Special appreciation is given to all fiscal and accounting personnel throughout the State whose extra efforts to contribute accurate, timely financial data for their agencies made this report possible.

Dave Yost • Auditor of State

INDEPENDENT AUDITOR'S REPORT

The Honorable John Kasich, Governor
State of Ohio
Columbus, Ohio

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Ohio (the State), as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the State's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We did not audit the financial statements of the following organizations which reflect the percentages of total assets and expenditures/expenses/deductions indicated for the related opinion units:

Opinion Unit	Organization	Percent of Opinion Unit's Total	
		Assets	Expenditures /Expenses /Deductions
Governmental Activities	Treasurer of State Lease Revenue Bonds	0%	1%
Business-Type Activities (BTA)	Ohio Bureau of Workers' Compensation, Office of the Auditor of State, and Tuition Trust Authority	95%	45%
BTA / Workers' Compensation	Ohio Bureau of Workers' Compensation	100%	100%
Aggregate Discretely Presented Component Units	Bowling Green State University; Central State University; Cleveland State University; Kent State University; Miami University; Ohio State University; Ohio University; Shawnee State University; University of Akron; University of Cincinnati; University of Toledo; Wright State University; Youngstown State University; Cincinnati State Community College; Clark State Community College; Columbus State Community College; Edison State Community College; Northwest State Community College; Owens State Community College; Southern State Community College; Terra State Community College; Washington State Community College; and JobsOhio.	98%	96%
Aggregate Remaining Fund Information	State Highway Patrol Retirement System, Public Employees Retirement System, Police and Fire Pension Fund, State Teachers Retirement System, School Employees Retirement, Treasurer of State Lease Revenue Bonds System, State Treasury Asset Reserve of Ohio, Office of the Auditor of State, and Tuition Trust Authority	97%	86%

Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for these independently audited organizations, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement. The other auditors audited the financial statements of JobsOhio, which represents six percent of the total assets and three percent of the total expenses of the aggregate discretely presented component units, in accordance with auditing standards generally accepted in the United States of America and not in accordance with *Government Auditing Standards*.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the State's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the State's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Ohio, as of June 30, 2013, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparisons for the General and Job, Family and Other Human Services funds thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 2 to the financial statements, during the year ended June 30, 2013, the State adopted the provisions of Governmental Accounting Standards No. 61, *The Financial Reporting Entity: Omnibus*. We did not modify our opinion regarding this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's Discussion and Analysis* and *Schedules for Infrastructure Assets Accounted for Using the Modified Approach*, listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements.

We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the State's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this information to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling these statements and schedules directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 20, 2013, on our consideration of the State's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State's internal control over financial reporting and compliance.

Dave Yost
