-term debt is not recognized under the modified accrual basis of accounting until due, rather than as it accrues. This adjustment combines the changes in the following balances:

<i>Increase in Bond Issue Costs Included in Other Assets</i>	69	
<i>Increase in Accrued Interest and Other Accrued Liabilities</i>	(24,322)	
<i>Amortization of Bond Premiums/Accretion of Bond Discount, Net</i>	30,441	
<i>Amortization of Deferred Refunding Loss</i>	(32,995)	
<i>Increase in Compensated Absences</i>	(19,302)	
<i>Decrease in Derivative Liabilities (Excluding Hedging Derivatives)</i>	2,665	
<i>Increase in Estimated Claims Payable</i>	(314)	
<i>Decrease in Pollution Remediation</i>	589	
<i>Increase in Net Pension Obligation</i>	(4,299)	
<i>Increase in Liability for OPEB Obligation</i>	(66,593)

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements of the State of Ohio, as of June 30, 2011, and for the year then ended, conform with generally accepted accounting principles (GAAP) as applied to governments. The Governmental Accounting Standards Board (GASB) is the standard-setting body for establishing governmental accounting and financial reporting principles, which are included in the GASB's *Codification of Governmental Accounting and Financial Reporting Standards*. The State's significant accounting policies are as follows.

A. Financial Reporting Entity

The State of Ohio's primary government includes all funds, elected officials, departments and agencies, bureaus, boards, commissions, and authorities that make up the State's legal entity. Component units, legally separate organizations for which the State's elected officials are financially accountable, also comprise, in part, the State's reporting entity. Additionally, other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete should be included in a government's financial reporting entity.

GASB Statement No. 14 (GASB 14), *The Financial Reporting Entity*, defines financial accountability. The criteria for determining financial accountability include the following circumstances:

- appointment of a voting majority of an organization's governing authority and the ability of the primary government to either impose its will on that organization or the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government, or
- an organization is fiscally dependent on the primary government.

1. Blended Component Units

The Ohio Building Authority, the Buckeye Tobacco Settlement Financing Authority, and the State Highway Patrol Retirement System are legally separate organizations that provide services entirely, or almost entirely, to the State or otherwise exclusively, or almost exclusively, benefit the State. Therefore, the State reports these organizations' balances and transactions as though they were part of the primary government using the blending method.

2. Discretely Presented Component Units

The component units' columns in the basic financial statements include the financial data of another 28 organizations. The separate discrete column labeled, "Component Units," emphasizes these organizations' separateness from the State's primary government. Officials of the primary government appoint a voting majority of each organization's governing board.

The primary government has the ability to impose its will on the following organizations by modifying or approving their respective budgets or through policy modification authority.

School Facilities Commission
Cultural Facilities Commission
eTech Ohio Commission
Ohio Air Quality Development Authority
Ohio Capital Fund

The following organizations impose or potentially impose financial burdens on the primary government.

Ohio Water Development Authority
Ohio State University
University of Cincinnati
Ohio University
Miami University
University of Akron
Bowling Green State University
Kent State University
University of Toledo
Cleveland State University

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Youngstown State University
Wright State University
Shawnee State University
Central State University
Terra State Community College
Columbus State Community College
Clark State Community College
Edison State Community College
Southern State Community College
Washington State Community College
Cincinnati State Community College
Northwest State Community College
Owens State Community College

The School Facilities Commission, Cultural Facilities Commission, and eTech Ohio Commission, which are governmental component units, do not issue separately audited financial reports.

Information on how to obtain financial statements for the State's component units that do issue their own separately audited financial reports is available from the Ohio Office of Budget and Management.

3. Joint Ventures and Related Organizations

As discussed in more detail in NOTE 18, the State participates in several joint ventures and has related organizations. The State does not include the financial activities of these organizations in its financial statements, in conformity with GASB 14.

B. Basis of Presentation

Government-wide Statements — The Statement of Net Assets and the Statement of Activities display information about the primary government (the State) and its component units. These statements include the financial activities of the overall government, except for fiduciary activities.

Fiduciary funds of the primary government and component units that are fiduciary in nature are reported only in the statements of fiduciary net assets and changes in fiduciary net assets.

For the government-wide financial statements, eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the *governmental* and *business-type activities* of the State. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole, or in part, by fees charged to external parties for goods or services.

The Statement of Net Assets reports all financial and capital resources using the economic resources measurement focus and the accrual basis of accounting. The State presents the statement in a format that displays *assets and deferred outflows of resources less liabilities and deferred inflows of resources equal net assets*. The *net assets* section is displayed in three components:

- The *Invested in Capital Assets, Net of Related Debt* component consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. The portion of debt attributable to significant unspent related debt proceeds at year-end is not included in the calculation of this net assets component.
- The *Restricted Net Assets* component represents net assets with constraints placed on their use that are either 1.) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or 2.) imposed by law through constitutional provisions or enabling legislation. For component units with permanent endowments, restricted net assets are displayed in two additional components — nonexpendable and expendable. Nonexpendable net assets are those that are required to be retained in perpetuity.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- The *Unrestricted Net Assets* component consists of net assets that do not meet the definition of the preceding two components.

The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the State's governmental activities and for the different business-type activities of the State. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular program or function. Centralized expenses have been included in direct expenses. Indirect expenses have not been allocated to the programs or functions reported in the Statement of Activities.

Program revenues include licenses, permits and other fees, fines, forfeitures, charges paid by the recipients of goods or services offered by the programs, and grants, contributions, and investment earnings that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all tax, tobacco settlement, escheat property revenues, unrestricted investment income, and state assistance, are presented as general revenues.

Fund Financial Statements — The fund financial statements provide information about the State's funds, including the fiduciary funds and blended component units. Separate statements for each fund category — governmental, proprietary, and fiduciary — are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and proprietary funds are aggregated and reported as nonmajor funds.

Governmental fund types include the General, special revenue, debt service, and capital projects funds. The proprietary funds consist of enterprise funds. Fiduciary fund types include pension trust, private-purpose trust, investment trust, and agency funds.

Operating revenues for the State's proprietary funds mainly consist of charges for the sales and services and premium and assessment income since these revenues result from exchange transactions associated with the principal activity of the respective enterprise fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Revenue from the federal government for the underfunded regular and extended unemployment benefits is also reported as operating revenues for the Unemployment Compensation Fund, since this source provides significant funding for the payment of unemployment benefits — the fund's principal activity. Investment income for the Tuition Trust Authority Fund is also reported as operating revenue, since this source provides significant funding for the payment of tuition benefits. Nonoperating revenues for the proprietary funds result from nonexchange transactions or ancillary activities; nonoperating revenues are primarily comprised of investment income and federal operating grants.

Proprietary fund operating expenses principally consist of expenses for the cost of sales and services, administration, bonuses and commissions, prizes, benefits and claims, and depreciation. Nonoperating expenses principally consist of interest expense on debt and the amortization of discount on deferred lottery prize liabilities, which is reported under "Other" nonoperating expenses.

The State reports the following major governmental funds:

General — The General Fund, the State's primary operating fund, accounts for resources of the general government, except those required to be accounted for in another fund.

Job, Family and Other Human Services Special Revenue Fund — This fund accounts for public assistance programs primarily administered by the Department of Job and Family Services, which provides financial assistance, services, and job training to those individuals and families who do not have sufficient resources to meet their basic needs. The primary sources of revenue for this fund are licenses, permits and fees and the federal government.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Buckeye Tobacco Settlement Financing Authority Revenue Bonds Debt Service Fund — This fund accounts for the payment of principal and interest on the revenue bonds issued to fund long-lived capital projects at State-supported institutions of higher education and to pay the State's share of the cost of rebuilding elementary and secondary school facilities across the State.

The State reports the following major proprietary funds:

Workers' Compensation Enterprise Fund — This fund accounts for the operations of the Ohio Bureau of Workers' Compensation and the Industrial Commission of Ohio, which provide workers' compensation insurance services.

Lottery Commission Enterprise Fund — This fund accounts for the State's lottery operations.

Unemployment Compensation Enterprise Fund — This fund, which is administered by the Ohio Department of Job and Family Services, accounts for unemployment compensation benefit claims.

The State reports the following fiduciary fund types:

Pension Trust Fund — The State Highway Patrol Retirement System Pension Trust Fund accounts for resources that are required to be held in trust for members and beneficiaries of the defined benefit plan. The financial statements for the State Highway Patrol Retirement System Pension Trust Fund are presented for the fiscal year ended December 31, 2010.

Private-Purpose Trust Fund — The Private-Purpose Trust Fund accounts for trust arrangements under which principal and income benefit participants in the Variable College Savings Plan, which is administered by the Tuition Trust Authority.

Investment Trust Fund — The STAR Ohio Investment Trust Fund accounts for the state-sponsored external investment pool, which the Treasurer of State administers for local government participants.

Agency Funds — These funds account for the receipt, temporary investment, and remittance of fiduciary resources held on behalf of individuals, private organizations, and other governments.

The State reports the following major component unit funds:

The *School Facilities Commission* fund accounts for grants that provide assistance to local school districts for the construction of school buildings.

The *Ohio Water Development Authority*, *Ohio State University*, and *University of Cincinnati* funds are business-type activities that use proprietary fund reporting. The financial statements for the Ohio Water Development Authority, which provides financial assistance to local governments for the construction of wastewater and sewage facilities, are presented for the fiscal year ended December 31, 2010. The Ohio State University Fund accounts for the university's operations, including its health system, supercomputer center, agricultural research and development center, and other legally separate entities subject to the control of the university's board. The University of Cincinnati Fund accounts for the university's operations, including its related foundation and other legally separate entities subject to the control of the university's board.

C. Measurement Focus and Basis of Accounting

Government-wide, Enterprise Fund, and Fiduciary Fund Financial Statements — The State reports the government-wide financial statements and the proprietary fund and fiduciary fund financial statements using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned, and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place.

The State recognizes revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions when the exchange takes place. When resources are received in advance of the exchange, the State reports the unearned revenue as a liability.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Nonexchange transactions, in which the State gives (or receives) value without directly receiving (or giving) equal value in exchange, include derived taxes, grants, and entitlements. The revenues, expenses, gains, losses, assets, and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of GASB 33, *Accounting and Financial Reporting for Nonexchange Transactions*.

Under the accrual basis, the State recognizes assets from derived tax revenues (e.g., personal income, sales, and motor vehicle fuel taxes) in the fiscal year when the exchange transaction on which the tax is imposed occurs or when the resources are received, whichever occurs first. The State recognizes derived tax revenues, net of estimated refunds and estimated uncollectible amounts, in the same period that the assets are recognized, provided that the underlying exchange transaction has occurred.

Revenue from grants and entitlements is recognized in the fiscal year in which all eligibility requirements have been satisfied. Resources transmitted in advance of the State meeting eligibility requirements are reported as unearned revenue.

Investment income includes the net increase (decrease) in the fair value of investments.

As permitted by GAAP, all governmental and business-type activities and enterprise funds have elected not to apply Financial Accounting Standards Board Statements and Interpretations issued after November 30, 1989.

Governmental Fund Financial Statements — The State reports governmental funds using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The State considers revenues reported in the governmental funds to be available when the revenues are collectible within 60 days after year-end or soon enough thereafter to be used to pay liabilities of the current period.

Significant revenue sources susceptible to accrual under the modified accrual basis of accounting include:

- Personal income taxes
- Sales and use taxes
- Motor vehicle fuel taxes
- Charges for goods and services
- Federal government grants
- Tobacco settlement
- Investment income

The State recognizes assets from derived tax revenues (e.g., personal income, sales, and motor vehicle fuel taxes) in the fiscal year when the exchange transaction on which the tax is imposed occurs or when the resources are received, whichever occurs first. The State recognizes derived tax revenues, net of estimated refunds and estimated uncollectible amounts, in the same period that the assets are recognized, provided that the underlying exchange transaction has occurred and the revenues are collected during the availability period.

For revenue arising from exchange transactions (e.g., charges for goods and services), the State defers revenue recognition when resources earned from the exchange are not received during the availability period and reports unearned revenue when resources are received in advance of exchange.

The governmental funds recognize federal government revenue in the period when all applicable eligibility requirements have been met and resources are available. Resources transmitted in advance of the State meeting eligibility requirements are reported as unearned revenue. The State defers revenue recognition for reimbursement-type grant programs if the reimbursement is not received during the availability period.

Investment income includes the net increase (decrease) in the fair value of investments.

Licenses, permits, fees, and certain other miscellaneous revenues are not susceptible to accrual because generally they are not measurable until received in cash. The "Other" revenue account is comprised of refunds, reimbursements, recoveries, and other miscellaneous income.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, capital lease obligations, compensated absences, and claims and judgments. The governmental funds recognize expenditures for these liabilities to the extent they have matured or will be liquidated with expendable, available financial resources.

Capital asset acquisitions are reported as expenditures in the governmental funds. Proceeds from long-term debt issuances, including refunding bond proceeds, premiums, and acquisitions under capital leases are reported as other financing sources while discounts and payments to refunded bond escrow agents are reported as other financing uses.

D. Budgetary Process

As the Ohio Revised Code requires, the Governor submits biennial operating and capital budgets to the General Assembly.

The General Assembly approves operating appropriations in annual amounts and capital appropriations in two-year amounts.

The General Assembly enacts the budget through passage of specific departmental line-item appropriations, the legal level of budgetary control. Line-item appropriations are established within funds by program or major object of expenditure. The Governor may veto any item in an appropriation bill. Such vetoes are subject to legislative override.

The State's Controlling Board can transfer or increase a line-item appropriation within the limitations set under Sections 127.14 and 131.35, Ohio Revised Code.

All governmental funds are budgeted except the following activities within the debt service and capital projects fund types:

- Improvements General Obligations
- Highway Improvements General Obligations
- Development General Obligations
- Highway General Obligations
- Public Improvements General Obligations
- Vietnam Conflict Compensation
General Obligations
- Economic Development Revenue Bonds
- Infrastructure Bank Revenue Bonds
- Revitalization Project Revenue Bonds
- Buckeye Tobacco Settlement Financing Authority
Revenue Bonds
- Chapter 154 Special Obligations
- Ohio Building Authority Special Obligations
- Transportation Certificates of Participation
- OAKS Certificates of Participation
- STARS Certificates of Participation
- OAKS Project
- STARS Project

For budgeted funds, the State's Ohio Administrative Knowledge System (OAKS) controls expenditures by appropriation line-item, so at no time can expenditures exceed appropriations and financial-related legal compliance is assured. The State uses the modified cash basis of accounting for budgetary purposes.

The *Detailed Appropriation Summary by Fund Report* is available for public inspection at the Ohio Office of Budget and Management and on its web site at www.obm.ohio.gov/SectionPages/FinancialReporting. This Summary provides a more comprehensive accounting of activity on the budgetary basis at the legal level of budgetary control.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In the *Statement of Revenues, Expenditures and Changes in Fund Balances — Budget and Actual (Non-GAAP Budgetary Basis) — General Fund and Major Special Revenue Fund*, the State reports estimated revenues and other financing sources and uses for the General Fund only; the State does not estimate revenue and other financing sources and uses for the major special revenue fund or its budgeted nonmajor governmental funds.

Additionally, in the non-GAAP budgetary basis financial statement, “actual” budgetary expenditures include cash disbursements and outstanding encumbrances, as of June 30.

The State Highway Patrol Retirement System Pension Trust Fund, the Variable College Savings Plan Private-Purpose Trust Fund, and the STAR Ohio Investment Trust Fund are not legally required to adopt budgets. The State is not legally required to report budgetary data and comparisons for the budgeted proprietary funds. Also, the State does not present budgetary data for its discretely presented component units.

Because the State budgets on a modified cash basis of accounting, which differs from GAAP, NOTE 3 presents a reconciliation of the differences between the GAAP basis and non-GAAP budgetary basis of reporting.

E. Cash Equity with Treasurer and Cash and Cash Equivalents

Cash equity with Treasurer consists of pooled demand deposits and investments carried at fair value. The State’s cash pool under the Treasurer of State’s administration has the general characteristics of a demand deposit account whereby additional cash can be deposited at any time and can also be effectively withdrawn at any time, within certain budgetary limitations, without prior notice or penalty.

Cash and cash equivalents include amounts on deposit with financial institutions and cash on hand. The cash and cash equivalents account also include investments with original maturities of three months or less from the date of acquisition for the Workers’ Compensation Enterprise Fund.

Cash equity with Treasurer and cash and cash equivalents, including the portions reported under “Restricted Assets,” are considered to be cash equivalents, as defined in GASB Statement No. 9, for purposes of the Statement of Cash Flows.

Additional disclosures on the State’s deposits can be found in NOTE 4.

F. Investments

Investments include long-term investments that may be restricted by law or other legal instruments. With the exception of certain money market investments, which have remaining maturities at the time of purchase of one year or less and are carried at amortized cost, and holdings in the State Treasury Asset Reserve of Ohio (STAR Ohio) investment pool, the State reports investments at fair value based on quoted market prices. STAR Ohio operates in a manner consistent with Rule 2a7 of the Investment Company Act of 1940; investments in the 2a7-like pool are reported at amortized cost (which approximates fair value).

The colleges and universities report investments received as gifts at their fair value on the donation date.

The primary government does not manage or provide investment services for investments reported in the Agency Fund that are owned by other, legally separate entities that are not part of the State of Ohio’s reporting entity.

Additional disclosures on the State’s investments can be found in NOTE 4.

G. Taxes Receivable

Taxes receivable represent amounts due to the State at June 30, which will be collected sometime in the future. In the government-wide financial statements, revenue has been recognized for the receivable. In the fund financial statements only the portion of the receivable collected during the 60-day availability period has been recognized as revenue while the remainder is recorded as deferred revenue. Additional disclosures on taxes receivable can be found in NOTE 5.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

H. Intergovernmental Receivable

The intergovernmental receivable balance is primarily comprised of amounts due from the federal government for reimbursement-type grant programs. Advances of resources to recipient local governments before eligibility requirements have been met under government-mandated and voluntary nonexchange programs and amounts due for exchanges of State goods and services with other governments are also reported as intergovernmental receivables. Additional details on the intergovernmental receivable balance can be found in NOTE 5.

I. Inventories

Inventories are valued at cost. Principal inventory cost methods applied include first-in/first-out, average cost, moving-average, and retail.

In the governmental fund financial statements, the State recognizes the costs of material inventories as expenditures when purchased. Inventories do not reflect current appropriable resources in the governmental fund financial statements. Therefore, the State reports an equivalent portion of fund balance as nonspendable.

J. Restricted Assets

The primary government reports assets restricted for the payment of deferred lottery prize awards, revenue bonds, and tuition benefits in the enterprise funds.

Generally, the component unit funds hold assets in trust under bond covenants or other financing arrangements that legally restrict the use of these assets.

K. Capital Assets

Primary Government

The State reports capital assets purchased with governmental fund resources in the government-wide financial statements at historical cost, or at estimated historical cost when no historical records exist. Donated capital assets are valued at their estimated fair value on the donation date. The State does not report capital assets purchased with governmental fund resources in the fund financial statements. Governmental capital assets are reported net of accumulated depreciation, except for land, construction-in-progress, transportation infrastructure assets, and individual works of art and historical treasures, including historical land improvements and buildings. Transportation infrastructure assets are reported using the "modified approach," as discussed below, and therefore are not depreciable. Individual works of art and historical treasures, including historical land improvements and buildings, are considered to be inexhaustible, and therefore, are not depreciable.

The State reports capital assets purchased with enterprise fund resources and fiduciary fund resources in the government-wide and the fund financial statements at historical cost, or at estimated historical cost when no historical records exist. Donated capital assets are valued at their estimated fair value on the donation date. Capital assets, except for land and construction-in-progress, are reported net of accumulated depreciation.

The State has elected to capitalize its transportation infrastructure assets, defined as bridges, general highways, and priority highways, using the modified approach. Under this approach, the infrastructure assets are not depreciated because the State has committed itself to maintaining the assets at a condition level that the Ohio Department of Transportation (ODOT) has determined to be adequate to meet the needs of the citizenry. Costs of maintaining the bridge and highway infrastructure are not capitalized. New construction that represents additional lane-miles of highway or additional square-footage of bridge deck area and improvements that add to the capacity or efficiency of an asset are capitalized.

ODOT maintains an inventory of its transportation infrastructure capital assets, and conducts annual condition assessments to establish that the condition level that the State has committed itself to maintaining is, in fact, being achieved. ODOT also estimates the amount that must be spent annually to maintain the assets at the desired condition level.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

For its other types of capital assets, the State does not capitalize the costs of normal maintenance and repairs that do not add to an asset’s value or materially extend its useful life. Costs of major improvements are capitalized. Interest costs associated with the acquisition of capital assets purchased using governmental fund resources are not capitalized, while those associated with acquisitions purchased using enterprise and fiduciary fund resources are capitalized.

The State does not capitalize collections of works of art or historical treasures that can be found at the Governor’s residence, Malabar Farm (i.e., Louis Bromfield estate), which the Ohio Department of Natural Resources operates, the Ohio Arts Council, the State Library of Ohio, and the Capitol Square Review and Advisory Board for the following reasons:

- The collection is held for public exhibition, education, or research in furtherance of public service rather than for financial gain.
- The collection is protected, kept unencumbered, cared for, and preserved.
- The collection is subject to an organizational policy that requires the proceeds from sales of collection items to be used to acquire other items for collections.

The State has established the following capitalization thresholds:

Buildings	\$15,000
Building Improvements	100,000
Land, including easements	All, regardless of cost
Land Improvements	15,000
Machinery and Equipment	15,000
Vehicles.....	15,000
Infrastructure:	
Highway Network	500,000
Bridge Network	500,000
Park and Natural Resources Network	All, regardless of cost

For depreciable assets, the State applies the straight-line method over the following estimated useful lives:

Buildings	20-45 Years
Land Improvements	10-30 Years
Machinery and Equipment	3-15 Years
Vehicles.....	7-15 Years
Park and Natural Resources Infrastructure Network	10-50 Years

NOTE 8 contains additional disclosures about the primary government’s capital assets.

Discretely Presented Component Unit Funds

The discretely presented component unit funds value all capital assets at cost and donated fixed assets at estimated fair value on the donation date. They apply the straight-line method to depreciable capital assets. Additional disclosures about the discretely presented component unit funds’ capital assets can be found in NOTE 8.

L. Medicaid Claims Payable

The Medicaid claims liability, which has an average maturity of one year or less, includes an estimate for incurred, but not reported claims.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

M. Noncurrent Liabilities

Government-wide Financial Statements — Liabilities whose average maturities are greater than one year are reported in two components — the amount due in one year and the amount due in more than one year. Additional disclosures as to the specific liabilities included in noncurrent liabilities can be found in NOTES 10 through 15.

Fund Financial Statements — Governmental funds recognize noncurrent liabilities to the extent they have matured or will be liquidated with expendable, available financial resources.

The proprietary funds and component unit funds report noncurrent liabilities expected to be financed from their operations.

N. Compensated Absences

Employees of the State's primary government earn vacation leave, sick leave, and personal leave at various rates within limits specified under collective bargaining agreements or under law. Generally, employees accrue vacation leave at a rate of 3.1 hours every two weeks for the first four years of employment, up to a maximum rate of 9.2 hours every two weeks after 24 years of employment. Employees may accrue a maximum of three years vacation leave credit. At termination or retirement, the State pays employees, at their full rate, 100 percent of unused vacation leave, personal leave, and, in certain cases, compensatory time and 50 to 55 percent of unused sick leave.

Such leave is liquidated in cash, under certain restrictions, either annually in December, or at the time of termination from employment.

For the governmental funds, the State reports the matured compensated absences liability as a fund liability (included in the "Accrued Liabilities" account as a component of wages payable) to the extent it will be liquidated with expendable, available financial resources. For the primary government's proprietary funds and its discretely presented component unit funds, the State reports the compensated absences liability as a fund liability included in the "Refund and Other Liabilities" account.

The State's primary government accrues vacation, compensatory time, and personal leaves as liabilities when an employee's right to receive compensation is attributable to services already rendered and it is probable that the employee will be compensated through paid time off or some other means, such as at termination or retirement.

Sick leave time that has been earned, but is unavailable for use as paid time off or as some other form of compensation because an employee has not met a minimum service time requirement, is accrued to the extent that it is considered to be probable that the conditions for compensation will be met in the future.

The State's primary government accrues sick leave using the vesting method. Under this method, the liability is recorded on the basis of leave accumulated by employees who are eligible to receive termination payments, as of the balance sheet date, and on leave balances accumulated by other employees who are expected to become eligible in the future to receive such payments.

Included in the compensated absences liability is an amount accrued for salary-related payments directly and incrementally associated with the payment of compensated absences upon termination. Such payments include the primary government's share of Medicare taxes.

For the colleges and universities, vacation and sick leave policies vary by institution.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

O. Fund Balance Classification; Budget Stabilization Fund; Net Assets and Fund Balance Spending Order
Fund balance reported in the governmental fund financial statements is classified as follows:

Nonspendable

The *nonspendable* fund balance classification includes amounts that cannot be spent because they are either 1.) not in spendable form, such as prepaids and inventories or 2.) legally or contractually required to be maintained intact, such as the corpus of a permanent fund.

Restricted

Fund balance amounts should be *restricted* when constraints placed on the use of resources are either 1.) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or 2.) imposed by law through constitutional provisions or enabling legislation.

Unrestricted

Committed

Amounts constrained for specific purposes by formal action (i.e., legislation) of the government's highest level of decision-making authority (i.e., General Assembly) should be reported as *committed* fund balance. Committed amounts cannot be used for other purposes unless the General Assembly passes legislation to remove the constraints.

Assigned

Amounts that are constrained by the government's *intent* to be used for specific purposes, but are neither restricted nor committed, should be reported as *assigned* fund balance, except for stabilization arrangements. The intent should be conveyed by the governing body itself or through delegation to a body or official authorized on behalf of the government to assign amounts to be used for specific purposes. The Controlling Board, created under Chapter 127, Ohio Revised Code, is an example of a body delegated by the government to make assignments. The Director of the Office of Budget and Management is an example of an authorized official granted assignment authority through legislative language, including enacted budget bills. While both the committed and assigned fund balance classifications include amounts constrained for specific use by actions taken by the government itself, the authority for making an assignment is not required to be the government's highest level of decision-making authority. Amounts should not be reported as assigned if the assignment would result in a deficit in unassigned fund balance.

Unassigned

Unassigned fund balance is the residual classification for the General Fund. This classification represents spendable fund balance that has not been otherwise restricted, committed or assigned to specific purposes within the General Fund. In funds other than the General Fund, the unassigned classification should only be used to report a deficit balance due to overspending amounts that are restricted or committed.

Fund balance in the State's Budget Stabilization Fund, as discussed in Sections 131.43 and 131.44, Ohio Revised Code, does not meet the criteria to be classified as restricted or committed and is, therefore, reported as unassigned in the General Fund.

For reporting purposes, restricted amounts are generally considered to have been spent first, followed by unrestricted amounts. Within the unrestricted fund balance amounts, the spending order is generally committed, followed by assigned, and then unassigned when expenditures are incurred for purposes for which amounts in any unrestricted fund balance classification could be used.

P. Risk Management

The State's primary government is self-insured for claims under its traditional healthcare plans and for vehicle liability while it has placed public official fidelity bonding with a private insurer. The State self-funds tort liability and most property losses on a pay-as-you-go basis; however, selected state agencies have acquired private insurance for their property losses. While not the predominant participants, the State's primary government and its discretely presented component units participate in a public entity risk pool, which is accounted for in the Workers' Compensation Enterprise Fund, for the financing of their respective workers' compensation liabilities. These liabilities are reported in the governmental funds under the "Interfund Payable" account. (See NOTE 7).

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Q. Interfund Balances and Activities

Interfund transactions and balances have been eliminated from the government-wide financial statements to the extent that they occur within either the governmental or business-type activities. Balances between governmental and business-type activities are presented as internal balances and are eliminated in the total column. Revenues and expenses associated with reciprocal transactions within governmental or within business-type activities have not been eliminated.

In the fund financial statements, interfund activity within and among the three fund categories (governmental, proprietary, and fiduciary) is classified and reported as follows:

Reciprocal interfund activity is the internal counterpart to exchange and exchange-like transactions. This activity includes:

Interfund Loans — Amounts provided with a requirement for repayment, which are reported as interfund receivables in lender funds and interfund payables in borrower funds. When interfund loan repayments are not expected within a reasonable time, the interfund balances are reduced and the amount that is not expected to be repaid is reported as a transfer from the fund that made the loan to the fund that received the loan.

Interfund Services Provided and Used — Sales and purchases of goods and services between funds for a price approximating their external exchange value. Interfund services provided and used are reported as revenues in seller funds and as expenditures or expenses in purchaser funds. Unpaid amounts are reported as interfund receivables and payables in the fund balance sheets or fund statements of net assets.

Nonreciprocal interfund activity is the internal counterpart to nonexchange transactions. This activity includes:

Interfund Transfers — Flows of assets without equivalent flows of assets in return and without a requirement for repayment. In governmental funds, transfers are reported as other financing uses in the funds making transfers and as other financing sources in the funds receiving transfers.

Interfund Reimbursements — Repayments from funds responsible for particular expenditures or expenses to the funds that initially paid for them. Reimbursements are not displayed in the financial statements.

Details on interfund balances and transfers are disclosed in NOTE 7.

R. Intra-Entity Balances and Activities

Balances due between the primary government and its discretely presented component units are reported as receivables from component units or primary government and payables to component units or primary government. For each major component unit, the nature and amount of significant transactions with the primary government are disclosed in NOTE 7.

Resource flows between the primary government and its discretely presented component units are reported like external transactions (i.e., revenues and expenses).

S. Derivatives Instruments

The State's derivative instruments include investment derivatives and interest rate swaps. Interest rate swaps that are ineffective hedging derivatives are reported within the investment derivatives classification.

The State reports its derivative instruments at fair value in the Statement of Net Assets. Changes in fair value for investment derivatives are recorded as investment income in the Statement of Activities. Changes in fair value for effective hedging derivatives are reported as deferred outflows/inflows of resources in the Statement of Net Assets.

Additional disclosures on the State's investment derivatives and its hedging derivatives can be found in NOTE 4 and NOTE 10, respectively.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

T. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

NOTE 2 RESTATEMENTS AND CHANGES IN ACCOUNTING PRINCIPLES AND STANDARDS

A. Restatements

Restatements of net assets, as of June 30, 2010, for the primary government's component units are presented in the following table (dollars in thousands).

Government-Wide Financial Statements:	
	Total Component Units
Net Assets, as of June 30, 2010, As Previously Reported	\$ 12,437,133
<i>Change in Reporting Entity:</i>	
University of Cincinnati Component Unit.....	(11,488)
<i>Other Adjustments that Increased/(Decreased) Net Assets:</i>	
Other Liabilities	1,404
Total Changes in Net Assets.....	(10,084)
Net Assets, July 1, 2010, As Restated	\$ 12,427,049

During the implementation of GASB Statement No. 54, the State reclassified funds within the governmental funds category. Beginning fund balance for governmental funds at July 1, 2010, was unchanged in total.

	General	Job, Family and Other Human Services	Education	Highway Operating	Revenue Distribution	Buckeye Tobacco Settlement Financing Authority Revenue Bonds	Nonmajor Governmental Funds	Total Fund Balance
Fund Balance, as of June 30, 2010, As Previously Reported	\$ 493,042	\$ 340,883	\$ 80,915	\$ 1,174,966	\$ (191,718)	\$ 5,301,012	\$ 2,475,811	\$ 9,674,911
From Revenue Distribution to General.....	(191,718)	-	-	-	191,718	-	-	-
From Education to Nonmajor Governmental Funds.....	-	-	(80,915)	-	-	-	80,915	-
From Highway Operating to Nonmajor Governmental Funds.....	-	-	-	(1,174,966)	-	-	1,174,966	-
From Job, Family and Other Human Services to General.....	41,979	(41,979)	-	-	-	-	-	-
From Nonmajor Governmental Funds to General.....	1,269,596	-	-	-	-	-	(1,269,596)	-
Total Changes in Fund Balance.....	1,119,857	(41,979)	(80,915)	(1,174,966)	191,718	-	(13,715)	-
Fund Balance, July 1, 2010, As Restated	\$ 1,612,899	\$ 298,904	\$ -	\$ -	\$ -	\$ 5,301,012	\$ 2,462,096	\$ 9,674,911

NOTE 2 RESTATEMENTS AND CHANGES IN ACCOUNTING PRINCIPLES AND STANDARDS (Continued)

B. Implementation of Recently Issued Accounting Pronouncements

For the fiscal year ended June 30, 2011, the State implemented the provisions of

- Governmental Accounting Standards Board (GASB) Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*.
- Governmental Accounting Standards Board (GASB) Statement No. 59, *Financial Instruments Omnibus*.

GASB 54 provides clearer fund balance classifications that can be more consistently applied and clarifies the existing governmental fund type definitions. It establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is required to observe the constraints imposed upon the use of the resources reported in the governmental funds.

GASB 59 updates and improves the accounting and financial reporting requirements that address financial instruments.

C. Recently Issued GASB Pronouncements

In December 2009, the GASB issued Statement No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*. Certain requirements of GASB 57 are effective for financial statements for periods beginning after June 15, 2011. GASB 57 clarifies Statement No. 43, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, and Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, regarding the requirements related to the coordination of the timing and frequency of OPEB measurements by agent employers and the agent multiple-employer OPEB plans in which they participate.

In November 2010, the GASB issued Statement No. 60, *Accounting and Financial Reporting for Service Concession Arrangements*. The provisions of GASB 60 are effective for financial statements for periods beginning after December 15, 2011. GASB 60 establishes guidance for accounting and financial reporting for service concession arrangements (SCAs). This Statement improves financial reporting by establishing recognition, measurement, and disclosure requirements for SCAs for both transferors and governmental operators by requiring both to account for and report SCAs in the same manner. This improves the comparability of financial statements.

In November 2010, the GASB issued Statement No. 61, *The Financial Reporting Entity: Omnibus*. The provisions of GASB 61 are effective for financial statements beginning after June 15, 2012. The objective of this Statement is to improve financial reporting for a governmental financial reporting entity. It addresses reporting entity issues that have arisen since the issuance of Statement No. 14, *The Financial Reporting Entity*, and the related financial reporting requirements of Statement No. 34, *Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments*. It also modifies existing requirements for including, presenting, and disclosing information about component units and equity interest transactions.

In December 2010, the GASB issued Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*. The provisions of GASB 62 are effective for financial statements for periods beginning after December 15, 2011. The requirements in this Statement will improve financial reporting by contributing to the GASB's efforts to codify all sources of generally accepted accounting principles for state and local governments so that they derive from a single source. It eliminates the need to determine which FASB and AICPA pronouncements apply to state and local governments for more consistent application of guidance and improved comparability of financial statements.

NOTE 2 RESTATEMENTS AND CHANGES IN ACCOUNTING PRINCIPLES AND STANDARDS (Continued)

In June 2011, the GASB issued Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*. The provisions of GASB 63 are effective for financial statements beginning after December 15, 2011. GASB 63 standardizes financial reporting of deferred outflows of resources and deferred inflows of resources and their effects on a government's net position and improves the comparability of financial statements by providing guidance where none previously existed.

In June 2011, the GASB issued Statement No. 64, *Derivative Instruments: Application of Hedge Accounting Termination Provisions*. The provisions of GASB 64 are effective for periods beginning after June 15, 2011. GASB 64 clarifies whether an effective hedging relationship continues after the replacement of a swap counterparty or a swap counterparty's credit support provider. This Statement establishes the criteria for determining when an effective hedging relationship continues and when hedge accounting should continue to be applied.

Management has not yet determined the impact that the new GASB pronouncements will have on the State's financial statements.

NOTE 3 GAAP versus NON-GAAP BUDGETARY BASIS

In the accompanying *Statement of Revenues, Expenditures and Changes in Fund Balances — Budget and Actual (Non-GAAP Budgetary Basis) — General Fund and Major Special Revenue Fund*, actual revenues, transfers-in, expenditures, encumbrances, and transfers-out reported on the non-GAAP budgetary basis do not equal those reported on the GAAP basis in the *Statement of Revenues, Expenditures and Changes in Fund Balances — Major Governmental Funds*.

This inequality results primarily from basis differences in the recognition of accruals, deferred revenue, interfund transactions, and loan transactions, and from timing differences in the budgetary basis of accounting for encumbrances. On the non-GAAP budgetary basis, the State recognizes encumbrances as expenditures in the year encumbered, while on the modified accrual basis, the State recognizes expenditures when goods or services are received regardless of the year encumbered.

Original budget amounts in the accompanying budgetary statements have been taken from the first complete appropriated budget for fiscal year 2011. An appropriated budget is the expenditure authority created by appropriation bills that are signed into law and related estimated revenues. The original budget also includes actual appropriation amounts automatically carried over from prior years by law, including the automatic rolling forward of appropriations to cover prior-year encumbrances.

Final Budget amounts represent original appropriations modified by authorized transfers, supplemental and amended appropriations, and other legally authorized legislative and executive changes applicable to fiscal year 2011, whenever signed into law or otherwise legally authorized.

For fiscal year 2011, no excess expenditures over appropriations were reported in individual funds.

A reconciliation of the fund balances reported under the GAAP basis and budgetary basis for the General Fund and the major special revenue fund is presented on the following page.

NOTE 4 DEPOSITS AND INVESTMENTS

A. Legal Requirements

The deposit and investment policies of the Treasurer of State and the State Board of Deposit are governed by the Uniform Depository Act, Chapter 135, Ohio Revised Code, which requires state moneys to be maintained in one of the following three classifications:

Active Deposits – Moneys required to be kept in cash or near cash status to meet current demands. Such moneys must be maintained either as cash in the State's treasury or in any of the following: a commercial account that is payable or about to be withdrawn, in whole or in part, on demand, a negotiable order of withdrawal account, a money market deposit account or a designated warrant clearance account.

Inactive Deposits – Those moneys not required for use within the current two year period of designation of depositories. Inactive moneys may be deposited or invested only in certificates of deposit maturing not later than the end of the current period of designation of depositories.

Interim Deposits – Those moneys not required for immediate use, but needed before the end of the current period of designation of depositories. Interim deposits may be deposited or invested in the following instruments:

- US Treasury Bills, notes, bonds or other obligation or securities issued by or guaranteed as to principal and interest by the United States;
- Bonds, notes, debentures, or other obligations or securities issued by any federal government agency or instrumentality;
- Bonds and other direct obligations of the State of Ohio issued by the Treasurer of State and of the Ohio Public Facilities Commission, the Ohio Building Authority, and the Ohio Housing Finance Agency;
- Commercial paper issued by any corporation that is incorporated under the laws of the United States or a state, and rated at the time of purchase in the two highest rating categories by two nationally recognized rating agencies;
- Written repurchase agreements with any eligible Ohio financial institution that is a member of the Federal Reserve System or Federal Home Loan Bank, or any recognized U.S. government securities dealer in the securities enumerated above;
- No-load money market mutual funds consisting exclusively of securities and repurchase agreements enumerated above;
- Securities lending agreements with any eligible financial institution that is a member of the Federal Reserve System or Federal Home Loan Bank, or any recognized U.S. government securities dealer;
- Bankers' acceptances maturing in 270 days or less;
- Certificates of deposit in the eligible institutions applying for interim moneys, including linked deposits, as authorized under Sections 135.61 to 135.67, Ohio Revised Code, agricultural linked deposits, as authorized under Sections 135.71 to 135.76, Ohio Revised Code, and housing linked deposits, as authorized under Sections 135.81 to 135.87, Ohio Revised Code;
- The Treasurer of State's investment pool, as authorized under section 135.45, Ohio Revised Code;
- Debt interest, other than commercial paper as enumerated above, of corporations incorporated under the laws of the United States or a state, of foreign nations diplomatically recognized by the United States, or any instrument based on, derived from, or related to such interests that are rated at the time of purchase in the three highest categories by two nationally recognized rating agencies, and denominated and payable in U.S. funds; and

NOTE 4 DEPOSITS AND INVESTMENTS (Continued)

- Obligations of a board of education, as authorized under Section 133.10, Ohio Revised Code.

The reporting entity's deposits must be held in insured depositories approved by the State Board of Deposit and must be fully collateralized. However, in the case of foundations and other component units of the colleges and universities, deposits of these entities are not subject to the legal requirements for deposits of governmental entities.

Deposits and investment policies of certain individual funds and component units are established by Ohio Revised Code provisions other than the Uniform Depository Act and by bond trust agreements. In accordance with applicable statutory authority, the State Highway Patrol Retirement System Pension Trust Fund, the Tuition Trust Authority Enterprise Fund, the Workers' Compensation Enterprise Fund, the Retirement Systems Agency fund, and the higher education institutions may also invest in common and preferred stocks, domestic and foreign corporate and government bonds and notes, mortgage loans, limited partnerships, venture capital, real estate and other investments.

B. State-Sponsored Investment Pool

The Treasurer of State is the investment advisor and administrator of the State Treasury Asset Reserve of Ohio (STAR Ohio), a statewide external investment pool authorized under Section 135.45, Ohio Revised Code. STAR Ohio issues a stand-alone financial report, copies of which may be obtained by making a written request to: Director of Investments, Treasurer of State, 30 East Broad Street, 9th Floor, Columbus, Ohio 43215, by calling (614) 466-2160, or by accessing the Treasurer of State's website at www.ohiotreasurer.org.

C. Deposit and Investment Risks

Although exposure to risks is minimized by complying with the legal requirements explained above and internal policies adopted by the Treasurer of State and the investment departments at the various state agencies, the State's deposits and investments are exposed to risks that may lead to losses of value.

The following risk disclosures report investments by type. The "U.S. Agency Obligations" category includes securities issued by federal government agencies and instrumentalities, including government sponsored enterprises.

1. Custodial Credit Risk

Custodial credit risk for deposits exists when a government is unable to recover deposits or recover collateral securities that are in the possession of an outside party in the event of a failure of a depository financial institution.

Deposits of the primary government and its component units are exposed to custodial credit risk if they are not covered by depository insurance, and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the depositor-government's name.

In Ohio, legal requirements for depositor-governments are met when deposits are collateralized with securities held by the pledging financial institution, or by the pledging institution's trust department or agent but not in the government's name. The State's reporting entity has not established specific policies for managing custodial credit risk exposure for deposits.

NOTE 4 DEPOSITS AND INVESTMENTS (Continued)

The table below reports the carrying amount of deposits, as of June 30, 2011, held by the primary government, including fiduciary activities, and its major component units and the extent of exposure to custodial credit risk.

University of Cincinnati.....	84,730	87,721	10,900	-	-

Custodial credit risk for investments exists when a government is unable to recover the value of investments or collateral securities that are in the possession of an outside party in the event of a failure of a counterparty to a transaction.

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department but not in the government's name.

The State's reporting entity has not established specific policies for managing custodial credit risk exposure for investments.

NOTE 4 DEPOSITS AND INVESTMENTS (Continued)

NOTE 4 DEPOSITS AND INVESTMENTS (Continued)

2. Credit Risk

The risk that an investment's issuer or counterparty will not satisfy its obligation is called credit risk. The exposure to this risk has been minimized through the laws and policies adopted by the State.

For investments that are included in the treasury's cash and investment pool and reported as "Cash Equity with Treasurer" and other investment securities managed by the Treasurer of State's Office, Chapter 135, Ohio Revised Code, requires such investments to carry certain credit ratings at the time of purchase as follows:

- Commercial paper must carry ratings in the two highest categories by two nationally recognized rating agencies;
- Debt interests (other than commercial paper) must carry ratings in one of the three highest categories by two nationally recognized rating agencies. This requirement is met when either the debt interest or the issuer of the debt interest carries this rating.

Investment policies of the Treasurer of State's Office further define required credit ratings as follows:

- Commercial paper must have a short term debt rating of at least "A1" or equivalent by all agencies that rate the issuer, with at least two agencies rating the issuer;
- Banker acceptances must carry a minimum of "AA" for long-term debt ("AAA" for foreign issuers) by a majority of the agencies rating the issuer. For the short-term debt, the rating must be "A1" or equivalent by all agencies that rate the issuer, with at least two agencies rating the issuer;
- Corporate notes must be rated at a minimum of "Aa" by Moody's Investors Service and a minimum of "AA" by Standard & Poor's for long-term debt;
- Foreign debt must be guaranteed as to principal and interest by the United States or be rated in one of the three highest categories by at least two rating agencies; and
- For Registered Investment Companies (Mutual Funds), no-load money market mutual funds must carry a rating of "AAm", "AAm-G", or better by Standard & Poor's or the equivalent rating of another agency.

Investment policies regarding credit risk that are in addition to Ohio Revised Code requirements and are specific to the following significant entities reported in the State's reporting entity are as follows:

Workers' Compensation Enterprise Fund

The Fund requires an average credit quality no lower than an "A" rating for fixed income securities.

State Highway Patrol Retirement

System Pension Trust Fund

When purchased, bond investments must be rated within the four highest classifications of at least two rating agencies.

STAR Ohio Investment Trust Fund

Investment policies governing the STAR Ohio external investment pool require that all securities must be rated the equivalent of "A-1" or higher, and at least 50 percent of the total average portfolio must be rated "A-1+" or better.

Retirement Systems Agency Fund

For the Ohio Public Employees Retirement System, non-investment grade securities are limited to 30 percent of the total Public Fixed Income portfolio assets. Limitations on the holdings of non-investment grade securities are included in the portfolio's guidelines.

NOTE 4 DEPOSITS AND INVESTMENTS (Continued)

For the Ohio Police and Fire Pension Fund,

- Securities in the core fixed income portfolio shall be rated “BBB-” or better by two standard rating agencies at the time of the purchase;
- Securities in the high yield fixed income portfolio are high yield bonds issued by U.S. corporations with a minimum rating of “CCC” or equivalent;
- Investment managers may purchase securities that are “Not Rated” as long as they deem these securities to be at least equivalent to the minimum ratings; and
- Commercial paper must be rated within the two highest classifications established by two standard rating agencies.

Ohio Water Development Authority Component Unit Fund

The Authority’s policy authorizes the acquisition of repurchase agreements from financial institutions with a Moody’s or Standard & Poor’s rating of “A” and the entering into investment agreements with financial institutions rated in the highest short-term categories or one of the top three long-term categories by Moody’s and/or Standard and Poor’s.

University of Cincinnati Component Unit Fund

The policy governing the university’s temporary investment pool permits investments in securities rated “A” or higher at the time of purchase. Endowment investment-grade bonds are limited to those in the first four grades of any rating system. Below-investment grade, high-yield bond investments and certain unrated investments having strategic value to the university are permitted.

The School Facilities Commission Component Unit Fund participates in the State Treasurer’s Cash and Investment Pool and does not hold investments separate from the pool. Risks associated with the School Facilities Commission’s share of the pool are included in the disclosures for the Primary Government.

All investments, as categorized by credit ratings in the following tables, meet the requirements of the State’s laws and policies, when applicable.

NOTE 4 DEPOSITS AND INVESTMENTS (Continued)

Descriptions of the investment credit ratings shown in the tables are as follows:

Rating	General Description of Credit Rating
AAA/Aaa	Extremely strong
AA/Aa	Very strong
A/A-1	Strong
BBB/Baa	Adequate
BB/Ba	Less vulnerable
B	More vulnerable
CCC/Caa	Currently vulnerable to nonpayment
CC/Ca	Currently highly vulnerable to nonpayment
C	Currently highly vulnerable to nonpayment due to certain conditions (e.g., filing of bankruptcy petition or similar action by issuer)
D	Currently highly vulnerable to nonpayment for failure to pay by due date

3. Concentration of Credit Risk

The potential for loss of value increases when investments are not diversified. The State has imposed limits on the types of authorized investments to prevent this type of loss.

For investments that are included in the treasury’s cash and investment pool, and reported as “Cash Equity with Treasurer” and other investment securities managed by the Treasurer of State’s Office, Chapter 135, Ohio Revised Code, requires the following:

- Investments in commercial paper may not exceed 25 percent of the State’s total average portfolio;
- Bankers acceptances cannot exceed 10 percent of the State’s total average portfolio;
- Debt interests cannot exceed 25 percent of the State’s total average portfolio;
- Debt interests in foreign nations may not exceed one percent of the State’s total average portfolio; and,
- Debt interests of a single issuer may not exceed one-half of one percent of the State’s total average portfolio.

NOTE 4 DEPOSITS AND INVESTMENTS (Continued)

Investment policies of the Treasurer of State further restrict concentrations of investments. Maximum concentrations are as follows:

Investment Type	Maximum % of Total Average Portfolio
U.S. Treasury	100
Federal Agency (fixed rate)	100
Federal Agency (callable)	55
Federal Agency (variable rate)	10
Repurchase Agreements	25
Bankers' Acceptances	10
Commercial Paper	25
Corporate Notes	5
Foreign Notes	1
Certificates of Deposit	20
Municipal Obligations	10
STAR Ohio	25
Mutual Funds	25

The investment policies of the Treasurer of State's Office also specify that commercial paper is limited to no more than five percent of the issuing corporation's total outstanding commercial paper, and investments in a single issuer are further limited to no more than two percent of the total average portfolio except for the U.S. government obligations, limited at 100 percent; repurchases agreement counterparties, limited at the lesser of five percent or \$250 million; bankers' acceptances, limited at 10 percent; corporate notes and foreign debt, limited at one-half of one percent; and mutual funds, limited at 10 percent.

For the U.S. Equity Portfolio of the Workers' Compensation Enterprise Fund, no single holding is to be more than five percent of the entire portfolio at market, or five percent of the outstanding equity securities of any one corporation.

For the Lottery Commission Enterprise Fund, no more than two percent of the total average portfolio may be invested in the securities of any single issuer with the following exceptions: U.S. government obligations, 100 percent maximum; repurchase agreements, limited at the lesser of five percent or \$250 million; and mutual funds, 10 percent maximum.

The State Highway Patrol Retirement System Pension Trust Fund's policy prohibits the investment of more than 10 percent of its fixed income portfolio in securities of any one issuer with the exception of U.S. government securities, or the investment of more than five percent of the Fund's total investments in any one issuer with the exception of U.S. government securities.

For the STAR Ohio Investment Trust Fund, investments in a single issuer are further limited to no more than two percent of the total average portfolio except for U.S. Treasury obligations, limited at 100 percent; U.S. Agency obligations, limited at 33 percent; repurchase agreement counterparties, limited at the lesser of 10 percent or \$500 million; and mutual funds, limited at 10 percent.

NOTE 4 DEPOSITS AND INVESTMENTS (Continued)

As of June 30, 2011, all investments meet the requirements of the State's law and policies, when applicable. However, investments in certain issuers are at least five percent of investment balances, as follows (dollars in thousands):

Issuer	Amount	Percentage of Investment Balance
<i>Governmental and Business-Type Activities:</i>		
Federal National Mortgage Association	\$2,164,849	7%
Federal Home Loan Bank	2,191,609	7%
Federal Home Loan Mortgage Corporation	1,816,601	6%
<i>STAR Ohio Investment Trust Fund:</i>		
Federal National Mortgage Association	812,319	19%
Federal Home Loan Bank	1,320,842	30%
Federal Home Loan Mortgage Corporation	689,553	16%
<i>School Facilities Commission Component Unit Fund:</i>		
Federal National Mortgage Association	26,362	19%
Federal Home Loan Bank	39,731	29%
Federal Home Loan Mortgage Corporation	24,221	17%
Federal Farm Credit Bank.....	7,324	5%
<i>Ohio Water Development Authority Component Unit Fund (12/31/10):</i>		
Federal National Mortgage Association	207,979	19%
Federal Home Loan Bank	792,534	8%
Federal Home Loan Mortgage Corporation	506,782	10%

4. Interest Rate Risk

Certain of the State's investments are exposed to interest rate risk. This risk exists when changes to interest rates will negatively impact the fair value of an investment. The State has adopted policies to mitigate this risk.

Investment policies governing the treasury's cash and investment pool, which is reported as "Cash Equity with Treasurer" and is managed by the Treasurer of State's Office, limit maturities of short term investments to no more than 18 months with a weighted average maturity not to exceed 90 days. For long-term investments, maturities are limited to five years or less, except for those that are matched to a specific obligation or debt of the State. A duration target of three years or less has been established for long-term investments.

NOTE 4 DEPOSITS AND INVESTMENTS (Continued)

Variable rate notes are permitted if they meet the following criteria:

- the note has an ultimate maturity of less than three years;
- the rate resets frequently to follow money market rates;
- the note is indexed to a money market rate that correlates (by at least 95 percent) with overall money market rate changes, even during wide swings in interest rates, e.g., federal funds, 3-month treasury bill, LIBOR; and
- any cap on the interest rate is at least 15 percent (1500 basis points) higher than the coupon at purchase.

The Lottery Commission Enterprise Fund's investments are required to have maturities of 30 years or less. In no case may the maturity of an investment exceed the expected date of disbursement of those funds.

For the State Highway Patrol Retirement System Pension Trust Fund, investment policies require that the Fund's fixed income portfolio has an average maturity of 10 years or less.

Investment policies governing the STAR Ohio Investment Trust Fund limit maturities of investments to a final stated maturity of 397 days or less. The weighted average maturity of each portfolio is limited to 60 days or less.

Investments purchased under the Cash Management Policy of the Ohio Public Employees Retirement System are limited to a weighted average maturity of 120 days. Fixed rate notes are required to have an average maturity of 1.3 years.

All investments of the Ohio Water Development Authority Component Unit Fund must mature within five years unless the investment is matched to a specific obligation or debt of the Authority.

The policy of the University of Cincinnati Component Unit Fund stipulates that the weighted average maturity in the Temporary Investment Pool shall be no longer than five years. The weighted average of the fixed income maturities in the university's endowment portfolio shall not exceed 20 years.

As of June 30, 2011, investments reported as "Cash Equity with Treasurer" have terms that make their fair values highly sensitive to the interest rate changes. The U.S. agency obligations investment type includes \$921 million of investments with call dates during fiscal years 2012 and 2013. These investments have maturities between fiscal years 2013 and 2017 and are reported in the table on the following page as maturing in one to five years.

Several investments reported as "Collateral on Lent Securities" have terms that make them highly sensitive to interest rate changes as of June 30, 2011. Variable rate notes of \$31.4 million have quarterly reset dates. U.S. agency and instrumentality obligations of \$25 million have quarterly reset dates.

The Lottery Commission Enterprise Fund has collateral on lent securities with reset dates. Variable rate notes and U.S. agency and instrumentality obligations with reset dates are reported as collateral on lent securities. Variable rate notes of \$7 million and U.S. agency and instrumentality obligations of \$12.5 million have quarterly reset dates.

Also during fiscal year 2011, the Treasurer of State acted as the custodian of the Retirement Systems Agency Fund's investments. These investments contain terms that make their fair values highly sensitive to interest rate changes. Specific information on the nature of the investments and their terms can be found in each respective retirement system's Comprehensive Annual Financial Report.

The following tables list the investment maturities of the investments for the primary government and its major discretely presented component units. All investments at June 30, 2011, meet the requirements of the State's laws and policies, when applicable. The School Facilities Commission Component Unit Fund participates in the State Treasurer's Cash and Investment Pool and does not hold investments separate from the pool. Risks associated with the School Facilities Commission's share of the pool are included in the disclosures for the Primary Government.

NOTE 4 DEPOSITS AND INVESTMENTS (Continued)

5. Foreign Currency Risk

Investments in stocks and bonds denominated in foreign currencies are affected by foreign currency risk which arises from changes in currency exchange rates. The State's laws and investment policies include provisions to limit the exposure to this type of risk.

According to Chapter 135, Ohio Revised Code, investments managed by the Treasurer of State's Office, and reported as "Cash Equity with Treasurer", are limited to the debt of nations diplomatically recognized by the United States and that are backed by the full faith and credit of that foreign nation.

Investment policies of the Treasurer of State's Office further limit the types of authorized investments. These requirements include maturity limitations of five years at the date of purchase and denomination of principal and interest in U.S. dollars. Other limitations are noted in the previous sections of this note that discuss credit risk and concentration of credit risk.

Investment policies regarding foreign currency risk have also been adopted for the following significant entities reported in the primary government and are specific to those entities:

Workers' Compensation Enterprise Fund

The Fund's investment policy requires that:

- equity securities of any one international company shall not exceed five percent of the total value of all the investments in international equity securities, and
- equity securities of any one international company shall not exceed five percent of the company's outstanding equity securities.

Retirement Systems Agency Fund

For the Ohio Public Employees Retirement System, non-U.S. dollar-based securities are limited to five percent of the total Global Bond portfolio. Additionally, no more than 25 percent of the Global Bond portfolio assets may be from non-U.S. issuers.

As of June, 30, 2011, investments denominated in the currency of foreign nations, as detailed in the tables appearing on the following pages for the primary government and the Ohio State University component unit, meet the requirements of the State's laws and policies, when applicable.

D. Securities Lending Transactions

The Treasurer of State participates in the securities lending programs for securities included in the “Cash Equity with Treasurer” and “Investments” accounts. Each lending program is administered by a custodial agent bank, whereby certain securities are transferred to an independent broker-dealer (borrower) in exchange for collateral.

At the time of the loan, the Treasurer of State requires its custodial agents to ensure that the State’s lent securities are collateralized at no less than 102 percent of fair value. At no point in time can the value of the collateral be less than 100 percent of the underlying securities.

Consequently, as of June 30, 2011, the State had no credit exposure since the amount the State owed to the borrowers at least equaled or exceeded the amount borrowers owed to the State.

The State invests cash collateral in short-term obligations, which have a weighted average maturity of 83 days or less while the weighted average maturity of securities loans is six days or less.

NOTE 4 DEPOSITS AND INVESTMENTS (Continued)

The State cannot sell securities received as collateral unless the borrower defaults. Consequently, these amounts are not reflected in the financial statements.

According to the lending contracts the Treasurer of State executes for the State's cash and investment pool and for the Ohio Lottery Commission Enterprise Fund, the securities lending agent is to indemnify the Treasurer of State for any losses resulting from either the default of a borrower or any violations of the security lending policy.

During fiscal year 2011, the State had not experienced any losses due to credit or market risk on securities lending activities.

In fiscal year 2011, the Treasurer of State lent U.S. government and agency obligations in exchange for cash collateral.

E. Investment Derivatives

As of June 30, 2011, the State reports the following investment derivatives in its financial statements (dollars in thousands):

Investment Derivatives					
As of June 30, 2011					
<i>(dollars in thousands)</i>					
	Notional	Fair Value at 6/30/2011		Increase (Decrease) in Fair Value	
		Amount	Reported as	Amount	Reported as
Governmental Activities:					
Investment Derivatives:					
Pay-fixed interest rate sw aps	\$149,030	(\$16,412)	Other Noncurrent Liability	(\$3,398)	Operating Restricted Investment Loss - Primary, Secondary and Other Education Function
Fiduciary Funds—Agency:					
Investment Derivatives:					
Call options	4,200	(12)	Investments	22	Refund and Other Liabilities
Credit default sw aps	31,326	-	Investments	2,004	Refund and Other Liabilities
Credit linked notes	14,582	14,582	Investments	6,206	Refund and Other Liabilities
Foreign currency contracts	164,444	(3,170)	Investments	(370,985)	Refund and Other Liabilities
Forward contracts	9,408,535	(11,649)	Investments	52,236	Refund and Other Liabilities
Futures contracts	347,330	(1,554)	Investments	(5,653)	Refund and Other Liabilities

Interest rate sw ap	4,383	661	Investments	167	Refund and Other Liabilities
S&P 500 Exchange Traded Fund	6,714	6,714	Investments	6,714	Refund and Other Liabilities
Total return sw aps	660,772	10,794	Investments	10,794	Refund and Other Liabilities
Warrants	566	566	Investments	566	Refund and Other Liabilities
Major Component Units:					
Investment Derivatives:					
<i>Ohio State University:</i>					
Pay-fixed interest rate sw aps	15,927	(1,846)	Other Noncurrent Liability	66	Other Revenues
<i>University of Cincinnati:</i>					
Pay-fixed interest rate sw ap	24,075	(2,062)	Other Noncurrent Liability	709	Operating Restricted Investment Gain

For governmental activities, the pay-fixed swaps included in the table above do not meet the criteria for hedging derivatives as of June 30, 2011, and are reported as investment derivatives. The decreases in the fair values for fiscal year 2011 of \$3.4 million are reported as operating restricted investment losses for the primary, secondary and other education function in the Statement of Activities.

NOTE 4 DEPOSITS AND INVESTMENTS (Continued)

The credit quality ratings of JPMorgan Chase, the counterparty, are Aa1/AA- as of June 30, 2011. The State was not exposed to credit risk because these swaps had negative fair values at June 30, 2011. However, should interest rates change and the fair values of the swaps becomes positive, the State would be exposed to credit risk in the amount of the derivative's positive fair value.

Each swap counterparty is required to post collateral to a third party when their respective credit rating, as determined by specified nationally recognized credit rating agencies, falls below the trigger level defined in the swap agreement. This arrangement protects the State by mitigating the credit risk, and therefore termination risk, inherent in the swap. Collateral on all swaps must be in the form of cash or U.S. government securities held by a third-party custodian. Net payments are made on the same date, as specified in the agreements.

These swaps, maturing March 15, 2025, are associated with Common Schools Bonds, Series 2005A and Series 2005B. The underlying index is a variable rate based on 6 percent of the 1 month LIBOR rate plus 20 basis points. The combination of the variable-rate bonds and a floating-to-fixed swap creates a low-cost, long-term synthetic fixed-rate debt that protects the State from rising interest rates.

The Ohio Public Employees Retirement System, Ohio Police and Fire Pension Fund, School Employees Retirement System of Ohio, and State Teachers Retirement System of Ohio have entered into the derivatives reported in the Agency Fund. All derivatives of these retirement systems are categorized as investment derivatives. The fair values and associated risks of the investment derivatives for the Agency Fund are included in the balances and risks disclosed in the previous sections of this note disclosure.

For the major component units, the pay-fixed swaps for the Ohio State University and the University of Cincinnati component units in the table above do not meet the criteria for hedging derivatives. The increase in fair value for fiscal year 2011 of \$66 thousand for the Ohio State University is reported as general other revenue in the Statement of Activities. The increase in fair value of \$709 thousand for the University of Cincinnati is reported as an operating investment gain in the Statement of Activities.

The Ohio State University has two pay-fixed swaps reported as investment derivatives. These transactions are designed to manage the interest costs and risks associated with the variable interest rate debt. The first swap, maturing September 1, 2018, has been used to offset the variable interest rate on \$17.4 million of the 2010 bond financing for an ambulatory facility. The underlying index is a variable rate based on the 30-day BMA rate at the beginning of each month. The other swap, maturing February 28, 2012, fixes the interest rate on a \$2.2 million term loan to fund a 40 percent interest in the Fresenius Partnership. The underlying index is a variable rate based on the 30-day LIBOR rate in effect at the beginning of the month.

The University of Cincinnati's pay-fixed swap is used to protect the University against the potential of rising interest rates within the variable rate market on the 2011B BANS of \$24.1 million. The swap matures on June 1, 2030. It has an underlying index of 67 percent LIBOR. The University was not exposed to credit risk because the swap had a negative fair value at June 30, 2011. There are no counterparty collateral posting requirements on the swap.

NOTE 5 RECEIVABLES

A. Taxes Receivable – Primary Government

Current taxes receivable are expected to be collected in the next fiscal year while noncurrent taxes receivable are not expected to be collected until more than one year from the balance sheet date. As of June 30, 2011, approximately \$186.4 million of the net taxes receivable balance is also reported as deferred revenue on the governmental funds' balance sheet, all of which is reported in the General Fund.

Refund liabilities for income taxes, totaling approximately \$655.7 million are reported as "Refund and Other Liabilities" for governmental activities on the Statement of Net Assets and in the General Fund on the governmental funds' Balance Sheet.

The following table summarizes taxes receivable for the primary government (dollars in thousands):

	Governmental Activities		
	General	Nonmajor Governmental Funds	Total Primary Government
Current-Due Within One Year:			
Income Taxes	\$343,844	\$ -	\$343,844
Sales Taxes	386,550	-	386,550
Motor Vehicle Fuel Taxes	71,512	65,907	137,419
Commercial Activity Taxes	381,144	-	381,144

As of June 30, 2011, the School Facilities Commission Component Unit Fund reported an intergovernmental payable balance totaling approximately \$748 million for long-term funding contracts the Commission has with local school districts. In the government-wide Statement of Net Assets, the intergovernmental payable balance for the Commission is included with "Other Noncurrent Liabilities." The contracts commit the State to cover the costs of construction of facilities of the school districts once the districts have met certain eligibility requirements.

NOTE 6 PAYABLES (Continued)

C. Refund and Other Liabilities

Refund and other liabilities for the primary government and its discretely presented major component units reporting significant balances, as of June 30, 2011, consist of the balances, as follows (dollars in thousands):

Major Governmental Funds:				
General	\$507,441	\$10,675	\$518,116	\$1,496,764
Job, Family, Other Human Services	13,798	-	13,798	13,798
Nonmajor Governmental Funds	186,911	2	186,913	186,913
Total Governmental Activities	<u>708,150</u>	<u>10,677</u>	<u>718,827</u>	<u>1,697,475</u>
Business-Type Activities:				
Major Proprietary Funds:				
Lottery Commission	2,891	-	2,891	2,891
Nonmajor Proprietary Funds	10,919	-	10,919	14,174
Total Business-Type Activities	<u>13,810</u>	<u>-</u>	<u>13,810</u>	<u>17,065</u>
Total Primary Government	<u>\$721,960</u>	<u>\$10,677</u>	<u>\$732,637</u>	<u>\$1,714,540</u>

Interfund balances result from the time lag between dates that 1.) interfund goods and services are provided or reimbursable expenditures/expenses occur, 2.) transactions are recorded in the accounting system, and 3.) payments between funds are made.

The State's primary government is permitted to pay its workers' compensation liability on a terminal-funding (pay-as-you-go) basis. As a result, the Workers' Compensation Enterprise Fund recognized \$722 million as an interfund receivable for the unbilled premium due for the primary government's share of the Bureau's actuarially determined liability for compensation. In the Statement of Net Assets, the State includes the liability totaling \$715.6 million in the internal balance reported for governmental activities.

NOTE 7 INTERFUND BALANCES AND TRANSFERS AND SIGNIFICANT TRANSACTIONS WITH COMPONENT UNITS (Continued)

B. Interfund Transfers

Interfund transfers, for the fiscal year ended of June 30, 2011, consist of the following (dollars in thousands):

Transferred from	Transferred to			Total
	Governmental Activities			
	Major Governmental Funds			
	General	Job, Family & Other Human Services	Nonmajor Govern-mental Funds	
Major Governmental Funds:				
General	\$ -	\$ 16,773	\$ 1,518,627	\$1,535,400
Job, Family and Other Human Services	1,923	-	9	1,932
Buckeye Tobacco Settlement Financing Authority Revenue Bonds.....	13,836	-	273	14,109
Nonmajor Governmental Funds	297,714	26	196,471	494,211
Total Governmental Activities	313,473	16,799	1,715,380	2,045,652

Total Business-Type Activities	-	-	-	984,444
Total Primary Government	\$8,000	\$30,893	\$38,893	\$3,068,989

Transfers are used to 1.) move revenues from the fund that statute or budget requires to collect them, to the fund that statute or budget requires to expend them, 2.) move receipts restricted to debt service from the funds collecting the receipts, to the debt service fund as the debt service payments become due, and 3.) utilize unrestricted revenues collected in one fund to finance various programs accounted for in other funds in accordance with budget authorizations.

NOTE 7 INTERFUND BALANCES AND TRANSFERS AND SIGNIFICANT TRANSACTIONS WITH COMPONENT UNITS (Continued)

C. Component Units

For fiscal year 2011, the component units reported \$1.96 billion in state assistance revenue from the primary government in the Statement of Activities.

Included in "Primary, Secondary, and Other Education" expenses reported for the governmental activities, is the funding that the primary government provided to the School Facilities Commission for capital construction at local school districts and the eTech Ohio Commission for the acquisition of computers to benefit local schools.

Additionally, the primary government provided financial support to the colleges and universities in the form of state appropriations for instructional and non-instructional purposes and capital appropriations for construction. This assistance is included in "Higher Education Support" expenses reported for governmental activities.

The primary government also transferred bond proceeds to the School Facilities Commission to pay the State's share of the cost of rebuilding elementary and secondary school facilities across the State. This assistance is included as a receivable of the Buckeye Tobacco Settlement Financing Authority for \$3.83 billion and is being amortized over the projected payment period of the future tobacco settlement receipts.

Details of balances and activity reported in the government-wide financial statements between the primary government and its discretely presented component units are summarized below.

For fiscal year 2011, Ohio State University and the University of Cincinnati reported approximately \$239.4 million and \$108.8 million in depreciation expense, respectively.

NOTE 9 PENSION PLANS AND OTHER POSTEMPLOYMENT BENEFITS

All part-time and full-time employees and elected officials of the State, including its component units, are eligible to be covered by one of the following retirement plans:

- Ohio Public Employees Retirement System
- State Teachers Retirement System of Ohio
- State Highway Patrol Retirement System
- Alternative Retirement Plan

A. Ohio Public Employees Retirement System (OPERS)

Pension Benefits

OPERS is a cost-sharing, multiple-employer public employee retirement system that administers three separate pension plans – a defined benefit plan, a defined contribution plan, and a combined plan with features of both the defined benefit plan and the defined contribution plan.

As established under Chapter 145, Ohio Revised Code, OPERS provides retirement and disability benefits, annual cost-of-living adjustments, and survivor and death benefits to plan members and beneficiaries enrolled in the defined benefit and combined plans.

Most employees who are members of OPERS and who have fewer than five total years of service credit as of December 31, 2002, and new employees hired on or after January 1, 2003, are eligible to select one of the OPERS retirement plans, as listed above, in which they wish to participate. Members not eligible to select a plan include law enforcement officers, (who must participate in the defined benefit plan), college and university employees who choose to participate in one of the university's alternative retirement plans (see NOTE 9D), and re-employed OPERS retirees. Participants may change their selection once prior to attaining five years of service credit, once after attaining five years of service credit but prior to attaining ten years of service credit, and once after attaining ten years of service credit.

Regular employees who participate in the defined benefit plan or the combined plan may retire after 30 years of credited service regardless of age, or at or after age 55 with 25 years of credited service, or at or after age 60 with five years or 60 contributing months of credited service. Regular employees retiring before age 65 with less than 30 years of service credit receive a percentage reduction in benefit amounts. Law enforcement employees may retire at age 48 with 25 or more years of credited service.

The retirement allowance for the defined benefit plan is calculated on the basis of age, years of credited service, and the final average salary, which is the average of the member's three highest years of earnable salary. The annual allowance for regular employees is determined by multiplying the final average salary by 2.2 percent for each year of Ohio contributing service up to 30 years and by 2.5 percent for all other years in excess of 30 years of credited service. The annual allowance for law enforcement employees is determined by multiplying the final average salary by 2.5 percent for the first 25 years of Ohio contributing service, and by 2.1 percent for each year of service over 25 years. Retirement benefits increase three percent annually of the original base amount regardless of changes in the Consumer Price Index.

The retirement allowance for the defined benefit portion of the combined plan is calculated on the basis of age, years of credited service, and the final average salary, which is the average of the member's three highest years of earnable salary. The annual allowance for regular employees is determined by multiplying the final average salary by one percent for each year of Ohio contributing service up to 30 years and by 1.25 percent for all other years in excess of 30 years of credited service. Retirement benefits for the defined benefit portion of the plan increase three percent annually of the original base amount regardless of changes in the Consumer Price Index. Additionally, retirees receive the proceeds of their individual retirement plans in a manner similar to retirees in the defined contribution plan, as discussed below.

Regular employees who participate in the defined contribution plan may retire after they reach the age of 55. The retirement allowance for the defined contribution plan is based entirely on the total member and vested employer contributions to the plan, plus or minus any investment gains or losses. Employer contributions vest at a rate of 20 percent per year over a five-year vesting period. Retirees may choose from various payment options including monthly annuities, partial lump-sum payments, payments for a guaranteed period, payments for a specific monthly amount, or various combinations of these options. Participants direct the investment of their accounts by selecting from sixteen professionally managed OPERS investment options.

NOTE 9 PENSION PLANS AND OTHER POSTEMPLOYMENT BENEFITS (Continued)

Retirees covered under any one of the three OPERS plan options may also choose to take part of their retirement benefit in a Partial Lump-Sum Option Plan (PLOP). Under this option, the amount of the monthly pension benefit paid to the retiree is actuarially reduced to offset the amount received initially under the PLOP. The amount payable under the PLOP cannot be less than six times or more than 36 times the monthly amount that would be payable to the member under the plan of payment selected, and cannot result in a monthly allowance that is less than 50 percent of that monthly amount.

Employer and employee required contributions to OPERS are established by the Retirement Board and are within the limits authorized by the Ohio Revised Code. The contribution rates are based on percentages of covered employees' gross salaries, which are calculated annually by the retirement system's actuaries. The Ohio Revised Code currently limits the employer contribution to a rate not to exceed 14 percent of covered payroll for regular employees and 18.1 percent of covered payroll for law enforcement employees. Contribution rates for fiscal year 2011, which are the same for the defined benefit, defined contribution, and combined plans, were as follows:

	Contribution Rates	
	Employee Share	Employer Share
<u>Regular Employees:</u>		
July 1, 2010 through June 30, 2011	10.00%	14.00%
<u>Law Enforcement Employees:</u>		
July 1, 2010 through December 31, 2010	11.10%	17.87%
January 1, 2011 through June 30, 2011	11.60%	18.10%

In the combined plan, the employer's share finances the defined benefit portion of the plan, while the employee's share finances the defined contribution portion of the plan. In the defined contribution plan, both the employee and employer share of the costs are used to finance the plan.

Employer contributions required and made for the last three years for the defined benefit plan and the defined benefit part of the combined plan were as follows (dollars in thousands):

	2011	2010	2009
<u>Primary Government:</u>			
Regular Employees	\$267,671	\$241,734	\$ 216,623
Law Enforcement			
Employees.....	4,235	3,889	3,708

Employee Contributions .	921	812	775

OPERS issues a stand-alone financial report, copies of which may be obtained by making a written request to: Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (800) 222-7377.

Other Postemployment Benefits (OPEB)

OPERS maintains a cost-sharing multiple employer defined benefit post-employment healthcare plan, which includes a medical plan, prescription drug program and Medicare Part B premium reimbursement, to qualifying members of both the defined benefit and combined plans. Members of the defined contribution plan do not qualify for ancillary benefits, including post-employment healthcare coverage.

In order to qualify for post-employment healthcare coverage, age-and-service retirees under the defined benefit and combined plans must have ten or more years of qualifying Ohio service credit. Healthcare coverage for disability benefit recipients and qualified survivor benefit recipients is available. The healthcare coverage provided by OPERS meets the definition of an OPEB as described in GASB Statement 45.

The Ohio Revised Code permits, but does not mandate, OPERS to provide OPEB benefits to its members and beneficiaries. Authority to establish and amend benefits is provided in Chapter 145 of the Ohio Revised Code.

The Ohio Revised Code provides the statutory authority requiring public employers to fund post retirement healthcare through their contributions to OPERS. A portion of each employer's contribution to OPERS is set aside for the funding of post retirement healthcare benefits.

Employer contribution rates are expressed as a percentage of covered payroll of active members. For fiscal year 2011, state employers contributed at a rate of 14 percent of covered payroll and law enforcement employers contributed at 17.87 percent for the period July 1, 2010, through December 31, 2010, and at 18.1 percent for the period January 1, 2011, through June 30, 2011. The Ohio Revised Code currently limits the employer contribution to a rate not to exceed 14 percent of covered payroll for regular employees and 18.1 percent of covered payroll for law enforcement employees. Active members do not make contributions to the OPEB plan.

OPERS' Post Employment Health Care plan was established under, and is administrated in accordance with, Internal Revenue Code 401(h). Each year, the OPERS Retirement Board determines the portion of the employer contribution rate that will be set aside for funding of post employment healthcare benefits. The contribution rates for regular and law enforcement employees were as follows:

	Employer Share	
	Defined Benefit	Combined Plan
	Plan	
July 1, 2010 through December 31, 2010	5.00%	4.23%
January 1, 2011 through June 30, 2011	4.00%	6.05%

NOTE 9 PENSION PLANS AND OTHER POSTEMPLOYMENT BENEFITS (Continued)

The OPERS Retirement Board is also authorized to establish rules for the payment of a portion of the healthcare benefits provided by the retiree or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

Employer contributions required and made for the last three fiscal years for the defined benefit plan and the defined benefit portion of the combined plan were as follows (dollars in thousands):

	2011	2010	2009
<u>Primary Government:</u>			
Regular Employees	\$128,257	\$148,549	\$196,410
Law Enforcement			
Employees.....	1,426	1,694	2,288

Major Component Units:

School Facilities			
Commission	\$178	\$212	\$271
Ohio Water			
Development Authority.....	58	65	72
Ohio State University.....	45,894	52,407	60,263
University of Cincinnati.....	6,977	8,486	10,709

Members of the defined contribution plan may access a Retiree Medical Account upon retirement. During fiscal year 2011, employers paid 4.5 percent of their share into members' accounts. An employee's interest in the medical account for qualifying healthcare expenses vests on the basis of length of service, with 100 percent vesting attained after five years of credited service. Employers make no further contributions to a member's medical account after retirement, nor do employers have any further obligation to provide postemployment healthcare benefits.

Employer contributions required and made for the last three fiscal years for the defined contribution plan were as follows (dollars in thousands):

	2011	2010	2009
Primary Government.....	<u>\$3,112</u>	<u>\$2,621</u>	<u>\$2,454</u>

Major Component Units:

Ohio State University.....	1,516	1,251	1,103
University of Cincinnati.....	216	192	172

The number of active contributing participants for the primary government was 55,043, as of June 30, 2011.

The Health Care Preservation Plan adopted by the OPERS Retirement Board on September 9, 2004, became effective on January 1, 2007. Member and employer contribution rates increased as of January 1, of each year from 2006 to 2008. Rates for law enforcement employees increased over a six year period beginning on January 1, 2006, with a final rate increase on January 1, 2011. These rate increases allowed additional funds to be allocated to the healthcare plan.

Early Retirement Incentives (ERI)

State agencies, or departments within agencies, may offer voluntary ERI under Section 145.297, Ohio Revised Code. Through the ERI Program, the State can offer to purchase up to a maximum of five years worth of service credit from OPERS on behalf of employees who would then meet the age and service requirements to qualify for retirement. The ERI plan must remain in effect for at least one year and the employees must be given at least thirty days' notice before terminating the plan.

NOTE 9 PENSION PLANS AND OTHER POSTEMPLOYMENT BENEFITS (Continued)

State agencies are also required under Section 145.298, Ohio Revised Code, to offer a generally similar ERI when terminating a number of employees that equals or exceeds the lesser of 350 employees or 40 percent of the agency's workforce, as a result of a closure of the agency or a lay-off within a six-month period. Under these circumstances, qualifying employees must decide whether to accept the offer in the time between the announcement of the layoffs and the effective date. The amount of service credit offered cannot exceed five years.

The ERI agreements establish an obligation to pay specific amounts on fixed dates. State agencies that implement an ERI must pay their obligation to OPERS within a maximum of two years after the agreement is finalized, so the State does not discount the amount of the liability incurred under the agreement.

As of June 30, 2011, the State had no significant liability balances relative to existing ERI agreements with state employees covered by OPERS. During fiscal year 2011, the State incurred expenditures/expenses totaling \$5.3 million for 154 employees who entered into ERI agreements with the State.

B. State Teachers Retirement System of Ohio (STRS)

Pension Benefits

STRS is a cost-sharing, multiple-employer public employee retirement system that administers three separate pension plans – a defined benefit plan, a defined contribution plan, and a combined plan with features of both the defined benefit plan and the defined contribution plan. STRS benefits are established under Chapter 3307, Ohio Revised Code.

STRS also provides death, survivors', disability, healthcare, and supplemental benefits to members in the defined benefit and combined plans.

Participants in the defined benefit plan may retire after 30 years of credited service regardless of age, or at or after age 55 with 25 years of credited service, or at or after age 60 with five years of credited service. Members retiring before age 65 with less than 30 years of service credit receive a percentage reduction in benefit amounts. Retirees are entitled to a maximum annual retirement benefit, payable in monthly installments for life, equal to the greater of the "formula benefit" calculation or the "money-purchase benefit" calculation.

Under the "formula benefit" calculation, the retirement allowance is based on years of credited service and the final average salary, which is the average of the member's three highest salary years. The annual allowance is determined by multiplying the final average salary by 2.2 percent for the first 30 years of credited service. Each year over 30 years is incrementally increased by .1 percent, starting at 2.5 percent for the 31st year of contributing service up to a maximum allowance of 100 percent of final average salary. Upon reaching 35 years of Ohio service, the first 31 years of Ohio contributing service are multiplied by 2.5 percent, and each year over 31 years is incrementally increased by .1 percent starting at 2.6 percent for the 32nd year.

Under the "money-purchase benefit" calculation, a member's lifetime contributions, plus interest at specified rates, are matched by an equal amount from contributed employer funds. This total is then divided by an actuarially determined annuity factor to determine the maximum annual retirement allowance. Benefits are increased annually by three percent of the original base amount.

Retirees can also choose a "partial lump-sum" option plan. Under this option, retirees may take a lump-sum payment that equals from six to 36 times their monthly service retirement benefit. Subsequent monthly benefits are reduced proportionally.

Employees hired after July 1, 2001, and those with less than five years of service credit at that date, may choose to participate in the combined plan or the defined contribution plan, in lieu of participation in the defined benefit plan.

Participants in the defined contribution plan are eligible to retire at age 50. Employee and employer contributions are placed into individual member accounts, and members direct the investment of their accounts by selecting from various professionally managed investment options. Retirees may choose to receive either a lump-sum distribution or a monthly annuity for life. Employer contributions become vested after one year of service, while employee contributions vest immediately.

NOTE 9 PENSION PLANS AND OTHER POSTEMPLOYMENT BENEFITS (Continued)

Participants in the combined plan may start to collect the defined benefit portion of the plan at age 60. The annual allowance is determined by multiplying the final average salary by one percent for each year of Ohio contributing service credit. Participants in the combined plan may also participate in the partial lump-sum option plan, as described previously, for the portion of their retirement benefit that is provided through the defined benefit portion of the plan. The defined contribution portion of the plan may be taken as a lump sum or as a lifetime monthly annuity at age 50.

A retiree of STRS or any other Ohio public retirement system is eligible for re-employment as a teacher after two months from the date of retirement. Members and the employer make contributions during the period of re-employment. Upon termination or the retiree reaches the age of 65, whichever comes later, the retiree is eligible for a money-purchase benefit or a lump-sum payment in addition to the original retirement allowance. Alternatively, the retiree may receive a refund of member contributions with interest before age 65, once employment is terminated.

Employer and employee required contributions to STRS are established by the Board and limited under the Ohio Revised Code to employer and employee rates of 14 percent and ten percent, respectively, and are based on percentages of covered employees' gross salaries, which are calculated annually by the retirement system's actuary.

Contribution rates for fiscal year 2011 were 14 percent for employers and ten percent for employees for the defined benefit, defined contribution, and combined plans. For the defined benefit and combined plans, 13 percent of the employer rate is used to fund pension obligations. For the defined contribution plan, 10.5 percent of the employer's share is deposited into individual employee accounts, while 3.5 percent is paid to the defined benefit plan.

Employer contributions required and made for the last three fiscal years for the defined benefit and the defined benefit portion of the combined plans were as follows (dollars in thousands):

	2011	2010	2009
Primary Government.....	\$6,571	\$8,101	\$7,498
<i>Major Component Units:</i>			
Ohio State University.....	41,446	39,969	38,355
University of Cincinnati.....	15,599	15,274	14,609

Employer and employee contributions required and made for the last three fiscal years for the defined contribution plan and the defined contribution part of the combined plan follow (dollars in thousands):

	2011	2010	2009
<i>Primary Government:</i>			
Employer Contributions	\$102	\$106	\$98
Employee Contributions	132	177	163
<i>Major Component Units:</i>			
Ohio State University:			
Employer Contributions	3,679	3,290	3,155
Employee Contributions	4,168	3,785	3,633
University of Cincinnati:			
Employer Contributions	993	926	885
Employee Contributions	1,222	1,158	1,107

STRS issues a stand-alone financial report, copies of which may be obtained by making a written request to: State Teachers Retirement System of Ohio, Attention: Chief Financial Officer, 275 East Broad Street, Columbus, Ohio 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

NOTE 9 PENSION PLANS AND OTHER POSTEMPLOYMENT BENEFITS (Continued)

Other Postemployment Benefits (OPEB)

Ohio law authorizes STRS to offer a cost-sharing, multiple-employer healthcare plan. STRS provides access to healthcare to eligible retirees who participate in the defined benefit plan or combined plan. Benefits include hospitalization, physician’s fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. Retirees enrolled in the defined contribution plan receive no post-employment healthcare benefits.

Chapter 3307, Ohio Revised Code, gives the STRS board discretionary authority over how much, if any, of associated healthcare costs are absorbed by the healthcare plan. All benefit recipients, for the most recent year, pay a portion of the healthcare costs in the form of a monthly premium.

Under Ohio law, funding for the post-employment healthcare may be deducted from employer contributions. Of the 14 percent employer contribution rate, one percent of the covered payroll was allocated to post-employment healthcare. The 14 percent employer contribution rate is the maximum rate established under Ohio law.

The employer contribution is financed on a pay-as-you-go basis. As of June 30, 2010 (the most recent information available), net assets available for future healthcare benefits were \$2.8 billion. Employer contributions required and made for the last three fiscal years for the defined benefit and the defined benefit portion of the combined plans were as follows (dollars in thousands):

	2011	2010	2009
Primary Government.....	\$505	\$623	\$577
<u>Major Component Units:</u>			
Ohio State University.....	3,188	3,075	2,950
University of Cincinnati.....	1,200	1,175	1,124

The number of eligible benefit recipients for STRS as a whole was 150,480, as of June 30, 2010 (the most recent information available); a breakout of the number of eligible recipients for the primary government and its component units, as of June 30, 2011, is unavailable.

C. State Highway Patrol Retirement System (SHPRS)

SHPRS, a component unit of the State, was established in 1944 by the General Assembly as a single-employer, defined benefit pension plan and is administered by the State.

The plan issues a stand-alone financial report that includes financial statements and required supplementary information, and the State reports the plan as a pension trust fund. Copies of the financial report may be obtained by writing to the Ohio State Highway Patrol Retirement System, 6161 Busch Blvd., Suite 119, Columbus, Ohio 43229-2553, or by calling (614) 431-0781 or (800) 860-2268.

SHPRS is authorized under Chapter 5505, Ohio Revised Code, to provide retirement and disability benefits to retired members and survivor benefits to qualified dependents of deceased members of the Ohio State Highway Patrol. In addition to providing pension benefits, SHPRS is authorized by Chapter 5505, Ohio Revised Code, to provide a post-employment healthcare plan, which is considered to be an other post-employment benefit.

Chapter 5505, Ohio Revised Code, requires contributions by active members and the Ohio State Highway Patrol. The employer and employee contribution rates are established by the General Assembly, and any change in the rates requires legislative action. By law, the employer rate may not exceed three times the employee contribution rate, nor be less than nine percent of the total salaries of contributing members.

SHPRS’ financial statements are prepared using the accrual basis of accounting, under which expenses are recorded when the liability is incurred and revenues are recorded when they are earned and become measureable.

All investments are reported at fair value. Fair value is “the amount that the plan can reasonably expect to receive for an investment in a current sale, between a willing buyer and a willing seller – that is, other than in a forced or liquidation sale.”

NOTE 9 PENSION PLANS AND OTHER POSTEMPLOYMENT BENEFITS (Continued)

Securities traded on a national exchange are valued at the last reported sales price at the current exchange rate. The fair value of real estate and private equity investments are based on independent appraisals. For actuarial purposes, assets are valued with a method that amortizes the difference between actual and assumed return over a closed, four-year period.

Employees are eligible for pension and healthcare benefits upon reaching both an age and service requirement. Employees with at least 15 years of service credit, but less than 20 years of service credit, may retire at age 55. Employees with at least 20 years of service credit, but less than 25 years of service credit may retire at age 52 or age 48 with reduced benefits. Employees with more than 25 years of service may retire at age 48.

The pension benefit is a percentage of the member's final average salary, which is the average of the member's three highest salary years. For members with at least 15 years of service credit, but less than 20 years of service credit, the percentage is determined by multiplying 1.5 percent times the number of years of service credit. For members with 20 or more years of service credit, the percentage is determined by multiplying 2.5 percent for the first 20 years of service, plus 2.25 percent for the next five years of service, plus two percent for each year in excess of 25 years of service. A member's pension may not exceed 79.25 percent of the final average salary.

Pension Benefits

The employer and employee contribution rates, as of December 31, 2010, were 26.5 percent and ten percent, respectively.

During calendar year 2010, all of the employees' contributions funded pension benefits while 23 percent of the employer's contributions funded pension benefits. The difference in the total employer rates charged and the employer rates applicable to the funding of pension benefits is applied to the funding of postemployment healthcare benefits.

The State's annual pension cost and net pension obligation to SHPRS for the current year were as follows (dollars in thousands):

Annual Required Contribution (ARC)	\$22,872
Interest on Net Pension Obligation	206
Adjustment to ARC	(146)
Annual Pension Cost	<u>22,932</u>
Contributions Made	<u>(21,212)</u>
Increase (Decrease) in Net Pension Obligation	1,720
Net Pension Obligation, Beginning of Year	<u>2,579</u>
Net Pension Obligation, End of Year	<u><u>\$4,299</u></u>

The State's annual pension cost, percentage of annual pension cost contributed, and net pension obligation for the last three calendar years, were as follows (dollars in thousands):

For the Year Ended December 31,	Annual Pension Cost	Percentage of Employer's Annual Pension Cost Contributed	Net Pension Obligation
2010	\$22,932	92.5%	\$4,298
2009	20,048	102.0%	2,578
2008	21,268	95.5%	2,985

NOTE 9 PENSION PLANS AND OTHER POSTEMPLOYMENT BENEFITS (Continued)

As of December 31, 2010, the most recent actuarial valuation date, the plan was 62 percent funded. The actuarial accrued liability was \$1.02 billion, and the actuarial value of assets was \$631 million, resulting in an unfunded actuarial accrued liability (UAAL) of \$386.8 million. The covered payroll (annual payroll of active employees covered by the plan) was \$94.8 million, and the ratio of the UAAL to the covered payroll was 408.2 percent.

The Schedule of Funding Progress for Pension Benefits, displayed in the following table, presents multi-year trend information about whether the actuarial value of the plan assets is increasing or decreasing over time, relative to the actuarial accrued liabilities for benefits.

SHPRS Schedule of Funding Progress Last Three Calendar Years-Pension						
<i>(dollars in thousands)</i>						
(A)	(B)	(C)	(D)	(E)	(F)	(G)
Valuation Year	Actuarial Accrued Liability (AAL)	Valuation Assets	Unfunded Actuarial Accrued Liability (UAAL) (B)-(C)	Ratio of Assets to AAL (C)/(B)	Active Member Payroll	UAAL as Percentage of Active Member Payroll (D)/(F)
2010	\$1,017,770	\$630,971	\$386,799	62.0%	\$94,768	408.2%
2009	940,084	620,357	319,727	66.0%	94,825	337.2%
2008	904,522	603,266	301,256	66.7%	94,302	319.5%

SHPRS used the entry-age, normal actuarial cost method for the Schedule of Funding Progress for the actuarial valuation, dated December 31, 2010. Assumptions used in preparing the Schedule of Funding Progress and in determining the annual required contribution include: an eight-percent rate of return on investments; projected salary increase of four percent attributable to inflation and additional projected salary increases ranging from 0.3 percent to ten percent attributable to seniority and merit; price inflation was assumed to be at least four percent a year; and postretirement increases each year equal to three percent after the retiree reaches age 53. Maximum contribution rates were not considered in the projection of actuarially accrued liabilities for pension benefits. The actuarial methods and assumptions do not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing in the future.

The unfunded actuarial accrued liability is being amortized using the level-percentage of projected payroll method over an open period. Based upon significant declines in investment values during 2008, the SHPRS actuary was unable to amortize unfunded actuarially accrued pension liabilities over a finite period. Without plan design changes, the system is unlikely to be able to pay off future liabilities.

Other Post Employment Benefits (OPEB)

The healthcare coverage provided by SHPRS is considered to be an OPEB as described in GASB Statement 45. Healthcare benefits are not guaranteed and are subject to change at any time. The OPEB valuation is based on the substantive plan as it is currently presented to plan members, including a historical pattern of cost-sharing between the plan and benefit recipients.

During calendar year 2010, 3.5 percent of the employer’s contributions funded healthcare benefits. Active members do not make contributions to the OPEB plan. The cost of retiree healthcare benefits is recognized as claims incurred and premiums paid. The number of active contributing plan participants, as of December 31, 2010, was 1,537.

The State’s annual OPEB cost is calculated based on the annual required contribution (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed thirty years. The components of the State’s annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the State’s net OPEB obligation to SHPRS were as follows (dollars in thousands):

NOTE 9 PENSION PLANS AND OTHER POSTEMPLOYMENT BENEFITS (Continued)

Annual Required Contribution (ARC)	\$16,365
Interest on Net OPEB Obligation	2,745
Adjustment to ARC	(3,718)
Annual OPEB Cost	<u>15,392</u>
Contributions Made	(3,700)
Increase (Decrease) in Net OPEB Obligation	11,692
Net OPEB Obligation, Beginning of Year	54,901
Net OPEB Obligation, End of Year	<u>\$66,593</u>

The State's annual OPEB cost, percentage of annual OPEB cost contributed, and net OPEB obligation for the last three calendar years, were as follows (dollars in thousands):

For the Year Ended December 31,	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
2010	\$15,392	24.0%	\$66,593
2009	19,081	24.8%	54,900
2008	18,872	25.1%	40,550

As of December 31, 2010, the most recent actuarial valuation, the plan was 25.7 percent funded. The actuarial accrued liability was \$406.9 million, and the actuarial value of assets was \$104.7 million, resulting in an unfunded actuarial liability (UAAL) of \$302.1 million. The covered payroll (annual payroll of active employees covered by the plan) was \$94.8 million, and the ratio of the UAAL to the covered payroll was 318.8 percent.

The Schedule of Funding Progress for OPEB, displayed in the following table, presents multi-year trend information about whether the actuarial value of the plan assets is increasing or decreasing over time, relative to the actuarial accrued liabilities for benefits.

SHPRS Schedule of Funding Progress Last Three Calendar Years – OPEB						
<i>(dollars in thousands)</i>						
(A)	(B)	(C)	(D)	(E)	(F)	(G)
Valuation Year	Actuarial Accrued Liability (AAL)	Valuation Assets	Unfunded Actuarial Liability (UAAL) (B)-(C)	Ratio of Assets to AAL (C)/(B)	Active Member Payroll	UAAL as Percentage of Active Member Payroll (D)/(F)
2010	\$406,864	\$104,738	\$302,126	25.7%	\$94,768	318.8%
2009	287,582	100,748	186,834	35.0%	94,825	197.0%
2008	324,171	95,785	228,386	29.5%	94,302	242.2%

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarial determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions do not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing in the future. Actuarial calculations reflect a long-term perspective. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

NOTE 9 PENSION PLANS AND OTHER POSTEMPLOYMENT BENEFITS (Continued)

Healthcare benefits are advance funded by the employer using the entry-age, normal actuarial cost method for the Schedule of Funding Progress for the actuarial valuation, dated December 31, 2010, for OPEB. Assumptions used in preparing the Schedule of Funding Progress and in determining the annual required contribution include: a five percent rate of return on investments; projected salary increase of four percent attributable to inflation and additional projected salary increases ranging from .3 percent to 10 percent a year attributable to seniority and merit; and an annual healthcare cost trend rate of nine percent initially, reduced by decrements to an ultimate rate of four percent by 2021. There are no cost-of-living adjustments for OPEB benefits. Maximum contribution rates were not considered in the projection of actuarially accrued liabilities for OPEB benefits.

The unfunded actuarial accrued liability is being amortized using the level-percentage of projected payroll method over an open period of 30 years.

**D. Alternative Retirement Plan (ARP)
Pension Benefits**

The ARP is a defined contribution retirement plan that is authorized under Section 3305.02, Ohio Revised Code. The ARP provides at least three or more alternative retirement plans for academic and administrative employees of Ohio's institutions of higher education, who otherwise would be covered by OPERS or STRS. Unclassified civil service employees hired on or after August 1, 2005, are also eligible to participate in the ARP.

The Board of Trustees of each public institution of higher education enters into contracts with each approved retirement plan provider. Once established, full-time faculty and unclassified employees who are hired subsequent to the establishment of the ARP, or who had less than five years of service credit under the existing retirement plans, may choose to enroll in the ARP. The choice is irrevocable for as long as the employee remains continuously employed in a position for which the ARP is available. For those employees that choose to join the ARP, any prior employee contributions that had been made to OPERS or STRS would be transferred to the ARP. The Ohio Department of Insurance has designated the companies that are eligible to serve as plan providers for the ARP.

Ohio law requires that employee contributions be made to the ARP in an amount equal to those that would otherwise have been required by the retirement system that applies to the employee's position. These contribution rates are ten percent for OPERS and STRS. Employees may also voluntarily make additional contributions to the ARP.

For the year ended June 30, 2011, each public institution of higher education was required to contribute .8 percent of a participating employee's salary to OPERS in cases when the employee would have otherwise been enrolled in OPERS.

Ohio law also requires each public institution of higher education to contribute 3.5 percent of a participating employee's gross salary, for the year ended June 30, 2011, to STRS in cases when the employee would have otherwise been enrolled in STRS.

The employer contribution amount is subject to actuarial review every third year to determine if the rate needs to be adjusted to mitigate any negative financial impact that the loss of contributions may have on OPERS and STRS. The Board of Trustees of each public institution of higher education may also make additional payments to the ARP based on the gross salaries of employees multiplied by a percentage the respective Board of Trustees approves.

The ARP provides full and immediate vesting of all contributions made on behalf of participants. The contributions are directed to one of the investment management companies as chosen by the participants. The ARP does not provide disability benefits, annual cost-of-living adjustments, postretirement healthcare benefits, or death benefits. Benefits are entirely dependent on the sum of the contributions and related investment income generated by each participant's choice of investment options.

NOTE 9 PENSION PLANS AND OTHER POSTEMPLOYMENT BENEFITS (Continued)

For the State's discretely presented major component units, employer and employee contributions required and made for the year ended June 30, 2011, for the ARP follow (dollars in thousands):

	OPERS	STRS
<i>Major Component Units:</i>		
Ohio State University:		
Employer Contributions	\$22,371	\$18,463
Employee Contributions	16,910	17,584
University of Cincinnati:		
Employer Contributions	7,465	4,827
Employee Contributions	6,616	6,130

NOTE 10 GENERAL OBLIGATION BONDS

At various times since 1921, Ohio voters, by 19 constitutional amendments (the last adopted May 2010 for research and development programs in support of Ohio industry, commerce, and business), have authorized the incurrence of general obligation debt for the construction and improvement of common school and higher education facilities, highways, local infrastructure improvements, research and development of coal technology, natural resources, research and development support for high-tech business, business site development, and veterans compensation. Issuances for highway capital improvements, natural resources, and conservation are, in part, used for acquisition, construction or improvement of capital assets. In practice, general obligation bonds are retired over periods of 10 to 25 years.

A 1999 constitutional amendment provided for the issuance of Common School Capital Facilities Bonds and Higher Education Capital Facilities Bonds. As of June 30, 2011, the General Assembly had authorized the issuance of \$3.87 billion in Common Schools Capital Facilities Bonds, of which \$3.29 billion has been issued. As of June 30, 2011, the General Assembly had also authorized the issuance of \$2.61 billion in Higher Education Capital Facilities Bonds, of which \$2.3 billion has been issued.

Through the approval of the November 1995 amendment, voters authorized the issuance of Highway Capital Improvements Bonds in amounts up to \$220 million in any fiscal year (plus any prior fiscal years' principal amounts not issued under the new authorization), with no more than \$1.2 billion outstanding at any time. As of June 30, 2011, the General Assembly has authorized the issuance of approximately \$2.77 billion in Highway Capital Improvements Bonds, of which \$2.29 billion has been issued.

Constitutional amendments in 1995 and 2005 allowed for the issuance of \$3.75 billion of general obligation bonds for infrastructure improvements (Infrastructure Bonds). Issuances are limited to \$120 million in any fiscal year through fiscal year 2013, with an increase in the annual issuance amount to \$150 million for fiscal years 2014 through 2018. As of June 30, 2011, the General Assembly had authorized \$3.15 billion of these bonds to be sold (excluding any amounts for unaccreted discount on capital appreciation bonds at issuance), of which \$2.88 billion had been issued (net of \$214 million in unaccreted discounts at issuance).

Coal Research and Development Bonds and Parks, Recreation, and Natural Resources Bonds may be issued as long as the outstanding principal amounts do not exceed \$100 and \$200 million, respectively. As of June 30, 2011, the General Assembly had authorized the issuance of \$231 million in Coal Research and Development Bonds, of which \$198 million had been issued. Legislative authorizations for the issuance of Natural Resources Capital Facilities Bonds totaled \$350 million, as of June 30, 2011, of which \$325 million had been issued.

Constitutional amendments in 2000 and 2008 allowed for outstanding Conservation Projects Bonds of up to \$400 million. No more than \$50 million may be issued during a fiscal year. As of June 30, 2011, the General Assembly had authorized the issuance of approximately \$300 million in Conservation Projects Bonds of which all \$300 million had been issued.

NOTE 10 GENERAL OBLIGATION BONDS (Continued)

Through approval of the May 2010 and November 2005 amendments, voters authorized the issuance of \$1.2 billion of Third Frontier Research and Development Bonds. Obligations that may be issued are limited to \$450 million for fiscal years 2006 through 2011, \$225 million in fiscal year 2012, and \$175 million in any fiscal year thereafter, plus any obligations unissued from previous fiscal years. As of June 30, 2011, the General Assembly had authorized the issuance of \$450 million in Third Frontier Research and Development Bonds, of which \$381 million had been issued.

The issuance of \$150 million of Site Development Bonds was also authorized through the approval of the November 2005 amendment. Not more than \$30 million may be issued in each of the first three years, beginning with fiscal year 2006, and not more than \$15 million may be issued in any of the subsequent fiscal years. The General Assembly had authorized the issuance of \$150 million in Site Development Bonds as of June 30, 2011, of which \$115 million had been issued.

A 2009 constitutional amendment provides for the issuance of up to \$200 million in Veterans Compensation Bonds. No obligations may be issued after December 31, 2013. As of June 30, 2011, the General Assembly had authorized all \$200 million in Veterans' Compensation Bonds, of which \$50 million had been issued.

General obligation bonds outstanding and future general obligation debt service requirements, as of June 30, 2011, are presented in the table below. For the variable-rate bonds, using the assumption that current interest rates remain the same over their term, the interest and net swap payment amounts are based on rates as of June 30, 2011. As rates vary, variable-rate bond interest payments and net swap payments vary.

For the year ended June 30, 2011, NOTE 15 summarizes changes in general obligation bonds.

Hedging Derivatives

As of June 30, 2011, approximately \$345.9 million of Infrastructure Improvement Bonds and Common Schools Bonds have associated cash flow hedges with a fair value of (\$36.7) million. The value of these bonds is reported as part of the Bonds and Notes Payable section and the negative fair value of the cash flow hedges is reported in the Other Noncurrent Liabilities section on the Statement of Net Assets. The fair value increased \$6.1 million during fiscal year 2011. This increase is reported on the Statement of Net Assets as part of Deferred Outflows of Resources. Fair value of the cash flow hedges is determined using the zero-coupon method.

Terms and objectives of the State's hedging derivatives are provided in the following table.

NOTE 10 GENERAL OBLIGATION BONDS (Continued)

**Hedging Derivatives
As of June 30, 2011
(dollars in thousands)**

Issue	Type of Cash Flow Hedge	Notional Amount	Underlying Index	Counterparty's Swap Rate at 06/30/2011	State's Swap Rate at 06/30/2011	Effective Date	Termination (Maturity) Date
Infrastructure Improvements, Series 2001B	Pay-fixed interest rate swap	\$63,900	SIFMA Index	0.09%	4.63%	11/29/2001	8/1/2021
Objective: Convert Series 2001B variable-rate bonds into a synthetic fixed rate to minimize exposure to changing interest rates							
Embedded Option: The counterparties may elect to terminate the swap if the SIFMA index averages 7 percent or higher over a 180-day period.							
Credit Quality Ratings of Counterparty: 50% Aa1/AA- JPMorgan Chase; 50% A2/A Morgan Stanley Capital Services							
Infrastructure Improvements, Refunding Series 2004A	Pay-fixed interest rate swap	\$55,295	LIBOR (See terms below)	0.37%	3.51%	3/3/2004	2/1/2023
Objective: Convert Series 2004A variable-rate bonds into a synthetic fixed rate to minimize exposure to changing interest rates							
Credit Quality Ratings of Counterparty: A2/A Morgan Stanley Capital Services							
Terms: 63% of LIBOR + 25 basis points							
Common Schools, Series 2003D	Pay-fixed interest rate swap	\$67,000	LIBOR (see terms below)	0.37%	3.41%	9/14/2007	3/15/2024
Objective: Convert Series 2003D variable-rate bonds into a synthetic fixed rate to minimize exposure to changing interest rates							
Credit Quality Ratings of Counterparty: 50% Aa1/AA- JPMorgan Chase; 50% A2/A Morgan Stanley Capital Services							
Terms: 65% of 1-month LIBOR + 25 basis points							
Common Schools, Series 2006B	Pay-fixed interest rate swap	\$79,840	LIBOR (see terms below)	0.37%	3.20%	6/15/2006	6/15/2026
Objective: Convert Series 2006B variable-rate bonds into a synthetic fixed rate to minimize exposure to changing interest rates							
Credit Quality Ratings of Counterparty: 50% Aa3/A+ UBS AG; 50% Aa1/AA- Royal Bank of Canada							
Terms: 65% of 1-month LIBOR + 25 basis points							
Common Schools, Series 2006C	Pay-fixed interest rate swap	\$79,840	LIBOR (see terms below)	0.37%	3.20%	6/15/2006	6/15/2026
Objective: Convert Series 2006C variable-rate bonds into a synthetic fixed rate to minimize exposure to changing interest rates							
Credit Quality Ratings of Counterparty: 50% Aa3/A+ UBS AG; 50% Aa1/AA- Royal Bank of Canada							
Terms: 65% of 1-month LIBOR + 25 basis points							

The State was not exposed to credit risk because these swaps had negative fair values at June 30, 2011. However, should interest rates change and the fair values of the swaps becomes positive, the State would be exposed to credit risk in the amount of the derivative's positive fair value.

NOTE 10 GENERAL OBLIGATION BONDS (Continued)

Each swap counterparty is required to post collateral to a third party when their respective credit rating, as determined by specified nationally recognized credit rating agencies, falls below the trigger level defined in the swap agreement. This arrangement protects the State by mitigating the credit risk, and therefore termination risk, inherent in the swap. Collateral on all swaps must be in the form of cash or U.S. government securities held by a third-party custodian. Net payments are made on the same date, as specified in the agreements.

The combination of the variable-rate bonds and a floating-to-fixed swap creates a low-cost, long-term synthetic fixed-rate debt that protects the State from rising interest rates.

These swaps expose the State to basis risk or a mismatch between the floating rate received on the swap and the variable rate paid on the underlying variable-rate bonds. A mismatch would increase or decrease the interest cost paid by the State.

For Infrastructure Improvement, Series 2001B, the SIFMA municipal swap index has proven to be an effective proxy for the State's variable-rate debt and substantially mitigates basis risk.

For Infrastructure, Series 2004A and for Common Schools, Series 2003D, 2006B, and 2006C, the State assumes the risk of reductions in marginal federal tax rates or elimination of the tax preference for municipal securities, given that the variable swap receipt is based on a taxable index (LIBOR). Those changes would increase the interest rates on the underlying variable-rate debt but would not impact the variable-rate swap receipt based on the LIBOR index.

The State retains the right to terminate any swap agreement at the market value prior to maturity. The State has termination risk under the contracts, particularly upon the occurrence of an additional termination event (ATE), as defined in the swap agreements. An ATE occurs if either the credit rating of the bonds associated with a specific swap or the credit rating of the swap counterparty falls below a threshold defined in each swap agreement. If the swap was terminated, the variable-rate bonds would no longer carry a synthetic interest rate. Also, if at the time of the termination the swap has a negative fair value, the State may be liable to the counterparty for a payment. Other termination events include failure to pay, bankruptcy, merger without assumption, and illegality. No termination events have occurred.

Advance Refundings

During fiscal year 2011, there were five advance refundings of general obligations bonds. Details on the advanced refundings are presented in the table on the following page.

Proceeds of the refunding (new) bonds are placed in irrevocable trusts to provide for all future debt service payments of the refunded (old) bonds. These refunded amounts are considered defeased and no longer outstanding. The various trust accounts' assets and liabilities for the defeased bonds are not included in the State's financial statements.

The State had defeased general obligation bonds from prior years and placed the proceeds in irrevocable trusts. As of June 30, 2011, the balances in these trusts for bonds defeased in prior years were \$109.2 million for Infrastructure Improvement Bonds, \$9.5 million for Natural Resources Bonds, \$511 million for Common Schools Bonds, \$39.9 million for Conservation Bonds, and \$380.6 million for Higher Education Bonds.

NOTE 11 REVENUE BONDS AND NOTES

The State Constitution permits state agencies and authorities to issue bonds that are not supported by the full faith and credit of the State. These bonds pledge income derived from user fees and rentals on the acquired or constructed assets to pay the debt service. Issuers for the primary government include the Treasurer of State for the Ohio Department of Development, including its Office of Financial Incentives, and the Ohio Department of Transportation; the Ohio Building Authority (OBA), which has issued revenue bonds on its own behalf and for the Ohio Bureau of Workers' Compensation; and the Buckeye Tobacco Settlement Financing Authority (BTSFA). Major issuers for the State's component units include the Ohio Water Development Authority, the Ohio State University, and the University of Cincinnati.

A. Primary Government

Economic Development Bonds, issued by the Treasurer of State for the Office of Financial Incentive's Direct Loan Program, provide financing for loans and loan guarantees to businesses within the State for economic development projects that create or retain jobs in the State. The taxable bonds, payable through 2030, are backed with profits derived from the sale of spirituous liquor by the Division of Liquor Control and pledged moneys and related investment earnings held in reserve under a trust agreement with a financial institution.

Revitalization Project Bonds provide financing to enable the remediation or cleanup of contaminated publicly or privately owned lands to allow for their environmentally safe and productive development. The bonds, payable through 2026, are also backed with profits derived from the sale of spirituous liquor by the Division of Liquor Control.

Pledged net liquor revenues through the maturity of the Economic Development and Revitalization Project revenue bonds total approximately \$929.6 million. During fiscal year 2011, pledged net revenues were \$226 million. Principal and interest requirements for fiscal year 2011 totaled \$56.4 million.

Since fiscal year 1998, the Treasurer of State has issued a total of \$1.75 billion in State Infrastructure Bank Bonds for various transportation construction projects financed by the Department of Transportation. The State has pledged federal highway receipts and loan repayments received under the State Infrastructure Bank Loan Program as the primary source of moneys for meeting the principal and interest requirements on the bonds.

Issuances for the State Infrastructure Bank are, in part, used for the acquisition, construction, or improvement of capital assets. Total pledged federal highway receipts and loan repayments through the maturity of the bonds in 2022 are estimated at approximately \$1.28 billion. For fiscal year 2011, principal and interest payments on the revenue bonds was \$154.5 million and pledged receipts was \$147 million.

NOTE 11 REVENUE BONDS AND NOTES (Continued)

BTSFA is authorized by the Ohio General Assembly to issue and to sell obligations, the aggregate principle amount of which shall not exceed \$6 billion, exclusive of obligations issued to refund, renew, or advance refund other obligations issued or incurred. On October 29, 2007, BTSFA successfully securitized 100 percent of the projected tobacco settlement receipts for the next 45 years through the issuance of five series of asset-backed revenue bonds, aggregating in the amount of \$5.53 billion. The future tobacco settlement receipts, including related investment earnings and net of specified operating and enforcement expenses, have been pledged to repay the bonds, which are payable through 2052. Annual principal and interest payments on the bonds will require 100 percent of the net tobacco settlement receipts. As of June 30, 2011, the total principal and interest payments remaining to be paid on the bonds were \$18.38 billion. Principal and interest paid and total net tobacco settlement receipts for fiscal year 2011 were \$300 million and \$292 million, respectively. In the event that the assets of BTSFA have been exhausted, no amounts will thereafter be paid on the bonds. After the bonds and any related operating expenses have been fully paid, any remaining tobacco settlement receipts will become payable to the State. The bonds include fixed rate serial bonds, fixed rate current interest turbo term bonds, and capital appreciation turbo term bonds which will convert to fixed rate current interest turbo term bonds. They were issued to fund long-lived capital projects at state-supported institutions of higher education and to pay the State's share of the cost of rebuilding elementary and secondary school facilities across the State. Additional information on these bonds can be found in BTSFA's stand-alone financial report.

Revenue bonds accounted for in business-type activities finance the construction costs of the William Green Building, which houses the main operations of the Ohio Bureau of Workers' Compensation in Columbus. The debt issuance for the William Green Building has been used for acquisition and construction of capital assets. The bonds are collateralized by lease rental payments pledged by BWC to OBA. The lease rental payments are based on the estimated debt service of the bonds, but are limited to an amount appropriated by the Ohio General Assembly in the biennial budget. Total pledged payments through the maturity of the bonds in 2014 are estimated at approximately \$51.6 million. For fiscal year 2011, both the total lease rental payments and the principal and interest payments on the revenue bonds were \$19 million.

Revenue bonds outstanding for the primary government, as of June 30, 2011, are presented below.

For the year ended June 30, 2011, NOTE 15 summarizes changes in revenue bonds.

NOTE 11 REVENUE BONDS AND NOTES (Continued)

B. Component Units

Ohio Water Development Authority (OWDA) bonds and notes provide financing to local government authorities (LGA) in the State of Ohio for the acquisition, construction, maintenance, repair, and operation of water development projects and solid waste projects, including the construction of sewage and related water treatment facilities. The principal and interest requirements on OWDA obligations are generally paid from investment earnings, federal funds and/or repayments of loan principal and interest thereon from the LGAs.

A portion of OWDA's outstanding bonds has been issued for the Water Pollution Control Loan Program, which provides low-cost financing to LGAs for the construction of wastewater treatment facilities. In the event pledged program revenues, which consist of interest payments from the LGAs and reimbursement for construction costs, are not sufficient to meet debt service requirements for the bonds, the General Assembly may appropriate moneys for the full replenishment of a bond reserve. As of December 31, 2010, approximately \$1.98 billion in bonds were outstanding for this program.

Future bond service requirements for the Water Pollution Control Loan Program revenue bonds, as of December 31, 2010, were as follows (dollars in thousands):

Year Ending December 31,	Principal	Interest	Total
2011.....	\$115,210	\$90,386	\$205,596
2012.....	95,725	85,440	181,165

Premium/(Discount), Net....	107,859	-	107,859
Deferred Refunding Loss.....	(46,288)	-	(46,288)
Total	<u>\$1,976,361</u>	<u>\$877,319</u>	<u>\$2,853,680</u>

Generally, bonds and notes issued by the state universities and state community colleges are payable from the institutions' available receipts, including student fees, rental income, and gifts and donations, as may be provided for in the respective bond proceedings, for the construction of educational and student resident facilities and auxiliary facilities such as dining halls, hospitals, parking facilities, bookstores and athletic facilities.

Except as previously discussed with respect to OWDA's Water Pollution Control Loan Program Bonds, the State is not obligated in any manner for the debt of its component units.

Future bond service requirements for revenue bonds and notes reported for the discretely presented major component units, as of June 30, 2011, are shown on the following page.

NOTE 12 SPECIAL OBLIGATION BONDS

The Ohio Building Authority (OBA) and the Treasurer of State issue special obligation bonds reported in governmental activities.

OBA bonds finance the capital costs of categories of facilities including correctional facilities and office buildings for state departments and agencies and, in some cases, related facilities for local governments. These issuances are, in part, used for acquisition, construction, or improvement of capital assets.

Under the authority of Chapter 154, Ohio Revised Code, the Treasurer of State is the issuer of special obligation bonds that finance the cost of capital facilities for state-supported institutions of higher education, mental health and developmental disabilities institutions, parks and recreation, and cultural and sports facilities. These issuances are, in part, used for acquisition, construction, or improvement of capital assets.

Pledges of lease rental payments from appropriations made to the General Fund, Highway Safety and Highway Operating special revenue funds, and Underground Parking Garage Enterprise Fund, moneys held by trustees pursuant to related trust agreements, and other receipts, as required by the respective bond documents, secure the special obligation bonds. The lease rental payments are reported in the fund financial statements as interfund transfers.

Special obligation bonds outstanding and bonds authorized but unissued, as of June 30, 2011, are presented in the following table.

Primary Government-Governmental Activities
Summary of Special Obligation Bonds
As of June 30, 2011
(dollars in thousands)

	Fiscal Years Issued	Interest Rates	Maturing Through Fiscal Year	Outstanding Balance	Authorized but Unissued
Ohio Building Authority	1999-11	2.0%-6.1%	2031	\$1,607,696	\$145,915
Treasurer of State Chapter 154 Bonds	2001-11	2.6%-4.8%	2026	653,157	160,225
Total Special Obligation Bonds				<u>\$2,260,853</u>	<u>\$306,140</u>

Future special obligation debt service requirements, as of June 30, 2011, are as follows (dollars in thousands):

Year Ending June 30,	Principal	Interest	Total
2012	\$305,760	\$97,972	\$403,732
2013	260,945	84,294	345,239
2014	220,925	73,155	294,080

Total	<u>\$2,260,853</u>	<u>\$578,666</u>	<u>\$2,839,519</u>

For the year ended June 30, 2011, NOTE 15 summarizes changes in special obligation bonds.

During fiscal year 2011, OBA had three current/advance refunding issues. The proceeds of the refunding bonds were used to purchase U.S. Government securities in amounts sufficient, without further investment, to pay, when due, the principle, interest and redemption premium on the bonds being refunded.

Details on the advanced refunding for fiscal year 2011 are presented in the table on the following page.

NOTE 12 SPECIAL OBLIGATION BONDS (Continued)

**Primary Government — Governmental Activities
Special Obligation Bonds
Details of Advance Refundings
For the Year Ended June 30, 2011
(dollars in thousands)**

Refunding Bond Issue	Date of Refunding	Amount of Refunding Bonds Issued	True Interest Cost Rates of Refunding Bonds	Carrying Amount of Bonds Refunded (in substance)	Refunding Bond Proceeds Placed in Escrow	Reduction (Increase) in Debt Service Payments	Economic Gain / (Loss) Resulting from Refunding
Ohio Building Authority:							
Administrative Building 2010 Series C.....	8/31/2010	\$148,865	2.75%	\$160,515	\$170,923	(10,095)/15 yrs	\$4,712
Adult Correctional 2010 Series A.....	8/31/2010	79,325	2.84%	86,136	89,294	(15,022)/15 yrs	1,056
Juvenile Correctional 2010 Series B.....	8/31/2010	15,005	2.94%	16,018	16,297	(4,272)/15 yrs	(91)
Total		<u>\$243,195</u>		<u>\$262,669</u>	<u>\$276,514</u>		<u>\$5,677</u>

In prior years, OBA and the Treasurer of State defeased certain bond issues by placing the proceeds of new bonds in irrevocable trusts to provide for all future debt service payments on the old bonds. Accordingly, the various trust accounts' assets and liabilities for the defeased bonds are not included in the State's financial statements. As of June 30, 2011, \$126 million and \$32 million of OBA and Chapter 154 special obligations bonds, respectively, are considered defeased and no longer outstanding.

NOTE 13 CERTIFICATES OF PARTICIPATION

A. Primary Government

As of June 30, 2011, approximately \$179.9 million in certificate of participation (COP) obligations were reported in governmental activities.

In fiscal year 1992, the Ohio Department of Transportation participated in the issuance of \$8.7 million of COP obligations to finance the acquisition of the Panhandle Rail Line Project. Beginning in fiscal year 2005, the Ohio Department of Administrative Services participated in the issuance of \$185.2 million of COP obligations to finance the acquisition of the Ohio Administrative Knowledge System (OAKS), a statewide Enterprise Resource Planning (ERP) system. These issuances are, in part, used for the acquisition, construction, or improvement of capital assets.

In fiscal year 2008, the Ohio Department of Administrative Services participated in the issuance of \$40.1 million of COP obligations to finance the cost of acquisition of the State Taxation Accounting and Revenue System (STARS).

Under the COP financing arrangements, the State is required to make rental payments from the Transportation Certificates of Participation Debt Service Fund, the OAKS Certificates of Participation Debt Service Fund, the STARS Certificates of Participation Debt Service Fund and the General Fund (subject to biennial appropriations) that approximate the interest and principal payments made by trustees to certificate holders.

Obligations outstanding for the primary government under COP financing arrangements, as of June 30, 2011, are presented in the following table.

NOTE 13 CERTIFICATES OF PARTICIPATION (Continued)

Primary Government — Governmental Activities
Summary of Certificate of Participation Obligations
As of June 30, 2011
(dollars in thousands)

	Fiscal Years Issued	Interest Rates	Maturing Through Fiscal Year	Outstanding Balance

For the year ended June 30, 2011, NOTE 15 summarizes changes in COP obligations.

B. Component Units

For the State's component units, approximately \$3.8 million in COP obligations are reported in the component unit funds. The obligations finance building construction costs at the Ohio State University.

As of June 30, 2011, future commitments under the COP financing arrangements for the State's component units are detailed in the table below.

Component Units
Future Funding Requirements for Certificate of
Participation Obligations
As of June 30, 2011
(dollars in thousands)

2017-2021.....	1,220	62	1,282
Total.....	<u>\$3,800</u>	<u>\$709</u>	<u>\$4,509</u>

NOTE 14 OTHER NONCURRENT LIABILITIES

As of June 30, 2011, in addition to bonds and certificates of participation obligations discussed in NOTES 10 through 13, the State reports the following noncurrent liabilities in its financial statements (dollars in thousands):

Non-Current Liabilities	
Governmental Activities:	
Compensated Absences	\$464,077
Net Pension Obligation.....	4,299
Net OPEB Obligation.....	66,593
Capital Leases Payable	6,530
Derivatives.....	53,119
Pollution Remediation Liabilities	4,851
Estimated Claims Payable	10,385
Liability for Escheat Property	219,770
Total Governmental Activities	<u>829,624</u>
Business-Type Activities:	
Compensated Absences	42,948
Capital Leases Payable	58,007
Workers' Compensation:	
Benefits Payable	18,012,600
Other	2,037,665
Unemployment Compensation:	
Intergovernmental Payable	2,314,187
Deferred Prize Awards Payable	643,074
Tuition Benefits Payable	592,599
Total Business-Type Activities	<u>23,701,080</u>
Total Primary Government	<u>\$24,530,704</u>

For the year ended June 30, 2011, NOTE 15 summarizes the changes in other noncurrent liabilities. Explanations of certain significant noncurrent liability balances reported in the financial statements follow.

A. Compensated Absences

For the primary government, the compensated absences liability, as of June 30, 2011, was \$507 million, of which \$464.1 million is allocable to governmental activities and \$42.9 million is allocable to business-type activities.

As of June 30, 2011, discretely presented major component units reported a total of \$186.7 million in compensated absences liabilities, as detailed by major component unit in NOTE 15.

B. Net Pension Obligation and Net OPEB Obligation

The State recognizes a net pension obligation and a net OPEB obligation in the amount of \$4.3 million and \$66.6 million, respectively, as of June 30, 2011. The net pension obligation represents the cumulative difference between the annual pension cost and the employer's contributions to the State Highway Patrol Retirement System (SHPRS). The net OPEB obligation represents the cumulative difference between the annual OPEB cost and the employer's contributions to the SHPRS. The SHPRS is a blended component unit reported as a fiduciary pension trust fund. See NOTE 9 for further details.

NOTE 14 OTHER NONCURRENT LIABILITIES (Continued)

C. Lease Agreements

The State's primary government leases office buildings and computer and office equipment. Although the lease terms vary, most leases are renewable subject to biennial appropriations by the General Assembly. If the likelihood of the exercise of a fiscal funding clause in the lease agreement is, in the management's judgment, remote, then the lease is considered noncancelable for financial reporting purposes and is reported as a fund expenditure/expense for operating leases or as a liability for capital leases.

Operating leases (leases on assets not recorded in the Statement of Net Assets) contain various renewable options as well as some purchase options. Any escalation clauses, sublease rentals, and contingent rents are considered immaterial to the future minimum lease payments and current rental expenditures. Operating lease payments are recorded as expenditures or expenses of the related funds when paid or incurred. The primary government's total operating lease expenditures/expenses for fiscal year 2011 were approximately \$77.8 million. Fiscal year 2012 future minimum lease commitments for operating leases judged to be noncancelable, as of June 30, 2011, were \$3.7 million.

Assets acquired through capital leasing are valued at the lower of fair value or the present value of the future minimum lease payments at the lease's inception. Capital leases are used for the acquisition of capital assets. Future minimum lease commitments for capital leases judged to be noncancelable, as of June 30, 2011, are below (dollars in thousands):

Year Ending June 30,	Capital Leases		
	Governmental Activities	Business- Type Activities	Total
2012.....	\$ 2,656	\$ 18,814	\$ 21,470
2013.....	2,432	18,813	21,245
2014.....	1,326	25,286	26,612
2015.....	537	-	537
2016.....	69	-	69
2017-2021.....	8	-	8
Total Minimum Lease Payments.....	7,028	62,913	69,941
Amount for Interest.....	(498)	(4,906)	(5,404)
Present Value of Net Minimum Lease Payments.....	<u>\$ 6,530</u>	<u>\$ 58,007</u>	<u>\$ 64,537</u>

As of June 30, 2011, the primary government had the following capital assets under capital leases (dollars in thousands):

	Capital Assets		
	Governmental Activities	Business- Type Activities	Total
Equipment	\$16,380	\$88,038	\$104,418
Vehicles	2,649	-	\$2,649
Total	<u>\$19,029</u>	<u>\$88,038</u>	<u>\$107,067</u>

Amortization expense for the proprietary funds within the Statement of Activities is included with depreciation expense.

Capital leases are reported under the "Refund and Other Liabilities" account in the proprietary and component unit funds.

NOTE 14 OTHER NONCURRENT LIABILITIES (Continued)

Future minimum lease commitments for capital leases judged to be noncancelable and capital assets under capital leases for the discretely presented major component unit funds, as of June 30, 2011, are presented in the table below (dollars in thousands):

Major Component Units		
Capital Leases		
Year Ending June 30,	Ohio State University	University of Cincinnati
2012.....	\$ 5,168	\$ 11,657
2013.....	4,181	10,515
2014.....	2,062	10,687
2015.....	355	10,293
2016.....	158	10,952

2032-2036.....	-	6,959
Total Minimum Lease Payments.....	11,924	161,993
Amount for Interest.....	(715)	(55,493)
Present Value of Net		
Minimum Lease Payments.....	<u>\$ 11,209</u>	<u>\$ 106,500</u>
Equipment & Vehicles.....	\$ 43,012	\$ 3,226
Buildings	-	183,618
Total	<u>\$ 43,012</u>	<u>\$ 186,844</u>

D. Derivatives

For governmental activities, the State has reported (\$53.1) million of investment and hedging derivatives as of June 30, 2011. Additional information regarding the State's derivatives is included in NOTE 4 and NOTE 10.

As of June 30, 2011, the discretely presented major component units reported a total of (\$3.9) million of investment derivatives. Additional information regarding the major component units' derivatives is included in NOTE 4.

E. Litigation Liabilities

In instances when the unfavorable outcome of a pending litigation has been assessed to be probable, liabilities are recorded in the financial statements. As of June 30, 2011, no liabilities ultimately payable from various governmental funds have been recorded for this purpose. For information on the State's loss contingencies arising from pending litigation, see NOTE 19.

F. Pollution Remediation Liabilities

The State recognizes a liability for pollution remediation in the amount \$4.9 million, as of June 30, 2011. This represents the cost to the State to the extent that is probable for future clean up and reclamation of polluted sites within the State. See NOTE 19 for further detail.

G. Estimated Claims Payable

For governmental activities, the State recognized \$7.1 million in estimated claims liabilities, as of June 30, 2011, for damaged state vehicles covered under the State's self-insured program, which was established in the General Fund for this purpose at the Department of Administrative Services.

Additionally, the State reported \$3.3 million in estimated claims for defaulted loans under the Ohio Enterprise Bond Programs at the Department of Development, as of June 30, 2011. The program is included in governmental activities and is accounted for in the Community and Economic Development Special Revenue Fund.

NOTE 14 OTHER NONCURRENT LIABILITIES (Continued)

H. Liability for Escheat Property

The State records a liability for escheat property to the extent that it is probable that the escheat property will be reclaimed and paid to claimants. As of June 30, 2011, the liability totaled approximately \$219.8 million.

I. Worker's Compensation

Benefits Payable

As discussed in NOTE 20, the Worker's Compensation Enterprise Fund provides benefits to employees for losses sustained from job-related injury, disease, or death. The Bureau has computed a reserve for compensation, as of June 30, 2011, in the amount of approximately \$18.01 billion. The reserve, which includes estimates for reported claims and claims incurred but not reported, is included in the "Benefits Payable" balance reported for the enterprise fund.

J. Unemployment Compensation

As of June 30, 2011, the State's Unemployment Compensation Fund is recognizing an intergovernmental payable liability for repayable advances from the Federal government of \$2.31 billion. These advances were used for the payment of compensation benefits.

K. Deferred Prize Awards Payable

Future installment payments for the deferred prize awards payable are reported at present value based upon interest rates that the Treasurer of State provides to the Lottery Commission Enterprise Fund. The interest rates, ranging from three to nine percent, represent the expected long-term rate of return on the assets restricted for the payment of deferred prize awards. Once established for a particular deferred prize award, the interest rate does not fluctuate with changes in the expected long-term rate of return. The difference between the present value and gross amount of the obligations is amortized into income over the terms of the obligations using the interest method. The State reduces prize liabilities by an estimate of the amount of the prize that will ultimately be unclaimed. As of June 30, 2011, this payable totals \$643.1 million.

Future payments of prize awards, stated at present value, as of June 30, 2011, follow (dollars in thousands):

Year Ending June 30,	
2012.....	\$ 78,102
2013.....	77,017
2014.....	76,926
2015.....	76,789
2016.....	76,765
2017-2021.....	277,587
2022-2026.....	129,778
2027-2031.....	65,682
2032-2036.....	21,857
2037-2041.....	1,493
	<u>881,996</u>
Unamortized Discount	<u>(238,922)</u>
Net Prize Liability	<u>\$643,074</u>

L. Tuition Benefits Payable

The actuarial present value of future tuition benefits payable from the Tuition Trust Authority Enterprise Fund was approximately \$592.6 million, as of June 30, 2011. The valuation method reflects the present value of estimated tuition benefits that will be paid in future years and is adjusted for the effects of projected tuition increases in state universities and state community colleges and termination of participant contracts under the plan.

NOTE 14 OTHER NONCURRENT LIABILITIES (Continued)

The following assumptions were used in the actuarial determination of tuition benefits payable: 5.5 percent rate of return, compounded annually, on the investment of current and future assets; a projected annual tuition increase of 3.5 percent in the first year and seven percent thereafter, as well as a 2.5 percent Consumer Price Index inflation rate. The effect of changes due to experience and actuarial assumption changes follow (dollars in millions):

Actuarial Deficit, as of June 30, 2010.....	\$ (70.8)
Adjustment to Beginning of Year's Assets.....	1.7
Interest on the Deficit at 6.5 Percent	(4.5)
Investment Gain	52.3
Lower actual 2011-2012 tuition than assumed	20.3
Change in Assumption for Future Tuition Growth.....	16.3
Interest Gain on Late Tuition Payouts	0.6
Change in the investment return assumption.....	<u>(26.8)</u>
 Actuarial Deficit, as of June 30, 2011.....	 <u>\$ (10.9)</u>

As of June 30, 2011, the market value of actuarial net assets available for the payment of the tuition benefits payable was \$581.7 million.

M. Other Liabilities

The Workers' Compensation Enterprise Fund reports approximately \$2.04 billion in other noncurrent liabilities, as of June 30, 2011, of which 1.) \$1.94 billion is comprised of the compensation adjustment expenses liability for estimated future expenses to be incurred in the settlement of claims, as discussed further in NOTE 20, 2.) \$87.7 million represents premium payment security deposits collected in advance from private employers to reduce credit risk for premiums collected in subsequent periods, and 3.) \$12.7 million consists of other miscellaneous liabilities.

NOTE 15 CHANGES IN NONCURRENT LIABILITIES

A. Primary Government

Changes in noncurrent liabilities, for the year ended June 30, 2011, are presented for the primary government in the following table.

Primary Government					
Changes in Noncurrent Liabilities					
For the Fiscal Year Ended June 30, 2011					
<i>(dollars in thousands)</i>					
Governmental Activities:	Balance June 30, 2010	Additions	Reductions	Balance June 30, 2011	Amount Due Within One Year
Bonds and Notes Payable:

The State makes payments on bonds and notes payable and certificate of participation obligations that pertain to its governmental activities from the debt service funds. The General Fund and the major special revenue fund will primarily liquidate the other noncurrent liabilities balance attributable to governmental activities.

NOTE 15 CHANGES IN NONCURRENT LIABILITIES (Continued)

For fiscal year 2011, the State's primary government included interest expense on its debt issues in the following governmental functions rather than reporting it separately as interest expense. The related borrowings are essential to the creation or continuing existence of the programs they finance. The various state subsidy programs supported by the borrowings provide direct state assistance to local governments for their respective capital and construction or research projects. None of the financing provided under these programs benefits the general operations of the primary government, and accordingly, such expense is not reported separately on the Statement of Activities under the expense category for interest on long-term debt.

	<u>(in 000s)</u>
Governmental Activities:	
Primary, Secondary and Other Education	\$577,929
Higher Education Support	264,582
Environmental Protection and Natural Resources	3,058
Transportation.....	40,529
Community and Economic Development.....	<u>352,689</u>
Total Interest Expense Charged to Governmental Functions	<u>\$1,238,787</u>

B. Component Units

Changes in noncurrent liabilities, for the year ended June 30, 2011 (December 31, 2010 for the Ohio Water Development Authority), are presented in the following table for the State's discretely presented major component units.

Major Component Units					
Changes in Noncurrent Liabilities					
For the Fiscal Year Ended June 30, 2011					
<i>(dollars in thousands)</i>					
	Balance			Balance	Amount Due
	June 30, 2010	Additions	Reductions	June 30, 2011	Within One

*Liability is reported under the "Refund and Other Liabilities" account.

NOTE 16 NO COMMITMENT DEBT

The State of Ohio, by action of the General Assembly, created various financing authorities for the expressed purpose of making available to non-profit and, in some cases, for profit private entities, lower cost sources of capital financing for facilities and projects found to be for a public purpose. Fees are assessed to recover related processing and application costs incurred.

The authorities' debt instruments represent a limited obligation payable solely from payments made by the borrowing entities. Most of the bonds are secured by the property financed. Upon repayment of the bonds, ownership of acquired property transfers to the entity served by the bond issuance. This debt is not deemed to constitute debt of the State or a pledge of the faith and credit of the State. Accordingly, these bonds are not reflected in the accompanying financial statements.

As of June 30, 2011 (December 31, 2010 for component units), revenue bonds and notes outstanding that represent "no commitment" debt for the State were as follows (dollars in thousands):

	<u>Outstanding Amount</u>
Primary Government:	
Ohio Department of Development:	
Ohio Enterprise Bond Program	\$218,995
Hospital Facilities Bonds	6,745
Ohio Department of Transportation:	
State Transportation Infrastructure Bond Fund Program.....	<u>20,680</u>
Total Primary Government	<u><u>\$246,420</u></u>
Component Units (12/31/10):	
Ohio Water Development Authority	\$2,217,275
Ohio Air Quality Development Authority	<u>2,400,000</u>
Total Component Units	<u><u>\$4,617,275</u></u>

NOTE 17 FUND DEFICITS AND FUND BALANCE REPORTING

A. Fund Deficits

The following individual funds reported deficits that are reflected in the State's basic financial statements, as of June 30, 2011 (dollars in thousands):

Primary Government:	
<hr/>	
Major Proprietary Funds:	
Unemployment Compensation.....	<u><u>(\$1,926,737)</u></u>
Component Units:	
<hr/>	
Major Component Units:	
School Facilities Commission Fund	(\$4,170,889)
Nonmajor Component Units:	
Ohio Capital Fund.....	(43,715)
Total Component Units.....	<u><u>(\$4,214,604)</u></u>

The Unemployment Compensation Fund deficit disclosed above is due to an unusually high level of benefit claims and a reduction in State revenues as a result of current economic conditions. Federal loans have been required to maintain current benefit levels.

Deficits for the other funds are due to the timing of revenue recognition and the accrual of expenses not recorded under the cash basis of accounting.

NOTE 17 FUND DEFICITS AND FUND BALANCE REPORTING (Continued)

B. Fund Balance Reporting-Constraints by Purpose

Fund balance constraints reported in the governmental funds, as of June 30, 2011, are presented by purpose in the following table:

Primary Government

NOTE 18 JOINT VENTURES AND RELATED ORGANIZATIONS

A. Joint Ventures

Great Lakes Protection Fund (GLPF)

The Great Lakes Protection Fund is an Illinois non-profit organization that was formed to further federal and state commitments to the restoration and maintenance of the Great Lakes Basin's ecosystem. The governors of seven of the eight states that border on the Great Lakes comprise the GLPF's membership. Under the GLPF's articles of incorporation, each state is required to make a financial contribution. Income earned on the contributions provides grants to projects that advance the goals of the Great Lakes Toxic Substances Control Agreement and the binational Great Lakes Water Quality Agreement.

Each governor nominates two individuals to the GLPF's board of directors who serve staggered two-year terms. All budgetary and financial decisions rest with the board, except when they are restricted by the GLPF's articles of incorporation.

Annually, one-third of the GLPF's net earnings is allocated and paid to the member states in proportion to their respective cash contributions to the GLPF. The allocation is based on the amount and period of time the state's contributions were invested. GLPF earnings distributions are to be used by the states to finance projects that are compatible with the GLPF's objectives. Ohio applies its distribution (approximately \$187 thousand) to operations of its own protection program, known as the Lake Erie Protection Program, which is modeled after the GLPF.

Required contributions and contributions received from the states, which border the Great Lakes, as of December 31, 2010 (the GLPF's year-end), are presented below (dollars in thousands):

	Contribution Required	Contribution Received	Contribution Percentage
Michigan	\$25,000	\$25,000	30.9%
Indiana*	16,000	-	-
Illinois	15,000	15,000	18.4%
Ohio	14,000	14,000	17.3%
New York	12,000	12,000	14.8%
Wisconsin	12,000	12,000	14.8%
Minnesota	1,500	1,500	1.9%
Pennsylvania	1,500	1,500	1.9%
Total	<u>\$97,000</u>	<u>\$81,000</u>	<u>100.00%</u>

*The State of Indiana has not yet elected to join the Great Lakes Protection Fund.

Summary Financial information for the GLPF, for the fiscal year ended December 31, 2010, was as follows (dollars in thousands):

Cash and Investments	\$113,310
Other Assets	269
Total Assets	<u>\$113,579</u>
Total Liabilities	\$1,644
Total Net Assets	111,935
Total Liabilities and Net Assets	<u>\$113,579</u>
Total Revenues and Other Additions.....	\$11,403
Total Expenditures	(4,299)
Net Increase in Net Assets	<u>\$7,104</u>

NOTE 18 JOINT VENTURES AND RELATED ORGANIZATIONS (Continued)

In the event of the Fund's dissolution, the State of Ohio would receive a residual portion of the Fund's assets equal to the lesser of the amount of such assets multiplied by the ratio of its required contribution to the required contributions of all member states, or the amount of its required contribution.

Local Community and Technical Colleges

The State's primary government has an ongoing financial responsibility for the funding of six local community colleges and eight technical colleges. With respect to the local community colleges, State of Ohio officials appoint three members of each college's respective nine-member board of trustees; county officials appoint the remaining six members.

The governing boards of the technical colleges consist of either seven or nine trustees, of which state officials appoint two or three members, respectively; the remaining members are appointed by the local school boards located in the respective technical college district.

The Ohio General Assembly appropriates moneys to these institutions from the General Fund to subsidize operations so that higher education can become more financially accessible to Ohio residents. The primary government also provides financing for the construction of these institutions' capital facilities by meeting the debt service requirements for the Tobacco Settlement revenue bonds issued by the Buckeye Tobacco Settlement Financing Authority, the Higher Education Capital Facilities general obligation bonds issued by the Ohio Public Facilities Commission (OPFC), and the Higher Education Facilities special obligation bonds, previously issued by the OPFC, for these purposes. The bonds provide funding for capital appropriations, which are available to the local community and technical colleges for spending on capital construction.

Fiscal year 2011 expenses that were included in the "Higher Education Support" function under governmental activities in the Statement of Activities for state assistance to the local community and technical colleges are presented below (dollars in thousands).

	Operating Subsidies	Capital Subsidies	Total
Local Community Colleges:			
Cuyahoga	\$61,610	\$16,049	\$77,659
Eastern.....	5,176	1,076	6,252

Stark	25,278	4,843	30,121
Total Technical Colleges	<u>90,883</u>	<u>13,114</u>	<u>103,997</u>
Total	<u>\$263,266</u>	<u>\$32,853</u>	<u>\$296,119</u>

Information for obtaining complete financial statements for each of the primary government's joint ventures is available from the Ohio Office of Budget and Management.

NOTE 18 JOINT VENTURES AND RELATED ORGANIZATIONS (Continued)

B. Related Organizations

Officials of the State's primary government appoint a voting majority of the governing boards of the Ohio Housing Finance Agency, the Ohio Turnpike Commission, the Petroleum Underground Storage Tank Release Compensation Board, the Higher Education Facility Commission, and the Ohio Legal Assistance Foundation. However, the primary government's accountability for these organizations does not extend beyond making the appointments.

During Fiscal year 2011, the State had the following related-party transactions with its related organizations:

- The General Fund reports a \$195.2 million loans receivable balance due from the Ohio Housing Finance Agency. The State made the loans to finance and support the agency's housing programs.
- The Ohio Department of Taxation paid the Ohio Turnpike Commission \$2.2 million from the General Fund for the Commission's share of the State's motor vehicle fuel excise tax allocation.
- Separate funds, established for the Ohio Housing Finance Agency, the Petroleum Underground Storage Tank Release Compensation Board, and the Higher Education Facility Commission, were accounted for on the primary government's Ohio Administrative Knowledge System. The primary purpose of the funds is to streamline payroll and other administrative disbursement processing for these organizations. The financial activities of the funds, which do not receive any funding support from the primary government, have been included in the agency funds.
- From the Job, Family and Other Human Services Fund, the Public Defender's Office paid the Ohio Legal Assistance Foundation approximately \$4.4 million for administrative services performed under contract for the distribution of state funding to nonprofit legal aid societies.

NOTE 19 CONTINGENCIES AND COMMITMENTS

A. Litigation

The State, its units, and employees are parties to numerous legal proceedings, which normally occur in governmental operations. Pending litigation affecting the Department of Commerce, the Department of Transportation, and the Bureau of Workers' Compensation is discussed below.

Department of Commerce

In the *Sogg v. Department of Commerce* case, the plaintiff claims a provision in Section 169.08(D) of Ohio Revised Code creates an unconstitutional taking of property in violation of takings clause of the United States and Ohio Constitutions. In April 2009, the Supreme Court of Ohio declared Section 169.08(D) unconstitutional. The Court held that the State may not retain the interest earned on unclaimed funds and that claimants are entitled to interest on the funds for the four years prior to the filing of the claim. The case was remanded to the trial court to determine the method for determining the amount of interest owed to each claimant in the class. On August 18, 2009, the trial court issued an opinion in which it found that the eligible class members should be awarded interest on their accounts at the rate of six percent per annum as well as a percentage of the State's liability as attorney's fees. On March 19, 2010, the trial court issued a decision on the contested calculations used to determine the State's total liability. This decision was appealed to the Tenth District Court of Appeals, which reversed the decision in part. The plaintiff-class unsuccessfully sought a discretionary appeal in the Ohio Supreme Court. The trial court ordered Commerce to calculate its liability and share that information with the plaintiff-class counsel. A trial is scheduled for December 22, 2011. The State's ultimate liability will be paid from the Unclaimed Funds Account.

The ultimate outcome of this litigation cannot be presently determined. Accordingly, no provision for any liability resulting from this case has been reported in the financial statements.

NOTE 19 CONTINGENCIES AND COMMITMENTS (Continued)

Department of Transportation

In litigation between plaintiff Ohio Department of Transportation and Norfolk Southern Railway, the plaintiff sought partial acquisition of property from a larger parcel owned by Norfolk Southern Railway in connection with construction of a new bridge on Interstate 90 in Cleveland. An agreement for the plaintiff to purchase the entire parcel of land for a total of \$29.8 million was reached on June 6, 2011. All money had been paid either through the Cuyahoga County Probate Court or directly to the defendant by September 30, 2011, and the final settlement entry was journalized on October 6, 2011.

At June 30, 2011, \$26.8 million remains payable to the defendant as a result of this case. A liability of \$26.8 million has been included as "Refund and Other Liabilities" for the nonmajor governmental funds in the governmental funds Balance Sheet and for governmental activities in the government-wide Statement of Net Assets.

Bureau of Workers' Compensation/Industrial Commission (BWC/IC)

A class action case was filed against BWC alleging that non-group-rated employers subsidize group-rated employers, and that this bias in premiums violates various provisions of the Ohio Constitution. Plaintiffs have asked the court to declare the group rating plan unconstitutional and require BWC to repay to the class members all excessive premiums collected by BWC, with interest and attorney fees. In April 2008, plaintiffs filed a motion for a preliminary injunction enjoining BWC from enforcing the group rating statutes during pendency of the action (beginning July 1, 2008). A hearing was held on the injunction request in August 2008. In December 2008, the Cuyahoga County Common Pleas Court issued the requested preliminary injunction restraining BWC from continuing its current group rating plan for the policy year beginning July 1, 2009. At the same time, the common pleas court ordered that BWC enact a group retrospective rating plan for the policy year beginning July 1, 2009. BWC filed an appeal and a motion for stay with the common pleas court. On December 17, 2008, the General Assembly passed House Bill 79 clarifying that Ohio's group rating program was not intended to be retrospective only. On January 6, 2009, the Governor signed the bill making it effective immediately. On January 7, 2009, BWC filed a motion to dissolve the preliminary injunction and in March 2009 the common pleas court issued an order vacating the preliminary injunction. Plaintiff has filed a motion for class certification and BWC filed a response in opposition. In January 2010, the common pleas court granted class certification and BWC has appealed. Oral arguments on BWC's appeal of the class certification were held on February 16, 2011. On April 7, 2011, the court issued its written decision affirming the trial court's decision to grant class certification and remanding the case to trial court. The parties will litigate the merits and the question of damages in the trial court. There is a second case with virtually identical claims that was consolidated with this case but was recently voluntarily dismissed by plaintiff. The ultimate outcome of the litigation cannot presently be determined.

All other legal proceedings are not, in the opinion of management after consultation with the Attorney General, likely to have a material adverse effect on the State's financial position.

B. Federal Awards

The State of Ohio receives significant awards from the Federal Government in the form of grants and entitlements, including certain non-cash programs. Receipt of grants is generally conditioned upon compliance with terms and conditions of the grant agreements and applicable federal regulations, including the spending resources for eligible purposes. Substantially all grants are subject to either the Federal Single Audit or to financial compliance audits by the grantor agencies of the federal government or their designees. Disallowances and sanctions as a result of these audits may become liabilities to the State.

As a result of the fiscal year 2010 State of Ohio Single Audit (issued in March 2011), \$105 million of federal expenditures were in question as not being appropriate under the terms of the respective grants. The State has requested a consideration for reversal of the questioned costs from the federal government. No provision for any liability or adjustments has been recognized for the questioned costs in the state's financial statements for the fiscal year ended June 30, 2011.

NOTE 19 CONTINGENCIES AND COMMITMENTS (Continued)

C. Loan Commitments

As of June 30, 2011, commitments to finance program loans from the primary government's budgeted General Fund are detailed below (dollars in thousands):

General Fund

Ohio Public Works Commission:

State Capital Improvements Loans	\$73,201
Revolving Loans	65,161
Total	<u>\$138,362</u>

As of December 31, 2010, loan commitments for the Ohio Water Development Authority, a discretely presented major component unit, were as follows (dollars in thousands):

Water Pollution Control Loan ...	\$749,455
Fresh Water	128,448
Drinking Water Assistance	46,423
Community Assistance	8,066
Rural Utility Services	10,373
Other Projects	11,947
Total	<u>\$954,712</u>

The Authority intends to meet these commitments using available funds and grant commitments from the U.S. Environmental Protection Agency.

D. Construction Commitments

As of June 30, 2011, the Ohio Department of Transportation had total contractual commitments of approximately \$2.5 billion for highway construction projects. Funding for future projects is expected to be provided from federal, primary government, general obligation and revenue bonds, and local government sources in amounts of \$1.69 billion, \$344.8 million, \$411 million and \$58.4 million, respectively.

As of June 30, 2011, other major non-highway construction commitments for the primary government's budgeted capital projects funds and major discretely presented component unit funds were as follows (dollars in thousands):

Primary Government

Mental Health/Developmental Disabilities	
Facilities Improvements	\$37,579
Parks and Recreation Improvements	10,767
Administrative Services	
Building Improvements	15,313
Youth Services Building Improvements	12,644
Adult Correctional Building Improvements	19,938
Highway Safety Building Improvements	180
Ohio Parks and Natural Resources	9,417
Total	<u>\$105,838</u>

Maio Component Units

Ohio State University	\$884,160
University of Cincinnati	283,651

NOTE 19 CONTINGENCIES AND COMMITMENTS (Continued)

E. Tobacco Settlement

In November 1998, the Attorneys General of 46 states, five U.S. territories, and the District of Columbia signed the Master Settlement Agreement (MSA) with the nation's largest tobacco manufacturers. This signaled the end of litigation brought by the Attorneys General against the manufacturers in 1996 for state healthcare expenses attributed to smoking-related claims. The remaining four states (Florida, Minnesota, Mississippi, and Texas) settled separately.

According to the MSA, participating tobacco manufacturers are required to adhere to a variety of new marketing and lobbying restrictions and provide payments to the states in perpetuity.

As of October 23, 2007, the State transferred future rights to the Master Settlement Agreement revenue to the Buckeye Tobacco Settlement Financing Authority (BTSFA).

While BTSFA's share of the total base payments to the states through 2052 will not change over time, estimating the amount of annual payments that actually will be received in any given year can be complex, since under the terms of the MSA, payments are subject to a number of adjustment factors, including an inflation adjustment, a volume adjustment, and a potential adjustment for market share losses of participating manufacturers. Some of these adjustments, such as the inflation adjustment, result in BTSFA receiving higher payments. Other factors, such as the volume adjustment and the market share adjustment can work to reduce the amount of the State's annual payments.

In addition to the base payments, BTSFA will receive payments from the Strategic Contribution Fund. The Strategic Contribution Fund was established to reward states that played leadership roles in the tobacco litigation and settlement negotiations. Allocations from the fund are based on a state's contribution to the litigation and settlement with the tobacco companies. These payments are also subject to the adjustment factors outlined in the MSA.

During fiscal year 2011, Ohio received \$289.3 million, which is approximately \$89.7 million or 23.7 percent less than the pre-adjusted base payment for the year.

As of June 30, 2011, the estimated tobacco settlement receivable in the amount of \$356.9 million is included in "Other Receivables" reported for the governmental funds. The receivable includes \$105.7 million for payments withheld from BTSFA beginning fiscal year 2008 and \$73.9 million for payments withheld from the State for fiscal years 2006 and 2007. These amounts were withheld by the cigarette manufacturers when they exercised the market share loss provisions of the MSA. The monies are on deposit in an escrow account until pending litigation between the States and the manufacturers is resolved. Both the Authority and the State contend that they have met their obligations under the MSA and are due the payments withheld.

The Tobacco Settlement receipts provide funding for the construction of primary and secondary school capital facilities, education technology for primary and secondary education and for higher education, programs for smoking cessation and other health-related purposes, biomedical research and technology, and assistance to tobacco-growing areas in Ohio.

The BTSFA revenue bonds are secured by and payable solely from the tobacco settlement receipts and other collateral pledged under an indenture between BTSFA and U.S. Bank National Association, as trustee. In the event that the assets of BTSFA have been exhausted, no amounts will thereafter be paid on the bonds.

The enforcement of the terms of the MSA has been challenged by lawsuits and may continue to be challenged in the future. In the event of an adverse court ruling, BTFSA may not have adequate financial resources to make payment on the bonds.

A schedule of pre-adjusted base payments and payments from the Strategic Contribution Fund for the State of Ohio in future years follows (dollars in thousands):

NOTE 19 CONTINGENCIES AND COMMITMENTS (Continued)

Year Ending June 30,	Pre-adjusted MSA Base Payments	Pre-Adjusted Payments from the Strategic Contribution Fund	Total
2012.....	\$359,652	\$23,694	\$383,346
2013.....	363,783	23,966	387,749
2014.....	367,789	24,230	392,019
2015.....	371,684	24,486	396,170
2016.....	376,306	24,791	401,097
2017-2021.....	2,136,348	25,096	2,161,444
2022-2026.....	2,316,649	—	2,316,649
2027-2031.....	2,472,971	—	2,472,971
2032-2036.....	2,640,790	—	2,640,790
2037-2041.....	2,812,833	—	2,812,833
2042-2046.....	2,993,720	—	2,993,720
2047-2051.....	3,187,256	—	3,187,256
2052.....	662,283	—	662,283
Total	<u>\$21,062,064</u>	<u>\$146,263</u>	<u>\$21,208,327</u>

F. Pollution Remediation Activities

During fiscal year 2011, the State was involved in remediation activities for pollution at various sites. These activities include site investigation, cleanup, and monitoring. The following describe the sites and the estimated cost of remediation activities (in general, projects with a liability of less than \$100 thousand at June 30 are not listed):

The Ohio Environmental Protection Agency (EPA) is involved in the following pollution remediation activities:

- As a result of the imminent danger to public health, EPA has assumed responsibility for operating and maintaining the collection and treatment system at the Lincoln Fields contaminated water system in Mansfield. The liability at June 30 is estimated at \$1.1 million. Cost was estimated by the EPA site coordinator using actual invoices to date.
- As a result of the imminent danger to public health, EPA’s director agreed to a cleanup order of the contaminated groundwater for the Village of McConnelsville. The State was also named as an actual or potential responsible party in a lawsuit. At the conclusion of the investigation, the State has obligated itself in some fashion to perform or assist in the remediation. The limit of the State’s liability is equal to the \$812 thousand that the State collected from a bankruptcy settlement.
- As a result of the imminent danger to public health and the laws of the State regarding construction and demolition debris landfills, the EPA continues its progress in the cleanup of these landfill sites across the State. As of June 30, 2011, the estimated cost of remediation activities currently in progress and additional planned activities is approximately \$165 thousand. Cost was estimated by the EPA site coordinator using actual invoices to date.

In accordance with Resource Conservation Recovery Act (RCRA) regulations, the Ohio Department of Natural Resources (DNR) continues pollution monitoring and maintenance activities at the closed Cowan Lake S. P. Wood Treatment Plant at an estimated cost of \$326 thousand. DNR estimated the cost using previous invoices to date and projecting the costs over the remaining 19 year commitment to test the site for contamination.

The Ohio Department of Public Safety has been named as a responsible party to remediate pollution resulting from soil (sandstone) contamination that may be coming from a former underground storage facility at one of its sites. Due to the nature of the activity, cost estimates are currently unavailable.

The Ohio Department of Transportation has been named as a responsible party to remediate pollution at seven sites owned by the agency. The pollution at five of the sites is the result of underground storage tank leaks.

NOTE 19 CONTINGENCIES AND COMMITMENTS (Continued)

Another two sites have contaminated soils on the agency-owned property and contaminated groundwater on the surrounding properties. In total, the June 30 liability to eliminate the pollution and continue monitoring activities is estimated to be \$2.6 million. Cost was estimated by the onsite coordinators using actual invoices to date.

The liabilities described above are reported as "Refund and Other Liabilities," "Other Noncurrent Liabilities-Due in One Year," and "Other Noncurrent Liabilities-Due in More Than One Year" for governmental activities in the government-wide Statement of Net Assets. The reported liabilities for these activities are estimates and are subject to change over time. Variances in the final costs may result from changes in technology, changes in responsible parties, results of environmental studies, and changes in laws and regulations. Future recoveries from other responsible parties may also reduce the final cost paid by the State.

Capital assets may be created during the pollution remediation process. These capital assets will be reported in accordance with the State's capital assets policy. As of June 30, 2011, no capital assets were created nor reported as a result of any pollution remediation process.

G. Encumbrances

At June 30, 2011, the State has significant encumbrances of \$241.7 million in the General Fund, \$1.21 billion in the Job, Family and Other Human Services Special Revenue Fund, and \$4.1 billion in the nonmajor governmental funds.

NOTE 20 RISK FINANCING

A. Workers' Compensation Benefits

The Ohio Workers' Compensation System, which the Ohio Bureau of Workers' Compensation and the Industrial Commission of Ohio administer, is the exclusive provider of workers' compensation insurance to private and public employers in Ohio who are not self-insured. The Workers' Compensation Enterprise Fund provides benefits to employees for losses sustained from job-related injury, disease, or death.

"Benefits Payable" of \$18.01 billion is reported in the Workers' Compensation Enterprise Fund (Fund) as of June 30, 2011. This amount represents reserves for indemnity and medical claims resulting from work-related injuries or illnesses, including actuarial estimates for both reported claims and claims incurred but not reported. The liability is based on the estimated ultimate cost of settling claims, including the effects of inflation and other societal and economic factors and projections as to future events, including claims frequency, severity, persistency, and inflationary trends for medical claims reserves. The compensation adjustment expenses liability, which is included in "Other Liabilities" in the amount of approximately \$1.94 billion, is an estimate of future expenses to be incurred in the settlement of claims. The estimate for this liability is based on projected claim-related expenses, estimated costs of the managed care Health Partnership Program, nonincremental adjustment expense, and the reserve for compensation.

Management of the Bureau of Workers' Compensation and the Industrial Commission believes that the recorded reserves for compensation and compensation adjustment expenses make for a reasonable and appropriate provision for expected future losses. While management uses available information to estimate the reserves for compensation and compensation adjustment expenses, future changes to the reserves for compensation and compensation adjustment expenses may be necessary based on claims experience and changing claims frequency and severity conditions. The methods of making such estimates and for establishing the resulting liabilities are reviewed quarterly and updated based on current circumstances. Any adjustments resulting from changes in estimates are recognized in the current period.

Benefits payable and the compensation adjustment expenses liability have been discounted at four percent to reflect the present value of future benefit payments. The selected discount rate approximates an average yield on United States government securities with durations similar to the expected claims underlying the Fund's reserves. The undiscounted reserves for the benefits and compensation adjustment expenses totaled \$32.5 billion, as of June 30, 2011, and \$32.2 billion, as of June 30, 2010. For additional information, refer to the Fund's separate audited financial report, for the fiscal year ended June 30, 2011.

NOTE 20 RISK FINANCING (Continued)

Changes in the balance of benefits payable and the compensation adjustment expenses liability for the Workers' Compensation Program during the past two fiscal years are presented in the table below.

Primary Government		
Changes in Workers' Compensation Benefits Payable and Compensation Adjustment Expenses Liability		
Last Two Fiscal Years		
<i>(dollars in millions)</i>		
	Fiscal Year 2011	Fiscal Year 2010
Benefits Payable and Compensation Adjustment Expenses Liability, as of July 1	\$19,804	\$19,246
Incurred Compensation and Compensation Adjustment Benefits.....	2,239	2,737
Incurred Compensation and Compensation Adjustment Benefit Payments and Other Adjustments	<u>(2,093)</u>	<u>(2,179)</u>
Benefits Payable and Compensation Adjustment Expenses Liability, as of June 30	<u>\$19,950</u>	<u>\$19,804</u>

B. State Employee Healthcare Plans

Employees of the primary government have the option of participating in the Ohio Med Health Plan, the United Healthcare Plan, or the Aetna Plan, which are fully self-insured health benefit plans.

Ohio Med, a preferred provider organization, was established July 1, 1989. Medical Mutual of Ohio administers the Ohio Med plan under a claims administration contract with the primary government.

The United Healthcare and the Aetna plans, originally health maintenance organizations, became self-insured healthcare plans of the State on July 1, 2002 and July 1, 2005, respectively.

All plans have contracts with the primary government to serve as claims administrator. Benefits offered while under the State's administration are essentially the same as the benefits offered before the two plans became self-insured arrangements.

When it is probable that a loss has occurred and the amount of the loss can be reasonably estimated, the primary government reports liabilities for the governmental and proprietary funds. Liabilities include an amount for claims that have been incurred but not reported. The plans' actuaries calculate estimated claims liabilities based on prior claims data, employee enrollment figures, medical trends, and experience.

Governmental and proprietary funds pay a share of the costs for claims settlement based on the number of employees opting for plan participation and the type of coverage selected by participants. The payments are reported in the Payroll Withholding and Fringe Benefits Agency Fund until such time that the primary government pays the accumulated resources to Medical Mutual of Ohio, United Healthcare, or Aetna for claims settlement.

For governmental funds, the primary government recognizes claims as expenditures to the extent that the amounts are payable with expendable available financial resources. For governmental and business-type activities, claims are recognized in the Statement of Activities as expenses when incurred.

NOTE 20 RISK FINANCING (Continued)

As of June 30, 2011, approximately \$124.8 million in total assets was available in the Payroll Withholding and Fringe Benefits Agency Fund to cover claims for the Ohio Med Health Plan. Changes in the balance of claims liabilities for the plan during the past two fiscal years were as follows (dollars in thousands):

Ohio Med Health Plan		
	Fiscal Year 2011	Fiscal Year 2010
Claims Liabilities, as of July 1	\$ 33,046	\$ 31,214
Incurred Claims	258,766	243,438
Claims Payments	(257,206)	(241,606)
Claims Liabilities, as of June 30	<u>\$ 34,606</u>	<u>\$ 33,046</u>

As of June 30, 2011, the resources on deposit in the Agency Fund for the Ohio Med Health Plan exceeded the estimated claims liability by approximately \$90.2 million, thereby resulting in a funding surplus. Eighty-five percent or \$76.7 million of the surplus, representing the employer share, was reallocated back to the governmental and proprietary funds, with a resulting reduction in expenditures/expenses.

As of June 30, 2011, no assets were available in the Payroll Withholding and Fringe Benefits Agency Fund to cover claims incurred by June 30 for the United Healthcare Plan, thereby resulting in a funding deficit. Changes in the balance of claims liabilities for the plan during the past two fiscal years were as follows (dollars in thousands):

United Healthcare Plan		
	Fiscal Year 2011	Fiscal Year 2010
Claims Liabilities, as of July 1	\$ 8,582	\$ 7,887
Incurred Claims	68,521	69,200
Claims Payments	(68,680)	(68,505)
Claims Liabilities, as of June 30	<u>\$ 8,423</u>	<u>\$ 8,582</u>

As of June 30, 2011, the estimated claims liability exceeded resources on deposit in the Agency Fund for the United Healthcare Plan by approximately \$63.5 million, thereby resulting in a funding deficit. Eighty-five percent or \$54 million of the deficit, representing the employer share, was reallocated back to the governmental and proprietary funds, with a resulting increase to expenditures/expenses.

As of June 30, 2011, approximately \$27.6 million in total assets was available in the Payroll Withholding and Fringe Benefits Agency Fund to cover claims incurred by June 30 for the Aetna Plan, thereby resulting in a funding surplus. Changes in the balance of claims liabilities for the plan during the past two fiscal years were as follows (dollars in thousands):

Aetna Plan		
	Fiscal Year 2011	Fiscal Year 2010
Claims Liabilities, as of July 1	\$ 10,129	\$ 12,729
Incurred Claims	71,777	75,350
Claims Payments	(73,482)	(77,950)
Claims Liabilities, as of June 30	<u>\$ 8,424</u>	<u>\$ 10,129</u>

NOTE 20 RISK FINANCING (Continued)

As of June 30, 2011, the resources on deposit in the Agency Fund for the Aetna Plan exceeded the estimated claims liability by approximately \$19.1 million, thereby resulting in a funding surplus. Eighty-five percent or \$16.3 million of the surplus, representing the employer share, was reallocated back to the governmental and proprietary funds, with a resulting reduction in expenditures/expenses.

C. Other Risk Financing Programs

The primary government has established programs to advance fund potential losses for vehicular liability and theft in office. The potential amount of loss arising from these risks, however, is not considered material in relation to the State's financial position.

NOTE 21 SUBSEQUENT EVENTS

A. Bond Issuances

Subsequent to June 30, 2011 (December 31, 2010, for the Ohio Water Development Authority), the State issued major debt as detailed in the table below:

Debt Issuances			
Subsequent to June 30, 2011			
<i>(dollars in thousands)</i>

Total University of Cincinnati			<u>\$89,225</u>

NOTE 21 SUBSEQUENT EVENTS (Continued)

B. Department of Natural Resources

In the *Doner v. Zody* case, approximately 84 landowners seek a writ of mandamus ordering the Ohio Department of Natural Resources (DNR) to appropriate their lands which are alleged to have been “taken” as a result of a 1997 change to the spillway at Grand Lake St. Marys in Mercer County. On August 10, 2009, a Motion to Dismiss based on statute of limitations arguments was filed on behalf of defendant, which was denied on September 30, 2009, by the Ohio Supreme Court. At that time, a schedule was set for the submission of briefs and evidence. Oral argument was held on September 20, 2011. On December 1, 2011, the Ohio Supreme Court ruled unanimously in favor of the plaintiffs, holding that the actions of DNR to modify the spillway and to cease adjusting water levels at Grand Lake St. Marys constituted a taking of the plaintiffs’ property since those decisions caused intermittent, recurrent flooding on their properties. The Court did not specify how much property was taken or what the dollar value of the impact to the property was. Those amounts will be determined by subsequent litigation filed in Mercer County Common Pleas Court. Defendant plans to enter into settlement negotiations, but the ultimate outcome of this litigation cannot be presently determined. Accordingly, no provision for any liability resulting from this case has been reported in the financial statements.

[THIS PAGE LEFT BLANK INTENTIONALLY]

REQUIRED SUPPLEMENTARY INFORMATION

Infrastructure Assets Accounted for Using the Modified Approach

Pavement Network

The Ohio Department of Transportation conducts annual condition assessments of its Pavement Network. The State manages its pavement system by means of annual, visual inspections by trained pavement technicians. Technicians rate the pavement using a scale of 1 (minimum) to 100 (maximum) based on a Pavement Condition Rating (PCR). This rating examines items such as cracking, potholes, deterioration of the pavement, and other factors. It does not include a detailed analysis of the pavement's subsurface conditions.

For the Priority Subsystem, it is the State's intention to maintain at least 75 percent of the pavement at a PCR level of at least 65, and to allow no more than 25 percent of the pavement to fall below a 65 PCR level. For the General Subsystem, it is the State's intention to maintain at least 75 percent of the pavement at a PCR level of at least 55, and to allow no more than 25 percent of the pavement to fall below a 55 PCR level.

Ohio accounts for its pavement network in two subsystems: *Priority*, which comprises interstate highways, freeways, and multi-lane portions of the National Highway System, and *General*, which comprises two-lane routes outside of cities.

Bridge Network

The Ohio Department of Transportation conducts annual inspections of all bridges in the State's Bridge Network. The inspections cover major structural items such as piers and abutments, and assign a General Appraisal Condition Rating (GACR) from 0 (minimum) to nine (maximum) based on a composite measure of these major structural items.

It is the State's intention to maintain at least 85 percent of the square feet of deck area at a general appraisal condition rating level of at least five, and to allow no more than 15 percent of the number of square feet of deck area to fall below a general appraisal condition rating level of five.

NONMAJOR SPECIAL REVENUE FUNDS

Special Revenue Funds account for specific revenues that are legally restricted to expenditure for particular purposes.

The **Education Fund** fund accounts for programs administered by the Department of Education, the Ohio Board of Regents, and other various state agencies, which prescribe the State's minimum educational requirements and which provide funding and assistance to local school districts for basic instruction and vocation and technical job training, and to the State's colleges and universities for post-secondary education.

The **Highway Operating Fund** accounts for programs administered by the Department of Transportation, which is responsible for the planning and design, construction, and maintenance of Ohio's highways, roads, and bridges and for Ohio's public transportation programs.

The **Community and Economic Development Fund** accounts for programs administered by the Department of Development and other various state agencies, which were created to assure the efficient use of resources for the State's community and economic growth and development.

The **Health Fund** accounts for public health programs primarily administered by the Department of Health, which promotes the prevention and treatment of diseases and illnesses through technical assistance, health education, and research.

The **Mental Health and Developmental Disabilities Fund** accounts for mental health care and developmental disabilities programs pri-

marily administered by the Department of Mental Health and the Department of Developmental Disabilities, which provide assistance, services, and medical care to those individuals with mental health and developmental disability problems.

The **Highway Safety Fund** accounts for public safety programs primarily administered by the Department of Public Safety, which enforces traffic-related laws for the purpose of reducing accidents, deaths, injuries, and property damages on Ohio's highways.

The **Natural Resources Fund** accounts for environmental programs administered by the Department of Natural Resources, the Environmental Protection Agency, and other various state agencies, which promote, protect, and manage the State's natural resources and environment.

The **Wildlife and Waterways Safety Fund** accounts for programs administered by the Department of Natural Resources' Divisions of Wildlife and Watercraft, which promote, protect, and manage the State's wildlife and waterways and which provide technical assistance and education to the public.

The **Tobacco Settlement Fund** accounts for various health, education, economic, and law enforcement-related programs funded with moneys received under the Master Settlement Agreement with the nation's largest tobacco companies.

NONMAJOR DEBT SERVICE FUNDS

Debt Service Funds account for the resources accumulated and payments made for principal and interest on long-term debt of the governmental funds.

The **Coal Research/Development General Obligations Fund** accounts for the payment of principal and interest on general obligation bonds that have been authorized under Section 15 of Article VIII, Ohio Constitution, to finance coal research and development projects.

The **Improvements General Obligations Fund** accounts for the payment of principal and interest on general obligation bonds that have been authorized under Section 2f of Article VIII, Ohio Constitution, to finance the improvement of higher education facilities, public schools, and natural resources.

The **Highway Improvements General Obligations Fund** accounts for the payment of principal and interest on general obligation bonds that have been authorized under Section 2g of Article VIII, Ohio Constitution, to finance the acquisition of rights-of-way and the construction and reconstruction of the State's highways and urban extensions.

The **Development General Obligations Fund** accounts for the payment of principal and interest on general obligation bonds that have been authorized under Section 2h of Article VIII, Ohio Constitution, to finance the construction, improvement, and development of higher education facilities, public schools, and natural resources.

The **Highway General Obligations Fund** accounts for the payment of principal and interest on general obligation bonds that have been authorized under Section 2i of Article VIII, Ohio Constitution, to finance the construction of the State's highways.

The **Public Improvements General Obligations Fund** accounts for the payment of principal and interest on general obligation bonds that have been authorized under Section 2i of Article VIII, Ohio Constitution, to finance water pollution controls and improvements at higher education facilities, parks, and natural resources.

The **Vietnam Conflict Compensation General Obligations Fund** accounts for the payment of principal and interest on general obligation bonds that have been authorized under Section 2j of Article VIII, Ohio Constitution, to provide funding for the compensation to Ohioans that served in the military during the Vietnam Conflict.

The **Local Infrastructure Improvements General Obligations Fund** accounts for the payment of principal and interest on general obligation bonds that have been authorized under Section 2k of Article VIII, Ohio Constitution, to finance the cost of local government's public infrastructure improvement projects.

The **State Projects General Obligations Fund** accounts for the payment of principal and interest on general obligation bonds that have been authorized under Section 2l of Article VIII, Ohio Constitution, to finance capital improvements at state and local parks and other natural resources-related projects.

The **Highway Capital Improvements General Obligations Fund** accounts for the payment of principal and interest on general obligation bonds that have been authorized under Section 2m of Article VIII, Ohio Constitution, to finance capital improvements to the state highway system.

The **Higher Education Capital Facilities General Obligations Fund** accounts for the payment of principal and interest on general obligation bonds that have been authorized under Section 2n of Article VIII, Ohio Constitution, to finance the costs of capital facilities for state-supported and state-assisted institutions of higher education, including those for technical education.

The **Common Schools Capital Facilities General Obligations Fund** accounts for the payment of principal and interest on general obligation bonds that have been authorized under Section 2n of Article VIII, Ohio Constitution, to finance the costs of facilities for a system of common schools throughout Ohio.

The **Conservation Projects General Obligations Fund** accounts for the payment of principal and interest on general obligation bonds that have been authorized under Section 2o of Article VIII, Ohio Constitution, to finance the purchase of additional “greenspace” land or interest in land devoted to natural areas, open spaces, and agriculture.

The **Third Frontier Research/Development General Obligations Fund** accounts for the payment of principal and interest on general obligation bonds that have been authorized under Section 2p of Article VIII, Ohio Constitution, to finance research and development in support of Ohio industry, commerce, and business.

The **Job Ready Site Development General Obligations Fund** accounts for the payment of principal and interest on general obligation bonds that have been authorized under Section 2p of Article VIII, Ohio Constitution, to finance the development of sites for industry, distribution, commerce, and research and development.

The **Persian Gulf Conflict Compensation General Obligations Fund** accounts for the payment of principal and interest on general obligation bonds that have been authorized under Section 2r of Article VIII, Ohio Constitution, to pay compensation to veterans of the Persian Gulf, Afghanistan, and Iraq Conflicts.

The **Economic Development Revenue Bonds Fund** accounts for the payment of principal and interest on revenue bonds issued to finance loans to individuals, corporations, and agencies within the State for economic development projects that create or retain jobs in the State.

The **Infrastructure Bank Revenue Bonds Fund** accounts for the payment of principal and interest on revenue bonds that have been authorized under the authority of Section 5531.10, Ohio Revised Code, to finance the construction of the Spring-Sandusky Highway Project in Columbus.

The **Revitalization Project Revenue Bonds Fund** accounts for the payment of principal and interest on revenue bonds to finance the costs of environmentally safe and productive development, use, or reuse of publicly and privately owned lands, including those within urban areas.

The **Chapter 154 Special Obligations Fund** accounts for the payment of principal and interest on special obligation bonds issued to finance the construction of higher education facilities, mental health facilities, parks and recreation projects and facilities, and Cultural Facilities Commission projects.

The **Ohio Building Authority Special Obligations Fund** accounts for the payment of principal and interest on special obligation bonds issued to finance the construction of state office buildings and the costs of capital improvements for the Departments of Administrative Services, Youth Services, Transportation, Rehabilitation and Correction, Natural Resources, and Public Safety.

The **Transportation Certificates of Participation Fund** accounts for the payment of certificate of participation-related obligations that financed the acquisition of the Department of Transportation’s Panhandle Rail Line Project.

The **OAKS Certificates of Participation Fund** accounts for the payment of certificate of participation-related obligations that finance the State’s enterprise resource planning system project, known as the Ohio Administrative Knowledge System (OAKS).

The **STARS Certificates of Participation Fund** accounts for the payment of certificates of participation related obligations that finance the State’s Taxation Accounting and Revenue System, known as STARS.

NONMAJOR CAPITAL PROJECTS FUNDS

Capital Projects Funds account for the acquisition and construction of major capital facilities other than those financed by proprietary funds and trust funds.

The **Infrastructure Bank Obligations Fund** accounts for revenue bond proceeds that finance various highway construction projects sponsored by the Department of Transportation.

The **Mental Health/Developmental Disabilities Facilities Improvements Fund** accounts for special obligation bond proceeds that finance the construction of mental health/developmental disabilities facilities.

The **Parks and Recreation Improvements Fund** accounts for special obligation bond proceeds that finance the capital improvement of parks and recreation facilities.

The **Administrative Services Building Improvements Fund** accounts for special obligation bond proceeds that finance capital improvements for the Department of Administrative Services.

The **Youth Services Building Improvements Fund** accounts for special obligation bond proceeds that finance capital improvements for the Department of Youth Services.

The **Adult Correctional Building Improvements Fund** accounts for special obligation bond proceeds that finance capital improvements for the Department of Rehabilitation and Correction.

The **Highway Safety Building Improvements Fund** accounts for special obligation bond proceeds that finance capital improvements for the Department of Public Safety.

The **Ohio Parks and Natural Resources Fund** accounts for general obligation bond proceeds that finance capital improvements for state and local parks and other natural resources-related projects.

The **Highway Capital Improvement Fund** accounts for general obligation bond proceeds that finance capital improvements to the state highway system.

The **OAKS Project Fund** accounts for certificate of participation proceeds that finance the costs of the Ohio Administrative Knowledge System (OAKS) project, which is a statewide enterprise resource planning system.

The **STARS Project Fund** accounts for certificate of participation proceeds that finance the costs of the State's Taxation Accounting and Revenue System (STARS) technology project.

NONMAJOR ENTERPRISE FUNDS

Enterprise Funds may be used to report any activity for which a fee is charged to external users for goods or services.

The **Ohio Building Authority Fund** accounts for the Authority's local government office building lease operations and for the maintenance of all government office buildings owned or leased by the Authority.

The **Tuition Trust Authority Fund** accounts for the operations of the Ohio Tuition Trust Authority, including the sale of tuition credits under its guaranteed return option program.

The **Liquor Control Fund** accounts for the State's liquor sales operations of the Ohio Department of Commerce's Division of Liquor Control.

The **Underground Parking Garage Fund** accounts for the operations of the State's underground parking facilities at Capitol Square in Columbus.

The **Office of Auditor of State Fund** accounts for the operations of the Ohio Auditor of State's Office, which provides government audit and management advisory services to Ohio's public offices.

AGENCY FUNDS

Agency Funds account for resources the State holds in a purely custodial capacity (assets equal liabilities) for individuals, private organizations, or other governments.

The **Holding and Distribution Fund** accounts for assets held until such time that a determination has been made to refund amounts to the individuals, private organizations, or other governments.

The **Centralized Child Support Collections Fund** accounts for assets temporarily held for custodial parents.

The **Retirement Systems Fund** accounts for assets held in the custody of the Treasurer of State for the Ohio Public Employees Retirement System, Ohio Police and Fire Pension Fund, School Employees Retirement System of Ohio, and State Teachers Retirement System of Ohio. While legal custodian, the Treasurer of State does not manage or provide investment services to the foregoing retirement systems.

The **Payroll Withholding and Fringe Benefits Fund** primarily accounts for assets held to liquidate the State's payroll withholding obligations.

The **Other Fund** accounts for assets held for others, which are not accounted for in another agency fund.

NONMAJOR DISCRETELY PRESENTED COMPONENT UNIT FUNDS

Nonmajor Discretely Presented Component Unit Funds account for the financial activities of the State of Ohio's component units, organizations that are legally separate from the State's primary government and for which the primary government is financially accountable.

The **Cultural Facilities Commission Fund** accounts for the Cultural Facilities Commission's operations, including the construction of cultural arts and sports facilities at the state and local level.

The **eTech Ohio Commission Fund** accounts for the eTech Ohio Commission's operations, including programs designed to assist Ohio's public schools acquire and maximize the use of educational technology.

The **Ohio Air Quality Development Authority Fund** accounts for the Ohio Air Quality Development Authority's operations, including programs that assist Ohio's businesses, government agencies, and not-for-profit organizations with financing projects that increase energy efficiency and reduce air pollution. The Authority's financial statements are presented for the fiscal year ended December 31, 2009.

The **Ohio Capital Fund** accounts for the operations of the State's venture capital program fund.

The **Ohio University Fund** accounts for the operations of Ohio University and the Ohio University Foundation. The university is located in Athens, Ohio.

The **Miami University Fund** accounts for the operations of Miami University and the Miami University Foundation. The university is located in Oxford, Ohio.

The **University of Akron Fund** accounts for the operations of the University of Akron, the University of Akron Foundation, and the University of Akron Research Foundation.

The **Bowling Green State University Fund** accounts for the operations of Bowling Green State University and the Bowling Green State University Foundation.

The **Kent State University Fund** accounts for the operations of Kent State University and the Kent State University Foundation.

The **University of Toledo Fund** accounts for the operations of the University of Toledo, the University of Toledo Foundation and the Medical University of Ohio at Toledo Foundation (the foundations), and the University of Toledo Clinical Faculty, Inc.

The **Cleveland State University Fund** accounts for the operations of Cleveland State University, the Cleveland State University Foundation, and the Euclid Avenue Housing Corporation.

The **Youngstown State University Fund** accounts for the operations of Youngstown State University, the Youngstown State University Foundation, and the University Housing Corporation.

The **Wright State University Fund** accounts for the operations of Wright State University and the Wright State University Foundation. The university is located in Dayton, Ohio.

The **Shawnee State University Fund** accounts for the operations of Shawnee State University and the Shawnee State University Development Foundation. The university is located in Portsmouth, Ohio.

The **Central State University Fund** accounts for the operations of Central State University and the Central State University Foundation. The university is located in Wilberforce, Ohio with a branch campus in Dayton, Ohio.

The **Terra State Community College Fund** accounts for the operations of Terra State Community College and Terra College Foundation. The college is located in Fremont, Ohio.

The **Columbus State Community College Fund** accounts for the operations of Columbus State Community College and the Columbus State Community College Development Foundation, Inc.

The **Clark State Community College Fund** accounts for the operations of Clark State Community College and the Clark State Community College Foundation. The college is located in Springfield, Ohio.

The **Edison State Community College Fund** accounts for the operations of Edison State Community College and the Edison Foundation, Inc. The college is located in Piqua, Ohio.

The **Southern State Community College Fund** accounts for the operations of Southern State Community College and the Southern State Community College Foundation. The college is located in Hillsboro, Ohio.

The **Washington State Community College Fund** accounts for the operations of Washington State Community College and the Washington State Foundation. The college is located in Marietta, Ohio.

The **Cincinnati State Community College Fund** accounts for the operations of Cincinnati State Community College.

The **Northwest State Community College Fund** accounts for the operations of Northwest State Community College and the Northwest State Community College Foundation. The college is located in Archbold, Ohio.

The **Owens State Community College Fund** accounts for the operations of Owens State Community College and the Owens State Community College Foundation. The college is located in Toledo, Ohio with a branch campus in Findlay, Ohio.

STATISTICAL SECTION

STATISTICAL SECTION

This section of the State of Ohio's Comprehensive Annual Financial Report presents detailed information as a context for understanding the information in the financial statements, note disclosures, and required supplementary information.

	<u>Pages</u>
Financial Trends	258-271
<p>These schedules contain trend information to assist the reader in understanding how the State's financial performance and condition have changed over time.</p>	
Revenue Capacity	272-283
<p>These schedules contain information to assist the reader in assessing the State's two most significant own-source revenues: income taxes and sales taxes.</p>	
Debt Capacity	284-292
<p>These schedules present information to assist the reader in assessing the affordability of the State's current levels of outstanding debt and its ability to issue additional debt in the future.</p>	
Economic and Demographic Information	294-297
<p>These schedules offer economic and demographic indicators to assist the reader in understanding the environment within which the State's financial activities take place.</p>	
Operating Information	298-305
<p>These schedules contain service and infrastructure data to assist the reader in understanding how the information in the State's financial report relates to the services the State provides and to the activities it performs.</p>	

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. In fiscal year 2002, the State implemented Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*; consequently, schedules presenting government-wide information commence with that year.

Note:

Beginning in fiscal year 2011, restricted net assets categories have been revised to correspond with the categories presented for restricted fund balance.

When practical, net assets reported on the above table have been restated for prior period adjustments, corrections, and reclassifications. However, restatements do not include changes in reporting entity. For comparative purposes, however, the effects of such adjustments and corrections on the revenue and expense activity reported for the applicable fiscal years on the "Changes in Net Assets" table may not have been determined for presentation on that table.

Ohio Office of Budget and Management

Notes:

Balances have been restated for prior period adjustments, corrections, and reclassifications, when practical.

For comparative purposes, data for fiscal year 2003 has not been restated for the effects of reclassifying the "Intergovernmental" expense function to other functions.

Note:

As a result of implementing GASB Statement 54: *Fund Balance Reporting and Governmental Fund Type Definitions*, fund balances have been classified in new categories beginning in fiscal year 2011.

When practical, fund balances reported on the above table have been restated for prior period adjustments, corrections, and reclassifications; however, restatements do not include changes in reporting entity. For comparative purposes, however, the effects of such adjustments and corrections on the revenue and expenditure activity reported for the applicable fiscal years on the "Changes in Fund Balances for Governmental Funds" table and the "Condensed Statement of Revenues, Expenditures and Changes in Fund Balances for the General Fund" table may not have been determined for presentation on each of the two respective tables.

Notes:

As a result of implementing GASB Statement 54: *Fund Balance Reporting and Governmental Fund Type Definitions*, the General Fund is reporting balances and activities previously reported within special revenue funds beginning in fiscal year 2011.

The July 1 fund balances, revenues, and expenditures have been restated for prior period adjustments, corrections, and reclassifications, when practical. Significant items of note are as follows:

- For comparative purposes, data for fiscal years 2001 through 2003 have not been restated for the effects of reclassifying the "Intergovernmental" expenditure function to other functions.

Note:

This table includes general and special obligation bonds for which debt service payments have been made from the following combining funds in the Debt Service and Capital Projects Funds. Balances have been restated for prior period adjustments, corrections, and reclassifications, when practical.

Debt Service Fund:

- Coal Research/Development General Obligations
- Highway General Obligations
- Local Infrastructure Improvements General Obligations
- State Projects General Obligations
- Highway Capital Improvements General Obligations
- Higher Education Capital Facilities General Obligations
- Common Schools Capital Facilities General Obligations
- Conservation Projects General Obligations
- Third Frontier Research/Development General Obligations
- Persian Gulf Conflict Compensation General Obligation
- Job Ready Site Development General Obligations
- Chapter 154 Special Obligations
- Higher Education Facilities Special Obligations**
- Mental Health Facilities Special Obligations **
- Parks and Recreation Facilities Special Obligations**
- School Building Program Special Obligation
- Ohio Building Authority Special Obligations

Capital Projects Fund:

- Mental Health/Developmental Disabilities Facilities Improvements
- Parks and Recreation Improvements
- Adult Correctional Building Improvements
- Administrative Service Building Improvements
- Youth Services Building Improvements
- Highway Safety Building Improvements
- Ohio Parks and Natural Resources
- Highway Capital Improvement

** - The activity previously reported in these Debt Service Funds is now reported in the Chapter 154 Special Obligations Fund.

Limitations on Debt

A 1999 amendment to the Ohio Constitution provides an annual debt service "cap" on general obligation bonds and other direct obligations payable from the General Revenue Fund (GRF) or net state lottery proceeds. Generally, such bonds may not be issued if the future fiscal year debt service on the new bonds and previously issued bonds exceeds five percent of total estimated GRF revenues plus net state lottery proceeds during the fiscal year of issuance. Application of the cap may be waived in a particular instance by a three-fifths vote of each house of the General Assembly and may be changed by future constitutional amendments. Direct obligations of the State include, for example, special obligation bonds issued by the Ohio Building Authority and the Treasurer of State that are paid from GRF appropriations, but exclude bonds such as highway bonds that are paid from highway user receipts.

Ohio Office of Budget and Management

Notes (continued):

- (C) Gross revenues consist of operating revenues and investment income.
- (E) The Bureau of Workers' Compensation's (BWC) investment income for fiscal year 2010 increased by approximately \$2 billion as a result of the implementation of a strategy to diversify fixed and equity investments, a comprehensive update to BWC's investment policy, and the selection of investment managers to execute its passive investment strategy.
- (F) In June 2007, House Bill 100 passed granting BWC the authority to assess employers in future periods for amounts needed to fund the Disabled Worker's Relief Fund. The net impact of this change was a \$1.9 billion increase in operating revenues during fiscal year 2007.
